**THANKSGIVING**  
by Richard T. Perry First United Methodist Church

More than 300 Novembers have come and gone since a tiny band of Pilgrims planted the seed for the American Freedoms upon the soil of America. There have been years of war and peace, years of plenty and years of famine; but in all these years and despite adversity, there were those who have found it in their hearts to be thankful to God for His wonderful gifts.

It is said that the greatest gift ever received by any generation, ours included, is the gift from God of His son Jesus Christ. His was a life of more than Meditation and Prayer. He was a man of action. As a Revolutionary of those days, he set in motion the movement that did and still does change the whole course of history. He has become the Headstone of a Free Society such as ours. Though far from being perfect, it is the best of all on the face of the earth.

Pilgrims did not gather around a campfire or a table laden with food, however simple and abundant it might have been, to celebrate the signing of some treaty or some victory. They gathered to "ask the Lord's blessings," to ask for his continued guidance, to ask for courage and strength to face hardship.

Most of all they offered themselves a living sacrifice to the building of a nation to the glory of God. They were grateful to God for all He had done for them and for the help he had given them in "doing" for themselves. They prayed for his continued help and guidance.

Now, can we American people do less as we now live in the midst of plenty, enjoying the privileges of freedom guaranteed by our government, realizing these gifts are ours out of the sacrifice, the blood, sweat and tears of others?

If and where we have forgotten that we did not earn these blessings, let us become thankful and praise God from whom all blessings flow.

## Hawks Scamper Around Wolves

Last Friday night at Vernon, with Dahart as opponent in bidistrict playoff, was Scatback Session for the Iowa Park Hawks. Jeff McDonald set the tenor of the game when he raced 55 yards into pavidirt on the first play after Dalhart's kickoff. Blocking was perfection itself and no Wolf laid a paw on the speedy, elusive runner.

Later in the quarter, Steve Webb added a touchdown with a 32-yard foray.

In the second quarter, three Hawk runners penetrated the enemy goal line: McDonald with a 32-yard run, Steve Watson from 1 yard out, Gary Williams with a 8-yard sortie.

Dalhart had possession of the pigskin 7 different times in the first half, but never was able to generate a sustained effort. The rock-rimmed Iowa Park defense held them to 57 yards rushing and 20 yards passing.

Score at halftime was 35-0, since Jerry Pittman had made 5 good PAT kicks.

Both bands put on crowd-pleasing shows at intermission. Both music and marching maneuvers were superbly done.

Second half was almost a duplicate of the slaughter perpetrated in the beginning with Williams, McDonald, Webb and Watson wielding the sledge hammer. They were relieved from duty much of the time by sophomore and even freshman replacements.

In the 3rd quarter the Hawks relaxed their guard enough to allow Dalhart an 8-point scoring drive which covered 47 yards in six plays.

In the final stanza the Wolves put together a 62-yard drive in 10 plays, which brought their total to 16 points.

With Iowa Park's ground game doing so well, Quarterback Jim Clapp did not use the pass. Later in the game Greg Frazier, freshman quarterback, completed a few passes for good gains.

## City Council

After calling a public hearing on annexation of Kidd Express Station at corner of US 287 Expressway and Johnson, the City Council, meeting Nov. 24, passed to first reading an Ordinance admitting the area.

Aldermen passed to first reading an ordinance agreeing to new rates for Lone Star Gas Co., same being:

First 1000 cubic feet, gross \$1.944, net \$1.75. All over first 1000 cubic feet, gross \$.9956 per 1000 cubic feet, net \$.895 per 1000 cubic feet.

Original request was for a 21% increase over the old rates. The Council settled for about 18% increase.

The City Plumbing Code was amended to require that "hot water heater relief lines shall extend to the outside of the house and be turned down within one foot of the ground."

Aldermen officially accepted the Iowa Park Public Library together with all assets and appointed present board members to the positions presently occupied. Board members are Mrs. James A. Sewell, chairman; Miss Ethyle Kidwell, Mrs. Erwin F. Soell, Mrs. Grover L. Cleveland, Bill Sawyer, Bob Dawson, George R. Huckaby, Mrs. George Bludnick is librarian.

