

MULLS FOR EVENING.

An Inexpensive Way of Getting Up a Lovely Design in Daffodil Yellow and Lace.

Mull is fashionable for evening. It comes at 60 cents a yard at the outside and makes a gown that can be worn at home or on receptions and parties.

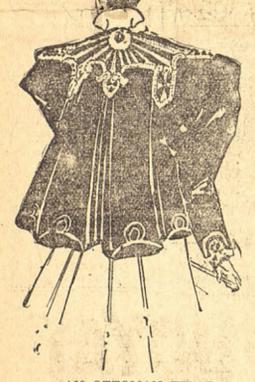

THE NEWEST MULL.

A lace striped mull over a taffeta skirt is the handsomest way of making up this material, even with the infinite variety of ways possible.

AN OTTOMAN WRAP.

Neat Little Outdoor Garment of Silk With Trimming of Gold Passementerie.

They are making the neatest little spring wraps of ottoman silk, wraps that are neither coat nor cape, yet they combine the pretty points of both.

AN OTTOMAN WRAP.

The most fashionable of the wraps are cut loose front and back. The front has a single box pleat and the back a double one.

The Queen and Tithe.

Queen Victoria once has shown her determination to compel widows of titled persons who subsequently marry men of minor rank to abandon the name and style of their first husband.

PERSONAL.

MADAM BELL, medium, 118 S. Tejon. Private calls will reveal the future as well as explain your past.

THE QUESTION OF THE DAY.

The people of Colorado Springs are deeply interested in the coming election for a mayor, a city treasurer and six aldermen.

They have been interested in city elections before this, but perhaps never so vitally as in this campaign.

Reform appeals to the overburdened taxpayer, and one candidate for mayor, Mr. Irvine, is pledged to reform in the city government.

Mr. Irvine is the choice of the business men of this community and that element is a safe leader to follow.

The city has reached a size and an age when village management is not suited to municipal demands and conditions.

We have grown rapidly, and paid for this growth with taxations but the tribute has been badly managed.

Now, let us have a change, and an administration watching the details of city expenditures and accounting intelligently.

Through a typographical error the name of the Republican candidate for alderman in the Third ward, Mr. R. H. Taylor.

The Madison Square Garden is a large white elephant. The city cannot get along without it, and the institution in turn cannot raise the yearly taxation of \$25,000.

A Matter of Hair Pulling. To the Editor of The Gazette: On the 27th day of March, in the city of Colorado, one Mrs. Catherine Fonda and six others appeared before George W. Taylor, a notary public in and for said county.

The situation in Cuba seems to be growing worse daily. There appears to be no further reason to expect the success of the insurgents on a basis that will lead to the establishment of a responsible form of government.

part of it will come back to you in another way, in increased business, if you are in business, or in advance of the value of your property.

So if you are going to build this spring, help the home people. Don't let Colorado Springs be known as a place where a stranger stands a better chance of getting a job than the man who lives here.

The "concert" of the European powers sounds in very amateurish fashion. The discords are frequent, and the principal performers, whose voices should harmonize, have individual aspirations to solo parts to a degree which threatens to bring the performance to an end suddenly and disastrously.

Tesla the great electrical genius, comes out now with a long dissertation regarding sleep. The theory he holds is that when a man lives he is dying by the hour, and to check this living death he should resort to sleep which is the storage battery of life.

The American ambassador in London has in his possession the original log of the Mayflower. This graceful gift from England to the United States will be thoroughly appreciated by American citizens.

There was a mistake in The Gazette editorial on Sunday in regard to the almanac candidates. It is Will C. Jones, and not his brother, Win, who is a candidate for alderman in the Fourth ward on the silver ticket.

Now, let us have a change, and an administration watching the details of city expenditures and accounting intelligently.

to the fact that the women are a most important element in the organization. Judging from the proceedings of a convention which was held in Denver last week, it is fair to assume that the prize-fighting quality, as well as political acumen and the choicest of statesmanship, is characteristic of the female populists.

So if you are going to build this spring, help the home people. Don't let Colorado Springs be known as a place where a stranger stands a better chance of getting a job than the man who lives here.

WAVE! WAVE! PAULINE!

Street Railway Ordinance Did Not Pass After All.

BLAMED IT ON THE TYPEWRITER

City Attorney Goudy Mildly Rebuked—Sheldon Ditch is the Cause of an Executive Session—Watson to Look into the Coal Business—The Council Meets Again This Evening.

Although the meeting of the city council last night was a very long one, the business that was transacted did not assume stupendous proportions. The meeting was called to order shortly after 7:30, with the mayor and all the aldermen in their seats.

Before the franchise was taken up for discussion some miscellaneous business was disposed of. A petition from a number of residents of East Colorado Springs was read in which it was asked that Wallace Hooke be granted the franchise he had asked the council for.

