## Time Changes This Sunday

Aw, too bad! You really got up an hour too early this morning? If you had remembered to turn your clock back before retiring

Saturday night, you could have enjoyed an extra hour of sleep.

That's right. It's time for the twice a year time change.

Each year, on the final Sunday in April, clocks are moved forward an hour to take advantage of Daylight Savings Time. Then, in October, the clocks are moved back to the 'old' Central Standard Time for the winter.

It's almost as unpopular as taxes, but remains a fact of life, if you didn't turn your clock back, you're an hour too early for everything, and who wants to go to work an hour early?

## Local Drive Is This Week For Arthritis

"We urge every concerned citizen to be prepared to receive volunteer workers asking for contributions to help fight arthritis," said Elaine Damron, president of the Bailey County Chapter of the National Arthritis Foundation.

She continued, "The Victory March within the city limits of Muleshoe will be conducted on Tuesday, October 28 and the rural drive will be on Monday, Tuesday and Wednesday, October 27-29."

"The Arthritis Foundation is the only voluntary health association working to find the answers to the arthritis problem," explained Mrs. Damron. "It exists to help arthritis patients and their doctors through programs of research, patient services, public health information and education, and professional education and training."

"The contribution made in Bailey County area will help do this vital job. The businesses in the community are not asked for donations-----the Victory March is conducted only in

Does anyone know the name of the Bailey County Democratic County Chairman?...the name of the Bailey County Republican County Chairman?.....the name of candidates seeking state offices?...and what state and federal districts represent Bailey County?

Joe Harbin and David Marricle gave the program for the Muleshoe Lions Club on Wednesday. Their program was on "Energy Conservation in the Home".

Second Vice President Marshall Cook conducted the meeting in the absence of President Gordon Wilson.

Time is winding down to order Del Cerro Pecans for the Muleshoe Young Homemakers for holiday cooking and baking. Orders need to be in by next Thursday to the organization.

The pecan halves are \$3.25 by the pound and are available by calling Terry Byers at 272-4468.

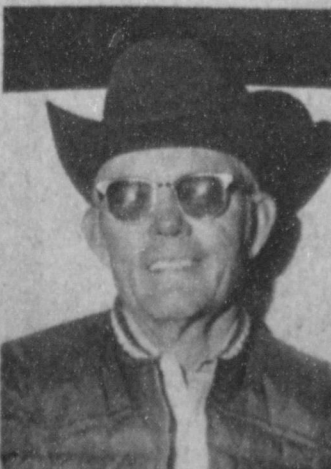

The Muleshoe Fine Arts Boosters will meet Monday October 27 at 7:30 p.m. in the Band Hall. All parents of High School and Junior High School Band, Art and Speech students are urged to attend. Final plans for the Halloween Carnival on November 1st will be made.

The Hospital Auxiliary will be sponsoring their annual Christmas Card project again this year. The drive will begin November 1.

MIXING IT UP--In wild and woolly football action in Muleshoe Friday night, the Mules waltzed off with a 27-0 victory over the hapless Olton Mustangs. Jumping off to a good start, the Mules took quick advantage of Olton miscues and scored three touchdowns in the first six minutes of the game. By the time the game was ended, most of the Mules playing on offense were from the second team.

## Motor Vehicle Taxes Decrease During '80

State Comptroller Bob Bullock said the automobile industry's woes brought about by sagging sales in the past year are reflected in the state's income from the motor vehicle sales tax.

Bullock said for the 12 month period that ended September 1, 1980, the four percent motor vehicle tax levied on the sales of cars, trucks, motorcycles and mobile homes amounted to \$439.4 million.

He said this was \$3.7 million less than was collected in the previous one

## Booths Sought For Carnival November 1

David Gray, chairman of the Annual Fine Arts Boosters Club Halloween Carnival, has issued another reminder for all persons interested in having a booth at the November 1 carnival to please contact him or a member of the Fine Arts Booster Club.

Signing up for booth space to date include: the sophomore class, selling nachos; Mighty 'M' Band, a film show; Llano Estacado Civic Club, spin art; MHS junior class, cake walk; MJHS Band, puppet show; Speech Club, record raffle and large cake raffle and MHS FFA, balloon shaving.

