Harvest Worker Found Dead In Gin Seed House

Saturday morning employees of the Farmer Co Op gin found the body of a Mexican harvest worker buried under a pile of cotton seed. Friday night two Mexican laborers asked at the gin office to spend the night. Their request was granted and one slept in the office and the other in the seed house. It was thought that the man while asleep in the seed house was buried alive beneath the caving seed pile.

Dr. Lehman said he thought the arm would be saved.

S. S. MAN TO BE HERE 22nd

Gerald Schantz, Social Security representative, will be in O'Donnell at the Postoffice at 9 a. m. Tuesday Nov. 21. If you are 65 or over, and haven't inquired about possible insurance payments, you should see this representative at once.

The amount of wages which a beneficiary of social security payments may earn in covered employment and still accept his monthly insurance check is increased from \$14.99 to \$50 for beneficiaries under age 75. Those aged 75 and over may draw their benefits regardless of the amount of their earnings in any kind of work.

Everyone enjoyed the Armistice Holiday which was celebrated by shopping, visiting and the football game Friday night but some were lazy and spent the day sleeping and resting, thinking of their 6 week exams when they come back to school.

MEET A SENIOR

Another popular senior is Harold Carson Hohn, son of Mr and Mrs V. B. Hohn of the O. K. Community. Mr. Hohn is a farmer. Harold was born June 10 1933 at O'Donnell. He is 5 ft. 8 in. tall, has black wavy hair and he plans to farm after graduation.

His favorites are: teacher, Mr Reed, subject, V A; girl friend, Shirley Gass, sport, football, flower, rose, color, blue, food, egg Custard pie, sofing, "The Gods Were Angry With Me"; Pastime, Eating and his pet peev is people who brag about something they don't have. His desire is to win 1st place at the Lubbock Calf show and his ambition is to become a successful farmer. He is president of the F F A club and snap shot editor of the Senior class.

3rd and 4th grade

We are sorry to lose two 3rd grade pupils: Sharon Trammell who moved to Big Spring and Arlene Bradshaw who moved to Lamesa.

Lomingo Hernandez entered the Fourth grade last week. We are happy to welcome him.

On Tuesday the room mothers Mesdames McMillan, Howard, Johnson, J T Middleton, Jr and Trammell entertained us with a party at the home of Mrs Middleton. The costumed sfooks gathered on the lawn where lighted pumpkins, skeletons and other decorations made an appropriate setting for the party.

Bobbing For Apples and other games were enjoyed; after which refreshments of toasted marshmallows, weiners and cocoa were served to about 40 children. We wish to thank our room mothers for showing us such a good time.

Bobby Doyle Flemming was absent from school several days on account of illness, but is now able to be back with us.

Martha Rector also has been on the sick list but is back in school. A number of Brownies in our room are wearing cute little coral holder bracelets.

PROGRAM GIVEN FOR F H A WEEK HERE

WEEKLY NEWS ANALYSIS

Attempt Made to Kill President; Master Defense Plan for Europe Reportedly Agreed on by Allies

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

In a last desperate effort, North Korean troops attacked U.N. forces just short of the Yalu river as the war in Korea entered its dying moments. Chinese Red troops were reported to have joined the North Koreans in the last minute stand. U.N. forces totaling nearly 200,000 men continued to push northward in the final phases of the struggle.

TRUMAN: Escapes Assassination

For the first time in history an attempt was made to assassinate a president of the United States at his official residence. The plot came to an end in a blazing gun battle at the very steps of Blair House, the temporary White House.

The assassins were identified as Griselio Torresola, who died almost instantly of wounds, and Oscar Collazo, seriously wounded, both of New York. The men were members of the Puerto Rican Nationalist party which started an uprising in Puerto Rico a few days before the attempted assassination.

Three policemen on duty at Blair House at the time of the attack were wounded. One of the guards, Pvt. Leslie Coffelt, 40, died a short time later in a Washington hospital. The other two were reported seriously injured.

According to best reports the two assassins approached Blair House, one from the east and one from the west. Collazo opened fire first when within 10 feet of a policeman on duty at the steps of Blair House. Two other guards at posts near the steps opened fire on Collazo.

Meanwhile, Torresola, within a few seconds of Collazo's opening shot, opened fire in front of Lee House, which adjoins the Blair mansion on the westerly side.

Guards returned the fire and within seconds both would-be assassins were shot down.

Collazo is reported to have told police that he and Torresola came to Washington "with the express purpose of shooting the President". On Torresola's body was found a letter and a memorandum, both cryptic but indicative of conspiracy of the Nationalists to kill Mr. Truman.

The attack resulted in an immediate crack-down on the Nationalist party in Puerto Rico which has demanded independence of the United States.

The Communist party, afraid of being involved in the plot, immediately disavowed any connection with it and termed the attempt a 1950 version of the "Reichstag-fire frame-up in Hitler Germany."

EUROPE: Master Defense Plan

The will and a plan for the defense of Europe against any aggression was made known to the world when the Atlantic pact nations reportedly agreed on a unified army of about 50 divisions, strong fleets in the Atlantic and Mediterranean and a mighty air armada based in Britain and on the continent.

The plans called for General Dwight D. Eisenhower to be named supreme commander of the collective armed forces. The defense plan would reach full force as soon as possible and not later than 1953, it was reported.

