Plans Complete For Rodeo Here July 9, 10, 11

Best Celebration In History Is Planned

"The Largest Small Town Rodeo In The West' conducted by the O'Donnell Roping Club will be pre sented for the 10th time in the current series beginning Thursday nite July 9th and continuing thru Saturday July 11th. Over the years the arena, pens, chutes, and bleach ers have been improved until it has one of the best of area plants All performers are non-professional usually local and area boys and the riders who follow Goat Mayo, the producer, and his stock. The events include the spon sor contest, calf roping, brone saddle and bareback riding, riding, double mugging and sever al special events to be announced each nite, John Ellis, a said. C. R. Burleson, jr., an official of the rodeo group, said that prize money would total \$1850.00

3-Day Parade To Be Held For many the three day parade is nearly as big an attraction as the rodeo. The parade will be each afternoon of the rodeo at 6 p. m.

y, fairly, swiftly without vorse being written in press, spok-over radio and seen over TV. American proud of criminals? Hotary Club, American Legion, Fire Department, 1946 Study Club, First Baptist Church and First Methodist.

The following commercial floats are expected: Vernie Beauty, O'Don nell Flower Shop, Ellis Chevrolet, Forbes Motor Co., Edwards Imp. Farmers Co-op Gin, Hale Variety

Line Gro., Jackson's Cafe and Lone Star Materials. Mrs. F. M. Jones, Mrs. Bill Davis and Mrs. J. C. Swinney as well as other ladies working on the parade urges all those planning floats and not already entered to contact them immediately so that places in the line of march may be assigned. Many Parade Attractions

Among the parade attractions will be the scale model Santa Fe train complete with coaches, running under its own power (this only will make the parade a major attraction) the Shetland poniees of Wayne Grace of Lamesa with chuck wagon, also an old time buggy dating back more than 75 years ilong with clowns, sprise entries and a group of local old time cow-boys. On the opening day the Possum Kingdom riders of Graham will be guests of Lynn Co. Sheriff Posse. This visiting riding eam is perhaps the most colorful in the Southwest. The fine O'Don School band under direction of Maurice Jones will play as will ther musical entries. Watch Out, Boys!

How To Safely Celebrate

Taking note of the approach of the great patriotic national holiday, July 4th, which this country has celebrated for 177 years, Dr. Geo. Cox, State Health officer, calls the attention of the citizens of Tex as to some of the dangers of careless celebrating. Each year on the 5th of July, one always reads of the appalling number of accidents which occurred over the Fourth.

It is not alone the wounds ceived from explosives that crease our death toll. from automobile accidents, splinters, nails and other penetrating wounds in which dirt may be carried into the skin, heighten hazard of tetanus or lockjaw. Such wounds should be promptly treat

ed by a physician. .

If the days pleasure includes a swim, caution should be used and no attempt made to do more than your strength will permit. If drowning takes place, arti-respiration should be started once and continued until a doctor

Automobile accidents have usual ly one of three causes: exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgement of the driver.
Caution should guide the holiday activities so that the day may be remembered with joy instead

LOSS OF SALT CAUSES HEAT CRAMPS AND HEAT FAG

If your work is such that it causes excessive perspiration, add pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer

hits 95 degrees and above. Laborers, mechanics, and editors whose work them to sweat profusely, are in danger of having their body salt content become deficient with res ulting heat cramps or heat Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days. In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exercion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevent ed by taking salt in various ways. Where prepared tablets are available, table salt may be add to each drink of water. Milk is table salt may be added source of salt ann will help make up for the deficiency caused sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual un til there is a deficiency; then the abdominal muscles begin to cramp.

At the present time the trial and error method usually guides the search for cancer-fighting chemiing Service cals. Chemicals are made in the Union laboratory, then tried on cancerous ng weiship mice. If they have some effect on cancer, they are then tried on meeting Meeting uman patients.

Runyon Fund.

There are at present two chief classes of cancer-fighting chemi-

Cancer Killer That

Spares Life Sought

BERKELEY, Calif.-What would

be the ideal chemical to kill cancer

cells and at the same time leave

normal tissues of the body un-

A new approach to this difficult

question will be undertaken by a

team of scientists in the University

of California School of Medicine,

San Francisco, with the aid of a

\$10,000 grant from the Damon

In each case the chemicals that inhibit cancer growth so far tried have not been able to make a sharp enough distinction between cancer cells and normal cells.

