THE TIME IS NOW — Forget something?

That is the question Internal Revenue Service is asking of a quarter of a million North Texans. These 250,000 taxpayers are due a refund on their 1958 taxes but have not filed their tax return. The Internal Revenue Service is anxious to start processing these refund returns. Incidentally there are 350,000 other North Texans who have not filed their tax return. These taxpayers owe money and now is a much better time to file than on April 15th when a penalty is due.

MINISTERS UNDER S. S.

The Social Security Administration reminds clergymen that some of them will never be able to have their earnings from the ministry count toward old age, survivors, or disability benefits if they fail to take certain steps within the next few weeks. John Hutton, district manager of the Lubbock social security office, declares.

Clergymen may have their earnings from the ministry counted toward old age, survivors and disability insurance protection if they formally indicate within a specified time their desire to have these earnings counted. When a clergyman comes under social security he reports his earnings as self employed income even though these earnings may be salary paid to him by the congregation or religious order which he serves. He must pay the social security security self employment tax on his earnings. The church he serves does not become involved in any way.

Any clergyman who has not yet filed to be covered under the social security law must file a waiver certificate with the District Director of Internal Revenue on or before the due date of his income tax return.

**Sewing for a Child
Can Be Profitable**

While economists try to figure
a way to control inflation, many
mothers have already taken mat-
ters into their own hands to
stretch the clothing dollar. With
more than 18,000,000 pre-teen-age
children in the country, ranks of
home seamstresses are increasing
daily.

There's creative satisfaction in
converting fabric into dainty or
practical garments for work and
play. There is, also, better fit,
sturdier construction in clothes
that mothers make.

If you haven't hopped on the
sewing bandwagon yet, remember
that in making children's gar-
ments for your first projects, you'll
eliminate many of the fitting prob-
lems which arise when you sew
adult clothing.

Small garments require little
fabric and you'll often find these
on a remnant counter. Many find
that leftover yardage from other
projects can be enough for a little
blouse, skirt or pinafore.

Make Pattern Adjustments

In selecting patterns for chil-
dren, local sewing center experts
advise gauging the size to use by
the child's chest measurement
rather than by the child's age.
Then, too, as when sewing for
child or adult, the pattern is to be
fitted to the figure and adjust-
ments made before cutting the
pattern from the material.

Most patterns for children need
shoulder, waist and length adjust-
ment, even though the pattern fits
fairly well as to size.

AMISH CAPITAL

**This Town Has
More Buggies
Than Autos**

ARTHUR, Ill.—On the streets
you'll find more horses and buggies
than automobiles. The hitch-rack
is used every day in the week ex-
cept Sunday.

For this is the home of one of
the larger sects of Amish people in
the country. Approximately 1,500
Amish live on the farms nearby.
They are prosperous, friendly.
They've never gotten in trouble,
and mind their own business.

But strangers stare at them be-
cause the men are whiskered, wear
homemade clothing and flat black
hats. The women dress just as
severely, and keep their heads cov-
ered. They dislike the automobile,
and use the horse exclusively.

Hitch Rack Rules

Arthur has entire streets where
the hitch-rack reigns. Signs are
posted, prohibiting autos to park
in these areas. The highways near
Arthur are filled with the black-
topped buggies of the Amish farm-
ers.

Strangely the Amish have pre-
served many Old World traits, and
yet form a harmonious segment in
the area surrounding them. For
although Arthur is known as "Cap-
ital of Amishland," there has never
been any friction between these
people and their non-Amish neigh-
bors. They are extreme pacifists.

Make Own Clothes

Mention of the word Amish gen-
erally brings to mind a vague men-
tal picture of queer, Quaker-look-
ing people who ride in horse-drawn
vehicles and wear plain clothes of
their own making.

**Keys to the City
Come in All Kinds
Of Sizes, Meaning**

NEW YORK CITY—First tenants
in all new apartment houses in
New York will receive "keys" to
the city, but they are not likely
to unlock any doors.

The "keys" are on the letter-head
of welcome distributed over the
signature of the mayor and con-
sist of a simple ceremonial key, to
aid newcomers in finding their way
around the city.

Presentation of some sort of a
key to a city is an ancient custom,
even if the keys will not unlock so
much as a street-numbering sys-
tem. Many cities engage in the
practice when distinguished visi-
tors arrive at city hall.

It was not always a happy oc-
casion. In ancient times keys to the
gates of a walled town were, some-
times handed over to a conqueror
by defeated citizens, and the cere-
mony was not one that called for
rejoicing.

In the Middle Ages, however, the
custom became more or less hono-
rary. With the gates of European
cities locked at night, a key was
practical and convenient to give
keys to particularly distinguished
or wealthy—and sometimes mis-
terious—visitors, and as they
pleased at any time without
challenge from the guard.