The plan is a further step in the armament for defense program outlined in a recent speech by President Truman. The western world has accepted the belief that Russia understands only armed strength.

In the new plan, the U.S. would furnish five to 10 divisions, more than half the warships, all strategic bombers, and five to 10 groups of tactical fighter planes. France reportedly would provide 20 to 28 divisions; Britain about five; Belgium, Luxembourg, and the Netherlands five to 10, and Italy about 10.

Britain would contribute a smaller number of warships than the United States, but would share the major responsibility for sea power.

CASUALTIES: Climb to 26,701

The terrible price of war was brought home to the American people with the announcement that U.S. casualties in Korea numbered 26,701.

The latest tabulation included 3,683 killed in action, 18,682 wounded and 4,337 missing in action.

The official figure on total deaths was 4,125. In addition to those killed in action, it included 442 who died of wounds and listed as missing those whose capture by North Koreans and subsequent death was confirmed.

The army casualties totaled 23,140, the navy 252, the marine corps 3,133 and the air force 176.

THOSE POINTS AGAIN

Army Reveals Point System for Reservist

Veterans of World War II are not likely to forget the point system by which armed forces were demobilized when the conflict came to an end. Now a point system is again in the news.

The army announces a new system to determine which enlisted reservists—among those on active duty—would be sent overseas. The system would be used also to determine the order in which additional enlisted reservists were ordered to active duty.

At the same time the army announced that no further mandatory calls to duty would be issued to enlisted men of its reserve corps, except for a limited number of specialists in intelligence and medical corps. Reserve officers will still be called.

TITO: Without Conditions

Most Americans have no illusions about Premier Tito of Yugoslavia. He is a Communist who has fallen into disgrace with Russia and the Cominform countries.

However, millions of his people face starvation because of a drought in Yugoslavia. When he asked for American aid, we gave it to him.

Americans who had expected nothing in return were surprised when Tito made a speech that praised the United States and provided the best propaganda the West has had in years in its battle against Russia and her satellites.

Tito declared that as a result of talks with U. S. officials "it will be possible to get all we need: Wheat and sugar, that, and other goods in order to feed whole districts which are damaged thoroughly by the drought."

Then he added, "I can here openly say that the American government did not impose any conditions."

As if that wasn't enough, he added a punch line, "I think—and I told this to their people when they asked me what I thought—that it is useful for the American government to show in practice that it is ready to help other people rather than issuing propaganda as some other countries do."

That was in indirect attack upon the Cominform countries.

PHILIPPINES: Danger of Collapse

Americans who still consider the Philippines this country's little brother, were startled by the report of Daniel W. Bell's mission on conditions in that republic.

In his forthright report, Bell said the Quirino government was in such a critical situation that only the most far-reaching program of reforms and self-help, supported by technical and economic assistance from this country, could save the Philippines from total collapse.

As a result, the United States offered the Philippine republic up to \$250,000,000 in closely supervised loans and grants over a period of five years on conditions which included:

1. The whole agricultural economy of the islands be overhauled.
2. The economy of the country should be diversified by the introduction of new industries.
3. Non-essential and dollar-consuming imports should be discouraged through the imposition of a special emergency tax.
4. Social reforms should include ambitious programs for improved public health, urban housing, educational services, and land reform.
5. Public administration should be reorganized to "insure honesty and efficiency."

Bell's report was attacked by some members of the Philippine government, but most observers agreed the terms of the proposed loans would be met by Quirino.

RELIGION: Pope Proclaims Dogma

In the most spectacular and important ceremony of the 1950 Holy Year, Pope Pius XII proclaimed as Catholic dogma that the Virgin Mary was "assumed body and soul into the glory of Heaven."

The dogma was approved by 35 cardinals and more than 500 bishops from all parts of the world. It was the first in nearly 1000 years to be proclaimed by a Pope.

Some Protestants, notably leaders of the Church of England, have protested that the pronouncement of the bodily assumption of Mary would be another impediment to Christian unity.

More than eight million lay Catholics had added their pleas in the past to those of thousands of clerics for pronouncement of the dogma, it was reported.

AEC Chief

Atomic energy commission chairman Gordon Dean told newsmen during a press conference that "you may be sure we are stronger than Russia" and that our A-bomb stockpile is "much better off today than a year ago."

Dean added, however, that "ten or five or one atomic bomb is too many for an unfriendly nation to have."

TRAFFIC DEATHS: At Postwar High

The National Safety Council reported the highway slaughter of Americans for this year probably will run higher than the casualties in the Korean conflict.

Traffic deaths in 1950 are up 11 per cent for the first nine months, for a total of 24,580. A final total of 35,000 for the year is virtually certain. A mark of 35,000 for 1950 would be the highest since 1941, the council reported.

Christian Worship

Lesson for November 19, 1950

SOME one has said that if the Christian church did nothing else but offer a regular opportunity for public worship of God, she would have justified her place in the sun. This is a rather misleading truth, for if a church did nothing but worship it would not be doing its whole duty, indeed it would not be a true church. As our Scripture plainly shows, worship disconnected from life is not only not good, it is sinful.

Why Worship?