Mayor Soell announced that a number of engineering firms have been asked to send representatives to the Dec. 8 meeting so the Council can select a consultant relative to repairs and operation or enlargement of the sewer plant.

Secretary K. G. Wilks was instructed to order a supply of water meters.

Aldermen voted to re-imburse Jack Land for any electrical expenditures he has made on the city-owned residence at the water plant.

Wilks was instructed to inquire about insurance for the street department warehouse located at 104 West Texas.

## Blood Center Openhouse Set Dec. 7

Last Saturday was moving day for Wichita County chapter and Red River Regional Blood Center of American Red Cross. Volunteers and staff moved into their new building at 1805 Fifth in Wichita Falls.

The attractive building is a steel structure containing more than 10,000 square feet of floor space tastefully decorated in bright colors. Surroundings present a cheerful aspect to visitors and provide attractive working space for the expanding Red Cross program.

Plans for a formal openhouse are being completed and the building will be presented from 1:00 to 5:00 p.m. Sunday, Dec. 7. Wichita county chapter was chartered on Dec. 7, 1917.

"No better way to open another 52 years of service to our community could be found," according to Dick Harris, chapter chairman.

Rev. Claude McDonald of Iowa Park is chairman of building and grounds committee, which is responsible for utilization, decoration, furnishings, and establishment of exterior plantings. They are concentrating on obtaining reception and waiting room furniture, and furnishing the board room and several of the offices and public rooms.

"We need some of just about everything to complete the job," McDonald said. Anyone interested in aiding in this project, such as for a memorial, should contact McDonald or inquire at the chapter house.

Built at cost of \$133,000, the building contains facilities to triple in size the present blood program. The laboratory is the most complete and modern in the Red Cross system of 56 centers.

George Clevenger, long-time manager and blood administrator, is head of the blood program. William C. Breeding is manager of the chapter and its facilities. He is a former national Red Cross representative and came here from San Antonio.

When the new blood center began work Monday morning, Louis W. Smith jr. was waiting on the doorstep to give his 18th pint.

Second donor was Don Russell, who gave his 20th pint.

Mr. and Mrs. Billy D. Starnes of Bowie were third and fourth donors. He has given blood 11 times. It was his wife's first donation.

Donor hours Monday through Friday are from 9:00 a.m. to 5:00 p.m., except Tuesday, when hours are Noon to 6:30 p.m.

## Stadium Progress Report

Monday night after Quarterback club meeting, the committee for building a new stadium met and discussed the project. Another \$2000 was turned in as cash donations and pledges. The amount of labor pledges was discussed and the full scale architect's report was read.

The committee voted to proceed with dirt excavation with Buck Voyles and Fred Parkey charged with providing men and machinery to do the job.

Pardue, Reed and Dice architects will inspect the work to see it is done according to specifications.

Needed now is cash money from Hawk boosters to finance completion of the stadium.

Cost of chartering buses for band and pep squad was discussed and the safety factor on a trip so long ruled out the use of school buses.

Also discussed was the possibility of getting the school board to allocate some of the play-off profits into the stadium fund. This will be brought before the board at the next meeting.

## Floydada Next

Hawk fans are reminded there will be a Pep Rally at the high school gymnasium this Friday at 7:45 a.m. The team will leave at 8:00 for Plainview, where they meet Floydada in a Regional playoff game.

Coach Tommy Watkins' Hawks are in fine shape with exception of Mark Thompson, who broke a lone last week in the Dalhart game.

In preparing the Hawks to meet Floydada's whirlwinds, coaches pointed out that the opponents this Friday night are well endowed with big linemen. In Pierce they have a fine running back. And the quarterback runs the Wishbone formation used by the Hirschi team; and he throws an accurate pass which the boys must defend against at all times.

Coaches had only high praise for all the Hawks, and singled out New Newman for turning in a good effort.

For their play last week, Gary Frazier was named Lineman of the Week; and Jeff McDonald was named Back of the Week.

## Cancer Corner

Some 900 Americans die of cancer every day. Every two minutes it kills a man, woman or child in the USA. Total deaths are 55,000 annually.

Autopsies reveal lung damage in cigaret smokers even if there is no lung cancer.

