For the Best Interests of O'Donnell and Lynn County

Volunteer To Service

Tex., Feb. 13. (Spl.)—Volunteers for service under the Service Act to fill the quota for seven men in Lynn county have already registered at the local board. One of them is Glenn Holcomb of this county who volunteered since he had volunteered since the Joy James Welch of Eugene Calvert Parrish of this county and Matthew Grider of this county. It is believed that a sufficient number of young men will fill the call. Some of those who have volunteered may not pass the physical examination, and more men may

volunteer. Atten, who had volunteered on last Monday because of over-education of three men accordingly volunteered Monday: Alvin Louis, Edmund Victor Macha, and do Lopez. These three together with many from other counties in Lynn county, Phaniel New Home, are inducted into the army on January 11. He is the enlistment officer at this post, and was sent to Oklahoma.

Weldon Noble Is Out Of Danger

TAHOKA, Tex., Feb. 13. (Spl.)—Relatives here received word early this week that Weldon "Jiggs" Noble, son of Terry Noble of Lynn county, who was so seriously injured in an automobile accident at El Paso on Tuesday night of last week, had fully regained consciousness and was pronounced by physicians to be "out of danger".

Weldon was hurt in a car wreck in which another soldier boy was killed. Both were members of the regular army at Fort Bliss. For several days his chances for recovery were regarded as no better than 50-50, and the family and friends here were very solicitous as to his condition. They are greatly gratified that he is now on the road to recovery.

Seed Available Through F. S. A.

Farm families in Lynn county are being urged to join in a cooperative purchasing association to acquire their garden seeds for use this spring, according to Myrlene Cannon, home management supervisor and Wyman J. Welch, rehabilitation supervisor for the Farm Security Administration.

Last year hundreds of farm families in this part of the state cooperated with their seed purchases. In addition to saving a great deal of money, this cooperative enterprise resulted in the families having a better variety of foods in the diet.

"The standard packages of garden seeds contain sufficient amounts as estimated to meet the need of the average family for fresh canned, and stored vegetables," Miss Maurine McNatt said. "Moreover, the varieties are selected to suit the local climate and soil conditions."

Some of the advantages of group purchase of seed, as outlined by Miss Cannon are:

1. This program applies to every farm family in the county, no matter what the circumstances. Since one of our aims is to encourage people to work and think together, this gives all of us the advantage of group cooperation.
2. It has been an effective method of introducing a better variety of foods in the family diet.
3. Seed on hand at planting time eliminates the fear of late planting due to the lack of seed or money at garden planting time.
4. Standard packages of seed secured for germinated tested seed and reliable houses not only insures good quality seed, but reduces the cost materially. Many of the standard packages delivered last year at a cost of from \$2.00 to \$3.00 would have cost \$8.00 and up had they been purchased individually.

Miss Cannon said that when the home garden plan for Lynn county has been completed, the purchasing committee, composed of local farm men and women, will contact local dealers for reputable seed houses, and secure bids for a sufficient number of packages to supply all cooperating farm families in the county as recommended by the State Extension Service and in cooperation with the local county agent.

Care will be taken to secure seeds of proper germination value and quality. Miss Cannon emphasized the fact that every effort will be made to purchase the seeds through local dealers.

"Although the local representatives of the Farm Security Administration do not enter into contracts with dealers or merchants relative to group purchases," Mr. Don Turner, County Agricultural Agent said, "we do encourage the farm families with whom we are working to do their trading with their home merchants."

The Farm Security Administration is assisting seventy-five farm families in Lynn county. The cooperative purchasing project is not confined to these families, but is open to every farm family in the county. All those interested in the group purchase of garden seeds should contact the local FSA office immediately.

The live-at-home program is one of the major goals of the FSA for all families which it is helping. Last year five FSA families received awards for having produced at least

Scout Week To Close Today; Has Been Busy Week

A week of activities for the Boy Scouts of O'Donnell comes to a close here today in connection with the observance of National Boy Scout Week.

An address by President Franklin D. Roosevelt highlighted the national spotlight, but the "pot-luck" supper and court of honor here Monday night featured the local observance.

