Blanks Are Here For Applicants For Reforestation Work

Judge J. H. Carpenter has received the necessary blanks for applicants who wish to sign up for reforestation work. For some cause the blanks were delayed as they should have been received the latter part of last week. All who wish to enroll for this work will call at the court house where enrollment will be made. Judge B. L. Russell is in charge of this work and applicants will call at his office.

Callahan county has been allotted 26 men for enrollment in the 11,750 Texas quota for Reforestation work.

To be eligible for enrollment applicants must be single men of any race, creed or color, not less than 18 nor more than 25 years of age, must have been enrolled in Callahan county relief work, and must have dependents to whom they will remit the greater part of their payment of \$1.00 per day.

After they have been selected they will be sent to the U. S. Recruiting office at Fort Worth and will have to pay their own way to Fort Worth, where, if accepted for this service, they will immediately be issued clothing, mess kit, and other equipment and their pay will start. They will then be sent to Fort Sill, Oklahoma, for a two weeks stay and after that attached to a unit of 200 and sent out into camps where they will work eight hours per day for five days per week, and will also receive vocational and mental training. Their enlistment lasts for a term of six months and they will not be discharged except under extraordinary conditions.

All application blanks properly filled out and signed, must be in the Fort Worth office May 15.

Gardens Will Aid RFC Workers

The Star suggests to the people of Baird that Community Gardens such as many cities around us are planting would do a great deal toward helping out in the RFC and Red Cross work being done here.

There are any number of locations where fine gardens can be grown. Some two or three of these places have wells where a pump could be placed and the gardens irrigated.

The labor for putting in these gardens could be paid out of the RFC fund and we feel sure that funds for paying for a team to do the plowing and buying seed could be made up readily among our people.

We have had a good rain and if these gardens were planted now, everything would grow rapidly. This would be a splendid piece of welfare work for the ladies of the city. Think about this proposition.

BIRTHS

Born to Mr. and Mrs. R. L. Bryant of Iona, on Tuesday, May 2, 1933, a nine pound son, who has been christened Bobbie Gene. Bobbie Gene is a grandson of Mr. and Mrs. Walter S. Bryant.

Heavy Rain And Hail Storm

A heavy rain and hail storm hit this section Wednesday afternoon doing considerable damage here. A number of house roofs and automobiles were damaged by hail, which while not so heavy was the largest stones to fall here for years; some of the stones were as large as baseballs, many were as large as hen eggs and went right through some of the house roofs of the city.

A heavy wind of cyclone nature swept the south and east part of Baird tearing down trees and doing other damage; the heaviest being in east of Baird where the house on the Bell ranch was wrecked; also a tool house which was recently completed by James Asbury and R. L. Elliott who have the place leased. A chicken house and other out-houses on John Asbury's farm were wrecked. Also some damage done on the Bob Beck farm.

Considerable damage from hail and wind is reported from Taylor county. A cyclone struck at Iberas wrecking the Baptist church and several residences. An inch rain fell in Baird.

S. E. Galloway, Former Mgr. W. T. U. C. Here Dies

S. E. Galloway, 47, a former resident of Baird where he was local manager for the West Texas Utilities Co., died in a sanitarium at San Angelo Sunday. Mr. Galloway had been in ill health for several months and had gone to San Angelo six weeks ago for treatment.

The remains were carried to Abilene for burial, funeral services being held from the Kirk-Knight Funeral Home Monday afternoon at 4 o'clock. Rev. R. S. Marshall, pastor of the St. Paul Methodist Church conducting the services. Burial was made in the Cedar Hill cemetery.

Mr. Galloway formerly lived in San Angelo, but in 1921 he moved to Abilene where he became associated with the West Texas Utilities Co. and served as district superintendent, at Baird Albany and Hamlin. At the time he became ill he was employed on the power department.

Mr. Galloway is survived by his wife and daughter, Miss Earline Galloway. Other survivors include Mr. Galloway's mother, Mrs. Eva R. Galloway, Grand Saline; two sisters, Mrs. C. G. Darby, Grand Saline and Mrs. A. A. Zachary, Mena, Ark., and two brothers, H. E. Galloway, Lanapassas and W. T. Galloway, San Antonio. All were present at the rites.

