Baird Pledged \$167,200. at War Loan Rally Saturday

The War Bond Rally held in Baird last Saturday was a splendid success \$167,200.00 being pledged.

The largest pledge was \$50,000.00, by the T & P Rail Road Company; Next was \$25,000.00, by the Baird Refining Company;

Next was \$10,000.00 by the Baird Municipal Power and Light Plant;

\$5,000.00 each by Mrs. Clay Jones and Colonel Dyer.

There were numerous pledges of one, two and three thousand dollars.

The drive was directed by Major David J. Evans of Camp Berkeley, who brought a 29 piece M. R. T. C. band and some heavy armored equipment with him, and the Major proved himself a splendid entertainer and the citizens responded liberally to his call for pledges.

Sheriff Bora Brame conducted an auction which was highly successful, a number of articles being auctioned including groceries, rugs, ladies hats, etc.

Judge B. H. Freeland County Chairman, C. B. Snyder, Jr., local chairman and D. J. Anderson, vice-chairman were highly pleased with the results of the rally and all feel indebted to Major Evans and his co-workers for their splendid help in the drive.

Cross Plains reports \$71,000.00 pledged at their rally Saturday.

We have no report from Clyde, but they too are working.

Oplin will hold their rally Saturday night and Bayou will hold theirs tonight.

There is no report from Putnam yet—but Mr. Snyder has his fees well organized in the school as well as with the citizens and is working right along.

While the county is short about \$100,000.00 of our quota of \$342,100.00 we feel sure that the citizens of Callahan county will meet it—we have NEVER FAILED.

SOME SIDE LIGHTS OF THE RALLY

Justin Anderson sold his socks to George Berry for two, one thousand dollar bonds.

The Baird I. O. O. F. bought \$200 in bonds making a total of \$3200.00 the lodge has put in war bonds this year.

The first child to buy bonds was Mary Ross, little daughter of Mayor and Mrs. Hugh Ross, who bought \$500.00 in bonds.

Stan Johnson bought a bond with money from the sale of a calf.

Dickie Eastham bought a bond to help his Daddy Lieutenant Eastham in the Air Service.

The two Lieutenants who brought the armored equipment here bought bonds.

A 4-H Club Girl from Putnam, whose name we did not get, bought a \$25.00 bond with money from the sale of chickens.

Madge, Ruby Nell and Stanley Loper bought a bond to help their three brothers, J. W., Lee, and Aubrey who are with the Marines in the Pacific war area.

Billie Fred Hart, Abilene-News newsboy bought a \$25.00 bond. Major Evans had Billie Fred come up on the platform and introduce him to the crowd and asked him why he bought the bond, Billy Fred said, "I saved my money from selling papers to by a bond to help my brother who is in Egypt", his brother is T-Sgt. Buddy Hart.

When Lee Snyder, Superintendent of Putnam Schools stepped up and told the committee that he wanted to pay for Billie Fred's bond and gave his check for the bond. Mr. Snyder is a lover of boys and finds much pleasure in helping them when they try to help themselves. Mr. Snyder recently came to Putnam. He is a cousin of County Attorney Felix Mitchell

Hurry!
Hurry!
Hurry!

THE END of September is in sight.

And the end of September brings us close to the end of the 3rd War Loan drive.

If you haven't bought \$100 worth of extra War Bonds—extra, mind you—dig up that money and buy your share today!

Men who are fighting for you . . . bleeding for you . . . ready to die for you . . . are waiting for the news that you people at home are backing them up 100%.

They know what invasion costs in blood

and lives. They know, too, what it costs in equipment, munitions, supplies, that must reach the front in a never-ending stream. And they're counting on you for the money that goes to keep that stream flowing.

No matter what you have to sacrifice . . . no matter how much it pinches . . . you cannot let them down!

They're calling on you to hurry, hurry, hurry! Get that \$100 extra into War Bonds before the drive is over.

Safety Courses Taught In Public School

Despite the fact that last year an all-time low in accidental deaths connected with the nation's schools, R. B. Roaper, president of the Texas Safety Association, today urged Texas to exercise extreme caution in their driving habits this month.

"We owe it to the soldiers, overseas fighting for the freedom of his children, to see to it that these children are not killed at home due to carelessness," Roaper said.