Fifty million smokers in the USA are joined by 1,500,000 teenagers each year. Do you have any teenagers in your family who help make up that 1,500,000?

Cigarettes have gone up to 47 cents a pack. Pack-a-day smokers now spend \$171.55 a year in a foggy attempt to annihilate themselves, using 7,300 cigarettes a year.

Symptoms of lung cancer are: persistent cough, blood in the sputum, a lingering infection of lung, or pain in chest. If you have one of these symptoms, you have smoked too long! In most cases the disease has progressed too far to be cured.

Are those cigarettes you cough and choke over really worth dying for?

## Spaghetti Supper

how  
can Lone Star Gas  
help you get rid  
of wrinkles?

We know all wrinkles are not due to aging. Some are due to drying. And dryers.

Some dryers affect clothes the way sun affects skin. They not only dry out moisture. They bake in wrinkles. Even in permanent press.

But gas dryers are more sensitive to your family's clothing. And more sympathetic to your work load.

Most now gas dryers have a special cool-down cycle that turns off the heat before your clothes become overheated.

That means your clothes have fewer wrinkles. And you have less ironing.

You also have less expensive utility bills. Because gas dries for about a penny a load.

See your gas appliance dealer or Lone Star Gas Company. Find out how to take it a little easier. And avoid wrinkles.

Members of Lions club in Texas are pausing this month to pay recognition to their Camp for Crippled Children which has given over 11,000 handicapped youth a new dimension of freedom since it was opened in 1953.

Located near Kerrville, it is free to crippled, blind, deaf or mute children of Texas aged 7 through 16. Seventeen permanent buildings and other improvements dotting the 504 hillside acres are an investment of more than \$700,000.

Youngsters at the camp who have been denied a normal childhood through no fault of their own to learn to shed shyness imposed by their handicaps.

By mutual association with other children and by skillful and gentle counseling, these children have found freedom to grow mentally and spiritually into useful citizens of tomorrow.

While the state is paying tribute to their Camp, we join in paying tribute to Lions and their friends who have supported this venture of the heart. We know "A man never stands so tall as when he stoops to help a crippled child."

If you know of a boy or girl who may benefit by attending camp next summer, you are urged to call one of the local Lions clubs.

Mr. and Mrs. Oscar Singleton and children Debbie and Rodney went to Lubbock, Tuesday for a holiday visit with Mr. and Mrs. Johnny Williams and family, former Iowa Park residents. All will go to Plainview on Friday and attend the Iowa Park - Floydada regional football game.

There is no distinction in eligibility for, or in the manner of providing, any patient service provided by or through the Nursing Home. All facilities of the Nursing Home are available without distinction to all patients and visitors regardless of race, color or national origin. **Building Ahead to Make Your Electrical Future Secure**

Good electric service. You have a right to expect it. It's our job to see that you get it...now and in the future.

Keeping ahead of the growing electric power uses in the areas we serve is a job that demands carefully scheduled construction of new power facilities costing many millions of dollars.

**TWO NEW GENERATING FACILITIES UNDER CONSTRUCTION**

Right now, steel is going up for two big power generating units. One is a 375,000 kilowatt addition to the company's Eagle Mountain generating station in Fort Worth. Work on this new unit is scheduled for completion in time to meet summer peak loads in 1971.

The other is a 1,150,000 kilowatt generating station being constructed jointly by Texas Electric Service Company, Dallas Power & Light Company and Texas Power & Light Company in Freestone County. This new plant will burn lignite from nearby deposits for boiler fuel.