WHAT is worship, and why do we worship at all? We might define it as a meeting with God, both conscious and desired. "He shines in all that's fair," and in truth we are in his presence all the time. But we are not conscious of him all the time. When we are conscious of him, then one of two things happen. Either we hastily shut our minds and run away from him in fear, which is sin. Or we linger, feeling it is good for us to be here.

And then it is worship. Or again, we might call worship conversation between man and God. Every part of it is either our listening to God speak to us, or our speaking to God in some way.

Why worship? We worship because we love God. Otherwise it would be a bore, at best, or a kind of self-torture at worst. We worship because we need God. If Jesus needed both public worship and private prayer, so do we far more. We worship because we need to know God's will.

Why Worship Together?

PUBLIC and private worship cannot be substituted for each other. Readers of the Bible know how they were intertwined in the experiences of God's people, and how our Lord himself, who used to attend the synagogue services regularly, also sought God on the hills alone. A man who never meets with God alone in prayer will not know how to come to public worship in the true spirit; and a man who habitually stays away from church for no good reason is not a person whose private prayer-life is likely to be a healthy one.

We need to worship together with other Christians. We need this experience to strengthen our own prayer-life. We need it to keep us from selfishness in our prayers. Intense, earnest prayer, and full of faith too, may be seriously wrong if it is essentially selfish.

In corporate, public worship we are reminded that none of us stands alone; that God has many children. We need to worship together because it is one of the very few things, perhaps the only one, that all human beings can do as one. No two of us are alike, yet we are alike in this one thing: We are all human beings in need of God. To worship together is to be reminded of this.

Why Worship As We Do?

IT OUGHT not to be surprising that men worship God in so many ways, for there are all sorts and conditions of men. But within the Protestant churches, our differences are not important. Essentially we have much the same "pattern" of worship. It will be helpful to you, the next time you are in church, to ask, at each part of the service: Why do we do this? What good does it do? Could it be left out without being missed?

As you visit other churches from time to time, take note of any differences, not in a spirit of criticism but considering whether you might learn from them. What do you and they have in common?

You will agree that there are hardly any parts of a typical Christian worship service which we could do without. We need the prayers, for in them we all pour out our hearts together before God. We need the hymns and psalms, because they express the beauty and the joy of our faith; most of them are prayers set to music. We need the Scripture reading, because in it we hear the Word of God. We need the sermon, because it applies the Word of God to our own lives and problems. We need the offering too... why? But the offering is true worship only on one condition. Do you know what it is? After all, the real test of every part and variety of true worship is: Has this experience brought man and God closer together in spirit and in truth?

DOAN'S PILLS

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slow down kidney function of sagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to acid, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may otherwise occur, it's amazing how many times Doan's give happy relief. Help the 15 miles of kidney tubes and filter out waste. Get Doan's Pills today!

HOUSEHOLD MEMOS... by Lynn Chambers

Let Turkey Take a Second Bow. (See Recipes Below)

Turkey Topics

MR. GOBBLER can score several triumphs after the big feast is over if he's dressed with the proper trimmings. Even the smaller turkeys which are purchased for small families have much good eating on them, and certainly the large ones do, too, even though you may have had the whole big family around the table.

As long as the bird can still be sliced, serve the succulent slices just as they come from the bird, with salad or for sandwiches. Then when you get to the smaller pieces, put them in delicious pie, creamed dishes, and casseroles.

***Turkey Pie (Serves 6)**

3 tablespoons butter
5 tablespoons flour
1 teaspoon salt
Few grains pepper
2½ cups milk
1½ cups diced cooked turkey
½ cup cooked lima beans
½ cup cooked whole kernel corn

Cheese Pastry
Melt butter in saucepan, blend in flour, salt and pepper. Gradually add milk, cook until thick, stirring constantly. Add turkey, lima beans and corn; heat. Pour into 6 individual casseroles and top with cheese pastry cut in turkey shapes. Bake in a hot oven (425°) for about 12 minutes, or until pastry is lightly browned.

***Turkey Pilaf (Serves 6)**

7 tablespoons cooking oil
4 mushrooms, finely sliced
3 tablespoons finely shredded green pepper
1 tablespoon tomato puree
1 cup light cream or top milk
¾ cup sour cream
2 tablespoons prepared mustard
2 teaspoons salt
¾ teaspoon cayenne pepper
2 cups diced cooked turkey
2 medium onions, sliced
1 cup raw rice
3 cups meat stock or bouillon
¾ cup blanched, fried almonds

Heat three tablespoons of cooking oil in heavy pan. Add sliced mushrooms and cook over fairly high heat for two minutes. Add green pepper and tomato puree. Stir in the light cream or top milk and sour cream very slowly. Add mustard, one teaspoon salt, the pepper and mix well. Add diced, cooked turkey. Heat two tablespoons of the cooking oil in a heavy skillet and brown sliced onion until crisp. Add browned onion to turkey mixture.

To prepare rice, heat one tablespoon of the oil in a heavy pan, add rice and remaining teaspoon of salt. Cover with meat stock or bouillon and bring to boil. Cover pan with waxed paper, then lid. Bake rice in moderate oven (350°) for 25 minutes or until tender. Mound rice on a serving dish and pour hot turkey mixture over. Scatter almonds that have been fried in the remaining cooking oil, over the top.