The custom of giving keys to
the city has even been turned on
a reverse twist. In Washington a
District of Columbia congressman
greeted the visiting Mayor of
Lima, Peru, with the ceremonial
key and was surprised when the
South American official returned
the favor and presented him with a
beautifully worked silver key to
Lima.

Various cities give honorary keys
of keys. In Baltimore, distin-
guished visitors receive a key in-
scribed wooden key, and in Wash-
ington, D. C., the key is a silver
one. In New York, the key is a
gold one, and in Portland, Ore.,
the key is a silver one.

**Sucker Day Recalls
Big Bamboozlement
To Oklahoma Town**

WETUMKA, Okla. — The city
slicker who bamboozled almost
every merchant in this community
received some high tribute recent-
ly from the very town that he
gyped.

The town celebrated its third an-
nual "Sucker Day," to memorialize
the fortune that turned bad luck
into good for this community.

Sen. Taft (R-Ohio) and Sen. Kerr
(D-Okla.), who were named the
"top suckers of 1952" sent their
regrets because they could not at-
tend.

Slick F. Bam Morrison visited
Wetumka three years ago and sold
a bill of goods.

The community held a party to
get rid of the unusable surplus
merchandise and found itself with
a profit-making festival.

Morrison was invited to this
year's celebration. But, with every-
thing honest, he stayed away.

The history of the event goes
back to the day Morrison arrived
here as the self-announced advance
agent for a circus.

He canvassed every merchant
for advertisements in the circus
program.

"Yessiree," Morrison's glib
tongue promised, "the circus is
coming and it's a humdinger!"

The confidence man persuaded
local merchants to import hay to
feed the elephants.

Came the big day, there was no
big top. There was no Morrison.

The red-faced civic leaders hit
upon the scheme to out-Morrison
Morrison.

**Tennessee Bear Ruins
Revenuers' Evidence**

NASHVILLE—In the Tennessee
hills there lives a bear which
seems to know bad whisky when
he tastes it. While Alcohol Tax
Unit agents were waiting to trap
the owner of a still they had just
found, the bear lumbered out of
the forest and decided to sample
the product. He rolled it around
his tongue and then smashed the
still to pieces.

**Plain talk to the man who thinks
"all cars are built alike today"**

J. BENNETT JUDGE

"This is far from being the case. I can
name at least 50 basic differences in
the design of our '59 Mercury. Natu-
rally, we feel these differences make
Mercury a better car. For example:

EXTRA STRENGTH STARTS WITH THE FRAME
The backbone of every Mercury is the
frame. We use a heavy box-type con-
struction—the heaviest in the industry.
Competitors use frames that are up to
125 pounds lighter.

WE BUILD QUALITY YOU CAN SEE
Compare the way Mercury builds en-
gine hoods. Most competitive cars use
what is known as a single-panel con-

struction. This type of hood can be
twisted and turned with the slightest
pressure—often flutters and vibrates
when the car is in motion. At Mercury,
on the other hand, we use a double-
panel construction—two layers of
steel with the insulation sandwiched
in between. Not only is Mercury's
hood more rigid, but it looks better.

YOU FEEL THE QUALITY WITH MERCURY'S BRAKES
Mercury brakes are the best in the
field—with up to 22% more brake lin-
ing than competitive cars. And only
Mercury in its field has brakes that
adjust themselves mechanically. You
save money by eliminating periodic
adjustments. And you are safer be-
cause Mercury brakes stay properly
adjusted for the life of the linings.

...AND EVERY TIME YOU TAKE THE WHEEL
All 1959 Mercurys have a flexible cou-
pling installed in the steering system.

This acts as an insulator—absorbs road
shocks that would otherwise travel up
to the steering wheel. Mercury, unlike
some cars, gives you this with either
manual or power steering.

**WE HAVE PLENTY OF PROOF THAT THIS IS
THE BEST-BUILT CAR IN AMERICA TODAY**
We know it is the greatest Mercury
ever designed and built. Never in
Mercury's 20-year history have we had
so much value in the product itself.
Mercury has advantages everywhere
over competition. The four described
on this page are only typical. In future
messages I'll tell you about dozens
more—in styling, comfort, in every-
thing you want in a car."

The annual meeting of the Texas Farm and Ranch Safety Council will be held this week in Houston.

"Vertical Intergration of Texas Agriculture" is the title of a new joint publication by the Texas Agricultural Extension Service and Experiment Station.

Prices to farmers for manufacturing milk and butterfat probably will continue near support levels in 1959 and production is expected to continue above commercial.
