Prevention Week Should Be Served Here

Local Fire Prevention Week is held from October 5-10 inclusive, according to B. M. local insurance agent. He demands that every one do his part in the prevention of fire because now, more than ever, is sabotage of the nation's

leaders are unanimous in their desire to clean up their business and homes, to remove any and all hazards.

Queen To Be Named When Scrap Is Collected

Look scrambled to some time in the future school miss will be chosen "Queen" and honored for her scrap collecting ability. "Scrapers" will be battling Uncle Sam in gathering metals, rubber, and what-

section with the state-wide scrap drive throughout the O'Donnell school pupils will be gathering scrap and the winning the largest weight a queen picked.

It is to donate all you can of your youngsters call and in your place.

DO YOU HAVE ANY SCRAP

TO DONATE TO THE SCHOOL OR RED CROSS

The need for Scrap is urgent. In cooperation with other newspapers over the nation, the Press has entered into this drive. If you have any scrap and wish to donate to the Red Cross, call 150 or Dr. J. M. Bubany at the Whitsett Drug Store.

Or if you wish to donate to the school, call the high school.

If you wish to sell it, take it to Bud Pugh Wrecking Yard.

Remember - if you are holding out because you don't want a "junk dealer" to handle it, forget the idea. All scrap MUST go through junk dealers - they are the only ones capable of classing and sorting the scrap. Your government wishes it handled this way.

And don't forget your junk dealer is just as patriotic as the next person and is doing his best also to win the war.

Regardless of how much you have, or how you want it handled, get in the scrap!

Druggists Observe 'Advertised Brands'

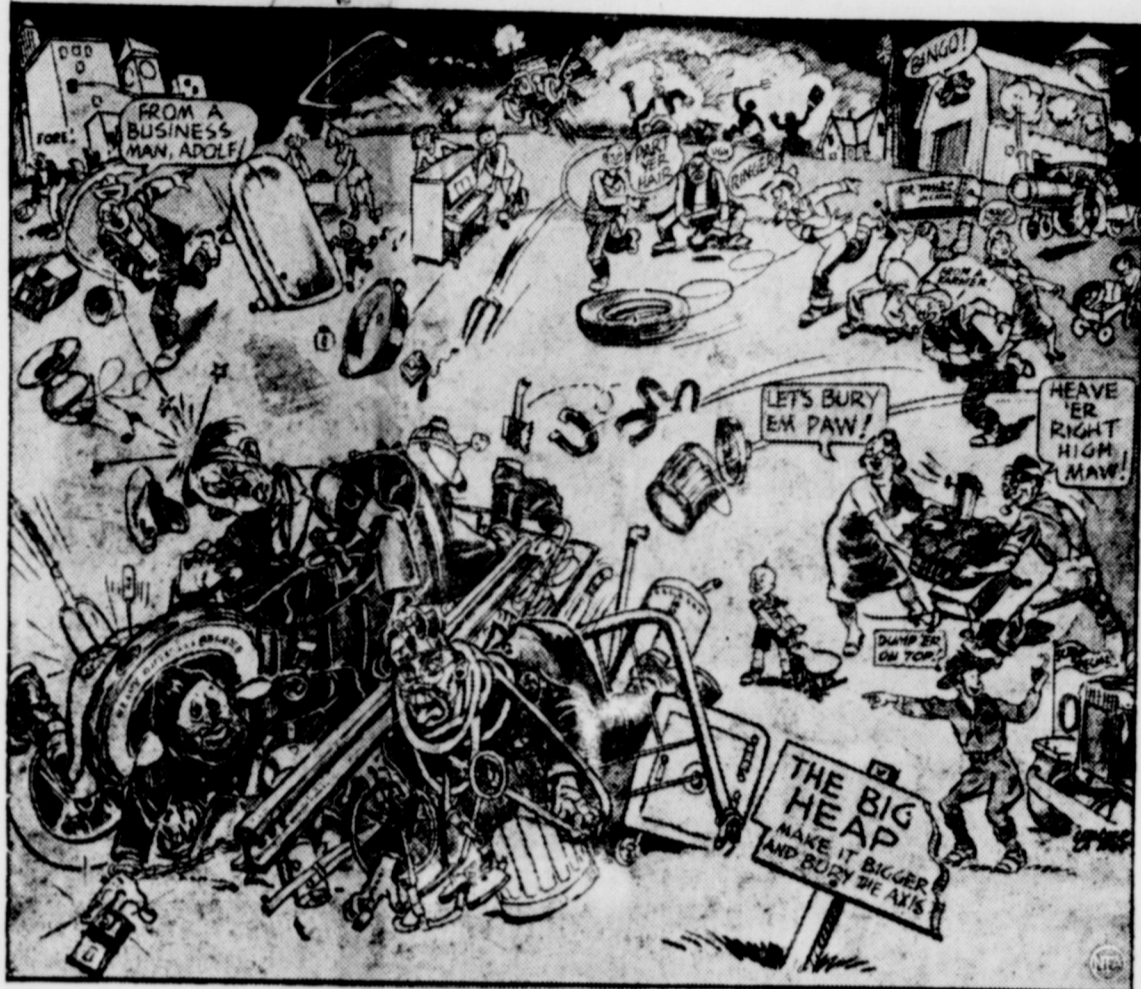

"Advertised Brands" Week is being observed by your home-town druggists from October 2-12, and many nationally advertised items are being featured at lower prices.