Try these Tasty Treats During Cool Weather

Put hot sweetened apple sauce through a sieve and spread over hot croutons. Sprinkle with a mixture of cinnamon, sugar and chopped nuts; serve in dessert dishes.

Vary your Swiss steak by using one of the following liquids to replace tomato juice; canned mushroom or onion soup, consomme with grated carrots, chopped onion and celery, or sour cream diluted with milk.

Cheese Pastry

1 cup flour
¼ teaspoon salt
¼ cup butter
¼ cup grated cheese
2 to 3 tablespoons water

Sift together flour and salt. Cut in butter and cheese until consistency is like coarse cornmeal. Add water, mixing lightly with fork and form into ball; chill. Roll out and cut with round or turkey shaped cutter.

Turkey Corn Casserole (Serves 4-6)

2 cups cubed, cooked turkey or chicken
½ cup finely chopped celery
1 12-ounce can (1½ cups) whole kernel corn
¼ cup chopped pimiento
1 tablespoon chopped onion
¼ cup fat
3 tablespoons enriched flour
1 tablespoon salt
1 cup turkey stock
2 well-beaten eggs
Green-pepper rings
¾ cup buttered bread crumbs
¼ cup grated American cheese

Arrange turkey, celery, corn and pimiento in greased baking dish. Cook onion in hot fat until golden. Add flour and salt; blend. Gradually add stock; cook until smooth and thick, stirring constantly. Quickly stir sauce into eggs. Pour over turkey mixture. Top with green-pepper rings. Mix crumbs with cheese; sprinkle over top. Bake in moderate oven (350°) 30 minutes.

Bones, Skin and Scraps For Rich Stock

To prepare broth, crack the bones if possible. For the cracking use a steak pounder, a mallet or a pair of pliers. If you can't crack them go ahead anyway for you'll still get a good broth. Place bones in a saucepan. Add water to cover, 1 small onion, a carrot, a few ribs of celery, and soup herbs if you have them. Simmer 2 or 3 hours. Strain, cool promptly, then store in coldest part of refrigerator.

Cream of Turkey Soup (Serves 4)

2 tablespoons butter
2 tablespoons flour
1½ cups turkey stock
½ cup cream or top milk
½ to ½ cup chopped cooked turkey meat
Chopped parsley

Prepare a sauce of the butter, flour and stock. Set over hot water, add stock and meat. Heat. Season to taste with salt and pepper. Serve very hot garnished with parsley.

Turkey in Toast Cups (Serves 4-6)

Combine one 10½-ounce can condensed cream and mushroom soup and ½ cup top milk; blend; heat; add 1½ cups diced, cooked turkey and ½ cup chopped canned pimiento. Add some of hot sauce to 1 egg yolk; stir into remaining hot sauce. Heat thoroughly over low heat. Serve in toast cups.

One-half cup of seedless raisins added to your favorite recipe for cranberry sauce adds interest to the relish. This is especially good with pork.

A good sauce to serve with asparagus, frozen or canned, is to make a thin white sauce. Pour over the vegetables and garnish with rice, hard-cooked egg.

Good to serve with chilled vegetable juice as a first course is a thin slice of ham spread with well seasoned cream cheese and rolled, then fastened with a toothpick.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE... NOT GOOD FOOD

When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT.

FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon... right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy... you feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25¢, 50¢, or only 10¢.

AILING HOUSE

Question: I have aluminum siding on my house and I would like to paint it white. I understand some sort of "treat coat" should be applied first, so that the paint will adhere properly. Could you give me any information on this?

Answer: There is a special metal priming coat intended for this purpose. I cannot mention trade names in the column, but you may obtain information from the Architects Samples Exhibit, 101 Park Ave., New York 17.

Vanity

During the Twelfth dynasty vanity was sometimes a very expensive trait. Egyptian rulers of the time often admired their reflections in real silver mirrors that had handles of black obsidian adorned with solid gold.

Crested-Wheatgrass Seed Production Reported Up

The 1950 production of crested-wheatgrass seed is estimated at 5,330,000 pounds of clean seed. This is 5 per cent larger than the 1949 production of 5,090,000 pounds. Larger crops than last year were reported for North Dakota, South Dakota, and Montana, more than offset the smaller crops indicated for Nebraska, Colorado and Washington. The Colorado crop was near failure in 1950.

Pull Out the Car

Although most farmers these days live on a hard surfaced road, there may be an occasion when it would be necessary to pull a car or tractor out of a ditch. The above illustration shows how to get out of that ditch with the least amount of effort. A tow rope hitched to the front end of the car and tied to a stake or tree at right angle at the side of the road, will give you the leverage to get out of almost any place without help.

Less Than Half of U.S. Farm Homes Have Baths

Less than one-half of the nation's more than 4,000,000 farm homes have baths and only half of the rooms are heated, a study of rural housing accommodations revealed.

Excessive standardization to relieve early postwar housing shortages resulted in the building of mediocre farm homes of rectangular, box-like design with too small rooms, too little privacy and absence of adequate plumbing and heating facilities.

However, under impetus of a U.S. department of agriculture program, farm house plans have recently been developed that are expected to fulfill the fundamental requirements. The new plans call for space, equipment and storage facilities in proportion to the number of persons in the family.