The safety official quoted figures from the National Safety Council showing that accidental deaths of school children in 1942 decreased 7 per cent from 1941, and attributed the improved record to safety education. He pointed out that since 1922, the year a definite safety education program was launched, accidental deaths of school children have decreased 30 per cent.

Roaper stated, however, that only one out of every three deaths of school children last year was caused by a motor vehicle accident, and urged school officials to see that accidental hazards in the schools themselves are minimized. Thirty-six per cent of the accidents last year were on the school grounds or in the building—a third of those in the building occurring in the gym and half of those on the ground happened in unorganized play.

The safety association head asked schools superintendents to take advantage of the State Department of Education's offer to give credit for safety courses taught in the schools this year.

Judge and Mrs. J. H. Carpenter Dudley, were in Baird Monday.

Lieut. J. Brown Bags Jap Bomber

Lieutenant Jasper Brown, son of Mr. and Mrs. E. F. Brown of Belle Plain brought down one Jap bomber and probably another in a raid Monday.

Twenty-seven Japanese bombers escorted by from 20 to 30 Zeros ventured a raid Monday on headquarters air base in China, as a Japanese aviation day event got a flaming reception.

Fifteen twin-engine explosive carriers and two Zeros were definitely shot down, seven other bombers and two Zeros probably were destroyed and three bombers and our Zeros were damaged. The total confirmed is expected to be increased by location of the wrecks of additional planes on the ground.

P-38 and P-40 fighters intercepted the enemy over the target area forcing the bombers to salva their loads inaccurately. The bombs caused only minor damage.

Sam Cutbirth, Pioneer Rancher of Callahan Died Monday

Sam Cutbirth a pioneer rancher of Callahan county died at his ranch home near Fresno south of Houston Monday night at 10:30, death coming suddenly from a heart attack.

The body accompanied by the family was brought to Baird Wednesday and lay in state at the home of deceased nephew, Dr. and Mrs. V. E. Hill until the hour for the funeral, 3:00 p. m. Thursday, at the Methodist Church, the services being conducted by Rev. W. B. Hicks pastor, assisted by Rev. A. A. Davis, pastor of the Baptist church.

The body was carried to Belle Plain cemetery for burial in the family plot where beneath the beautiful oak trees, fanned by the breezes of our beautiful West Texas, he will sleep forever by the side his loved ones—so many of whom are sleeping there. The new made grave was covered with many beautiful flowers, silent tokens of the love and esteem in which "Little Sam" Cutbirth was held by his loved ones and friends.

Pallbearers were: Lee Guthrie, Earl Gill and Bob Holly of Brownwood, Fred Cutbirth, Ernest Hill and Murry Cutbirth.

Sam Cutbirth "Little Sam" as he was called by the family and old friends was the second son of the late Mr. and Mrs. Sam Cutbirth, Sr. He was born July 22, 1873 at Pilot Point, Denton county and when 4 years of age his parents moved to Callahan county, living for some years at Belle Plain where "Little Sam" grew to young manhood—being associated with his father and brother in the cattle business. At one time Sam Cutbirth and sons grazed 8000 head of cattle from Texas to the Indian Territory.

The Cutbirth family moved to the Concho country in 1903, settling in what was later to be Reagan county which they helped to organize. Sam Cutbirth lived there until 1918 when he moved to Brownwood. In 1939 he moved to Fresno, south of Houston where three sons had lived for some time. He operated a stock farm of Hereford and Brahma cattle. He was arranging for the winter feed for his stock all day Monday before he died at 10:30 p. m.

Mr. Cutbirth was married twice, his first wife being Minnie Edna Seale, sister of the late C. C. Seale rancher, also of Belle Plain. Three sons were born to this union, Sam T. Cutbirth, J. Brown Cutbirth and Edna Seale who died at the age of 3 months, soon after the death of his mother. He was later married to Omera Fraser, eldest daughter of the late Dr. S. T. Fraser, pioneer physician of Brown and Callahan counties. One son J. W. Cutbirth was born to this union, who with his mother, two brothers, Sam T. and J. Brown Cutbirth, survive. All three sons live in Houston where they are engaged in the oil business. He is also survived by three grandsons and two grand daughters; Seale Tippen and Trelton, sons of Mr. and Mrs. Sam T. Cutbirth, Sandra Ann and J. Brown, Jr., children of Mr. and Mrs. J. Brown Cutbirth and Vickie Sue, daughter of Mr. and Mrs. J. W. Cutbirth. All members of the immediate family, except Mrs. J. W. Cutbirth and baby accompanied the body to Baird.