Your home-town druggist is a booster for your town. He donates to every worthy cause, seldom lets his people and community down. On some items (generally "bait" to trap the unwary), other town druggists may advertise certain items lower than your O'Donnell druggist quotes, but a safe guide is to buy from your O'Donnell druggist.

Homes near O'Donnell have been destroyed by fire or other causes; churches have needed financial help; schools have asked for aid; civic clubs have asked for donations; and countless other causes have contacted the O'Donnell druggists and you can find but few times that your druggists have failed to respond. But how many times can you name when an out-of-town druggist has done one single, solitary thing for O'Donnell's churches, schools, organizations, people?

'NOT A SLACKER IN THE LOT...'

THIS cartoon was first published by the Omaha World-Herald, originator of the "Nebraska Scrap Plan." In three weeks the people of Nebraska collected 136,171,012 pounds of scrap metals for war industries. That was 103.4 pounds per capita for every man, woman and child in the state. (NAME PAPER) believes that the Citizens of (NAME STATE) are equal to Nebraska's challenge. Let's get out the scrap to bury the Axis!

543 Bales Cotton Ginned In City, 2,500 In County

TAHOKA, October 1 (Special) - With the return of fair weather, Lynn county farmers have started harvesting one of the county's largest crops.

Though pickers from South Texas have not arrived in large numbers yet, Tahoka gins had turned out 543 bales up until noon Thursday, and there had been approximately 2,500 bales ginned in the county.

Many farmers are busy with the harvest of enormous grain sorghum crops, and lines of wagons and trucks are formed at local feed buyers and grain mills. Maize was bringing 76 cents per hundred on Thursday.

Much of the cotton received was reported to be "a little green". But the bolls in most fields are drying out and popping open at a rapid rate with the coming of fair weather, following a week of rainy and misty weather.

Many farmers had written Mexican pickers not to come until Oct. 1 to 15, and many pickers are expected to arrive this week end. Ginners say they expect to be running 24 hours a day next week, if everything is favorable.

This year's cotton crop is being estimated variously at from 70,000 to 100,000 bales.

Buster Phipps Suffers Foot Injury Saturday

If you would like an expert on the weight of horses, or a certain horse, you might inquire of Buster Phipps, who knows by experience.

A painful foot injury was sustained by Phipps Saturday night when a horse he was riding, stumbled and literally "sat down" on the rider's foot.

That's Phipps' story, anyway, and he'll stick with it.

S. D. Dabney, 57, Dies At Draw

TAHOKA, October 1 (Special) - Funeral services were conducted in the Draw Methodist Church at 4:00 p. m. Thursday, October 1, for S. D. Dabney, South Plains pioneer, who died at his home south of Draw Wednesday about noon, after being confined to his bed for the past two years. Rev. Jesse Young, pastor of the church, conducted the services following which the remains were interred in Draw cemetery.

Mr. Dabney, 57, had moved from Dallas County to the Plains about 25 years ago and had engaged in farming until a malignant disease, from which he died, forced him to retire.

Mr. Dabney leaves his wife and three children, Lorene, Wilma and Wesley Dabney, two brothers, Geo. W. Dabney of Big Spring, H. C. Dabney of Menard, and a sister, Miss Josie Dabney of Fort Worth.

THANK YOU!

Youth Is Jailed For Car Theft

Don Hall, O'Donnell youth, is in the Lynn county jail charged with car theft following his arrest at Tulla early this week.

He is alleged to have stolen a car from the John Ellis garage at O'Donnell Saturday. Sheriff B. L. Parker was soon on his trail and his arrest was not long delayed.

Army Air Forces Need Mechanics

The Army Air Forces can use men who cannot pass the physical examinations for general military service, according to report Saturday from Lt. Col. Marvin B. Durette, District Recruiting and Induction Officer at Lubbock.

Age limits are 18 to 50 and the applicants should have some mechanical or radio experience. Those who have been placed in the 1-B classification by their Local Boards are eligible for enlistment now.

Any one mechanically inclined who has been making a livelihood through some mechanical trade, even though he has some physical defects, is thus eligible for enlistment into the Air Forces where he is needed, to help "Keep 'Em Flying."

Partial blindness in one eye, partial deafness, insufficient teeth, loss of a thumb, loss of as many as three fingers on one hand, defects of the feet and other physical disabilities are thus waived.

