Government Issues Stopgap Order Freezing All Wages and Prices; **AEC Conducts Atomic Experiments**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of

The mystery of the vanishing Chinese armies who failed to take advantage of their breakthrough into South Korea remained unsolved as U.N. forces advanced toward the 38th parallel. The advance was not an all-out push, but a probing action by U.N. forces in an effort to locate the enemy.

WAGES-PRICES:

A Stopgap Order

A stopgap order freezing wages and prices was issued by the gov-ernment. Although unsatisfactory as far as the average consumer was concerned, the measure at least was a stab toward stopping the wage-price spiral that had swept across the nation in the last few months.

The main effect of the order was that it brought to a standstill hundreds of collective-bargaining negotiations in industry. Prices on a number of goods and services were frozen, but there were also a number of exemptions, the most important one being the price of food.

According to administration spokesmen the price freeze would be replaced as fast as possible by specific ceiling prices, industry by industry. Such a procedure could go on forever.

The wage freeze would be wiped out as soon as a flexible wage policy could be compiled, it was announced. The "flexible policy" was considered necessary to permit lagging wages in some industries to come up to a certain stand-

The price order was complex and confusing, especially with respect to farm products and food.

First of all, there was no freeze of any food prices at the farm

But on the processing, wholesale, and retail levels, food prices were frozen if the farm prices of those foods were above parity. Thus, beef, veal, pork and lamb prices were frozen.

(Parity is a sliding scale designed to keep farm prices fixed at a relation to the farmer's costs. law prohibits price ceilings below

parity.) Most farm products at the time of the wage-price freeze were below parity. Poultry and eggs were examples. If and when the farmer's price went up on those things the wholesaler and retailer could not raise prices to increase their margins. The increase, however, would be automatically passed

along all the way to the consumer. Other things exempt from price controls included communication and publication fields - like newspapers, books, magazines, radio, television and theater admission.

Controls

Price administrator Michael V. DiSalle (right) looks on as Attorney General J. Howard McGrath administers the oath of office to 13 officials who head regional and district offices of the economic stabilization organization. These men will direct the price-wage freeze

AEC Tests

Captain Carroll Tyler, manager of the AEC Santa Fe operations office at Los Alamos, N.M., announced test detonations at the atomic testing range near Las Vegas. Tyler gave no details of the tests. His announcement was a warning to residents of the area that such tests were scheduled.

A-BOMB:

Tests Rock Las Vegas

While most of the world waited announcements of the first atomic explosion in this country in a number of years, residents of Las Vegas, Nevada, 40 miles from the atomic testing range, were irked about the whole business.

The atomic energy commission shrouded its experiments in silence. It was known, however, that three explosions took place. Las Vegas witnesses reported a tremendous white flash in the sky, closely followed by another flash, orange in color and not as bright.

Las Vegas residents reported windows shook, houses trembled and burglar alarms in business establishments were set off.

The last explosion was felt and seen in Boulder City, about 65 miles

EUROPE:

Time for Co-operation

from the test range.

In the last few weeks, especially since General Eisenhower made his tour of Europe, there seems to have developed a feeling of mutual co-operation between the United States and our allies.

The reluctance to arm and speed up production that was evident only a few months ago disappeared. Britain has launched a production speed-up and rearmament program. And now France has announced plans to take her place beside the U.S. and Britain.

To further this co-operation, French Premier Rene Pleven arrived in Washington for conferences with President Truman. After a series of meetings it was announced Pleven and Truman were in agreement as to policy in the far east.

especially in Korea and Indochina. Most observers agreed the talks would open the way for greater co-operation among the western nations in the defense of Europe, with much greater participation on the part of France.

MIRROR Of Your MIND

Love Not Based On Obligation

By Lawrence Gould

Will your children always love you?

even if you've made them based on a sense of obligation. They grown up in proportion as you are associated in their minds with pleasant feelings like security or you cannot enforce means nothing. sympathetic understanding. Remembering "all you have done for them" will not make them love you if your sacrifices did not help them to be happy-if they feel ashamed of having been a burden to you, they will unconsciously

Is demanding your rights the

best way to get them? Answer: That depends on whether you are in a position to punish the person on whom you make the demand, directly or indirectly. Because you could probably get a by reporting him to his superiors, ing, but can be aided by psychiatric demanding what you feel that you treatment.

Answer: Not because it is their | are entitled to from him may sometimes be the quickest way to get it. feel that it is. For love cannot be But if you are dealing with a person whom you have no power to punish, will truly love you after they have you are more apt to get fair treatment by persuasion than by "mak-ing a row." For a "right" which

Can misfortune drive a person insane?

Answer: Yes. There is a type of psychosis called "reactive depression" in which the person's "reaction" to bereavement or severe financial losses is not only intense unhappiness, but delusions, such as the belief that he has "committed the unpardonable sin." But this usually happens only in the case of someone who has had childish experiences of unkindness or "rejection," leaving him with less than normal confidence in himself or in salesman or a waiter into trouble life. Depressed patients need watch-

KEEPING HEALTHY **Emotional Illness Causes Lost Time**

By Dr. James W. Barton

IF WE WERE ASKED what ail- the work is so divided that a man ment or disability caused most often performs a piece of work that would probably say the common to the finished job. cold, headache, and rheumatism, in that order. It may surprise us to learn that emotional ill health is tors as undefined responsibility, the major cause of lost time in industry.

INDUSTRIAL HEALTH, Dr. H. Graham Ross, writes on emotional ill health, basing his conclusions on a series of studies by McGill University industrial relations center. INDUSTRIAL HEALTH is published by the Health League of Canada, a most worthy organization.

Dr. Ross concludes that emotional disturbances account for more than 50 per cent of industrial illness. Emotionally disturbed people also make up the accident-prone groups in industry, since emotional disturbances may be due either to causes outside the employee's work, or by tensions deriving from the

work itself. A major cause of tension and tiredness in the factory worker is that on the modern assembly line,

absence from work, most of us has no meaning to him in relation

The tendency to excessive tension is further increased by such facdivided responsibility, excessive responsibility and responsibility without authority.