Deceased is also survived by two brothers and four sisters, W. J. (Pomp) Cutbirth of Big Lake; J. R. Cutbirth of Austin, Mrs. Ida Hill, Baird; Mrs. Leona Seay, Austin; Mrs. Beulah Lucas, Austin and Mrs. Myrtle Hickman, Brownwood.

All were present with other members of their family for the funeral. It was one of the largest gatherings of members of a family at a grave side in Belle Plain cemetery, where so many of the pioneers of Callahan county are buried.

Sam Cutbirth was a true Texan a pioneer generous and kind hearted always interested in the welfare of his loved ones and friends.

New Regulations In Welfare Department

Johnny Winters, new executive director of the State Department of Public Welfare—the department that administers the Old Age Assistance, Aid to Blind and Aid to Dependent Children Programs—dispatched a newly-written rule book today to the field workers in the county officers throughout Texas.

The new manual contains instructions for a reorganized assistance program an dhas 65 pages, which is just 212 pages less than the one it replaces. It becomes effective on October 20 after expected Social Security Board agreement.

Supervisors have been summoned to regional meetings throughout the State to study the new rules. State office officials are being sent to these meetings as instructors.

Expressing the hope that the new plan will not "create a public sensation, but will be accepted by the state as the only way out," Winters said that "those on the rolls who are actually in need should have no worries about the changes. They are the ones the changes are designed to protect and help. The department will do its best to make the available money go to the persons who need it most. The public must realize also that the effect of these changes will not be instantaneous. It will take 12 months to finish the job of readjustment since each of some nearly 200,000 cases in three programs must be individually reviewed."

"Within a statutory framework, the legislature requires the welfare department to promulgate rules of eligibility for defining and determining need," the welfare director explained. "Our definition of need as been re-examined in an effort to provide money for the essentials first. With limited money available very dollar must go where it is most needed. We are forced to rule out allowances for purchase of semi-essentials and can no longer afford to overlook resources that could be tied to meet needs. In this way we hope to shift a great deal of money now allocated for expenditure on semi-essentials to the purchase of absolutely essential needs. This will result in more money to persons who are most needy and less money to those who are not so needy. In assistance programs, set up by law for the sole purpose of relieving need, this course is logical and I believe that it deserves and will receive the full support of the people of the state."

Winters said that just as soon as his field staff was prepared to give information on the changes, full information concerning the most important readjustments will be released to the public.

Bigger Crops From Liquid Fertilizer

A conservative estimate is that "changing from dry to liquid fertilizer would increase the nation's annual production of tomatoes by 200 to 500 thousand tons," Wallace S. Moreland, of New Brunswick, N. J., assistant to the president of Rutgers University declared in a General Electric Science Forum address at Schenectady, N. Y.

Mr. Moreland, former New Jersey Extension Service editor, said that two scientists who pioneered in liquid fertilizer research, Dr. Victor A. Tiedjeans and Professor Lyman G. Schermerhorn of the New Jersey Agricultural Experiment Station at Rutgers, also believe "liquid fertilizer would increase our sweet potato crop by 10 to 20 million bushels."

"They are of the opinion that equally significant increases could be obtained with many another vegetable crop," Mr. Moreland said. "This method of fertilization is one that can be utilized with equal facility by the commercial vegetable grower and the victory gardener. For each, liquid fertilizer is the key to more food from the same crop area at lower cost."

"You take any chemical fertilizer that we are accustomed to apply to the soil in the dry state, mix it with water, and you have liquid fertilizer," he explained. He said there is "less plant injury from fertilizer," because the roots are not burned, and "bigger crops from the same area, and less fertilizer is required to make the bigger crop." Experiments have proved this, he said.