Now is the time to enlist. Recruiting sergeants at the following Army Recruiting Stations will be glad to discuss the many advantages of the service in the Air Forces with those interested. There are now family allowances for men with families and promotions for mechanics and technicians are usually rapid.

Army Recruiting Stations are located at the following cities: Odessa, Big Spring, Sweetwater, Pampa, El Paso, Amarillo, Plainview, Fort Bliss and Lubbock.

Mr. and Mrs. H. Kirschner of Brownfield, Mr. and Mrs. Martin Kirschner and children, of Kansas City, Mo., were guests of Mr. and Mrs. Harry Clemage Sunday. The group also visited relatives in Lamesa Sunday afternoon.

Miss Adelle Haidy of Borger has been visiting her sister, Mrs. Charles Cabool and Mr. Cabool.

Mrs. Roy Everett was visiting in Lamesa Thursday.

Supt. W. E. Hancock of Chillicothe visited his mother, Mrs. W. W. Hancock, last week end.

Mrs. W. L. Palmer and Mrs. Fay Westmoreland visited Miss Yvonne Westmoreland in Lubbock Saturday.

Freedom Of Press Means Nation To Be Kept Free

In observing National Newspaper Week throughout the nation, most newspapers stress angles of the freedom of the press, and rightly so. When the freedom of your press is taken away, so much easier will it be to take other freedoms away.

And determined efforts are being made right today by persons high in government circles, in political factions and fans to destroy the people's faith in the newspapers. Every tyrant, every dictator destroyed press freedom as his first blow.

Newspapers are run by human beings, therefore make many mistakes. But how many truths, how many facts have those newspapers gathered together so that the people might know and in knowing, made free to think for themselves.

Daily newspapers are operated differently from weekly newspapers, but all operate under one certain fact - to operate freely they must depend upon advertising. Subscriptions would not begin to pay the cost.

And only the misinformed think that advertising makes costs of products higher for the buyers. Facts prove otherwise to those that think and read.

Under the American system of free enterprise, advertising is a vital tool for the man with an idea.

To you, this is what advertising means:

It keeps you informed of new products and services; it helps you select the best; it helps reduce prices because it builds mass markets and permits mass production; it gives you inexpensive newspapers and magazines; it helps create new employment; it helps build bigger payrolls and countless other functions.

Your newspaper is just as progressive, just as important, just as large as your town's merchants can, or will, make it. You cannot print 8, 10, 12 pages weekly when there are only enough advertisements for two or four pages. Whenever you see other newspapers, scan the advertisements or then count the pages. And those advertising merchants are not advertising because they and the editor go to the same church, the same club or because he admires the way the publisher combs his bald head. They advertise because they have learned that advertising, consistent advertising week after week, pays dividends. And because he considers it a service to his customers.

If your merchants are not informing you of their bargains, keeping you posted, and giving you a complete service, ask them why. In 1917, 17 large national firms decided they would not advertise during the war. Not one of those 17 are in existence today. Six were absorbed by competitors. Look through your newspapers, your magazines. Look at those auto ads, tire ads, ads from companies which are not turning out their peace-time products. Do you suppose they are spending that money for the fun of it? They are advertising to keep YOU aware of their business and their existence until after the war, and then they will readily quickly for peace-time business.

Demand and see to it that your newspapers are kept free. Then your nation will be kept free.

Hugh McLaurin, who underwent surgery in a Dallas hospital recently, was brought to his home last week. His condition was not changed.

WEEKLY NEWS ANALYSIS

Curb on U. S. Civilian Meat Consumption Eases Supply Problem for Armed Forces; Hitler's Russian Time-Table Slowed Up; 'Work or Fight' Is Edict of Draft Head

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper. Released by Western Newspaper Union.

Two Australian seamen, W. D. McBurnie (left) and F. E. Miller, are brought ashore in a lighter at an Australian seaport after being wounded in action in the Solomon Islands. They are survivors of the Australian ship Canberra which was lost in action when American marines and naval units supported by Australian forces made their historic attack on the Japanese-held Solomon Islands.

RUSSIA: 'If Winter Comes'

Chill autumnal winds that swept the Russian steppes had reminded the Nazi invaders that Adolf Hitler's timetable of conquest was behind schedule. Every day the Russian lines held was that much time lost for the Germans. Every day they held was that much closer to winter.

Up the Volga river from the Caspian sea to beleaguered Stalingrad had come a Soviet naval flotilla. There, southeast of the city proper, the ships poured shellfire on the attacking Germans, answering the thunder of the big guns the Nazis were using to reduce the city.

While the heroic Red forces had held their ground and even forced the Germans back in places, the situation remained grave. Defeat on the Volga would mean incalculable injury to the Russian war effort, with vital communications disrupted and the connecting Red armies of South and Central Russia split.