Coupled with the benefits of a 10-year electrification program that has brought electricity to 75 per cent of the farm homes, this new home designing will open an untapped market for manufacturers of automatic equipment and home appliances.

Truman Tells U. N. This Country Committed to Armament Program; Costs of Living Near Record High

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

TRUMAN: Armament for Peace

President Truman, speaking before the United Nations general assembly on United Nations' day, told members of the world organization that the United States would prefer universal disarmament, but that this nation is committed to re-arming because it is the only way to stop aggression.

The President used Korea as an example of what united effort by U.N. members can accomplish in stopping aggression. He termed the invasion of South Korea by Communist forces a direct challenge to the world organization.

As for disarmament and the solution to world problems, Mr. Truman said the U. S. was willing to enter negotiation, but only if all nations proved their good intentions. Such negotiation could only be carried on if there was concrete evidence of good intention and the open and free exchange of ideas between nations.

The chief executive said few acts in our time have met with such universal approval as the intervention of the United Nations in the Korea conflict.

It was significant that the President did not mention Russia at all during his speech as the chief threat to world peace. It was clear, however, to what world power he referred when he said the freedom loving nations of the world will continue to build up their armed strength, because they have no other choice.

LIVING COSTS: Nears Record High

The latest government consumer price index reported the cost of living continued to move upward. The gain was 1/2 per cent from the previous month. The index stood 173.9, meaning 73.9 per cent above the 1935-39 average.

The government, however, was only putting into figures what the American housewife has known for some time. Low and fixed income families felt the pinch shortly after the Korean war began. The latest index figure was only 4 of a per cent short of the 174.5 high reached in August and September, 1948.

Even with the publication of these figures there seemed little possibility that the government planned any immediate action to stop the rising cost of living. In the average American city the housewife now pays \$21.70 for a food basket costing \$10 at the outbreak of World War II.

During August and September of this year housewives were paying 3.5 per cent more for meats, poultry, and fish, including 10.6 per cent for pork chops, 7.5 per cent for fish, and 4.4 per cent for eggs, 1.4 per cent for canned fruits and vegetables, and 2.6 per cent for beverages.

The government's price index is taking on increasing importance in American business economics as more and more contracts between unions and employers allow for wage changes as the index rises or drops.

However, this does not help old people or white collar workers living on fixed incomes.

Ike Says 'No'

Gen Dwight D. Eisenhower, president of Columbia university, is shown with Dean Philip Young of Columbia, as they announced the establishment of the "American Assembly" at the university, a convocation of representatives of business, labor, the professions, government and the university, to work out answer to critical problems facing the country. Ike repeated his "no" about running for President.

FREEDOM BELL

Symbol of Freedom Rings in Berlin

The 20,000-pound freedom bell, symbol of the hopes of free men, arrived safely in Berlin after a night run through Communist dominated territory where Red agents reportedly had orders to delay it. The following day it was raised to the belfry of Berlin city hall.

Two days later millions of radio listeners throughout the world heard Gen. Lucius D. Clay, former mili-

Headliners

Leon H. Keyserling, chairman of President Truman's council of economic advisers, speaking on the country economic problems, said: "We do not need as many or as tough controls as in 1944 because the transition of military activity is not nearly so rapid or so great."

Stuart Symington, economic-mobilization coordinator, also had something to say on the same question: "It begins to look as if everybody wants controls so long as the controls don't affect them."

Gen. Dwight D. Eisenhower, speaking on the Founder's Day program at Carnegie Institute said: "Possibly my hatred of war blinds me so that I cannot comprehend the arguments they advance. But in my opinion there is no such thing as a preventive war."

PRAGUE:

Scene of New Plot

The foreign minister of Russia and the representatives of seven satellite states met in Prague to plot the next Communist move since the gamble in Korea must be written off as a complete loss.

From that meeting came four demands to the western powers, but the free nations were more interested in what the Communists did not say than in the new demands.

This is what the Communist asked: (1) That the governments of the United States, Britain, France and Russia should publish a declaration saying they will not allow the re-militarization of Germany, they will not allow Germany to become "involved in any plans of aggression," and will try to carry out the Potsdam agreement to "build a democratic, peace-loving Germany."

(2) That all restrictions hindering the development of Germany's "peace economy" be removed while a revival of German war potential should not be allowed.

(3) That there should be concluded "without delay" a treaty of peace with Germany which would renew the unity of the German state in harmony with the Potsdam agreement; that all occupation forces of the great powers be withdrawn from Germany within one year after a peace treaty is concluded.

(4) That on a basis of parity, representatives from east and west Germany should form a "Constitutional Council" for all of Germany to prepare "the formation of a democratic sovereign government" for all Germany.

The West was not naive enough to believe that any agreement could be reached on Germany. Plans for rebuilding a strong western Germany and a European army continued in full force.

Western diplomats were asking themselves what new acts of aggression did Russia and her satellites cook up?

STASSEN:

Pravda Calls Him Silly

Harold E. Stassen, former governor of Minnesota, created a lot of interest with his letter to Joseph Stalin asking for a face to face meeting of Americans and Russians in an effort to "stop the drift toward war."

Stassen did not receive a reply from Stalin, but the official voice of Communist propaganda, Pravda, published an article calling him silly, crude, and ridiculous, among other things.