Approximately 65 boys and parents attended the supper. Rank advances were given to Billie Schooler in the second class; Billie Ray Frazier, R. T. Rains and James Teeter, first class; Roy Allen Gibson, star. Merits were assigned to J. C. Brantley, Donald Cargal, Roy Allen Gibson, Elvin Ray Moore, Ross Smith and James Teeter.

A disappointing attendance on the part of most parents and scouts was in evidence for church attendance at the church of the Nazarene Sunday. Only 16 scouts and possibly a half a dozen parents attended to hear the Rev. B. W. Taylor deliver a message on a Christian's duty, which, as he pointed out, will parallel scouting. Those attending were visibly affected by the message. Scouts attending were Bobby Dan Blocker, J. C. Brantley, J. C. Swinney, Jim Earl Simpson, Billie Ray Frazier, Jimmie Todd, Odis Etter, James Teeter, Bart Anderson, N. T. Singleton, Donald Cargal, R. T. Rains, Elvin Ray Moore, Stanley Cathey, C. L. Tomlinson and Jimmie Schooler.

Tahoka Abstractor Here 25 Years

Exactly 25 years ago this February, W. S. (Skip) Taylor, popular Tahoka abstractor, saw O'Donnell for the first time, and while the wind was hitting a smart clip and the sand was blowing all over the place Wednesday, he compared the difference of the day and towns of today from that of 1916.

Taylor can be ranked right along with the "pioneers" of Lynn. "There was very little in O'Donnell when I first saw it in 1916," Taylor reminisced. "Just a few buildings—Charley Doak had a small hotel across from where the bank now stands and there wasn't anything between there and the railway station except grass, weeds and what-have-you."

The Tahoka abstractor came to O'Donnell with his parents, the late Mr. and Mrs. J. J. Taylor. In 1917 he was inducted into the armed services and remained away until 1919. In the beginning of the "flaming 20's" he moved to Lamesa, but only stayed a short time, later removing to Tahoka in 1921 where he has since made his home.

The desire of Uncle Sam to punish the Kaiser interrupted what might have been a baseball career for Taylor. After finishing the season as a pitcher with the Bonham club in the old Texas-Oklahoma league, Taylor was offered a tryout with the Fort Worth Panthers. He went to the Army instead. While at Bonham, he played with and against such players as Rogers Hornsby, Slim Halsip, Jerry, Art, Dick and Rolene Naylor, all of whom later played in the major leagues.

First Baptist Church Calls Rev. E. C. McDonald

The Rev. E. C. McDonald, of Brady, was issued a call Sunday morning by members of the First Baptist Church to become pastor here. No reply as to acceptance has been received, however, due to the illness of the Rev. Mr. McDonald.

The Rev. Mr. McDonald, who has served as a pastor at Brady and Yoakum in recent years, is an uncle of Guy Bradley, local business man.

75 percent of their living at home. "No farm plan is complete without a good garden," according to Mr. Welch, "Money saved on food purchases is money in the bank, and of course good gardens contribute very materially to a family's health," he said.

O'Donnell's First Troop of Boy Scouts

The above picture is from a snapshot of the first troop of Boy Scouts in O'Donnell, and was furnished by Scoutmaster Naymon Everett. Scouts are, kneeling, left to right—William Ed, Singleton, Earl Talley, Ed Williams; standing—Lloyd Shoemaker, Deane Schooler, Eldon Carroll, L. E. Robinson Jr., Mack C. Bradley, James Bowlin.

Alamo Lodge, Where Scouts Here Meet

The above picture shows the lodge where the scouts meet, and is modeled after the famed San Antonio "Alamo". Work remains to be done on the lodge.

Fierce Sandstorm Here Wednesday

Swirling in from the west, a sandstorm which covered most of West Texas, struck O'Donnell Wednesday, with the wind velocity estimated at about 50 miles per hour.

Dust laden air greeted residents Thursday and the old bromide of "how you like the rain" was repeated often. Alleged "worse" storms in the past were recounted by many citizens.

"Bucketfuls" of sand were removed from inside homes Wednesday night and Thursday by irate housewives.

Traveling became hazardous early Wednesday morning and motorists were compelled to turn on car lights for safety. Sand, blown from plowed fields, covered the highways at times with such density that visibility was cut to only a few feet.

Pete Page, traveling near Pampa, had his car damaged in the rear when a dense blast of sand caused him to stop on the paving, and his car was immediately bumped by another just behind him. A third car then struck the second one, jamming the last named into Page's car.

