Big 3 Day Rodeo Here This Week End

Parade Is Big Attraction

Best Rodeo In History Is Planned This Week End

"The Largest Small Town Rodeo In The West" conducted by the O'Donnell Roping Club will be presented for the 10th time in the current series beginning Thursday night July 9th and continuing thru Saturday July 11th. Over the years the arena, pens, chutes, and bleachers have been improved until it has one of the best of area plants. All performers are non-professional usually local and area cowboys and the riders who follow stock. The events include the sponsor contest, calf roping, bronc riding, double mugging and several special events to be announced each night. John Ellis, a director of the rodeo group, said that prize money would total \$1850.00

3-Day Parade To Be Held

For many the three day parade is nearly as big an attraction as the rodeo. The parade will be each afternoon of the rodeo at 6 p. m. and will include floats of: Soap Box Derby, Lions Club, Holy City Club, American Legion, Fire Department, 1946 Study Club, First Baptist Church and First Methodist.

The following commercial floats are expected: Vernie Beauty, O'Donnell Flower Shop, Ellis Chevrolet, Forbes Motor Co., Edwards Imp. Farmers Co-op Gin, Hale Variety Line Gro., Jackson's Cafe and First Methodist and P. H. A.

Mrs. F. M. Jones, Mrs. Bill Davis and Mrs. J. C. Swinney as well as other ladies working on the parade urges all those planning floats and not already entered to contact them immediately so that places in the line of march may be assigned.

Mrs. Jones said that first place prize for the float entries would be \$50 with seven other prizes of lesser amounts. There will also be a cash prize for the best dressed cow boy and cowgirl. All judges will be from out of town and the basis of judging will be on the three days of the parade.

Monday morning the town was decorated with "Welcome, Rodeo Visitors" flags. Rodeo headquarters will be in the vacant building formerly occupied by Hash cleaners on main street. The five rodeo princesses are busily selling tickets to the three day event and the community is wondering who will be the 1953 Rodeo queen.

**No More Suttons
 In Bixler School**
 ELDORADO, Ill.—Is an old name
 about to die in this community?
 Has Bixler school, south of El-
 dorado, seen the last of the Sut-
 tons?

For the first time in 47 years
 the family of the late T. W. and
 Sarah Sutton will not have a de-
 scendant as a student there, the
 Eldorado Daily Journal reports.

The Sutton family moved to that
 vicinity in 1905 from White coun-
 ty and six of their children entered
 Bixler school, which then was a
 one-room affair. The late Henry
 Dodd, father of Curtis and Cecil
 Dodd and Mrs. Cassie Mabrey, was
 the teacher of all the grades then,
 with a total of about 50 people.

Those first six Suttons attend-
 ing Bixler school were Frank,
 Charles, Simon, William, Herman
 and Mary. They are double cous-
 ins of Hubert Sutton, former White
 county superintendent of schools
 and presently principal of the Fair-
 field city schools.

Janice Sutton, daughter of Wil-
 liam, who graduated in 1952 from
 Bixler, was the last of the long
 line of Suttons. That is, until the
 great-grandchildren come along.

The building in which the first
 Suttons studied is now located in
 Parish Addition near the Boutwell
 property. The present school was
 built during World War I and since
 that time rooms have been added
 to it.

**Smart Prairie
 Dogs Build
 Huge Towns**
 BAR HARBOR, Me.—If anyone
 ever tells you that your home town
 is going to the dogs, consider some
 towns that have always belonged
 to the dogs—prairie dogs. These
 squirrel like rodents are as capa-
 ble in many ways of forming in-
 habitable communities as man is.

Their social behavior, which has
 been studied by the staff of the
 Roscoe B. Jackson Memorial labo-
 ratory here, resembles that of
 clannish human communities.
 Prairie dog towns are often enor-
 mous, covering tens or even hun-
 dreds of square miles and pro-
 viding homes for thousands of an-
 imals. Despite the continuity of the
 towns, cliques of as many as 40
 dogs are formed. The members
 keep out strangers. Young and old
 dogs of both sexes do the exclu-
 ding.