In the Caucasus, the Germans still had goals to reach. Still in the hands of the stout-hearted Red defenders was the south and eastern half of the peninsula.

DRAFT EDICT: 'Work or Fight'

A "work or fight" edict to end the occupational deferment of men who stay away from their jobs or go on strike in war plants loomed as Maj. Gen. Lewis B. Hershey, director of selective service made public an amendment to selective service regulations which stated:

"Whenever the director of selective service advises a local board that a deferred registrant or group of deferred registrants is not supporting or is adversely affecting the war effort or the national health, safety or interest, the local board shall immediately terminate the deferment and consider anew the classification of such registrant or registrants."

Local boards hitherto had authority to reclassify such persons and in a number of instances had done so.

ALEUTIANS: 'Japs' Wings Clipped'

Heartening news from Alaska was brought to Washington by Congressman Warren G. Magnusen on his return from an official visit to American fighting forces in the north. The navy, said Mr. Magnusen, had definitely turned Japanese occupation of the Aleutian islands to our advantage.

"The situation is good in Alaska," he said. "The joint army and navy command is clearly new offensive-minded. The occupation of the Aleutian islands by Japan has been turned to our advantage by the navy, giving us the opportunity to sink Japanese ships we otherwise would have been unable to get to."

"The navy has clipped Japan's offensive wings if she had any idea of using the Aleutians as a stepping stone for an attack against Alaska."

HIGHLIGHTS . . . in the week's news

MEXICO CITY: Reporting that higher prices for silver bullion in the United States were draining off Mexican silver money, the treasury ministry announced that it had banned the export of silver coins. The ruling would have the effect of making Mexican citizens and tourists leave their change behind when they crossed into the United States, thus conserving the supply.

MEAT RATION: Aids Armed Forces

A voluntary meat ration of 2 1/2 pounds per week for every American was urged by Secretary of Agriculture Claude R. Wickard when he announced that civilian meat consumption during the last three months of 1942 would be restricted to approximately 79 per cent of the amount delivered by packers for civilian use during the last quarter of 1941.

After January 1, it was indicated, rationing coupons will be issued.

In his role of chairman of the War Production board's food requirements committee, Mr. Wickard disclosed that to assure sufficient meat for army, navy and lend-lease needs, deliveries of beef and veal to civilians would be 80 per cent of the amount sold during the last quarter of 1941; lamb and mutton deliveries would be 95 per cent; and pork deliveries 75 per cent.

The proposed 2 1/2 pound weekly meat allowance, he said, was entirely adequate for good nutrition. Individual households may use any method the family prefers in effecting the rationing, he added. However, if there are invalids, aged persons, young children, or vegetarians in the home, the housewife should reduce her purchases accordingly.

Simultaneously with his announcement of a limitation in the civilian meat supply, Secretary Wickard warned of a food shortage "in the not too distant future" in urging congress to consider labor draft legislation as one means of halting the mass exodus of farm workers to war industries and the armed forces.

10-DAY MIRACLE: Performed by Kaiser

Shipbuilder Henry J. Kaiser had broken many a naval construction record and been justly proud. But proudest of all was when the 10,500-ton Liberty freighter Joseph N. Teal hit the water in Kaiser's Portland, Ore., shipyard exactly 10 days from the time its keel was laid. This amazing feat clipped 14 days from the previous speed record for shipbuilding.

Addressing shipyard workers, maritime commission representatives and shipyard officials, Kaiser said:

"Our original contract called for the delivery of ships in about 150 days. Many experts shook their heads and said we could not do it. Yet here beside us is this great craft—only 10 days from keel laying to launching. It is a miracle, no less—a miracle of God and of the genius of free American workmen."

Kaiser saw in the new record a promise of future prosperity for America.

"If American brains and ingenuity do what they should do," he said, "I will have no fear for the future. We will have to rebuild what we have destroyed. Prosperity can go on and on."

Meanwhile Kaiser was recruiting an additional 50,000 workers to assist him in the construction of three mammoth air cargo planes as the nucleus of a huge air fleet.

MARSHFIELD: Old 102, a railroad engine that served throughout the World war on Coos county, Ore., tracks and was well-known in logging circles throughout the Pacific Northwest, has joined the army in northeastern Oregon, it was announced here. The locomotive, now an oil burner, first used coal when it went into operation 30 years ago. It is now hauling supplies.

Enemy Propaganda Which Fools Only the Enemy

Photo at left, received from an enemy source and used for propaganda by the Germans, purportedly shows British prisoners of war being carried by German soldiers after the raid on Dieppe. In this raid the Allies took many German prisoners back to England. The caption which accompanied the Jap propaganda picture at right described the bubble blown by Anglo-American propagandists, pointing out that for these U. S. prisoners "large numbers of potatoes are peeled daily, and many pounds of juicy meat cooked." But who eats the spuds and meat is anybody's guess.

