quilts and quilt tops. Mr. Stowe prefers reading to television. He reads the Bible, newspapers and magazines.

Amos, son of Josephus and Adella Stowe, was born in Dallas county Jan. 29, 1887. His grandfather's sons once cultivated Stockyards are located.

Stowe was married to Esther Marion Edgeman in Newport on Feb. 23, 1908. He and his family moved to Iowa Park in 1934 and he was engaged in farming. They moved to the present location in 1941. On June 1, 1954, their house was destroyed in a tornado. A daughter Faye died three days later from injuries received in the storm. Many of the family's keepcakes and heirlooms were badly damaged or destroyed.

Mrs. Stowe died Jan. 7, 1961. In addition to Mrs. Lehman, Mr. Stowe has two daughters: Mrs. John Herrell and Mrs. Ruth Young of Portersville, Calif.; and a son Amos of Ft. Worth. He

Southwestern Bell announces \$6 million rate reduction for Texas Telephone customers

Second Voluntary Reduction For Texans in Two Years

At a time when prices for most goods and services are continuing their upward spiral, Southwestern Bell has announced a voluntary reduction in rates that will result in annual savings of \$6 million for Texas telephone users.

Included in the reduction are both Long Distance rates (effective January 1, 1967) and a series of miscellanous telephone charges, (effective December 1, 1966).

Lower Rates on Long Distance Calls Between Cities in Texas

Reductions in intrastate (calls within Texas) Long Distance rates become effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance will have lower rates, varying from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

In addition, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls get this low rate.

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World

One-Time Color Charge, Other Rates Reduced on December 1

Texans will also enjoy savings on other telephone services, effective December 1, 1966.

These include the one-time charge for telephones in color (from \$7.50 to \$5). This is also the second reduction in the color charge in the past two years. The original color charge was reduced from \$10 to \$7.50 on April 1, 1965.

And a new Residence Service Charge will benefit most residence customers who will be arranging for new service and additional service requiring installation. At present, there is a Service Connection Charge on each item of equipment installed. The new flat-rate, one-time Residence Service Charge will enable residence customers to have two or

There will also be a reduction in the monthly rate for amplifier telephones (presently ranging from \$1.25 to \$2). The new charge will be \$1. Amplifier telephones are primarily used by persons with hearing impediments and at noisy locations.

more telephones installed for the price of one.

Customer Cooperation Helps Reduce Long Distance Rates

Technological developments continue to play an important part in keeping the cost of telephone service at a reasonable level. But much of the credit for making possible the reductions in Long Distance rates goes to Texas telephone users.

Without the cooperation of our customers in placing their calls by number, using Area Codes, and the taking advantage of Direct Distance Dialing where it is available, it would not have been possible to achieve the operating economies that have made possible these reductions.

We know of no better way, in passing these savings directly back to you, to say "thank you."
