THE

A. T. & S. F.

ATCHISON, TOPEKA & SANTA

FE RAILROAD.

The Popular Southern Line

From Denver, Leadville, and all points in Southern Colorado, to Atchison, Kansas City, and all Eastern cities.

All passenger trains equipped with air brakes, Miller platforms, and all the modern improvements.

Fullman cars on all trains between Pueblo and the Missouri river.

The only Line via Colorado Springs and Manitou.

Through tickets on sale at all principal stations.

Rates always as low as by other lines. Baggage checked to destination.

T. J. ANDERSON, General A. G. Denver, Colo

vol 1 no 1-4

A New Phase--Jackson Arrested.

From the Denver Republican, Nov. 24.

A new phase in the Jackson Johnson-Ute-troubles occurred yesterday. Major Aaron Bradshaw, the bosom friend of that unfortunate inter-meddler in Indian affairs, Hon. A. B. Meacham, whose private secretary he also is, yesterday caused the arrest of John H. Jackson, uncle to Don Jackson, the boy killed by the Utes. He is charged with the murder of one Johnson, a Ute Indian, on the Ute Reservation. The warrant was served by one of Marshal P. P. Wilcox's efficient deputies, and the accused was brought before Commissioner Brazee, last evening. The commissioner committed him into the custody of Deputy Marshal Smith, until 10 o'clock this morning, when he will be given a hearing.

By the advice of his counsel, Judge Simmonds, Mr. Jackson declined, last evening, to be interviewed at length. He said, however, that in all the newspaper controversies in reference to the matter, and the public discussions that followed the murders, this is the first time that his name has been associated with the murder of Johnson, if murdered he be. He says he is entirely innocent of the crime.

The Jackson camp was first visited by the Indian Henry. After he left, Johnson and Henry came. The former demanded something to eat. He was informed that he must wait until it was cooked. He then said that the party was "Heap"; me no wait." He then pulled the cover off his gun, threw out an empty shell and loaded. The older Jackson yelled—"look out, boys, he's going to shoot, where is my gun?" Before he could procure his rifle Johnson fired. The bullet struck only a short distance from where the prisoner stood, and he was covered with earth as the missile plowed through the ground. Before he could move, another shot was fired, and Johnson rode away. If Johnson is dead, and was killed by a bullet, the crime could not possibly have been committed by the prisoner, who was unarmed.

Mr. Jackson says he shall, in the morning, demand a full and impartial hearing and is confident that he will be immediately discharged.

The prosecution is regarded as malicious, and believed to have been instigated by Mr. Meacham.

Mr. Jackson is in the custody of Deputy Smith at private quarters.

A Pointed Opinion.

From Gen. Crook's Annual Report.

I understand from the public prints that the commission treating with the Utes for thecession of their reservation only demand the surrender of the Indians concerned in the murder of Agent Meeker and his employees, and decided that it would make no demand for the surrender of those implicated in the assault upon Major Thornburgh and his command. This discrimination I cannot but regard as unjust and unwise. The Indians who murdered Agent Meeker and his employees murdered Major Thornburgh and the men who fell with him. The one act was no greater crime than the other. Major Thornburgh was on his way to the Ute agency in obedience to Agent Meeker's request to preserve order and restrain turbulence. He was not there to make war upon the Utes, and they knew it. It was nothing more nor less than murder. Certainly it was as much murder as the killing of Mr. Meeker and those employed under him. To treat it as anything else is equivalent to asserting that an Indian commits a crime only when he kills an agent who invokes assistance, but not when he way-lays and destroys the men who move to render assistance asked for. I would respectfully recommend that congress be requested to pass an act conferring brevets upon officers conspicuous for gallantry in Indian wars. Of all wars in which our troops have been engaged these are, as I have had occasion to remark, the most dangerous, the most thankless, and the most trying.

You Tickle and I'll Tickle You.