Cover Crops In Winter

Cover crops in winter and strip crops in summer are furnishing year round protection on peanut land (as shown in the accompanying picture).

More and more peanut land is being wind-stripped during the growing season with crops producing sufficient vegetative cover to prevent blowing. Common crops used are sorghums and peas. H. M. Alexander of the Dudley community has found serotalaria a good residue producing crop and, being a legume, also a good soil builder. The residue resulting from such crops decreases blowing primarily in fall and winter. Formerly it was considered best to wind-strip with eight rows of some crop and eight rows of peanuts. However, with the all for increased peanut acreage many farmers are now trying eight rows of peanuts and four rows or another crop. Particularly with this practice, a winter cover is being used to good advantage in holding the soil after peanuts are removed.

In the photograph can be seen the length of roots of rye as shown against a white background. Such roots prevent both blowing and ashing of soil. Mr. Klyce Franklin of the Hawley section reports that several farmers in his neighborhood, including himself, are planning to broadcast rye before they harvest peanuts and are going to depend on the harvesting process to cover the rye. This practice has been found profitable in the older peanut growing sections, and according to peanut growers in this section it will be used here to greater extent as farmers notice how easily he soil blows without protection.

CIVIL SERVICE EXAMINATION

With the weather becoming more and more a weapon of war, Uncle Sam needs additional junior observers in meteorology to record, compute and chart weather observations. Elva L. Smith, acting local civil service secretary, said today, announcing a civil service examination for this federal job.

"Applicants must have graduated from a standard four year high school or they will be required to take a general test in addition to the junior observer in meteorology aptitude examination," Mrs. Smith said.

Persons who pass the examination will be considered for employment with Weather Bureau Stations in Arkansas, Louisiana, Oklahoma, Texas and New Mexico.

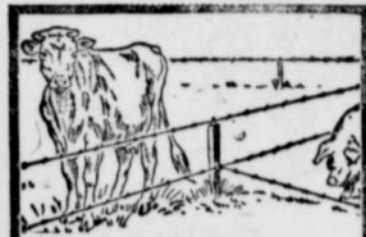

The minimum age limit for this position is 17 years. There is no minimum.

"Appointees will be given instruction in weather observing, weather coding, and the plotting of weather data on maps during their training period with a starting salary of \$1440 a year plus overtime," Mrs. Smith explained. "Rapid advancement to \$1620 a year plus overtime is offered to those who successfully complete the training course."

Persons interested in this federal employment should secure an application at any first or second class post office and file it immediately with the director, 10th civil service region, 210 S. Harwood St., Dallas, 1, Texas.

All appointments will be made in accordance with War Manpower Commission rules.

WHY ADVERTISERS SHOULD RUN WAR BOND LINAGE

- 1. Winning the war is vital to the survival of their business. 2. Financing of the war is primary. It is the basis of all war efforts. 3. War bonds and stamps must be sold in tremendous volume to the public to control inflation. That control is essential to the stability of business. 4. Consistent and extensive local newspaper advertising with its complete coverage, extraordinary influence in its territory, and excellent record of productivity is necessary to obtain adequate sale to the public. 5. Purchase of war bonds and stamps will build a tremendous reservoir of reserve buying power that can sustain and stimulate business after the war. 6. Bonds bought by the public will be a reserve against possible unemployment and unrest during the period of conversion to a peace-time economy after the war. 7. A donation of advertising space gives the Treasury more than the value in dollars and cents because it encourages even greater investment in bonds and stamps. 8. Participation in advertising war bonds and stamps is good will advertising inserted under most favorable conditions. 9. The cost of advertising is a deductible item for income tax purposes.

"A LUNCH-BOX FULL Isn't Enough!" for a DEFENSE WORKER

» » It might satisfy—but just any hastily packed box of food won't give the strength that defense workers need and must have!

» » It's those invisible little particles called "Vitamins" which have to be in that lunch box if I'm to have the "Fighting Food" that's necessary these days.

» » Those precious food elements grow in fresh fruits and vegetables; they put the goodness into meats; but they have to be protected.

» » The food in my lunch box is cooked on an electric range and stored with electric refrigeration before be-

ing combined tastefully and correctly into well-planned lunches.

