The hydrangea plants in the front yard at the home of Mr. and Mrs. Barney Gibbs on West 2nd Street, has been very pretty this spring. These plants are found mostly in hot houses and flower shops, and sometimes do not grow well set out in yards, however this particular plant has done very well and blooms each year. The plants are on the north side of the Gibbs home. The flowers are pink in color and several small blossoms make up the large flower. They grow well in shaded areas, when the sun does not shine directly on the plant at all times.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Arrival at the mid way mark in the 30-day special legislative session touched off an explosion of activity in key areas of spending, taxation and liquor by the drink.

Both House and Senate passed versions of the 1969 budget and went to conference committee to work out differences.

House passed by a narrow margin (78 votes to 67) Gov. John Connally's bill to permit liquor by the drink sales in mini-bottles under taxation and strict regulation.

House Revenue and Tax Committee sent out for debate and full House action Connally's \$119 million tax package. This controversial measure hopefully will land in conference committee this week after amendments in both houses.

Representatives voted overwhelmingly for a \$474 million general revenue budget, senators for a \$479.7 million general funds appropriations measure. House version would require \$132.6 million in new revenue, Senate bill \$137.9 million. All phases of Connally's tax liquor by the drink legislation were designed to raise \$271.2 million, so additional revenue must be found.

House fought a bitter battle over the mini-bottle bill which was combined with proposals of a sub-committee for strengthening liquor laws. Tax on little bottles and increased fees will produce over \$8 million. An additional \$6.5 million would come from a gross receipts tax on private clubs, as called for in Connally's tax bill.

Margin on mini-bottles in the Senate is said to be even closer than in the House. Poll takers said 14 or 15 Senators would be counted as sure supporters.

A sales tax increase to three per cent is certain to figure in the final tax package. This whether the legislators vote a straight rate hike or goes along with Connally's plan to raise the rate and rebate 75 per cent of the take to cities (in lieu of their present local option sales tax levy). Connally also proposes to put sales tax on many services and cigarettes.

Mini-bottles bill would make one drink sized containers available in licensed hotels, clubs, restaurants, planes and trains. Sellers would have to do at least a third as much business in food sales as on liquor. Mini-bottles probably will be expensive, since they would carry a tax of about 10 and a half cents each. Sellers will have to pay the state permit fees ranging from \$500 in the smallest towns to \$1,250 in cities over 250,000. Furthermore, cities and counties can match the charge.

Bill also sets specifications for private clubs and raises fees, although it will allow managers and most other employees to issue guests cards to the drop-in trade and it authorizes credit card sales.

Legislation would further permit 16 year olds to sack beer in groceries and serve as busboys where mini-bottles are handled. It would outlaw gambling, increase punishment for permitting minors to buy or consume alcoholic beverages, raise beer dealers' license fees from \$30 to \$50, provide for faster sale of confiscated liquor by the state and make most of the Texas Liquor Control Board records available to public inspection.

Barring logjams the legislature has a fair chance of beating its deadline and winding up most business in a single special session.

GIN DUST — One of the defenses between the Senate and House is whether the Texas Air Control Board is going to be allowed to require cotton gins to put in dust-abatement devices. Senate voted to strike out a "rider," which would prohibit the board from spending money on activities connected with cotton gin. But the House voted

to keep it in, by a vote of 95-47.

However, the ginning industry has been working with the Board and has been doing research aimed at reducing the air pollution problem caused by gin operations.

**DRUNK TESTS ADVANCED** — A bill to require those suspected of driving while intoxicated to submit to breath and blood tests on penalty of having their licenses suspended has been approved by the House State Affairs Committee.

Legislation provides that a driver gives implied consent to undergo chemical testing to determine if he is drunk when charged with the offense.

Most other states have similar laws as required by the 1966 federal highway safety act.

Tests showing a blood content of one-tenth per cent alcohol by weight would be prima facie evidence of being under the influence of alcohol. Arresting officers would have to appear in court. Those with religious objections to blood drawing could take a breath test.

**DRAFT QUOTA CUT** — Texas draft quota for next month has been reduced by 266 men from June order to total of only 695.

However, State Selective Service headquarters reports that more than 5,300 will be called in for pre-induction physical and mental exams in July.

May call was 528 above the July figure, since additional manpower was needed for the Marine Corps. All July inductees will be for the Army.

**RURAL ROAD S** — That long-quiet farm to market roads fuss has come back to life.

Some city legislators are pushing a bill to do away with the \$15 million a year of general tax money which is being spent on rural roads. They want it spent on city streets. But their efforts have failed so far.

**TAVERN "MONOPOLY"** — Fort Worth Dist. Atty. Frank Coffey, testifying before a House committee on a bill to regulate vending machine companies under the Liquor Control Board, claimed a single coin machine concern controls hundreds of Texas taverns.

Coffey says 85 per cent of taverns in Ft. Worth owe money to the concern which operates under many names. He said the same conditions exist in most major cities. Vending machine chain, the district attorney testified, started with B&B Music Company in El Paso. Former LCB Administrator Coke Stevenson Jr. recommended regulation of the vending machine operators and that they be barred from the tavern business.

