# LET'S

# ... Play Tops

This scene of a lad spinning a top surely will bring boyhood memories to the minds of most of us. It has not been so long since we ourselves were wearing knee breaches with the pockets loaded with marbles and a nigger-shooter hanging around our neck. Those were good old carefree days, but as we look back on the times we played with the other kids in our neighborhood, we realize that we were then and there forming habits that have stuck with us until now. One of the lessons we learned was to play fairly with the other fellows, to be a good sport and carry our share of responsibility. The same principles that applied to us then, hold good with us today. Whatever our business, we must work in harmony with the other folks of our community if we succeed. With a whole town full of people, each doing his share, the community surely will grow and develop into the place all its citizens can be proud to call home. Baird Municipal Light Plant can look with pride upon its subscribers who use electricity generated right here in Baird. They are helping themselves and helping their home town at the same time. If you are not served by the Municipal Light Plant, call us today.

W HETHER it's baseball or business, Americans expect fair play all the way.

In baseball, the umpire sees to it that the game is played according to the rules. But he is not a player.

In business, government should be the umpire who enforces fair rules. But when government goes into business and competes

with its own citizens, the American tradition of fair play is set aside. The umpire then becomes a player, and he enjoys advantages that are denied to all the other players. For example, government and municipal power-plants are not required to pay federal taxes; often get money from the

U. S. Treasury at little or no interest; make up losses out of the pockets of the taxpayers. Maybe you run a store or serivce station or beauty shop. Would you like to have a next-door competitor who has little

or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money? Fortunately for America today, over 80% of the tremendous electric power in this country is produced by tax-paying,

self-supporting electric light and power companies, owned and operated by several million folks like you. These business-managed companies are a big reason why there is enough electricity to meet even the gigantic demands of

war-and why, when most things cost more, electricity is still delivered at low pre-war prices.

# Don't Worry About Us! \*\*Cliffed do it!"

They tell us that the fat salvage problem has got to be licked in the small cities, the towns and on the farms.

Our country has to have one hundred million more pounds of used fats this year over last. And we're the people who must save it.

We've rolled up our sleeves! We'll save every drop and bit it is possible to scrapeand keep on doing it till the last Jap is licked.

HOW TO DO IT: Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, such as meat trimmings and table scraps, in a bowl. Melt down when your oven's going, add the liquid fat to the salvage can. Take the can to your butcher as soon as it's full. He will give you four cents and two red points for every pound. Your County Agent or Home Demonstration Agent can give

### Dudley Dabble Delectable Deeds Delineated to Dazzle and Delight.

BY C. A. Neal Yes, it is raining here at Dudley

June 17th, and the grass and weeds are growing in the fields. And we still meet at the store and play 42 and swap jokes. We are all happy as can be if we haven't any money in our pockets. But listen, we have plenty to eatgarden vegetables, fried chicken and gravey, and plenty of those white tender fluffy Gladiola biscuits. O Man, O Man!

Mr. and Mrs. Gardner from Dallas are visiting their children here. They spent last week with his daughter and son-in-law, Mr. and Mrs. Azela Hectar. Next week they are going to visit with his other daughter, Mrs. A. J. Schmidt, and Mr. Schmidt, and the next week with his son, Bill Gardner at Eula, and if you ask when he is going home he says, "When the fryers play out.

Ha! Ha!" Mrs. Lattie Preston's daughter who spent last weekend here has gone to Brady to visit and is to return next Tuesday and stay a couple of days and then they are to go back to Camp Richie, Md., where he is stationed.

Yes, it was a happy day for the Prestons, June 17th, when they all met at mother Prestons and had a big dinner in honor of their brother, Buster Preston, who has just returned from the Philippines, where he has spent thirty-three months fighting those dirty Japs.

Mrs. Isabel Betcher and daughter spent the afternoon Sunday with Mrs. Pearl and Otto Neal at

Alb Loper, our best watermelon and fishman here at Dudley, spent Saturday evening here at And to my friends who visit- Preston Store. He has moved on ed me, and to those who sent the old Docor Windham rock home "Get Well Cards" Thank you for place, now owned by Roy Armer making my days spent indoors of Tecumseh. He is raising turkeys Mrs. E. E. Shelton and Geraldene daughter, Gay Garner of Fort Ind., where she is being given so bad he is going to wear stove pipes on his legs. Ha! Ha!

Mrs, Pearl Neal was bitten by a spider, but is getting along fine