Colonel Ingersoll says he regards Henry Ward Beecher as the greatest man in any pulpit in the world, that he is of a wonderfully poetic temperament, that he thinks in pictures, that his brain is controlled by his heart, and that he "is a great thinker, a marvellous orator and greater and grander than any creed of any church,"—"a noble, whole-souled type of American manhood." He expects to live and die Mr. Beecher's friend. On the other hand, Mr. Beecher says he regards Colonel Ingersoll "as one of the greatest men of the age," though he thinks him in error in his religious belief; that he admires him because he is not afraid to speak what he honestly thinks, and is sorry that so great an orator does not think, as he does.

\$100,000.

SMELTING

IN OPERATION

AT RICO.

THE GRAND VIEW SMELTER IS

TURNING OUT BARS OF BASE

BULLION EVERY DAY.

THE PRINCIPAL PAYING MINES

AT RICO ARE BEING WORKED

AND ARE PAYING WELL.

THE MINES OF THE GRAND VIEW

COMPANY ARE TO BE WORK-

ED CONTINUOUSLY.

OVER ONE HUNDRED THOUSAND

DOLLARS HAVE BEEN EXPEND-

ED BY THIS COMPANY

THIS SEASON,

AND IT HAS ALL BEEN SPENT IN

THE "BEST INTERESTS OF RICO"

AS WELL AS THE COMPANY.

MINING IS NO LONGER A MYTH

AT RICO, BUT CAPITAL WILL

BE COMMANDED RATHER

THAN COURTED.

The Grand View Smelter started again in full blast, on last Monday, and has run smoothly and successfully every day, up to the date of this issue. Quite a large quantity of base bullion has already been produced, and the returns are very flattering, as far as we have learned. A large amount of ore is being received at the smelter. About one hundred and fifty pack animals are kept busy daily, transporting ore to the smelter, and a large number of men in employ. The smoke-stack of the smelter lights up the north end of Glasgow avenue and gives Rico a live appearance by night as well as by day.

Besides the mines of the Grand View Company, the Joannie Bull, Newman, and other mines are to be worked continuously. These mines are all undergoing live, progressive work at present.

The Grand View Company has paid over one hundred thousand dollars into Pioneer Mining District, beside the purchase money paid on the cluster of mines bought by them one year ago, which was one hundred and fifty thousand dollars. This the company has expended over one quarter of a million of dollars for their mining operations at Rico.

The smelter will be kept in operation as long as it is essential to do, this winter, and when it is closed down they will commence preparation for an early beginning of operation in the coming spring.

Divide the District.

From the Lake City Mining Register.

One of the first things to which the new legislature should turn its attention, in justice to the great mining interests of the state, should be the division of the Fourth Judicial District, which at present embraces a territory as large as the states of Massachusetts and Connecticut. Let the four counties of Gunnison, Hinsdale, Ouray and San Juan comprise one district, and give us at least three terms of the district court annually, and the country will then be safe. Lake, Park and El Paso, La Platta, Conejos, Costella, Rio Grande and other counties can be consolidated, forming at least two additional districts. Senator Peck informs us that action will be taken in this matter immediately on the assembling of the solons. It might seem, at first thought, that La Platta should be included in the San Juan and Gunnison district, but it will be necessary to form a separate district of the border tier of counties and La Platta will be easy of access by rail from Conejos to Durango. At all events we call for the much needed division.

The Bank of France, the most powerful monetary institution in the world, not excepting the Bank of England, carries about \$250,000,000 of silver in its specie reserve, all of which was coined upon the basis of fifteen and one-half ounces of silver as an equivalent, commercially considered, of one ounce of gold.

Theodore and Vincent, of the Plunkett company, are organizing a troupe in Denver to tour the state.

Stray Electors.