World's Youngest Radio Mentalist To Make Personal Appearance At Sigal Theatre To Night

Yvonne LeRoy, known for years as 'Princess Yvonne' is to make a personal appearance at the Sigal Theatre Starting Thursday, thru Friday and Saturday. The Princess is the lady psychologist that has been heard over some of the leading broadcasting stations. Prominent among these are 'Dad' Henderson Station, XER, XED, KMOX, 'the voice of St. Louis' and other stations.

Princess has gained a reputation that is enviable thru her remarkable accuracy in answering questions and making predictions over the air. It is interesting to note that LeRoy predicted Roosevelt election long before he went in office; Death of the Lindbergh Baby, four days before it was found. Recently she predicted the upward trend in prices concerning wheat and cotton; East Texas oil boom, and many other important predictions, concerning economic conditions upon having a conversation with this young woman we find that she has an unusually keen mind which is truly remarkable in one so apparently young. She tells us that she will give a lecture explaining technocracy; a subject that is bewildering to the majority of the people.

The Princess will give a mind-reading demonstration Thursday, Friday and Saturday answering questions for all who attend the show.

Tonight, Friday, will be the Jubilee Night! A county popularity contest will be held to decide the most popular girl of the county. This is sponsored by the merchants of Baird and Princess Yvonne. A large crowd is expected tonight to cheer the girls. All will be attired in evening gowns. The crowd will decide by popular applause who will win the contest. LeRoy assures us that she is utterly impartial and every girl has a fair chance for this honor. Princess Yvonne LeRoy will also give mind-reading performance, to-night.

Princess LeRoy will wear gowns from the Gilliland's Shoppe and her hair and finger nails will be arranged by Marinello Beauty Shop.

ANNUAL MEETING BAPTIST W. M. U. TO BE HELD AT HASKELL

The 25th Annual Meeting of the Woman's Mission Union of the Baptist Church of the Seventeenth District will be held at Haskell, May 9th and 10th.

The Callahan County Woman's Mission Union will be represented by Mrs. W. B. Atchison of Baird and Mrs. John Cook of Putnam.

MRS. JOE ARVIN SERIOUSLY ILL

Mrs. Joe Arvin is seriously ill with peritonitis at the Griggs hospital. Mrs. Arvin became ill several days ago with appendicitis and has been in a serious condition since.

Big Spring All Set For W. T. C. of C. Convention

Big Spring one of West Texas bustling and ambitious cities is all set for entertaining the most company it has ever had at one time next week when the West Texas chamber of commerce convention convenes.

Every local committee is right up to the minute with its work program. Nothing is dragging, and nothing is being put off until the last minute that can be done now in getting ready for West Texas' big meeting of the year. A committee has the entertainment all arranged. Another is getting everything ready to decorate the town and have it in gala attire when West Texans foregather there. There are 150 women serving on the ladies entertainment committee for the special entertainment of the visiting ladies.

Big Spring has set for itself a goal of having more than 1,200 of its citizens wearing badges to greet the visitors, and Wednesday morning 75 business men began selling the registrations.

The municipal auditorium is prepared for the big West Texas Revue. All West Texas cities have been asked to send girl representatives. Mrs. Lee Weathers is daily rehearsing the revue which promises to be one of the most colorful affairs ever pulled off in West Texas.

Hotel managers report that their room reservations are going fast and Big Spring has about the most commodious hotel facilities of any town its size in Texas—750 first class rooms. Tourist camps already have been reserved in full for visiting bands.

Judge B. L. Russell and others from Baird will attend the convention.

PROCLAMATION

WHEREAS The West Texas Chamber of Commerce for fifteen years has been a potent factor in the development of West Texas, and has fostered a program that has been of great benefit and value to this city; and WHEREAS the program in which it is now engaged is of direct benefit to this city, provided we avail ourselves of its services and cooperate with the other splendid cities of the common welfare of this section of Texas; and

WHEREAS The fifteenth Annual Convention of the West Texas Chamber of Commerce will be held in Big Spring on May 11, 12 and 13, and this city has been asked through our local civic organizations, our public officials, and the West Texas Chamber of Commerce director and committeemen to participate in the convention program.

