O'Donnell, Lynn County Texas, Thursday Oct. 25 1945

\$1.50 Per Year

Funeral For Bill Davis Monday

Funeral services for Wm. W. Davis, 39, former Southwest telephone company employee who died suddenly of a heart attack in a Rowell hospital Friday afternoon at 2 p. m. at the First Baptist church at Lubbock.

Services were conducted by Dr. C. H. Overford, pastor of the church, assisted by Rev. J. M. Hale, pastor of the O'Donnell Baptist Church. Burial was in the Memorial Park cemetery.

Mr. Davis was employed by the telephone company in Lubbock about nine months ago when he was assumed and assumed management of the telephone exchange at O'Donnell. He suffered another attack several months ago.

Delights From Washington

By George Mahon

Pages make dry reading but I show the following will be of interest. A few days ago in the House, the recommendation of the appropriations committee, rescinded \$200 million dollars in appropriations - money which had heretofore been approved for war spending.

Money World War cost us \$16 billion dollars. Total expenditures for World War II, including the money spent on national defense prior to the war, will exceed three hundred and forty billion dollars. The amount of money recovered now as a result of the end of this war is twice as much as the cost of World War I.

Mr. and Mrs. Aden Smith of Amarillo spent Friday night visiting with Mr. and Mrs. M. B. Allen.

Mr. and Mrs. Harry Phillips are in New Orleans for the day where they will go thru the USS Mississippi on which Harry spent three and half years.

Mr. and Mrs. E. W. Hester of Lubbock visited Mr. and Mrs. E. W. Hester of Lubbock Wednesday.

METHODIST CHURCH NEWS

Miss Betty Jane McMurtrey is visiting her parents, Mr. and Mrs. E. W. McMurtrey. Betty Jane is working in California. She and Alton McMurtrey made a trip to Brownwood Tuesday.

Mr. and Mrs. Jesse Lane and Mrs. Grady Gantt of O'Donnell attended Parent's Day at Lubbock at Texas Tech Saturday. Staying for the Tech Baylor ball game Saturday. Doyle Lane and Bobby Gantt returned home with them for a short visit.

Mr. and Mrs. Clarence Cockerham and Mrs. Carl Cockerham and son visited Carl Cockerham who is stationed at Lubbock on Sunday.

County Agent Says:

Believe it or not, General Johnson grass is dead -- killed by Colonel Jack Frost. Temporarily, of course, since Johnson grass is a perennial and it will be back with us next spring. Although a lot of Johnson grass was permanently killed by the various methods used in the county-wide Johnson grass control program, Jack Frost found enough Johnson grass that there is no question but that we will have a big fight on our hands next year.

Cattle grubs collect a big toll in money from Texas farmers yearly. Grubs also take a heavy toll indirectly from non-farm people. This is in the form of meat which the grubs make unfit for eating. Paul Gregg, entomologist for the A and M College Extension Service estimates that grubs levy a tax of about five million dollars a year upon the Texas cattle growers. Here's the way he figures it. About 540 thousand of the two million Texas cattle slaughtered yearly are grubby and these animals are discounted an average of nearly four dollars each. This is the main item of loss. But the remainder of the five million is in damaged hides, a reduction of twenty five per cent in milk flow and greater expense in feeding stock afflicted by grubs.

The time has come to treat peach and plum trees for control of borers. In Lynn county trees should be treated as near Oct. 25th as possible. If gum withrasp or sawdust is noticed coming from a tree just below or above the ground the borer is at work.

Full control may be obtained by applying Foli crystals around a tree after removing weeds and grass for a distance of 15 inches from the trunk. Dosages are 1-2 oz. of crystals for a tree under 3 years of age, 3-4 oz. for a tree just coming into bearing; one oz. for a bearing or mature tree.

Pvt. L. D. Bingham, who has been receiving his basic training at Camp Lee, Va., is spending his furlough with his wife and other relatives. He was formerly employed by the Farmer's Co-Op.

Mr. and Mrs. Melvin Isaacs and family of Lubbock were week end visitors in O'Donnell.

Mr. and Mrs. Melvin Isaacs and family of Lubbock were week end visitors in O'Donnell.

to the spiritual uplift of the community. You will find a cordial welcome.

COTTON REPORT

There were 220 bales of cotton, counting round as half bales, ginned in Lynn County from the crop of 1945 prior to Oct. 1, 1945 as compared with 5,493 bales ginned to Oct. 1, 1944.

Pfc. J. R. Edwards left this week to return to camp at San Antonio after a forty five day furlough. He recently return from duty in Germany.

Mr and Mrs. Earl Curtis attended the football game at Lubbock Saturday night.

Wells News

Mrs. Hom & Simpson, reporter

The Sunday school Association met with the Wells Church Sunday afternoon from 3 to 5 p. m. A very nice program was presented by members of the O'Donnell Baptist church.

The banner was presented to the Wells church because they had the best grade the past month. Let's keep the good work going. Come each and every member and do your part.

The study course is now in progress in our church.

Arvis Grogan returned from a Lamesa hospital Sunday afternoon. His foot and leg will be in a cast for sometime due to an accident in the football game Friday night. He will be back in school in a week or so.

Miss Sarah Nelms is o. k. after an accident Friday night. She was hit by a car and has a few scratches. She was fortunate to escape serious injury.

Mr and Mrs. E. L. Lynn and Mr and Mrs. Kenneth Lynn of Post visited in the home of Mrs. W. A. Simpson Saturday. Mrs. Simpson returned home with them.

Mrs. J. W. Franklin's brother is visiting in her home this week.

Mr and Mrs. Blanton McLaure were honored Thursday afternoon with a shower given in the home of Mrs. W. J. Jordan by Mrs. Laleon Jordan, Vernie L. Simpson and Mrs. Homer Simpson. Mrs. McLaure received many nice gifts of a large variety.

Cake and punch were served to about thirty guests.

The County P. D. Club council met in Tahoka Saturday afternoon from two until 3:20. 1946 council officers were elected. Seven clubs out of ten were represented. Officers are: Chairman, Mrs. R. R. Ragan of Draw; vice-chairman, Mrs. J. W. Laury of New Home; Sec. Miss Ina Ledbetter of Wells; treas. Mrs. H. L. Webb of New Moore; Reporter, Mrs. Homer Simpson of Wells; Refresherment committee chairman, Mrs. Jones of Tahoka. Mrs. R. R. Ragan of Draw, Mrs. Hoover of Tahoka.

Recreation committee: Mrs. J. L. Webb of New Moore, Mrs. Jess Murphy, of New Moore, and Mrs. Homer Simpson. Council meets every 2nd Saturday of every month.

Miss Malva Grogan visited with relatives and in the home of her parents, Mr and Mrs. G. Grogan this past week.

Mr and Mrs. Halon Bolch made a business trip to Dallas Sunday and Monday of this week.

Mr and Mrs. Elmer LaGrone were down the past week on business. Miss Leola LaGrone came in Friday from Baylor U. at Waco to attend the game at Lubbock Sat. nite.

Miss Bobbie Barnes spent Saturday with Miss Mary Sue Franklin.

Mr and Mrs. Hubert Lonnie visited W. A. Simpson Friday nite.

Rev. W. F. Pool were in the Ackevy community on business Monday.

Mrs. Wade Adams is visiting relatives. Mr and Mrs. Hale of O'Donnell and Mr and Mrs. Durwood McMillon. Also her sister, Mrs. Aince Adams is spending this week with her mother, Mrs. Hale and relatives and friends.

Dick Franklin returned Saturday nite from a business trip east.

New Moore

(Ed. note: This week the Index is happy to add a new correspondent in the person of Mrs. Wilson, to our columns. She will report for our progressive community of New Moore. Together with Mesdames Simpson and Lane, she is authorized to accept NEW subscriptions.)

Mr and Mrs. Olan Blair are the proud parents of a baby boy born Oct. 9th in a Brownfield hospital.

Pfc. Floyd H. Wilson visited his brother, W. R. Wilson last week. Floyd was with General Mark Clark 5th Army for 27 months.

Mrs. G. H. Pendleton received word of the death of an aunt who lived in Ft. Worth.

School Carnival To Be Wednesday

This year the High School is giving a Halloween Carnival. Everyone is invited to attend. The carnival will be the night of Oct. 31st and will start at 7:00 p. m. in the high school building.

The classes will have different kinds of amusements and the money taken in by the classes will go to the football team. The classes are planning this carnival to be a great success and the amusement is of the nature that the public will be interested in. Each class will charge admission to the amusement features they will have for the public to try their skill as well as as haunted houses and a variety of eats.

The students of the high school wish that all who can possibly attend to be there and help make this a great success so that it will be an activity to look forward to each year.

The Seniors will have the Food Booth. On the committee are Billy Carl Gunter, Sam Goad and Carroll Shelton.

The Juniors will have bingo and penny pitching. On the committee are Eva Etter, John L. Everette, Zane Harris, Geno Jones and Durwood Sealy.

Sophomores will have the cake walk and doll throwing booth. On the committee are Person, Henley and Huffhines.

The Freshman class will have the spook house and fortune telling. Admission is 15c and 25c.

Boxing Card To Be Given

In connection with the school carnival the local Boy Scouts will stage a boxing card in the auditorium with matches between the Scouts, town boys, hi school students, tiny tots, and several negro matches. Leroy Waggoner stated.

The Church of Christ

ROM 16:16 Salutes You

Rom. 16:16: "Salute one another with an holy kiss. The churches of Christ salute you." Paul uses the word "churches" the plural of the singular, Paul wrote the Romans later in 58 A. D. and as he speaks of the churches of Christ, not thinking or writing of any certain or particular sect. It is agreed that the church of Christ existed at that time. The time that Paul was writing this letter was just 25 years after the establishment of the church on the first Pentecost after the resurrection of Christ as recorded in Acts 2. Now, my friends, I want to give you some facts to consider: (1) The Lutheran church was founded by Martin Luther, not Christ, about the year of 1521, instead of A. D. 33. (2) The Presbyterian church was founded by John Calvin, not Christ, in 1536 instead of A. D. 33. (3) The Baptist church was founded by a Mr. John Smyth, not Christ, in 1607. (4) The Methodist church was founded by John Wesley, not Christ, in 1738 and not in A. D. 33. There are some 256 different and distinct religious bodies in the United States at this time. ONE God or church of the 256 was begun by Christ and the others were begun by men like the above mentioned, at the wrong time and the wrong place to be the church recorded in the New Testament. Now you can plainly see that Paul knew nothing about the Methodist church, the Baptist, the Lutheran or any other religious body when he was writing the letter to the Romans. My friends let me URGE you to turn to your New Testament and STUDY for yourself to see whether these things are so. As you study your New Testament you will NEVER find any church history recorded other than the history of the church of the Son of God, Jesus says it is vain worship when we follow the commandments of men, Matt. 15: 7-9. He further states in the same chapter and verse thirteen, "Every plant which my heavenly Father planted not, shall be rooted up." My eternity bound friend, will you please study the things mentioned in this article? Will you accept what the New Testament teaches are the doctrines of men? I realize the lost condition of the world; there is just one thing that can change the condition, an dthat is men and women obeying the WORD of God, Jesus "became unto all them that obey him the author of eternal salvation. He said except we believe in him, we shall die in our sins, Jno. 5:21. Have YOU believed? He said, unless we repent we will perish, Lk 13:3. God commands repentance, Acts 17: 30. Have YOU obeyed him? Jesus said, "He that believes and is baptized shall be saved, Mk. 16:16. Have YOU obeyed him that you might enjoy the promise of salvation, Peter in Acts 10:47-48 said "Can any man forbid the water, that these should not be baptized, who have received the Holy Spirit as well as we?" and he commanded them to be baptized in the name of Jesus Christ." This is the same Peter that instructed the people in Acts 2 to be baptized for the remission of sins, Acts 2:38. Read also Acts 8:26-39. These INSPIRED men taught that baptism in water was for the remission of sins. "So then am I become your enemy, by telling you the truth? We love your soul and invite you to come study with us at any time. I will be happy to come into your home and study the scriptures with you. Garnie Atkinson, minister. PAID ADV.