**COURT SPEAKS** — U. S. Supreme Court has granted a stay of mandate in a lawsuit testing the constitutionality of Texas disturbing the peace law.

Three-judge Federal Court last April declared the law "impermissibly and unconstitutionally broad." Top Court said it would allow the law to remain in effect until it passes on the question.

Texas Supreme Court ordered a Harris County district court to have a new trial on the lawsuit by R. L. Foree and other operators in Haskell County seeking damages from Crown Central Petroleum Corp.

Unusual in that the provision has never been used before is this suit for \$89,000 in damages from a pipeline company. Plaintiffs contend that they had to pay 11 cents a barrel to truck their oil to the pipeline over a period of five years. Law requires a common carrier to connect to leases of all operators in an area. Foree's case started in 1962, with a contention that Crown Central has discriminated against the group of independent operators in Haskell County.

Lower courts turned the independents down without a trial. But Chief Justice Robert W.

Calvert held that they were in error, and the high court ordered a full new trial on the merits. Plaintiffs' wells were connected up in 1964 after the cases were started, but the operators still are trying to get back their hauling money in the form of damages.

**APPOINTMENTS** — Governor Connally named Louis Henna of Round Rock to a new term on Texas Youth Council. He has served 15 years.

Connally also reappointed C. T. Parker, A. J. Farfel and Mrs. Gus Wortham of Houston to the University of Houston board of regents.

M. M. Jackson of Mexia was selected as president of Texas' branch of the National Association of Postal Supervisors.

Dr. Charles D. Barnett, deputy state commissioner for mental retardation has been named vice president of the National Association of Coordinators of State program for the Mentally Retarded.

**ATTACK PLAN** — Gov. John Connally has adopted an emergency-resources management plan for the state to be used in the event of an enemy attack.

Plan was developed by a special resources organizational coordinated by Maj. Gen. James E. Taylor.

Connally issued an executive order assigning responsibilities for carrying out the plan to state officials, agencies professional groups and private business institutions.

Overall coordination of activities under the plan is assigned to the director of the Department of Public Safety. Col. Wilson E. Speir, acting director of Texas Department of Public Safety, played a major role in its development.

Plan was financed through the federal Office of Emergency Planning.

**NATURAL FIBERS INDUSTRY** — State Agriculture Commissioner John C. White has released the results of an evaluation of the natural-fibers industry in Texas. Evaluation was ordered by a legislative committee to determine the impact of cotton, wool and mohair on the state economy.

Evaluation says that the three natural fibers — their growth on the farm and related agribusinesses of transporting, processing and distribution — are of "vital importance in maintaining a balanced agricultural production, effective land utilization and support of the rural economy of society in general."

Texas leads all states in the production of each of the three natural fibers.

**SHORT SNORTS** — State Banking Board received application for a new Bank of North Texas in Hurst.

Pasadena Savings Association wants a branch office in Deer Park and a hearing has been set for September 5.

U. S. Department of Agriculture reports South Texas crops fine, but cotton, sorghum and other crops in the High Plains have been wrecked by weather.

Texas Railroad Commission raised July oil production to 3,055,344 barrels a day, after getting reports that imports of oil have not been as high as was expected.

## UNION USUALS AND UNUSUALS

BY VEDA YARBROUGH

Hi neighbor! Hasn't this Sunday been real nice weatherwise? Wind nice and cool. I took a nap this afternoon and had to have coved. Think it has hailed somewhere as the wind was so cool. We had a little rain also.

Spending the weekend with Burette Ramsey were Mike and Stella Hughes and son Rusty and Mr. and Mrs. Don Ivy and little daughter Angela of Rankin. Having Sunday dinner with the Ramseys were the above mentioned and E. C. and Joan Collinsworth of Jacksboro. Johnny May Ramsey, who has been visiting in Dallas, Fort Worth and Jacksboro came home today.

Mrs. Clint McIntyre of Clyde visited a while Saturday afternoon with Roma and John McIntyre. Roma came to see me late Saturday afternoon.

Spending Saturday night and Sunday with Ollie Burnam were

James and Gayle Isenhower and children of Baird, Mrs. Glenn Burnam and Kevin of Hobbs, N. M. Lucille Kelley of Cisco spent a few days with Ollie last week. She went home Friday afternoon.

Mr. Leonard Alvey, John and Robert Dyer visited in San Angelo one day last week with Mrs. Leonard Alvey, who is in the Baptist Hospital there. She is doing fine.

Mr. Alvey visited with Burette Ramsey one evening last week. John McIntyre got his cotton here on my place plowed out and it looks real good.

It is hay cutting time now. The big job is getting someone to haul the hay and put it in the barn. There is enough of the nicest Johnson grass (if you can call it nice as bad as I hate it) growing on the roadside to feed a lot of cattle if it was cut and baled.

Burette Ramsey and I visited a while Saturday afternoon in Cisco with our sister, Faye Wood and Emmett.

