DAVID LYNN COLEMAN
Mr. and Mrs. Ronald Coleman announce the birth of a son David Lynn on July 3 at Sheppard AFB hospital. Weight 7 lb. 7 1/2 oz. Sp-4 Coleman is in Germany with the armed forces.
Grandparents are Mr. and Mrs. A. L. Coleman and Mr. and Mrs. Ethard Glover.

Miss Ethyle Kidwell has as house guest her niece Miss Beth Harris of Winnesboro.

Sept. 21, 1958, Mayor R. E. Van Horn had the honor of dialing and saying "Hello" on the new extended serve line into Wichita Falls. Since that time customers in Iowa Park have enjoyed using the direct lines to call friends and business hoes in Wichita Falls without toll charges. Pictured, left to right, are Aldermen Clark Howay, L. L. Thompson, Frank Rauschuband T. C. Scott.

Tuesday a 7:40 p.m.

Southwestern Bell Telephone company will hold a special program at the Iowa Park Telephone Building next Tuesday, July 21. Glenn Scott, public information supervisor for the company, will present his show "This World of Sound" and telephone people will be on hand to show visitors the new building.

Openhouse will begin at 7:30 p.m. Scott will present his demonstration at 8:30. Gene Brusenhan, manager for Southwestern Bell, said this week.

The demonstration deals with the scientific miracles of sound reproduction.

Special exhibits will be brought here for the event. Visitors will have opportunity to hear their voice as it sounds to others when they talk over the telephone. A working solar battery will also be on display.

Everyone is invited. "It's free, of course," Brusenhan said.

More Colleg Buildings Will Have to Be rected Soon

The public has been amused by photographs of large numbers of college students wedged into telephone booths. But when we stop to think that college classrooms and dormitories may soon present almost similar picture, the outlook is not humorous.

This is one reason why I feel the President's veto of the Housing Act of 1959 was the first to proving act of 1959 was unwise. By 1965 the number of college students in the U.S. is expected to have doubled. Our institutions of higher learning are not growing fast enough to keep up with demand.

The Housing Bill would help colleges to help colleges—\$1000 for classrooms and \$2000 for dormitories. This is a spending measure but an important one. The loans would be repaid by the colleges with almost similar picture, the outlook is not humorous.

Evening Lions met in the Christian church fellowship hall for their regular meeting with Arch Hughes presiding. Sweethearts Sue Jaquart and Esther Thornberry provided the dinner music.

Bill Goss introduced as guests: N. E. Guthrie Jr., John Winslow, Lion Bob Huff of Hobart, Okla.; and two new members: Chester Miller and China B. Smith.

Al Reed presented Bert Van Horn a gold past-president's pin. Van Horn expressed his thanks and wished President Hughes the best for this club year.

Hughes announced his committee appointments:

Attendance: H. E. Jones, Ray Low, James McClendon.
Constitution and by-laws: Paul Zink, Al Reed, Bill Goss.
Finance: Paul Zink, Wayne House, John Rains.
Membership: R. E. Waters, Frank Rauschuber, John Rains.
Program and entertainment: Bill Sawyer, James Todd, Al Reed.

Citizenship and patriotism: Bill Sawyer, Wayne House, Addison Cutter.
Health and welfare: Addison Cutter, Joe Baxter, Ross Chapman, Doyle Eckelberger.
Safety: Ross Chapman.
Sight conservation and blind: Al Bennett, R. E. Van Horn, Joe Baxter.
John Rains served as program chairman and presented Don Rains of the juvenile division of Wichita Falls Police department. Don is a native of this area. He told of the problems his department faces with juvenile delinquency.

He said a juvenile is a boy up to 17 years of age and a girl up to 18 years old. Don explained the causes of delinquency are broken homes and neglect.

"It is the community's responsibility—our problem—to help to prevent delinquency among our young people. No child is born bad. All children need love and affection, but they also need discipline. It takes good homes and schools, environment, churches, clubs and organizations."

Last month, Rains said, 47 per cent of the arrests made in Wichita Falls were juveniles. A total of 829 cases were handled by the Juvenile department in Wichita Falls from January to July. Of these, the 15 and 16 year olds are in the higher bracket.

Miss Deede Elaine Stallings, daughter of Mr. and Mrs. Tellmon V. Stallings of Miami, Fla., will become the bride of Lynn Carlett Hensley, son of Mr. and Mrs. Herbert A. Hensley of Iowa Park, in marriage rites set for 5:00 p.m. Tuesday, Sept. 1.

The ceremony will be performed in St. Austin's Catholic church in Austin by Father Robert Murphy, Newman club chaplain at the University of Texas.

Wedding plans call for Miss Josseline Hensley to serve as maid of honor for her brother's bride. His best man will be Scott Stallings of Miami, brother of Deede. Bruce Hughes of Iowa Park and Bob Tydell of Austin will be ushers.

Miss Stallings is a graduate of Notre Dame academy of Miami and is presently a sophomore at the University of Texas, where she is a member of Chi Omega social sorority.