A communication was then read from the Woman's Christian Temperance union, and asked that all smoking be prohibited in the city.

Alderman Watson then took occasion to spring one of his little sensations upon the unsuspecting aldermen. He stated that a few days since a load of coal was brought to the city hall, and upon its arrival there the driver was requested to weigh the same by a city official.

Mr. Goudy remonstrated and blamed the whole matter to the typewriter. Technicalities of all kinds were then discovered and it was perfectly plain that it would be necessary to amend or dispose of the matter.

Mr. Humphrey, on behalf of Colorado City was given the privilege of the floor and made a short statement regarding the matter of turning the water from the Sheldon ditch into the El Paso ditch.

It appears that if this is to be done it must be decided upon by the Colorado City had been exceptionally liberal in its offers should the change be made, but there are a few matters connected with the proposed plan that had to be considered by this city before the change could be effected.

Mr. Goudy remonstrated and blamed the whole matter to the typewriter. Technicalities of all kinds were then discovered and it was perfectly plain that it would be necessary to amend or dispose of the matter.

AN ATTIC BLAZE

A North End Mansion Catches on Fire.

CONFINED TO THE TOP STORY

Mr. G. C. Hemenway's House on Cascade Avenue Tries Hard to Burn Itself but Begins at the Wrong End—Two Fire Companies Take a Hand and do Some Pretty Water Spouting.

Probably from a defective flue a fire sprang out in the residence of Mr. G. C. Hemenway, 145 North Cascade avenue, yesterday afternoon about half past 5 o'clock. It fortunately happened in the top story and did not spread further excepting in an upward direction. The roof ignited and soon the entire ceiling of the attic was ablaze.

The firemen of the Central and No. 2 companies were soon at work and finding the chemical apparatus powerless to cope with the fury of the flames, they attached the hose and copious draughts of water were applied. They had effect after a short time and the blaze subsided.

The administration of the water was attended with some loss to the appointments of the house. These and the destruction of a portion of the roof will aggregate in the amount of damage done to between two hundred and four hundred dollars.

The fire had started in a lower story with the same degree of interest, despite the science of Chief Baty's men, a much larger loss would have surely resulted.

LIBERTY BELL PARTY.

Children, the Colored Aldermanic Candidate, Breaks Out into Forceful Language and Tells What He Will do if Elected.

A meeting that, in spirit, would have done credit to a national convention, was held by the colored people last night in the basement of the A. M. E. church on Pueblo avenue.

In order that there shall be no misunderstanding as to the platform on which the colored voters will stand today week, when they cast their ballots, this session was called by the children's supporters.

Mr. W. H. Duncan was in the chair and executed the duties of his office in a highly satisfactory manner. If that is not an honor to a colored man, it is a disgrace to the white man.

The resolution adopted some time since and published in the columns of The Gazette as a card to the public, was used as a platform by the speaker.

On the reading and adoption which followed after an amendment concerning a certain declaration on Republicanism was adopted, the speaker said:

THE RIGHT THING TO DO.

Wheelmen Requested to Respect the Right of Way of the Fire Wagons Enroute to a Fire.

AN UNQUESTIONABLE PROOF.

The Big Figures of Increase in the County Treasurer's Receipts for the Month of March.

"Talk about hard times," said County Treasurer Steinmetz, yesterday, "Why, there is no such thing in Colorado, especially in El Paso county."

"How that, Conner?" Has the show finally arrived?" "You can call it a show if you want to, but it is no show. It is a fact that I have taken in taxes this month \$90,000 more than has been received at the county treasurer's office for any one month in the history of the county. If that is not a fact, I don't know what you call it."

This is certainly very encouraging news. The total receipts at the treasurer's office for the month will run over \$125,000, nearly all of which Mr. Steinmetz states, will be put in circulation next month.

IN THE COURTS.

The Complicated Adverse Suit About the Only Important Subject Before the Bench.

Stephen J. Burnes filed a suit for a receiver against J. E. H. Sibbald in the district court yesterday.

A suit entitled The Town of Colorado City vs. Chester Demire, was filed in the county court.

Anna E. Beymer was granted a divorce from Arthur S. Beymer in the county court.

The entire day was taken up in the hearing of the divorce case in the first division of the district court.

THE ANTLERS' IMPROVEMENT.

The Space in the Lobby to Be Enlarged.

Mr. Barnett is making some extensive improvements at the Antlers. The room back of the office is to be utilized for the news and curio stand. It will have an entrance from the reading room on one side, and from the hall opposite the elevator.

The change is deemed advisable in order to give more room in the lobby of the hotel by removing the stand from it. The Antlers orchestra is attracting such large crowds every evening that all the space available is required for the audience.