Human relations also play an important part in producing emotional states in such cases as the following:

1. Employers' job standards and those of the employee may differ and cause tensions.

2. The worker may have inadequate qualifications, which means he is working under a handicap. This keeps the worker unusually tensed as he tries to keep his work up to standard requirements.

3. There may be inadequate supervision. Overdirection or underdirection by the supervisor will produce a sense of frustration or insecurity, leading to excessive ten-

HEALTH NOTES

Too many purgatives remove iron from the blood and hurry valuable food elements from the small intestine before the blood can absorb

DR. KENNETH J. FOREMAN

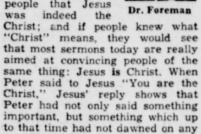

SCRIPTURE: Mark 7:24-9:1.
DEVOTIONAL READING: Hebrews 1:

Jesus is Christ

Lesson for February 18, 1951

IT SOUNDS odd to modern ears (or to any ear for the past 18 centuries) to say that Jesus "is" Christ. It sounds like saying Abra-

ham is Lincoln, or Winston is Churchill. "Jesus Christ" has become long since a proper n a m e like any other combination of name and surname. But in the early days of Christianity it took sermons to persuade people that Jesus

Only One Christ

one else.

WE shall have to think what the word "Christ" meant as Peter used the word and as Jesus understood it.. The Jews of that time were looking with eager excitement for an "anointed one" (the literal meaning of Christ, or Messiah) who would put an end to all the evil of the world and usher in God's New Age. They were not quite clear how this would be done, but they were sure that only the Christ could do it.

Consider three points. First, when Peter said "You are Christ" he meant "You are unique." No Jew looked for two Christs There is the Ch two Christs. There is no one else in Jesus' class, there is only one of him. Every human being, to be sure, is different from all others; but Simon Peter did not mean that. What he did mean was that Jesus could not be classed as "a" teacher or "a" prophet or "a" man of God. He was the Teach-er and Prophet. He was God's Man as no other man was.

We make a mistake, we get away from the original Christian faith, the faith which Jesus praised, when we put Jesus on the same level with other men, any other men. There is only one Christ.

IN the second place, when Peter called Jesus "Christ" he meant that God had anointed him. He was not a man who took a notion to do what he did; he was one whom God had appointed to be and to do as God willed. We cannot understand Jesus apart from God, for his source is God.

Any one who reads the gospel of John will find this very prominent in Jesus' thinking always: "I was sent . . . My meat is to do the will of him that sent me."

Christians later than this saw that the relation between God and Jesus was even closer than that between sender and sent. Jesus is called the Son of God, he is called the Word that was with God and was God. Paul says God was in

Later generations would develop the doctrine of the Trinity as it is expressed (for instance) in the Nicene Creed. Every century has its own formulas. Peter in the first century does not use the language of the fourth century, still less of the 20th; but all the formulas express in various ways the conviction Peter had: that when Christ confronts us, God confronts us.

Christ Is Lord of All

A THIRD thing Peter meant when he called Jesus "Christ" and that the church means now-is that he has complete authority. All other authority, in the church or out of it, is less than his.

A word often used to express this truth is "Lord." But the word alone is not enough. It really makes less difference what words we use about Jesus than what our attitude to him is. Jesus himself once spoke sternly of people who call him "Lord, Lord," but do not do the things he says to do.

It is one thing to say, in the Creed, that we believe in "Jesus Christ, his only Son, our Lord:" it is another thing to carry that part of the creed into life. Jesus is our Lord; not the church, not Moses, not Paul, not any hero or saint of the church, but Jesus. Christians take orders from him first of all, for we believe that his mind was the mind of God.

A Christian profession of faith, therefore, is more than a statement of belief; it is an oath of allegiance. (Copyright by the International Council of Religious Education on behalf of Protestant denominations. Beleased by WNU Features.)

SONG OF SAFETY

Camp Fire Girl Groups Conduct **Programs on Traffic Education**

ADMONISHING AUTOISTS to sing a song for safety while driving, Camp Fire Girls of the Central Valley Area Council in California launched a campaign in the communities of Stockton, Lodi, San Andreas, West Point and Oakdale.

At meetings of women and men's service clubs, PTA's, church and other groups, the young members of the youth agency distributed cards for drivers to clip on windshield visors. The card pointed out the perils of speeding along the highways and byways at 65, 75 and 85 miles per hour. Not content with this effort. Camp Fire members including Blue Birds (7 to 10) Camp Fire Girls (10 to 15), and Horizon Club groups (15 to 18), say

By INEZ GERHARD

GLORIA SWANSON certainly never expected that her greatest fame would come when she was a grandmother. Winner of the National Board of Review's award as best actress of the year, for "Sunset Boulevard," she has rocked New York audiences back on their heels with her performance

GLORIA SWANSON

on the stage in "20th Century." One critic wrote, "It long since ceased to be startling that Gloria Swanson was amazing. It's only startling that she can go on being more amazing." Meanwhile she turns out a delightful radio program five times a week, on Mutual. And though her hair is touched with gray, she sometimes looks young enough to be her own daugh-

Jose Ferrer, with his film, "Cyrano de Bergerac" showing in a neighboring theatre, appears opposite Gloria in the play, giving a magnificent performance. He also directed it, so well that he could have been content with it. As a highly eccentric producer of plays he wrings every ounce of humor out of his role; as a director he did the same for the other actors. ing the organization with an award.

Thelma Ritter gets star billing in her eighth picture, heading the "The Marriage Broker Story" (working title). She had served her time on the stage and in radio before tackling Hollywood; radio programs carrying out the 'Miracle on 34th Street" was her first picture, "A Letter to Three Wives" the one that made people sit up and take notice. "All About Eve" and "The Mating Season" are her latest.

St. Louis, Mo., Camp Fire members (above) receive a safety award for their safety campaign from traffic educa-tion division of the city's police department.

that every member of their organization signed pledges promising to obey safety rules while walking, skating, and riding bicycles and scooters.