Mr. Hensley was graduated from IPHS in 1956. An honor student, he lettered in baseball and football. He expects to receive the BA in history and government at U of T in January 1960. Lynn is affiliated with Lambda Chi Omega social fraternity.

The J.O.Y. Sunday school class and the M.Y.F. of the Methodist church are planning a public ice cream supper and slave auction Thursday, July 22.

The ice cream will be served from 7:00 to 9:00 p.m. in Fellowship Hall of the church.

The slave auction will begin at 7:30. All members of the Youth Fellowship will be sold to the highest bidder to do any odd jobs.

Bring the entire family to eat homemade ice cream and cake for only 25c a serving. Then plan to stay for the fun of the slave auction.

Sponsors promise a good time for all.

Ben Hildebrand, program chairman, introduced Bowersock, who was a navy pilot during World War II. He is a native of Hobart, Okla. He and his family are quite active in the Methodist church and he is also active in the Toastmasters club.

In a humorous but educational talk on driving safety Bowersock told of three kinds of drivers that cause most of the car accidents: the weaver; the driver who runs up to a light or stop sign and tries to stop on a dime; and the horn blower.

Bowersock urged people to take more interest in safety campaigns and make the community a safer place in which to live.

Mrs. Grace Chastain and Mrs. L. A. Lee of Iowa Park attended a workshop on the school lunch conducted at Denton on the Texas Woman's university campus July 6-11. The workshop was designed to help lunchroom workers in planning and maintenance.

DEADLINE FOR LABOR RACKET REFORM
by Vant Neff

Let's face it. We have been delivered into the hands of the labor bosses. The high command of organized labor is - next to the U.S. Government itself - the most powerful force in America. Did we say "next to the Government?" It may be that the union bosses are the strongest force. Surely nothing now stands between them and absolute power but the 86th Congress. With only a short time left until Congress recesses, the question is: Will Congress stop this abuse of power before it's too late?
The union power grab is obvious. Take, for instance, the Teamsters official who was quoted in the McClellan Committee hearings. This official admitted that what he was doing was against the law. But he boasted, "you could go to the Department of Justice and you can go to the Los Angeles Sheriff's Department, and it won't do you any good. The union has plenty of money and we would fight it."
You can see the results. Day after day the long parade of fearful men pass before the McClellan Committee. Men who dare not sleep without handguns by their bedsides. Men who have seen others "purged" because they did not cooperate quickly enough to suit union gangsters. . . . men who risk their very lives by coming before the Committee in the first place. All this is happening right here in America!
The danger signal is up. "If we cannot get effective legislation now," warned Senator McClellan, "God help the country!"
Yes, it's up to the 86th Congress. Fortunately, there is still time. The House is now considering the Kennedy-Ervin bill. It's called a "labor-reform" bill. But it is actually a labor reform bill in name only. Sure, it contains some nice words about the basic rights of working men and women. But these provisions are so watered down that they mean next to nothing. Kennedy-Ervin offers no protection against blackmail picketing. . . . no protection from secondary boycotts. Worst of all, it does absolutely nothing about the thugs and hoodlums who have muscled in on union leadership. The Kennedy-Ervin bill is, as one Senator said, "a flea bite to a bull elephant."
And a "flea bite" won't do. The country is fed up with flea bites where a bulldog grip is needed. We must have a labor reform law with real teeth in it. The deadline is adjournment day for the 86th Congress. The time to enact a law is now!

according to law and may due return as the law directs.
Issued and given under my hand and the Seal of said Court, this 24th day of June, A.D. 1959.

Hot Weather!
More work for Reddy . . . more need for **FULL HOUSEPOWER**

The hotter the weather, the longer and harder Reddy works for you, operating your air conditioning equipment, furnishing extra refrigeration and ice cubes, and washing and ironing the additional clothes needed in hot weather.
Because of these extra summertime chores, your home wiring may not be adequate to let Reddy do his best work. If your lights dim when your refrigerator comes on, if your electric iron heats up slowly, if fuses blow frequently due to overloads, it's a sign of low HOUSEPOWER. You may need larger wire, an additional circuit or more outlets to get the most efficient and convenient service from your electric appliances.
Your electrical contractor will gladly make a check of your home wiring and suggest the additional wiring you may need for full HOUSEPOWER. See him about it soon.

Things You Never Knew About Alaska

Alaskans are the "flyingest" people in the world! More than 250 airfields and 40 seaplane bases dot the new State's 586,400 square miles. With few roads (4,000 miles), fewer railways, both passenger and freight travel by plane from Juneau to the Bering Strait.

Totem Poles—tree trunks decorated with carved and colorful animals, birds, fish—serve as family histories, coats of arms, grave markers, story books to the Alaskan Indians.

In Eskimo language, the word "alaska" means "great land". Rich in mineral treasures, furs, and fertile farm land, our 49th State sold for less than 2 cents an acre in 1867.

From Alaska comes an icy inspiration for cooling summer refreshment—The Alaska 7. Take the juice of one lemon, 2 teaspoons sugar, 1 generous jigger of Seagram's 7 Crown, shake well. Pour over ice cubes into 8-ounce highball glass. Add Seven-Up (or ginger ale) to top. Garnish with slice of orange and sprig of mint, if desired.