The scientists will study the basic chemical reactions that take place between the chemicals and both cancer and normal tissue.

Their goal is to learn enough about the reactions to be able to write specifications for chemicals that would carry out the desired inhibiting reactions with cancer cells but not with normal cells.

Man Passes 100, Then Sows His Wild Oats

BROOKLYN-When he was 100 years old, Mosha Byron was reprimanded for shooting craps.

When he was 102 he was arrested

for practicing medicine illegally. Recently, he was hauled into court again, this time for cursing a neighbor. He was ordered by a doubting judge to go home and get his birth certificate to prove that he was 108. The judge couldn't believe a fellow so old could stir up so much trouble.

Music Is Replaced By Fish in Gullet

VENICE, Italy-Giovanno Casonato was emptying his net after an especially rewarding fishing voyage. He opened his mouth to sing, because he was happy over catching so many fish.

A small fish leaped down his throat. Casonato had a spasm of coughing and sneezing. The fish did not come out.

It required an operation to re-

Magistrate Sentences Man to 10 Whip Lashes

FREDERICK, Md.-Magistrate Wilbur F. Sheffield, Jr., has become a celebrity since he sentenced a man to 10 lashes for wifebeating. Mr. Sheffield has been deluged with fan mail.

The letters have come from all over the country and there is even ne from Spain

"Your decision will serve as a lesson . ." said one.

"Would a wife have gotten the same sentence?" challenged Dr. C. R. Wilber of the Bronx, N.Y., president of the National Sociological League.

"The whipping post, used over the nation, would reduce crime," said another.

"Lashes are for the middle ages," said another. A group of Robbins, Calif., housewives prescribed 40 lashes-the le-

gal maximum under Maryland's old whipping post laws—plus 40 kicks in the stomach. Shuffling through the file, Magistrate Sheffield said he would stick by the sentence imposed Aug-

ust 6 on Marshall M. Flanary, 43year-old carpenter from nearby Greenfield, who was convicted of beating his wife. Only one thing is holding up the lashes now. Magistrate Sheffield ordered a mental examination for

Flanary. Unless the doctors find Flanary insane and commit him to an institution, Magistrate Sheffield will sign another order for execution of the sentence. Flanary could have appealed, but he didn't.

Handsome People Few, Photographer Claims

MILWAUKEE-Victor Anderson, manager of a photography studio, says that from the standpoint of proportions there are but few beautiful women and handsome women in the world today.

He contends that human faces are made attractive in photographs not so much by natural attributes as by good photography, careful posing and proper lighting.

"It is interesting to see the number of persons that come into my studio who do not know that they have a crooked nose, one eye smaller or a lopsided face or some

other fault," Mr. Anderson said. When people look into a mirror they are usually combing their hair, shaving or otherwise in motion. Motion is the great deceiver and when in motion the faults are minimized. Some become unnoticeable. It is when the face is stationary, as in a photograph, that the VA Quiz

Q. I was totally disabled in an automobile accident over six months ago, and my National Service Life Insurance premiums are under waiver. I have a peruanent plan poliay. Will my policy continue to build up guaranteed values, like it did while I was paying my own premiums?

A. Yes. A permanent plan policy under waiver of premiums provides increasing guaranteed including the loan privilege the right to dividends just

though you were paying premiums Q. I am getting a VA pension for total and permanent disability, and I live in a house that I re-

ceived thru an inheritance. If I sell the house, how much of the pro-ceeds must be considered as in-come, in figuring whether I come under the income limitations for a pension?

A. In the case of a house that came into your possession thru inheritance, all the proceeds will be considered as income for pension purposes.

I was released from service in July of 1952. By what date must I start training under the Korean GI Bill?

KNOCKOUT BLOW !

YOU can lose your home, your automobile, your savings and all that you value if you have to pay a judgement awarded by a jury for injuries sustained on your

CLAYTON INSURANCE AGENCY - LOANS -PHONE 148

A. Veterans such as yourself, re eased from service before Aug. 20, 1952 must begin their training un der the Korean bill by Aug. 20, 1954. Those released after Aug. 20, 1952 have two years from date of separation in which to begin.

EGG -FEED PRICE RATIOS FAVOR EGG PRODUCERS

College Station -- The egg-feed price ratio for the first quarter of 1953 averaged 30 percent higher than for the same period last year. In the past, says F. Z. Beanblossom poultry marketing specialist for the Texas Agricultural Extension Service, an increase in this ratio has been accompanied or followed closely by an incrase in the number of chickens raised for laying

flock replacements.