Victory Bond Drive Opens Monday

Indians Drop Eagles 45 to 6

Last Friday nite a large football crowd turned out to witness the Eagles defeat at the hands of the Seminole Indians by a score of 45 to six. The Indians kicked off and the Eagles fumbled the ball and the Indians recovered. Following the Eagles got the ball on about the 5 yard line from the visitor's goal line. The Eagles kicked the ball to about the 50 yd. line and after several good plays the Indians made the touchdown and failed to make the extra point. Following several exchanges of the ball between the two teams the Indians kicked the ball and recovered, making the end of quarter.

Immediately after the start of the second quarter Seminole score pay dirt but did not kick the goal making the score 12 to 6.

Seminole kicked and the Eagles made a good run-back. Following the Indians got the ball on the 50 yard line and after a few good plays they hit pay dirt and kicked the goal making the score 19 to 6. Seminole kicked off and again the Eagles made a good run-back. After a duel of exchanges with the ball Seminole completed a pass with a 45 yd. run to mark up another touchdown and kicked the goal with the half ending.

The O'Donnell pep squad featured an Indian dance around a camp fire with the squad singing. They formed the letters O and S. Everyone enjoyed this excellent performance by the pep squad which is under the direction of Miss Heath.

In the second half Seminole made two trips to the goal line with Bob Clark making the lone score for the Eagles on a pass. There were several injuries on the local's team. Arves Grogan received a fractured bone in a foot. (Note: due to both teams having the same colored suits the Eagles wore plain white jerseys with no numbers. As a result few names are mentioned because of difficulty in identification.) --Eagle Sports Ed.

NOTICE TO BIDDERS

Bids will be received and opened by the Commissioner's Court of Lynn County, Texas, at the Court House in Tahoka, Texas, until 10 o'clock a. m. on November 12, 1945, for the purchase of one Motor Grader powered with approximately 50 horse power Deisel motor and 16" x 16" 1900 by 24 tires on rear and 750 by 24 rib tread tires on front to be paid for in cash. The right is reserved to reject any and all bids. Tom Gaillard, County Judge, Lynn County, Texas. 2c.

Pete Anderson of the Army is enroute home here from Tokyo after 27 months overseas. His wife lives here.

Pvt. Reuben Munsun and wife have been visiting the James Mott family here. They returned to camp at Weida, Kansas this week.

We Have a complete line of -- AUTO AERIALS -- VIBRATORS -- CONFENSERS -- AERIAL WIRE -- PILOT LIGHTS

We also install aerials on cars as well as home aerials

All service is guaranteed

GOOD STOCK OF SCARCE TUBES

G. & B. Radio Service

James Fletcher left Tuesday for Lubbock enroute to El Paso where he has accepted a position in a large market there. His wife and family will remain here for the time.

Max Harris of the Army is home visiting his parents. He is stationed in a hospital where he is recovering from wounds.

Nolan Hall returned home from duty overseas with a discharge. Welcome home, Nolan.

Richard "Dick" Tune is quite ill at a Lamesa hospital. The exact nature of Dick's illness was not known early this week. He lives at Lamesa where he is in business.

John Shaw is ill in a Lubbock hospital.

Bud Ballew is now living at Guim on Okla. where he is employed by a telephone company.

Pfe. and Mrs. Floyd B. Myers visited Mrs. Myers' parents, the Harvey McKee's last week. Floyd's brother, who is overseas, recently visited the cemetery where Harvey Lee was laid to rest. He hopes to send home some photographs of the grave soon.

Harlan Hall of Dallas and Junior McGarty of Greenville visited Mrs. S. C. Durham and Mr. and Mrs. Homer Durham last week. They have recently been discharged from the army.

\$297 Million Is State Quota

The Victory Bond Drive will open for the O'Donnell trade area Monday morning, Oct. 29 and will extend to Dec. 8th. Trust Smith is the County chairman of the drive and he will soon announce the local chairman.

Your government needs the money to bring our boys back home, care for the sick and wounded, maintain the armies of occupation until order is restored, to make prompt settlement of war contracts and for other useful purposes.

The Victory Loan bonds you buy will help protect your future, to meet any emergencies, to educate your children, to buy a home and to provide your own retirement fund.

In Victory we know our community will do as well as they have done in the past seven drives.

A 30 degree temperature reading early Monday morning accompanied by a killing frost caused about a 50 per cent kill to feed crops here. Brisk winds and a hard sand storm preceded the cold snap.

M-Sgt. James W. Gates, son of Mr and Mrs. James W. Gates, arrived home last Thursday after being stationed in England for four years as chief of a plane repair crew.

Mr and Mrs. Joe Brewer and Mr and Mrs. Marvin Simmons went to San Antonio last week to meet M-Sgt. Woodrow Brewer who arrived there after five years of service overseas. He will receive a discharge. Welcome home, Woodrow.

Mr and Mrs. Harry Clemage returned Friday after a visit in Kansas City to see their son. He will be here shortly.

The Ace Hi Bridge Club was entertained by Miss Lometa Robinson Thursday nite in the home of her parents. High score was won by Mrs. J. L. Adams, low score by Mrs. J. W. Gardenhire and bingo by Mrs. Burley Brewer. Refreshments consisting of tuna sandwiches, potato chips, olives and pineapple juice were served members and guests.

Mrs. John Shaw returned from a Lamesa hospital Tuesday.

Mesdames J. A. Edwards, R. C. Carroll, Ed. Goddard, Pose Mansell, Dick Lumpkin visited with Mrs. Chuck Blocker at the Lubbock Memorial hospital Tuesday. She is improving nicely.

Mrs. H. G. Gantt visited in Lubbock Saturday.

Mrs. Margaret Ginnotti of Artesia, N. M. visited Mr and Mrs. J. L. Nowlin Sunday.

Mrs. J. D. Stuart of Brashear returned home Monday after being at the bedside of her sister, Mrs. Chuck Blocker.

Mr and Mrs. Dean Wartham visited Mr and Mrs. C. D. Pickets Saturday nite enroute to their home in DeKalb.

Mr and Mrs. Levi Noble left last week to make their home in Dallas.

Mr and Mrs. N. B. Stokes baby had a tonsillectomy at a Lubbock hospital Tuesday.

Mr and Mrs. M. F. Ballew have returned from Lubbock where Mr. Ballew received treatment.

NEW PASTOR HERE

O'Donnell welcomes the Rev. C. C. Calhoun and family of Capitan, N. M. as the new pastor of the Church of the Nazarene. They have two children, ages two and four. Rev. Calhoun comes to our community well recommended.

DAVIS HOME

J. B. Davis, who was seriously wounded in a hunting accident several weeks ago, was returned home Monday. We understand that J. B. is on the road to recovery.

The Barnett family here has received word that their son, Clifford, was enroute home from the Pacific.

G. C. Smith, son of the former owner of the Lamesa "Reporter", is here visiting the Robert Burdett family. G. O. has recently been discharged from the army. Welcome home, G. O.

Mr and Mrs. Ben Cathey of Lubbock visited the Chas. Cathey family last Friday.

Lt. Clifford Lambert called his folks, the A. C. Lamberts, over the week end saying he had arrived at San Diego and was enroute home. Cliff has seen all smiles this week; and little wonder!

Cpl. Moody Gibson has arrived at a New York port enroute home after a long tour of duty in the European Theatre.

Mrs. Dick Lumpkin received word from her husband this week that he was in Seattle, Washington enroute home. He is in the Seabees and formerly was in the ranching business.

Dan Blocker and Hal Siskleton, Jr. of San Antonio spent the week end at home.

Joe McLaurin and wife of Hollywood, N. M. visited in O'Donnell over the week end.

Bobbie Proctor, who is attending school at Ft. Worth spent the week end with the Joe Proctor family.

1st Lt. Robert J. Gregory arrived home last week end and is visiting his wife and the Turner family here.

A. C. Lambert recently built a 12 ft. by 30 ft. garage at his home.

Women Baseball Fans Go All Out With Cheers and Boos

Ladies' Day Brings Out Enthusiastic Crowd Who Know Fine Points of Game

Because it isn't in the nature of a woman to resist a bargain, Ladies' Day in the nation's ball parks is an event that rivals the World Series in attendance. We can imagine the deep sighs heaved by diamond impressarios who survey the packed stands and bleachers and murmur, "If only they were paying." For the clubs do not profit from Ladies' Day. When the distaff side comes out to honor the national pastime with its patronage, the ladies pay only the entertainment tax demanded on such occasions by Uncle Sam and the state, plus a small service charge.

As the grand march starts to parade through the turnstiles on Ladies' Day, toddlers of pre-school age mingle with the bobby socks generation and their grandmothers. There used to be a time when few of the patronesses on this occasion knew much about what was happening on the diamond. But nowadays, they are experts, and as unrestrained in voicing their opinions of the playing and players as the male fans. There are no more Mesdames DeFarge who calmly count their knits and purts while the diamond goes mad with frenzy and tension. They are as vociferous in urging a violent demise for the umpire as in exhorting the runner to make home plate — if he is running for their favorite team. And the "razzberries" are equally heartfelt and dining.

The accompanying candid photographs reveal the depths to which the national sport has embedded itself in the hearts of the fair fans at a recent game on Ladies' Day at Yankee stadium.

"Come o-o-on!" Nothing phlegmatic about these young fans. A possible home run pulls them out of their seats, and a successful slide to home plate practically starts a jive session right in the bleachers.

Area in Danger of Drouth Can Be Forewarned by New Forecasting Method

Farmers may look forward to keeping "one jump" ahead of the weather, if U. S. department of agriculture studies can be given practical application. Knowing when drouth would come to a specified area, as well as other weather hazards, could have an important influence on U. S. farm production, it is pointed out, since the possibility of annual crop loss would be greatly lessened.

A Complex Method.

Government researchers have developed a statistical method of gauging the probable occurrence of drouth in any locality in the United States at any time of the year. Too complex for use except by scientists, the method produces information that may be used by agronomists and others for the farmer's benefit, in adapting soil and water conservation work, as well as other farm activities, to weather conditions. Charts might even be prepared for individual farmers to show the probability of weather hazards in their localities for virtually every day of the year.

Because the information obtained shows when sequences of dry or rainy days are most likely to occur, it can be valuable in checking day to day weather forecasts and in long range planning as well, it is pointed out. The knowledge can be used, for instance, in planning terrace construction programs for periods when rain is least likely to

cause erosion of unfinished embankments; or in extensive seedings of grass, for selecting a planting time when a killing drouth is least apt to occur during the period needed for germination of the seed. Agricultural workers probably will evolve many other practical uses for the material provided by the study.