THEREFORE by virtue of the authority vested in me as Mayor, I urge that as many of our citizens attend the convention in Big Spring as possible. I also urge that while in attendance at Big Spring they attend all the convention proceedings with a view to bring back to our city the many benefits of the program. It occurs to me that now is the time for West Texas to reassert its confidence in itself, and to strengthen the loyalty and enthusiasm that we have in our city, and West Texas, and that this convention offers a splendid opportunity for all West Texas to do that very thing.

H. SCHWARTZ,
Mayor of Baird.

B. H. S. Students Off To Austin For State Track Meet

Claude Daniels, athletic coach of Baird High School, accompanied by Judson Atchison, Donald Melton, Alvin Chrisman, B. L. Vines and Neal Stanley, left yesterday morning for Austin where the boys will enter the State Track Meet. They were accompanied by Austin Cooke, making the trip in Austin's car.

Judson Atchison and Donald Melton will enter the pole vaulting contest and with Neal Stanley and Alvin Chrisman will enter the mile relay race. Alvin Chrisman will also enter the 880 dash and B. L. Vines will enter the discuss throw contest.

It is said this is the largest number of boys Baird has ever had to enter the state track and field events.

The Presbyterian Ladies will take orders for flowers for Mother's Day. Phone, 261 or 349.

Parent-Teacher In Final Meeting of Year

The Baird Parent-Teacher Association met Thursday, April 27th for the final meeting of the school year. The program was opened with group singing, led by Miss Rives and an invocation by Mr. Boren. Miss Clark gave a very interesting and instructive discussion on the subject 'Developing the Child's Personality Through Play'.

The main feature of the meeting was a business session, with reports for the year by all officers and installation of officers for the coming year. Mrs. Hill had charge of the installation services. All old officers were re-elected with the exception of Mrs. Nunnally, who resigned because she moves away. Mrs. Cliff Harville was elected treasurer to take her place.

Following is the list of officers:
President, Mrs. Rupert Jackson.
First V-P, Mrs. R. F. Mayfield.
Second V-P, Mrs. Benjie Russell.
Third V-P, Mrs. Clyde Yarbrough.
Recording Sec'y, Mrs. L. B. Lewis.
Corresponding Secretary,
Mrs. Charlie Coats.
Treasurer, Mrs. Cliff Harville.
Reporter, Miss DeSpain.

The Association passed a motion to continue the summer Round-Up this summer especially of the pre-school age children. It also agrees to spend twenty-five dollars on the school libraries, the money to be divided equally between the high school library and the grammar school library.

Mrs. Fulton gave a very interesting report on the District Meeting of P. T. A. which was held in Ranger April 11-12 and which she attended as official delegate from the Baird Association.

MISSIONARY SOCIETY

The Missionary Society met in the basement of the Methodist church. Mrs. Hickman gave the last lesson in the book on Indians this was followed by a social; refreshments was served by Mrs. Rumph.

Broadway of America Motorcade Here Last Saturday

The Broadway of America Highway Association motorcade composed of 15 cars carrying 40 passengers headed for the Broadway national convention in El Paso, Texas, May 1-2 reached Baird last Saturday afternoon at 2:15 Judge B. L. Russell, director of the Broadway of America, accompanied by a squad of Baird Volunteer Firemen, riding the big fire truck, met the motorcade at the city limits and escorted them to the City Hall, where Mayor H. Schwartz in a short address welcomed them to Baird and West Texas. After a short stay here the motorcade headed west again and was expected to reach El Paso Sunday afternoon.

One of the outstanding features of the motorcade was the 'Silver Streak' a publicity broadcasting car known as the 'Voice of Hot Springs' with Scott D. Hamilton, manager of the Hot Springs Chamber of Commerce at the 'mike'.

The attractive silver and blue car is especially equipped with a complete public address system capable of providing music and other entertainment while the motorcade is in progress, and at the various stops.

Last year at the San Diego convention this car was named the official broadcaster for the motorcade, and convention by President Mackey.