The girls also enlisted the aid of their parents in the safety campaign. Fathers sent letters to all drivers in the community asking them to please observe safe driving practices, especially while in the vicinity of schools and playgrounds

The importance of teen-agers to learn safe driving practices was so vital to a group of Beaumont, Texas, Camp Fire Girls that they held a panel discussion on "Should a Fourteen-Year-Old Have a Driver's License?" The discussion was held in school as part of their English class program. The girls did a lot of preparatory research before planning the discussion. They sent for information from other committees and explored the laws of different states with regard to licensing young drivers in their communities. The conclusion reached was that a fourteen-year-old could be given a practice license for two years, should always have an adult in the car, and at the end of the probationary period could apply for driver's license.

The initial panel discussion proved so successful that the Parent-Teacher Association requested a repeat performance. Later the panel went on the air over local sta-

IN MANY COMMUNITIES across held "Safety Safaris" as demon-strations climaxing their safety drives. The girls enlisted the cooperation of local police and highway departments and civic organizations. Cars, bicycles, scooters, pedestrians and skaters all took part in the "safari." Snappy placards streaming from vehicles pointed out the "rules of the road."

The police department in St. Louis, Mo., recognized the good citizenship efforts of the local Camp Fire Girls safety drive by present-

"Camp Fire for a happy lifeactivities, in which more than 360,000 girls from Maine to California are participating Skits and safety theme have been given by Camp Fire members in practically every state in the Union and have demonstrated that "everybody counts" in making the world a better and a safer place to live.

THE FICTION CORNER

TAKE THE LEAD

By Sidney Du Broff

MISS PARISH drove her ancient automobile along the deserted highway toward home. Her deep satisfaction was justifiable in view of the successful play she had produced and di-rected that eve-

3 - Minute Fiction

ning. Nothing Broadway would care to see, but a huge triumph for the amateurs of Deep Valley High School. Even Mr. Wilks, principal of Deep Valley High, who was never lavish

in his praise had said, "Miss the country Camp Fire members Parish, we are extremely proud to have you as a member of our faculty. I speak for the town as well as its school." Now it was over, except for the

party she was giving for the cast.

Miss Parish applied pressure to
the accelerator. Being detained at the theatre had made her late. She knew the cast would already be arriving at her home.

As she rounded the sharp turn in the road she heard a sudden noise followed by a loud hiss. The car pitched from side to side almost running off the road. Miss Parish fought desperately to regain consafety for a long one" is one of the trol. The automobile straightened themes of Camp Fire Girls current itself out, gradually losing momentum. She brought it to a stop.

She emerged from the disabled automobile. It was too dark to see anything. She opened the trunk and lit a match. "No jack! Now what am I going to do?"

Miss Parish sat down on the running board. "I suppose I could walk back to town and get help . . . or

"I'm in love with you, you," Wayne said.

I could stop a passing car-if there was one." She retained her position on the running board.

In the distance appeared a set of headlights. Miss Parish took a small handkerchief from her purse and waved it at the on-coming car. It slowed down-somewhat, but then resumed its speed and disregarded the appeal for aid.

CHE waited for what seemed like a long time before another automobile came into sight. As one loomed near she waved her handkerchief hopefully. It came to a screeching halt alongside her car. 'What seems to be the trouble,

"I had a blow-out and I don't have a jack."

"Fear no more, my lady," a man said, getting out of his car. "I'm certain there is at least one around somewhere."

"You're a life saver." "Wait a minute," the man said.
"Come over here near the head-

She hesitated. "But, why . . He took her arm, guiding her to where he could see her face. "Roberta!" he cried out. "It's "Yes, Wayne."

"You recognized my voice—and you tried to keep me from knowing who you were.—Why?" "I explained all of that to you in

the note I left," she said. "Note nothing. I've been looking for you for six months. I was ready to notify the police.' 'No, Wayne, I . .

"I'm in love with you, Roberta. I want to marry you.' 'I can't," she answered.

"Why can't you?" Otto counted the money-it was "Because your success means too much to you . . . and to me." "I can't have success without you, Roberta."

"You can't have it with me," she retorted, tears forming in her eyes. "The play you pro-duced with me in the lead flopped. It flopped because I wasn't good enough for the

"It was a bad play Roberta." "It was a good play," she said defiantly. "Don't you see, Wayne, you'd go on producing plays with me in the lead and everyone would flop because I'm just not good enough for Broadway." 'Is it somebody else?"

"No," she answered. "I'm the dramatic coach at Deep Valley

"I belong here Wayne. Just as you belong on Broadway. We each have what we want, -or almost what we want. Now help me change the tire; I'm giving a party for my

BROADWAY AND MAIN STREET

Trouble Teaches Lena That Otto's Friends Are Not Bums

By BILLY ROSE

A beery little letter showed up in the mail today from a man in Milwaukee, and if you'll pull up a chair and help yourself to the pretzels I'll be glad to let you take a look at it. . . Dear Mr. Rose:

There's an old German couple in our neighborhood named Otto and Lena Brenner, and something happened to them not long ago which you might want to mention in your column.

Otto has been a gateman at one of the local breweries for longer than most of us can remember, and ever since he got married in 1910 he's been turning his pay check over to his wife who cashes it at the grocer's and gives

him a couple of dol-lars off the top for spending money.
About 30 cents of this goes, for smoking tobacco
and the rest for
beer at Stegmeyer's
Social Club, a saloon where Otto

drops in regularly Billy Rose for a little talk with the boys. Lena, of course, has never approved of the club, and has always said Otto's friends were a bunch of bums.

LAST MONTH Lena got word that her sister in Racine was sick and needed her, and so, not knowing when she'd be back, she gave Otto permission to cash his pay check himself, warning him, however, to stay away from Stegmeyer's where the boozers could only lead him into evil ways. The following Friday night when

Otto cashed his check he took the

\$37 in bills, rolled them into a wad,

put a rubber band on it and shoved

it into a pants pocket, along with

and odd quarter left over from his

For the best part of an hour be turned and tossed, but final-

for a nap.

ly be gave up, put on his hat and headed for Steameyer's. A few doors from the bar, a panhandler gave him a bard-luck story, and it was so convincing that Otto dug down and gave him the quarter. Then he went into the beer parlor where, of course, be got bis usual warm reception and had himself bis usual fine time. That is until it was his turn to buy a round-when he reached for his money it wasn't there.