Probability Tables Used.

Applying to drouth the theory of probability used by insurance authorities in deriving life expectancy

tables, climatologists and other scientists now have a technique that also can be employed to discover probable occurrences of other climatic hazards such as intensities of rainfall and extremes of temperature. Drouth was selected for trying out this method because drouth data already has been compiled and tabulated, from weather bureau records of 1898 to 1937, for stations representing every climatic area of the continental United States.

N. Africa Offers Chance for Development of Brisk Trade to U. S. Commercial Interests

Morocco, Algeria and Tunisia, where American G.I.s began their Victory march in 1942-43, are expected for several reasons to loom larger in American post-war foreign trade.

Before the present war French North Africa was part and parcel of French economy, and the mother country cornered the lion's share, says the National Geographic society. Recent studies of French industrial production in the light of war damage, however, indicate that the bulk of North African needs for the remainder of 1945, 1946 and probably 1947 will have to come from the United States.

In the next six months, North Africa, bled by two years of Axis exploitation, will require imports, exclusive of wheat shipments, estimated at more than \$100,000,000. The "Maghreb," as the Arabs call French North Africa, normally enjoys a substantial wheat surplus, but drouth has produced four successive crop failures. Arrangements are in progress whereby the U. S. farmer will provide North Africa with 2,500,000 tons of wheat during the next 12 months. The French plan to pay cash for the wheat out of their limited foreign exchange reserves, a sacrifice which emphasizes the importance they attach to keeping these restive lands well fed.

French North Africa has been called "a museum of minerals," a

fact of importance to the United States because this region contains many subsoil deposits lacking or near exhaustion in this country. The Maghreb yields one-third of the world's supply of phosphate. There are also important deposits of copper, lead, zinc, manganese, antimony, mercury, iron, molybdenum and coal. Vast areas of North Africa, especially Morocco, have not yet been carefully prospected, and expectations are that new deposits of some or all of these metals will add to the "museum's" store.

French North Africa covers an area of over a million square miles — roughly twice the area of Alaska — with a population now estimated at 20,000,000 people, mostly Arabs, native Berbers, and Jews, with a small minority of Europeans. Geographically the region is akin to the Mediterranean lands of southern Europe. The three countries are much alike in physical features, and the north-south boundaries are marked lines unmarked by natural barriers. All are bounded on the south by the wastes of the Sahara and on the north by the Mediterranean sea.

Geography has marked North Africa into three east-west zones. Along the coast, where American marines fought the Barbary pirates 140 years ago, stretches the Tell, a belt of fertile slopes, and occasional alluvial plains, where citrus fruit, grapes, olives and cereals grow in

"GAY GADGETS"

Associated Newspapers—WNU Features.

By NANCY PEPPER
FUNNY BUSINESS

Do you know how many of your own tricks for teens are actually converted into big business? Too bad you can't claim royalties on them. Every time you introduce a new fad there's a smart manufacturer waiting to turn it into a fashion. Stand up and take a bow for these brain storms that were whacky enough to be put to work.

Jabberwocky Fashions — You've been writing Jabberwocky and autographs all over your station-wagon coats for years now, haven't you? Well, you inspired the very successful "Alive with Jive" coat with a lining printed in a design of Jabberwocky and names. Then, you've been embroidering Jabberwocky across your velvet headbands, haven't you? Along comes the Jabberwocky Bandleader—a hair band with assorted slang-words embroidered across the top. Aren't they the copy cats?

S.W.A.K.—You teen-agers started the fad for imprinting lipstick lip-tographs on your envelope flaps. Now you can buy boxes of lip-shaped, red paper stickers with gummed backs, all ready to stick on the back of your important letters.

Stop and Go—We reported that you were fastening bicycle reflectors to the backs of your belts and, before you could say "Tom Drake," there was a ready-made leather belt with red and green reflectors across the back. You'll find it at your favorite Gadgerteria.

DAFFYNITIONS

Palate Plush—A super-goopy concoction at the Soda Fountain.

Dope Fiend—A gossip.

Drug Addict—A guy who hangs around the Marble Slab.

Hi, Ping—How's the Pong?—That's how you greet a half of any "steady" team.

Hi, Candle, Who Blew You Out?—A new way of saying "Hello."

Don't Be Hasty, Padding—Don't get angry.

PARTY PATTY

Here are some iron tricks to make your next get-together a neat and reel meet.

Mother-and-Daughter Teas—It's a new fad throughout the country. One girl invites her best friends AND their mothers to an afternoon tea. If you're serving Iced Tea, be sure to read the easy-to-follow instructions in the cook book.

Clang, Clang, Clang—We can't guarantee that you'll meet Tom Drake on the way, but Trolley parties are going full speed these days. At the End of the Line, there's a picnic.

Fire Alarm—A Fire party is Hot Stuff. You send out your invitations on brown paper with burned edges, telling guests to come to the party exactly as they were dressed when they received the invitation. Anything can happen from Pajamas to bath towels. All the guests are instructed to bring their most precious possessions, which are auctioned off for war stamps later in the evening. You get some Prize Packages with this gag.

abundance. Behind the Tell, ranges of the Atlas mountains, reaching 14,000 feet in some places, roughly parallel the Mediterranean coast. In the southern reaches of the mountains is a high and somewhat arid tableland, where nomad natives tend large flocks of sheep and goats. Farther south are limitless stretches of desert and wasteland with isolated oases, where dates are the principal product.

Dry in Summer.

The climate of the northernmost belt is not unlike that of southern California. There is fairly abundant rainfall along the coast and on the seaward slopes of the mountains, but little rain in the summer. No rivers of economic importance flow through French North Africa.

Normally, prewar trade between France's North African lands and the United States was comparatively small. From 1937 to 1939 exports to the Maghreb averaged under \$3,000,000 a year, while imports averaged under \$6,000,000. American exporters sent chiefly tobacco and cigarettes, lubricating oil and grease, refrigerators and parts, and farm machinery. Americans bought in exchange sausage casings, skins and furs, leather goods from Morocco, olive oil (both edible and for soap), gums and aromatic oils and cork. Manganese imports from North Africa began shortly after the historic Anglo-American invasion of the region toward the end of 1942.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for October 28

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

TEMPERANCE BEGINS AT HOME

LESSON TEXT—II Timothy 1:1-6; 3:14-15; Titus 2:1-4, 11, 12.

GOLDEN TEXT—As for me and my house, we will serve the Lord.—Joshua 24: 15.

The influence of the home on the character of a child is the strongest factor in the development of high and holy standards in the life of the man and woman. "Train up a child in the way he should go; and when he is old, he will not depart from it" (Prov. 22:6).

Emphasis is placed on temperance in our lesson, and it is clear that in the home real temperance principles may be built into the thinking of boys and girls. It is not easy for a young person who has been brought up right on this matter to go astray, no matter how severe the temptation.

I. Our Family Is God's Gift (II Tim. 1:1-5).

Paul, the apostle of Christ, addressed his son in the faith, Timothy, with affection and appreciation. He knew the good which was in this fine young man and saw the possibilities for service for God.

He knew that as the background of that faith, there was a godly line of that faith, those with an "unfeigned faith." This young man, so precious to Paul and so successful in the ministry, owed a deep and abiding debt of gratitude to these godly women who had directed his steps aright, who had instructed and encouraged him in the right way.

Let those who are young recognize parents and grandparents who admonish and instruct them as God's gift. Let them not regard them as those who would restrict or restrain them unduly, but who for their own good and the glory of the Lord teach them the way to God.

II. Our Faith in God's Guidance (II Tim. 1:6; 3:14, 15).

The gift of God for preaching which Timothy had was recognized by the church, and he was sent forth to proclaim the gospel. But alas! the burdens of life and the pressure of service cause a man to forget or neglect his calling so there comes often the need of stirring up the gift of the Lord.

We use it. He will bless us as we give it to its fullest possible extent. He wants us too, to stir it up — this blessed, divine gift and calling.

The admonition (v. 14) is to "continue" in that which was learned, to remain true to the Word of God. We show our faith in His guiding hand, as we resist by His grace, the ever-present temptation to get away from the only true foundation of a life of usefulness and joy.

What we have learned as children we should hold fast in spite of all the devices of Satan and every weakness of the flesh. Stand fast in the faith!

III. Our Fellowship in God's Gospel (Titus 2:1-4).

Old and young are to be united in a great communion of believers proclaiming the gospel of God's grace by a living testimony, by a life devoted to the things of God.

Sound doctrine is the only source of sound living. To be "sound" means to be healthy, vigorous, free from defects, suited to a purpose. That means that every day Christian living must express the vigorous soundness of the gospel.

Men and women are to be "temperate," not given to excess, and particularly in mind here is the use of intoxicants. To be temperate in such a day and land as ours can mean only one thing, and that is to abstain altogether. Christians ought to keep entirely away from intoxicants, and that includes beer and wine.

There is a positive side to the admonition, for soundness of life and faith shows itself in holy living, love, patience, the teaching of God's Word, and in fine fellowship among the people of God. We need to stress that side of the teaching of this passage.

IV. Our Faithfulness by God's Grace (vv. 11, 12).

God's grace has brought salvation to man through Jesus Christ and His atoning death on the cross. That grace calls for and calls forth from the believer a renouncing of that which is ungodly and lustful (and you can put intoxicants right in there!) and a determination to live right in faithful devotion to God.

That brings about right relationships to self, to others, and to God. The Christian is sober and self-controlled as to anything which could "intoxicate" him, whether it be liquor, or lust, or pride, or any other such thing. He also shows that grace of God before men in a life of righteousness. Then he finds his true place in a reverent devotion to God which makes him a worshiper "in spirit and in truth; for the Father seeketh such to worship him" (John 4:23).

Faithfulness to our Lord will count more than our words in the great battle against temperance. Let us stand true to Him and keep our witness clear and strong!

One Way to Exit With Uncle Sam Is Devised

SEDALIA, MO. — An exhibitor at the state fair here has been operating on a sort of "pay as you exit" plan . . . and he says it pays him, too. Patrons are asked to leave a "silvite donation." Which prompted a customer to opine that it seemed like good psychology. "Psychology aint!" replied the showman. "This way I don't have to pay any federal amusement tax."

Unconscious, Pecked to Death by Unfed Chicks

PUEBLO, COLO. — A flock of unfed chickens that attacked the unconscious body of their owner were blamed recently for a woman's death. Deputy Coroner H. Elwyn Davis said Mrs. Elizabeth Marie Craven, 63, was found lying unconscious on her kitchen floor with swarms of chickens pecking at her face and eyes. She died two hours after she was admitted to St. Mary's hospital.

Texas Law Halts Touring Sailors in Texan's Car

CORPUS CHRISTI, TEXAS.—Texas law fenced in two Swedish sailors with a yen to see Texas—in a Texan's car.

The sailors admitted stealing two automobiles between Steing and Beville. After the first car ran out of gas, they stole a second one. It was left in Beville, and the Swedish adventurers were found while attempting to see more of Texas via thumb.

Ocean Going Airfield Tried Out During War

LONDON. — Floating airfields in the middle of the ocean have been "tried out with success" during the war, the Observer said.

"Since the first one was built by British and American design by Americans fairly early in the war we have made several more on what is considered an improved pattern," the article said.

