1939 STUDY CLUB MET THURSDAY

Mrs. J. A. Lunsford was hostess Thursday March 21 to eighteen members and two associate study club members last Thursday.

Mrs. Ben Moore was director for the program which was on the "Middle West". Mrs. R. C. Carroll discussed "Chicago, Second City of the U. S. and Aim to be First".

"The Black Hills of South Dakota" was given by Mrs. J. H. Crawford. "Rivers and Lakes of the Middle West" was given by the director. The hostess served punch with sandwiches and cake decorated with tiny Easter eggs.

Those enjoying this occasion were Mesdames Wells, Lambert, Nichols, Brewer, Everett, Howard, Blocker Shoemaker, Moore, Middleton, McLaurin, Koening, Knight, Hance, Goddard, Earles, Crawford, Carroll and Higginbotham.

STOCK SHOW AT GAIL ATTRACTS CROWD of 3,500

Three thousand, five hundred people from Lynn, Scurry, Howard, Dawson and Garza counties gathered at Gail Saturday for Boden county's second annual field day and fat stock show.

Grand champion calf of the Boden 4-H club show was shown by Murray Jackson, A. C. Alexander, vice president of Snyder National bank, put in the successful auction bid of 15 cents a pound for Jackson's 905 pound champion entry.

Judges were George W. Barnes, specialist in animal husbandry at A. & M. college and J. D. Prewitt, district six agent.

One of the most colorful events of the day was an old fashioned barbecue, served to 3,500 people who went through a feeding chute one at a time.

Reserve champion was shown by Waldon Street, who placed second in lightweight dry lot calves.

few days last week with relatives and old friends. Mr. and Mrs. Buster Fletcher spent the week end near Snyder with Mrs. Fletcher's parents.

Mrs. Bingham has been on the sick list for several days. Mr. and Mrs. J. W. Paysnoe made a business trip to Lubbock this week. Mr. and Mrs. Ray Richie spent Easter with his parents at Loop.

HERE FROM DENVER

Mr. and Mrs. G. R. Haney and son George of Denver, Colorado, Mr. and Mrs. Q. T. Haney and James and Joyce of Lubbock and Mrs. J. R. Williams and Miss Georgia Mae of Lamesa were guests in the John Earles home Sunday.

Mrs. and Mrs. M. J. Whitsett were guests in the C. E. Eiland home in Lamesa Sunday.

Mr. and Mrs. George Knight of Tahoka were guests of Mr. and Mrs. C. L. Hafer Sunday evening.

COACH CONGER RESIGNS AS EAGLE MENTOR

That a new football coach will lead the O'Donnell Eagles into battle next fall was decided this week when Coach M. D. Conger informed the board of school trustees that he would not seek re-election to his present post.

Conger's action was caused through the offering of more lucrative positions, one of which he expects to choose soon. He has served the schools of O'Donnell for three years, and has produced hustling ball clubs.

At the same meeting of the board, Mrs. Paul Gooch was again elected to serve as principal of the grade school, and Jack Snodgrass signed as science teacher.

A riddled snafu, principally due to the invoking of the 18-year old rule, will face the new coach of the Eagles. Only two lettermen will answer his first call. Louis Clark and Tech McLaurin.

Players whom the team had been building up, stalwarts Hal, Crouch, Garner and Pierce, were cut from the squad by the new ruling.

MRS. HUGHES AS CLUB HOSTESS

Members of the Tuesday Bridge Club were entertained by Mrs. Newell Hughes at the Palmer home this week.

A variety of flowers which included iris, hydrangeas and lilies decorated the entertaining room where bridge was played at three tables.

Mrs. Marshall Whitsett won high score prize and also slam prizes were presented to Mrs. Whitsett and Mrs. William G. Forgy.

A delicious refreshment plate with punch was served at the conclusion of games. Guests were Mesdames J. W. Davis, Floyd Thompson and Miss Jim Ellen Wells.

Members were Mesdames J. Mack Noble, Guy Bradley, C. L. Hafer, Charles Hoffman, Pauline Campbell, Marshall Whitsett, E. T. Wells, William G. Forgy and Miss Thelma Palmer.

