O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, MARCH 9, 1928

NUMBER 23

Wrestling and Boxing Bout Tonight

Public of O'Donnell
an interesting program
both boxing and wrestl-
ing under the auspices
benefit of the O'Donnell
Fire Department will be
the Curtis building across
from Gantt-Hubbard Motor
in which a ten minute wres-
tling will be staged between
a local champion and Stuc-
ky of Tahoka, which promises
worth the money. All
folks know Willis' ability
and it is said Stucky
ever on the mat and equal
with Willis. Several pre-
lims will also be held. General
will be 50 cents and ring-
side 75 cents.

of the evening's enter-
tainment will be an eight round box-
ing bout between Mickie O'Neal of
Tahoka and Jack Denton of Tahoka.
The participants are
fast with the gloves and
those who attend, eight
fast work, provided both
feet to the finish. Each
in training for two weeks
for tonight's battle and
in excellent condition.
Confident of winning the
title there when the gong

WORMS IN LYNN COUNTY

of boll worm scouts con-
sist of six members, who
possibly the days or two
in county in an exhaus-
tive search for pink boll worms, fold-
ed Monday morning and
returned to the county
youth, after announcing
that they had been
found a single pink boll
worm in county. The farm-
ers men of this county
rejoiced by the de-
tection of the pest
which had succeeded in find-
ing a worm, dead or alive, it
means have meant the place
county in a regulated
would entail much redemp-
tion to farmers in the
county.

WORLD ASSOCIATION MET AT CENTRAL TUESDAY

at workers council of the
Association which com-
posed of Terry and Yoakum coun-
ty met at Central Baptist
for their regular month-
ly session. There was one of the
present which has ever
been in the Brownfield Association.
The session was taken up
with a sermon by Rev. Vin-
cent from the 2nd Chapter of
which were also interesting.
May Darby, Sheppard,
Allen, all who are pastors
of the association. There was a
delicious lunch served
at 12 o'clock.
The session was a meet-
ing of the Executive Board, which
deals with business, doctrinal
and other matters.
D. Johnson the Associa-
tion secretary, gave an interesting
report on the work of the
association.

TREADWAY ITEMS

We are very sorry to hear that
Wayne Glasgow, who has been very
ill and is in the Lamesa Sanatorium,
has not entirely recovered.

John Fisher has been digging a cel-
lar during the past week.

Miss Joy May Williamson was taken
very ill last week, but has recovered
considerably.

Miss Wilkinson, a teacher in Mes-
quite school, was visited by her
mother, Mrs. Miller of Ackerly.

We are very sorry to report that
Mr. Gray who has just moved to this
community, is going to move
away.

There is going to be a pie supper
with musical entertainment at the
Mesquite church house next Friday
night, March 9. All are invited to
come, buy a pie, and vote for their
favorite in the popularity contest.

There was a party at Mr. Burriss'
Saturday night. A large crowd was
present and the party was greatly
enjoyed by those present.

"BLACK BOTTOM"

ARE EXHIBIT AT SCHOOL CREATED MUCH INTEREST

The Colonial Art Exhibit sent out
from Oklahoma City, which was dis-
played at the Grade School last week
was very interesting and quite educa-
tional.

The Colonial Exhibit ranks among
the first in its suitability for school
children as a great portion of the pic-
tures are those used in the text book
from the primary thru the grammar
school grades. Over 150 prints were
in this collection, and all are the very
best reproductions from the old mas-
ters.

The different grades sold tickets
for admittance to the exhibit and
each used the proceeds to buy a pic-
ture for their room. The seventh
grade of which Mrs. Gooch is teacher,
sold enough tickets to purchase a
beautiful ten-dollar picture. Mrs.
Gibbs' room the fourth grade room,
bought a six dollar and fifty cent
picture, while every other grade was
able to buy a two or three dollar
print.

The Art Company presented each
room with a lovely picture also.

GILLESPIE OPENS FILLING STATION AND GARAGE

H. E. Gillespie has this week opened
a filling station and garage at the
location formerly occupied by
Hunt's Filling Station just across the
street from the Sorrel Lumber Com-
pany. The station has been thor-
oughly remodeled, finished in stucco,
making a modern and attractive front.
He will handle the well known Con-
tinental Gas and Oils.

A first class repair shop will be
run in connection which will handle
all kinds of automobile repair work.
Mr. Guy Hart will be in charge of
the repair department.

TWO SCHOOL GIRLS THROWN FROM HORSE

Misses Lois Burdett and Ina D.
Everett were horse-back riding Mon-
day afternoon, when the horse they
were riding became frightened, throw-
ing them both. Both girls sustained
slight injuries. Miss Lois having an
arm dislocated, fortunately neither
were seriously hurt so far, as care
be seen at this time. However, both
girls are out of school this week and
confined to their bed from external
bruises.

MISS BEATRICE GARDENHIRE ILL IN HOSPITAL AT LAMESA

Miss Beatrice Gardenhire is in the
Standifer Hospital in Lamesa where
she is taking treatment. Miss Gar-
denhire will possibly undergo an op-
eration sometime this week. The na-
ture of her illness has not been stat-
ed.

Mr. and Mrs. Jessie Lane of the
Plainview community are the proud
parents of a fine baby boy, which ar-
rived on March 2nd. Both mother
and babe are doing well.

Getting Out of Patience

HOLLOWAY ANNOUNCES FOR COUNTY AND DISTRICT CLERK

E. W. Holloway of Redwine an-
nounces this week as a candidate for
the Democratic nomination for county
and district clerk.

Mr. Holloway says that he has de-
cided to ask for this office after hav-
ing given the matter the most ser-
ious consideration, and he expects to
make a thorough canvass of the
county between this date and the
July primaries. He states that he
believes he is fully qualified to per-
form the duties of the office effici-
ently and promises, if nominated and
elected, to give his very best in time
and efforts to serve the people of
Lynn county.

Mr. Holloway has been a resident
of Lynn county for 12 years, having
removed to this county from Parker
county in December, 1915. He is 38
years of age and has a family con-
sisting of a wife and five children,
whom it is his ambition to rear and
educate. During all these 12 years
his home has been in the Redwine
community, where he is now engaged
in the occupation of farming. He
has taught in the public schools of
this state for seven years, three years
of which were in this county, one at
Redwine, one at Draw and one at
Edith. He has a general knowledge
of clerical work and his educational
qualifications are such as to render
him capable of efficient service.

Mr. Holloway has never before been
a candidate for public office, and
while this is his first experience and
while he does not claim to be a poli-
tician, he is assured that many
friends will rally to his support, and
he asks the vote and influence of
every voter in the county. The News
is sure that his candidacy will re-
ceive your most earnest considera-
tion.

UNION SOCIETY HAS BUSINESS MEETING

The J. E. S. of the Methodist
Church had its regular business meet-
ing Tuesday at the home of the supt.

The meeting was opened by two
songs, being sung, followed by sen-
tence prayers, led by Alice Joy Bow-
lin and closed by Beverly Wells.

A round-table discussion in regard
to the Mission Study Program was
discussed at the meeting.

GEO. SHUMAKE SHIPS CAR OF HOGS TO MARKET

Geo. Shumake, local stockman,
shipped a car of fat hogs to the Ft.
Worth markets this week. He and
son Wilbur made the trip to Fort
Worth and will attend the Fat stock
Show while there. They will return
Sunday.

Ed Wall who lives on the J. B.
Miles place east of town, was carried
to a Lubbock Sanitarium on Tuesday
of this week where he underwent an
operation for appendicitis. Latest
reports state he is doing as well as
could be expected.