TUESDAY CLUB MET WITH MRS. HUGHES

Mrs. Newell Hughes delightfully entertained Tuesday Club members at her home this week.

In contract games, Miss Thelma Palmer won high and slam prize and Mrs. Guy Bradley bingo prize. A delectable refreshment plate with hot tea was served.

Substitute hands were played by Mrs. B. J. Boyd and Mrs. C. H. Cabool.

Other members were Mesdames Noble, Hafer, Jordan, Campbell, Robinson, Henderson, and Forgy. Mrs. Bradley will be hostess next Tuesday.

News Briefs

T. A. "Chief" Wimberley, shoe shop owner, but better known for his hot bowling, is making the latter pay dividends in a way few bowlers do. In his spare time, Wimberley made a leather bowling ball bag, suitably hand-carved, for his daughter, who promptly displayed it in the alleys at Big Spring. A nationally known bowler, seeing it, quickly placed an order for one to be sent to Cincinnati. Now "Chief" is receiving more orders and those wanting bags are not sending him turnip greens in payment.

A complete change in the parts department is being made at the Lynn County Motor Company, local Ford automobile dealers. New equipment is being added and some of the old rearranged. A more complete department will soon be ready.

Jesse Bolch, bouncer for Burl's Auto Parts, was, so he says, a visitor in Seagraves, Seminole and Lamesa Tuesday. He went to see the sights, he also says, but didn't see any. Jesse claimed he was not the least bit afraid to make such a long trip, when asked—admitting that he knows the country pretty well. He saw plenty of high grass and jackrabbits, and went through Ashmore "a kitem"—whatever that is. The only untoward incident of the trip, Jesse avers, was that he was afraid that a girl he passed on the way would sustain an accident. He looked at her as he was passing her car, but she persisted in looking the other way, and Jesse was fearful she and her car would go into the ditch, but it didn't.

HAS BIRTHDAY PARTY

Sammy Saleh, seven-year old son of Mr. and Mrs. N. Saleh, entertained about 35 friends Wednesday with a birthday party. Most of those were his first grade classmates.

W. E. Payne was in Denver City on business Wednesday.

Mr. and Mrs. Maynard Eubanks and son, Jamie, returned Sunday from a trip to Rockport.

Legion To Work In National Defense Program

Working in conjunction with the National American Legion, the local post will cooperate and handle registration of all legion members and ex-war veterans by February 22 for national defense.

Legionaires met Tuesday night to formulate plans to handle the registration. Cliff Lambert was appointed Captain and J. Mack Noble, secretary.

Questionnaires have been sent to the proper authorities here for distribution among ex-service men in order that all such persons as may desire to do so may fill them out and sign them indicating their willingness to serve as a Home Guard in line with the National Defense Program which has been instituted by the Government.

There is no obligation and no pressure brought to bear upon any one to fill out and sign one of these questionnaires, it being purely a voluntary matter.

Three Cars In Wreck Sunday

A three-way car wreck which brought damage to all three cars, minor injuries to the various drivers and the downfall of part of the Rochelle Hotel porch occurred here Sunday night at about 7 o'clock.

The colliding vehicles were driven by Frank Shumake, W. R. Gibson and a member of the Furlow family.

The accident occurred so quickly that no witnesses could be found who saw the mixup as it actually happened.

The Gibson car, after being struck plunged into the hotel porch, and only a miracle saved Mr. Gibson from serious injury, so investigators claimed.

MRS. WALLS WAS CLUB HOSTESS

Members of the Kongenial Klub met Tuesday in the home of Mrs. George Walls for the weekly meeting.

Mrs. Elmer Daniels won high. Mrs. L. T. Brewer bingo, and Mrs. Irvin Street low.

A dainty refreshment plate was served at the tea hour. Guests were Mrs. Floyd Thompson, Mrs. R. O. Stark and Mrs. Sterling Bearden.

Other members were Mesdames Bubany and Gibson. Mrs. Bubany will be hostess next week.

MRS. GEO. OATES HOSTESS FOR NEEDLE CLUB

Entertaining in her home in Dawson Heights, Mrs. George Oates was hostess last week to members of the Sew and Chatter Needle Club.

At the conclusion of the hour of sewing, delicious refreshments were served.