"What's the trouble?" said the bartender. "You look like you lost something." 'My pay," said Otto.

"Don't worry," said the bartender. "Your credit's good."
"It ain't that," said Otto. "This is the first time my old lady has let me cash my pay check and I'll never hear the end of it if I don't have the money when she gets back. I gave a panhandler a quarter before I came in and that's when the

pocket." WELL, PRACTICALLY everybody in Stegraeyer's went out to the drinks are on me!" look for Otto's money, but there was previous week's spending money. no sign of it so he finally went

bills must have fallen out of my

home, plenty worried about how Lena was going to take it.

An hour later there was a knock on the gateman's door and it was Little Stevie, the kid who works for Stegmeyer. "The panhandler came in right after you left and gave us this," he said, handing Otto a roll of bills with a rubber band on it. "He says he picked it up right after Then he went home, ate a little dinner and stretched out on the couch you gave him the quarter, but his conscience started to bother him on account you was so good to

> When Lena got back from Racine, the old boy handed her the dough and that might have been that, except the following night, while tidying up, she found a roll of bills wedged behind a cuhsion on the

"Look," she said to Otto. "money! Thirty-seven dollars!" "It must be my last week's pay," said Otto.

"You mean you got paid twice last week?" Otto knew he wasn't worth a darn as a liar and so he told Lena every-

"It means only one thing," said his wife. "Them bums at Stegmeyer's saw you was in bad trouble and took up a collection.

on your had and let's go," she said.
"Go where?" said Otto.
"To Steamburg," she said. 'To Stegmeyer's, of course. First I'm gonna apologize to those bums

for saying they're bums. After that

Sincerely, Louis Stegmeyer | cast tonight."

tures.

Checking for Poison in Feed

Quite often farmers have some-thing go wrong with their livestock or poultry and they immediately sus-pect the feed of killing their chickens or livestock. According to the state-ments of state feed control officials, such situations rarely happen. This is borne out by the following state-ment of a leading state feed control

ment of a leading state feed control official:

"Each year, particularly during the late winter and early spring, many samples of feed are sent in with examination for poison requested. Since 1940 our laboratory has examined more than a thousand samples sent in by farmers. Rarely is any thing wrong with the feed. In less than one per cent of the samples has anything been found that would be harmful if fed under proper conditions. In no case has it been shown that poison was present in the feed at the time the feed was sold.

"When poison has been found, it has invariably been traced to carelessness on the part of the feeder. Using a pall that has been used for spray materials as a feed measure or hanging heavily treated tobacco over a feed bin are two ways poison has been introduced into feeds."

This feed control official advised farmers who suspect feed of causing difficulty to consult a reputable veterinarian to determine the absence

difficulty to consult a reputable veterinarian to determine the absence
or presence of disease. Also, the
flockowner or livestock feeder is advised to examine his management
practices for faults that may be contributing to the trouble.

Farmers should have samples of
feed analyzed if they suspect the
feed of being poisonous, but they
should also check the other situations that might be causing the dif-

tions that might be causing the dif-ficulty. It is an established fact that the prime reasons for trouble are right in the poultry house or feed

Dry Cows Can Be "Savings Banks"

The dry period of any good dairy cow is just about the most critical period in her life, yet many farmers

as

he

vet

ant

period in her life, yet many farmers feel a dry cow is just resting and needs no special attention.

Cows should be dried off sixty days before calving. Unless a cow has an infected udder, the "back pressure" method dries the cow quicker and with less labor. Do not milk for seven days and then milk her dry.

Since a high producing cow dur-

Since a high producing cow, dur-ing her heaviest milking period, secretes daily more nutrients into her milk than she is consuming and diduring the dry period to give her an different chemicals are used, and DDT is poisonous to livestock. Do not feed roughage where DDT has the drift of the animal. Do not contained by the content of the animal. Do not contained by the contained by the content of the animal. Do not contained by the contained by th

THOSE FRESH HEIFERS

MY FUTURE MILK CHECKS.

carbohydrates for use when more carbohydrates for use when more energy is required after calving to make milk. Proteins and minerals that were used during the previous lactation need to be replaced, and last but not least, the dry period is the time to build up Vitamin A reserve for easy calving and strong degrees calves at high

rigorous calves at birth.

About two thirds of the birth weight of the calf is developed during the last 60 days before birth. The cow must provide all the body building nutrients needed to develop a strong healthy calf a strong, healthy calf. If she doesn't, that means a weak calf probably susceptible to disease and the end result will be the loss of profit to the farmer.

The amount and kind of feed a cow receives during the dry period has an important bearing on the amount of milk she will produce during the next lactation period. Research has shown that every pound (up to 100 pounds) of condi-tion put on Holstein cows during the dry period results in about 25 pounds of extra milk the next lactation period—100 pounds of condition 2,500 pounds of extra milk. -100 pounds of condition means

Question What is 2-4D weed killer and what types of plants does it kill?

Answer

2-4D is an abbreviation for the new selective hormone weed killer, 2-4 Diochlorophenoxyacetic acid. It kills most plants but has very little effect on grasses. Some of the weeds it is most effective against are bindweed, burdock, cocklebur, dandelion, pigweed, plantain, ragweed and thistles. 2-4D should be used with caution, since it will also kill most vegetables, flowering plants

Question Is it safe to feed roughage to livestock from a pasture that has been treated with 2-4D weed killer?