Important Meeting For Monday Night

The O'Donnell Luncheon Club is
sponsoring a meeting called for Mon-
day night at the City Hall for the
purpose of discussing the Pink Boll
Worm situation and other important
matters. Every farmer in the O'Don-
nell territory and business men of
O'Donnell are urgently requested to
be present. The Pink Boll Worm
situation will be thoroughly discus-
sed and delegates will be elected to
attend the meeting to be held at La-
mesa on March 16th, by the State
Agricultural Department and Boll
Worm Commission at which time
official action will be taken in regard
to the South Plains newly discovered
pest.

Another important subject to be
discussed at Monday night's meet-
ing will be a round table discussion
regarding a Farmers' Co-Operative
Gin for O'Donnell and every farmer
of this territory is urged to be pre-
sent and take part in the discussion.

As to whether or not the Luncheon
Club has any railroad news, we have
been unable to learn, but we under-
stand Secretary J. E. McClung talk-
ed long distance with Capt. Kennedy
a few nights ago and will give the
nature of the conversation at Monday
night's meeting.

NOTICE OF ELECTION

Notice is hereby given that an elec-
tion will be held in the City of O'Don-
nell, Texas, on the First Tuesday in
April, A. D., 1928, the same being the
3rd day of said Month; said election
to be held in the City Hall, in the
City of O'Donnell, Texas, for the
purpose of electing two (2) Aldermen,
for the City of O'Donnell, Texas, for
the ensuing two years;

The polls of said election will be
open at eight o'clock A. M. and will
close at seven o'clock P. M.

Every person not disqualified by
law who shall have attained the age
of twenty-one years, and who is en-
titled to vote for members of the
Legislature, and who shall have re-
sided within the corporate limits of
the said City for six (6) months
next preceding the date of said elec-
tion shall be entitled to vote.

W. R. Sanderson, W. E. Guye,
Grady Gantt, and C. H. Mansell, are
hereby given authority to hold said
election in accordance with the Sta-
tutes of the State of Texas, and to
make returns thereof as required by
law.

Dated at O'Donnell, Texas, this 1st
day of March, A. D. 1928.

E. M. WILDER,
Mayor, City of O'Donnell, Tex.

ATTEST:
W. H. CRUNK,
City Secretary.

PAPERS SUPPORT BILL TO KEEP GOV'T OUT OF THEIR BUSINESS

A bill, backed by 15,000 newspa-
per publishers of the United States
has been introduced into Congress
prohibiting the Post Office depart-
ment from competing with private
business in the printing of envel-
opes. The bill was presented on
December 15 by Senator Oddie, of
Nevada.

It is in line with the policy of
President Coolidge that the govern-
ment should not attempt to do what
can best be done by private enter-
prise. At the present time the gov-
ernment prints return notices on en-
velopes on order from customers. The
sponsors of the bill—National Edi-
torial Association, composed of small
town publishers and printers—believe
that this is rightly business for com-
mercial printers, and not a function
of government.

RUBY KENDRICK SOCIETY MEETS WITH MISSES GATES

The Ruby Kendrick Society met
Wednesday afternoon at four o'clock
with Misses Hester and Mary Joe
Gates.

There were eleven members pre-
sent and every one was happy to wel-
come the new superintendent, Mrs.
D. A. Edwards, into the work, feel-
ing that under her splendid and able
leadership to be able to accomplish
much good. The most pleasant part
of the afternoon was that spent mak-
ing candy for the adopted orphan
at Woca. The next meeting will be
held at the Methodist Church next
Wednesday at four p. m.

Mr. and Mrs. H. E. Williams and
Mrs. Hayes returned from Dallas
Thursday where they had been to
take Mrs. Hays little daughter Syble
and Mrs. Ray Kirkland's little son,
Buddie, to Masonic Hospital for ex-
amination for crippled conditions of
the body. Syble was left in Dallas
for treatment. The operating sur-
geon told Mrs. Hays that the little
girl's trouble was caused from a dis-
located hip, which would have to be
cut into and the muscle stretched for
15 days, also a bone would have to
be grafted on. She will be there
about six months.

The Kirkland child was not left
in Dallas, but will be given treat-
ment.

Mac W. Hancock, the popular
candidate for shreiff of Dawson cou-
nty, was in O'Donnell Saturday.

CONSTRUCTION STARTS ON MILL BUILDING

Work was started first of the
week on the building which is to
house O'Donnell's newest institution,
a big feed mill, which is being built
by E. M. Wilder and Jeff Musick on
the old Major H. Rodgers Coal yard.

Construction is well underway and
at the present rate of speed the car-
penter work will be finished within
the next week. The building is of
sufficient size which will allow the
installation of additional machinery
in the future. The first unit of the
mill will be for the grinding of all
kinds of feed from grain to bundle
stuff. Mr. Wilder stated that within
the very near future additional mach-
inery would be installed for the
grinding of meal. Wilder and Musick
expect to do a general custom busi-
ness.

Part of the machinery is already on
the ground and the remainder is ex-
pected to arrive within the next few
days by the time the building is com-
pleted and will be installed as fast
as possible.

HOME DEMONSTRATION CLUB ENJOYS GOOD PROGRAM

Wednesday afternoon at 3 o'clock
the O'Donnell Home Demonstration
Club met with fifteen members pre-
sent. The meeting was opened with
roll call answered by "My Becoming
Color and why."

Mrs. E. T. Wells gave a good talk
on "Becoming Lines for Stout and
Slender People."

Miss Erma D. Palmer gave a splen-
did talk on "Appropriateness Be-
tween Various Parts of the Costume."

The County Agent, Miss Halsey,
displayed about 50 pieces of lovely
piece goods and each woman inspec-
ted the material deciding upon what
color most becoming and why.

Meeting dismissed by motion for
adjournment.

TAX CASE TO GO TO HIGH COURT

WASHINGTON, March 9.—The
legality of the community property
law of Texas and six other states as
applied to the making of income tax
returns will rest on a decision of the
United States Supreme Court, which
the Treasury Department Friday an-
nounced would be asked. Following
consideration for some months, the
from husband and wife in Texas in
treasury will receive dividend returns
reporting the community income of
1927, which returns must be filed
by March 15.

It is now the treasury's intention
to select a case of dividend returns
from each of the community prop-
erty States on which to make tests.
An appeal would be taken to the
Board of Tax Appeals, thence to the
Federal Circuit Court and then to the
United States Supreme Court. It is
thought a final decision can be ob-
tained within a year.

In Texas and six other States the
earnings and profits of a husband
and wife are by law designated as
community earnings or income and
belong half to the husband and half
to the wife. In 1920, the Attorney
General of the United States ruled
that Texas taxpayers had the right
to divide community income in mak-
ing Federal tax returns. This re-
sulted in much less tax liability than
where a joint return was made in all
cases where the family income was
in excess of \$5,000. The tax saved
to Texas taxpayers amounted to ap-
proximately \$4,000,000 annually. In 1921
the Attorney General made a simi-
lar ruling with respect to the other
community States, Louisiana, Wash-
ington, Arizona, Idaho, New Mexico,
and Nevada. The California law was
taken to the Supreme Court in the
Robbins case and resulted in victory
for the Government.

The Department of Justice later
held that the decision in the Rob-
bins case had presented a substan-
tial doubt as to the soundness of the
two former opinions of the depart-
ment and they were withdrawn,
leaving the treasury free to mark out
a future course.

L. A. Dunn, and daughter, Miss
Peggy, of Pride, were in O'Donnell
Wednesday.

Rev. and Mrs. J. T. Weems were in
Lubbock Thursday.

NATIONAL RETAIL CREDIT ASSOCIATION MARCH 9TH

MEETING SCHEDULED TO BE HELD AT LUBBOCK

LUBBOCK RETAILERS ANXIOUS TO HAVE ENTIRE SOUTH PLAINS REPRESENTED AT MEETING.

LUBBOCK, Texas, March 9.—Merchants of the entire South Plains section are being invited to come to Lubbock Friday night, March 9 to hear an address by Guy H. Hulse, Secretary and Educational Director of the National Retail Credit Association, who is making a tour of the state of Texas speaking in various sections of the state to those who sell merchandise or render service on credit.