Life-Suit Designed to Reduce Torpedoing Casualties

In the first public demonstration of a new, water-tight "life-suit," Coast Guardsman Harold T. Batzer is shown in photo at left with suit on. In photo at right he splashes happily in Lake Michigan, off Chicago, as dry and snug as if he were in front of his fireplace—almost. The new suit is designed to lower mortality from exposure among victims of torpedoings. The suits have already been placed on some merchant ships and tankers.

Pacific War Council Meets in Washington

President Roosevelt posed with the Pacific war council at a recent session. Shown, left to right, are Sir Owen Dixon of Australia, Leighton McCarthy of Canada, Walter Nash of New Zealand, Lord Halifax, Great Britain; Dr. T. V. Soong, China; Dr. A. Loudon, ambassador from the Netherlands; and Manuel Quezon, president of the Philippine commonwealth.

Nazi Raid on Jewish Ghetto in Warsaw

This photo was taken from the body of a German officer killed on the Russian front. Notations on the original describe the photo as having been made by a spy during a raid on the Jewish ghetto in Warsaw. Jews are being driven from their homes and forced to stand facing a wall with hands raised, last week end. Gestapo agents at left are seen.

Notes of an

Innocent Bystander:

The Magic Lanterns: The ballad writers are breaking run records on the major temples, which makes the new list meager. . . The Two Bodies, also known as Betty Grable and Victor Mature, pour the glamour on "Footlight Serenade." This is a happy-go-lucky musical. The story voted for Rutherford B. Hayes, but the tunes and gags help it to hold its age. It is packed with likable troupers, including Jane Wymann, Jas. Gleason and John Payne. . . "Lady in a Jam" reveals Irene Dunne as a hare-brained heiress who winds up with a psychiatrist going "tek tek" at her, but he's making loonier noises on his own later, being in love. The flicker is of the old screwball school. Patrick Knowles and Ralph Bellamy horse around in it. . . The current squabble concerns the soldier in "This Is the Army," who felt that he wasn't doing enough toward the war effort. And so he sat through "Wake Island" twice.

The Wireless: The strut has gone out of the Jap radio. Its spotters are preparing the people for tougher times. The earlier assurances were that beating the Americans was a breeze. . . The patter they write for M. Gross wouldn't be funny if he delivered it in baggy pants and fell on the seat of them every other word. . . The V for Victory series improves with every performance. It has acquired showmanship and gives it plenty. . . Charlie McCarthy returned to the airwaves feeling funnier than ever. Said it was so cold in Alaska "the inhabitants have to live some place else" . . . Bob Shield's crew, weaving the ditty, "Get a Kick Out of You" (with very vety violins) formed a musical rainbow. . . Victor Borge, awarded the Comic of the Year prize last season, isn't to be renewed by his sponsor.

The Story Tellers: The most shocking charges against the Nazis are now being offered by the krait themselves. In acts, not words. "The Black Book of Poland," a record of the German atrocities in that land, sounds like a report on the behavior of savage beasts. . . Ben Stout has compiled the pre-Pearl Harbor quotes of some of the brothers in congress, which will make a book called "The Illustrious Dunderheads." Frank Sullivan will make the introduction, and Gropper's caricatures will make the squirm complete. . . A nice dab of fiction is "Mrs. Willoughby's Letters," by Mary Elizabeth Plummer in Atlantic Monthly. Incidentally, the monthly is on the hustle nowadays going in heavy for promotion, trying to pull away, presumably, from the graybeard clientele. . . The Most Beautiful Girl on Broadway, according to Harry Thompson in Cosmopolitan, hails from Sioux City. She is Constance Moore.

The Front Pages: Proof the Vichy has accepted the brute philosophy of its Nazi masters was confirmed by the poignant headline in one ayem gazette: "Vichy to Japs Priests Aiding Jewish Children." The Mirror's breezy interview with Special U. S. Prosecutor Oscar Ewing (he sent Pelley to prison for 15 years) revealed that his story troops sent Pelley \$10 a month (5 of them) during one month before the trial. After his conviction they sent him about \$150 daily. . . The most arresting news story local was that one about the Very Rev. R. I. Gannon, president of Fordham who publicly confessed that his pro-war isolationist views were wrong and "that President Roosevelt was right" . . . "If," he said, "the President had listened to me, China, Russia and Great Britain would now be prostrate and we should be facing our zero hour alone and unprepared."

Edward G. Robinson, the star was coming out of Dinty Moore's 46th Street rendezvous when someone pointed out Detective John Broderick passing by. . . "Oh, oh!" the famed film hero. "I played Broderick on the screen. I loved to meet him. I've heard much about him." A pal introduced them. "This is a real thrill," said the movie star. "But another thrill I'd enjoy would be to go with you when you are with your colleagues are shooting it with gangsters!" "I don't think you'd enjoy the Mr. Robinson," said Broderick. "When hoodlums shoot at cops they don't use blanks."