While here, through the medium of the broadcasting car, Mr. Hamilton expressed appreciation to the people of the community for the reception accorded the 'Broadwayites' and extended a cordial invitation to 'Kum to Hot Springs' to visit Uncle Sam's oldest national park. Tom J. Allen, park superintendent, who was a member of the motorcade was introduced together with Robert A. Jones, regional vice-president of the Broadway; E. L. Hoylet, Chamber of Commerce, president and Broadway director and George Brenner, chairman of the Chamber's highway committee, all of Hot Springs. Other members of the Hot Springs party included Mesdames Howlett, Allen Brenner and Hamilton.

Gov. Ferguson Signs Mortgage Laws

Gov. Miriam A. Ferguson has signed two bills this week, to grant relief to hard-pressed property owners whose holdings are mortgaged and in danger of being disposed of at forced sale.

One of the bills would authorize district courts to postpone for 180 days the forced sale of property on affidavit and proof that the property would not sell for its actual value. Another extension of 180 days would be allowed if conditions had not improved by the end of the first period of grace.

The other bill would postpone until June the sale of real estate set for Tuesday of this week under mortgage foreclosure actions and deeds of trust. Both laws became effective immediately.

The Star is indebted to Hon. Cecil A. Lotief, Representative of this district for a copy of this law.

Jury Gives Winters \$18,400 Judgment

Jury Finds Against Two Defendants In Blast Damage Suit

Damages of \$18,400 were found for R. C. Winters and his son, Robert, suing in the fatal injury of Mrs. Winters in a gas explosion in Abilene last July 21, against the Singer Sewing Machine company and the Community Natural Gas company by a federal court jury Wednesday afternoon.

Jurors reported at 4:45 p. m., after a five-hour consideration of the case.

The verdict found damages of \$8,700 in favor of Winters against each the Singer Sewing machine and Community Gas Companies, and damages of \$2,500 in favor of Robert against each of the two companies.

Winters and son were represented by Hon. Thos. L. Blanton and sons, Thos. L. Jr., and Matt Blanton.

Keep On Going

A remarkable example of the spirit of aggressiveness of America business in meeting the exigencies of depression is found in the progress made by the share-the-work movement.

Its list of sponsors reads like a blue book of industry. A single participant has put 50,000 more people to work in his plants and offices by sharing the work. Another has given work and a livelihood to 35,000. Hundreds of other great industries have, in the same manner, lifted the burden of want from thousands of the unemployed.

But—share-the-work must have the aid of the smaller business if it is to succeed as it should. We hear much of industries that employ a thousand or ten thousand or more workers—but these industries are few and far between. The great bulk of unemployment stems from concerns employing a dozen, or a hundred, or several hundred people. These businesses too must share-the-work. They must stretch one job into two if distress due to unemployment is to be banished.

At the moment there are between ten and twelve million unemployed in this country. Millions of them can be given the self-respect that comes with a job by further effort in the work-sharing direction. A recent report indicates that a total of about 1,100,000 people have been given work in this manner—let's hope that record is dwarfed in the months to come.

This Week In Washington

(Autocaster Service)

Washington, May 1—President Roosevelt's critics are beginning to be heard, and the chief ground of their criticism is that he is seeking and has obtained powers which heretofore have been jealously retained by Congress, making the President far more of an actual director of the nation's destinies than any President has ever done.

"Shelving the Constitution," some admit that the Constitution is being stretched, but they point to history to justify the operation. "A rigid Constitution ties the hands of the present with bonds imposed under past conditions, by politicians now long dead, said one of these friends. 'We think the country will be better off in the hands of a live statesman than in those of dead politicians.'

Before this is in print the President will have received power from Congress to change the nation's currency system in almost any way he pleases. He will not be instructed by Congress as to what he shall do, but permitted by Congress to do any one of several things, as judgment may dictate.

Banks, Pensions, Farms

Under the emergency banking law the President regulates credit, currency, gold, silver and foreign exchange transactions. He fixes restrictions on the banking business of Federal Reserve members, appoints conservators for any bank when that is necessary to protect depositors, guarantees 100 percent liquidity on accounts opened after a certain date, passes on the reorganization of national banks, permits the purchase of preferred bank stock by the Reconstruction Finance Corporation, regulates bank loans made by the Corporation, and may issue a large amount of new Federal Reserve Bank notes on collateral not heretofore allowed as a currency base.