AS A TOKEN OF ESTEEM.

Degree of Honor Give a Surprise Party.

Members of the Degree of Honor gave a surprise party to Brother George W. Smith at his residence, 1681 Colorado avenue. He was presented with an handsome cup and a smoking set, as a birthday gift. About 25 were present and enjoyed a pleasant evening.

SCOTTISH RITES.

The High Degree to Be Conferred This Week.

A number of local Masons went to Denver yesterday to witness and assist in the conferring of the consistory degree of the Scottish Rite Masons, which will take place the early part of this week. The consistory, or thirty-second degree of the Masons, order, usually is conferred at Denver, and only by dispensation from the third-third degree. It takes three days to confer the consistory degree of the Masons. Some of the robes which will be worn at the Denver meeting cost \$300 apiece. A big banquet will be held at Denver by the order on Wednesday night.

A PYROTECHNIC DISPLAY.

The Sparks That Flew from the Flue.

About 7 o'clock last evening sparks were seen issuing from the rear of the Exchange Bank building. A crowd quickly gathered on the Pike's Peak side, as it looked as if the building was on fire. The sparks, however, only came from the big flue which was burning out. No damage was caused, and no alarm turned in.

OPEN AGAIN.

The Club House Billiard and Pool Parlors, after remaining closed for several weeks past, during which time they have undergone extensive repairs opened again last evening and remained crowded until a late hour.

THE PLACE.

The place is now one of the prettiest and most attractively arranged halls in the city and possesses a very clean and tidy appearance, something which could not have been said of the building when it was first opened.

MINSTRELS AT THE OPERA HOUSE.

The Georgia University Minstrel troupe will give their minstrel performance in the opera house tomorrow evening. An exchange in speaking of them says: The minstrel performance at the Park theater last night by the Georgia University Graduates was the occasion of a crowded house. The entertainment presented was refined, fresh and enjoyable. The audience was kept in merriment, and the humor during the evening, and the reading of the ordinance continued. As the high school clock struck twelve times the operation had been completed and a motion to adjourn was accompanied by a dash for the door.

DR. V. FOWLER, Dentist, Rooms in Nichols block, 18 South Tejon street.

HALLETT & BAKER, Undertakers, No. 7 Cascade avenue.

ONE MAN WANTS TWO HUNDRED FOR RED RIVER.

H. H. Hankins, proprietor of the Springer and Red River stage line, arrived in the city last night and is registered at the Albany hotel. His mission here is for the purpose of purchasing several hundred head of horses for use on his line in order to properly handle the rush of passenger business to the Red River district. He says the traffic of that district is gradually increasing and will be rushing in the course of the next thirty days, when the snow disappears. The line from Denver to the mines so far discovered are proving exceptionally good and the district has been only partially prospected. The route from Springer follows the Ute Creek, Baldy, Perryville, Elizabethtown, Hematite and Red River City; leaves Springer daily at 7 a. m., reaching the mines for outfitting prospectors and miners. Mr. Hankins will be in the city for two or three days and expects to take two or three carloads of horses with him on his return to Springer.—(Denver Daily Post, March 25.)

AMERICANS AND THEIR MONEY.

A late issue of the Farmers' Union has an edition upon "Coffee and its effect on health and public interests." The paper strongly urges upon the notice of its readers the fact that America is drained millions of dollars annually to foreign countries for a product that is one of the prime causes of the increase in nervous diseases in America today, and that a well informed physician, stomach and nerve ailments has, after a year's experiment, produced a delicious beverage from American cereals, wheat, platform. It is the exact color of high grade Java coffee and turns to the rich golden brown of Mocha when cream is added.

It is said to be less acid and bitter than the lower grades of coffee, but has much the mellow pliancy of the more expensive grades of Java and the Arabian berry.

This grain beverage never produces the unpleasant effect on heart or stomach and liver that is all too frequently the case with imported coffee. It looks and tastes like coffee the originator expresses the wish that it be known as Postum Cereal, a food drink, and not as an imitation of any other beverage, tea, chocolate, etc. This beverage is said to become very popular with those who find it hard to digest coffee, and the children of the household who like a liquid food, pure and nourishing, while they are at school.

There is but one genuine original Postum Cereal Coffee, with a multitude of imitations offered as "just as good."

Mr. M. D. Swisher, of this city, wishes it understood that he is not the Swisher whose name was mentioned in the Gazette in connection with a suit with the Bi-metallic bank of Cripple Creek.

Children's Home Society. A meeting in the interest of the society will be held in the Second Presbyterian church, at 10 o'clock on Wednesday afternoon, March 31st, at 3 o'clock.

Miss L. B. Smalley, one of the superintendents, is said to have found great favor with the wealthy classes for her ability to "make red blood" and with those who count the cost of food because of the economy and a marked improvement in general health when used. The gain to America by its general adoption should be great.