Answer

Yes, 2-4D is not a poison. It is a hormone. Tests conducted by the USDA prove that it is not toxic to livestock. Pastures sprayed with 2-4D can be used. 2-4D was fed to dairy cattle at the rate of 5.5 grams per day for 100 days with no toxic ef-fect to the animal. Do not confuse

Beef, Hogs, Sheep Show **Highest Feed-Cost Gain**

The nation's farmers are not making as much from each dollar spent for feed as they have in the past few years. In fact, the return for each dollar spent for feed in the production of eggs and milk is below the 1935-39 average.

For each dollar of feed the farmer spent in the production of hogs, cattle and sheep, however, return is higher than the 1935-39 average.

In the production of eggs the farmers received \$1.72 for each dollar spent on feed during 1935-39. But as of September, 1950, he was receiving only \$1.56. The amount of

ONE DOLLAR SPENT FOR FEED ...

The above chart shows the return for each dollar the farmer spent for feed in the production of the five farm commodities

return in the milk industry was three cents less than the \$1.92 average of 1935-39.

For each dollar spent for feed for hogs, the farmer's return in 1950 was \$1.80, a drop of 23 cents from the 1949 return. The 1935-39 from the 1949 return. average return, however was even lower, only \$1.50.

In beef production the average return as of September, 1950, was \$2.35 for each dollar spent for feed. The 1935-39 average was \$1.39 and the 1949 average \$2.01.

Brunt of New Tax Program Likely To Fall on Lower Income Groups; Korean Evacuation Debate Rages

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Bitter battles raged in Korea as North Korean and Chinese Communist troops continued pressure all along the line. United Nations forces retreated slowly toward the Pusan beachhead (dotted line) and what seemed possible evacuation of that war-

TAXES:

Era of Austerity President Truman drew gasps from Wall street in his message to congress in which he asked an in-crease in taxes of "more" than \$8

billion a year and outlined a defense program totaling \$140 billion. He also called for broader wageprice controls, one million more men and women in the armed forces within a few months, and four million more in defense produc-

tion by the end of 1951. But what made the little man want to crawl into a hole was the President's tax program. The brunt of that increase would fall on the middle-to-lower income taxpayer.

Some of Mr. Truman's critics said his program would mean an era of austerity for the American people. Some said they thought the President was "hysterical" and others said he had thrown the American standard of living out the

Although the nation was shocked by the President's message, Americans in every walk of life were beginning to understand the scope of the program we have undertaken. Most people realized to carry out that program a great increase in taxes would be necessary-possibly the highest in United States history.

It became increasingly clear, too, that such items as automobiles, electric refrigerators, vacuum cleaners, television and radio sets will not be available in such abundance to the American public as in items may be cut by one-third to well over one-half before the year is over.

By the end of 1951 the United States will be devoting about 18 per cent of its national output to defense. At the peak of World War II about 45 per cent of the nation's output was for defense.

CIVIL DEFENSE:

Truman Signs Bill

President Truman signed the civilian defense bill enacted in the closing days of the last congress which provides a defense program estimated to cost about \$3,100,000.

The measure directs the federal governments to provide leadership to the states and communities in developing arrangements to protect civilian life and property in the country's 10 critical target areas against possible enemy attack by atomic bombs, biological or bacteriological warfare or any other technique.

The bill requires states to match federal funds provided for air raid constructions. It was on this point that the bill received some criti-

Governor Dewey of New York, for instance, said his state simply could not find the \$249,000,000 indicated as its need.

Civilian defense is the one phase of all-out war in which this country lags. Britain has added to bomb shelters built during World War II and has an extensive training program for rescue in the event of will cost the North Koreans and atomic attack.

Poster Boy

Twelve year-old Robert Lawrence "Larry" McKenzie, Jr., 1951 March of Dimes poster boy, proudly displays President Truman's autograph. The boy visited the chief executive on the opening day of the nationwide drive for funds to finance the National Infantile Paralysis Foundation.

KOREA:

Evacuation Inevitable

Bitter battles raged in Korea as United Nations forces continued their retreat toward Pusan and what seemed inevitable evacuation of that war-torn country.

And while the battles raged in Korea, bitter debate continued in Washington as to whether or not recent years. Production of these U.N. forces should evacuate the peninsula. There were rumors in military circles, too, that the U.S. had decided on a stand in Korea.

To the average man in the United States, to the people in the home towns of America, who are anything but defeatists, the Washington debates seemed ironic. The average American was counting the odds, estimated now at five to one, and which the chinese can increase at will. In recent weeks there has been considerable confusion and a number of contradictions as to the actual number of Chinese troops thrown against the U. N. forces.

To many the question now seemed to be whether or not U.N. troops could successfully withdraw to the Pusan beachhead and carry out an evacuation. The situation was described like this: Now it's a question of saving face or saving our hides - and we'd better save our hides. We'll need them in the future against the Communists.

The United States army in Korea s the only one this nation has at present and it must form the core of the new army we have dedicated ourselves to building in an effort to preserve our democratic way of Attempting to hold in Korea would risk this army-too great a risk in the opinion of many observ-

Whatever the decision, one thing the average American will tell the world: Man-for-man, the North Korean and Chinese soldier is no match for a well trained American soldier. And any victory in Korea

AMERICAN AGRICULTURE

Farm Efficiency and Assets at Peak

The department of agriculture es- | U.S. savings bonds, and investments timated American agriculture's to-tal assets at the beginning of 1951 at \$134 billion, two and one-half times the total of a decade ago. of 1940. Much of it represented gains in tangible possessions and in cash

At the beginning of this year, \$10 billion on January 1, 1940. All of farmers as a group held nearly \$22 this increase has been in the nonbillions in bank deposits, currency, real estate category.

Aggregate farm debt at the beginning of 1951 was estimated at just under \$13 billion, as against \$10 billion on January 1, 1940. All of

POLITICS:

Matter of Tradition

Critics of President Truman's foreign policy, led by Sen. Robert Taft of Ohio, charged the President "violated the laws and the consti-tution of the United States" by sending troops to Korea and Europe without congressional approval

In the last few weeks the thunder of debate on the subject has rolled through the halls of congress. It is not, however, a new theme.