Mrs. Harvie Jordan will be hostess next week.

NAZARENE W. F. M. SOCIETY

Members of the society met with Mrs. Fleming Tuesday March 26.

Preceding the covered dish luncheon at the noon hour a quilt was quilted.

Mrs. Maynard Eubanks assisted the hostess in serving lunch. In the afternoon Mrs. W. B. Phillips gave the devotional, which was three chapters of St. John.

Prayer by Mrs. Audrey Cook. Ten members were present, one new member and three visitors. Mrs. Dana Jackson will be hostess April 9.

ATTEND FUNERAL

Mr. and Mrs. E. T. Wells and Mr. and Mrs. C. L. Hafer were in Tahoka Saturday to attend the funeral of Mrs. W. S. Swan.

REV. LUNSFORD, LOCAL BAPTIST MINISTER, ACCEPTS CALL TO MISSIONARY POST IN AFRICA

Church Services To Be Held April 7 At Neumore

Church services will be held at Neumore the first Sunday in April, according to Elder Tyne Smith, both in the morning and afternoon. Dinner will be served on the ground.

NEW OWNERS OF, LOCAL GROCERY NOW IN CHARGE

Purchase of Dee Seely's grocery was announced Thursday afternoon by Cecil Abraham of Mingo Texas. The change in ownership was made effective at once.

According to Mr. Abraham, he and three of his brothers are to be in partnership, with Sam Abraham of Crosbyton to be manager.

While plans are now being made by the new owners to rearrange the store, and add larger stocks, many of them are only tentative and cannot be worked out until the next week or two.

Mr. Seely, who has operated the store since last June, and who purchased from Linek Son, will remain in the store for at least 30 days, so he says, and work with the new owners.

FROM LUBBOCK

Guests from Lubbock Sunday in the home of Mr. and Mrs. Bedford Caldwell were Mr. and Mrs. Lewis Kerr and daughter Eva Ann and Ralph Caldwell and Miss Genevieve Bragg.

FROM LAMESA

Judge and Mrs. J. E. Garland and Mrs. Ola Tinkler of Lamesa visited in the J. Mack Noble home Sunday.

Mrs. W. L. Palmer, Miss Thelma Palmer and Mrs. Marshall Whitsett were in Lamesa Monday morning.

The Rev. and Mrs. J. A. Lunsford have been accepted for duty as missionaries to Africa, and will leave here for their new work after May 1, according to announcement made this last week by the ranking Baptist Missionary board in Richmond, Va.

The Rev. Mr. Lunsford has been pastor of the local church for about three years, and has proved a popular minister, while Mrs. Lunsford has given unstintingly of her time in both church and ladies' auxiliary work.

The couple has two children, both small. While wishing to place no bar in the way of the minister and his wife in their effort to achieve the work which they desire, members of local church regret losing the Rev. Mr. Lunsford and his family, and have no hesitancy in saying that their places will be hard to fill here.

Very few personal effects can be taken to Africa when the couple sails, and the Rev. Mr. Lunsford is now planning the sale of his car and household goods.

UNDERWENT APPENDECTOMY

Miss Hope Shook is recovering from an appendectomy that was performed in a Lubbock hospital this week.

Miss Shook is the daughter of Mr. and Mrs. J. W. Shook of this city and a senior student at Tech.

VISITED IN DENTON COUNTY

Mr. and Mrs. G. P. Haney and George of Denver, Colorado and Mr. and Mrs. John Earles were in Denton county this week visiting Mr. and Mrs. Archie Haney.

Mr. and Mrs. C. L. Hafer visited friends in Lubbock Sunday afternoon.

Miss Louise Edwards who teaches in McCamey spent the Easter holiday with her parents, Mr. and Mrs. Don Edwards.

Attention...

...POULTRY RAISERS!

When you go after your next sack of poultry feed, be sure that it is fresh. Age brings on staleness and loss of vitamin content.

DIVIDEND feed is Fresh. Dividend feed is manufactured by the Davis Hatchery in Lamesa. It was formulated 12 years ago by Dewey H. Davis, owner of the Davis Hatchery and Poultry Farm. He tried several brands of feed and then made one to meet his requirements. A high quality, well balanced ration at a moderate price.