Location of the experiments is still secret.

Bomb Plant Called Absolutely Safe

OAK RIDGE, TENN.—There is absolutely no danger of an atomic explosion at Clinton Engineer Works, Col. Kenneth D. Nichols, commanding officer, said. "Although these plants are the main units for production of atomic bombs, adequate safeguards make an atomic explosion impossible," he said.

NEW MOORE H. D. CLUB

The New Moore Home Demonstration Club met Oct. 17 with Mrs. Sheppard. Those present were Mesdames L. A. Light, Sr., Cooley, Jesse Murphrey, J. F. Johnson, Jr., G. H. Pendleton, Jack C. J. Falls, Sr., Miss Opal Sheppard and the hostess, Mrs. Sheppard. Mrs. Jesse Murphrey planned the games which were enjoyed by all.

Mrs. McDonald gave her annual report on canning. The club will meet next month with Mrs. C. J. Johnson. The demonstration will be on making cheese and milk soap as well as grading eggs.

The club will meet on the second Sunday instead of the third Wednesday. —Reporter.

Meet A Teacher

Lois Parker Coston was born in Durant, Okla. She has attended school at East Texas State Teachers College. She has taught at Oklahoma, Lamar Co., Texas and is now history teacher in the O'Donnell HI School where she has taught three years.

Her favorite color is blue; song: "Sweet Genevieve"; flower: Sweet-pea.

A horned toad isn't a toad but a lizard.

A white ant isn't an ant but is a termite.

A silkworm isn't a worm but the larva of a moth or butterfly.

Freedom

Individual liberty is one of the teachings of Jesus. It goes hand-in-hand with personal responsibility. How can a man be held responsible for his acts unless he is free to determine how he shall act? The understanding that certain rights are everybody's rights, and that no man can rightly deprive another man of them, is an idea for which the world is indebted to Christianity.

Compulsion in religion is older than history. Every nation's lore is colored with tales of forced worship. In fact, the history of Christianity is marred with a shameful record of coercion. Just the same, obedience to Christ is voluntary or it is not obedience at all, and (being an every-day thing) Christianity lives and grows best in surroundings of personal liberty.

A Moral Duty

Opposing dictatorship, resisting infringement by a few upon the liberties of many, is a reverent act of fidelity to the source of all freedom. No government is perfect; no economic system is perfect. For that matter, no church is perfect. All are subject, more or less, to leadership by imperfect people. Nevertheless some principles are right and worthy of vigorous defense.

Harry Emerson Fosdick said, "One of the great hours in history struck when mankind ran into the idea that all the people should unite in making laws, which then all the people should obey. Behind our pitifully fallible experiments with representative government stands the ideal, worth everything our fathers gave for it and all that we can give—the democratic state."

Godless Laws

One-man governments traditionally become jealous of their subjects' loyalty to God; covetous too, perhaps, of their free-will offerings, large or small. Rarely do totalitarian states begin at the church when they start cutting off people's liberties. They get around to it in the long-run, however. There are about enough exceptions on record to prove the rule.

Dictators usually start their trespasses on freedom by presuming to say who shall engage in trade. It is the natural way to commence. Never do they find a large class in commercial pursuits, so they can begin grabbing power without antagonizing a majority. The next big strategy is to dominate the news. By this method a dictator can make his people think what he pleases.

Step at a Time

With buying and selling pinched under government's heel, one emergency follows another, accidentally or by design; either way serves the purpose. Consumers, the class most hurt by government in business, never learn the truth if press and radio are under control. Scissoring rulers snatch away comforts and dole out confusion and suspicion, the chains of serfdom.

Traditionally tyrants work this way: it has happened all along through history. After business is confiscated and the news agencies seized, the people are poisoned with malice, and malice destroys living souls. Americans who value their religious liberty have no choice but to defend representative government, free enterprise, free speech and free press. They can fight on the front line and win, or wait to fight in the last trench and lose.

Sharp Characters Act At Ease With Others

WHY is a sharp character sharp and why is a sad sack sad? Why do some guys and girls seem at ease with others? Why do others with just as many assets seem to be beating their brains out trying to decide what to do with their hands?

It's all a matter of learning to control your outward actions, no matter how awkward you feel, says Holly Miller, whose column in nationally circulated Capper's Farmer is a popular feature among 'teen age boys and girls as well as their elders.

"The smoother you act, the smoother you feel," she counsels. "To be well-groomed may cost you an effort, but don't let it show. Mend your clothes by midnight oil, get up at dawn to press your suit, spend half an hour before your mirror getting your make-up right—if you must. Then forget your appearance."

"Boys, that means no fussing with ties and trying to make a crease where there should be one. Girls, that means no peaking in mirrors, no potting your hair, no pulling of clothes and straightening of stocking seams."

Among Miss Miller's suggestions for cultivating poise and ease are: Stand up straight; Look 'em straight in the eye; Avoid mannerisms; Don't talk with your hands.

"Beat your gums—but not so loud," she advises. "A shrill, loud voice is curdling to the spirit. On that same subject, resounding giggles and horselaughs are strictly for the birds."

Pad for Baby's Play Pen

An economical, soft padding may be made for the baby's play pen with an old piece of bed padding, according to the Home Editor of nationally circulated Capper's Farmer. Cut this the size of the pen and cover with durable blue denim. Bind the edges together with red binding.

Two spices, mace and nutmeg are obtained from the same tree.

Eight stars comprise the Great Dipper.

To the People of this Community

Thanksgiving is in the air. The spirit of the Good Provider hugs you warmly. What better time or reason to buy another extra Victory Bond, the good provider of the future? As you sit around the festive table this year, first year of world peace since 1939, remember the millions of men and women still in uniform in strange lands. In Germany about 2,500,000 Americans will be separated on this family holiday from fathers, mothers, brothers, sisters, wives, sweethearts and children. Every extra Victory Bond is a link between home and the Tokyo or Berlin patrol.

There's self-interest in your purchase of any extra bond today but there's service to your country too. You have most to gain by ownership of as many Victory Bonds as you can possibly buy. You guarantee yourself a better chance for personal peace and prosperity. You also help your government to pay the war costs and return home of men and women who will be badly missed Thanksgiving Day in your own home and your neighbor's home.

ARE YOU Prepared for the "subliminal invasion" of your home or your business by fire?

Your best "campaign" against loss is to place sufficient fire insurance on your property so that you will be reimbursed for any loss.

WEEKLY NEWS ANALYSIS

Settlement of Oil Workers' Pay May Set Reconversion Pattern; Ease Curbs on Consumer Credit

Released by Western Newspaper Union

Their guns taken away, Jap naval shore patrolmen walk streets with wooden staves to maintain order among disarmed sailors in Tokyo.

LABOR: U. S. Acts

Acting energetically, Secretary of Labor Lewis Schwellenbach took the all-important oil workers' wage dispute virtually in his own hands by transferring negotiations to Washington, D. C., in an effort to effect a settlement that was expected to set a pattern for the reconversion period.

With the Oil Workers' union demand for a 30 per cent wage increase embodying the program of other powerful CIO organizations, and with the oil companies' offer of a 15 per cent boost representing the usual compromise, final disposition of the case would go far toward determining the amount of "take-home" pay for employees during the ensuing months.

Schwellenbach's decision to shift the parley to Washington, D. C., from Chicago, Ill., followed upon an early deadline in the bargaining over the union's insistence that the dispute be settled on an industry-wide basis and the companies' stand that contracts should be signed by individual plants.

Meanwhile, over 1,500,000 persons were affected by the strike of AFL elevator operators and building service employees in New York, with business losses running over \$1,000,000 a day and production of winter and summer garments virtually stopped. Balking at a war labor board award of \$23.58 for a 44 hour week, the union asked \$30.15 for a 40 hour week.

JAPAN:

Historic Precedent

September 27, 1945, went down in history as the red-letter day on which a Japanese emperor, unbending himself in defeat, made a personal call upon a victorious U. S. commander to break all precedent.

Hirohito, to his people, small, wiry God to, in formal morning clothes and high silk top hat, was very much man to Gen. Douglas MacArthur, who, steeped in occupational duties, met him in informal military attire and without a tie.

Motoring to the American embassy in Tokyo for the visit, Hirohito made his call just as MacArthur set about shaping plans for the re-education of the Japanese people and stripping Nippon of all its war-making potentialities by an economic reformation.

In recasting the Japanese mind, MacArthur chose to pursue the present policy of working through native personnel. Japanese press, radio, movies, government information bureaus, schools and various social groups would be used as mediums for the dissemination of democratic principles and ideals for world co-operation.

In Japan's economic reformation, the U. S. will strive for the eradication of all potential war industry, confining the Nipponese merely to civilian production. At the same time, efforts will be made to break up the business monopoly of the four great houses of Mitsubishi, Fuyo, Daiwa, and Sumitomo, and promote widespread ownership and trade. Organization of labor and agricultural organizations also will be encouraged.

Meanwhile, Japanese economic experts called for a resumption of trade with the U. S. to speed Nippon's postwar recovery and stave off impending privation. In return for American cotton, wool, salt, oil, iron, sugar and leather the Japanese proposed exports of silk, gold, porcelain ware and lacquer goods.

TIRES:

Demand Mounts

While the production of new automobile tires is making fair progress, prospects for the elimination of tire rationing in the near future are not promising, according to the National Automobile Dealers association.

Although the tire industry is planning on the production of approximately 12 million tires between October and the end of the year, some will be reserved for new cars.

CREDIT:

Ease Controls

In a move hit by OPA because of inflationary possibilities, but rapped by finance companies because of its restricted scope, the government removed all credit controls over building renovation and eased regulations on loans for services or non-essential purchases.

Remaining unchanged in view of popular demand and limited supply was the 12 month credit repayment for washing machines, vacuum cleaners, bed linen, mattresses, boats, watches, cameras, automobiles, pianos and furniture.

Though OPA resisted the restricted easing of credit regulations for fear of a scaling of prices upward in face of heavy buying, certain financing groups declared that continuing restrictions placed low income classes at a disadvantage and price control and rationing assured market stabilization.

ARGENTINA:

Buck Change

Problem center of South America, Argentina was under another state of siege as the government of Pres. Edelmir Farrell, controlled by Col. Juan Peron, rounded up economic, political and labor leaders following an ill-fated attempt to overthrow the present regime.

In extending military rule and suspending constitutional guarantees of speech, press and assembly, the government declared that it was forced to move to stem "a growing campaign aimed at alteration of the (existing) order and conducted by the oligarchy (powerful interests) . . . Liberty would be restored when the various groups would know how to use it, Farrell added.

The abortive revolutionary attempt by two top Argentine generals followed close upon the heels of widespread demonstrations of democratic elements against the pro-military Farrell-Peron regime, maintaining the present economic and social setup in the face of persistent demands for its liberalization.

JOBLESS BENEFITS:

Shelve Bill

Declaring that the current wave of strikes has confused the question of whether a real need exists for the lengthening of unemployment compensation payments up to 26 weeks, the powerful house ways and means committee held up a senate bill providing federal aid for extension of benefits.

By its action, the house group dealt a body blow to President Truman's program for jobless aid, since the senate in passing a modified bill previously had refused to boost unemployment compensation up to a maximum of \$25 weekly. The senate measure would have permitted the federal government to advance sufficient sums to the states to spread jobless payments over 26 weeks.