The article was, in fact, a flat rejection of the Stassen proposal. The writer made it plain that the Soviet government does not consider Stassen's letter worth a formal answer.

The article said in part: "Stassen demands no more, no less than a change by the Soviet Union of its policy. It is not difficult to see that Stassen is not only crude but also ridiculous in advancing this wild demand which excludes all possibility of a serious view of any degree of 'document' worked out by the president of Pennsylvania university in cooperation with veteran warmongers Eisenhower and Dulles."

The former aspirant for the Republican presidential nomination had little to say about the article. He indicated he would wait for a direct reply from Stalin.

RURAL HEALTH

Health Councils Bring Better Medical Care to Rural Areas

One of the brightest indications of progress in securing more doctors and better health facilities for rural areas in this country is the recent announcement by the American Medical Association that community health councils in the nation have increased from 82 to nearly 300 in the last two years.

These figures are based on a survey of the association's council on medical service in which county medical societies were queried, Thomas A. Hendricks of Chicago, secretary of the council, reported.

Local achievement of the community health councils in the last five years include construction of hospitals with the aid of the hospital survey and construction act (Hill-Burton act); increasing available hospital beds; developing clinics; securing more doctors, dentists, nurses and other needed personnel; development of fulltime local public health services; health examination of children of school and pre-school age and correction of their remediable health defects; promotion of voluntary prepayment medical care and hospitalization; provision of medical care for the aged and chronically ill, and meeting costs of medical service to families unable to pay for hospitalization and doctors bills, according to Hendricks.

In some instances community councils have been extremely helpful in cooperating with the national mental health program. Councils have matched government funds to pay mental health clinic personnel and conducted educational campaigns to acquaint communities with the value and manner of operation of the clinics.

And although health councils have been organized in urban as well as in rural areas, they have been especially important in bringing better medical care to the people in rural communities, Hendricks said.

THE A.M.A.'s efforts to promote organization of community health councils to improve medical care for long neglected rural communities date back to the organization of the association's committee on rural health five years ago. Since that time it has been actively engaged in coordinating the efforts of farm groups and state and local medical societies in rural health.

The committee is set up so that its representatives can be reached locally in any area. Doctors selected by state medical societies serve as directors in nine regions and as state rural health chairmen in 45 states. Any organization wanting information on setting up a local health council or solving rural health problems may contact one of these representatives or write directly to the A.M.A. rural health committee in Chicago.

AS AN EXAMPLE of how the council plan works, suppose members of an Ohio farm bureau wrote the A.M.A. that a community needs a doctor and does not have the facilities to attract him. The community wants to build and staff a health clinic with aid from the hospital survey and construction act. What happens?

The information is referred to the regional director who takes the matter up with the state rural health chairman and the state medical society. The state chairman and the medical society contact the farm bureau, a meeting is called, and the state chairman and representatives of the state and local medical societies, farm organizations and civic groups get together at the community level to work out the problem.

That the rural health problem is steadily being solved through cooperative community efforts was generally agreed at a conference on rural health in Kansas City, Mo. The conference brought together more than 500 medical and lay leaders concerned with providing medical care to small communities.

Professional Blind Man Plays Gag to the Very Finish

By BILLY ROSE

Last night, in a mood for malt and malarkey, I stopped in to chin with Sammy Fuchs, proprietor of the Bowery Follies and honorary mayor of that unwashed neck of the Manhattan woods.

"What's new and gruesome in your balliwick?" I asked mine host.

"Nothing much," said Sammy, "except that Faker Kennedy died last week and left his eyes to a bartender down the block."

"Come again?" I said.

According to Sammy, the Faker was a professional blind man who had been rattling a tin cup on the Bowery for as long as he could remember. In spite of his calling, however, it was a standing joke around the flophouses that the canteen could shoot off a bug's ear at a hundred paces.

"We used to kid Kennedy about his blindness," said Sammy, "but he never let on it was an act—if it was an act, we were never sure because no one ever saw the old cove without his smoked glasses."

"Down at Gargan's Bar where the Faker used to hang out after hours," Sammy continued, "the proprietor had a kind of running gag at the bum's expense."

"When you die," he used to say, "I'll leave 'em to ya, Gargan," was the Faker's stock answer, "And

THE FICTION CORNER

ONE AGAINST THREE

By Richard H. Wilkinson

JIM ORSON had ridden 200 miles on horseback to commit murder. Slouched in his saddle, one hand resting carelessly on his thigh near the butt of the six shooter, he watched from beneath the brim of his hat as the boy came toward him.

"This Marc Newell's place?" he asked.

The boy nodded. "My brother will be back any minute. I'm Davie Newell. Are you Mr. Dumont, the cattle buyer?"

Without changing his expression Jim Orson said: "Yeah, I'm him."

"We've been expectin' you. Come on inside and wait. It's cooler."

"I noticed," Orson remarked, "that you had a rifle in your hands when you first opened the door. Expectin' trouble?"

The boy's face clouded. "I was afraid it might be Jules Snyder. He's promised to get Marc."

"Why is he out to get your brother?"

The boy hesitated. "Because Marc quit his gang. Marc used to hang around with the Snyder bunch, but when they began rustlin' and killin', he quit 'em."