Starter \$2.85
Layer \$2.25
Grower \$2.50
32 per cent \$3.10

BABY CHICKS

New Legislation Extends Benefits Of FHA-Insured Mortgage Plan to Farms

Farmers may now use an insured mortgage to build or repair houses, barns, sheds, poultry houses, silos, put up windmills or other farm structures.

As much as 99% of appraised values can be loaned in some cases. Land may be either bought or refinanced on this plan when 15 percent or more of the loan is used for materials and labor on the construction or repair of buildings. These loans are made by local institutions, they are not government loans, but private capital insured by FHA.

The interest is 4 1/2 percent, payments can be made monthly, semi-annually or annually, in equal installments, depending upon the distribution of the farmer's income throughout the year.

At the discretion of the lender the loan may be paid over a period of 20 to 25 years. This means that the responsible farmer can provide his family with a modern attractive home without waiting years to accumulate the cash—a tenant farmer can buy his own farm—and the farmer burdened with short-term high-interest mortgages can replace them, modernize his farm, and clear the debt completely in convenient payments.

For Appraisals and Applications, See or Write,

SUN TO BE BLACKED OUT BY MOON, APRIL 7; FIRST TIME IN 75 YEARS

On Sunday, April 7th, the people of Texas and Louisiana will witness a blackout of the sun by the moon, according to the forecast of astronomers. The eclipse will be what is known as an annular or ring eclipse and will cover approximately 86 percent of the sun. It will cause a twilight effect and the atmosphere will have a singular transparency but tinted a shimmering greenish yellow.

The eclipse will be visible over most of North America but will be best advantage in Texas and from Georgia to Florida. No such spectacle has been seen in the United States since 1865, a period of 75 years, and it will not occur again until May 10, 1944. So if you are well along in years you had better take a look at the eclipse on April 7. You probably will not be here in 1944.

Aviation Mechanics Being Taught At WTSTC, Canyon

Canyon, March 29—A course in aviation mechanics for young men now enrolled in the pre-college NYA project here will begin April 15. Twenty-four students will enroll. David Bletner of Amarillo, who was to have been the instructor but has been made the supervisor of aviation mechanics, will name the teacher. The work will continue through the summer and fall. Some of those taking the training expect to obtain jobs in the aviation industry. Otto Brown, NYA project supervisor, says the West Texas State College aviation workshop will be

one of the best in the state. The federal government is shipping several carloads of airplane engines, parts, and machinery. The shop is rapidly taking form under the foot-ball stadium. Concrete floors are being run and partitions placed. The NYA project is being increased to 72 men, part of whom are studying electricity, auto mechanics, and sheetmetal work. This project is in addition to the Civilian Pilot Training program in which more than a score of college students are enrolled. All of these have solved.

HOW TUBERCULOSIS IS ACQUIRED

Infection is almost always acquired directly from persons suffering from tuberculosis who have the germs in their sputum. Germs are transmitted through the air from the tuberculous individual to another person by careless coughing and sneezing. Germs may be carried also by indirect contact with a tuberculous person, such as using drinking cups or handling books or other articles previously contaminated by the tuberculous person, but harmful infection from such source is believed to occur rarely.

Many, if not most, adults are relatively immune to infection, but it is possible of course for an adult previously infected in childhood and therefore relatively immune, to develop an overwhelming additional infection sufficient to cause disease from prolonged and careless association with a tuberculous person. On the other hand, children are so susceptible that they almost invariably contract a massive and therefore potentially dangerous tuberculous infection when brought into repeated contact with persons ill from the disease. Although only a small percentage of infected children at the time or later develop active tuberculosis, there is absolutely no way of telling beforehand which child will escape with a comparatively harmless infection and which is destined eventually to become a prey to actual disease. To be safe, all children should be protected at all times from exposure to tuberculosis infection from persons known or suspected of having the disease.

Small children who crawl or play on floors and rugs in improperly cleaned rooms formerly occupied by tuberculous patients are very likely to become infected. While readily destroyed by exposure to direct sunlight, tuberculosis germs have been known to remain alive for months, both indoors and outdoors, in places inaccessible to direct sunlight.