MINES, STOCKS AND INVESTMENTS

Colorado Springs Mining Stock Association.

Shipping Mines.

Colorado Springs, March 29.—It was one of the quietest days that has been seen on the exchanges for some time. Phosphates was the bright particular star that enlivened the session. Nearly 20,000 shares of the stock changed hands and the price was nearly a cent higher. While the mine continues to bear out the best expectations of its friends, the advance today was entirely due to the execution of an outside buying order. Several prominent brokerage houses have been advancing their bids for the phosphate stock shares for some time, and it was the filling of an order received by one of these houses that caused the advance today.

Anaconda held firm at 55 cents. There was a rumor on 'Change that the mine for the month of March would show a loss of \$4,000, but very little reliance can be placed upon it, as orders for the purchase of the stock today were said to come from the same source from which the report emanated.

There was a larger trade in Gold Coin than on any other single day. The first transfer was at 50, and 1,000 shares immediately sold at 45. The selling order was for several thousand shares and was eastern stock. It was quickly absorbed by local capital, and the last price was higher than the opening one, at 47. There is likely to be more trading in the stock from now on, and the indications are that it will soon become one of the most active traders on the list. With the exceptions noted the market was a weak one.

Table with columns for stock names and prices. Includes Anaconda, American Juniors, C. C. Consols, etc.

Separate Sales. The separate sales in the listed stocks were as follows: Anaconda, 1000 at 55; C. C. Consolidated, 500 at 58; Isabella, 400 at 40; Enterprise, 500 at 64; Ernestine, 6000 at \$4.50 to \$5.50 per 1000; Flower of the West, 5000 at from 4 1/2 to 5; Garfield-Grouse, 1000 at from 6 1/2 to 7; Gold Coin, 5000 at from 50 to 53; Henrietta, 2000 at from \$3.50 to \$5 per 1000; Ironclad, 4000 at from 6 1/2 to 6 3/4; Mt. Rose, 2000 at from 2 1/2 to 2 3/4; Nugget, 1000 at from 2 1/2 to 2 3/4; Rattler, 1000 at from 2 1/2 to 2 3/4; Sacramento, 2000 at from 2 1/2 to 2 3/4; Squaw Mt. T., 2000 at from 2 1/2 to 2 3/4; Virginia M., 2000 at from 6 1/2 to 6 3/4.

Japanese Farming. There are no farm houses in Japan, speaking in the language of the west. The farmers huddle together in small villages and go out to the fields during the day, carrying their farming implements on their backs to and from the field. It is a queer sight to see women and men, the distinction between whom, so far as dress is concerned, is not very marked, going off early in the morning, carrying, or pulling on a cart, rakes, hoes, forks, spades and curiously arranged hay-racks "for the back."

Unless he is rich his house consists of two rooms or, more correctly speaking, one room and a shed. The room is bedroom and dining room; as for parlor, the green earth with heaven's arching dome affords that. The shed is kitchen and wash-house; here he puts his farm machinery at night. Generally on the north and west, the roof, which is a thick thatch, reaches to the ground, while on the south and east it comes within a few feet of the ground, forming, as you see, a dark room into which the sun never enters and is consequently a dim, damp, uncanny place; and yet, here men, women, and children, to the number of six or seven, sleep and eat together like animals.

There are no plows in Japan—that is, there are so few that we may not find them to count them. Horses are hardly used at all, for it is impossible for a horse to walk the rice swamps, and he has not yet entered the wheat and millet fields. The immense rice fields are spaded by hand with a sort of half-fork, half-spade. When the rice is planted the water is turned on and kept there till the harvest; when, in some parts, the water is turned off and the rice can be cut with less danger to life and health—and yet, even then, the soil is ankle deep.—(H. H. Guy in The Midland Monthly.)

Colorado Springs Board of Trade and Mining Exchange.

Shipping Mines.

Colorado Springs, March 29.—The trading on the Board of Trade was very light. The largest trade was in Emma Almee, Jack Pot sold at 8 cents, Republic at 4 and Arcadia 5. The market closed steady.

Table with columns for stock names and prices. Includes Anaconda, American Juniors, C. C. Consols, etc.

Table with columns for stock names and prices. Includes Anaconda, American Juniors, C. C. Consols, etc.

Table with columns for stock names and prices. Includes Anaconda, American Juniors, C. C. Consols, etc.

Random Notes. Strong in spots. The aggregate of trade was very light. Bonbright was the seller of Mollie Gibson.

Isabella sold at low as 40%, and closed at 40 1/2. East and Tucker, Ballard & Co. sold Elktion.

Pharmacist was the strongest stock on the list.

Delany and Dorsey were the buyers of Anaconda.

