HALF HOSPITALS ARE FILLED WITH MENTAL PATIENTS

Mental disorders today represent a real problem, and it is estimated that more than 50 percent of all hospital beds are filled by persons suffering from mental or nervous diseases, declares Dr. Henry A. Holle, Commissioner of Health. It thus appears that modern civilization is exacting a terrific toll. High speed living, with its tremendous demands upon nature, is responsible for a large part of the trouble. The fact is that significant percentage of the patients entering hospitals for mental disorders are there because of organic or toxic causes.

For example, general paresis is the cause of one fifth of the mental troubles in males now entering mental hospitals. This condition is an organic disease of the brain due to the germ responsible for syphilis. It is a preventable disease. Early and effective treatment of acquired syphilis will block the end results of general paralysis in the insane.

The excessive use of alcohol is responsible for a number of mental disorders, at least in males.

Nevertheless, improper living habits continue to impair mental health in many people. Insufficient sleep, neglect of bodily care and over forcing of nervous energy are the pitfalls to avoid in this connection. Nature demands that the fundamental laws be at least reasonably observed.

KNOCKOUT BLOW

YOU can use your home, your automobile, your savings and all that you value, if you have to pay a judgement awarded by a jury for injuries sustained on your property.

Comprehensive Personal Liability Insurance will defend you in such an action and pay the damages up to the limit of your insurance.

PERFORMANCE
made it the
Largest Selling "8"
in the World...

the FORD V-8

Just look at these official registration figures
for the first 11 months—January
through November, 1955

	Car Sales	Ford Sales Leadership
FORD V-8	1,211,742
Car C—V-8	634,376607,366
Car P—V-8	262,870978,872
Car C—Six	845,153396,589
Car P—Six	334,540907,202

Here's why!

People just naturally go for 8 cylinders in the FORD package!

And to a world record extent!
Just think, in the first 11 months of 1955 alone, 344,496 more people bought Ford V-8's than bought the two other low-priced competitive eights combined! They even bought 396,589 more Ford V-8's than the next competitive Six!

Of course, the reason the Ford V-8 is the

largest selling eight-cylinder car in the world is that more people like its brand of performance—the kind that comes with the car!

These people aren't amateurs in judging engines. Nearly 24 years of building Ford V-8's to supply their demand is convincing proof of that.

And the Ford V-8 of today is the best yet... by a country mile!

Smoother and quieter—you can scarcely

hear it, even with the hood up! Sassier—just ask the highway patrol officer who drives one. He knows it takes a Ford to catch a Ford!

And, for the very practical question of durability—ask a Ford cab driver. He knows how Fords take it days on end.

So, if it's performance that you want—and wrapped like a gift—the '56 Ford V-8 is your baby.

Come in... try it today!

Index Photo Contest To Be Here Feb. 8th

It is an undisputed fact that the responsibilities of tomorrow's world, our Nation, and Community will rest upon the shoulders of the children of today. Since this is true, the publishers of this newspaper would like to give you a good look at these future "World Builders".

The only way we can do this is by publishing pictures of them in a feature series. To assure the latest and best reproduction of pictures... they must all be of uniform size and quality... we have invited the Woltz Studios of Des Moines, Iowa, a nationally known portrait studio, to take these special pictures for us.

An expert children's photographer for the Studios, with all the necessary equipment for this specialized work, will be here Wednesday, Feb. 8. Pictures will be taken at Index office and will be open from 11 A. M. to 5 P. M. No Charge to Parents

There is no charge to the parents. There are absolutely no strings to this initiation. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number by arrangement with the Studio representative when they select the pose they want printed in the paper. It is entirely up to them.

The More Pictures, the Better

The Index simply wants pictures of all the youngsters and the more the better. So the Mothers and Fathers of the community in which this paper circulates should remember the date Wednesday, Feb. 8th at 11 a. m. and not fail to bring their children to the photographer.

For sale: International Breaking plow, 3 disc, see Amos Barton, Rt. 1

Lifeboat Race Began With Sea Battles of Old

NEW YORK—Had they lived centuries ago, seamen who rowed in the International lifeboat race held this year on the Hudson river might have been pulling an oar for their lives in a battle at sea instead of racing against friendly competitors for glory and exercise.

The Winner

While thousands watched from the Manhattan shore, a Norwegian crew beat an American boat by three lengths over a mile course from Grant's tomb to the soldiers and sailors monument at Riverside drive and 89th street. Great Britain, the Netherlands, and Israel trailed in that order.

Roman triremes, the galleys of the Barbary corsairs, the long ships of the Vikings—all were powered in battle maneuvers by oars. Rowers often were convicted criminals or war captives, galley slaves chained to their benches.

Sailing Days

When larger ships were built and sails replaced manpower, seamen still rowed. Oars moved the small boats that shuttled between anchorage and shallow beach and towed great square riggers in and out of congested harbors.

Old records of naval battle contain references to instances where rowing boats were launched from warships to tow them to safety or into better position for attack. Oars and brawn took George Washington across the Delaware to surprise the Hessians, helped Sag Harbor whalers to run down their quarry and still help Grand Banks dorymen get about in search of cod.