This could happen this year however chicks and young chickens on farms on April 1 was one percent below last year's figure for same period. Eggs in incubators on may be large.

Pay more? What for?

You don't have to pay costly-car prices for costly-car comforts.

Ford brings you everything [and we mean everything] you've ever wanted in a car, at a price that's well within your reach! And according to recent surveys, a Ford returns more of its original cost when sold than any other car at any price!

Here are a few of the "Worth More" advantages you'll find in the '53 Ford:

1. A V-8 engine—powerful and smooth!

Ford's famous high-compression V-8 is a leader in quiet, flexible, economical performance. Ford, remember, has built more V-8's than all other makers combinedover 13 million!

2. America's most economical Six engine!

If it's a Six you want, Ford offers you the high-compression, lowfriction Mileage Maker . . . the engine which, with optional Overdrive, won over all other cars, regardless of size or weight, in this year's Mobilgas Economy Run! And it's yours for the same kind of money that buys less modern sixes in other cars.

3. America's finest and most versatile automatic drive!

Fordomatic Drive is the "automatic"

which gives you both the get-upand-go of automatic gears and the smoothness of a fluid torque converter. If you choose Fordomatic, you will find that it makes all your driving easier . . . more relaxing.

4. Automatic gas savings!

Ford's Automatic Power Pilot (on Six and V-8) meters just the right amount of gas, times ignition precisely, burns fuel evenly and completely. You get full high-compression performance from every drop of gas-regular or premium.

5. America's newest and finest power steering!

Ford's Master-Guide power steering gives you new ease, stability and safety in guiding your car on smooth roads or rough. Your car gains in sure-footed roadability and you expend up to 75% less effort in driving-and parking.

6. Largest choice of models in the low-price field!

Ford alone gives you a choice of 18 different models . . . a SIX or V-8 . . Fordomatic, Conventional or Overdrive . . . the widest variety of body, color and upholstery combinations. You can practically "design" your own Ford!

7. A body that's the style-setter!

Only Ford in its field gives you the advantages of a hull-tight Crestmark Body . . . the trend-maker in design and beauty. Ford's body is the longest and Ford's trunk, the largest. You enjoy more usable space.

8. New driving conveniences!

Ford's first in its field with such "Worth More" features as easieracting, suspended pedals that eliminate floor holes . . . foam rubber cushions on front and rear seats in all models . . . and convenient Center-Fill Fueling.

9. An automatically controlled ride!

When you Test Drive this Ford, notice how the wide front tread (widest in the low-price field) takes tilt out of turns . . . gives you a more level ride. With new "balanced suspension," new spring and shock absorber action and new rubber compression bumpers, road shock in the front end alone is reduced up to 80%.

10. It's worth more when you sell it!

An impartial survey of used car prices proved that Fords return a greater proportion of their original cost than any other cars in America. It's another fact to add to Ford's reputation as the "Worth More" car. But don't take our word for it. Stop in and Test Drive this Ford for yourself. We predict you'll be sold before you're in second! It was true last year and it's even truer this year: you can pay more, but you can't buy better than Ford.

Draft Law Explained

On a local draft board is placed the responsibility, under applicable laws and regulations, of deciding which men should be deferred because of their civilian activities.

The three categories of men con sidered are: 1. farmers or farm workers, 2. college or university students and 3. men in industrial and all other civilian activity.

In the case of students, deferment until end of the school year is ordered by law, if the student is mailed an order to report for induction while he is in school satisfactorily taking a full time course of instruction, provided he has never received a statutory defer-

If the student has previously re ceived such a deferment, then fu-ther definment is up to the loca board. The board can consider information outside the scholastic as well as scholastic information. The widely publicized draft test for college students can be ignored by local boards under draft regul ations if the board so desires. Score of the student are provided as in formation for the board. board considers when it

Here are three things at a case of possible deferment for farming or other civilian activity (1) Is the man engaged, except fo a seasonal or temporary interruption, in the activity? (2) Can he be replaced by persons with his qualifications or skills? (3) Would his removal cause a material loss of effectiveness in the activity?

In the case of farmers or farm workers, the chief question asked is: Is he employed in the product ion for market of a substantial quantity of agricultural commod ities necessary to maintenance of national health, safety or interest? All such deferments are for limited periods.