Under the economy act the President is given and has exercised the power to abolish the entire structure of veterans' benefits, and he has substituted a new pension system, in which he fixes the rates and the classifications. The same act gave him sole power to reduce all Federal salaries by as much as 15 percent, to consolidate or eliminate any governmental agency or bureau, and to impound the money saved thereby in the Treasury.

In the farm relief bill it is provided that the President may reduce acreage, specify the growing of farm products on certain terms, employ the allotment, land-leasing and cot-

ton-option plans or any of them, as he pleases; levy taxes on processing and punish those who do not conform to his orders; enter into marketing agreements; decide when the emergency has ended and proclaim it; control the distribution of basic farm commerce; buy the Farm Board's cotton held under Government loans, and organize a nation-wide policing system to see that his agricultural orders are carried out.

Currency, Mortgages, Employment
In the currency legislation attached to the farm relief bill the President is empowered to direct credit expansion through the open-market purchase by the Federal Reserve of Government paper not to exceed three billion dollars, to issue greenbacks up to three billion dollars if the credit expansion plan doesn't work, and use those greenbacks to repurchase government bonds; to reduce the gold content of the dollar by any percentage he pleases up to one-half and to base it on any ration he chooses in proportion to silver and to other currencies; to accept as much as \$100,000,000 of any foreign government's debt in silver at not more than 50 cents an ounce, and to use that silver as the base of new currency.

Under the proposed Farm Mortgage plan the President will have the right to issue \$2,000,000,000 of Land Bank bonds, and to lend money at 5 percent from R. F. C. funds to prevent farm foreclosures. The home owner's loan act sets up a two billion dollar fund for refinancing mortgages over a fifteen year period, with broad executive discretion.

The Employment bill which is likely to be passed shortly will give the President virtually complete control over industrial production, hours of labor and rate of pay of industrial workers. The securities bill, also pending, would give the Administration complete control of all stocks and bonds issued in interstate commerce. The projected railroad legislation puts complete control of the whole railroad situation in the President's hands. The prospective tariff and trade powers to be granted to the President would give him the sole right to change tariff rates by executive proclamation.

Those are only the more important pranks of power to the President, already made and proposed to Congress.

Summing Up

The reason for this shifting of authority to the President is the grave national economic emergency. There is no doubt that that exists, and even the President's critics profess no fear that he will exercise these powers except with the greatest caution and for the common good.

Do You Have A 25-Acre Farm?

College Station.—If you have 25 acres of average Texas land and \$200 worth of the right kinds of livestock you can get three square meals a day for yourself and family of five for a year without being out any cash if you follow the Extension Service plan of living-at-home, declare authorities at Texas A. & M. College. Such a living is worth about \$600 at current prices, they say, pointing out that no other present farm enterprise can offer such certainty of a net \$24 per acre return. The plan is based on producing all the feed for necessary livestock including two horses, and all the human food that can be had from plants and animals under average Texas condition. It assumes the ordinary work stock, farm implements, fences, buildings, and native pasture that most farms already possess.

The plan, which any farmer can work toward in a short time, calls for 2 meat hogs, a flock of 50 hens, one beef animal, 4 milk cows, and if desired a few sheep. Under average conditions 6 acres would be devoted to sudan pasture in summer and small grain pasture in fall and winter, 12 acres in corn or grain sorghums or other grain crops, 4 acres in hay and ensilage, 2 acres in cane for syrup, field peas, sweet potatoes, peanuts and melons, 1-2 acre for garden and 1-2 acre for orchard.

Yearly food requirements for a family of five are given by the Extension

Service as 2184 pounds of fresh and canned vegetables, 1456 pounds of fresh and canned, dried or preserved fruit, 728 pounds of protein from meat, cheese, eggs, nuts and peas and beans, 780 pounds of grain, 310 pounds of sweets, 234 pounds of fats, 365 gallons of milk, and a few miscellaneous foods.

With the exception of about \$100 needed for sugar, salt, flour, coffee and cans or jars for canning, all this may be produced from the crop-livestock unit in the live-at-home plan. The cash needed to supply the remainder, and the small amounts of cash needed for keeping the unit in operation may be obtained by sales of cream and poultry products supplied at certain seasons in excess of family requirements.