The issue of the President's right to send troops to carry out obligations of the country arose in the administrations of Washington, John Adams, Jefferson, Jackson, Tyler, Polk, Lincoln, Grant, McKinley, Taft, Wilson and the late Franklin Roosevelt.

And in every case the issue was settled in favor of the President, namely, that it is his sworn duty to carry out the obligations of the United States.

In this particular case, when the senate ratified the North Atlantic treaty it made the obligations of that treaty law, binding on the President of the United States no matter who he might be. Certain articles of the treaty bind the North Atlantic nations to united effort to maintain the security of the North Atlantic area, including the use of armed force if necessary.

It is these articles of the treaty that the President is upholding in sending troops to Europe. If the congress should deny the President the right to use troops or arms abroad, then certain articles of the treaty become meaningless.

In the few cases where similar questions have reached the Supreme Court, the President has been upheld in his action. It would seem that Senator Taft's attack, therefore, can not succeed in the face of

CROPS:

Prospects Not Bright

The agriculture department reported 1951 crop prospects not so bright as they might be for attaining the government's goal of a record harvest.

Shortages of soil moisture in important southwestern wheat areas, prospects of less irrigation water from snows, freeze damage to fallsown grain crops in the south, loss of farm labor to the armed services and industry, and the prospects of shortages of repair parts for farm machinery were listed as having an effect on production.

The farmers of the nation face a production quota greater than any ever demanded in this country. Increased grain production is needed to rebuild surpluses which have dwindled in the last two years. In addition to rebuilding surpluses, the United States must again assume the responsibility of feeding much of the world if open conflict breaks out between the east and

ARMED FORCES:

Goal Increased 260,000

Mrs. Anna M. Rosenberg, assistant to Secretary of Defense Marshall, told the armed services subcommittee that the goal of the nation's fighting forces had been increased 260,000 by June 30.

The armed forces had been working on a program of 3,200,000 by June 30.

Army, navy, air force, and marine officials urged the drafting of 18 year olds. Unless the draft age is lowered, Mrs. Rosenberg said married men and fathers, and possibly some veterans, would have to be drafted to meet the expanded quota.

Meanwhile, the FBI reported it had investigated nearly 9,000 cases of alleged violations of the draft law during the last six months. The bureau was reportedly receiving more than 2,200 such cases for inquiry

More Men

Mrs. Anna M. Rosenberg, assistant defense secretary in charge of manpower, told a senate armed services subcommittee that President Truman had increased the goal for the armed services from 3,200,000 to 3,462,205 men by June 30. She said the increase would require the drafting of 18 year

BUILDING:

Thirty Day Freeze

The same of the sa

The government clamped down on the construction of new commercial buildings, prohibiting the starting of virtually all such new projects until February 15.

After the freeze period, each private new commercial building project must be submitted to the nation al production authority for approval. The NPA said the ban was necessary to save materials for mobiliza-

MIRROR Of Your MIND

Problem Of Absenteeism

By Lawrence Gould

Is absenteeism a medical problem?

cine. The employee who continually as his excuse, and thus has to be real physical disabilities are likely to be the ones who are "always on the job." Many chronic absentees are people who give in too easily to minor complaints, but the really decisive factors are the personal incentive that the worker has for working, and how he feels about his

Can psychoanalysis cure allergies?

Answer: Yes, I have seen it do so, though I do not claim that it would be effective in all cases. A young man once came to me with a list of more than fifty allergies certified in writing by one of the country's leading clinics. I referred can reveal.

Answer: Not primarily, writes A. | him to a psychoanalyst who was W. Pennington of E. I. du Pont de also a doctor and in less than six Nemours & Co. in Industrial Medi- months his symptoms had completely disappeared. True, his bestays away from work gives illness ing allergic to so many different substances suggested at once that his trouble was psychosomatic, but "cleared" by the medical depart-ment, but the fact is, people with most allergies are at least worth psychoanalytic study

Will your "interests" guide you to the right job?

Answer: No, writes Dr. Charles K. Taylor of the Vocational Research Bureau, New York, in College and University. "With one group of about 500 high school boys registering their interest, we found a corresponding aptitude in less than one in five cases." Conscious interest in a given kind of work may be due to parental influence, "the success talk given by a visiting speaker," a desire for prestige, and so on. A young person's actual record or "case history" tells more

LOOKING AT RELIGION

THE CHURCH AT ANTIOCH WAS THE ONE WHERE JEWS AND GENTILES FIRST WERE UNIFIED IN THE CHRISTIAN RELIGION, IT WAS THE FIRST CHURCH TO RECEIVE THE NAME CHRISTIAN, AND THE FIRST TO SEND MISSIONARIES TO THE HEATHEN WORLD.

KEEPING HEALTHY Saving Childhood From Disease

By Dr. James W. Barton

Canada's 231 deaths from diphtheria vided by most health departments and whooping cough in 1949, it was free of charge. The Health League charged by the Health League of points out that as medical science Canada last October, in sponsoring the nation's eighth annual observance of National Immunization Week.

Bith diphtheria and whooping cough are preventable, the league states, through diphtheria toxoid and whooping cough vaccine respectively.

Public health officers and family doctors throughout the nation are able and willing to provide protection against these two diseases, yet both continue to take annual toll among Canada's children.

The Health League of Canada is a voluntary organization which is helping parents and the public generally to understand the "sweet reasonableness" of trying to follow the advice and regulations of their local board of health.

Immunization, which prevents deaths from the two killer diseases.

EITHER NEGLECT or ignorance diphtheria and whooping cough of the facts is to blame for as well as against smallpox, is proprovides the means to wipe out these diseases, it is up to the general public to take full advantage of the means of preventing them.

While all of us are aware that smallpox has been wiped off the face of the earth, despite occasional cases with serious complications, and most parents are aware of the value of diphtheria toxoids with which large communities are kept entirely free of diphtheria, we may not realize the seriousness of whooping cough during, and many years after an attack.

In chi'dren under two years of age, whooping cough causes more deaths than diphtheria, measles, scarlet fever, and polio combined in Canada. This is the statement of Dr. C. H. Anglin, Toronto.