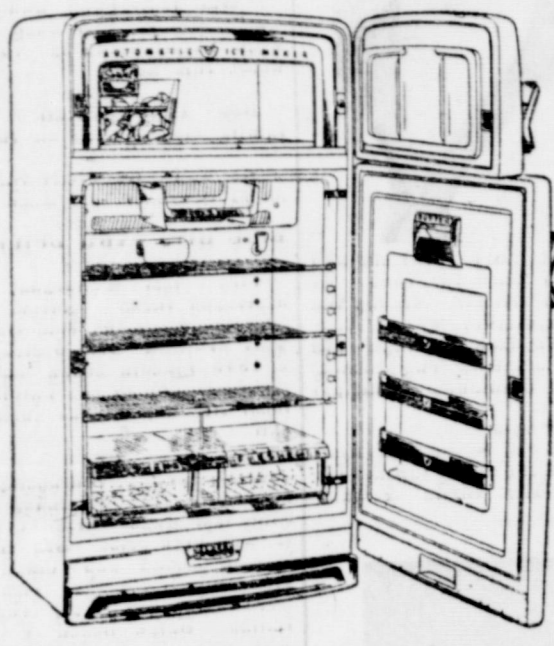

Members of a clique are happy
 when they are not fighting a war.
 They groom one another, play
 among themselves, defend one an-
 other against strangers, and work
 together to build their burrows in
 peace.

The advantages of social har-
 mony are shown in adaption to
 the environment. Amount and kind
 of food available are controlled.
 The "dogs" cooperate in furnish-
 ing themselves with numerous
 homes and refuges. Such advan-
 tages might easily be lost by over-
 population, which could cause mass
 starvation and disease. But the
 smart prairie dogs exercise and
 control the density of their mem-

On all these points
 of comparison... **Chevrolet's**
farther ahead
 than ever!

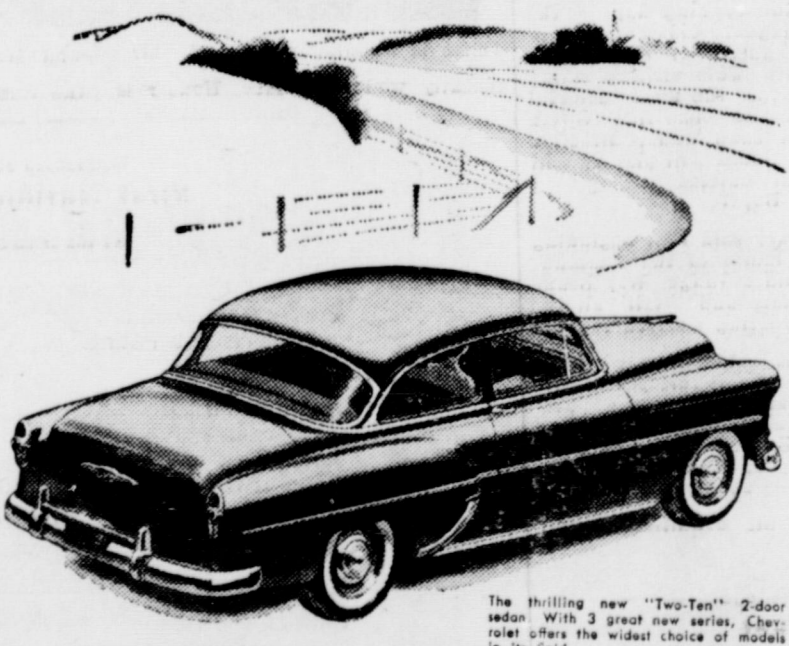

... IN NEW AND ADVANCED STYLING—The new long,
 low, sleek lines of the 1953 Chevrolet set new standards
 of beauty in the low-price field. Here you will see
 careful detailing and a richness of appointments always
 before found only in much costlier cars.

... IN HIGH-POWERED PERFORMANCE—The most power-
 ful engine in the low-price field! The entirely new
 115-h.p. "Blue-Flame" engine in combination with new
 Powerglide* brings you new high-compression power
 and a wonderful gain in economy, too. In gearshift
 models you will find the advanced high-compression
 108-h.p. "Thrift-King" engine.

... IN SMOOTH, SIMPLE AUTOMATIC DRIVING—Expect
 faster getaway with Powerglide's new automatic starting
 and passing range . . . and new economy, too. Chev-
 rolet's new Power Steering* takes over 80 per cent of the
 work of steering, makes parking unbelievably easy.

... IN ECONOMY AND VALUE—Now, you'll get many
 more miles out of every gallon of gasoline. You'll save
 on over-all operation and upkeep, too. Yet Chevrolet
 remains the lowest-priced line in the low-price field.

... IN AMERICA'S FAVOR—Again this year—as in every
 single postwar year—more people are buying Chevrolets
 than any other car. In fact, latest official registration
 figures show that Chevrolet is over 25% ahead of the
 second-place car. Nearly 2 million more people now
 drive Chevrolets than any other make.

