Cancer will strike one in every four Americans now living according to present rates.

Out of every six deaths from all causes in the nation, one is caused by cancer and about 700 Americans die of cancer every day.

Many could be saved if men and women would have a complete medical exam once a year.

## rites Read For Pioneer AND LOVED CITIZEN

Claude L. Tomlinson, 65, a long time resident of O'Donnell, died in the Lubbock Methodist Hospital Sunday night after suffering a heart attack Sunday afternoon at his home here. He was taken to the hospital shortly after the attack.

Funeral services were read Tuesday afternoon, April 9th at the O'Donnell Church of Christ at 3 with Carl Cain, local minister of the Church, reading the service. Burial followed in the local cemetery.

Mr. Tomlinson was a prominent and successful farmer here for the past 44 years moving here when the town was just being started. He was born March 14th, 1892 at Florence.

Survivors include his widow, his mother, Mrs. Molly Tomlinson of Lampasas, a son, E. L. Tomlinson, Jr., and a daughter, Mrs. Faye Hamblen of Longview, a sister Mrs. C. C. Cook of Albuquerque, two brothers, A. B. Tomlinson of Lampasas and Hugh Tomlinson of California.

Our good friend will be missed by everyone of this area as he was best described by his friendly and sincere personality. Claude was always interested in the better of his home town and the loss of his progressive inspiration is indeed a most drastic loss to the town.

The community extends most sincere sympathy to his sorrowing loved ones.

## OUR JUNIOR SENATOR

A light vote was cast in Lynn Co. as well as the state in the special senate election last Tuesday. Voting in Lynn totaled 1543 and the winner, Ralph Yarborough, carried all boxes except West Tahoka. He carried Big O 61 to Dies 46. County wide the GOP runner managed to get only 128 which was 100 more folks than the index knew.

The big friendly winner is a man of ability and without a doubt represent Texas capably in Washington. We were impressed by the high quality of his campaign speeches as compared to some of the other candidates. He has visited Big O three times in recent years and last spring spoke here when running for governor.

Mr. and Mrs. Warren Smith, Mrs. Ben Moore, Sr. and Mrs. G. C. Aten attended a Golden Wedding celebration in Stanton Sunday.

**FACTS GIVEN ON DIABETES**

Austin — Various educated guesses as to the number of "undiscovered" diabetes in the nation place the figure somewhere between one and two million. Undoubtedly a fair proportion of them are Texans.

Diabetes is a general systemic disease in which the body loses its ability to burn and store sugar normally. All starches in foods are converted in the stomach and intestines into sugar. As sugar they are absorbed into the blood and pass thru the liver into general circulation to all parts of the body.

Normally the gland called the pancreas produces a secretion called insulin which is also poured into the blood. In the presence of insulin the sugar of the blood is burned, especially by muscular activity. Any excess of sugar in the presence of a normal amount of insulin is temporarily stored, mostly in the liver, and released as needed into the blood. This is the normal pattern. But in a person suffering with diabetes, the pancreas fails to produce sufficient insulin. And when starches are eaten and absorbed as sugar, the body is unable to control the sugar normally by storing it in the liver or to burn it efficiently in muscle exercise. Result: the sugar content of the blood increases to abnormal levels.

Because the diabetic is unable to burn the sugar efficiently for energy he becomes weak and tired. His body needs nourishment and he therefore develops great hunger. But because he cannot utilize the starches, he uses up his own tissues and continues to lose weight.

When the blood sugar gets too high, the kidneys, in an effort to lower it, removes some of the sugar by excreting it in urine. This, in

turn makes the body dry and creates a thirst.

Proof of the hereditary nature of diabetes is the fact that surveys of diabetic children show that 80 per cent of families in which there is or has been diabetes. Also 20 fat persons develop the disease for every thin one who does.

**Principal Outlaws T-Shirts, Dungarees**

ROSELLE, N.Y. — Schoolboys should dress properly for an occasion and school is an occasion was the recent ruling of Albert S. Peeling, principal of the Abraham Clark school here.  
 He told the parent-teacher association that clothes may make the man but all types of clothing are not becoming to school boys.  
 He called upon parents to see that their sons were dressed properly. 'T' shirts and dungarees are all right for a job, he opined, but they are not appropriate for school attire. He made no criticism of the apparel of the girl students.

### This Week In Austin BY PRESTON SMITH

The ever present pressure groups of almost every legislature are not missing from the 55th.

In fact, recent years have seen new methods developed by these groups in their attempts to encourage action on bills favorable to their own purposes.

One of the current pressure groups working on the House and Senate is the representation of the municipal policemen and firemen. This group has presented a strong front by entering the legislative halls in goodly numbers, persistently plugging for the flood of wage, longevity and hour bills introduced in both the House and Senate.

Opposing these efforts on the part of the policemen and firemen is the League of Texas Municipalities. The cities claim that favorable response by the legislature to the bills would place the lawmakers in the position of dictating to home rule cities at the expense of city workers other than those who would benefit under the bills.

Harold R. Downs, president of the League of Texas Municipalities, has charged that legislative sponsors of the firemen and policemen bills are "setting themselves up as superduper city councilmen at a five million dollar annual expense to the taxpayers of 71 cities."
