With perforations between 6,831-42 feet, project pumped 193 barrels of oil daily plus 10 percent water. Gravity was 40 degrees and gas-oil ratio at 500 to 1. Production is from pay topped at 6,831 ft. with hole bottomed at 6,945 ft. and cased to 6,936 ft. with 5 1-2 in. casing. Completion was natural. The City will furnish unlimited free hauling of trash if placed in some sort of containers. Local stores will probably close several hours on afternoon or morning next week to concentrate and speed the drive. This is the first city-wide clean-up in three years and is badly needed. JAKE BURKETT GETS --

First County Bale

Jake Burkett, who farms about 3 miles east of town, Monday, Aug. 13th won the big 1956 Lynn County First Bale Derby when his bale weighing 539 lbs was tied out at the O'Donnell Farmers Co-op at 6:30 p. m.

The bale was ginned from 1880 lbs of seed cotton and was gathered from 13 acres of irrigated Paymaster 54B seed.

In 1955 the first Lynn Co. bale was ginned Aug. 27th by Troy Copeland who farms 7 miles northeast of here. Locally W. W. Boydston ginned the first bale Aug. 30th. In 1954 the first bale was Aug. 29th by Ervin Gilliam.

Mr. Martin, manager of the gin, said he expected the total local and area ginnings to be as good — if not better than last year. A good 2 inch rain would increase the crop a quarter or more, farmers agree.

Mr. and Mrs. Steve Warren and children of Dallas are visiting her parents Mr. and Mrs. W. L. Maxwell.

Mr. and Mrs. D. F. Hassell, Larry and Sharon of Waco are visiting the L. M. Mires family this week.

CHANCE FOR PAYROLL HERE

There are now 32 broiler houses in production here with three service men, Bart Anderson, Babe Brewer and Coleman Baker employed. The first house of broilers was sold exactly one year ago. Although the market is low growers are still getting checks for \$250 to \$300 for 8 weeks work due largely to favorable climate and efficiency of production.

Chances are bright for a hatchery here to supply all of West Texas.

AMENDMENT MAKES S. S. MORE LIBERAL
Monthly benefits for women at age 62 instead of 65 beginning with January 1956, for disabled workers at age 50, beginning July 1957, and for children age 18 or over who were disabled before they reach 18, were added to the old-age and survivors insurance program when the 1956 Social Security Amendment was signed into law.

Under the amended law, working women, wives of men receiving old-age insurance payments, and the widows of insured workers can start receiving monthly benefits at age 62. Working women and wives who are 65 will receive benefits at reduced rates on a sliding scale. Benefits for widows, based on husband's earnings, will not be reduced.  SAYS
 THANKS
 To Voters Of
 O'DONNELL**

It doesn't cost a cent to
 Take a Ford Test Drive . . .
 and you may save hundreds!

Would you
 trade 20 minutes of your time
 for a saving of hundreds?

August is Saving Season
 at your Ford Dealer's.
 Bag a deal while he clears
 his decks for the '57 models.

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."
 We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis . . . the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford seat pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.
 We want you to drive and listen—drive and feel.
 That fine-car quiet results from sound

insulation under the hood, under the roof, in door and body panels—the most insulation in any car at anywhere near Ford's low price.
 Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-Joint suspension with wide base control arms for better steering, more stabilized wheel alignment . . . shock absorbers that are mounted to the frame rather than the body.
 "Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."
 Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.
 We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has

two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.
 Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?
 Simply by proving to yourself that there really is a fine car in the low-price field.
 You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.
 But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.

NOW! A FORD with AIR CONDITIONING costs less than many medium-priced cars without it. TRY ONE TODAY!

Fall seeding is best for establishing alfalfa stands. A soil test will show what fertilizers are needed by this favorite forage crop. The seedbed should be firm, clean, and moist and only certified seed should be planted, says E. M. Trew, extension pasture specialist.