Those present were Mesdames Tredway, Line, Hunt, Cheairs, Miles Fritz, Johnson, Jones, Middleton, and the hostess.

And Then!

Texas Oil Aids Many Workers

DALLAS, Feb. 13.—Texas workers receive half of the money spent in the production of Texas oil, according to a booklet just issued by the Texas Mid-Continent Oil and Gas Association. The booklet, entitled "Important Facts About Texas Oil", is now being distributed by the association from its headquarters in the Continental Building here.

Wages and salaries to Texas oil production workers amount to 49½ per cent of the net cost of producing

Workers Get Half of Texas Oil Cost Dollar

the average barrel of oil in Texas, the booklet shows. One-eighth of the net cost dollar goes to Texas tax-collectors for State and local taxes. Supplies cost about 26½ per cent, while depreciation, depletion, overhead and Federal taxes make up the remaining 11 per cent.

To this net cost must be added an extra one-eighth of the price of the oil which is paid as royalty to the Texas farmer or rancher who owns the land on which the oil is produced.

Texas petroleum workers and Texas farmers together receive \$400,000,000 a year in wages and salaries

and lease and royalty payments from the Texas petroleum industry, the book shows. Of this huge sum, the workers get \$272,000,000 annually and the farmers and other land owners \$128,000,000. The \$400,000,000 paid these two groups of Texans is four-fifths of the total value of all crude oil produced in Texas. Texas tax-collectors get from the petroleum industry an additional \$75,000,000 a year.

Production of rubber is being encouraged by a new Latin-American division created last month in the U. S. Department of Agriculture.

GAME TRAPPING CONTINUES

AUSTIN, Texas, Feb. 13—Trapping of game on areas which have a surplus and planting it in sections from which the various species have been shot or trapped out continues and reports to the executive secretary of the Texas Game, Fish and Oyster Commission indicate this will be by far the most successful year in the Department's history.

More than 500 deer have already been trapped, a considerably larger number than were captured all of last year. New methods of trapping made it a comparatively simple matter to gather in the game birds and deer, turkey and antelope have animals. The only bottleneck encountered by the Department is the lack of trucks upon which to transport the trapped game to new areas. They are sometimes taken as far as 600 miles. More than 500 antelope, twice as many as had been previously trapped in a year have been captured in West Texas on areas where they were over-crowded or where too many sheep were being grazed and thus cutting down the supply of food.

Turkey trapping continues with considerable success. Raccoons are being trapped successfully and a new project, that of trapping beaver, appears to be highly successful although definite figures on the numbers of animals taken are not available.

er Drug Store

clearing. He ran in and shoved the door shut just in time to prevent two wild turkeys from escaping. The turkeys, both young gobblers, apparently had sought refuge from the north and, due to the noise made by the wind-driven rain, had not heard the hunter's approach.

On another occasion, a duck hunter was driven from his blind by a thunder storm. As he hurried campward, he noticed a large flock of wild geese overhead. Suddenly a flash of lightning zig-zagged across the sky and two geese plummeted earthward into the marsh nearby.

One of the oddest doubles was scored last summer when a fisherman found two bear cubs in the dry cistern of an abandoned backwoods farm. The rotten wood cistern covering had caved in, imprisoning the cubs which were weak from hunger and thirst when discovered. A few messes of bread and canned milk and some cracklings made them, as the old-timer who told us put it, "Spryer'n a flock o' crickets on a hot stove!"

Whatta Hen!

A. E. Aldrich is still scratching his head. When winter set in he transferred several white Leghorn hens

from a colony house to the main henhouse. Several weeks later, while the boys were cleaning out the henhouse, a few of the hens got out, but they thought all had again been captured.

Weeks later, Jonathan Aldrich discovered a hen on the roost in the colony house. After a long tussle with pick and shovel, he managed to get the snow and ice away from the door and, stepping inside, he was amazed to see a dead fox lying in a corner on the floor. The hen, although reduced to little but skin and bones, was still alive.

Both hen and fox had entered the building through a small opening at the time of heavy snowfall and were trapped. A few oats scattered on the floor were the secret of the hen's remaining active, but how she escaped being devoured by a starving fox remains a mystery.

How Long Do They Live?

Do you think size in an animal is any indication of the length of time it is likely to live? It is.