Yet whooping cough can be virtually eliminated by a vaccine which protects the victim.

Effective Cough Syrup, Mixed at Home for Economy

No Cooking. No Work. Real Saving. Here's an old home mixture your mother probably used, and is still one of the most effective for coughs due to colds. Once tried, you'll swear by it.

Make a syrup with 2 cups granulated sugar and one cup water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Now put 216 ounces of Pines into a plat bottle, and fill up with your syrup. The makes a full pint of cough medicine, and gives you about four times as much for your money. It keeps perfectly and tastes fine. And you'll say it's really excellent for quick action. You can feel it take hold swiftly. It loosens philegm, soothes irritated membranes, helps clear the air passages. Thus it makes breathing easy and lets you get restful sleep.

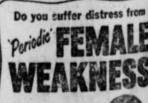

et restful sleep.
Pinex is a special compound of proves ingredients, in concentrated form, wel-known for its quick action on throat and bronchial irritations. Money refunded if not FOR EXTRA CONVENIENCE GET NEW READY-MIXED. READY-TO-USE PINES!

JUST SQUEEZE ANAHIST

Do female func-tional monthly ailments make you suffer pain, feel so strang restless, weak—at such tim or just before your period?

Then start taking Lydia & Pinkham's Vegetable Compound about ten days before pound about ten days before to relieve such symptoms. Pinkham's Compound works through the sympathetic nervous system. Regular use of Lydia Pinkham's Compound helps build up resistance against this annoying distress.

Truly the woman's triend!

Note: Or you may prefer Lydia E. Pinkham's TABLETS with added iron.

Steps to Help Curb Swine **Enteritis Are Outlined**

The American Foundation for Ani-mal Health outlines seven steps to help curb swine enteritis.

1. Isolate newly-purchased swine from the home herd for at least three weeks, until they are known to be free of disease.

2. Control internal and external parasites which weaken the animals' resistance.

3. Keep swine away from old hog lots, contaminated pastures, cow pastures, stagnant pools and other sources of infection.

4. Keep feeding and watering equipment clean.

5. Check rations carefully, espe-cially possible deficiency of B-complex vitamins. Prevent over-eating of rich concentrates.

6. Earmark sows and their litters to identify and weed out sow "car-

7. Watch for scouring, loss of weight, and failure to feed into gains. At the first sign of trouble, get a diagnosis and isolate the ailing animals from apparently healthy ones.

HOUSEHOLD M E MOS ... by Lynn Chambers

Serve Eggs for Breakfast Variety (See Recipes Below)

Breakfast Pointers

IF YOU VALUE your family's health and well-being, don't send husband and children off to work and school without a good breakfast. Don't expect to get a good morning's work out of yourself, either, if you

nibble on some fruit and gulp a cup of coffee. You simply can't do it.

Plan a breakfast menu as you would lunch, dinner or supper. Try out new

foods, inject variety into the menu plan, and do give yourself enough time for both the preparation and eating enjoyment of such a project. Give it a trial for a month, and you'll never again want to go back to skimpy breakfast habits.

Start off with fruit or fruit juice, such as citrus, because this is a good opportunity to get oranges and grapefruit into the day's menu. Follow with cereal, eggs, bread and

butter and beverage. Eggs can be prepared in many ways and give you good protein for what you spend. They add lots of appeal to the breakfast, and can make a feast of the one simple meal of the day. Don't forget to tuck eggs into the breakfast bread every now and then, too, for that extra treat to the appetite, and for

that extra nourishment. They're simple to prepare, of course, those eggs, if you remember not to treat them roughly. Moderate to low temperatures whether you soft-cook, fry or bake them is of utmost importance in keeping them tender and palatable.

Baked (Shirred) Eggs

Break and slip 1 or 2 eggs into greased individual shallow baking dishes. Bake in slow oven (325°), 12 to 18 minutes, depending upon firmness desired. Serve from baking dishes.

Freach Omelet

3 tablespoons milk or water 3/8 teaspoon salt 1/8 teaspoon pepper, scant 1 tablespoon fat

Mix eggs, milk, salt and pepper thoroughly. Avoid foaminess. Heat fat in skillet (approx. 8-in.) just hot enough to sizzle a drop of water. Pour in egg mixture. Reduce heat. As the mixture at the edges begins

to thicken, draw the cooked por-tions with the fork toward the center so that t h e uncooked portions flow to the bottom. Tilt

skillet as it is necessary to hasten flow of uncooked eggs. Do not stir and keep mixture as level as possible. When eggs no longer flow and surface is still moist, increase heat to brown bottom quickly. Carefully loosen edge. Fold in half or roll. Total cooking time is 5 to 8 minutes.

French Toast (Serves 4 - 6) 3 eggs, beaten slightly 1/2 teaspoon salt

teaspoon sugar cup milk 6-8 slices (2—3-day old) bread Fat for frying

Combine eggs, salt, sugar and milk in shallow dish. Dip bread in egg mixture turning to moisten. Brown on one side on well-greased

LYNN SAYS:

Treat the Family To these Breakfast Tricks

Combine 3 tablespoons of cocoa with the same amount of sugar, then add 1½ cups milk, 1½ cups water and stir in 11/2 cups rolled

oats. Cook as usual. Make this eggnog topping to serve over hot cereal: to beaten egg, add 2 teaspoons sugar, 1 cup rich milk and ¼ teaspoon vanilla.

Children will like butterscotch cereal for a change. Simply serve dish; break in egg; bake slowly for with brown in place of white sugar. 15 to 18 minutes.

LYNN CHAMBERS' BREAKFAST MENU

Orange-Grapefruit Juice Bowls of Oatmeal, Brown Sugar and Cream

Soft-Cooked Eggs *Bacon Muffins Beverage *Recipe Given

griddle or frying pan, turn and brown the other side. Add fat as necessary to keep from sticking.

