YOUTH --

Youth is not a time of life -- it is a state of mind. It is not a matter of ripe cheeks, red lips and supple knees; it is a temper of the will, a quality of the imagination, a vigor of the emotions; it is a freshness of the development of life.

Youth means a predominance of courage over timidity, of the appetite for adventure over the love of ease.

Nobody grows old merely living a number of years; people grow old only by deserting their ideals. Years wrinkle the skin but to give up enthusiasm wrinkles the soul. Worry, doubt, self distrust, fear and despair -- these are the long years that bow the head and turn the growing spirit back

Whether 70 or 16 there is in every being's heart, the love of wonder, the sweet amazement of the stars and star like things and the unfilling childlike appetite for what next and the game of life

You are as young as your faith is covered with the snows of pessimism and the ice of cynicism, then you are grown old indeed and may God have mercy on your soul.

MISS GILBERT HONORED

Miss Stacey Jane Gilbert, a freshman, was chosen student of the month for February. This is a national honor society project.

A daughter of Mr and Mrs Brad Gilbert, she has been a member of the marching band for three years, was on junior high basketball team and is a nominee for freshman favorite and recently elected reporter of the freshman class

She is also active in the Youth Program of the Methodist Church

Teachers, in nominating her, said that she is a thorough student cooperating with students and teachers, pleasant and has qualities of leadership.

She is the granddaughter of Mrs Rosa Gibbs of O'Donnell

A LITTLE HURT MAY SAVE YOUR LIFE

The paradox that a "little hurt" can prevent a lot of sickness was discovered by scientists about a hundred years ago.

An English country doctor named Edward Jenner took a little serum from a cowpox pustule on the arm of a milkmaid and scratched it with a lancet into the arm of a neighbor boy. A smallpox like sore appeared on his arm and he had other mild smallpox like symptoms.

Today, thanks to Dr. Jenner, we can have a similar immunization and avoid the disfiguring and killing epidemics which once swept Europe.

Several years later in France Louis Pasteur made a startling discovery one morning. The discovery -- a re-inoculation of some chickens with chicken cholera -- set the wheels turning in Pasteur's creative mind.

"I've found a way to make a beast a little sick -- inject some microbes into a chicken so that it gets the disease but only a little of it -- and when it gets better -- it can resist the disease. We can apply this to other diseases in man: we can save lives." These may have been some of the thoughts running thru Pasteur's mind.

Pasteur also explored and experimented until he found a way to protect man from the dread rabies thru a series of inoculations. Today we use about the same method to keep a man bitten by a rabid animal from developing the disease.

Another advance in immunology was made in 1923 when a toxin was developed to save hundreds of babies each year from gasping death of diphtheria.

In the last 10 to 15 years we have read and watched the drama of polio vaccine unfold. Princinal play acts in that drama were Dr. Jonas Salk of the U. of Pittsburg and Dr. Albert Sabin of University of Cincinnati

Dr. John Enders of the Children Hospital in Boston just recently developed a measles vaccine to save lives and impairment in hundreds of children.

These dedicated scientists did not enter these diseases -- smallpox, rabies, diphtheria, polio and measles in the literal sense. They simply gave us a means of preventing them

DROPOUT PROBLEM IS OF NATIONAL CONCERN

Three million of the nation's young people between the ages of 16 and 19 have become dropouts.

Although this alarming number is cause for concern, nevertheless the rate of dropout has dropped from 41 percent to 30 percent since 1958

The term dropout doesn't bring pleasant pictures to mind. Many people often associate the colloquial term with juvenile delinquents. Yet the boy or girl who becomes a dropout may be a nice young person -- just bewildered, unsure of himself, and his goal in life.

Many youngsters face the decision of whether to leave school or continue before they are old enough or experience enough to decide wisely. The process which leads to a student leaving school is a long one -- and it is affected by the student, his family and his school.

Youngsters need guidance and encouragement from their families and school officials. Many people must share the blame for a school dropout.

ARMY OFFERS GRADUATE SPECIALIST PROGRAM

Sgt. Mel Baker, local Army recruiter informed the Index that the Army is offering the graduate specialist program again this year to all high school seniors who wish to take advantage of this program.

Students who wish to have a guaranteed technical school waiting for them upon their graduation from high school should indicate their desire to pre-qualify on the senior survey cards they will receive thru the mail in the near future. This does not obligate the student to join any branch of service however it would give them the opportunity to obtain information as to the exact school or assignment they are mentally and physically capable of attending in the military service

Pre-qualifications will be accomplished on Saturdays and will not interfere with any school schedule. Male students 17 years of age and all female students must have their parents written consent to make the examinations.

SCHOOL BID IS LET
Holiday Construction Co. of Lubbock was awarded the contract for building the new six unit Junior High School building and Gym Addition for a low bid of \$121,400. Next bid was \$128,404 and 3rd bid was \$128,947.

Last fall school patrons of the district voted bonds for this proposed improvement. Last spring (1964) school patrons put the bid to a more ambitious building program which included a modernistic gym. Supt. White was pleased with the low bid and said the work would be completed by August. Mr. White is a "home town boy" in thinking and will see that the maximum of local people are employed. In employing teachers next year Charlie plans to have a maximum living in town. The community is pleased with his