Children, even in adolescence, should be kept away from persons in poor health and more especially chronic coughers. Individuals (including elderly persons) who attribute a chronic lack of good health to "weak lungs," "bronchial trouble," "lasting colds," "pleurisy," "asthma," "poor recovery from influenza," etc., too often in reality are suffering from tuberculosis but do not suspect the true nature of their condition and

consequently take no precaution against spreading infection to others. Unsuspected cases of tuberculosis among parents, grandparents, servants, school teachers and others, undoubtedly are as much responsible for the transmission of tuberculosis germs to children as are all the

known cases combined. Tuberculosis may be contracted by eating infected foodstuffs especially raw milk from tuberculous cows. In larger communities tuberculosis from this source has decreased remarkably due to the fact most herds supplying city milk must be tuberculin

tested, and accredited dairies required to deliver Grade A or B milk. Rural communities small cities often fail to appreciate the importance of regular and full dairy inspection. Care should be taken that children have as rich but safe milk to drink.

NEW LIFE

—more than a change from fagged Winter oil when you change to OIL-PLATING

Winter takes the tuck out of your oil and puts in the grit. It's cheating yourself not to have that scratchy mess drained out. Change to clean oil at least—preferably to patented Conoco Germ Processed oil because that will promptly OIL-PLATE your engine. And the change to OIL-PLATING beats a plain oil-change at the same price by fastening lubricant up in the cylinders to stay PLATED up there—even while pistons move clear down—and while the car stands still for hours. That is, through all the millions of moments when the usual fluid oil-film goes draining out to the crankcase, your Germ Processed oil maintains constant OIL-PLATING—an extra inner lining of lubricant that's drain-proof.

You know the good of it when you realize that OIL-PLATED surfaces can't drain dry of lubricant during all the starts and runs you'll make this season with patented Germ Processed oil in your engine. Like chrome-plating keeping bumpers "wrapped away" safely from rust, OIL-PLATING keeps the far more valuable engine parts "wrapped away" safely from extreme wear. That is how to keep the life—and the oil—in your engine. Have Your Mileage Merchant OIL-PLATE it today with its recommended Conoco Germ Processed oil for Spring. Continental Oil Company

SEE GAIN IN CROP INSURANCE

More than 310,000 winter wheat farmers have secured Government insurance to protect themselves against drought and other disasters and have thereby guaranteed almost 75 percent of the normal yield. The Federal Crop Insurance Corporation regards this as evidence of the growing approval of Secretary Wallace's New Normal Grain Plan since last year there were only 107,000 who insured.

THAT REFRESHING APRICOT FLAVOR

There's a delicate refreshing flavor about apricot sauce which is particularly welcome at this season of the year—before our wealth of summer fruits and vegetables are in market. But why enjoy this lovely flavor only in a sauce? Isn't there some other way that we can use our cooked dried apricots besides in a sauce? How would you like a lovely fluffy cake flecked with tangy bits of cooked apricot? It's really a delightful cake—particularly when it is topped with either a luscious apricot butter icing or an interesting apricot-coconut icing. Doesn't that sound like the sort of a cake to surprise and please the family?

APRICOT CAKE

- | | |
|--|----------------------------------|
| 1 cup shortening | 1/2 cup sifted all-purpose flour |
| 1 cup sugar | 1/2 tsp. baking powder |
| 1 egg | 1/2 tsp. soda |
| 1/2 cup drained, cooked apricots (cut in small pieces) | 1/2 tsp. salt |
| 2 cups sifted cake flour or 1 1/4 | 1/2 cup water |
| | 1/2 tsp. almond or lemon extract |

Cream the shortening, add sugar gradually, and cream thoroughly. Blend in the well beaten egg and apricots. Sift the flour, baking powder, soda and salt together and add to the creamed mixture alternately with the water. Blend in the flavoring. Pour into a well-greased and floured 8-inch square pan and bake 25 to 30 minutes in a moderate oven (350° F.).