Hulse is one of the best informed person in the nation on credit business and operation of retail credit stores. He will speak on handling credit accounts, window displays, advertising and other subjects of interest to the Retailer of the South Plains.

The Lubbock retailers association members are anxious to have as many South Plains visiting merchants as possible. The meeting will be held in the district court room, Court House, Lubbock, 7:30 p. m. Friday evening, March 9.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! Corner Drug Store.

BLIZZARD MADE TO ORDER FOR "THE LAST WALTZ"

The snow scenes in "The Last Waltz," which will be on the screen at the Lynn Theatre, Thursday, are among the most beautiful that have ever been made. They were shot at St. Moritz, Switzerland, the most famous winter resort in the world. "The Last Waltz" company was in dire need of a blizzard with which they might be able to photograph one of the main episodes in the picture. After having arrived at the desired location, they found to their dismay that there had been no blizzard in that vicinity for nearly a month and that none was expected. The next morning, however, when the company was ready to go to work there was a blizzard raging that was as perfect as if it had been made to order.

"The Last Waltz" was taken from the operetta of the same name which had a very successful run in New York. Willy Fritsch who made a tremendous hit in "The Waltz Dream" has the male lead. Suzy Vernon who was the winner of a French beauty contest that was sponsored by Le Journal, a French publication, has the female lead. The picture was directed by Arthur Robison who, though born in Chicoka, has spent the major portion of his life in Germany.

Dr. and Mrs. J. D. Smith of Haskell spent the week-end the guests of their daughter, Mrs. J. W. Roberts and family. The Doctor left Monday morning and Mrs. Smith remained for a week's visit.

What's Doing In West Texas By W. T. C. C.

COLORADO—The Colorado Band has been named official band for the Broadway of American Highway Association.

DUBLIN—The Oil Belt District Convention of the West Texas Chamber of Commerce will convene here March 28.

STRATFORD—Farmers in the Stratford section, though specializing in wheat, are making remarkable profits in poultry and dairying.

RANKIN—Rankin is in line for the 1930 district convention of the West Central section of the West Texas Chamber of Commerce.

OLNEY—A complete tree survey of Young county has been made under auspices of the local chamber of commerce and county agents.

HAPPY—A twenty-five room hotel building with space for four business houses, lobby, and coffee shop on the ground floor has been planned by local capital.

PECOS—A \$500,000 power plant the largest in the Trans-Pecos region in under construction here.

BRECKENRIDGE — A branch house, known as the Oil Belt Flag & Decorating Co., has been opened in this city by the Amarillo Flag and Decoration company.

COLEMAN—Leon Shield is again offering \$100 in gold to the first place winner in the Annual My Home Town Contest of the WTCC.

WESTBROOK — Westbrook has just completed construction of a 20 room modern high school recently.

SNYDER—Snyder won the 1929 West Central district convention of the West Texas Chamber of Commerce through its "Mockingbirds," eloquent plea of superintendent C. Wedgeworth, and large delegation.

FRIONA—The local chamber of commerce has provided a public dumping ground for the town.

FORT WORTH—Saturday, March 19, is Texas Newspaper Men's day at the Fat Stock Show.

SONORA—Range conditions are reported good over the section. Goat shearing will begin at an early date.

PETERSBURG—A 20,000 bushel capacity grain elevator is to be built here.

GUYMON, Okla.—Guymon, Okla., is the first "Sooner" State town to affiliate with the West Texas Cham-

ber of Commerce. WOODSON—The first run of the Cisco & Northwestern railroad was celebrated in elaborate fashion here March 1.

SANTA ANNA—Dedication services for Santa Anna's new high school building have been held.

HUNTSVILLE—Manager Homer D. Wade will speak before an East Texas Chamber of Commerce regional meeting here March 23, inaugurating a policy of exchanging "pulpits" with officials of that body.

BLACKWELL — Practically all land in the Blackwell framing territory has been turned under and is ready for arrival of planting time.

LOMETA—Lometa is one among 79 Texas towns entitled to good fire records credits effective March 1.

NINETY PER CENT OF DAWSON COUNTY FARMS ARE SELF-SUPPORTING

LAMESA, Texas, March 9.—Ninety per cent of Dawson County farmers own enough cows, chickens and hogs for their home use, according to a recent survey, and there is an increasing demand among these men for pure-bred livestock.

County Agent C. B. Martin has brought seventy-five head of registered cattle and an equal number of registered hogs for farmers during the last twelve months. There are over 5,000 high-grade Jersey cows and a large number of hogs in the county.

Country Extremes	.24	.13 1/2
Packer Calf	.33	.18 1/2
Chicago City Calf	.30	.17
Packer Kip	.30	.18
Increase: 75, 83, 77, 78, 76, and 66 per cent.		
An average increase of 75 per cent in upper leather hides.		

Nineteenth Division To Hold Meet At San Antonio October 8-12

MADE UP OF TEXAS AND OKLAHOMA MEN ONLY

Major Sylvan Lang, General Chairman of Committee, Major-General Henry T. Allen, War Time Commander, Gen. Patsy O'Neil and Other High Ranking Officers Will Also Be Present.

SAN ANTONIO, Texas, March 9.—Members of the famous Nineteenth Division made up of Texas and Oklahoma men, will hold a reunion at San Antonio during the national convention of the American Legion here October 8 to 12.

Preliminary arrangements for holding the reunion were made here recently by Arthur J. Reinhart, street commissioner of Dallas, president of the Nineteenth Division Association, and W. C. Menton, also of Dallas, secretary, with the Legion convention bureau here.

The reunion will be in the nature of a visit to the old division's training camp, as the Nineteenth was trained at Camp Travis at San Antonio.

Major Sylvan Lang, of San Antonio, was appointed general chairman of the arrangements committee for the reunion. Joe Sheldon, also

of San Antonio, is vice chairman. Major General Henry T. Allen, of Louisville, war-time commander of the division, will be present at the reunion, according to Secretary Menton. Gen. Patsy O'Neil, of Oklahoma General McAlexander and other high ranking officers of the division will also be present.

One entire floor of the Lanier Hotel has been reserved for the division. Headquarters for the convention will be in this hotel.

The annual banquet will be held at the Gunter Hotel on the night of October 8, the opening day of the Legion convention.

Members of the division are asked to write to W. C. Menton, 1128 Kirby Building, Dallas, Texas, for information concerning arrangements for the reunion. They are especially urged to write in and make their room reservations early.

NEW TRAIN SCHEDULES EFFECTIVE MARCH 4th, 1928

Lamesa Branch:
Train No. 84: morning train from Lamesa to Slaton, arrives at and departs O'Donnell at 7:20 a. m. instead of 8:05 a. m. Arriving at Slaton at 9:10 a. m. instead of 10:20 a. m. And train No. 83 from Slaton departs from Slaton at 1:05 p. m. instead of 12:45 p. m. and arrives at O'Donnell at 3 p. m. instead of 2:45 p. m.

Main Line Sweetwater to Amrillo And Texico, Mexico

Train No. 91 Train from California, and points to Temple, Galveston and south Texas points leaves Texico at 10:45 a. m. instead of 10:47 p. m. as formerly and arrives in Lubbock 1 p. m. instead of 11:00 a. m. and at Slaton at 1:30 p. m. and departs Slaton for Sweetwater, Texas at 1:50 p. m. instead of 1:50 a. m. Slaton is made a meal stop for this train now. This train arrives at Sweetwater at 4:40 p. m. instead of 4:40 a. m. and arrives at Temple at 1:55 a. m. instead of 1:10 a. m. The change simply makes a day train instead of a night train out the California train over the Slaton Division which improves the service from this country to points in South Texas as now one can leave here in the morning going on to South Texas points without the long lay-over in Slaton as formerly. There is no change in the companion train or No. 92 "train for California and Points."