House committee rejection of the bill stirred labor's wrath, AFL Pres. William Green accusing the congressmen of "callous disregard of human needs," and CIO Chief Philip Murray calling upon the CIO and its Political Action committee for an all-out drive to "secure reversal of this shameful act."

ARMY SEEKS MISSING

Army "search teams" are combing the battlefields of Europe and the Pacific for personnel now listed as missing. Consisting of five soldiers, one of whom speaks the language of the locality, search teams are assigned a certain area of approximately one and one-half square miles. Information on missing personnel is consolidated to speed investigation.

OIL:

U. S.-British Pact

Virtual monopolists in oil, the U. S. and Britain came to an understanding for the orderly development of petroleum trade in the post-war world in a pact fashioned in London by Secretary of the Interior Ickes and British officials and subject to senate ratification.

Removing vigorous opposition to any control over domestic production as envisaged in a previous agreement later repudiated by the U. S., the new pact only provides for advisory regulation of American and British operations overseas. Both countries have extensive oil holdings in foreign lands, notably in the middle east, where deposits are reportedly as great as in the U. S.

In drawing up the agreement, Ickes and British Fuel Administrator Shinwell provided for mutual respect of all concessions and rights obtained by either country, and also pledged non-interference with operations.

MEAT:

More Available

Because of the seasonal increase in the marketings of range fed cattle, OPA removed point requirements for lower grades of beef, veal and lamb through most of October, and also made hamburger, lamb and veal patties, short ribs and brisket of beef, breast and flank of lamb and shank of veal ration-free.

In addition, points were lifted from such low-grade meat products as sausage, frankfurters, luncheon variety and canned meats.

In contrast, however, the continued tight supply of hogs and finished cattle necessitated the retention of current point values on pork cuts, bacon and other cured meats, and choice selections of beef, veal and lamb. Though fats and oils were kept on the rationing list, point removal on cheaper meat will furnish additional stamps for these items.

Henry II Takes Over

To husky, 26-year-old Henry Ford II, who in college displayed more of a penchant for sociology than engineering, went the presidency of the huge Ford Motor company, following the retirement of his famed grandfather from active service with the firm.

Upon assuming his post, Henry II declared his ambition was to return Ford to leadership in sales again, the company having trailed Chevrolet throughout most of the decade preceding the war. In his first years Ford had shown the new 1946 model last July, only two days after government authorization for resuming civilian production, and the firm was well off to postwar output when impeded by strikes.

Retiring at 62 after having resumed the presidency of his famed company in June of 1943 upon the death of his son, Edsel, Ford declared that he would devote most of his energies to his outside interests, chief of which have been utilization of farm products in industry.

EUROPE:

Occupation Problem

In war or in peace, old General Patton, with a mind of his own continued to make news, the latest occasion being his clash with General Eisenhower over the use of competent former Nazi civil servants for a restoration of German economy to head off threatened chaos this winter.

Besides being asked for an immediate report on the number of former Nazis still holding office in 3rd army territory, Patton also was directed to give Eisenhower a personal accounting of his control over the Bavarian region. For a hard peace, Eisenhower favors a ruthless denazification of Germany's political, educational and economic life, and an early establishment of a Reich living standard no higher than surrounding countries.

Though the first to be called on the carpet, Patton's attitude is known to be shared by other U. S. officers seeking to avert starvation, frost suffering and epidemics this winter in the shattered nation.

FAR EAST:

Native Uprising

Even as Chinese and British forces took over Indo-China, native Annamites rose in rebellion at the prospect of a return of French rule, terrorizing the European population of the state, which normally exports much rice, rubber, high-grade coal, spices and tin.

Frenchmen were the principal targets of native wrath, since many, under protection of Chinese and British guns, have displaced Annamites holding public offices preliminary to re-establishment of French colonial rule.

Strangely enough, the Japanese, who promised Indo-Chinese independence during their military occupation of the country and still remain in force prior to their complete demobilization, have been called upon to help assist undermanned Allied units re-establish peace.

GOOD NEIGHBOR:

Aids Health

Remote, disease-plagued regions of the Amazon systems of Peru and Bolivia have been equipped by modern health measures to progress in human welfare.

The menace of malaria and other tropical diseases has been considerably lessened in the two countries by inauguration of hospitals and medical services by the U. S. and South American nations through the Institute of Inter-American affairs.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for October 21

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

MAKING THE HOME CHRISTIAN

LESSON TEXT—Luke 10:38-42; 1 Corinthians 13:4-13. GOLDEN TEXT—Love suffereth long, and is kind.—1 Corinthians 13:4.

Things do not just happen. It takes praying and planning and real effort to accomplish a worth-while purpose. We are thinking these weeks of the home as a Christian center of influence. We trust that many are asking in their hearts, "What can I do to make my home really Christian?"

The answer is clear. A home will be Christian when those in it are Christian and put their Christianity into daily practice. First, you must be sure of your own salvation and that of the members of your household. Then you can proceed to put the principles of godliness to work.

Our lesson presents the believing home as one that is well-balanced. There is both:

I. Work and Worship (Luke 10:38-42).

No home can be a place of comfort and pleasant fellowship without much work. A disorderly, dirty or run-down house is a disgrace and a discouragement to all that is finest in the relations of those who live in it.

Home need not be a mansion. It does not have to be richly furnished, but it does need to be clean and orderly. Meals must be made. Cleaning must be done. So far Martha was right, but she went too far. She let the labor of the household hinder her from what she so deeply needed—fellowship, not only with her family but with the Lord.

Now, notice that Mary had not shirked her duty to share the work. Observe the word "also" in verse 39. She had worked, but she also sat at Jesus' feet. She knew when it was time to call a halt to labor and make the most of good comradeship. Blessed wisdom! Would that many burdened housewives would learn of Mary!

Jesus made it clear that life in the home is to strike a proper balance between work and worship. If you do not know where to make the division in your home, err on the side of worship. Give that more time than it should have rather than less.

Alex, is it not true that in most homes, even in Christian homes, worship is almost, if not entirely, forgotten? Something should be done about that. Will you do it in your home?

II. Love and Longsuffering (1 Cor. 13:4-7).

We are apt to think of love as the warm feeling of interest and emotion which suffuses one's nature in moments of special pleasantness or of intimate fellowship. But life is not made up of a succession of pleasant incidents, of sunny afternoons and moonlit evenings.

Life is real; it is earnest, and often it is drab and irritating. What about such times? Can love meet them? Yes, for love knows how to be longsuffering.

But someone may ask, Does love really work, or is this just a fine-sounding but obsolete theory? It works! Think of the things in life which irritate and depress us. Then put opposite them the qualities of Christian love as given in verses 4 to 7, and you will agree that what this world needs most of all is love.

Remember that talking about love, or reading about it, or studying it in the Sunday school will not make it effective. We must put it into practice. Why not start now? You will be surprised at the results.

III. Promise and Perfection (vv. 8-13).

Christianity has a hope, and that is not just a vague wishing that something might come to pass; it is a sure hope. In Christ all the rich promise of prophecy, of faith, of hope will come to pass.

The Christian home is the place to teach boys and girls to believe with assurance that He who has begun a good work in us "will perform it until the day of Jesus Christ" (Phil. 1:6).

We who see only dimly shall one day see our Lord face to face, and love shall abide through all eternity. Many gifts are only temporary in their usefulness; in fact, almost everything that man makes or does (apart from his service for God) is transient.

Even as vital a matter as prophecy shall one day find its end in fulfillment. Hope shall eventually find its longing expectation satisfied. Faith will be justified in seeing what it has believed. Childish things will be put away by the full-grown man; knowledge will increase and darkness disappear.

But love—love is eternal. It never fails, and will never fail. God is love, and God is eternal. From all eternity and unto all eternity love continues. Therefore, we agree with Paul who, in the verse preceding this chapter (1 Cor. 12:31) says that while you may covet the best gift, here is the more excellent way

Apple Picker According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathe frequently and thoroughly, and thus "drive sadness from the mind."

Picker's Clothes One of the first things the apple picker should do is to see that he has clothes for the job that protect the skin and help prevent accidents. They should be fitted for bending, be snug at the neck, ankles and wrists, and have usable pockets.

Bath Banishes Blues According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathe frequently and thoroughly, and thus "drive sadness from the mind."

Keeps Mouth Shut The reason a dog has so many friends is that his tail wags instead of his tongue.

Household Hints

Wash burners on gas stove once a week in a solution made of one gallon water, two tablespoons washing soda and soap flakes. Rinse and dry well.

Don't throw away lemon and orange skins. Bake them in a moderate oven until very crisp. When cold grate or grind them and store in a well corked bottle. A pinch in a pudding or cake makes a great improvement.

Moderate heat should be used to preserve the life of your porcelain enameled utensils. When the contents have reached the boiling point, the flame may be lowered even more. This is a fuel saving tip also.

Keep cooked meat covered. Chopped and sliced cooked meats spoil more quickly than meat in the piece. Cut or chop just before using. Keep meat sandwiches and salads cold right up to time of serving.

Dustless Duster To make a "dustless" duster, immerse a large square of cheesecloth in a basin of strong, hot soapuds. Let it soak for a while, then wring out and dry. When the cloth becomes soiled, it can be washed and retreated.

Cleaning Diamonds To clean diamond rings, cover them with wood alcohol and let stand for five minutes. Remove and polish with white tissue paper.

Fattening Lambs One help in putting weight on lambs is to keep sheep and lambs free from parasites, especially intestinal worms and stomach worms. Infestation with parasites holds back growth and increases feed costs. Serious losses from parasites can be prevented by providing clean pasture, by the use of phenothiazine, and by taking other precautions.

Ease Fasteners You loose fasteners when you carry another person on your bike.

Egg Eating Egg eating by chickens is a habit usually developed by young pullets. This costly habit can be prevented by providing plenty of rest—one nest for each six birds—so eggs will not be broken by nest crowding at laying time. All nest bottoms can be kept well padded with litter such as hay, straw, cottonseed, shavings, so eggs will not be broken as they are laid. If the egg-eating habit has gone so far that some of the birds break the eggs themselves, it may be necessary to remove these birds from the flock for a few days or dispose of them entirely.

Heating Safety One of the most notable innovations in safe heating is the wet base boiler in which water circulates under the ash pit. The fact that the boiler can be placed on a combustible floor is of interest in connection with the trend toward the bare-metal house. In such houses it is often desirable to install the boiler on a wooden floor in a utility room or kitchen. Other safety features of modern boilers are foot-treadle door-openers, ball-shaped, air-cooled handles and side shakers, making it easier to open and close doors.

Whip Soap Flakes Whip your soap flakes in a little hot water with an egg beater and you will need fewer flakes and get better results.

To exterminate white flies on house plants, cover with a newspaper canopy and have someone blow smoke under it.

Wipe off the fruit you have bought with a clean, slightly damp cloth before putting it away. This will clean it and check any rot that may have gotten on it from other fruits.

MRS. LYLE BRAGONIER IS TELLING HER FRIENDS

ELOOMINGTON, ILLINOIS.—Mrs. Lyle Bragonier certainly is pleased with Faultless Starch. Here is what she wrote in a letter:

"I surely am very much satisfied with Faultless Starch. It tops any make of starch. I'm through with all other starches. Make mine Faultless every time. I surely will tell my friends about this wonderful starch."