TO PREPARE APRICOTS

1 cup dried apricots (1 1/2 lb.) makes 1 cup cooked apricots. To cook dried apricots: Place them in a heavy sauce pan, add just enough hot water to cover them well, and let cook slowly for 20 minutes or until soft.

TAKE YOUR CHOICE OF ICINGS

Both the icings I've suggested for this unusual apricot cake are so delicious, and they blend so perfectly with the cake that I find it hard to tell which is the most delightful. So I'm going to give you both of them—and let you decide for yourself which will appeal most to your family. They are both easily and quickly made.

UNCOOKED APRICOT ICING

- | | |
|-----------------------------------|-----------------------------|
| 3 tbsp. butter | small pieces) |
| 2 cups confectioners' sugar | few drops of almond extract |
| 1/2 cup cooked apricots (cut into | |

Cream butter, add sugar gradually, and continue creaming while adding the apricots gradually to moisten the mixture. Beat until smooth and fluffy. Then blend in the almond extract.

BROILED APRICOT-COCOONUT ICING

- | | |
|-----------------------------------|--------------------------|
| 2 tbsp. melted butter | small pieces) |
| 1/2 cup brown sugar | 1/2 cup shredded coconut |
| 1/2 cup cooked apricots (cut into | |

Mix all the ingredients together and spread lightly on the cake while the cake is still warm. Place very low under the broiler with the heat turned low. Broil about three minutes, until the mixture bubbles and slightly browns.

IF YOU HAVE NO BROILER

If you do not have a broiler, place the cake very near the top of the oven where the heat is intense—and leave the cake there for 3 minutes. You'll find that the coconut will become nicely toasted—and the icing will be like broiled icing when you take it out.

If you have any specific cooking problems, send a letter requesting information to Betty Crocker in care of this newspaper. You will receive a prompt reply. Please enclose 1 stamp to cover postage.

Mr. and Mrs. C. A. Stretch and Mrs. Stretch's daughter, Mary Louise Singleton visited relatives in Desdemonia last week end.

Mrs. Hervey Gardenhire and son Edwin visited in Lubbock Tuesday.

Mrs. Stansell Jones and Mrs. Geo. Oates were shopping in Lubbock Friday.

Dr. and Mrs. J. R. Singleton of Tahoka visited in the Hal Singleton home Sunday.

Dr. J. W. Davis was a business visitor in Ft. Worth Tuesday.

Mrs. Grant Winston and daughter Judith were in Lubbock Wednesday.

Mrs. Roy W. Gibson and June were in Lubbock Wednesday.

Only Chevrolet has
"THE RIDE ROYAL"

—because only Chevrolet has all these modern features which make it possible!

The Master De Luxe Town Sedan, \$726*

Eye it... Try it... Buy it!

The 1940 Chevrolet gives higher quality at low cost! . . . Low Prices . . . Low Operating Costs . . . Low Upkeep.

No other motor car can match its all-round dollar value

Chevrolet's IMPROVED KNEE-ASTRON low Special De Luxe and Master De Luxe Sedan is assembled as an integral unit complete in itself, to ensure perfect balance and, therefore, perfect springing, steering and braking in each individual car.

Chevrolet's STABILIZED FRONT END—with radiator, hood, headlights and fenders firmly and securely bound together in a rigid framework of structural steel, gives true front-end stability.

Chevrolet's AUTOMATIC RIDE STABILIZER, attached to the front end of the chassis frame, and linked to the lower floor-plate members, instantly generates steadiness on curves and sharp turns!

Chevrolet's SCIENTIFICALLY BALANCED SPRINGS, with double-acting shock absorbers, and with spring action varying automatically according to load and deflection, assure uniform riding smoothness at all times.

Chevrolet's BALANCED WEIGHT DISTRIBUTION in this LOWEST OF ALL LOWEST-PRICED CARS gives that scientific distribution of weight over front and rear springs so essential to a smooth, level ride.

Chevrolet's RIGID ALL-STEEL BODY and BOX-GIRDER FRAMES—the strongest and most rigid body and frame construction known to modern automotive engineering—adds that final degree of comfort and safety which spells today's finest ride . . . "Chevrolet's Ride Royal!"