Mollie Gibson is receiving better support at 21.

Tucker, Ballard & Co. bought all the Ironclad at 6 1/2.

The orders to buy Anaconda were said to come from Denver.

On the board of trade Duer bought 1,500 shares of Isabella at 4 1/2.

The largest trade in Gold Coin on the Exchange occurred yesterday.

A good deal of the trade on the board of trade was in Emma Almee.

J. A. Still and Dorsey were among the sellers of Pharmacist. Harris also sold.

The vein in the Gold Coin is from four to eleven feet wide. It is opened up for 800 feet.

Shove, Aldrich & Co. were the best buyers in Pharmacist. The order was from the outside.

Pettengill was the heavy seller in Gold Coin. Hobbs, Hawks and Carter were among the buyers.

Nearly 30,000 shares of Pharmacist changed hands. It was an outside buying order that advanced the price.

Eastern stock offered broke the price of Gold Coin, but it was quickly absorbed by local capital. An increase in the trading in the stock is expected.

Emma Almee Company. The directors of the Emma Almee Gold Mining company held meeting at their offices in this city last evening. The properties of the company are located on Ironclad hill in the Cripple Creek district, and are among the oldest locations in the camp. The superintendent in charge of the property reports matters progressing in a favorable manner. At their meeting last evening the directors let a contract to do 30 feet more work.

The Bald Man's Bacillus. The microbes, that scourge of modern science, has to bear the burden of yet another human infirmity. If we may credit the report made by Dr. Sabouraud to the Dermatological Society of Paris, he asserts that premature baldness is chiefly due to the ravages of a bacillus which takes up its abode in the fatty cells lying about the roots of the hair. Whether this parasite consumes the nutriment provided by nature for the support of the capillary crop or secretes a "toxin" that is fatal to the roots of the hair, we are as yet undecided. The eminent physiologist has succeeded in cultivating the creature after the most approved Pasteurian methods, and the feces of a sheep inoculated with the virus shows bare patches of a most gratifying nature. Now comes the question of the remedy. Shall we all of us have to be vaccinated for baldness, just as we may be for small-pox, rabies, diphtheria, cholera, bubonic plague, and the other ills that flesh is heir to?

Thomas A. Edison has offered to the National Museum at Washington a set of photographic films for the kinoscope taken during President McKinley's inauguration. They show the President taking the oath of office, Cleveland and McKinley driving to the capitol, and views of the parade. It is intended to have the films sealed hermetically and marked "To be owned by the Curator of the National Museum thirty years after President McKinley's inauguration."

MINERS ON GUARD

In the Portland Company's Workings.

READY FOR THE GRANITE MEN

Burns Wants the W. C. Dillon Claim Badly—Has Raised His Bid from \$75,000—Mr. Cone's New Enterprises—Electric Light for Goldfield—Improvements in the Florence & C. C. Ry.

Special to The Gazette. Victor, March 29.—The approaching trouble between the Portland and the Granite companies continues to be the all-absorbing topic in mining circles here. The work of barricading the opening between the two properties was completed some days ago, and several armed men are on guard in the Portland workings, fearing, it is said, that the Granite people will break down the barricade and proceed to mine ore which the Portland people assert is theirs. The lawyers on both sides spent most of the time last week here in camp, and a telephone message was received here today that Judge Rockwell of Colorado Springs, one of the counsel for the Granite company, would arrive in camp again tomorrow.

The Portland company has as large a force of men as is possible making up-raises and doing other development work in the disputed ground for the purpose of showing if it can that the ore body under the Monument claim is granite property instead of that of the Granite company. The men on guard in the workings are well known desperate characters who have never been known to give way before a gun.

Mr. James Burns, the president of the Portland company, is still endeavoring to buy the property, Mr. Burns and Mr. Rockwell here to be the key to the present complicated situation. He has raised his bid of \$75,000 made some time ago to the \$100,000. Mr. Burns claims to have believed here to be the key to the present complicated situation. He has raised his bid of \$75,000 made some time ago to the \$100,000. Mr. Burns claims to have believed here to be the key to the present complicated situation.

The veins in the property are said to pass through Dillon and Granite ground also and may be in more illustration. The Portland company is now negotiating with the Burns shaft in several levels in the Monument claim.

N. H. Cone, manager of the Victor mine and the Golden Cycle company, is proceeding with the work of laying the electric plant in the electric lighting plant. Compressed air will be used to force the water over Bull hill. Among other properties which will be supplied with light and water by Mr. Cone and associates will be the Victor, the Lillie and the Buena Vista of the Isabella district.