"In making the living-at-home unit self sustaining, provision is made for securing the protein needed for hogs and chickens from skim milk; for getting the protein for balancing dairy cow and beef rations from pasture and cottonseed, and where bran and oats are needed in cow or poultry rations for trading corn or grain sorghums for the feed desired.

County farm and home demonstration agents are in a position to help with the details of the plan.

REVIVAL CLOSAT BETHLEHAM CHURCH

We have just closed the finest revival at Bethlehem that we have had here for many years. Bro. James Culpepper of Putnam did the preaching. He is a fine preacher and a hard worker. We had thirteen additions to the church, eight on profession of faith and five by letter. There were twenty two converted and reclaimed. Bro. Culpepper preaches the old time Gospel and a Great Savior. Men and women came to the altar and prayed it through in the old fashioned way and we heard shouting in the old fashioned way.

No preacher will make a mistake in having Bro. James Culpepper help them in a meeting. I recommend him unconditionally.

WITH BAIRD BAPTIST

This preacher had a mighty good time last Sunday out with the Roby saints in their dedicatory service, and I had to stay over and preach for them Sunday night. I beg the pardon of any who might have been disappointed Sunday night by my not being home. I just could not help it. Those Roby people would not let me off.

Well come next Sunday and Sunday night. I will be right there, the Lord willing and will do my best.

I am sure everyone enjoyed Bro. Broght Sunday morning and I was indeed glad to have him preach in my place.

I will preach at Dudley next Sunday afternoon and urge all out that way to attend.

It is just one short month now until our meeting begins and let's make it a month full of preparation for the meeting. We need to pray, read and study the bible, and be looking out for whatever we can do to help. Be working, active, that is the word.

Well I am looking for you next Sunday and night.

Old Scottish Settlement
The first white settlement at Perth Amboy was made about 1683 at the site of an Indian village called Amboy. The settlers were from Scotland and they named the place Perth, in honor of James, earl of Perth. Soon after the Indian name "Amboy" was added. It was the capital of the province nearly all the time it was held as a colony of Great Britain.

WOMEN: watch your BOWELS

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients.

When you've a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!

THE most modern Kitchen is the all GAS Kitchen

BECAUSE of the convenience, flexibility and economy of gas service, the modern housewife has demanded gas appliances to lighten the burden of kitchen tasks. Gas engineers have responded with the Modern Gas Range, containing every cooking improvement, the Automatic Gas Water Heater, the Gas Ironer and the Gas Incinerator. To say that the most modern kitchen is the all gas kitchen is no idle generalization because...

TO LOSE FAT

Miss M. Kauter of Brooklyn, N. Y. writes: "Have used Kruschen for the past 4 months and have not only lost 20 pounds but feel so much better in every way. Even for people who don't care to reduce, Kruschen is wonderful to keep the system healthy. I being a nurse should know for I've tried as many things but only Kruschen answered all purposes." (May 12, 1932).

TO lose fat SAFELY and HARMLESSLY, take a half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—don't miss a morning—a bottle that lasts 4 weeks costs but a trifle—get Kruschen Salts at any drugstore in America. If not joyfully satisfied after the first bottle—money back.

Better Breakfasts

"Whether you go to work or play Breakfast makes or mars the day."

NO poet ever penned truer lines than the above. If you snatch a hasty breakfast and rush away to begin the day, whether you are going to an office or going to devote it to golf or tennis, you have a mighty poor foundation for either serious work or fun. Breakfast—a real breakfast—should include plenty of fruit and sufficient solid food to sustain you till lunch time. Here is our idea of the right sort of breakfast for this time of the year:

- Chilled Orange Juice
- Cereal with Cream
- Scrambled Eggs with Mushrooms
- Johnny Cake
- Apricot Preserves
- Coffee
- Scrambled Eggs with Mushrooms
- Sauté the drained sliced mushrooms for a 4-ounce can in two tablespoons butter for four or five minutes. Beat five eggs slightly, add the mushroom liquor and salt and pepper to taste, and then add to the mushrooms. Reduce heat and scramble lightly. Be sure to remove from fire before the eggs get the least bit hard. This recipe will serve four or five people.

Coffee is the crown on a royal breakfast, and good coffee is not the easiest thing in the world to make. Be sure that you start right by using fresh coffee. It's simple to do that. The only precaution you have to take is to buy one of the many brands of vacuum packed coffee which always keeps fresh.