One of the more amusing Washington stories (unquestionably true) concerns Halifax and FDR. "Mr. President," the British ambassador is supposed to have said, "when I was viceroy of India, I felt that all of India would be understood me overnight had I wrapped myself in a sheet and on the floor with Gandhi." "Then why didn't you?" asked the President. "Because," blandly bawled the Britisher, "India would have understood—but Britain—never!"

is a vital Fuel for War production. Here are some things you can do to help Uncle Sam by conserving Gas and Gas equipment:

Every month drain off rusty water from the bottom of water heater tank.

Be sure your hot water faucets have efficient washers. Don't let dripping faucets waste money—and more important these days—fuel!

Keep top and oven range burners clean. Keep burner openings unobstructed.

Check up now on your heating equipment to make sure it is in condition to serve you through the coming winter.

Modern Gas equipment is built to endure, so take care of it and it will take care of you for the duration.

You know, I've just been wondering (Wonder if anyone else has), why the patriotic minded didn't get to ether and suggest removal of old fashioned awnings on the downtown buildings and donate all those nice iron pipes to the scrap heap.

Me being sorta scrap minded, since the scrap drive, I was walking along on main yesterday, not watching where I was going, when "bump" my upstairs apartment came in contact with the best, nice shiny iron pipe that supports the awning on one building—and I looked up to see what part it plays and all in all it appeared to me it would look better, wrapped snugly around Hitler's or Hirohito's neck for a necktie (and make our stores more modern.)

Oh, well—I was just suggesting. And say while we're talking, or running off at the head—wonder why city school doesn't adjourn for a period of one day per week as lots of other schools do, for cotton picking, or do the farmers need any help? Well, I've talked to a few who can't get hands and I supposed people here wanted to be just as patriotic as the next town. Some of the towns in the South Plains are all turning out for cotton picking—doctors, lawyers, bakers, and merchants. Anyway these suggestions are meant purely as a favor and not to harm anyone.

Well I reckon its 'bout time I was calling a halt, 'fore Mr. Editor does, and I find myself all nice and cozy in his waste basket. Which I may do anyhow. But, should this reach the press and having passed censor, why not give it or these suggestions your time and turn it over in your mind.

After all, we won't have the buildings, much less the awnings, if we lose the war, and the buildings will be much more modern and nicer-looking.

DON'T BE FOOLED BY A FULL JUNK YARD!

Don't listen to people who say—"They can't need scrap very badly. Look at that junk yard, or the auto graveyards—they've got plenty of scrap. And remember the last time we had a drive the stuff sat around for weeks." Tell such people these true facts . . .

Of course the junk yards are full. They are "factories" that turn out finished scrap—sorted, broken up, and bundled . . . ready for the mills of America. The scrap has to go through these yards, and it keeps going through fast!

The auto graveyards too, are busy. They specialize in used car parts, but produce plenty of scrap as well. In June alone, these yards moved 450,000 tons—for they are required to junk within 60 days as many cars as they buy.

As for Salvage Depots—communities all over the country are staging

drives. All this scrap can't be taken away at once. The junkies can't handle it and the mills can't store it. But every pound is needed and will be used. We've got to pile it up ready for instant use at any time.

The day when all junk yards are empty, when the auto graveyards are cleaned out, when all the local scrap

stockpiles are gone—that is the day to dread. It is a day to avoid at all costs.

So remember—steel is needed to fight the war, and millions of lives depend on it. This steel is made of 50% scrap—and the mills have not enough scrap to last even 30 days longer. Don't fail to do your part in this emergency.

Get your scrap ready for the drive that starts Monday!

Kidneys Must Work Well For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other wastes that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, swelling, pains, getting up at night, and you may not try Doan's Pills! You may be using a medicine recommended in the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

Her head went suddenly down on the table. She covered her face with her hands. The judge cleared his throat.

my dear?" she said unsteadily. "Seven," she said unsteadily. "I remember her, and living in the country..."

then, with a little trembling return to emotion, "You see, I don't know much about myself. I know my mother's dead, and I suppose my father..."

"I can't tell you very much, Cherry," said the judge, with a straightforwardness as simple as her own, and with a great ache at his heart...

SENIOR NEWS

Well, we're finally going to get some action. The scrap metal drive has reached school, and prior to our teachings, we are going to mix business with fun. We are having a race among classes to see which class will get the most scrap. A prize is to be given to the winner. This Scrap metal drive should be a success because it has the enthusiasm of the school children behind it.

Our class, which is the largest in school, is out to get that prize.

Small Farmer's Place In War

The small farmer is ill-equipped and poorly prepared to meet the demands of the war effort in the opinion of Jack Welch, rural rehabilitation supervisor for the Farm Security Administration in Lynn County.