**UNIT TO BE ADDED TO PERMIAN BASIN PLANT**

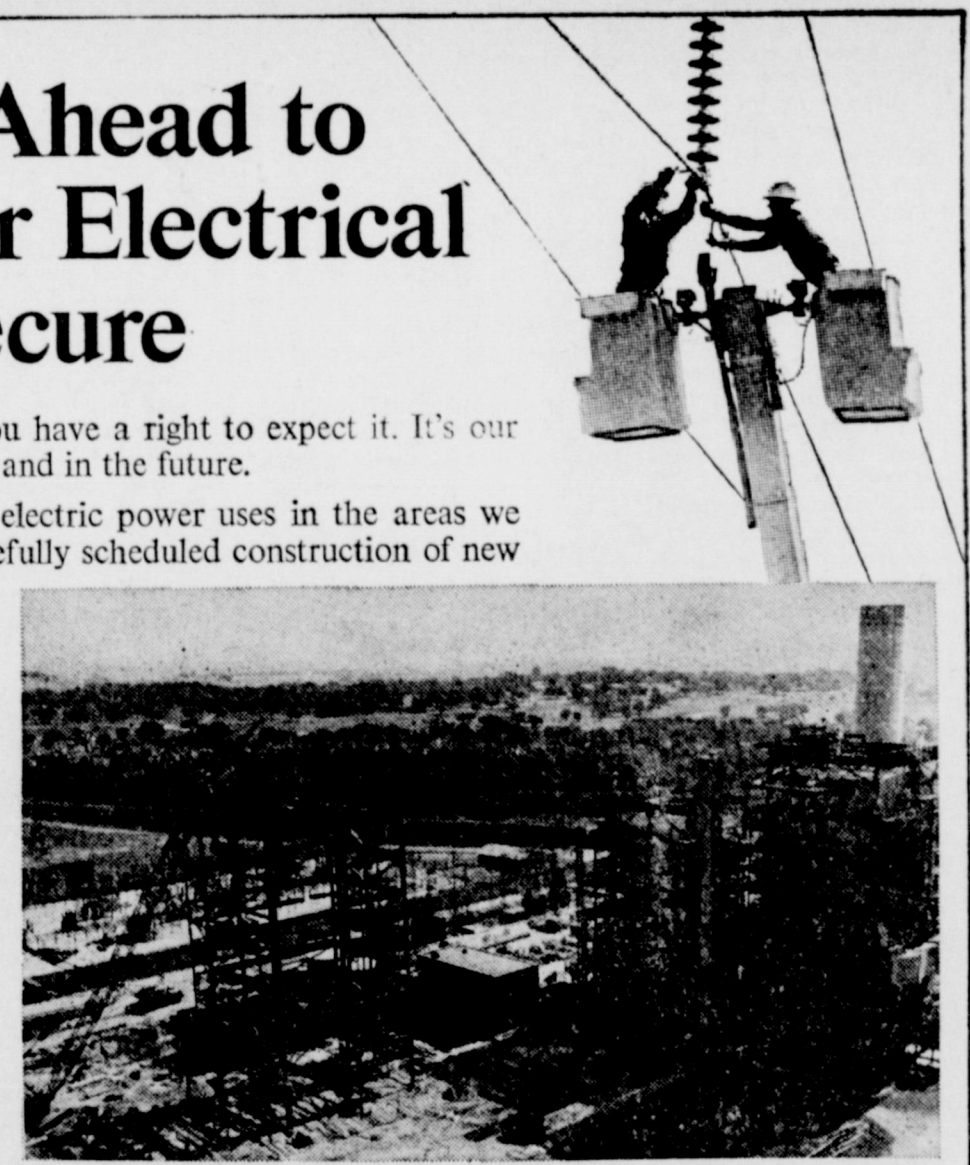

Another project, recently announced, involves construction of an additional generating unit with a capacity in excess of 500,000 kilowatts at the company's Permian Basin power plant near Monahans.

**SYSTEM GENERATING CAPABILITY INCREASED BY 20 TIMES**

These new projects continue a program of system development that since 1948 has increased the net generating capability of the system by 20 times. During this period, 21 new generating units have been added, the latest being a 375,000 kilowatt unit which went into service at the Graham power plant early in 1969.

**PLENTY OF POWER FOR ALL NEEDS**

As a result of this program of constantly planning and building ahead, Texas Electric

Service Company has kept the power supply available to its customers well ahead of expanding requirements. Even during the extreme heat of the past summer, when peak demand for electric service reached an all-time high, there was plenty of power for every need, plus a substantial reserve.