Purple Heart Veteran Deported as Wetback

SAN ANTONIO—Immigration authorities sent a 21 year-old Purple Heart veteran of Korea back to Mexico as a "wetback" recently. The veteran, Cpl. Alberto Gonzales of Monterrey, Mexico, was sent in an immigration bus to Laredo, Tex., to be put off in Mexico. Immigration Officer W. L. Meuhlhouse said he had entered the United States on a dead man's birth certificate before he joined the American army three years ago. Wetbacks—named for those who swim the Rio Grande—are illegal entrants.

The G. I. Forum, which works on the problems of Latins in San Antonio, assigned an attorney, Richard Casillas, to the case with instructions to "go all the way to the state department if necessary" to allow Mr. Gonzales to live in the United States.

The immigration office said he was being allowed to leave the country "voluntarily" and predicted he could get a permanent visa from the American consul in Mexico that would allow him to come back in time for the wedding.

Mr. Gonzales was discharged from the army at Fort Sam Houston.

He joined the Army Sept. 17, 1948, and enlisted for another three years on the same date last year. Velia Sanchez, 20, his fiancee, said he had spent a year in Korea, with headquarters of the Eighth army.

"He was wounded in the hip and got a broken ear drum," she said. "He has the Purple Heart, five campaign stars, the United Nations ribbon, the Korean service ribbon and a unit citation."

Spare Parts for Body Are Available to Man

NEW YORK—Spare parts for the human body still can't be ordered from a mail-order catalog. Nevertheless, the advance of medicine during the past few years has made available an imposing array of replacements for damaged or ineffective organs.

Following the development of the blood bank, first of the spare-part repositories, ingenious surgeons have found ways to maintain banks for eyes, bone, cartilage, arteries and veins. There are now methods for transplanting whole organs from one individual to another, and for constructing replacement organs from tissues taken from the patient's own body.

Some man-made spare parts, such as the artificial kidney, are already coming into clinical use, while others, among them the mechanical heart and plastic heart valves, are well along in the experimental stage.

Fresh Berries Give Glamor to Desserts

Strawberries are the first of the lovely berries to arrive, bringing with them a colorful magic to your table. Use them whole and sugared for simple desserts, combine with other fruits for salad, or mold them into delicious pastries for supremely luscious desserts.

Here's a modern version of an old-fashioned strawberry cream pie made with fresh strawberries, coconut and packaged vanilla pudding.

Strawberry Cream Pie

1 package vanilla pudding and pie filling mix
 2 cups milk
 1 baked 8 or 9-inch pastry shell
 1 cup fresh, sliced strawberries
 1/2 cup heavy cream, whipped
 Place pie filling in saucepan. Add milk gradually, blending well. Cook and stir over medium heat until mixture comes to a boil and is thickened. Cool slightly, stirring once or twice. Turn one-half of the pie filling mixture into pastry shell. Top with a layer of strawberries. Cover with remaining filling. Chill. Spread with whipped cream and garnish with coconut and whole berries. Quick-frozen, sliced strawberries thawed, may be used in place of the fresh berries, if desired.

The tomato varieties which are tolerant to heat should be transplanted in the garden now or a little later for fall tomatoes. Summer Prolific, Porter, Firesobel and Danmark are suggested varieties.

The Texas Farm and Ranch Committee urges every citizen to be careful with fire. Pastures and ranges are in critical danger and as never before every pound of forage is needed by livestock. The continued hot, dry weather is increasing the fire hazard.

Texas pastures and ranges on June 1st were estimated at 75 per cent of normal. This is the lowest reported condition on this date since 1925.

July 19 - 25 has been proclaimed by President Eisenhower as National Farm Safety Week in the United States and Governor Shivers has also proclaimed the same period as Farm Safety Week in Texas.

No phase of turkey production offers greater opportunities for cutting costs, increasing profits, and growing better birds than does the proper use of range and succulent feeds.

Frost on the evaporator of the refrigerator should never be allowed to become more than a quarter inch thick.

Summer weather means more

and more families will be going to lakes and streams for outings and picnics. Favorite forms of recreation are boating and swimming and both can be very dangerous if the rules of water safety are not observed at all times. Don't become a statistic by being careless while around, in or on water.

Many a decided blonde is a decided blonde because she decided she didn't want to remain a brunette.

Some of our politicians have discovered that they built their fences so high they can't get over them.

We never criticize a kicker who kicks toward the goal.

There is one advantage to the moustache. It holds back the ice while drinking ice tea.