Gray said there will be no admission at the door this year for the carnival and 'kids of all ages will be welcome.'

To reserve a booth space, Gray said it will cost \$20 or 25 percent of the profit,

year period.

Bailey County collected \$232,370.83 in the period of September 1 to August 31, 1980.

A comparable basis shows that Cochran County had a collection of \$124,198.99 during the same period of time.

During the preceding year, Lamb County collections on the motor vehicle sales tax were \$368,175.24.

Parmer County was leading the area for the year with collections of \$417,478.18.

Harris County was the number one contributor of motor vehicle sales tax during the fiscal year 1980, collecting more than \$93.6 million, a slight increase from the \$93.1 million collected in fiscal 1979.

Dallas County collected \$59.3 million in 1980, down from \$61.5 million in 1979. Tarrant County's collections in 1980 were \$30.5 million, compared to \$31.9 million in 1979.

Bexar County reported \$25.5 million for 1980, down from \$25.8 million collected in 1979.

## Police Report

Heading the investigations by the Muleshoe City Police Department this week may be the case of a 'streaker'. According to Muleshoe Police Chief Johnny Richards, the streaker was reported at 12:45 a.m. on October 23.

He said the man was apprehended and was taken to a mental institution Thursday morning.

In other city police activity, investigation is being conducted into the report of a residence burglary at 717 South First Street and into the theft of gasoline from Shafer Bell Station last Sunday.

## CofC, Club To Sponsor A Parade

"Songs of Christmas" will be the theme of the 21st annual Muleshoe Christmas Parade, sponsored by the Muleshoe Chamber of Commerce and Agriculture. The parade is scheduled for 2 p.m. on Saturday, December 6.

Cash prizes will be awarded to the top three floats in the parade and bands, antique cars, and cars carrying dignitaries and club and organization sweethearts will be welcome in the parade.

John Gulley, manager of the C of C said entry forms for the parade were mailed out earlier in October to area clubs, as well as local and area organizations. Persons or clubs planning to participate in the parade who have not received an entry form may obtain the entry form from the Muleshoe Chamber of Commerce and Agriculture office at 104 East Ave. C. Entry deadline for the parade is Friday, November 28.

Main attraction will be the appearance of Santa Claus. Santa will be on hand at the Santa Hut to visit with children following the parade. This year, also, according to Gulley, the streets of Muleshoe should be a big attraction, since there will be new street decorations this year. The decorations are scheduled to be installed on Main Street in time for the parade, he added.

## Mules Take Advantage Of Mustang Mistakes

It ended as it started when the stubborn Mules met the Olton Mustangs in Muleshoe Friday, on an Olton fumble. With Olton taking the initial kickoff, after only one play that didn't go anywhere, Olton fumbled on their second play, setting up one of Muleshoe's four first half touchdowns.

By the end of a rough and tumble 27-0 district opener for the Muleshoe Mules, who dominated the mistake-ridden ball game.

Taking advantage of quick turnovers in the first six minutes of the game, the Mules added three touchdowns and two extra

points. Four plays after recovering Olton's opening fumble, the Mules scored when Mule Quarterback Monty Hysinger scampered in from the seven. This was with 8:55 left on the clock in the first. However, the PAT failed when the snap was bad for the extra point try.

Another Olton turnover set up the Mules second touchdown 2:06 later with 6:49 left in the first when Charles Walker made it into the end zone from eight yards out. This time, Hysinger kicked the extra point and the Mules were leading by 13-0.

To round out first quarter scoring, QB Hysinger found Benny Pena wide open and lofted a pass that connected for a 39 yard touchdown with 4:37 left in the opening stanza. Hysinger then added the extra point.

Olton ran into a solid black wall when they were unable to put any yardage on the scoreboard, and turnovers forced the Mustangs backward. As Olton QB Gregg Smith found himself with five big sacks during the opening minutes of play, the frustrated Mustangs were unable to move into Mule territory.

Muleshoe added another serve points at 6:56 of the second, when Hysinger made it over from the one, another TD set up by an Olton turnover. He then added an extra point to complete the scoring for the game at 27-0.

Going into halftime, the Mules recovered an Olton fumble, and just held on till halftime.