I went down to the Ramseys a while Saturday afternoon to be with Stella and her family and see the little kids.

Good morning. It is just like fall, kinda foggy and misty and cool. I had to put an extra blanket on my bed last night.

We are glad to say Lula Isenhower is still doing pretty well. We are sorry to know Mrs. Fred Cook is back in the hospital in Abilene. We hope she gets better soon.

The cotton here west of my house was so little yesterday I could not see it cross-ways of the rows, but this morning it can be seen real good. I do believe it grew three or four inches last night.

Ollie Burnam is spending the day (Monday) with Gayle Isenhower and children in Baird. Guess I better get busy and work a little, so be good and I hope to see you next week.

## Gibson Reunion Held In Abilene

The children, grandchildren and great-grandchildren of the late Mr. and Mrs. J. J. Gibson met at Kirby Park in Abilene for a family reunion Sunday. Plans were made to make the reunion an annual affair on the 4th Sunday each year.

Those attending were Mrs. Ollie Burrow and Mr. and Mrs. Steve Tarrant, Clyde; Mr. and Mrs. Ross Farmer, Eula; Mr. and Mrs. Bob Christian and Sherry, Colorado City; Mr. and Mrs. J. T. Gibson, Denton Valley; Aubrey W. Gibson, Baird; Mrs. Thomas R. Mobb, Abilene; Mr. and Mrs. John Allen, Roy and Donna, Odessa; Mr. and Mrs. Granvil L. Pierce, Garland; Mr. and Mrs. Cecil Windham, Al and Connie, Mrs. Doug May, Jimmy and Christie, all of Clyde; Mr. and Mrs. Johnny Farmer, David and Tammi, Mr. and Mrs. Glynn Rae Gibson, Midland; Mrs. Janice Gibbs, Glen and Dana, Abilene; Betty and Judy Tarrant, Abilene; Rev. and Mrs. H. B. Terry and Homer of Abilene.

Visitors were Florence and Florida Phillips of Abilene.

One daughter of the late couple Mrs. T. J. Humphrey and family of Colorado City, were unable to attend.

**PUBLIC INVITED TO ATTEND OPEN INSTALLATION**

The public is invited to attend the open installation of officers for the Baird Masonic Lodge, Saturday, June 29, at 8 p.m. to be held in the Baird Masonic Lodge Hall 522.

## ROWDEN ROUNDUP

MRS. N. V. GIBBS

Ehlo, there to our friends in Rowden from Minnesota. Your reporter, along with her daughter Judy, her sister Mrs. Sterling Odum, aunts, Mrs. Faye White, Miss Anna Belle Tabor and Mrs. Jewel Swany of Clyde, are here visiting Mrs. Gibbs and Mrs. Odum's sister and family, Mrs. C. H. Gunderson.

It was a wonderful trip by car, starting Thursday morning. Our road map was nearly worn out, but didn't get lost but one time until reaching Minneapolis. Starting with Texas, green vegetation was everywhere, green pastures, green fields, and signs that it had been raining all along.

Through Oklahoma and Kansas we paid tolls to ride on the super-highways, but decided it was worth it after getting off on old narrow pavements.

In Texas coming to Wichita Falls, as most of you know, it is a lot of open country, houses are far apart on the highway. In Oklahoma and Texas you see lots of cattle and all the way up you would see dairy cattle mixed in.

You saw very little work in the fields, only grain harvesting along the way, until you got in to Missouri, Iowa and Minnesota, where corn, soy beans and oats were beautiful. It was our first time to see soy beans. Houses in that area are clustered everywhere. Big barns at every place, most of which were painted white. Rolling hills were in cultivation everywhere.

The household will be buzzing in a few minutes, with people everywhere, so your reporter got up early to write this column. Hope to see you next week.

Sight-seeing of the city is what we will do today, which we are looking forward to.

The household will be buzzing in a few minutes, with people everywhere, so your reporter got up early to write this column. Hope to see you next week.

## Mr. Farmer! Mr. Businessman!

### WE NEED YOUR HELP.

Cotton is by far the major income crop in the Rolling Plains, accounting for about 40% of total agricultural income. Annual sales average well over \$50 million. Processing, transportation, storage, and insurance provide additional millions. Farmers are the biggest users of gasoline, tires, machinery, fertilizers, insecticides, and credit. The majority of all citizens in this area directly or indirectly, depend on cotton for most of their income.

Rolling Plains Cotton Growers, Inc., is a local non-profit organization, chartered by the State of Texas, to promote the welfare and protect the interests of the cotton industry in the 32 county Rolling Plains area. Activities are carried out under the direction of a 64 man Board of Directors, 2 from each county, who serve without pay. The organization has been tremendously successful, and has earned State and National recognition.

RPCG depends on voluntary contributions for operating funds. Due to the short crop in 1967, income was reduced 25%. Costs are up. We must have additional funds to continue to represent this area.

Help your neighbors! Carry your share of the load! Mail your contribution today to Rolling Plains Cotton Growers, Box 1108, Stamford, Tex. 79553.
