I note in last week's daily papers that the railroad union heads have come out in favor of my opposition in this run-off. But that was to be expected, and doesn't worry me, because I do not believe that the people of this district will allow the railroad union bosses to dictate to them, any more than President Truman allowed them to. They are the boys who threatened to spend forty seven million dollars to defeat him because he stopped the railroad strikes, and to spend two and a half million dollars to defeat any congressmen who opposed them.

I believe you want a representative who is not under obligation to any such pressure group. WILLIAM W. BLANTON.

Earl Johnson Motor Company

The Abilere Committee for Bill Blanton for Congress, requested Bill's father to make a statement giving some inside facts about Bill, and the following is the Statement:

Some Inside Facts You Ought to Know **About Bill**

Bill Blanton has managed his own campaign for Congress, and would not allow me to take any part in it. But being an old-timer, I will tell other old-timers some inside facts about Bill, which he has been too modest to relate himself.

Bill is a far better lawyer than his dad, although I work ten hours each day in the same suite of offices in which I began practicing law in

Bill is a far better judge than his dad ever was, although from 1909 to 1917, I presided over all the District Courts then in the Counties of Taylor, Callahan, Eastland, Stephens and Shackelford, and kept dockets

Bill is a far better fighter than his dad, because he has had a worldwide sphere with the U.S. Army in India and Burma, where at any moment for two years he could have lost his life to wily Japs and other poisonous reptiles.

Bill has better judgment than his dad, is not impulsive like his dad, refrains from making people angry at him, has more patience, is far more forebearing, has more tireless energy, and has a smile and good word for all opponents, which unfortunately his dad did not have, and

When Bill resigned his office of County Judge to enter the U. S. Army, I begged him to let me get him a commission from my War Department friends in Washington who knew him, but he vehemently refused, and made me promise him that I would never request any favor for him, as he wanted to enter as a buck private, carry his pack, march on hikes, and take all the burdens that other boys were taking. With his qualifications I could have gotten him a high commission.

Bill knows the ins and outs of Congress and of Washington, though he was never on any pay-roll there. He is acquainted with Congressional procedure. He is already personally acquainted with many Congressmen and Senators, and will be able to get desirable committee assignments. He knows how to get prompt attention and action for all constituents when they call on him.

Bill is absolutely dependable, and all of you old-timers may count on him and you have my assurance that you will never regret having had a part in sending him to Congress. I know that he will make a much better congressman than his dad did, because he won't make any of his dad's mistakes, and Bill can hold his own with all of the other 434 Congressmen in the constant debates which daily occur on the floor of the

You don't like that -- no one does -- but you ask "What can I do about It?"

To answer that question, we must first try to put our finger on the things that cause inflation.

There are a number of inflation -- breed-ing causes -- but there's one in particular that you and I, as ordinary average Americans, can do something about.

It's the policy of our Federal Government to spend year after year more money than it takes in . . . and then borrowing money to make up the difference.

You know what happens when you spend more money than you make you go in

If you keep on spending more money than you make, you not only go in debt, you get in trouble.

Well, that's exactly what our Federal Government has been doing for nearly fifteen years That was necessary during the war, but the war is over now, and It's time to start living within our means.

Automatic Central Gas Heat

Build house around good heating

The house of today is no more modern than its method of heating. In southwest today, even plans for a modest cottage include Automatic Central Gas Heat. Little wonder, for closet-type central gas furnace can be installed in small space. When planned as part of house and installed when it is built the small cost each month is hardly noticeable. With Automatic Gas Heat there's no bother. House stays at just the temperature you like. The air is filtered—there's no dust. The flow of warmed air is smooth and even. Moisture content of air is properly balanced. The unit is vented so there's no wall sweating.

Be sure the home you build or remodel can be classed as modern for many years by planning it around an Automatic Central Gas Heating System.

Closet Type

Central Furnace

For the cottage where space is limited this closet-type furnace is ideal for installation in small space. It provides clean, warm air throughout the house. It is completely automatic. It is quiet, efficient and costs little to

FOR

Free enterprise without interference from useless bureaucratic decrees, rules, and regulations.

In the first primary my home county gave me a big majority of votes over all other candidates. This, though a fellow resident of Jones County was in the race and he ran a strong third. I feel that this was a vote of confidence by people who have known me all my life, and are my references to you.

FARM PROGRAM

I favor full development of programs designed to improve farm living, the extension of REA, soil conservation, and farm-to-market roads.

HEALTH PROGRAM

Polio and cancer are dread diseases that are taking an unnecessary toll of lives in the United States. Congress should appropriate funds

FACTS ON THE GOVERNOR'S RACE

Homer P. Rainey wants to abolish the Poll Tax, which is a license, that every person 21 to 60 years of age, has to pay in order to have a voice in selecting every office holder in Texas. Homer Rainey wants the right and privilege of voting extended to every young man and woman of 18, 19, and 20, instead of 21, as the law now stands. If old enough to "Fight they are old enough to Vote." These fine young men and women who entered the Armed Services of their country are now denied this privilege. Is it right? These fine young soldiers now have their hands tied, waiting for their 21st birthday. Homer Rainey will help you to get this all changed.

Do you believe that the Natural Gas, Oil and Sulphur piped and shipped out of Texas, should contribute to the farm to market roads, schools, hospitals and higher pensions? Rainey believes the great underground storage of Texas minerals should be shared with all the people.

Mr. Jester

Elected your Railroad Commissioner as the farmer-rancher from Corsicana, drawing a salary of \$6,000.00 a year, wants to hold two jobs, or the right to appoint a Railroad Commissioner of his own choosing, without giving the voters an opportunity to select a man of their choise for this important office. The State Observer, published at Austin, says Mr. Jester was Attorney for the Southern Pacific Railroad, The Greyhound Bus Lines, and the Magnolia Oil Co., before taking the job of Railroad Com-missioner; that Mr. Jester has worked for higher oil prices all the time. Why did gasoline go up a cent a gallon right after the primary? Who pays the bill? Will it go up another cent or two cents per gallon after August 24? The State does not profit in these price rises. Ask Mr. Jester.