As an added treat, prior to gametime, the Wayland Baptist College Pioneer Marching Band performed at Benny Douglass Stadium. The well-received band and drill team did a series of stories in musical

**ATTEND THE CHURCH OF YOUR CHOICE**

*Pointing the way*

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Early churches used steeples to make the building higher than all others in the city. People could see God's House from any direction, and could easily find their way to a place of worship. Today, with many office buildings towering into the sky, churches are not always the tallest buildings. However, churches still point the way to God, and provide a place of worship.

## Ken De More Presents Program

The Muleshoe local T.S.T.A. met Tuesday, October 21 at 4 p.m. in the Mary DeShazo cafeteria.

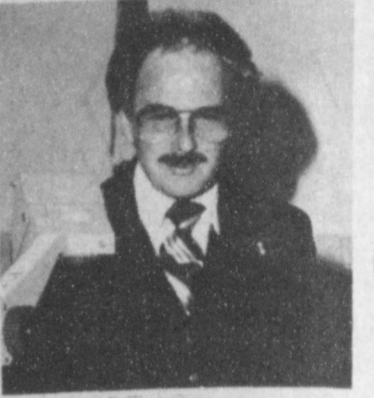

Ken DeMore, regional universe director from El Paso, presented a workshop on "Th LEAST Approach to Classroom Discipline", a simple survival strategy for the teacher. Mounting discipline problems call for quick and easy methods as a response to teachers' urgent pleas.

LEAST is an acronym for the following activities: L-Leave things along; E- End the action indirectly; A- Attend more fully; S- Spell out directions; T- Track student progress.

The LEAST method was

designed by teachers at all grade levels. "We must survive before we can grow." Students pay attention and learn when a teacher has control and both students and teachers will be happier in school.

Barbara Finney, local T.S.T.A. president, presided over the meeting.

After a year when so many corn growers suffered record hot and dry weather, there's a lot of attention being paid to the potential for certain hybrids to be drought tolerant. An easy way to check for drought tolerance this year was to grab a stalk and pull up. If the plant resisted and was hard to pull up, it indicated a well-developed root system which could go after whatever moisture was available. In the next couple of years, look for a new special drought tolerant corn with a genetic trait called latente. This trait will allow the corn plant to turn off the reproductive system during heat or drought stress. After the stress lets up, the plant resumes its normal cycle.

"We put the heat pump in our home based on the recommendation from a builder. He said, 'by having a heat pump, you will save money over a long period of time on heating and cooling costs.' And, he was right! We are saving money with a heat pump. The heat pump really does do an efficient job of heating and cooling the home. If we were doing it all over, we would put a heat pump in again based on the results we've seen with lower electric bills. We are extremely pleased with the way the heat pump has performed."

## Homemaking

### Education

### Advisory Meets

local homemaking

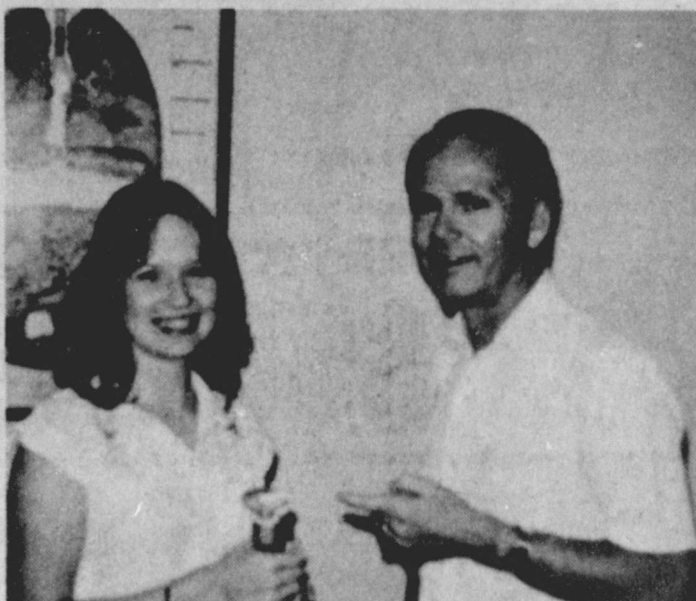

The 1980 Homemaking Education Advisory Council met recently in the Home Economics department. Council members include Elizabeth Watson, School Administrator; Harvey Bass, Chairman; Rev. Hipolita Pecina, Johnny St. Clair, Helen Balderas, Nonette Robinson, and members who could not attend were Jean Richardson of the Muleshoe Chapter and President of Young Homemakers, and Jo Harmon. Homemaking educators are Dorine Harbin, Jan Powell, and Mary Furguson.