Serve with syrup, jam, honey, confectioners' sugar or fruit. Variation: Cranberry French Toast-spread jellied cranberry sauce between two thin slices of bread before dipping in egg mixture. Brown as above. Serve plain or with creamed chicken, eggs, fish

or meat. Whole Wheat Muffins (Makes 24 small muffins)

1 cup whole wheat flour 1 cup white flour 2 teaspoons baking powder

1/2 teaspoon salt 2 tablespoons sugar

1/2 cup evaporated milk cup water

1 tablespoon vinegar 1 tablespoon soda

3 tablespoons shortening, melt-

Sift flour with other dry ingredients into mixing bowl. Combine milk, water and vinegar and add soda. Beat egg. add the soured milk and shortening. Stir quickly into dry in-gredients. Pour

into greased muffin pans. Bake in a hot oven (425°) about 15 minutes.

*Bacon Muffins (Makes 12 muffins)

2 cups sifted enriched flour 3 teaspoons baking powder

1/2 teaspoon salt 3 tablespoons sugar

1 egg, well beaten 1 cup milk 4 tablespoons shortening, melt-

7 strips of bacon, cooked, crumbled

Sift dry ingredients together in bowl. Combine liquid ingredients and add to flour mixture. Stir only enough to partially dampen flour. Add bacon and stir only enough to blend. Fill greased muffin pan (12 2-inch cups) two-thirds full. Bake 20 minutes in hot oven (400°).

Butterfly Cinnamon Rolls (Makes 12 rolls) 2 cups sifted all-purpose flour

3 teaspoons baking powder 1 teaspoon salt 1/2 cup shortening

1 egg, beaten slightly 1/2 cup milk 2 tablespoons butter, melted 1/3 cup sugar 1 teaspoon cinnamon

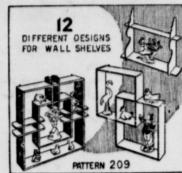

Sift dry ingredients. Cut in shortening until mixture resembles the texture of coarse cornmeal. Combine egg and milk and stir in dry ingredients until just blended. Turn out on flour board or cloth. Pat out dough. Fold in half. Repeat six times. The last time roll to 4-inch thickness. Spread with melica but-ter, sugar and cinnamon. Holl up and cut into 1-inch slices. Cut a slit through center paradel to cut edges of slice down to but not through bottom layer of dough. Spread halves from center out on baking sheet. Bake in a hot oven (425°) until browned, 15 to 20

Give poached eggs a new pedestal. Dip round, shredded wheat biscuits in hot water quickly, just to soften. Drain, dot with butter and

top with hot poached egg. Poached eggs served on toasted buns or home-made biscuits are a nice variation of an old theme. Sausage patties or links, fried to

crispness add appeal. Bake your eggs in cream: add one to two tablespoons of thick cream for each individual baking The Home Workshop

Shelves to Grace Your Walls

Wall Shelves for Every Room

HANGING shelves may be as pretty as a picture for an important wall space. With pattern 209 a full dozen of different types, sizes and shapes may be made The interlocking joints are cut from tracing designs. The assembling is quick and easy.

Price of pattern is 25c.

Bedford Hills, New York.

Big Fellows

Superman of comic-strip fame has plenty of competition in American folklore, which is filled with tall tales of mighty men Among them is Big Paul Bunyan. here of the American lumberjacks. Bunyan is described as being so enormous as a baby, his mother had to use "the wheels off of a wheelbarrow as buttons for his jacket."

Suez and Wheat

The Suez Canal owes its construction to wheat. It was built so that the journey of wheat from India to England would be greatly reduced, the American Bakers Association reported

Tobacco By-Products & Chemical

John Greenleaf Whittier, who became famous for his poem, "The Barefoot Boy," once worked as a shoemaker's apprentice! The young Quaker poet put himself through school by making shoes and slippers for fine New England ladies.

Barefoot Cobbler

Bakery Workers

More than 450,000 persons are directly employed in the baking industry, more than in any other phase of the food industry.

Baking Parties In rural Greece, loaves of bread for engagement parties are kneaded in public with friends and relatives tossing coins into the dough so that the engaged -ouple can atford a large wedding.

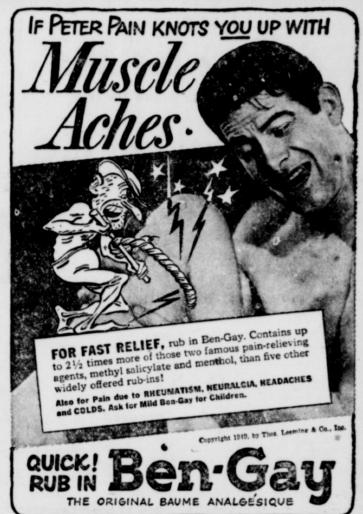

Cereal Consumption

The average American obtains between 28 and 30 per cent of both the food energy and protein of his diet by direct consumption of cereal products.

WHEN SLEEP WON'T COME AND YOU

o When you can't sleep — feel just awful because you need a laxative — do as millions do — chew Fern-a-mint.
Doctors say many other laratives, taken in large doses, start their "flushing" action too soon . . . right in the atomach where they often flush away nourishing food you need for pep and energy! You feel weak, tired.
But gentle Fern-a-mint is different Taken as recommended, it works chiefly in the lower bowel — removes only waste, not good food! You avoid that weak feeling — you feel fine, full of life! Get FEEN-a-mint, 25¢, 50¢, or only 10¢.

Let the Facts Speak For Themselves . . .

You can believe the facts when you see the proof right before your very eyes. Look at the tires and you'll see that Firestone offers you-

A Choice of TWO Tread Designs, a choice between the new and advanced Open Center and the one and only Traction Center Tire.

Curved and Tapered Bars in both tires . . . tapered for a sharper bite. and curved for greater leverage.

Flared Tread Openings in both tires . . . wider at the shoulders to prevent soil jamming and to permit easy, automatic soil release.

Wide, Flat Treads in both tires for full shoulder-to-shoulder traction power and life.

Only Firestone gives you all these extras. That's why Firestone Tires pull better. last longer, and turn out more work for your tire dollar.