Train No. 95 from Amarillo to Sweetwater which carries a pullman from Amrillo, which goes direct thru to Ft. Worth and Dallas over the T. & P. from Sweetwater, Texas, now leaves Amarillo at 6:15 p. m. instead of 9:10 p. m. Arrive Lubbock 9:30 p. m. and depart from Lubbock 9:40 p. m. into Slaton at 10:50 p. m. and depart 10:10 p. m. arrive Sweetwater 1:05 a. m. depart over T. & P. for Ft. Worth and Dallas at 1:33 a. m. arriving at Ft. Worth 7:10 and Dallas 8:10 a. m. same morning.

On this new schedule you leave Lubbock at 9:40 p. m. instead of 7:45 p. m. and get into Ft. Worth and Dallas the same time as formerly.

PLENTY OF "FALLS" IN MOVIES SAYS FOX STAR, OLIVE BORDEN

If you don't know how to "fall" in the motion picture racket you are certainly out of luck, according to Olive Borden, Fox films star in "Pajamas," coming to the Lynn Theatre next Wednesday. Miss Borden, appearing with Lawrence Gray, does five distinct tumbles in this J. G. Blystons production. She has nothing on Jerry Miley, however, for the "heavy" has to roll down 32 steps in a drawing room set after Lawrence Gray has hooked one on his chin. Miss Borden declares a good "tumble" was enjoyed by all—meaning all those on the side lines.

J. T. Weems and wife and Mrs. Claude Montgomery returned Tuesday from Goldthwaite, Texas, where they had been visiting for several days.

HATTON LORDS IT OVER W. BEERY, KITCHEN BOSS

Wallace Beery and Raymond Hatton distinguished themselves in military service for the third time.

They were doughboys in "Behind the Front," bogs in "We're in the Navy Now" and after a session as smoke-eaters in "Fireman, Save My Child" they will be seen in army uniforms again in "Wife Savers," the Paramount comedy coming to the Lynn Theatre Monday and Tuesday.

Beery is a buck private on kitchen police and Hatton is a second loaie" or "shavetail". It is just the reverse of their positions in civilian life, where Beery was the head waiter and Hatton just an ordinary waiter.

There are lots of uniforms in this new Beery-Hatton comedy but no war, as the story opens on the Franco-Swiss border with the signing of the Armistice.

Beery is a cook, a brigadier and an Alpine guide, each vocation assuming more complications than the last. It is as an Alpine guide he gets in his most destructive work. Not even the mountains are safe when he begins to thresh around hauling a long string of tourists behind him.

Ford Sterling, another rare comedian, does an excellent comedy characterization as an excitable innkeeper. ZaSu Pitts, playing opposite Beery, is a match for every humorous twist in the story. Tom Kennedy, who will be remembered as the comedy heavy in the last three Beery-Hatton comedies, shows up this time as General Lavior, while George Y. Harvey plays the major who proves the nemesis of Hatton.

Sally Blane, about whom all the romance centers, appears to advantage.

Ralph Cedar directed the picture from a story by Tom J. Geraghty and Grover Jones.

GREATNESS OF "THE COVERED WAGON" REMAINS UNDIMMED!

Still the picture of pictures—still a novelty for the theatre going public, is James Cruze's Paramount production "The Covered Wagon" which comes back to the Lynn Theatre March 21 and 22.

Some 500 prairie schooners, 100 horses, 600 oxen, hundreds of actors and 1000 Indians from six different tribes, go to make up this stupendous production, still one of the largest ever presented to a motion picture audience.

J. Warren Kerrigan, Lois Wilson, Charles Ogle, Ernest Torrence, Tully Marshall, Alan Hale, Guy Oliver and John Fox are the principal players. The picturization in adhering closely to Emerson Hough's novel, has lost none of its force or interest. "The Covered Wagon" tells a love story that is different. Many difficulties are encountered by Miss Wilson and Kerrigan because of the fact that Hale, as Sam Woodhull, believes himself engaged to Lois and he refuses to tolerate Kerrigan's attention to her. In the end however, everything turns out for the best and the first picture we ever enjoyed as much on a second visit as on the first, comes to a close. "The Covered Wagon" greatness remains undimmed!

THAT HORNED FROG

But he is not a frog at all. He is just a plain flat lizard with his back covered with little horns. His head is armed with large horns which reminds one of a yearling billy goat. These horns are to this lizard what the horns are to a cactus—it keeps him from being eaten, because he is liable to stick in the throat of the bird or reptile that tries to swallow him.

Now if he were a frog, he would not wear a tail and have a rough skin. The only time a frog wears a tail is when he is a tadpole swimming in the water. When a tadpole sheds his tail, he becomes a frog with a smooth, velvety skin. Hence, we have the well known mathematical formula: "Tadpole minus tail, equals frog." Frogs are amphibious this is, they can live in or out of the water. This lizard can't. Frogs hop, but the lizard can't.

Some people call this little lizard a "Horned Toad" but they miscall him again, for like the frog, a toad has no tail except when he is a small black tadpole swimming in a puddle of stagnant water. When he loses his tail, he becomes a toad with a rough, warty skin. Like the frog, he hops instead of crawling like a lizard. Frogs live in and about the water, but toads don't like the water very well, and this little lizard never gets into the water if he can help it.

We contend that he is neither a horned frog or a horned toad, but just a plain horned lizard. Late in the fall of the year the horned lizard crawls into a hole in the ground and pulls the hole in after him, goes to sleep and sleeps until warm weather. Then he awakes and proceeds to the nearest big ant bed and laps up the ants until he looks like a toad.

When a boy, we used to plow them up in the spring of the year and

take them to the nearest ant bed to even up with the ants for crawling up the legs of our pants and making us dance a jig with their stings. We used to fool away lots of time finding out about doodle bugs, frogs, toads, heeflies, horned lizards, and such things. We never saw a living creature that we did not try to find out what it ate, where it slept and where it roosted when it was winter. But this information cost the writer many a licking when he would quit plowing or hoeing to peek into holes and cranies to watch these things.

Thirty-one years ago they put a horned lizard in the northeast corner stone of the court house at Eastland, along with other things which Masons usually put in such places. They sealed him up air-tight. Last week when they tore down the building, they opened the crany and found the horned lizard alive and well. He had been sleeping 31 years!

Some people don't believe this, but we do. Some Masons put that lizard there, and some Masons took it out alive, and we believe what we do about these creatures, and knowing that they have the power of suspending animation, we do not for a moment doubt the probability of the story, or the story itself.

Some years ago, a friend of ours who is known to all as a reliable man, chopped into a large mesquite tree and found a live toad imbedded in a knot hole. That frog had gone to sleep in this knot hole, and from some cause stayed there until the wood grew over him. Perhaps a half century elapsed before he was released. We could give a score of reasons why we believe the horned lizard story.

Some scientists say that it is impossible for the horned lizard to live 31 years sealed up like the one at Eastland, but he did it all the same. They said Stephens couldn't make a locomotive run on a smooth track, but he did. They said Dr. Tanner couldn't live forty days and nights without food, but he did—and broke the long fast by getting on the outside of a watermelon. When the Wright Brothers were trying to make a motor-driven flying machine go, a scientist proved to a mathematical certainty that a heavier-than-air machine couldn't fly, but it did.

Scientists are great, but they had better read the books of nature before they say a thing is impossible, or else they are liable to make a bust.—Sterling City News Record.

KNOW TEXAS

Lake Kemp above Wichita Falls is the largest artificial lake in Texas and one of the largest in the United States. It has sufficient reserve to irrigate 100,000 acres besides supplying water for Wichita Falls.

There are 850,000 acres of irrigated land in Texas, according to the best estimates.

More than 300,000 acres are under irrigation in the Rio Grande valley and tentative projects would add 100,000 more.

Texas has 60 cities of 5,000 or more population.

In the last three years there has been more railroad construction in Texas than in any other state. Florida ranks second.