Swim and Picnic

Mr. and Mrs. Roy Childers were hosts for a swimming party for the Giant Little League baseball team Tuesday evening at Sand Beach, Wayne House, manager of county.

Later the group met their parents at the Childers home for a picnic supper.

Boys enjoy the outing were Jimmy Short, Dennis Hill, Wendie House, Dale Campbell, Brent Das, Jerry Carter, Robert Dawson, Johnny Huff, Roy Childers Jr., Mark Brubaker, Lowell Colvin.

Other parents present were Mrs. Gibbs Brubaker and Messrs. and Mrs. Donald Hill, John Huff, Bob Lawson, Bill Carter.

Miss Mrs. Tommy Compton and her Gary and daughter Sherri have turned home after vacation in Colorado.

ABUNDANT LIFE

GOD CAN HELP YOU FIND THE

I recently learned of a young woman who is a very active Christian. Her work is somewhat different from that of most women who help spread the gospel: She is a pilot and often uses her own airplane on missions of mercy!

She tells of one of her most harrowing experiences:

"I really become inspired while flying. I have never been afraid," she said.

"However, this particular night was different. I was on an emergency flight—a real errand of mercy. A coal miner had been injured in an accident at a time when we were having terrific spring storms in the area. The one road to the mine had been washed out by a ram-paging creek, and the only way to get the man to a hospital was to fly him out. Fortunately, between two steep hills, there was a valley large enough for me to land on and take off. I knew I could get the plane in and out again without trouble.

"So during a heavy thunderstorm, I flew in, picked up the injured man and took off toward the nearest city with a hospital—about 60 miles away. "Now 60 miles isn't far to go in an airplane. It can be made in my plane in 20 minutes. But I ran into difficulty," she said. "Tornadoic activity was in evidence. I soon realized I would have to detour around storm. I had plenty of fuel. I was not used to flying dark, particularly through lent weather!

"I became highly concerned, as the ceiling began getting lower and lower. I had been praying all the time—I always talk with God as I fly—but now I began to cry out in earnest:

"Dear God, this man is depending on me to bring him through. I'm depending on You to bring us both through. Don't fail me, God."

"Almost miraculously" the woman pilot said, "I saw a break in the clouds below. I dove through the hole. To my utter amazement and thankfulness, I found myself right over the city for which I was aiming! Although I had deliberately pointed my plane off course to avoid the storm, the strong wind had apparently blown me back on course. I quickly set down the plane. The miner was rushed to the hospital, and his life was saved.

"I know God helped me find my way," she said. "Only He could have opened the rift in the clouds. He enabled me to help save a life. God saved us both!"

Have you lost your way? God can help you find it. In times of difficulty, ask God to help, you!

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a car of these Chevrolet sixes with powerglide walked away with the best two places in their class, getting the best mpg figure—a whopping 22.38—of any full-size car. And here are more expert, impartial opinions and on-the-record backing us up on Chevy's six bests:

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevrolet out-stopped both of the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM

Official dimensions reported to A.M.A. make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

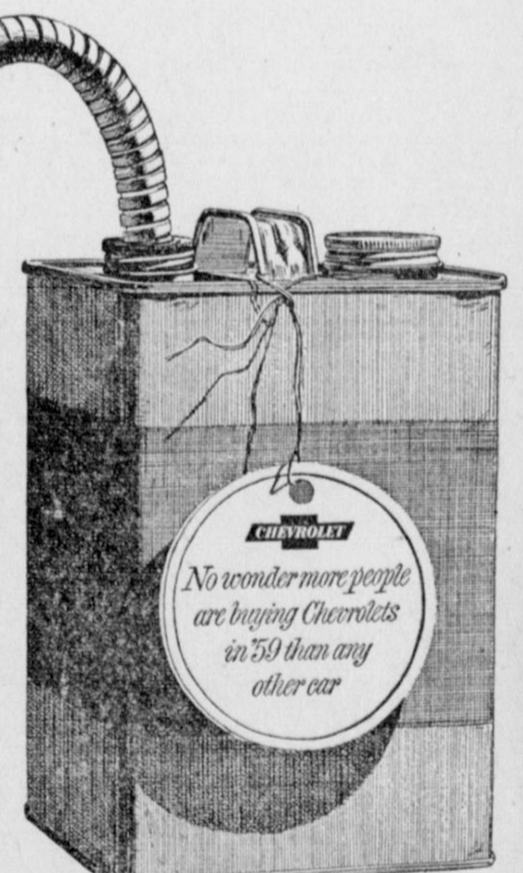

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the

TRADE-IN

the figures in any N.A.D.A.* Book, Chevrolet used car last year averaged up to \$1,000 higher than comparable models of the "other two."

BEST TYLE

It's the only car of the leading model 3 that's unmistakably Chevy line. "In its price class," POPULAR SCIENCE

most wonderfully responsive engine available today at any price."

BEST RIDE

MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!