The need for a vocational Homemaking Advisory Council was stressed so that school personnel could have direct contact with those who have a real interest in the program. Special consideration is needed in planning the overall Homemaking program for high school students, from parents, school administrators, teachers, representatives from the businesses located in Muleshoe.

The Council assisted in planning a program of action to inform parents about what is being offered and who the course can help. Newspaper articles will be appearing throughout the year featuring a particular course that is presently being taught at Muleshoe High School.

The Council cited a weakness, that the students as well as the parents, have not been informed or have the wrong idea about what the course offers. It was decided that a brochure will be developed and passed out to each student to take home and look over with their parents before spring registration.

Each of us in the Homemaking Department at Muleshoe High School gives thanks to the members of our advisory council for their time and helpful suggestions. We welcome any outside input from the

Johnny Ybarra is the 18 year old son of Jessie and Esther Ybarra. He is #40 on the JV team and plays strong safety. He commented, "I think the JV Mules have a super team and I think we're going to win district."

Kevin Grant, #21, is the 15 year old son of Mr. and Mrs. C.E. Grant. He is active in FTA and FCA and plays split end and strong safety. He commented, "The JV has gotten off to a strong start this year. We've lost a few starters to injuries and other things; but if we keep the kind of unity and spirit we've had so far this year, there is no way we can keep from coming out on top."

Eddie Flowers, #8, is the 16 year old son of Mr. and Mrs. Charles Flowers. He

is active in Ag and FCA and plays defensive end and tight end. He commented, "I think that we have an excellent coaching staff and some real good players. We can go a long way!"

Leroy Hurtado, #9, is the 16 year old son of Julia Hurtado. He is active in speech and drama and plays fullback and cornerback for the JV team. He commented, "I think we really have a good football team this year. We have won most of our games. I think we'll be even better in the years to come. Our team has improved. I think the Mules are going all the way."

Mike Foss is the 15 year old son of Mr. and Mrs. Victor Foss. He plays nose-guard and strong tackle and is #53. He is also active in the Mighty 'M' Band and Speech. He commented, "We've got a lot of talent this year, and we could go all the way with one loss."

He commented, "We have had a very good season so far, and with continued hard work, we will win district."

#### A Win

Congress recently passed, and the president signed, the Regulatory Flexibility Act. After three years of hearings on this reform legislation, introduced by Congressman Andy Ireland (D-Fla), the effort has resulted in a law which should help small businesses.

The new law allows regulatory agencies and departments to make exceptions and waive certain rigid, burdensome and uniform procedures which have lately so overwhelmed many small businesses, unable to cope with the required red tape, reports, requirements and paperwork.

Backed by the Small Business Administration, this relaxation of rigid bureaucratic standards and rules should make normal operation, and necessary cooperation with federal authorities, much easier for many small businesses, small towns, neighborhoods, family farms and others. In fact, Milton Stewart, of the Small Business Administration, says the new law might well do more to help these entities than any legislation enacted in the past thirty years.

It's good to know that the average citizen occasionally wins one-from the federal government's bureaucracy.

#### A German View Of U. S. Army

It was recently announced that some 6,000 American noncommissioned officers and specialists were going to have to be withdrawn from U.S. forces in Europe; and the New York Times poked around until it discovered that the reason for this was that six out of ten Army divisions stationed here in the United States can no longer be considered combat ready.

On a governmental level, no doubt, comment has been restrained and diplomatic about this scandalous circumstance. But the doctory *Frankfurter Allgemeine Zeitung* was not exactly pulling its punches when it made the following editorial pronouncement on the case:

"For a long time the smaller NATO allies have been complaining that the leading power in the alliance has let its own forces deteriorate. (The complaint is) that there are too many pregnant girls, too many drug addicts, too many homosexuals, too many illiterates in the U.S. Army, but far too few people who deserve the name 'soldier' or 'specialist'.