The first railroad in Texas was started in 1851. It was the Buffalo Bayou, Brazos and Colorado, now part of the Southern Pacific System.

Texas has 6,200 miles of high tension electric transmission lines, an increase of about 2,250 since 1925.

Since 1925, towns and cities of Texas to the number of 297 have been added to the list having electric power and light.

With the opening of 1928 approximately 2,800,000 of the population or about 52 per cent of the total population of the state had electric power and light available.

The state now has about 614,500 telephones, of which 425,850 are Bell Telephones and 188,668 are connecting and independent company telephones.

The total telephone mileage in the state is 440,276 miles, including both local and long distance.

Mr. E. G. Stokes and daughter, Leona, returned Saturday from Portales, New Mexico, where they had been for a ten days' visit with their son and brother, T. L. Stokes and family.

Miss Merle Smith of Tahoka, who is a teacher in the Wells School, was shopping in O'Donnell Monday afternoon.

**PERSONAL
MENTION**

Mrs. Ben L. Cowden and daughter and Mrs. Burlig Brewer returned Sunday from a week's vacation spent in the Davis Mountains. Mrs. Cowden's mother, Mrs. McAnelly accompanied them home for a visit.

Mr. and Mrs. E. T. Wells and daughters, Miss Beverly and Jim Ellen, visited Mr. Well's parents, in Tahoka Sunday.

Mr. and Mrs. T. J. Tull of Plainview, Mrs. Duncan and daughter, Miss Doris of Plainview, were the week-end guests of M. C. Tull and wife.

Miss Verna Greer left Tuesday for Abilene, where she has a position with a drug company. Miss Greer has been visiting her father, Matt Greer and family for the past two months.

Will buy any kind of grain. Highest market prices. J. P. BOWLIN.

Mrs. Harry Oliver of Quitaque, Texas, is here for a visit with her parents, Rev. and Mrs. Henderson.

Mesdames J. F. Campbell, R. O. Stark and J. W. Roberts were in Tahoka Thursday.

Will buy any kind of grain. Highest market prices. J. P. BOWLIN.

Mr. and Mrs. L. N. Nichols and Mr. and Mrs. Paul Welch were the guest of Mr. and Mrs. W. A. Hinkle Sunday of the Wells community.

W. A. Hinkle and son were in Amarillo first of this week transacting business.

Mrs. Millwee Knight has been quite ill the past week.

Will buy any kind of grain. Highest market prices. J. P. BOWLIN.

Mr. and Mrs. W. L. Gardenhire were in Lamesa Sunday visiting their daughter, Miss Beatrice, who is ill in the Standifer Hospital of that place.

Mrs. Claude Montgomery returned to her home in Shamrock Thursday, after a two weeks' visit with her parents, Rev and Mrs. T. J. Weems.

Mr. and Mrs. Bob Clements and little son, Billy George, left Sunday for Emory, Texas where they will visit for several days with Mr. Clements parents.

Will buy any kind of grain. Highest market prices. J. P. BOWLIN.

Mr. and Mrs. Naymon Everett and Mrs. J. Y. Everett visited W. D. Everett and family near Gail Sunday.

Mack Nobles of Lubbock was in O'Donnell this week.

SOUTHLAND-LIFE INSURANCE

DALLAS, Texas, March 9.—Indications from the first crop report of the year compiled by the Department of Public Relations of the Southland Life Insurance Company are that there will be a highly increased acreage of grain in Texas this year. Cotton acreage apparently will be off about 10 per cent from last year. The unusual feature of the reports received is that there are indications of increased acreage of cotton in some localities with a heavy decrease in others.

Practically all of the grain crop is in the ground with considerable cotton already planted. Winter conditions and rainfall according to reports were extremely favorable to our crops. The Rio Grande Valley reports extra good crops of winter vegetables and conditions are generally prosperous despite the fact that some of the vegetables were sold at an extremely small price.

Business conditions over all of Texas are reported as better than normal and one of the most encouraging prospects is the indication of an increased production of fruits and vegetables, brought about, no doubt by an increase in facilities for canning.

**THE CARL HOLMAN'S DRIVING
NEW CHEVROLET COACH**

Mr. and Mrs. Carl Holman are to be seen driving a lovely new Chevrolet Coach over the city of O'Donnell. They purchased the new wagon thru Gantt-Hubbard Motor Co., and drove to Lamesa to the show that night to "try it out."

Electricity....

Product of Individual Initiative

"The legitimate object of government is to do for a people whatever they need to have done, but cannot do at all, or cannot do so well for themselves in their separate and individual capacities. In all that the people can do as well for themselves, government ought not to interfere."
ABRAHAM LINCOLN.

In a little laboratory at Menlo Park, New Jersey, our present system of electric light and power service was born. There Thomas Edison working as an individual, accomplished what the world said could not be done. He succeeded in "subdividing" the electric current. He perfected a commercially practical incandescent lamp. Since that time, almost fifty years ago, every forward step in the march of electrical progress has come through the initiative of individual enterprise working under the protection of the principles on which our government was founded and which are so clearly enunciated by Abraham Lincoln. It has not been necessary for government to attempt to furnish electric light and power.

The electric utility companies have provided

an abundance of electric light and power that has helped to bring American living to the highest standards the world has ever known.

Earnings of the power companies are regulated. Yet sufficient freedom of individual initiative remains to attract the highest type of business and engineering leadership to their management and operation.

The electrical age in which we live had its origin in the freedom given to men of ability to plan and develop a system of public service which has been a practical benefit to all. The glowing promise of an even greater future rests on the preservation of those principles of freedom for individual initiative for which America has always stood.

Caliph Serves Fruit To His Favorite Wives

and asked:
"Why do you smile, Hassan?"
"Because," replied Hassan, "My enemy, Abdul, is tomorrow arriving with a huge pineapple."

But Hassan's hope for Abdul's punishment was unfulfilled for when Abdul arrived the following day, the happy Caliph caused the huge pineapple to be cut and served to him and his favorite wives.

The moral of this tale might be that pineapples are good for indigestion — but happily Arabian Nights tales have no morals. A physician, however, diagnosing the case of a Caliph's digestive disturbances, would no doubt have agreed that pineapple was the one fruit which the great Haroun-el-Raschid needed.

Hawaii grows a pineapple, "the Smooth Cayenne", which would make Hassan and even Abdul envious, for it is not only the largest pineapple produced, but the juiciest and sweetest. Were the Caliph alive today, he would have a can of this Hawaiian pineapple, piped in the fields rushed to Arabia to him, fresher, perhaps than the one which made the Journey via "The Camel Route."

For in Hawaii the canneries are right on the edge of the plantations and thus the fruit is allowed to linger in the fields until the sun has bestowed on it the very last ounce of flavor and health-giving properties. It is then packed into cans within twelve hours after it has been picked.

And since pineapple, the newest canned fruit, is second in popularity only to canned peaches, the oldest canned fruit, it is now packed in a variety of ways for the convenience of its ever increasing number of consumers.

The market affords both Fancy and Standard grades of pineapple packed in the following styles:— sliced for serving plain or in desserts and salads; crushed, especially adapted for culinary purposes; tid-bits for salads or dishes where the slices are to be broken; and juice for delightful drinks.

The ancient Arabian custom of enjoying choice fruit at holiday seasons is a custom which can be followed today, all year round. Hawaiian canned pineapple suggests luxury and delicacy, although it has rich food value, and its sunny glow makes it an addition to so many daily desserts. It is also delicious in meat, salad and the vegetable dishes which we serve every day, and because of its dietetic importance, as well as its appealing taste, it bears the distinction of being the Monarch of Fruits.

WAT back in the days of the Arabian Nights pineapples were not the "Smooth Cayennes" which Hawaii offers today, but we are to put faith in the tale of a pineapple grown for Haroun-el-Raschid, Caliph of Bagdad, "bigger and better" pineapples were even then in demand.