» » The electric industry, under business management, anticipated the needs of defense workers years ago—in advance of the present emergency. They went to work to build—in order to supply the power for appliances which make possible the preparation and preservation of food—so necessary on both the fighting and home fronts.

The club president, Mrs. Viva Tucker, outlined the year's work. Mrs. L. L. Blackburn gave a talk on War Work in Baird. The club voted to buy a \$25.00 bond to help in the Bond Drive. The next meeting will be held in the home of Mrs. Clayton Reed, Sept. 29th.

Mrs. George Biggerstaff Presents Views On Method Of Teaching

This is an age of uniform methods of teaching. It's an age when children and our young people are being taught by the most efficient teachers, using the most modern and pedagogical methods of teaching. Individual attention is being emphasized as never before. The teacher who studies the pupils individual needs is a real teacher. Individual attention gives the teacher an opportunity that every real teacher covets. The opportunity to get into the pupil's heart and help him with the real issues of life. Schools are to teach the subjects laid down in our text books but the greatest work any school can do along with these is to inculcate those noble principles so vital to life. The physical, moral and spiritual development. To neglect these is failing to grasp the greatest God given opportunity that comes his or her way.

The way we spend our time is an accurate index to our character. When teachers point out the commendable disposition of a pupil's leisure hours, it is truly an incentive to a more wholesome attitude toward authority and discipline. When our boys and girls attend such a well organized school 5 days a week, taught the subjects of a secular education by the most efficient teachers. Then on Sunday, "one day in a week go to Sunday School" and are taught by poor and inefficient teachers, who have very little interest in the best methods of teaching, and are unprepared teachers, with little knowledge of the Bible.

Those Sunday pupils will soon lose interest and decide the lessons in Sunday School of the Bible as presented by disinterested teachers, are not as interesting and as important as the subject of a secular education. When we realize the importance of our individual contact, our needs as teachers as well as individuals needs of our pupils, our Sunday School will grow.

THE LEAST WE CAN DO FOR HIM— IS TO DO MORE IN SEPTEMBER!

Here's what YOU must do to Back the Attack

NOW, as America goes all out for the INVASION—your dollars must join the fight, too! For the very least you can do for your country—and for your loved ones doing the fighting—is to invest in MORE War Bonds in September. Think of Jim fighting with Eisenhower... or Bill with MacArthur in the Solomons... or Bob up in Kiska. They've given their pledge to fight—and die if need be—for their country. They're ready to go all the way. And we at home must see them through all the way, too! That means every individual in the country who earns a wage or draws an income or has accumulated funds must invest in at least one EXTRA \$100 War Bond if he can possibly do so. Those who can, must invest more. This in addition to your regular War Bond subscription. Yes, the least you can do for your men in service is to do MORE in September. MORE in the safest securities in the world—U.S. Government War Bonds. But do it now—it's for the INVASION!

Gold Star Memorial Services

The remains of many of our boys in the armed forces who have been lost in action are not now recoverable. We consider it part of our duty, as well as a moral and patriotic obligation to the families of this community to offer our facilities without charge for Gold Star Services commemorating any Callahan County hero for whom it is impossible to provide the usual funeral service.

CIVIL SERVICE EXAMINATION

The spotlight of federal employment today fell on laboratory mechanics, familiar with electrical, electronic, machine shop, automotive and general shop or laboratory equipment when the Civil Service Commission announced the urgent need for this kind of personnel for employment in the National Bureau of Standards and other federal agencies in Washington, D. C.

"Persons must have six months of appropriate mechanical experience or training for the lowest-graded positions, and additional training for the higher-paying positions." Elva L. Smith, local civil service secretary, said, pointing out that no written test will be given. Mrs. Smith also announced that the Commission will continue to accept applications of technical aid, quartz crystals through November 10.

In interested persons should get full information and applications forms from any first or second class post office about this federal employment.

Applications should be sent to the U. S. Civil Service Commission, Washington 25, D. C.

Persons using their highest skills in war work should not apply. Federal appointments are made in conformance with War Manpower Commission rules.

KEYS LOST—Red and white key holder with chain at each end—2 keys attached. Reward for return to George Crutchfield's Service Station.

What You Buy With WAR BONDS

Water Camel

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 30 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department