In the recent Presidential election one Garfield elector was chosen in California and one Hancock elector was elected from Indiana. In commenting on this the New York Tribune says: "The unexpected but premeditated Garfield elector in California is balanced by the expected and accidental Hancock elector in Indiana. The Indiana case involves a hardship which the California case does not. The California voters who scratched the name of one of the Democratic electors did so deliberately and with the knowledge that so far as it lay in their power they were depriving Hancock of one electoral vote. But there is no question that the majority of the people of Indiana intended that Garfield should receive the fifteen electoral votes of the state. Their failure to give him all, was due to a purely clerical blunder on the part of those to whom the mechanical duties of the canvass were assigned. To this extent the Indiana Hancock elector will misrepresent the state. The loss of one vote is perhaps no great matter this year, but in such a campaign as that of four years ago a mistake like this would have reversed the result and revolutionized the administration. It is certainly a grave defect in the electoral system that it would be possible for a careless clerk or printer to elect the President."

The following expose of a common mode of obtaining newspaper notoriety is clipped from the New York Weekly Mining News:

"The suicide of Mr. Gedalia, a member of the New York Mining Board, cast a gloom over the market and caused general regret among the brokers. Mr. Gedalia was a gentleman who deserved better fortune than he had. The statement made by Mr. Rutsky to a newspaper reporter, that if he had known of Mr. Gedalia's misfortunes, he would have lent him all the money he wanted, looks very neat in print, but it is not likely to deceive anybody. It only affords another illustration of the pettiness of some people who are mean enough to seek an advertisement for themselves, even over the dead body of a friend. Mr. Rutsky should confine himself to legitimate advertising and stop sticking handbills on the corpses of suicides."

The Denver & Rio Grande road has made a forward move. It has reduced the passenger rate between Denver and Pueblo to six cents a mile and made reductions on other sections of its line. Passenger rates in this state have always been extremely high, partly because of the unusual difficulties and expense of building and partly because of the thorough understanding between the different roads. This is the first break, and it is made by the one road left which is under a Colorado management. A better way of gaining the good will of the state could not have been found.—Denver Tribune.

The Chicago Journal's Washington special says: "A dispatch from Shanghai, dated November 18, just received, states that a treaty was concluded yesterday between the United States commissioners and the government of Pekin, thoroughly controlling the question of Chinese emigration. The news excites much interest and although the details are not at hand, it is generally understood, from what information has been recently received from the commissioners, that the stipulations will be perfectly satisfactory to the people of the United States, especially of the Pacific coast."

Robert Scott, fireman of engine No. 111, of the Colorado Central Railroad, was killed on the 25th prox., at the lower station near Boulder. The engine jumped the track and several cars were piled on top of it. Scott had his right arm broken and also his left leg. The fracture of his leg was of such a severe character that amputation was necessary, and the poor fellow did not survive the operation. He died about 8 o'clock in the evening. The deceased was a son of the ex-master mechanic of the road, was about twenty-three years of age and unmarried.

The opinion gains ground that Sherman will not make one of Garfield's cabinet and that an entire new set of ministers will be chosen by Garfield. In this event it is the general hope and expectation that Sherman will be elected to the senate from Ohio. His qualifications so overtop Foster's that comparison would be ludicrous. Stanley Matthews is said to favor Sherman.

A Truckee dispatch says Jamison, Plumas county, was burned at 4 o'clock on the 19th of November. The whole town is in ashes—about fortyhouses, including a fine hotel, three stores, several saloons and other business places.

Condensed Telegrams.

November 19.—The proposition to locate the coming world's fair in Central Park meets decided opposition.

Santa Fe, Nov. 19.—Three Mexican cut throats attacked the store of J. Brecker, and one Santiago Bacu was shot through the heart.

Washington, Nov. 22.—Ex-Governor POUND, member of congress from Wisconsin, is being pushed by his friends for the secretaryship of the interior department.

Albany, Nov. 22.—The state canvassers have declared the following results of the state election: Garfield, 555,544; Hancock, 584,511; Weaver, 12,378; Dow, 1,517. Total, 1,103,945.

Chicago, Nov. 19.—An Inter Ocean special says the opinion gains ground that Sherman will not be in Garfield's Cabinet, and that an entire new set of ministers will be chosen by Garfield.