The town of Goldfield, in the Cripple Creek district, during February was approximately 18,000 tons, and the aggregate for March is estimated at 20,000. These are figures for mine crop, and to them must be added the tonnage treated within the district, probably 3000 more. The mills are now treating all grades of ore, so that an estimate of the value is almost impossible at this time. When the process plants were confining themselves to the low grades a division was easy to arrive at, but with them now working on high grade, the estimate is more difficult, and the figures of actual bullion yield are not obtainable.

Decrease in the Grade. There has been a decrease in the grade since the middle of February, and it is not probable that the average has been above 80 a ton since then. Such high average shippers as the Anchor, the Island and the Victor have been sending out more mill ore, leaving the Independence, Doctor, Portland and Elktion, the heavy shippers of high grade, to overcome the lowering of the average made by the enormous output of 335 ore from the Gold Coin and the 330 average of the Anaconda. The Pharmacist, Lillie, Vindicator and Legal Tender are increasing the average, and the high grade shippers of Beacon hill and Squaw mountain are doing much to keep up the average of the camp. The Maloney lease on the Isabella is coming in strong with 20 tons of 80 ore a day, and the Isabella ore is about the average of the camp. The estimate, therefore, appears conservative, and this places the March output at \$1,150,000.

Camp Can Keep It Up. Nothing can at present be foreseen that would prevent the camp keeping up this splendid record for many months to come. The heavy shippers are in condition to do their part. The Victor has the means to handle the Isabella, and is doing well and opening more ground. The Independence is always in shape, the Portland has an abundance of ore and is interfering, and Manager McKenzie is showing himself master of this trouble; the Doctor and Beacon are getting more ground open and have large reserves. The Pharmacist is getting to be an important factor, the fine line of big shippers on Legal Tender spur of the Independence are not limited by the ore, and all are finishing mechanical improvements that made unlimited production possible; the Elktion, although falling in output temporarily, will soon have ground open to allow an enormous increase; the Anaconda can and will send out whatever the mill would prevent the camp keeping up this splendid record for many months to come.

The promise is for advance in the average of the ore.

Gossip of Russia. St. Petersburg is the greatest place in the world for gossip, which derives a species of additional savor from the danger of exile to Siberia, which is involved in cases where it affects members of the imperial family. According to the stories now current in court circles, and in Clubland on the banks of the Neva, the relation between the young czar and his consort have undergone a considerable change—and that not for the better.

The czarina, in spite of all that has been said to the contrary, remains so much of an invalid that she has not come once into St. Petersburg from Tsars

THE LATEST QUOTATIONS

Table with columns for various financial instruments like U.S. new 4s, U.S. new 5s, U.S. new 6s, etc., and their corresponding prices.

New York Money Market.

New York, March 29.—Money on call easy at 1 1/2%; last loan, 1 1/2%; close offered at 1 1/2% per cent. Prime mercantile paper, 2 1/2% per cent.

New York Stock Market.

New York, March 29.—The week opened with continued ease in the downward movement of prices which had been in evidence since last Tuesday when the decision in the trans-Missouri first influenced the trading in exchange. The lowest influence was still powerfully at work and the apprehensions of security holders regarding its effects were intensified by the news of rate reductions by Missouri Pacific and St. Paul after their withdrawal from strike associations.

Chicago Grain.

Chicago, March 29.—Wheat started firm notwithstanding some matters of a discouraging character. The amount of wheat on passage decreased to 400,000 bushels last week, notwithstanding the fact that the quantity put afloat in that time from all countries was only 3,725,000 bushels.

Stocks in London.

New York, March 29.—Evening Post's London financial telegram: The stock markets were dull and uninteresting today. Prices fell of their own weight. A very pessimistic view is taken of Americans by some of the large financiers here, but others are disposed to regard the decline as overdone.

Chicago Grain.

Chicago, March 29.—Wheat started firm notwithstanding some matters of a discouraging character. The amount of wheat on passage decreased to 400,000 bushels last week, notwithstanding the fact that the quantity put afloat in that time from all countries was only 3,725,000 bushels.

NEW ORE BODY

The Anchoria Leland is Now into Twenty-Ounce Ore.

ANOTHER RICH CROSS VEIN

It Promises Better Results Than Either the Chance or Maloney Veins—Development Work on the Geneva—A New Find in the Rough and Ready—Beacon Hill Again Prominent.

The Anchoria Leland is now into twenty-ounce ore. This is a cross vein located through the Mattie L. shaft, and Manager Howbert has been confident all along that the upraise would develop a fine body of ore.

FROM OUR OWN CORRESPONDENT

OFFICE OF THE GAZETTE

The Anchoria Leland is now into twenty-ounce ore. This is a cross vein located through the Mattie L. shaft, and Manager Howbert has been confident all along that the upraise would develop a fine body of ore.

Work on the Geneva.

The Cripple Creek Consolidated company, since it took charge of the Geneva, has been doing development and dead work exclusively. The stopes have been cleaned out and it was found that the former lessee had overlooked a very good body of ore.