Recognizing this critical situation, the Secretary of Agriculture has directed the Farm Security Administration to shift its program to the war effort so that the manpower of the small farmer can be utilized to the fullest extent, according to Mr. Welch.

"It is expected that Farm Security's new wartime lending program will release the manpower of 500,000 farmers for the war production," he said. "The Lynn County FSA office is expected to make a great many more loans this year to farmers in this county than ever before because our lending program has been liberalized and our program has been put on a full wartime basis."

The county supervisor said that the lack of equipment and replacements has retarded production and for this reason a share-the-machinery program is to be re-emphasized this year. Loans to groups of farmers to purchase machinery to be used cooperatively will be made to farm

operators in addition to many other types of food production loans.

Loan funds are immediately available to eligible borrowers in Lynn County to conserve feed crops for current needs and future use, to increase the production of dairy products, beef and pork, to preserve food, to purchase equipment, tools, shelter for livestock and poultry, and many other purposes.

Anxious to meet the immediate needs of farm families as well as to help them get ready for increased production next year, Mr. Welch invites all interested persons to contact him at his office in the court house at Tahoka.

HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?

ATTENDANT: Good evening! In for the night?

HE: Yes. Fill the tank, grease her, check the oil, but don't drain.

ATTENDANT: What brand do you use?

HE: Conoco Nth.

ATTENDANT: Sorry, haven't got it . . . but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth out-mileaged the average of five other brands more than two to one. IMPROVED FORM INTERNATIONAL SUNDAY SCHOOL Lesson

WITH IN CHRIST AS OUR PERSONAL SAVIOUR

TEXT—Acts 16:13-15; Romans 5:1

Therefore being justified by faith, we have peace with God through our Lord Jesus Christ, Romans 5:1.

Salvation through Christ is the only way, into the life; therefore, there could be no other subject more suitable for our lesson to begin our series of "Studies in the Life."

Lesson for today tells us first of all that a personal saviour comes into a personal saviour, and then gives Paul's statement of the result of saving in the changed life of the believer.

The Opened Heart (Acts 16:13-15)

Paul and his companions on their errand for the Master, bringing the news of the gospel, were hindered by the closed door; and by the direction of the Spirit through the open door, revealed in the man of Macedonia.

Let's Have a Real Football Supper! (See Recipes Below.)

Football Supper

Thoughts for fall naturally bring to mind fall's favorite game, football, and foods that go well after the game. It makes no difference whether you have been to one of the big games or whether you are going to feed the hungry crowd of youngsters who come in from playing in the nearest available field, the uppermost thought in your mind is good, hot, appetizing food.

Smart management dictates a delicious hot dish that you whisk out of the oven, a crisp salad for balance and contrast to the meal, and a smooth, light dessert. Your crowd will be thirsty, too, so don't forget coffee for the grown-ups and a hot, chocolaty drink for the children.

Do something special for the table—even a little touching-up will bring the appreciative oh's and ah's from your family and guests. Perhaps there are a few chrysanthemums still in the garden or you might try to get together a few, small novelty footballs to make up into a centerpiece. A cloth in the burnished fall colors or deep brown, bright yellow, or what-have-you will mark you as a hostess whose eye is ever on the calendar and season.

Bring on the food! And such food it will be if you serve spaghetti, done up in casserole with plenty of sauce and cheese for extra goodness:

***Spaghetti Creole.** (Serves 8)
2 pounds long spaghetti
2 onions, chopped
1 clove garlic
1/4 cup butter
1/4 cup oil
2 cans tomato puree
2 1/2 cups tomatoes
2 teaspoons Worcestershire sauce
Salt, pepper
1 pound ground beef
Grated cheese

Cook onion and garlic (peeled and a toothpick run through it) in the hot oil and butter, slowly. Remove garlic. Add tomato puree, tomatoes, Worcestershire sauce, salt and pepper. Cook meat in additional fat. Add to first mixture and cook very slowly for two hours. Cook spaghetti in boiling, salted water. Drain and rinse in hot water. Place in buttered casserole, first spaghetti layer, then sauce, grated cheese, and so on until casserole is full. Garnish with an additional slice of bacon if desired. Bake in a slow (325-degree) oven 45 minutes.

Contrast note to the Spaghetti Creole is a green vegetable chilled to a crispness. It's also a good idea to balance a starchy food with something as full of minerals and vitamins as an armload of greens clinging together with a light, tart french dressing:

***Tossed Greens.**
Wash lettuce and separate into leaves. Use several large spinach leaves, carefully washed, and shredded with the lettuce leaves, or small spinach leaves used whole among the lettuce. Shred three carrots, mince one small onion and toss among the greens. Marinate 1 cup

of cooked green beans in french dressing for 20 minutes and add to salad bowl. Add more french dressing and serve.