As the story goes, at certain holiday seasons it was the privilege of loyal Mohammedans to present rare and costly gifts to the Caliph. Two horticultural geniuses of that day, Hassan and Abdul, entered upon a bitter rivalry when each started to grow, as his offering, a fruit which would be larger and better than any fruit ever known in Persia or Arabia.

Hassan was a banana specialist. He set out to grow a giant banana which would outdo all other bananas on earth. Abdul was the only man in all Arabia who could grow pineapples. He sought to please the Great Caliph with the biggest pineapple ever beheld in Bagdad.

Nature was kind, and both fruits grew ever beyond the fairest

dreams of their planters. Daily, great crowds of Arabs gathered to watch the plants of the rival camps, and report progress. When word was brought to Hassan that the pineapple of Abdul was expanding to an alarming extent, Hassan became troubled. Abdul, however, was serenely conscious that he had a better chance than any other of winning the Caliph's favor.

It was the eve of the great festival, and Hassan, with a secret plan to steal a march on Abdul, Hassan crept into his garden, cut down his choice banana, and leaping upon his fleet comradery sped away into the night.

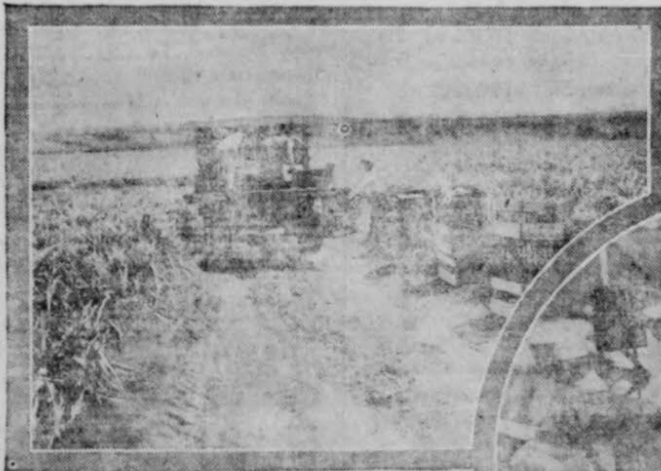

Arriving at the castle, Hassan presented his giant banana. The Caliph took one look at the fruit and fell into a rage horrible to see. For that day Haroun-el-Raschid was suffering from a fitful attack of indigestion.

"The unfeeling wretch," cried the enraged Caliph, "Shove his banana down his throat!"

The attendants grabbed the astonished Hassan and started shoving the fruit down his throat, when one of them pulled it out suddenly

A Picture Story of the Monarch of Fruits

Photos courtesy Hawaiian Pineapple Company, Ltd.

The Hawaiian workers wear rubber gloves and the pineapple is not touched by hands during entire canning process.

This is the way the golden Hawaiian pineapple which you eat for breakfast, luncheon or dinner is hauled from the field to the largest fruit cannery in the world, located in Honolulu, Hawaii. The proud fruit Monarch is stripped of his spiked crown, put in a crate, hauled to the railway.

Above: This is the way the Hawaiian Pineapple Company moves millions of cans of pineapple about in the warehouse. Motor cycles geared to low speed give the cans a "joy ride" when necessary.

Right: When you take from your larder a can of golden Hawaiian pineapple you know it is as fine a product as scientific growing and canning can make it. It is a bit of imprisoned Hawaiian sunshine.

Above: After pineapple has been through "Gingee" machine which removes shell from fruit meat, it goes on an endless belt before Hawaiian women who select slices according to grades desired.

Mechanical Cotton Harvester
Doing Satisfactory Work
MUCH PROGRESS MADE PAST YEAR

Machines Do Little Damage To Plant; It Is Believed Good Start Has Been Made To Lessen Cost of Harvesting; Further Progress Is Contemplated.

Mechanical harvesting of cotton is now a practical farm operation well established on farms in northwestern Texas, according to the Division of Agricultural Engineering of the United States Department of Agriculture. After several years of trial and modification certain commercial interests have developed what appears to be a practical power cotton picker. Moreover, farmers in northwestern Texas, with the assistance of agricultural agencies, have devised the cotton sled or stripper. Killing frost in this region usually occurs early in November, and invariably the weather is cold and unsuited for picking cotton during the latter part of the harvest season. For a number of years it has been a common practice to snap or hand strip cotton after frost, as the plants usually shed their leaves soon after frost occurs and the stems become too brittle for picking without pulling the entire burr. During seasons of adverse weather conditions, low prices for cotton, scarcity of labor, or high charges for picking and hand snapping, it has been necessary to adopt rapid and more economical methods of harvesting. The sled method was developed under these conditions and has been used quite successfully during several seasons.

The sleds are commonly drawn by two horses and operated by one or two men. The two principal types of sleds used are the finger and the slot types. On the finger type of sled the front end of the sled box either is open or has a sufficient opening for the stripper fingers which are attached to the front of the sled. The stripping action is somewhat the same as that of stripping the leaves from a small branch of a tree by drawing it through the fingers of one's hand. The slot type harvester differs from the finger type in that the stripping is done by a narrow slot which runs through the center of the sled from front to rear. Toward the rear of the machine the slot becomes narrow and slopes upward so that the cotton is stripped from the stalk. The finger type is used to a larger extent in northwestern Texas than is the slot type because of the small stalk growth of the cotton plant in this area. Both types, however, are very effective in removing the cotton from the plants. Well-constructed homemade sleds often gather as much as 95 per cent of the cotton from the plants. Improvements in ginning machinery have made it possible for the ginner to handle cotton harvested in this way. Sledged cotton usually contains a considerable quantity of trash and immature bolls which increase the ginning charges and lower the grade. However, under favorable harvesting conditions, sledged cotton frequently can not be distinguished from snapped cotton after it is ginned. At the present time cleaners for farm use are being tried experimentally by several companies. With the perfection of such cleaning equipment, it is hoped the use of the cotton sled will be more extensive.

The labor-saving possibilities of such harvesting methods have led several manufacturers of farm machinery to experiment with different types of cotton-picking machines. Much progress has been made during the past year in the development of improved harvesters of the sled type. Nearly all of these harvesters use the slot idea but the cotton is stripped from the plants by revolving snapping rolls, or by attached to endless chains. The snapping rolls are either twisted, perforated, or spiked along the cotton from the plants. To provide a rough surface for removing cotton is either raked or conveyed from beneath the snapping rolls to a box in the rear, provision being made in some cases to screen out some of the dirt and trash. The endless chain type, however, has no separate conveyors as the stripper fingers convey the cotton to the box. Mechanical cotton pickers have been developed to the point where they do satisfactory work. One of the most promising ones is of the spindle type which has been built for both horse and power operation. These machines do little damage to

the cotton plant and are particularly adapted for use where the cotton plant is large or where ripening extends over a considerable period. While the mechanical harvesting of cotton is not yet beyond the experimental stage, it is believed a good start has been made toward lessening the cost of harvesting cotton through the use of machinery, and that by next year much further progress will have been made.