With rowing a universal skill in the days of sail, it was natural that competition should develop wherever shipping gathered. Writers of the sea speak of gig and whaleboat races between windjammers' men of many nations in such farflung ports as Hong Kong, Le Havre, and Valparaiso. There is a record of a rowing race on the Hudson in 1824 between New York ferrymen and a boat's crew from the British frigate Hussar.

This sort of racing, sometimes intentionally international in character but more often a matter of rivalry between individual ships or shipping lines, never became formalized.

Your local, independent agent will take the time to go to bat for you when there is an insurance claim to be settled...

Elvin R. Moore

Sweet Tooth

For Childhood Compliment

FINDLAY, OHIO—Mrs. John Minnrod remembers with fondness the bakery that was patronized by her mother when she was a small girl. She remembers that on her 11th birthday she fell in love with the wedding cake in the bakery window.

She rushed into the shop, plunked 11 pennies on the counter, and told the proprietor, "This is all the money I have. I'd like to give it to you as a deposit on a cake exactly like the one in the window for my own wedding." The baker took the 11 pennies and gave her a receipt.

Twelve years later, on the eve of her marriage, she received a package. Inside it was a duplicate of the cake, with a bill enclosed which said, "One wedding cake. Received on account: 11 cents. Balance: Respects of the Campbell Baking Co., for the sincerest compliment ever paid them."

SCHOOL CENSUS BEING TAKEN

Mr. Skinner also said that January is School Census Month and all children ages 6 to 18 should be counted and each child in the district, whether in school or not, means \$74 to the District from State Funds. If you are in doubt or know some child not counted, be sure to see Mr. Skinner or any one of the teachers, or Mrs. Vera Etter

Builds Own Home; Beats Housing Shortage

BERLIN, N.H.—One way to beat the housing shortage—if you have the time and talent, backbone and brawn—is to go out in the woods and start building your own house with your own hands.

That's what Bob Hughes, Berlin artist and high school art instructor, decided to do about two years ago, and if all goes well, he hopes to move in with his wife and two children before long.

The 36-year-old jack-of-all-trades has been building the new house almost single-handed during summers, weekends, and any spare time he can find.

The front door will have 15 panels of thick pine, recessed and carved by the gifted young artist-teacher-marionette maker into the 12 signs of the zodiac, with three panels for another design. The front hall will be paneled in pine, some a foot and a half wide. The stairs are huge solid oak blocks.

Bob Hughes is his own architect, designing the house himself and working from his own set of blue-prints. It is a combination of modern and traditional. The living room has a large picture window, composed of twelve panes which saves the expense of a single sheet of plate glass, and has the advantage of individuality.

The kitchen will be done in white ash, and has a laundry shoot down into the basement.

Looking tanned and rugged, with a crew cut, dungarees and G.I. shoes, Bob didn't think he was doing anything particularly remarkable in building his own house. Although he was aboard the first landing craft to hit the coast of Normandie on D-Day, he knows he is not the first amateur to build a home for his family in this area. And he pointed out that he didn't dig the cellar-hole and has no intention of installing the furnace and plumbing.

Community Holds Kid's Traffic School

HARVEY, Ill.—The safety committee of this community held a children's traffic school recently on a downtown plot. Students were of pre-school age through the third grade, and they were taught how to be safer pedestrians.

A miniature traffic pattern was drawn on the pavement with lime and water, and small-sized pedal automobiles were used to simulate life-sized cars. Boys and girls took turns acting as pedestrians, motorists, and traffic officers.

They were aided in reading traffic lights, railroad crossing signs, and other warning signals by miniature reproductions of these signs.

Who Files Returns ?

Nearly every citizen or resident of the U. S. A. who had an income during 1955 should file a tax, according to John R. Robinson of the Internal Revenue Service office at Lubbock, Texas.

He explained that if you are less than 65 years of age and had a gross income of \$600 or more, you must file a tax return. Those 65 and over, however, must file a return when their gross income is \$1200 or more.

"Self-employed individuals with net earnings of \$400 or more must also file an annual return," Mr. Robinson said.

"A person with income of less than \$600 or \$1200 for those 65 or over should file a return to get a refund of the tax that was withheld each payday," he said.

"Every taxpayer should read the 1955 tax instruction pamphlet so he will not pay more or less tax than he owes," he urged.

Co-op Tells Of Oil Sale

For the next two weeks the O'Donnell Farmers Fuel Association is announcing a plan whereby you can get two cases of oil free with the purchase of 12 cases of Co-op oil. Read their ad on page 3 for further details.

ROBERTS ANNOUNCES

Continued from front page

years in the Navy during World War II, he attended Baylor University where he played football, and in 1950 received his B. B. A., having majored in business and has a teaching certificate in business education.

He has spent most of his life in the area covered in the 99th District, working on a farm, newspaper, in the oil fields, and during the past five years has been in the insurance business in Andrews and Lamesa. During his Senior year at Baylor he married Joan Vining of Seminole.

"Having lived here in this area all of my life, I believe I am thoroughly familiar with the problems and needs of this district," Roberts said, "and if elected as your representative, I will serve the people of this district with integrity and devotion to duty which Texans have the natural right to require of those with a public trust."