Toledo, Ohio, Nov. 22.—It is authoritatively stated that Hayes will certainly not be a candidate for the senate from this state and would not accept the place, but strongly favors Sherman for the senate.

San Francisco, Nov. 19.—The grand jury has presented an accusation against Mayor Kallech, charging him with having procured the appointment of W. P. Hughes to a position in the office of registrar of votes, and then demanding from him a portion of his salary, which was paid him.

Paris, Nov. 22.—The clauses of the magistracy reform bill adopted by the chamber of deputies includes one for nominating chief judges for a term of five years. A Radical amendment that the judges be elected by universal suffrage was rejected by 172 to 125.

Dogwood, Nov. 22.—For months back a band of outlaws have kept the citizens of Fort Pierre, a town on the west bank of the Missouri river in terror, until the respectable portion of the community organized a vigilance committee with the determination of ridding the place of the ruffians. Last week the two opposing forces came together, both strongly armed. A fight ensued, resulting in killing Arkansas Joe, leader of the gang, and wounding four others. The vigilantes escaped unhurt.

Leadville, Colorado, Nov. 22.—About two o'clock this afternoon, Louis Lamb was shot and instantly killed by Mart Duggan, an ex city marshal of Leadville. It seems that Duggan was bringing a sleigh down to Minnie Purdy's house of prostitution for the use of an inmate, Anna Wallace, when he encountered Lamb on Fifth street. Lamb failed to get out of the road as quickly as Duggan desired and the latter indulged in some strong language. This led to further words, resulting finally in the murder of Lamb, who was shot just to the right of the mouth, the ball either entering the brain or piercing the spinal column.

Rumors are many and opinions quite evenly divided as to the justifiableness of the shooting. Interviewed Duggan who is very nervous and excited. He pleads self-defense, saying that Lamb drew his gun. He expressed regret at the killing. Duggan gave himself up to the police and is now in the custody of the sheriff, tho' not in confinement. Lamb was a miner, quiet and inoffensive, and not a drinking man. His wife has gone crazy, the scene at her husband's body was agonizing. Duggan is well known as a desperate and bad character, and won a most unenviable notoriety for himself at Del Norte three years since. His friends say he will be acquitted, but the public generally seem to hope that he will be convicted, regarding him as a dangerous citizen and a man of bad blood.

An exchange asks why Lezans was a haggard, and the St. Louis Post pertinentlly says—"It was because he didn't advertise."

Vice-President Wheeler says he intends to retire to private life after the expiration of his term of office. How he is to be any more retained than he has been, is a question.—Denver Republican.

John Clark and Arthur Chambers have agreed to fight for \$5,000 a side and the light-weight championship of the world, and a deposit of \$1,000 a side has been put up. The date and place for the fight have not yet been agreed upon. Much interest in the fight has been manifested in sporting quarters.

James W. Muekey, of Nevada, sailed on the 24th prox. from New York in the Bohemia, with his friend Harry Rozenor. After meeting his family at Paris he will travel through Europe and then make a trip up the Nile with his family and brother-in-law, Count Telferner.

The roofing and smelting works at Sheltenham, near St. Louis were burned recently. Loss, \$125,000; insurance, \$85,000. The fire was caused by the bursting of one of the smelting furnaces containing twenty five tons of molten lead. John Williams, the night engineer, while attempting to save his clothing, was overtaken by the flames and burned to a crisp. One hundred and fifty men are thrown out of employment. The works will be reconstructed.

The papers of the state are agitating themselves unnecessarily about Mancham, of the Indian commission. He is not worth an ounce of powder. He is a scapless old party of no importance whatever, who is regarded as a nuisance by his fellow-commissioners. One of those who hang about Washington on the chance of picking up a stray appointment that will make ends meet for a while. He can only be regarded as a very insignificant accident who has struck a small piece of luck and has had his head turned by it. What he says about Colorado hurts no one. His word carries no weight and his opinions are of no value. Indeed we are somewhat inclined to the belief that his surprise and gratification at striking three square meals a day for a time have proven disastrous and have sent him daft. It is stated upon authority that he looks wild and incredulous when anything is said to him. Let the poor old scatter-brain alone. It is the season for tramp paragrapph, say how.—Denver Tribune.