Are you that well satisfied with the starch you are now using? If you are not, why not try Faultless Starch right away and see for yourself why Mrs. Bragonier and so many thousands of other women enjoy this special kind of starch.

WHAT TO LOOK FOR

Here are some of the special advantages of Faultless Starch. Look for them when you try your first box.

You'll discover that Faultless Starch saves several minutes of time when it's time to make hot starch. The reason is—you don't have to cook it. You just cream Faultless Starch with a little cold water and add boiling water while stirring, that's all. No cooking needed.

MAKES IRONING EASY

In addition, you will find that Faultless Starch makes your ironing smooth, easy, beautiful. The reason is—Faultless Starch contains ironing-aids that keep the iron from sticking. No more fighting a "sticky" iron. Ironing becomes a joy—not a job.

WON'T BLOW OR FREEZE OUT

Another advantage is that Faultless Starch won't blow out or freeze out on the line. No more starching everything over again. No wonder people like Mrs. Bragonier say, "It tops any make of starch. I surely will tell my friends about this wonderful starch."

You can enjoy Faultless Starch, too. Just ask your grocer for "Faultless Starch." He has it. Use it next wash day, sure, and save time and work from now on.—Adv.

A COUGH MEDICINE of his very own. When your child has a cough due to a cold give him Dr. Drake's Glesco, a cough medicine specially prepared for him! This famous remedy helps eliminate phlegm, and soothes and promotes healing of irritated membranes. Children like its pleasant taste. Give your child the relief Dr. Drake's has brought to millions. DR. DRAKE'S Glesco PRICE 50¢

When raw winds cut like a knife... CHAPPED LIPS SOOTHED QUICKLY! A cracked lip—so cruel and painful! Caused when raw, bitter weather dries skin cells, leaves them "thirsty." Skin becomes sore—may crack and bleed. Soothing Mentholatum acts medicinally: (1) Gently stimulates the local blood supply to the "sore" area. (2) Helps revive "thirsty" cells so they can retain needed moisture. For chapped, raw skin, smooth on Mentholatum, the comforting medicinal balm. Handy jars or tubes 30¢. Get MENTHOLATUM

Air Conditioned Trolleys
A fleet of new street cars in Atlanta, Ga., has been equipped with refrigerating units. This will be the first time that passengers can enjoy the benefits of air conditioning.

Cows Need Rest
Every cow needs a rest period of six to eight weeks if she is to produce the most milk during her next milking period.

Ever Try Making Cough Syrup In Your Kitchen?

Quick Relief. No Cooking. Easy!
If you've never tried mixing your own cough medicine, you've missed a lot. It's no trouble—needs no cooking—and gives you about four times as much cough syrup for your money. You'll say it beats anything you ever tried for coughs due to colds. And here's how it's done:

Make a plain syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until it is cooked. Or you can use corn syrup or liquid honey, instead of sugar syrup. Get 2½ ounces of Tinx from your drugist. Put this into a pint bottle and fill up with your syrup. This makes a pint—a family supply. Tastes like a jam and never spoils. Children love it. And as for results, you've never seen anything better. It goes right to work on the cough, loosening the phlegm, soothing the irritation, and clearing the air passages. You will like it for its results, and not merely for the money it saves. Tinx is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Advt.

PAZO for PILES
Relieves pain and soreness

PAZO IN TUBES!
Millions of people suffering from hemorrhoids, piles, and other ailments find relief with PAZO ointment. Here's why: PAZO ointment soothes, relieves, and cures hemorrhoids, piles, and other ailments. It's the only ointment that relieves pain and soreness. PAZO ointment is the only ointment that relieves pain and soreness. PAZO ointment is the only ointment that relieves pain and soreness.

SUPPOSITORIES TOO!
For hemorrhoids, piles, and other ailments, PAZO suppositories are the only suppositories that relieves pain and soreness. PAZO suppositories are the only suppositories that relieves pain and soreness.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, grinding up nights, swelling, puffiness under the eyes—a feeling of nervousness and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been making the kidneys for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your druggist for the Doan's.

Neighbors Will Appreciate Garden Gift Basket
(See Recipes Below)

Garden Gifts

Now that we once more have peace all over the world, we all ought to start our good neighbor policy right at home. Lots of little friendly gestures that mean so much have been forgotten during the war, but they should be reinstated.

Something that all of us with a garden can do is to share with a neighbor. There are probably lots of things that you yourself cannot use that would be welcomed by a neighbor. Send a basket of garden vegetables or fruit, all dressed up with fancy wrappings and ribbon, and see what a friend you can make. Incidentally, include a lemon or two to make it handy for the homemaker to season either fruit or vegetables.

Another gift that will be welcome is a set of your favorite recipes, with or without a basket of garden produce. Every woman has a few choice dishes which her friends have asked for, and it makes for more friendliness to be generous with the instructions.

Here are some brief suggestions which I'd like to pass on to you, particularly for vegetables:

If you find yourself short of salad dressings for a tossed salad, sprinkle 2 or 3 tablespoons of oil on the individual salad then squeeze lemon juice generously over this, salt to taste and toss the salad lightly.

To make a good, old-fashioned cole slaw, add the following amounts to 2½ cups of shredded cabbage: ¼ teaspoon salt, 1½ tablespoons sugar, 6 tablespoons coffee cream, and 3 tablespoons of lemon juice.

In making pickled beets, cook the beets first, then slice and cover with equal parts of lemon juice and water. Add sugar to taste, and slices of sweet onion, if desired.

Now that fall has come, we can start turning our attention to heartier foods again. Cabbage is a good vegetable to use because it is coming in season:

Stuffed Cabbage.
(Serves 5 to 6)

- 3 tablespoons uncooked rice
- 1 pound ground beef
- 1 egg well-beaten
- 2 tablespoons minced onion
- 2 teaspoons salt
- ¼ teaspoon pepper
- 8 medium to large cabbage leaves

Lynn Says:

Refrigerate Your Foods: Refrigeration is necessary to most foods not only to preserve their appearance and palatability, but also to prevent food spoilage.

In most cases, temperatures of 40 degrees will take care of the situation. This temperature is best maintained.

Meat, milk, vegetables and fruits are extremely perishable and should be refrigerated immediately. Root vegetables do not need as low as 40 degrees and may be kept out of the ice box. Bananas need never be refrigerated.

Keep all foods covered except meat. Cover it lightly with waxed paper.

Fruit needs chilling, not freezing. The crisper or open dish or even paper cartons are excellent for keeping eggs in the refrigerator.

Meat needs the coolest place in the refrigerator—right under the freezing unit. Bacteria multiply very rapidly unless it is well protected.

Lynn Chambers' Menu.

- Swiss Steak with Gravy
- Browned Potatoes
- Buttered Cabbage
- Fresh Fruit Salad
- Whole Wheat Bread
- Jam
- Baked Apples

- 2½ cups canned tomatoes
- 1 tablespoon flour
- 4 tablespoons sour cream
- ½ teaspoon salt

Cook rice in boiling salted water until tender. Drain and rinse. Mix rice, ground meat, egg, onion, salt and pepper. Steam cabbage leaves in ½ cup water for 10 minutes. Fill leaves with meat mixture (½ cup to each leaf), fold leaf over meat and fasten with a toothpick. Arrange in saucepan, add tomatoes, bring to a boil, then simmer gently for 1½ hours. Mix flour, sour cream and ½ teaspoon salt to a paste; remove cabbage balls to a dish and stir sour cream and flour mixture into tomatoes. Bring to a boil quickly and pour over cabbage rolls and serve.

A favorite pie for fall, and incidentally a nice recipe to tuck into one of those gift baskets, is one for this unusual Green Tomato Mincemeat Pie. It's spicy and fragrant, bound to please:

- Green Tomato Mincemeat Pie.**
- 1 peck of green tomatoes
 - 1 quart sliced apples, fresh or dried
 - 1 pound seedless raisins
 - Salt
 - 1 pound suet, chopped
 - Cinnamon, nutmeg, cloves
 - 2½ pounds brown sugar
 - 3 lemons

Water
Wash tomatoes. Cut in small pieces. Sprinkle with salt. Let stand overnight. Drain. Add sufficient water to prevent sticking. Cook 30 minutes, stirring frequently. Add lemon juice, grated rind and white of 1 lemon, cut in small pieces. Add apples, suet, raisins and sugar. Add spices to taste and a few grains of salt. Simmer slowly, stirring frequently, until tomatoes and apples are tender and flavors are blended. Pack in freshly sterilized jar and seal. Line a 9-inch pie pan with pastry and fill with 2½ cups of the tomato mincemeat mixture. Cover top with pastry, flute edges and bake in a 425-degree oven for 35 to 40 minutes.

Two vegetables which we miss during the other seasons are ready to take their bows now. You will like both green tomatoes and eggplant prepared in this fashion:

Stuffed Eggplant.
(Serves 6)

- 1 eggplant
- ½ teaspoon pepper
- ½ teaspoon butter
- 4 tablespoons cracker crumbs
- ½ teaspoon salt
- 4 tablespoons milk
- ½ cup grated cheese

Eggplant may be cooked in boiling water for five minutes before scooping out. Cut slice from top or cut in half lengthwise. Remove pulp and mix with other ingredients. Refill shells and cover with cheese and crumbs and bake in a moderate (350-degree) oven for 30 minutes.

Green Tomato Fritters.
(Serves 6)

- 1½ cups flour
- 2 teaspoons baking powder
- ¼ cup milk
- ¼ teaspoon salt
- 1 egg, well beaten
- 6 green tomatoes, sliced ½ inch thick

Beat egg, add to milk. Mix flour, baking powder and salt. Combine with liquid and mix to a smooth batter. Sprinkle sliced tomatoes with salt and pepper. Drain on absorbent paper and dip in batter. Fry in deep fat until golden brown. Other raw vegetables may be prepared in this way.

Released by Western Newsman Union.

Fattening Lambs

One help in putting weight on lambs is to keep sheep and lambs free from parasites, especially nodular worms and stomach worms. Infestation with parasites holds back growth and increases feed costs. Serious losses from parasites can be prevented by providing clean pasture, by the use of phenothiazine, and by taking other precautions.

Bike Passenger
You invite disaster when you carry another person on your bike.

Egg Eating

Egg eating by chickens is a habit usually developed by young pullets. This costly habit can be prevented by providing plenty of nests—one nest for each six birds—so eggs will not be broken by nest crowding at laying time. All nest bottoms can be kept well padded with litter such as hay, straw, cottonseed, shavings, so eggs will not be broken as they are laid. If the egg-eating habit has gone so far that some of the birds break the eggs themselves, it may be necessary to remove those birds from the flock for a few days or dispose of them entirely.

Heating Safety
One of the most notable innovations in safe heating is the wet base boiler in which water circulates under the ash pit. The fact that the boiler can be placed on a combustible floor is of interest in connection with the trend toward the basement-less house. In such houses it is often desirable to install the boiler on a wooden floor in a utility room or kitchen. Other safety features of modern boilers are foot-treadle door openers, ball-shaped, air-cooled handles and side shakers, making it easier to open and close doors.

Whip Soap Flakes
Whip your soap flakes in a little hot water with an egg beater and you will need fewer flakes and get better results.