"This deplorable situation seems to be getting worse. A world power that wants to maintain its status must either be ready to spare no expense for its armed forces or educate its people for military service. The Americans obviously want to avoid both. This cannot continue forever."

It should, in justice, be added that not only our allies in the Federal Republic hold that opinion. The view is widespread in this country as well-and among other NATO nations.

What it adds up to, in capsule, is one more scathing criticism of the prowess of the U.S. military today; and it probably betrays a very real fear that when the chips go down the Americans won't be able to respond effectively.

#### ON HEART FAILURE

BOSTON -- An experimental drug, captopril, returns people bedridden with congestive heart failure to relatively normal lives and is one of the most promising treatments for severe cases of the crippling disease, a study shows.

#### SYNTHETIC FUEL

President Carter recently signed an executive order formally starting the \$88 billion synthetic fuels program, giving first-phase authority to the Pentagon and the Energy Department.

#### 140 VHF STATIONS

The Federal Communications Commission gave preliminary approval, in a 4-3 decision, to the addition of more than 140 new television stations on the very high frequency band, the range from channels 2 to 13, where often the best reception is obtained. The rule is subject to final approval expected next year.

#### AUTO SALES FORECAST

DEARBORN, MICH. -- The Ford Motor Company expects that 10 million cars, including imports, will be sold in the United States in the 1981 model year, a 10 percent sales gain compared with the 1980 model year, a Ford executive said recently.

#### ON UNEMPLOYMENT

The Labor Department reported that the nation's unemployment rate dipped in September for the second consecutive month. The unemployment rate declined to 7.5 percent in September from 7.6 percent in August. The new figure is the lowest since last April.

#### HIGH COURT & ISSUES

The new Supreme Court term, which opened recently, is confronted once again with some of the thorniest and most controversial issues on the legal and political landscape. School integration, abortion, and the scope of the First Amendment are among the familiar questions raised.

#### A CRUCIAL ROLE

John B. Anderson's major impact on the presidential election will likely fall on eight states where he retains enough support to cost President Carter or Ronald Reagan electoral college votes. Despite his best efforts, he may be a reluctant "spoiler" in November.

#### CREDIT & POOR LANDS

The International Monetary Fund and World Bank were authorized to be more generous in lending money to poor countries to help them cover gaping balance-of-payments deficits caused largely by higher oil prices.

### CAPITOL UPDATE

John Tower

U.S. SENATOR FOR TEXAS  
142 RUSSELL OFFICE BUILDING  
WASHINGTON, D.C. 20510

Providing information and assistance to Texans is one of my primary responsibilities as a senator. These services are available from four offices in Texas, as well as my Washington office.

Let me take a moment to tell you some of the things my staff and I can do for you.

We can provide copies of bills or committee reports, and tell you the status of a piece of legislation. In addition, we often are able to provide other information about the federal government. I also welcome your suggestions concerning legislation that might be introduced.

The state offices -- located in Dallas, Austin, Houston and Lubbock -- also offer assistance in any matter relating to a federal agency. Considering the size and scope of the federal government, that covers a lot of territory.

We work with an individual having trouble getting his Social Security check; a community that wants to keep its post office open; a student who wants to go to a service academy; a business seeking a Small Business Administration loan, and a host of others with other concerns.

Unfortunately, I do not have the power to change an agency's decision, nor can I dictate what the agency's decision will be. But I can make sure that your situation is receiving proper consideration, and that all relevant information is being considered -- and often I can help cut through the masses of red tape that seem to abound in federal agencies.

So that these problems can be handled most efficiently, each of my staff members has a different area of responsibility, and different functions are performed in each office. But if you will get in touch with your nearest state office, the staff there will make sure the right person gives you assistance.

In addition, each state office provides general services for its area of the state. For instance, staff members attend public hearings involving federal matters. They also keep me informed about area problems and concerns, and the views that citizens express to them. These offices can even provide speakers for area groups.

I would encourage all of my fellow Texans to call upon me, through any of my offices, for any information and assistance that I am able to give:

- Washington: 142 Russell Senate Office Building, Washington, D.C. 20510, 204-224-2934
- Austin: 961 Federal Building, 300 East Eighth Street, Austin, Texas 78701, 512-397-5933