"MANLESS WEDDING" HIGHLY ENTERTAINING

The Manless Wedding, sponsored by the O'Donnell P.-T. A. which was staged in the High School Auditorium Friday night, was highly entertaining, being of a comical nature from the first guest, Mrs. Waldo McLaurin, who impersonated the "rejected suitor" to the little train bearer who was Mrs. Sid Cathey, was complementarily received by the splendid audience, for who doesn't enjoy a hearty laugh and there were some side-splitting scenes in the wedding which brought the house down time and again with mighty applause. Mrs. Naymon Everett as the sheikish groom and Mrs. Irvin Street as the beautiful bride with Miss Beulah Estes as ring bearer and Miss Thelma Palmer and Mrs. Mack Garner for flower girls, the main wedding party was indeed interesting. Mrs. B. J. Boyd and Misses Grace Harville and Jessie Sargent made beautiful brides maids, while the dignified ushers would hardly have been recognized as Misses Wynema Sorrels, Alta Rogers, and Erma D. Palmer. No minor part was that of the pompous parson, who performed the ceremony which was played by Miss Edna House to perfection. Mrs. J. L. Schooler as maid-of-honor and Mrs. R. O. Stark best man, made a very distinguished looking couple, as did the city cousins who were Mrs. J. F. Drake, and Mrs. J. W. Campbell, Mrs. Campbell entertained the audience with an appropriate reading just before the arrival of the wedding party. Miss Christine Milwee as Mr. Reggie Hightower, cousin of the late Caruso, sang "I Love You Truly" so sweetly that a number who listened so attentively to her lovely voice, were taken back to the day when the same song was sung at a much more serious wedding.

Mrs. Carl Westmoreland was to be envied in her make-up (or get-up), as the groom's father, and Mrs. D. A. Edwards the mother, was decidedly aristocratic appearing, especially in comparison with the brides family, with the exception of the father, Mrs. J. W. Roberts, who represented the latest model of an A-1 jelly bean. The bride's mother, being Mrs. Harvey Everett, who appeared to weigh about 250 pounds, was ushered down the aisle carrying twin babies followed by eleven boys all of whom were deplly distressed at the thoughts of giving up their only sister in marriage.

Mrs. W. E. Vermilion, a guest, was to be envied on her quaint colonial costume, but certainly not on some of her feakirsh-looking children Trixie Harville as the oldest son, would have put Charlie Chaplin to shame, when it comes to real comedy. Mrs. L. L. Busby as a lady guest and Mrs. S. G. French as a distinguished gentleman guest, were indeed an asset to the wedding party.

People will long remember this play as one of the best of the season.

Members of the P.-T. A. are very grateful to the people for their loyal patronage. The neat sum of \$32.50 was realized, which will be used to pay upon the new piano.

THE CARL HOLMAN'S DRIVING NEW CHEVROLET COACH

Mr. and Mrs. Carl Holman are to be seen driving a lovely new Chevrolet Coach over the city of O'Donnell. They purchased the new wagon thru Gantt-Hubbard Motor Co., and drove to Lamesa to the show that night to "try it out."

Miss Jessie Sargent spent the weekend in Tahoka.

JOHNSON SAYS MILK IS GOOD FOR CHICKENS

Wolfe City Raiser Gives Points On Proper Kinds of Feed.

WOLFE CITY, Texas, March 9.—Alex Johnson of Wolfe City is one of the Nation's acknowledged chicken experts and the Johnson poultry ranch is one of the show places of Texas. Rearing baby chicks has always been more or less hazardous, to those without experience, and Mr. Johnson, out of the richness of his experience, gives the following advice:

"We have all heard the statement that the big things in this world will look after themselves—it is the little things that need watching." I consider this saying very true, regarding the rearing of chicks, and I am of the opinion that if the small details are watched, the bigger things will follow automatically. I never make use of the mother hen, so that I am bound to use artificial means of rearing, and I think that I can rear more economically by artificial means than by natural means.

"In the first place I insure that the hover which is to take newly hatched chicks has been heated for at least forty-eight hours previous to putting down the chicks. Next, I insure that no chicks is taken from the incubator until quite dry, afterwards taking particular care that the chicks are exposed to no drafts in transit from the incubator to the hover. These I consider important details, inasmuch as I am convinced that rapid change of temperature in the first forty-eight hours of a chick's life is the cause of 99 per cent of the trouble in chick rearing.

Keep Temperature Even.

"I would assure you that the small details I have just given, taught me the essentials of successful chick rearing. I found that I lost chicks generally from the fifth to the tenth day, so I determined to live with a few batches until they had reached fourteen days old. The very close attention and constant contact which I gave to my chicks during that period, taught me without the slightest doubt that chicks which are kept from variations of temperature in the first ten days will live and thrive; providing of course that they are hatched right and bred from healthy stock.

"Freedom from chills, or over-heating is a primary necessity in rearing chicks, with regular feeding periods, and a good quality of feed as the next important essential. At ten days old, the smaller details begin to vanish; the heat is of course necessary but the chick will make his own variation of this according to what it needs.

"Food and drink are then the necessities, and while I always insure plenty of drink, I take equal care to keep growing chicks always in want of food until last feed at night. The night feed is always a grain feed, and I am not particularly anxious to have all this feed cleaned up, as if there is a little left I am assured that the chicks have all they want, and the little that remains, will keep them active until they receive first attention next morning.

Grain Feed Mixed.

"My grain feed is composed as follows: Fifty pounds of wheat, twenty-five pounds of clipped oats, and twenty-five pounds of cracked corn. The feed is given in the litter as soon as the chicks have learned to search for it, and I only feed a very small quantity morning and night, preferring to make the chicks take all the dry mash they will.

"My dry mash is composed of bran as one part, and stock mixture as the other part. The stock mixture is composed as follows: Thirty-two pounds middlings, twenty pounds ground oats, (groats), sixteen pounds corn meal, four pounds linseed meal and eight pounds meat scraps.

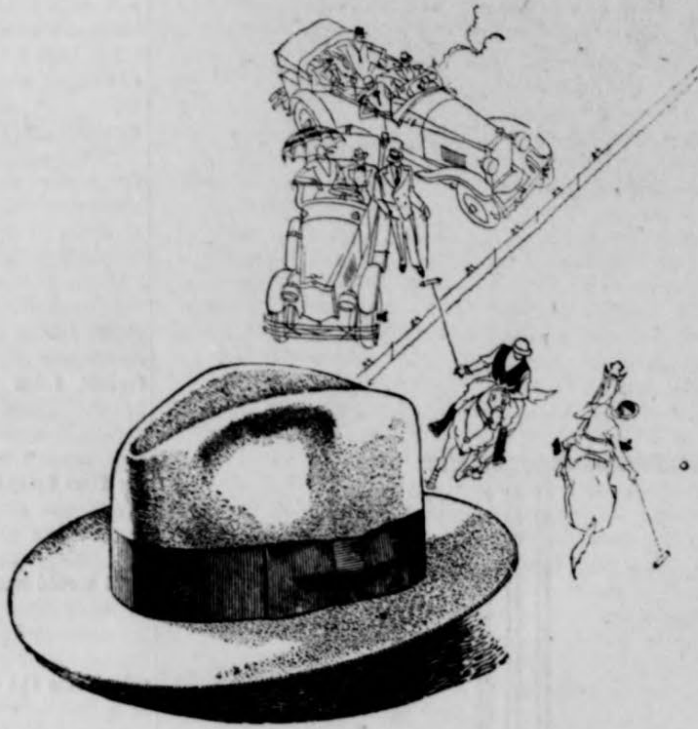

"When two or three days old, I give the chicks their first feed consisting of bran fed in a hopper. In the course of two days the chicks will have learned to feed from the hopper, and from then onwards I feed equal parts by weight of bran and stock mixture. It will be noticed that I am a keen feeder of bran, and I have no hesitation in saying that I consider bran a food which can be used to almost any extent in dry mash. In wet mash I find the quantity of bran needs cutting to a fairly low proportion and in its place I use good quality of shorts or middlings.

"My experience has proved that milk is a decided aid to good chick rearing, and if a regular supply of skimmed milk is not available I should certainly advise a trial of some good quality substitute such as those mentioned."

Mr. and Mrs. Ben Moore were in Lamesa Tuesday. Mrs. Moore is having some dental work done.