Apple Picker

Watch the experienced apple picker at work and you will see that he sets his ladder properly and keeps balanced on it so he works as freely as he does on the ground.

Picker's Clothes
One of the first things the apple picker should do is to see that he has clothes for the job that protect the skin and help prevent accidents. They should be fitted for bending, be snug at the neck, ankles and wrists, and have usable pockets.

Bacteria Threat

An improperly cleaned milking machine may add millions of bacteria to the fresh milk that passes through the machine.

Bath Banishes Blues

According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathe frequently and thoroughly, and thus "drive sadness from the mind."

Keeps Mouth Shut
The reason a dog has so many friends is that his tail wags instead of his tongue.

There's a **Firestone TIRE**
Built for Every Wheel that Rolls on the Farm

FOR your tractor . . . for your truck . . . for your car, and for every other farm use, there is a Firestone tire engineered and built to do the job—and to do it better than any other tire made.

There are certain definite reasons why Firestone tires perform better and last longer. One is Firestone's understanding of farm tire requirements based on years of experience in the farm tire field. Another is the never-ending Firestone research and development program to build the best today—and make it still better tomorrow. And still another vitally important reason for the superiority of Firestone tires is the fact that they are built by the finest craftsmen using the finest materials that science and machines can produce.

You can save time, money and do a better job of farming if you specify "Firestone" every time you buy a tire for your farm. From now on make it a Firestone.

Postwar Kitchen-Laundry to Banish Drudgery

Combination kitchen-laundry will save homemaker steps.

AS WAR BONDS accumulate, many farm homemakers are dreaming of beautiful, work-easy kitchens and light airy laundries on the first floor that will cut household drudgery, according to an article in nationally-circulated *Copper's Farmer*.

The combination kitchen-laundry pictured above was planned by a well-known electric equipment manufacturer to make those dreams come true. It is a sample of the improved appliances which will be available after the war, says the article in the magazine read by 1,200,000 farm families. The new laundry equipment will be attractive and the elimination of climbing basement stairs with baskets of clothes will justify the combination.

Starting at the left side of the

sketch is a power ironer, that will enable the homemaker to whiz through ironing in seemingly no time. Next is an automatic washer that does the clothes while she prepares dinner. An automatic drier is handy to receive damp clothes, then to tumble them dry in warm air. Beyond the sink a counter and 2 pull-out ventilated metal hampers make sorting clothes easy.

In the kitchen an electric range is conveniently near the dining-room door. The sink directly under the window is equipped with an automatic garbage disposal unit. Next to it is the electric dishwasher that takes care of a whole day's dishes at once. On both sides are cupboards. Base cabinets separate the dishwasher and electric refrigerator. In the center is a snack bar.

RATS CAUSE AN ECONOMIC LOSS

Because of the economic losses they cause to industry and commerce and the annoyance they create in homes, rats have been considered a serious menace to mankind since long before their role as vectors of disease was understood. Today, at least six diseases are known to be transmitted to man from the rat, according to Dr. Geo. W. Cox. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm, and food poisoning. Typhus fever in the past few years, has become a major health problem

in Texas.

"It is necessary to public health," Dr. Cox said, that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of special interest on farms where rats may flourish by feeding on grain and other farm products.

The doctor pointed out that rats, like other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places includes the employing of rat-proof design in buildings, employing ratproof methods of construction and installation, and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in ratproof containers, the proper storage of garbage in closed containers until disposal and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradication of a nuisance and economic menace but in improved health conditions and the certain decrease in the incidence of typhus which, alone, would make the control program worth while.

Our School

A High School Editorial

The O'Donnell Schools are of the most outstanding schools in Lynn county and the counties surrounding here. We have the best basketball teams; the best football teams and anything the students of O'Donnell attempt to do they always come out on top. The students are always attempting to do new things and improve the things they have. Every time a different team comes to O'Donnell to play in some game, they are always treated the best and are always willing to come back.

This year we have improved our journalism club, more boys are coming out for football; our pep squad is larger and better and we are looking forward to a good basket ball team -- both boys and girls.

We have improved our football field, tennis courts, and basket ball courts, purchased new buses and can take both pep squad and football players to games played away from our schools.

You can get a report on the football games, etc. thru the "Eagles Screams" each week after the games are played, whether they are played here or at other schools because there is a sports editor there to report on the game. We have good music students going to O'Donnell because there are music teachers here that teach lessons during school and on assembly days we have an opportunity to see and hear some of the students play and sing. Each year we have our Junior and Senior plays and in these plays we always know that we can get some good actors for the plays, and there are always those who want to act in them.

We of the O'Donnell Schools are proud to say all of the above and lets always keep it that way -- and don't let the school down. Remember, all for one and one for all in the schools of O'Donnell.

When he broke his engagement he was only doing to the engagement what the engagement did to him.

Every time we go to the dentist we get bored to tears.

The wife maintains that backseat drivers are no worse than men who cook from the dining room table.

One of these days some of our little colleges are going to be mighty embarrassed, when more men report for football than are enrolled in school.

Whatta life the moth must live--summer in a fur coat winter in a bathing suit.

We call it our insomnia suit because it hasn't had a nap for years.

Skillet Chicken and Rice Is Zestful Dish

IT'S chicken every Sunday and often, once the family has tasted Skillet Chicken and Rice, says Marjorie Griffin, the rural home editor of *Copper's Farmer*, a farm magazine of national circulation.

As the ingredients cook together, the rice takes on an added flavor. Served in a white fluff mound, surrounded or topped with a tender, browned piece of chicken, this rice combination is an appetite-tempting favorite. Parsley sprigs and red

paprika give it added color appeal, the *Copper's Farmer* expert points out.

Skillet Chicken and Rice
1 fryer, 3 c. fat
1/2 c. flour, 2 c. boiling water
1 1/2 tsp. salt, 1/2 c. rice, washed
1 tsp. paprika, 1 onion
1/2 tsp. pepper, parsley

Cut chicken into serving pieces; rub with mixture of flour, salt, pepper and paprika. Brown in the hot fat. When well browned, reduce heat, add boiling water and onion (or 1 clove garlic). When chicken is about one fourth done, sprinkle rice over it. Cover tightly. Cook gently until chicken is tender, rice is fluffy and tender, and water is evaporated--1 to 1 1/2 hours. Remove onion. Serves 5 to 7 depending on size of bird.

To the People of this Community

Some day in the next few weeks a volunteer salesman will ask you to buy more bonds. You may be tempted to answer: "The war's over, haven't you heard? Would you care to give that reply to any one of the 300,000 young Americans now fighting for health in military hospitals from coast to coast? Would you care to walk a patrol in Tokyo or Berlin with a GI and tell him 'the war's over?'"

Of course, the bloody fighting is over. Your job in helping to clean up the money cost is the easiest patriotic chore any country ever asked of its citizens; loan of more dollars to be repaid at good interest in 10 years. Compare that job with the chore you have handed to your own son or neighbor's son to spend countless days in strange lands to nail down the victory.

Think you can afford to say no to the Victory Loan salesman? Have a talk with your conscience this very moment. Be ready for your Victory Loan salesman in spirit as well as in pocketbook.

Rotene Imports
In 1931, the first year in which this country imported rotenone roots in commercial quantities, our imports were only 8,400 pounds. By 1940 they had expanded to 6,500,000 pounds. Rotenone is used in insecticides.

Versatile Fruit
Peaches adapt themselves readily to innumerable types of desserts and salads. In addition to delicious flavor, they offer fair amounts of vitamins A and C.

Illinois Crop Land
Corn, soybeans, oats and hay comprise 90 per cent of the total crop land in Illinois.

HELP BUILD UP Cold Resistance
with **HIGH ENERGY TONIC**

If you catch cold easily—because you lack all the natural A&D vitamins and energy-building, natural oils you need—you may be helped by Scott's Emulsion. It contains the richest source of vitamins A and D. See why many doctors recommend this good-tasting, high energy food. Buy at your druggist's.

SCOTT'S EMULSION
FISH LIVER OIL

Have You Tried PINEHURST CIGARETTES
Made with Gin-Seng Extract?

That smooth to the pleasure of the throat—a smooth, mellow, mild smoke—made of selected tobaccos, naturally blended to the popular American taste. Pinehurst is truly one of America's standard cigarettes—and a superior substitute—endured for years by smokers who demand satisfaction from their cigarettes. Pinehurst's superior Pine-Seng Process imparts a smooth, mellow taste for modern smoke enjoyment—the only cigarette prepared to do so.

Easy way to UNCORK STUFFY NOSTRILS
When nostrils are clogged, and your nose feels raw, membranes swollen, reach for cooling, soothing Mentholatum. Spread it inside nostrils... and sniff well back. Instantly it starts to help thin out thick mucus; 2) Soothe irritated membranes; 3) Help reduce swelling; 4) Stimulate local blood supply to "sick" area. Every breath brings quick, welcome relief. To open stuffy nostrils, get effective Mentholatum today, the Medicated Nasal-Unguent. Jars, tubes 30¢.

Start a Fire But Once a Year... with a WARM MORNING COAL HEATER

Nearly a Million Now In Use!
• Holds 100 lbs. of coal.
• Semi-automatic, magazine feed.
• Burns any kind of coal, coke or briquets.
• Heats all day and night without refueling—holds fire several days on closed draft.
• Assures substantial fuel savings.
• Equipped with automatic draft control.

Blooming Hats
It took clothes-ration points for an Australian girl to buy a hat. Knowing this, United States soldiers often brought to their dates specially made headpieces of fresh flowers. This custom, started by our troops, became the rage in hat-scarce Australia.

Progressive Century
The barometer and the thermometer were developed in the 17th century.

Heating Safety
One of the most notable innovations in safe heating is the wet base boiler in which water circulates under the ash pit. The fact that the boiler can be placed on a combustible floor is of interest in connection with the trend toward the basement-less house. In such houses it is often desirable to install the boiler on a wooden floor in a utility room or kitchen. Other safety features of modern boilers are foot-treadle door openers, ball-shaped, air-cooled handles and side shakers, making it easier to open and close doors.

Lucky Stones
Emeralds were once believed to be beneficial to the eyes and amethysts were thought to prevent drunkenness, according to Encyclopaedia Britannica. The belief in lucky stones still exists.

Bath Banishes Blues
According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathe frequently and thoroughly, and thus "drive sadness from the mind."

Plan Baths
If the man of the house has been accustomed to taking his daily shower in the morning, reserve this time for him. The children might bathe in the evening, allowing the time according to their ages and when they go to bed. The younger children might be bathed before dinner, older children later. Plan your own bath for whichever hour will give you the most relaxation.

Eggs Nutritious
Eggs help keep the body healthy. They make strong muscles and red blood. A child needs four to five eggs a week. An older person needs three to five eggs a week. Eggs may be eaten plain, or mixed in other foods.

Whip Soap Flakes
Whip your soap flakes in a little hot water with an egg beater and you will need fewer flakes and get better results.

Sugar Restrictions Prevent Solution Of Dessert Problems

Mounds of creamy ice cream ride on top of peach halves set on squares of tasty, hot milk sponge cake. A dessert sauce made of the peach juice is a delightful foil for the fruit, ice cream and cake.

Now that food rationing has loosened up in most of the eatable goods, and we are once again able to get back on a prewar standard, cooking problems need not be pressing. However, in spite of this lifting of restrictions, we still have at least one major problem—that of sugar.