DOLORES NEWS.

PUBLISHED EVERY SATURDAY AT RICO, COLORADO. SATURDAY, DECEMBER 4, 1880.

POST MORTEM.

George B. Robinson, LIEUTENANT GOVERNOR ELECT, Dies Thirty-Six Hours After He Is Shot.

Kokomo, Nov. 27.—The Hon. George B. Robinson was shot and dangerously wounded to-night at 7 o'clock at Camp Robinson, while inspecting his mines in company with General Manager Brown.

The facts of the case are about as follows: It was rumored that a certain party would make an attempt to get possession of the mines and in consequence a strong guard was ordered to be placed outside at the main workings of the Smuggler mine.

Mr. Robinson, accompanied by J. C. Brown and one T. J. White, advanced to the door of the main tunnel and sought admittance. No one responding Mr. R. lit a match, when a voice was heard from within asking what was wanted.

Robinson replied, not mistrusting a guard was inside, "Oh, nothing," which it seems the guard did not hear and immediately fired. The ball crashed through the two-inch door and Mr. Robinson fell dangerously wounded.

Aid was quickly procured and the Governor was borne to the hotel by the light of burning gas, as no candles could be obtained. Mr. Robinson when picked up was very faint and his pulsations were scarcely noticeable.

A Scientific Discovery.

Mr. W. B. Norton, while working a claim about six miles from Rico, supposed to be in the neighborhood of Hermosa Park blasting in lime rock at a depth of twenty-six feet below the surface, blew out a rock that looked curious enough on close examination, and furnishes illuminating food for scientists to reflect upon.

"Blue Jeans" Williams Dead.

Governor James D. Williams, of Indiana, died recently. Governor Williams' death causes a new senatorial complication in Indiana, and threatens to leave the state without a head and prevent the election of a United States senator.

Mart Duggan was discharged on a preliminary hearing at Leadville. A brief account of the affray may be found in another column, under the head of "Condensed Telegrams."

Queen Victoria has recently presented the President of the United States with a massive desk or writing table, made of live oak. Its weight is 1,300 pounds, is elaborately carved and is a magnificent specimen of workmanship.

Chas. R. Johnston is the regularly authorized agent and correspondent from Rico for the New York Mining Record. This paper stands away up at the head of the list as a mining authority.

The origin of the report that President Hayes had undergone an attempted assassination has been traced back by a Leadville reporter to the following cause: "When President Hayes returned from his late junketing tour to the Pacific he

was asked, in Dodge City, Kansas, in the presence of Mrs. President, by some cow boy, if he wouldn't like a cock-tail while the engineer was watering up. He fainted at once, and the report went over the associated press wires that an attempt had been made to assassinate him."

The trial of Berry, Meacham, Hoyt, Clime, Holmes and others implicated in the murder of Jackson has been postponed until April 27, 1881. U. S. Justice McCrary held that it cannot be held in the state courts, as the crime was committed in a territory not belonging to the state, and that the federal courts have exclusive jurisdiction over the reservation of public lands.

J. H. Jackson, whose arrest is announced on the first page has been discharged, Commissioner Brazee holding that the proof of the death of the Ute Johnson was necessary to a trial of a person charged with his murder.

Several prospects are to be opened up during this winter, which will doubtless double the number of paving mines at Rico within a short time.

Rico is receiving more attention in Colorado, at present, than at any time since the exploration of the country in 1869.

Poncha Springs is the present terminus of the Gamulson branch of the D. & R. G. railway.

Reproduced by request. An Answer.

Written for the Dolores News in answer to "My Husband" from Harper's Magazine; BY S. N. MILLER.

Who, when my years are very few, Said, "Yes, dear love, I'll go with you And share your joys and sorrows too?" My wife.