"FAMOUS FOR VALUES"

THE FEDERAL EXPERIMENTAL FARM AT LUBBOCK

The work of the Experimental Farm, which has been located at Lubbock for the past sixteen years, has in some quarters been highly appreciated and the results studied to the profit of the progressive South Plain's Farmers. Others scarcely know of its existence, much less profit by the experiment carried on there year after year. We publish the following from the Special Edition of the Idalou Echo:

The main purpose of the substitution is to ascertain facts and information upon which a sound and constructive agriculture can be developed for the section it serves. On account of its semi-arid condition and the lack of adapted native crop plants to the region there was a great need for an institution of this kind and it was necessary to introduce and breed crops and strains particularly adapted to the existing conditions. In this connection a great deal of valuable work has been done with sorghums, cotton, fruits, shade trees and ornamentals.

Sudan grass was distributed and popularized until it has come into almost universal use in this section of the State as a pasture and feed crop with this region furnishing the bulk of the Sudan grass seed grown in the United States.

Conclusive results showing that Milo produces a heavier average grain yield when spaced 18 to 36 inches between plants than it does with closer spacing and that Kaffir produces its heaviest average grain yield when spaced 6 to 12 inches have been ascertained by experiments extending over a ten year period. Also that grain sorghums planted about May 15th, will return yields of 23 per cent greater than when planted April 15th and 10 per cent greater than June 15. In addition results show that little is gained by planting early as it takes sorghums planted on April 15 20 days longer to mature than those planted on May 15th.

Establishment of the fact that cot-

ton is a drought-resistant, dry land crop and can be profitably grown on most sections of the plains has greatly hastened the settlement of that section. The leading variety of cotton has averaged 345 pounds of lint cotton per acre during the past seven years. A new early strain has been developed which will make possible a safer extension of the cotton producing region north and west into high altitudes and shorter growing seasons. Each year some 20 varieties are being tested in order to determine their adaptability and pass this information on to the farmer. Information gained from weekly pickings show that on the average of 20 to 28 per cent of the cotton is open ready to be picked 126 days from planting when the small balled thin burred varieties are used and from 8 to 15 per cent when the larger thick balled varieties are planted.

Through breeding work with the various sorghums at the station this section is rapidly being developed into a center of pure seed, furnishing a valuable outlet to the farmer for his surplus crops of well bred seeds. Distribution of high yielding pure-line strains are constantly being made in an effort to increase the per acre production of this crop and afford better planting seeds for those sections which depend upon us for their planting seeds.

It has been found that profitable home gardens and orchards can be maintained by supplementing the natural rainfall with windmill irrigation. Yields of 274 bushels of sweet-potatoes and 21 to 48,000 pounds of onions per acre have been recorded. Through its experimental nursery the station has tested and introduced a large number of trees and greatly encouraged the planting of trees throughout this section.

Work on the C. E. Ray building being erected on the east side of Block A, just west of the Popular Dry Goods Store has been delayed on account of material failing to arrive.

MARKET INFORMATION

The following report of the available supply of hides and skins is taken from Government report of November 30, 1927, showing the stocks on hand as of that date as compared with the corresponding date of 1926:

Available Cattle Hides, including Calf and Kip in the U. S.
November 1926, 8,652,986
November 1927, 6,950,763

Decrease 19 per cent.
Available Sole Leather Backs, Bends and Sides:
November 1926, 4,015,052
November 1927, 2,807,212

Decrease 30 per cent.
This decrease in the available supply has therefore strengthened the price of leather in the meantime as indicated in the following tabulations which we have compiled from authentic sources, as of February 4, 1928:

Sole Leather Hides:
Present Prices 1927 Jan. 1927

Light Texas Steers	24	14
Butt Branded Steers	24 1/2	15
Colorado Steers	24	14 1/2
Branded Cows	23	13

Increase: 71, 63, 65 and 76 per cent
Average increase of 69 per cent in sole leather hides:
Upper Leather Hides:

Present Prices 1927 Jan. 1927	
Light Native Cows	25 1/2 14 1/2
Country Buffs	22 12
Country Extremes	24 13 1/2
Packer Calf	33 18 1/2
Chicago City Calf	30 17
Packer Kip	30 18

Increase: 75, 83, 77, 78, 76, and 66 per cent.

An average increase of 75 per cent in upper leather hides.
J. T. Weems and wife and Mrs. Claude Montgomery returned Tuesday from Goldthwaite, Texas, where they had been visiting for several days.

TO WHOM IT MAY CONCERN:

Notice is hereby given that the partnership of the Veazy Grain company has been dissolved. I am still in the market for all kinds of grain and will pay highest market prices at all times. J. P. BOWLIN.

I will gin on Saturdays only until crop is finished. J. P. BOWLIN.

Mr. W. G. Dingus spent the weekend in Lubbock, visiting his wife who is teaching in the Lubbock High School.

Little J. Y. Everett left Wednesday morning for Ft. Worth, where he will be until Sunday, visiting his grand-parents, Mr. and Mrs. S. A. Marrow, and attending The Fat Stock Show.

MRS. FRANK GEORGE CELEBRATES LITTLE SON'S BIRTHDAY

Mrs. Frank George gave a lovely little party Friday afternoon from 4 to 6 o'clock in honor of her little son, Bobby's birthday.

The children spent a most delightful afternoon playing games and each child will remember Bobby's birthday party with much joy, while the thrill and happiness which the little honoree experienced over the lovely remembrances each little guest presented him with, will always remain an outstanding event in Bobby's life.

The refreshments were dainty, and appetizing, being angle food cake, hot chocolate, candy and pop corn.

The guests were: Irda Marie Mansell, Wanda Hayes, Beatrice James, Elsie Bernice Etter, Billie Louise Etter, Marcile Lambert, J. Verna Street, A. C. Lambert, Olan Hayes, Cecil Kirkpatrick, Mock C. Bradley, Leslie Nelson.

PLENTY OF "FALLS" IN MOVIES SAYS FOX STAR, OLIVE BORDEN

If you don't know how to "fall" in the motion picture racket you are certainly out of luck, according to Olive Borden, Fox films star in "Pajamas," coming to the Lynn Theatre next Wednesday. Miss Borden, appearing with Lawrence Gray, does five distinct tumbles in this J. G. Blystone production. She has nothing on Jerry Miley, however, for the "heavy" has to roll down 32 steps in a drawing room set after Lawrence Gray has hooked one on his chin. Miss Borden declares a good "tumble" was enjoyed by all—meaning all those on the side lines.

Grandpa and grandma Pounds, are in O'Donnell, visiting their daughter, Mrs. Milwee Knight and family.

I will gin on Saturdays only until crop is finished. J. P. BOWLIN.

Geo. D. Foster spent Sunday at the bedside of his sister in Lamesa who is seriously ill.

Mr. and Mrs. A. D. Brown spent Monday night visiting in Lubbock.

I will gin on Saturdays only until crop is finished. J. P. BOWLIN.

Mayor E. M. Wilder, Coin, Boy Scout executive, attended a scout Lubbock Tuesday afternoon.

Mrs. Dr. Smith of H... for a weeks' visit to Mrs. J. W. Roberts and...

Mrs. W. H. Crunk in an extended visit with Mrs. M. L. Gibson.

ANNOUNCING Our NEW BALL-BEARING CREAM SEPARATORS!

A beautiful black-jappaned, ball-bearing cream separator for every dairying need. Six sizes, capacities 350 to 1500 pounds of milk per hour—"for one cow or a hundred." Hand, belted, and electric.

THE NEW McCormick-Deering

As lacon McCormick-Deering dealers we are proud to announce this distinctly new line of cream separators.

Every one of the six sizes of the New McCormick-Deering now has high-grade ball bearings at all high-speed points.

To make the machine as durable and pleasing as it is possible to achieve, the celebrated process of exterior finishing called jappaning has been employed in the New McCormick-Deering. You will certainly admire the hard, brilliant, mirror-like

lustre produced by the japan finish requiring of baking at high temperatures.

These are features of durability, and beauty. McCormick-Deering features and details combine to make it a and thoroughly efficient rating machine.

Let the machine speak for itself. We will gladly give a demonstration without your farm or at our