Little relief is in sight right now, and the situation will probably prevail for some months. What shall we do about dessert?

Well, first of all there are fruits which can be dished up in any number of perfectly delightful ways. There's whipped cream and ice cream, and, of course, sugar substitutes.

One cup of sugar or less is a good rule to follow if you are using recipes calling for this sweet but scarce commodity. If your cake calls for 1½ cups of sugar, use ¾ cup of sugar with ¾ cup of corn syrup. In this case you must use 2 tablespoons less milk than the recipe calls for and 2 tablespoons of flour, additional.

The fat scarcity also limits us to some extent on the baked goodies we want to make. That's why sponge cake will be popular, as in this following recipe:

Peach Sponge à la Mode. (Serves 8)
Sponge cake
1 No. 2½ can peach halves
1 quart vanilla ice cream
Dessert sauce

The cake used uses 4 eggs and is made with scalded milk to give it a fluffy texture:
Sponge Cake.
2 cups sifted cake flour
¼ teaspoon salt
2 teaspoons baking powder
4 eggs
1 cup sugar
1 cup milk, scalded
1 teaspoon vanilla
3 tablespoons butter, melted

Sift flour and measure. Sift three times with salt and baking powder. Beat eggs with rotary beater until thick and lemon colored. Add sugar gradually and beat until fluffy. Fold in flour mixture, then milk, flavoring and melted butter. Fold until well blended. Pour into square cake pan lined with waxed paper. Bake in a moderate (350-degree) oven for 30 minutes. Cool in pans.

Dessert Sauce.
Liquid from peaches
2 teaspoons granulated sugar
Remaining peach halves, chopped
¼ cup salted almonds, sliced
1 tablespoon brown sugar
Cook the peach liquid down to ¼ cup. Stir in the granulated sugar

Lynn Says:
Make Meals Good: No family enjoys eating the same, same foods every meal. It's a good idea not to repeat dishes more than once every three or four weeks. Even favorite foods get monotonous when served too regularly.

To get contrast in every meal, follow the basic seven charts to see that you get in all different types of foods.

In planning a meal, have some things crisp, others soft, and still others hard. For example, meat can be the "soft" food, while broccoli or salad add the crispness, and rolls are the "hard" part.

Try to combine colors, too. Cauliflower, potatoes and creamed chicken may all be good, but they don't stimulate the appetite. However, consider the colorfulness of creamed chicken with french fried potatoes and peas with carrots.

*Open-Faced Apple Pie
*Recipe given.

and chill. Serve over the peach halves à la mode and top with nuts mixed with brown sugar.

To serve, arrange a peach half on a square serving of cake. Top with a mound of ice cream and serve with the dessert sauce.

If it's apples you want, then you will like this pie which is easy on fat because it does not have to have a top crust. It uses an egg for richness and flavor:

Open-Faced Apple Pie. (Serves 6 to 7)
3 cups sliced apples (about ¼ pound)
1 egg, well beaten
¾ cup sugar
1 tablespoon flour
½ teaspoon cinnamon
½ teaspoon grated lemon rind
¼ teaspoon salt
2 tablespoons melted butter
Pastry for 1 crust (about 1 cup flour)

Line pie pan with pastry, building up the edge. Fill with sliced apples. Add remaining ingredients to beaten egg; beat well. Pour batter over apples. Bake in a hot (425-degree) oven for 25 to 30 minutes.

Apples which are best to use in this type of pie are Rome Beauty or McIntosh.

Black walnuts can lend a distinctive flavor to pie when fruit supplies dip to a low during the cooler weather as in this recipe:

Black Walnut Pie.
2 cups milk
1 cup sugar
6 tablespoons flour
2 egg yolks
¼ teaspoon salt
1 teaspoon vanilla
2 teaspoons butter
1 cup black walnuts
Baked pastry shell
Whipped cream

Make a custard of the milk, sugar, flour and egg yolks, cooking until thick in a double boiler. Add salt, vanilla and butter. Cool. Add nutmeats and pour into a baked pastry shell. Let set and cool. Serve with whipped cream topping.

This novel apple pie saves shortening by using just one crust. For delicious flavor and good, old-fashioned heartiness, add an egg to the apple mixture.

The old-fashioned puddings are always popular because of their molasses sweetness and fragrant spices. Suet is usually used for the base, but one of the fats may be substituted if it is unavailable. Buttermilk is used to give that fluffy texture which is so appetizing.

Quaker Pudding. (Serves 10)
2½ cups sifted flour
1½ teaspoons soda
½ teaspoon salt
½ teaspoon nutmeg
½ teaspoon cinnamon
1½ cups buttermilk
1 cup ground suet
1 cup molasses
1 cup raisins or other chopped dried fruit, or candied fruit
¾ cup rolled oats

Sift flour with soda and salt. Add all other ingredients in order given and mix thoroughly. Pour into two one-quart greased molds. Cover and steam for 3 hours. Serve with Foamy or Orange sauce.

Stuff green peppers with creamed chicken or turkey and rice. The peppers should be parboiled first, and after stuffed, they may be heated for 10 minutes in a moderate oven.

If you like stuffed green peppers, try them with a stuffing of corned beef hash mixed with onion. It's mighty good.

Like sweet potato pudding? One way to make it is to mash six cooked sweet potatoes with 6 tablespoons butter, 2 tablespoons grated lemon rind and 1 cup of orange juice. Bake this mixture in a greased casserole in a moderate oven for 15 minutes.

Plug Shakers
When refilling salt and pepper shakers that have corks in bottom, or which have fallen inside, remove the cork and discard. Then pass muclage paper over the hole. Or use adhesive tape.

Fires Costly
Every day in the U. S. there are 1,800 fires, 28 deaths caused by fire in 1,000 homes, 130 stores, 100 factories, 7 churches, 7 schools and 3 hospitals.

Bike Passenger
You invite disaster when you carry another person on your bike.

Clever Washcloth
Here's a clever way to use up those left-over slivers and scraps of toilet soap. Put them into a small, Turkish toweling bag when taking a bath; this bag full of soap can be put into the tub and you'll have wash cloth and soap in one.

Cleaning Diamonds
To clean diamond rings, cover them with wood alcohol, and let stand for five minutes. Remove and polish with white tissue paper.

Hanging Trousers
Best way to hang trousers is upside down, using a hanger with clips.

The READER'S DIGEST OFFERS dignified work—extra income to people with a little spare time

America's most widely read magazine—The Reader's Digest—can use a few more Community Representatives in this locality. The work is pleasant and will take little time. It offers an easy way to make money. Our Community Representatives—young and old—are from every walk of life; busy, intelligent people who welcome this dignified means of adding to their income. They do not need to be the salesman type.

Although our readership is growing rapidly, still 4 out of 5 families are not yet subscribers to The Reader's Digest. By introducing the magazine to friends and acquaintances, you'll earn their hearty thanks—as well as liberal profits. By approaching strangers, you can also acquire new and valuable personal contacts.

Further, we have decided—for a limited time—to accept sub-

The EAGLE SCREAMS

VOL. 7

Thursday, Oct. 18, 1945

No. 5

The Eagle SCREAMS is published every business day by the O'Donnell High School in and through the Index-Press.

Editor: Wayne Vandiver.
Co-editor: Darrell Merrick.

Reporters: Trula Mae Harris, Hazel Swinney, Wanda Jean Huffines, Kenneth Pearson, Mabel Wilson, Eva John Etter, Sam Goad, Jerry New, Peggy Beach, Darrell Merrick, Dorothy Lee Barnes, Louise Pearson. Typists: Virginia Vandewere, Tom Schooler, Bernadine Walls, and Darrell Merrick.

EAGLE EYE VIEWS

Dan Turner writing notes to Trudy Melton in the 4th period study hall. We wonder what they could be about.

Why can't Earnest Richardson make up his mind between the two Ruths? Ruth Locke and Ruth Davis???

Flash!!! Marcia Lane has a crush on Bob Clark. Who will it be next?

NOTICE: anyone who wants to leave your kids with someone while you go somewhere, take them to Laron Davis. He only charges 25c a nite. He specializes in teen-age girls.

Dorothy Ritchey, C. W. Stubblefield, Billie Harris and Foots Walker were seen together Friday nite.

Who was the soldier Trudy Melton was flirting with at the ball game Friday nite?? Could it have been Cecil Durman???

Why is Betty James so sure her guy won't be long gone. Just because his name is "Edward Brownlow" won't make his boot training

any shorter. Snooper about Tobe Farmer couldn't stand a certain little Draw girl. But he was with her Saturday. What happened to him and Mennie?

Joyce Thompson's thrill of the day is the 7th period Study hall when she gets to sit with that handsome James Blair.

Everyone was certainly disappointed to find out Billie Ruth and Carroll Jones were cousins for they thought she was stepping out on Gene Sunday when with Carroll.

Why does Patsy like "They're Getting Farther and Farther Apart"? Could it be because it was the last song she and Pace heard together? Poor Pat, she's got it bad and that ain't good.

Who were Doris and Pottie McMillan with Saturday nite?? It couldn't have been Billie Joe Oliver and E. J. Turner, could it??

Wonder if Snookie Simpson is losing her hold?? Dan was with Ouida Isaacs Friday nite??

Why didn't Pottie McMillan go with Bill McKenzie Friday nite?? We know he asked her.

What is this we hear about Hazel Swinney and Robert Isaacs???

Who was Deb Moore sitting in the show with Sunday?? Could it have been Jerry Schuler???

KOENINGER TELLS OF NEW REFRIGERATORS

Burl Koeninger, local Frigidaire Appliance Dealer at O'Donnell announced upon his return from a Frigidaire Sales Conference in Ft. Worth that electric ranges and refrigerators are now in mass production at the Frigidaire plants.

Recent War Production Board rulings have rescinded any and all restrictions on the sale of electric ranges to the public and the Frigidaire range will soon be on display in the City Service and Appliance Store. However, the refrigerators, under current WPB regulations, are frozen in a government stockpile. The exact date of their release is not known at present. Mr. Koeninger stated that the sample Frigidaire products he saw at the conference, and which were right off the production line, had all the quality, workmanship, and eye appeal of the prewar models.

Meanwhile, Mr. Koeninger stated that the rapid reconversion and the availability of facilities at the Frigidaire plants in Dayton indicate housewives will soon be able to purchase most Frigidaire products. Adv.

To The O'Donnell Trade Territory

O'Donnell, Texas

October 22, 1945

We are happy to announce the reopening of our business, formerly "Burl's Auto Parts", under a new name, "City Service and Appliance". Temporarily we will be located in Dr. Babany's old office. Due to the shortage of merchandise and a limited space, we will devote most of our effort on the new post war Appliances while in this location.

We have planned, and are purchasing the materials, for a new brick and tile building to be erected in the near future one block south of the bank. This building will be very modern and sufficiently large to take care of an expected increase in our line of business. In our new location, we will operate a business similar to the one we were operating prior to the war, with the same lines of merchandise plus several new lines.

Meanwhile, we expect to serve our friends and customers as best we can in this new location, and we will appreciate it very much if you will stop by for a visit and your new literature on the post war Appliances.

Thanking you very much for your kindness and consideration in the past and looking forward to the same friendly business relations in the future, I remain

VERY TRULY YOURS,

Burl Koeninger