Rich Red Soups

IN weather like this you want nourishing soups that look hot as well as taste hot. To accomplish this there is nothing like tomatoes which impart their cheery tinge of warm red. So we're going to tell you about two new tomato soups. The first is rich and spicy indeed—

Tomato Broth with Asparagus Tips: Simmer gently for fifteen minutes the contents of a No. 3 can of tomatoes, one slice onion, one-fourth teaspoon pepper corn, one-fourth teaspoon allspice berries, one teaspoon salt and one-fourth teaspoon sugar; then press through a sieve. Add two and one-half cups chicken stock, or two and one-half cups water with one-tickled bouillon cube, the

liquor from a No. 1 can of asparagus tips, and the tips themselves, cut in pieces. Heat to boiling and serve. Serves eight.

A Quick Soup
If you're in a hurry, here's a way to have a warm red soup that's made much quicker.

Quick Vegetable Soup: Simmer one slice onion with the contents of a No. 1 can of tomatoes for five minutes; then press through a sieve. Add one can of bouillon, or an equivalent amount of water containing one bouillon cube, the contents of an 8-ounce can of vegetables for salad and one cup water. Season to taste with salt and pepper, and boil several minutes. Serves six.*

Forced to Sacrifice Vote
It is said that Zachary Taylor, the twelfth President of the United States, never remained in one place long enough to qualify himself for voting. He was a soldier by profession.

DON'T SUFFER ANOTHER DAY

Sufferers from rheumatism need more than the mere temporary relief that comes from the use of pain relievers. The system must be freed from the poisons of this agonizing disease.

When your throbbing, swollen joints begin to subside, when aching nerves and muscles begin to relax, when poisons begin to dissolve and drain from the system, you will know beyond a doubt that the EUCO-MA prescription is removing the cause of your trouble. EUCO-MA acts quickly and thoroughly—contains no opiates or narcotics—absolutely harmless. Ask your druggist about this amazing prescription. Read the guarantee on every box—don't suffer another day.

TIRE PRICES GOING UP! Equip Your Car NOW! with Firestone

NEVER BEFORE have you been able to buy Firestone Extra Quality Tires at these tire "war" prices. You will probably never have the chance to do so again, since raw material prices are rapidly increasing. Advanced tire prices must follow.

THE MASTERPIECE of TIRE CONSTRUCTION

Used almost exclusively by master race drivers—they will not take chances or risk their lives on ordinary tires. Road speeds of today are the racing speeds of yesterday.

Firestone High Speed Tires are made with the Extra Features of Gum-Dipping and Two Extra Gum-Dipped Cord Plies under the Scientifically Designed Tread.

We will give you a liberal allowance to apply on a set of Firestone High Speed Tires—the safest tires in the world.

REMEMBER—your brakes can stop your wheels, but your tires must stop your car!

THE NEW Extra Quality TIRE Firestone SUPER OLDFIELD TYPE

Vigilance

THE twenty-sixth annual convention of the National Canners Association at Chicago this year demonstrated that although there was a diminution in the amount of food canned in 1932 and a diminution in both the wholesale and retail prices of canned foods, there has been no diminution in the vigilance and scientific care with which seeds are selected, crops planted and harvested, and every step of the process of preserving the foods watched.

Scientists Speak

This is proved by the fact that more than one-third of the addresses at the Convention were delivered by scientists or representatives of United States Government agencies which cooperate in the ceaseless work of not only keeping canned foods as

good as they were, but making them better year after year.

Among the scientists who addressed the convention were W. H. Harrison, director of the Research Department of the Continental Can Company, W. D. Bigelow and E. J. Cameron of the Research Laboratories of the National Canners Association, E. H. Wiegand of the Oregon State Agricultural College, J. C. Walker of the University of Wisconsin, A. D. Radebaugh and D. F. Sampson of the Research Division of the American Can Company and Millie E. Kelson, Chief Dietitian of the Cook County School of Nursing in Chicago.

The Government representatives included Charles E. Campbell of the Department of Agricultural Economics, United States Department of Agriculture, and P. H. H. Dunn of the United States Department of Commerce.