F. S. A.

In Lynn County

By Myrlene Cannon

Cooking Fats

How much do you spend for fats and oils for cooking? The families in this county spend from 8 percent to 18 percent of their money on fats and oils. However, the average farmer in Lynn county produces most of this at home, which is certainly good management.

Why do we use fats? "In cooking the chief uses of fat are for flavoring, for frying, and for shortening" points out Elizabeth Fuller Whitman of the Bureau of Home Economics, U. S. Department of Agriculture. Some fats serve more than one of the purposes. The average farm-family uses butter and lard for these purposes.

If you have to buy your fat, the thrifty cooks often buy suet and salt pork, render them at home, and use them to give special flavors to fried foods. There are different kinds of fats and oils available on the market. The ones that are in common use are butter, oleomargarine, lard, hydrogenated fats, and various compounds. In buying these fats and oils always look for the government inspection stamp. "U. S. Inspected and Passed by the U. S. Department of Agriculture." It means that when the fat was inspected it was found to be good and wholesome food, and there is no misleading information on the label. The label may contain such terms as "pure lard", "beef fat added", "refined and hydrogenated lard", or maybe "compound, composed of vegetable and

animal fats".

Income Tax Law Presents Problems

The new income tax law presents many complicated problems which the laymen, in attempting to file his income tax returns for 1940, cannot solve. This office is anxious to be of help to all taxpayers who desire our assistance in making out their returns.

For this reason, we will send a deputy collector to your city to assist your citizens with their income tax problems. The law does not impose this duty upon us, but we feel obliged to assist wherever we are needed. The deputy's service and assistance is extended purely as a courtesy and without cost to your citizens.

For this reason, we request that you give our visit as much publicity as possible, for your citizens will benefit in direct ratio to the number who know about our visit.

Deputy Collectors Burl Bedford and R. A. Choat will be at the First National Bank, Tahoka, Texas, on Feb. 19th, 1941, from 8:30 A. M. to

4:00 P. M., to render income assistance to any who desire it. This will be the only visit we can pay your city during this filing period.

Forest Service Trees Available

Texas Forestry Service has just announced that it has on hand a supply of Chinese Elm and Russian Olive seedling trees for distribution to farmers and others, according to Don Turner, Lynn County Agent.

There will be no charges for these trees other than a packing cost of 25 for lots less than 500 and 50 for lots of from 500 to 1000 trees. The trees will be shipped express collect. F. O. B. Alto, Texas. Orders will be accepted for mixed lots of over 50 seedlings average 12 to 18 inches in height.

Persons wanting these trees should place their order with Mr. E. O. Sleske, Director, Texas Forest Service, College Station, Texas. Further information regarding the trees can be secured from the County Agent.

WOMAN'S SOCIETY
MET AT CHURCH

For the regular weekly meeting of W. S. C. S. members met at the Methodist Church Monday.

Mrs. Irvin Jones was director for the program on "Woman's Work" taken from the World Outlook.

Others having topics were Mrs. R. O. Stark, and Mrs. Sherrill.

Members attending were Mesdames Everett, Gates, Curtis, Moore, Hancock, Koeninger, Pearce, Coffee, Aten and Bearden.

BAPTIST W. M. U.

Mrs. Drew Hobdy directed an interesting mission study at the Baptist Church Monday when W. M. U. members met at the Church.

In a business meeting, Mrs. J. A. Edwards presided and plans were made for the "week of prayer" program to be held the first week in March.

Present were Mesdames Goddard, Davenport, Howard Earles, Hobdy, Middleton, Edwards, Lambert, and Vaughn.

GOLD STAR GIRL OF
LYNN COUNTY NAMED

Sarah Dean Archer, poultry demonstrator in the O'Donnell Club, has been named Lynn County Gold Star 4-H Club Girl for 1940, which will entitle her to wear a Gold Star Pin, and to be designated a Gold Star Club Girl for the rest of her life.

This pin is an emblem of achievements and of the confidence that the fellow club members have in her, since the selection was made on the basis of work accomplished and on the leadership ability they have recognized in her.

A girl may be considered for the award when she is completing at least her third year of club work; and if she has not previously been awarded a gold star pin.

Each girls' club having a member eligible for consideration may select a candidate for the award.