"Right after Marc quit, a man named Tom Orson was shot and Jules let it out that Marc done it. The story spread an' nobody dared deny it because they're afraid of Snyder."

Jim Orson thought: "The boy's lying. He's like his brother—a liar and a killer. It was Marc Newell who killed Tom, and it's Marc Newell I'm going to settle with for the crime."

"You'll like my brother," Davie was saying. "He's swell. He—"

Orson's hand whipped to his hip and he shot at the exact moment lead spurted from the horseman's six-shooter.

Faintly the sound of hoofbeats came to them. Davie set down the pan of potatoes and scurried to a window, turned back into the room, white-faced. Without a word he snatched up the Winchester rifle.

THREE men had drawn rein before the gate. Halfway down the walk Davie was facing them defiantly.

"You git out of here, Jules Snyder!"

The leader of the trio, obviously Snyder, said placatingly: "Put down the gun, kid. We only want to have a talk with your brother."

"You want to kill him!" the boy cried shrilly. "I ain't gonna let you. Marc never done nothin' to you."

Behind Jules Snyder one of the riders had drawn his gun. It was one against three, a boy against a trio of killers.

Jim Orson stepped through the kitchen door. His hand was on his gun.

"ALL RIGHT," he said. "This makes it more even. I'm backing the kid's play."

Snyder's eyes bulged. "Who the devil are you?"

"I'm Orson, Jim Orson. Brother of the man you killed, Snyder!"

Snyder's reaction was a dead giveaway.

The man who had drawn his gun suddenly levelled it. Orson's hand whipped to his hip. He got his own weapon clear and shot as lead spurted from the horseman's six-shooter.

Snyder swore savagely and went for his own gun. Orson shot again. Two of the horsemen were down, the third streaking up the road.

Orson, smoking gun in hand, bent over the two still figures. The boy watched him, wide-eyed, awed.

"Son, I'll ride into town and get the sheriff. You stay here. When your brother comes back, explain what's happened."

The boy nodded, choking. "You're not Mr. Dumont? You're Jim Orson?"

"That's right," Orson smiled and patted the boy's head. "Come 200 miles on horseback to get a lesson in courage."

"You're going back now?"

"That's right. I'm going back. You see, son, I accomplished what I come for."

Turkey, Pumpkin Pie Will Vie for Honors At Thanksgiving Table

AS THE FROST gathers on the pumpkins, it's time to start making plans for the bountiful feast of Thanksgiving. Here's an excellent opportunity for parading the colors of fall as well as the fruits of harvest.

Smart homemakers will plan the menu around simple foods, part of which can be prepared a day or two before the day of Thanksgiving. Then, they, too, will be able to be thankful for planning which didn't force them into the kitchen for the whole day.

With the menu I've planned for this special occasion, you may clean and stuff the turkey the day before. Refrigerate both bird and stuffing before putting together to avoid spoilage. That leaves only the roasting to be done on Thanksgiving.

***Chestnut Stuffing (For 16-pound bird)**

- 1/2 pound butter
- 1 pound chestnuts, cooked and chopped
- 3 quarts toasted bread cubes
- 1 1/4 teaspoons salt
- 1 cup chopped celery
- 1/4 cup chopped onion
- 2 tablespoons chopped parsley
- 1/2 teaspoon poultry seasoning
- 1 1/2 cups hot water

Melt butter, and add bread cubes, salt, celery, onion, parsley, chestnuts and seasoning. Mix thoroughly. Add hot water to moisten.

When bird is stuffed, estimate the weight of bird by adding 25 per cent to the dressed weight so that total cooking time may be determined. Lay, breast side down, in a shallow baking pan, in a V-shaped rack. Bake uncovered at 325° half the estimated baking time, then breast up until the cooking is completed. Brush the skin lightly with unsalted fat, such as lard, to prevent blistering. If desired, cover with a cheesecloth, lightly moistened with fat, to prevent drying out. Remove the cloth during the last half of the roasting period if the bird is not evenly browned. Roast a 10-16 pound bird 18-20 minutes per pound.

***Glazed Onions (Serves 8-10)**

- 3 dozen small white onions
- 3 tablespoons butter
- 1/2 cup stock or water
- Salt and paprika
- 2 tablespoons sugar

Peel onions, cook five minutes in boiling salted water, drain thoroughly, and turn into small baking dish with butter, stock or water, salt, and paprika. Cover and bake in moderately hot oven (375°) half an hour; then remove cover, sprinkle with sugar, and allow onions to brown.

***Cranberry Sweet Potatoes (Serves 8)**

- 2 cups cranberries, chopped
- 1/2 cup raisins
- 1/2 cup walnuts, chopped
- 1 tart apple, peeled and sliced

The regal bird, tender and brown from the oven should be placed on a platter large enough to hold it easily. Bright red crabapples in peach halves give it a lovely garnish.

LYNN SAYS: Here's How You Can Decorate Holiday Table

If you have a gourd, set this at the center of the table on a display of autumn leaves. Fill the gourd with fruits such as shining red apples, tangerines, bananas and grapes.

Beautifully colored leaves can be used on the plates if you are serving chilled vegetable juice or fruit juice as a first course. Place leaf on plate and the glass of juice right on top of the leaf.