Good Ore in the Pointer.

The Joliet and Cripple Creek people on the Pointer on Gold Hill, started the upraise today. The drift at 150 feet is thought the upraise will disclose a fine body of ore.

Lessee on Beacon.

The east slope of Beacon Hill has not been mentioned in these columns very frequently. In the past a record of production from the shaft was given. It has been kept up without interruption.

Chicago Stock Market.

Chicago, March 29.—Cattle—Sales were \$2,700,000. The poorest dressed beef steers, up to \$2.00 per cwt. for choice to prime cattle, with fancy lots quotable as high as \$3.50.

The Great and Ever Progressive New York Life Insurance Co., 346 Broadway, N. Y.

Has opened a sub standard department, for the insurance of under-average risks, who from family history or other personal conditions have heretofore been unable to obtain life insurance in this or other companies.

It goes without saying that the above information is given for the benefit of the above class of people. This plan devised by the company is no more expensive than the rates charged the regular standard risk.

For information and rates, address C. A. Steil, Manager, 22 Jacobson Bldg., Denver, Colo.

A RAPHAEL OF PROVENCE.

"L'Arlesienne" by Alphonse Daudet, with Music by Georges Bizet, Produced at the Broadway Theatre.

The entertainment offered at the Broadway Theatre last evening, says the New York Times, comprising serious drama, comedy, melodrama in the true sense of the word was conceived in a reverent spirit and executed with a gravity of purpose and a degree of artistic skill approval. Alphonse Daudet's pastoral drama called "L'Arlesienne," involving a study of Provincial character and a study of Provincial character in a creditable manner by Charles Henry Metzger and W. Schutz, and was set upon the stage with three admirably painted and costumed characters. The quantity of the pleasing architecture of the neighborhood of Arles.

The music composed for the play by Georges Bizet, composer of "Carmen," (some of which had already been heard here in the concert room) was performed under the direction of Anton Seidl, who is one of our best conductors and is usually required in a theater. The singers on the stage were all competent. The music was beautifully rendered and the great success of the evening. The introduction to act IV, which seems to announce the tragic denouement. But consideration of the quality of Bizet's music, which is partly based on the music of the past, is not an appreciation of the value of the play as public entertainment. It is not sufficient importance, relatively speaking, to be necessary to the representation; and all minor details were as well looked after. The costumes and "properties" were all helpful to the illusion, and the effects of voices crying in the distance, of the calls of the shepherds far away, and the tinkling of bells were skillfully managed. Its people cling to some queer old customs; they are apt to get a bit wild in their merry-making, while their inherent mysticism frequently makes itself in the play. So far as the stage representation of those qualities and characteristics go, one must be interested beforehand and have a certain amount of knowledge of the play. It is a familiar saying that the human heart is the same in all ages and climes, and that dramatic art and novelists have always their best work in the saying false, it is still in favor. Upon its "human interest," as the cant term goes, the success of this drama must depend. That is perhaps not enough to warrant four acts of talk and song and dance.

Frederi is the hero. He is a young peasant who has just married a woman of Arles, who is said to be very beautiful and very wicked, but is never seen, and consequently, is not a factor in the making of dramatic interest. The spectator at the play cannot let his imagination work freely, because his faculties are concentrated, or ought to be, upon the rights and wrongs of her love for her lover. Frederi's position, apart from the absence of his cruel Marco, is similar to that of the hero in "The Merchant of Venice." He loves helplessly, and tries to forget. He promises to marry a nice, good girl. But the torment is always in the background, and he is never seen. His suicide is the catastrophe that ends the play.

It is not likely that the suffering of the hero, in the present play, will long compel the respectful attention of an American audience in ordinary circumstances, even if depicted in a wholly sympathetic and convincing way, which it is not at the Broadway Theatre. But, although he is the hero, Frederi is not the most important personage in "L'Arlesienne," and the reason is, in his mother, the woman who has suffered for him as he (weak-natured and ill-balanced) is incapable of suffering; who has given her soul to him, and as age is beginning to tell upon her, and her love for him is all she has for comfort, is horrified to see that he is drifting to ruin.

He will do anything for him. Her well-wishers are a greater variety than will live and be happy. She watches night after night by his door. She can feel his every look. She knows the meaning of every tone in his voice. She has been levied during the current quarter. It is gratifying to note that no Colorado companies are to be found in this list. The first of the names of the companies of fifty mining companies which are paying dividends. Among these, which include several of the Lake Superior and Montana companies, are four or five companies operating in the Cripple Creek district. This is certainly a very handsome showing for a camp scarcely five years old, and which moreover, has been developed during a period of continuous and severe business depression and financial unrest.