**TRANSMISSION LINE SYSTEM STRENGTHENED**

Development of the company's transmission system has kept pace with the increase in generating capability. A strong network of high voltage transmission lines delivers electric power where and when it is needed in

**PLANNING AND CONSTRUCTION PROGRAMS TO CONTINUE**

As the area we serve continues to grow, and as the use of electricity increases, Texas Electric Service Company will continue to plan and build ahead to make your electrical future secure. When you want electricity for any purpose, now or in the years to come, we'll be ready to serve you.

## Gas Rates

### ORDINANCE NO. 149

An Ordinance fixing and determining the general service rate to be charged for sales of natural gas to residential and commercial consumers within the City Limits of Iowa Park, Wichita County, Texas, and providing for the manner in which such rate may be changed, adjusted and amended.

Be it ordained by the Board of Aldermen of the City of Iowa Park, Texas:

Section 1. Effective with the first gas bill rendered after the final approval of this ordinance, the maximum general service rate for sales of natural gas rendered to residential and commercial consumers within the city limits of Iowa Park, Texas, by Lone Star Gas Company, a Texas corporation, its successors and assigns, is hereby fixed and determined as follows:

First 1,000 cu. ft. or fraction thereof \$1.944 Gross; \$1.75 Net

All Over 1,000 cu. ft. at \$9.956 per Mcf Gross; \$8.96 per Mcf Net

No gas bill will be rendered to any residential or commercial consumer served under the above rate not consuming any gas during any monthly billing period.

### Adjustments

The amount of each net monthly bill computed at the above stated rates shall be subject to the following adjustments: Plus or minus the amount of any increase or decrease, respectively, in the present authorized intracompany city rate charge as fixed by the Railroad Commission of the State of Texas or other regulatory body having jurisdiction for gas delivered to Lone Star Gas Company's distribution system for sale to residential and commercial consumers; plus an amount equivalent to the proportionate part of any new tax, or increased tax, or any other governmental imposition, rental, fee or charge (except state, county, city and special district ad valorem taxes and taxes on net income) levied, assessed or imposed subsequent to November 1, 1969, upon or allocable to the Company's distribution operations, by any new or amended law, ordinance or contract. Each gross monthly bill shall be adjusted proportionately. Company, at its option, may forego the application of any adjustment if such adjustment would result in an increase in the monthly bill; however, failure of Company to apply any adjustment shall not constitute a waiver of Company's right from time to time, or at any time, to make any adjustment, in whole or in part, in any subsequent monthly bill that may be applicable to such bill.

Net rate shall apply to all bills paid within ten days from monthly billing date; gross rate shall be applicable thereafter.

The above rate is applicable to each residential and commercial consumer per month or for any part of a month for which gas is used at the same location.

In addition to the aforesaid rates, Company shall have the right to collect such reasonable charges as are necessary to conduct its business and to carry out its reasonable rules and regulations in effect.

Section 2. The rates set forth in Section 1 may be changed and amended by either the City or Company furnishing gas in the manner provided by law. Service hereunder is subject to the orders of regulatory bodies having jurisdiction, and to the Company's Rules and Regulations currently on file in the Company's office.

The truism "It Pays to Advertise" was proved again this week. Last week the Jonathan Dressler family decided to sell two Siamese kittens. Naturally they informed the Herald and the Herald informed the world.

Thursday afternoon before 5:00 one of the kittens had found a new home.

Now comes the cork on the bottle. A couple from California with two daughters stopped at a local store and bought a copy of the Herald. They read about the kittens for sale. It happened that recently their children's kitten had been run-over by a car, so they immediately, post haste, and instanter went to the Dressler home and bought the remaining kitten.

Visiting with their customers, the Iowa Park family learned this interesting pair travel all over everywhere giving shooting exhibitions and talking about wild animals. They have a ranch in Utah which is complete with bobcat and mountain lion, some of which they have trained to be family pets. The Siamese was acquired for the youngsters, who are too tender to be trusted with their wild playmates.

Words fail to express the gratitude we feel in our hearts for the many deeds of love and kindness rendered during the long illness and death of our loved one.

For the food, flowers, cards, letters, visits, and most of all the prayers and words of encouragement we are thankful. They make our sorrow easier to bear.

Let us just say, "Thank you, dear friends, May God bless and keep you."