Let the youngsters have fun making place cards if you're serving a crowd. In one corner of the card, have them paint a brown-yellow or green-red leaf or some fall flower such as chrysanthemum.

Make food platters as pretty as possible. For instance, the turkey platter should have sprigs of parsley on either end of the plate. Run a row of fruits on either side, such as crabapples sitting in peach halves, red jelly in pear halves, or cranberry jelly cut-outs on pineapple slices.

Pumpkin pie appears at the table dressed up with leaves cut from thin slices of cheese. Make a leaf pattern from cardboard, place on thin slice of American cheese and cut out with sharp knife.

*Recipe Given

1/2 cup brown sugar
8 cooked sweet potatoes

Combine all ingredients, with exception of sweet potatoes, and mix well. Cut sweet potatoes in half and remove several tablespoons pulp from center of each half. Reserve pulp for later use in stuffing or as a vegetable. Fill hollowed potatoes with a cranberry mixture. Sprinkle with additional brown sugar for a shiny glaze. Place under broiler until hot and bubbling. Serve at once.

***Perfection Salad (Serves 8)**

- 2 tablespoons gelatin
- 1/2 cup cold water
- 2 cups boiling water
- 1/4 cup mild vinegar
- 1/4 cup pineapple juice
- 1/2 cup sugar
- 1 teaspoon salt
- 1 cup finely shredded cabbage
- 2 cups finely diced celery
- 3 tablespoons diced pimiento or red pepper

Soften gelatin five minutes in cold water. Add boiling water and stir until dissolved. Add vinegar, pineapple juice, sugar and salt. Chill. When almost set, stir in vegetables lightly. Turn into previously wet individual molds and chill. Unmold, garnish with lettuce, mayonnaise.

***Custard Pumpkin Pie (Makes 1 9-inch pie)**

- 2 eggs, slightly beaten
- 2 cups, cooked or canned pumpkin
- 1/4 cup sugar
- 1/2 teaspoon salt
- 1 teaspoon cinnamon
- 1/2 teaspoon ginger
- 1/4 teaspoon cloves
- 1 1/2 cups evaporated milk, top milk, or light cream
- 1 9-inch unbaked pastry shell

Combine eggs and pumpkin and blend. Mix sugar, salt, and spices and add to pumpkin mixture. Blend in evaporated milk. Pour into pastry shell. Bake in a hot oven (425°) 15 minutes. Reduce temperature to moderate (350°) and continue baking 45 minutes or until knife inserted in center comes out clean.

***Mincemeat Custard Pie (Makes 1 9-inch pie)**

- 1 9-inch unbaked pastry shell
- 1 1/2 cups mincemeat
- 3 eggs, slightly beaten
- 1/4 cup sugar
- 1/4 teaspoon salt
- 2 cups milk
- Nutmeg
- Cheese

Line a 9-inch pie pan with pastry, fluting edges. Spread mincemeat evenly over pastry. Combine eggs, sugar, salt and milk; pour over mincemeat. Sprinkle with nutmeg. Bake in a hot oven (450°) for 15 minutes. Reduce heat to moderate oven (350°) and bake 30 minutes more, or until a knife inserted in the center comes out clean. Serve warm with cheese.

Sing Something Purple

The fact that music can bring certain colors to mind has long been recognized by psychologists. Two of them, Henry S. Odbert and Theodore F. Karowski, found that—out of 148 college students—39 per cent were able to "see" a color or colors while listening to music. Of the number, 53 per cent were able to associate a color and 31 per cent felt a color response. Newton related colors to the diatonic scale in this manner: Do, red; re, orange; mi, yellow; fa, green; sol, blue; la, indigo; and si, violet. Attempts have been made to fashion color organs and other devices to express the correlation of color and music.

Low Cost Essential For Farm Building

Concrete Blocks Filling Farm Construction Needs

Concrete blocks are being used more and more in the construction of farm buildings, according to American Builder magazine.

They have been found very serviceable for dairy barn construction, low in first cost and in upkeep.

Attributes that contribute to concrete's value as a building material on the farm are its durability, cleanliness, and weather and insect

Dairy barn of concrete blocks and with a roof of fire-resistant asphalt shingles provides an efficient structure low in cost and in upkeep.

resistant qualities. Concrete foundations, masonry unit walls, concrete floors, and precast floor joists can be utilized to construct enduring farm structures and to repair old ones.

If a dairy barn is well-constructed and insulated, body heat of the cows would keep interior temperatures at 45 to 50 degrees in almost any kind of weather.

Lightweight aggregates in monolithic concrete or in masonry units, vermiculite floors and underlayers, hollow core walls, and masonry units with granular loose-filled cores all have qualities that can contribute to the efficiency of rural buildings.

Harvest your cotton two rows at a time!

Make short work of your cotton harvesting... strip and deliver your cotton two rows at a time with a new John Deere No. 15 Two-Row Cotton Harvester. You'll have no labor problem... you'll cut costs to a minimum... get your crop harvested quickly and reduce field losses.

Designed to work with the John

Deere Models "A" and "B" Tractors, the John Deere No. 15 does a fast, efficient job of saving the bolls... after the cotton plants have been killed by frost. Most of the dirt and trash are separated from the bolls before they reach the trailer.

Be sure to stop in soon and let us tell you all about this new, two-row cotton harvester. You'll like it!