A county committee composed of council members and club girls selects the one Gold Star winner from these candidates.

The pin will be presented by Miss Maurine McNatt, County Home Demonstration Agent, in August.

The other contestants for the award were: Beth Shepherd, Grass-

Water Facilities
Loan Available

Loans are now available to farmers in Lynn county to participate in the Water Facilities Program of the U. S. Department of Agriculture, Wyman J. Welch, rural rehabilitation supervisor for the Farm Security Administration, announced with funds borrowed from the ed this week.

"Facilities which may be installed, include repairing or providing wells, cisterns, pools, ponds, stock tanks, together with the installation of windmills, stock troughs, storage tanks, bathroom fixtures, sinks, pipes, and so forth."

Mr. Welch said that loans also are available for facilities for developing irrigation systems for subsistence gardens and truck crops up to one acre of land. He emphasized the regulation prohibiting loans for irrigation systems in excess of one acre of land.

"No loans will be made for irrigation purposes which exceed one acre of land," he said. "The program is designed to modernize farm homes, by putting water into them, to make adequate water available for livestock purposes and to enable farm families to raise subsistence gardens and truck crops as a feature of the live-at-home programs in areas of low rainfall."

Water facility loans, it was explained, are made for a period from one year to the useful life of the facility or a maximum of 20 years, at three percent interest.

Low income farmers and others who cannot obtain adequate credit elsewhere are eligible to apply. Applicants are not restricted to farmers who are now being assisted by the Farm Security Administration. Farm-owners, farm tenants and farm operators are eligible to make application for water facilities loans.

Mr. Welch cited a regulation which provides that all successful applicants for water facilities loans must agree to follow the approved farm and home management plans designed by the Farm Security Administration and the applicant, and to cooperate with the Soil Conservation Service in soil and moisture conservation practices.

Mr. Welch invites all farmers in Lynn county, who believe they can meet the requirements for application, to visit him at his office in the basement of the Courthouse and obtain more complete information about this program.

Julian Pirtle Is
Wreck Victim

TAHOKA, Tex., Feb. 13. (Spl.)—Julian Pirtle of Draw, 24, sustained painful lacerations on the face and head and acquired much soreness in the muscles of the neck and other portions of the body last Saturday night when a car which he was driving overturned on the Tahoka-Draw road seven or eight miles

east of Tahoka. The accident occurred when a rear tire blew out, and after the wreck it was discovered that the front tire on the same side had also blown out. Pirtle was making pretty good time though not driving exceedingly fast on a dirt road when the car went over.

BIRTH OF BOY ANNOUNCED

Mr. and Mrs. Hamp Thompson have announced the birth of a son which occurred on February 9. Weight was announced at eight and one-quarter pounds.

WENT TO ROCKPORT

Postmaster and Mrs. J. Mack Noble returned last Saturday where they accompanied his parents, Mr. and Mrs. J. M. Noble Sr. home.

Weldon Noble, nephew of Postmaster Noble has been in an El Paso hospital following an accident in a car wreck.

The Sr. Nobles returned from the coast to be with their grandson.

Mr. and Mrs. W. J. Shook and Mrs. Sterling Bearden attended the funeral of Mrs. Shook's cousin in Colorado City last Saturday.

Mr. and Mrs. Fred Henderson went to Quanah Wednesday for a short visit.

Mr. and Mrs. Waldo McLaurin and Charles returned Sunday from Ruidoso, where they spent the week end.

Mrs. Jeff Good and young grandson of Big Spring visited here Tuesday.

Dr. and Mrs. J. F. Campbell spent the week end visiting in Rotan.

Mrs. Elmer Daniels and Mrs. J. M. Bubany were in Lamesa Sunday afternoon.

Guy Bradley was in Colorado City Wednesday to attend a district Conoco meeting.

Mrs. C. L. Hafer and Mrs. J. Mack Noble attended a luncheon Thursday in Tahoka in the home of Mrs. Walter B. Slaton.

Speck and Ollie Eubanks have returned from Camp Wolters where they have been employed.

Moody Gibson has returned from Mineral Wells where he has been working on a government army camp project.

Tests of 16 varieties of apples showed that the vitamin C in the peel was about five times that of the flesh.

The Press wishes to thank Mr. R. C. Carroll for his recent renewal.
