### SOME CHANGES MADE IN INCOME TAX RULES

The 1955 income tax forms and instructions to individual taxpayers have been mailed, John R. Robinson of the Lubbock office said today.

"Taxpayers receiving tax blanks and instructions by mail should not misplace or discard them, but should save them for use in filing their returns since the supply of instruction pamphlets is limited," he added.

A study of the new tax forms shows a few changes which make the return easier to complete. A new tax table for married taxpayers filing jointly eliminates the complicated computation of the return for figuring tax on split incomes.

Farmers who file and pay estimated taxes by the Jan. 15th deadline may also obtain the forms at district and local offices. Most post offices have a supply of tax forms.

### DO YOU HAVE MITES?

A tiny eight-legged creature so small it can not be seen with the naked eye can make a red-eyed insomniac out of a sound sleeper or send a strong boy or girl into spasms of itching misery.

The next time Johnny comes scratching at his wrist or ankles, think of the "scabies mite," as State Health Department calls this pernicious little skin borer.

The mite bores into human skin to lay its eggs, leaving a raised zig-zag track near the skin surface to mark its course. Evidence of its presence is often first seen between the fingers, around the wrists or ankles. If left untended it will spread over a large body area, bringing intense itching as it goes.

Scabies is spread when a young female mite leaves one person's body and bores into the skin of another. Sometimes the transfer is made during a handshake. Sometimes it spreads thru whole families from a small lesion on one child's hand. The treatment for scabies is well known and effective and can be prescribed by the family doctor.

Children with mites should be excluded from school until they have recovered. This is very important.

### Carroll Cobb Seeks State Senate Post

Carroll Cobb, of Lubbock, today announced his candidacy for the State Senate, subject to the Democratic primaries this summer, from the 25th District composed of Andrews, Cochran, Crosby, Dawson, Gaines, Hockley, Lubbock, Lynn, Martin, Terry, and Yoakum counties.

Cobb, who is married and resides at 1641-B Boston, is approaching his 30th birthday. He was born and raised in Gaines County where his family settled in 1905. He is a veteran of World War II and a recent graduate of the University of Texas Law School in Austin and is now practicing law in Lubbock.

In 1952, Cobb was elected to the Texas House of Representatives from the 99th Representative District composed of Andrews, Dawson, Gaines and Lynn Counties. He was re-elected in 1954 without opposition. As a Democrat he has always supported the party and has never been cross-filed.

In 1953, Cobb supported a pay increase for school teachers which was finally passed in 1954. During the 1955 Session of the Legislature, he sponsored and supported measures designed to tighten the management and at the same time extend the Veteran's Land Program. He also served as Chairman of the House Sub-committee that drafted legislation which substantially increased the incorporation requirements of insurance companies

He states he has never accepted any fee or retainer in connection with Legislation or for appearing before State Boards or Agencies.

Cobb is planning a very active campaign during which he is eager to discuss and give his views on any issue. A card addressed to him in care of the Lubbock National Bank Building will bring a personal response.

He feels that his two terms in the House of Representatives coupled with his inherent knowledge of the District, well qualify him to capably represent this eleven county district in the State Senate.

**It looks high priced**  
 ...but it's the '56 Chevrolet!

THE NEW BEL AIR SPORT COUPE—one of 19 high-priced-looking Chevrolet models.

Who wouldn't mistake this handsome new Chevrolet for a high-priced car!  
 It looks strictly "upper bracket" with its bold new Motoramic styling . . . its longer, lower hood . . . its proud new grille that spans the full front end.  
 Even the details would do credit to an expensive car . . . like the sleek, high-fashion taillights (the left one hides the gas cap!).  
 But, even beyond the costly appearance of its Fisher Body, Chevy gives the high-priced cars a run for their money. For it's

one of the few great road cars built today!  
 It brings you the added security of nailed-down stability on turns and lightning acceleration for safer passing. Horsepower now ranges all the way up to 205! All engines now have hydraulic-hushed valve lifters.  
 Of course, Chevrolet has safety door latches in all models. In addition, you can have seat belts, with or without shoulder harness, and instrument panel padding at extra cost.  
 There's a new Chevrolet just made for you. So come in and highway-test it.

Looking ahead with confidence!

This is the time for the economic prophets to peer into the future and tell us what kind of a year it will be. Sometimes they are right; but quite often they are wide of the mark.

If we will each look ahead with confidence, courage and the determination to make stepping stones of our obstacles; then, we are pretty certain to have a successful year.

You'll enjoy better living — and your home will stay modern longer — if you specify wiring that will allow convenient use of the appliances you now own... plus those you'll want to add in the future.

You'll have plenty of outlets for lamps and small appliances; and circuits for room air conditioners, an electric dryer, an electric range and other appliances, if your wiring is planned for modern electrical living.

See your electrical contractor, architect or builder. He will gladly help you plan modern wiring for your home.