While sunshine flocked our path with gold, Whose love for me did never grow cold, Who did to me her heart unfold? My wife.

Who proved so true in after years, And dried the fount of "adverse" tears By soothing all my saddest fears? My wife.

When I am cross and out of sort, And answer all her questions short, Who never gives a sharp retort? My wife.

Who in my dire adversity Seems like an angel sent to me To ease my troubles all to see? My wife.

When I work hard and come home late, Whose "meets me at the garden gate And with a kiss fatigues aite?" My wife.

As soon as supper it is o'er And I start forth to toil once more, Who says: "I have done every chore?" My wife.

Who will in spite of all I say, Work hard to help me on my way, To lay up "for a rainy day?" My wife.

Who knew my every want so well And by my looks my thoughts could tell 'Ere since she was the village belle? My wife.

When needy sufferers face our door And with pleading looks for alms implore, Who makes their hearts with thanks o'erflow? My wife.

When in old age my steps grow weak, My once gay voice sounds with a squeak, Who then will kind words to me speak? My wife.

Who merits the purest love e'er known? Whose lump of peace has ever shone To light her to her maker's throne? My wife.

Job Printing

OF EVERY DESCRIPTION AND KIND Executed in the highest style of the Art

SATURDAY, DECEMBER 4, 1880.

Wants, For Sale, Etc.

These Notices at the Rate of Ten Cents per Line.

FOR SALE. A HOUSE COVER, 18x22, of best quality ducking, only used about a month, good as new. Will be sold cheap. Apply at the office of the News.

FOR SALE. A splendid residence location, apply at the News office.

Rico has no tailor shop.

To-day is snowy and stormy.

Bob Darling is in Washington.

Mails do not seem to connect regularly at Cascade.

There is more snow in the Animas valley than at Rico.

Currency has been very scarce in Rico during the past month.

A. L. Baker has not left his sick bed yet, but is slowly recovering.

The town revenue is light now, but will commence coming in soon.

Job work done at this office cannot be beaten in Southern Colorado.

Some of Rico's folks had an old fashioned sleigh-ride on last Friday.

The Rico Miners' Union is pretty thoroughly and systematically organized.

During the late unpleasant weather there has been more sickness than ever before.

A sheet and pillow case ball was given at Bean & Brydon's hall on last Thursday evening.

Very little is said of the new fort to be built by the government, on the La Plats, near Animas City.

All of our patrons are appointed agents, to see that their neighbors subscribe for the News.

Joe Tremble returned from Durango yesterday after a short visit. He seems to think that it is n. g.

Jesse Love, an old-timer, has just returned to Rico, from a prospecting tour throughout this section.

It is difficult for the news-stands to obtain late periodicals, on account of irregularity in mail matters.

Many of our boys who have gone out for the winter regret that they are not here to see the smelter in operation.

The town of Rico is now better prepared to accommodate its many visitors, than last fall and winter, by great odds.

We are informed that the new smelter at Durango will unfortunately be somewhat delayed, on account of severe weather, etc.

Perry Christ and Will Gilmer are on the improve a little, and will be able to go on the grand excursion to Bear Creek in a few days.

Mantz avenue is in a dangerous shape at present from the water overflowing from the excavation running parallel with Silver street.

The question as to who will be the next Speaker of the House of Representatives to succeed Randall is the question which is now agitating the political mind.

Rico may expect to receive a large share of all classes that constitute the present Durango boom, as soon as the winter weather is broken, which will be about March next.

When the News was established at Rico, there was not a respectable building in the town. Now, Rico has near a hundred splendid buildings, besides the hundreds of rude structures.

The reduction in fare over the D. & R. G. railroad from ten to six cents per mile is a great improvement. Railway passenger rates in Colorado have always been extortionately high and we welcome this realizing sense of justice.

The Leadville Chronicle and Denver Mining Review both came to us this week with a brief description of many of our noted mines. Eber C. Smith is entitled to the credit therefore, he having visited these offices and given the information.