It will be noticed that we have added a new column to the tables upon the first page of our market letter, in which are given the total number of shares of the various mining companies. These figures will indicate the volume of business transacted upon our exchange, and we trust the tabulation will be found useful in the present state of affairs, and general trend of our market as time goes by.

The following is from the weekly market letter of Messrs. Carnaud & Rusch:

"The brighter outlook manifested at the beginning of the week on the New York stock market, and the consequent recovery of the stock market, is due to the decision of the supreme court in the case of the trusts, and the resulting decline in railroad shares has been followed by a general recovery of the market. There are no indications of an immediate revival, the prosperous condition of Cripple Creek cannot fail to bring about a recovery in the market, and times like the present should be taken advantage of by shrewd investors, who recognize the low prices at which our dividend paying stocks are selling.

The heavy production from the Isabella mine and the steady improvement in the property seem to have no effect in the stock market, and the price of the stock. This week shows a decline of two cents, though every lower point is vigorously contested by buyers who believe the stock to be an excellent purchase.

Likewise the reports of an increased dividend, and continued high grade shipments from the Elton property appear to have had no effect on the market. Today Elton sold at \$1.25, two cents lower than last Saturday. Phosphate and Work which showed strength and activity during the week were unable to hold the gain in the face of the heavy market and have settled back again to last week's figures.

With the improving grade of the last Anaconda shipment the stock records an advance of two cents and it looks as if the bear predictions that Anaconda will not be able to hold the market at 25 cents are not likely to be realized.

A strike in the A. J. verified at headquarters, advanced the stock to 25 cents, but was of short duration. The market lowered it to decline to 24 cents. Continued rumors that the main workings of the Mollie mine had been leased for a period of five years drove the stock back to 23 cents, but as this report is authoritatively denied, the price is again rallying.

Messrs. Brayton and Humphrey of the State University are spending a few days in their homes here.

Mr. G. W. Slaughter, who has been in the city for some time, left last evening for Springfield, O., over the Denver & Rio Grande.

Don't fail to visit the exhibition of high class capes at N. O. Johnson & Sons today. You are not expected to buy.

Remember the masquerade social tomorrow evening at G. A. R. hall. Queer costumes, funny songs and good music for only 10 cents.

Mr. Charles M. Freeman of Glenwood Springs was in the city yesterday on business. Mr. Freeman is interested in mining at Fulford.

Last Thursday's crowd will be doubled at N. O. Johnson & Sons' today, when 300 elegant spring capes will be on exhibition. Everybody invited.

Judge J. E. Rockwell leaves this morning for Cripple Creek to continue investigations relative to the suit to be brought by the Granite company against the Portland company.

The telling feature of the masquerade tomorrow evening will be some choice selections by a company of singers from New York who are in this city. Don't fail to hear them.

A telescope has been placed in the sun parlor of the Gloucester sanitarium. The instrument was purchased by Sister Fiedels in Cincinnati from Prof. Van Dress. It is a Parisian make.

At N. O. Johnson & Sons' today will occur another grand display of elegant spring capes, made of the richest silks, velvets, silks and laces. The exhibition will be in charge of the agent of the New York manufacturer and importer.

A Novel Tent. Mr. Luebert, the tentmaker at Frank's, has constructed a novel tent in the shape of a bicycle tent. When folded it packs out of the way within the diamond frame, and when set up it affords sleeping room for two men, beside complete protection from the weather for wheel, clothing, etc. The novel tent is on exhibition at the Stormer bicycle agency, 111 North Tejon street.

Mrs. J. G. Shields. Mrs. John G. Shields, wife of the senior member of the firm of Shields & Morley, died at her home, 1530 North Cascade avenue, yesterday morning.

Mrs. Shields has been an invalid for a number of years. The remains are to be taken to Grand Rapids, Mich., for interment.

Duplicate tickets given in every department until April 1st, at Catherine Edinger's.

Introductory sale of Rockwood's Celebrated N. Y. Chocolates, 50c per lb., at Baker & Co., Druggists, No. 8, South Tejon street.

The first baseball game of the season will come off at Athletic park, Saturday, April 3d, Colorado College vs. Denver Gulf team, the champion amateurs of last season.

A mistake in prescriptions cannot occur at Baker & Co.'s; their double check system is perfect.

Burglars in the City!! The Fidelity and Casualty company insures householders against loss of diamonds, silverware, money, laces, bric-a-brac, etc. Agency 14 Pike's Peak ave.

25 per cent. saved by having prescriptions compounded at Baker & Co.'s, No. 8 South Tejon street.

Silver novelties for Easter gifts at Goodspeed's.

Notice. At the request of my many friends, I beg to announce myself an independent candidate for alderman in the Fourth ward of the city of Colorado Springs at the coming city election.

C. H. Barnes.