A bit of the something different for the menu is provided if you serve this salad:

Chiffonade Salad.
Combine cooked, cubed beets with riced hard-cooked eggs and minced onion. Marinate and serve on crisp romaine or lettuce. You can turn out a chili con carne in no time and it's a wonderful dish on these evenings with a fall tang in the air. The kidney beans, tomatoes and ground meat blend in delicious flavor:

Chili Con Carne. (Serves 6)
2 1/2 cups kidney beans
1 large onion, sliced
1 chopped green pepper
1 pound ground beef
3 tablespoons lard
3 1/2 cups tomatoes
1 1/2 teaspoons salt
Paprika
3 whole cloves
1 bay leaf
1 tablespoon chili powder

Brown onion, green pepper and meat in hot lard. Add tomatoes and seasonings. Simmer two hours, adding water if necessary. Add beans and heat thoroughly.

Corn bread is a delightful variation for any kind of dinner but is especially welcome if you serve the golden wedges at your football supper. Piping hot is the order of the day:

***Corn Bread.**
1 cup yellow cornmeal
1/4 cup wheat flour
1 teaspoon baking powder
1/2 teaspoon salt
1 beaten egg
1/2 cup milk
1 tablespoon melted butter

Sift flour and mix with other dry ingredients. Combine egg with milk and add to dry ingredients. Add melted butter and pour batter into a well greased pan. Bake in a hot (425-degree) oven about 25 minutes.

Apples can be found in generous quantities now, so use them for thriftness' sake. To save on your sugar, this recipe calls for part molasses and part sugar:

***Apple Pandowdy.** (Serves 6)
1 Recipe Pastry
4 cups sliced apples
1/2 teaspoon salt
1/4 teaspoon cinnamon
1/4 teaspoon nutmeg
2 tablespoons butter
1/4 cup molasses
1/2 cup sugar
1/4 cup water

Divide pastry into two portions and roll thin. Line shallow baking dish with pastry. Mix apples, salt, spices and sugar and put in pan. Combine molasses with water and pour over fruit. Dot with butter, cover with remaining pastry, press edges together and trim. Bake in a moderately hot (425-degree) oven 15 minutes. Lower temperature to slow (325 degrees) and bake 30 minutes. Remove from oven, chop top crust into fruit, return to oven and continue baking 1 hour. Serve with butter or with plain or whipped cream.

***Football Brew.**
Use 1 heaping teaspoon decaffeinated coffee, regular grind for each cup water. Pour cold water into pot or percolator. Set percolator basket with coffee in it. Cover. Let percolate 15 to 20 minutes slowly and gently.

PATTERNS SEWING CIRCLE

PINAFORE and panties which you can turn out on your sewing machine in just a few hours! Snug little bodice top, full, flouncing skirt, buttons down the back and a lovely big bow make the frock as cunning as any you've seen in a long while. It will be mighty smart in a cheerful gingham—or a plaid wool for fall—trimmed with ric rac.

Pattern No. 8204 is in sizes 1, 2, 3, 4, and 5 years. Size 2 pinafore takes 1 1/4 yards 35 or 39-inch material, panties 1/2 yard, 2 yards ric rac.

Buttoned Bodice.
ALL the ease and freedom you want may be had in this pleasing buttoned bodice frock! A slenderizing fit through waist and hips is gained by the interesting

pieced treatment of the skirt. The top is gracious with its low neckline and the cleverly controlled fullness. While it is a simple dress to make at home, it has ample style interest, too, and an individuality which the smartly dressed woman appreciates.

Pattern No. 8217 is designed for sizes 36 to 52. Size 38, short sleeves requires 4 1/4 yards 35-inch material. Send your order to:

Necessary Evil

Evil is necessary. If it did not exist, the good would not exist. Evil is the unique reason for the good's being.

What would courage be far from peril? And what pity without pain? What would become of devotion and sacrifice if happiness were universal? It is because of evil and suffering that the earth may be inhabited and that life is worth living.—Anatole France.

Erratic Currents

Sometimes natural electric currents are so erratic over one area that they will disrupt telegraphic service, while they are so intense and steady over another that they may be used to send messages without the aid of their power, says Collier's.

An outstanding example of this phenomenon occurred on September 2, 1859, when these currents alone were used to transmit telegrams for two hours over the 100-mile line between Boston and Portland, Maine.

I been readin' about some of these divorces and it seems to me husbands are like automobiles. If you take good care of them, you don't have to keep getting new ones all the time.

And one way of takin' good care of him is to see he gets all his vitamins. And that's where KELLOGG'S PEP comes in. Course it hasn't got 'em all, but it's extra-rich in the two most likely to be short in ordinary meals—vitamins B and D. What's more, PEP'S one grand-tastin' cereal, too!

A delicious cereal that supplies per serving (1 cup) the full minimum daily need of vitamin D; 1/4 the daily need of vitamin B.