Messrs. Meyers & West, the live livestock men of Southern Colorado, located at Animas City, are running an hourly line of vehicles between Animas City and Durango. And have stables in both places, where the traveling public should direct their attention, especially those who would have their animals well cared for.

A new lunch stand has been opened in Winkfield & Klew's building. This is a much needed institution and hereafter those who become hungry between meals can get anything in the lunch line served in the finest style. Messrs. Davis & Letts are the proprietors, and after a practical test we pronounce their management as No. One.

BUSINESS DEPARTMENT

Splendid Oat meal at D. McIntyre's.

Freeze Out at Telephone Billiard Hall.

Pure Apple Vinegar at D. McIntyre's.

Dried Fruits of all kinds at D. McIntyre's.

Clothing and everything needed by miners at low prices at D. McIntyre's.

Sweet Stephanie cigarettes with patent glass mouth piece at Telephone Billiard Hall.

The best Missouri Blue Hickory Pick, Axe and Hammer Handles at D. McIntyre's.

Call at the old reliable assay office of Egger Bros., on Commercial street, near Mantz ave.

Wall Paper, Border, Curtains and Fixtures at Newman, Chestnut & Stephens, Animas City.

2,000 Rolls Wall Paper, choice patterns just received at N. C. & S., Animas City. Send for samples.

Jackson's Best Neptune, Big Gun and Lorillard's best Plug tobaccos at Telephone Billiard Hall.

10 Ball Pool, 15 Ball Pool, Pin Pool and Billiards on Brunswick's best and newest tables at Telephone Billiard Hall.

The News will be found on sale at the Postoffice Drug Store of Taft and Lusk, and at the Drug Store News stand of Hunt & Munde.

If you want your horses wintered well and their re-delivery warranted, take them to Theo. L. Bolle's Pioneer Stables, below Davis Bros' blacksmith shop, 55-4t

By calling at Taft's in P. O. building you will be able to purchase anything in the hardware or clothing line at very low figures, as he is closing out this branch of business to make room for his large drug and notion stock, just in.

SOLDIERS, ATTENTION!

All soldiers who have received 2 part, but not all of 160 acres of land from the government, by calling on me can obtain \$2.50 per acre cash for such part of the 160 acres as they have never received.

55 JULIUS THOMPSON.

Affidavit for Attachment.

The New State Directory.
The Colorado State Business and Mining Directory for 1881, a book of 400 pages, is now in course of preparation. The publisher aims to give a complete list of all the business firms of every class, mine owners, companies, and superintendents, mills, etc., in every town, camp, and settlement in the State.
Special efforts will be made to give the San Juan and Dolores sections a full and complete showing. Information from all parties is invited. A good agent is wanted for this county. Liberal inducements are offered. Address
J. A. BLAKE, Publisher,
Denver, Colorado.

A cough, Cold or Sore Throat should be stopped. Neglect frequently results in an incurable lung disease or Consumption. Brown's Bronchial Troches are certain to give relief in Asthma, Bronchitis, Coughs, Catarrh, Consumption and Throat Diseases. For thirty years the Troches have been recommended by physicians, and always give perfect satisfaction. They are not new and untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Public speakers and singers use them to clear and strengthen the voice. Sold at twenty-five cents a box everywhere.

A Good Thing for Miners and Lawyers.
A seventh edition of that much praised book, COPPS' Hand Book of Mining Law, will soon be out; to contain the State and Territorial Mining laws, and instructions how to examine title, in addition to the lists of Government patents, digest of decisions, and other good things in previous editions.
Its editor, Henry N. Copp, of Washington, D. C., has an extensive work on the same subject in press. It will give in full, the Land Office and court decisions now in force, and be the authority on United States mining law without doubt.

MOTHERS! MOTHERS! MOTHERS!
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

Notice of Entry of Town-site of Rico.
To all whom it may concern:
NOTICE IS HEREBY GIVEN that T. F. W. Raymond, as Mayor of Rico, did on the 27th day of August, A. D. 1880, at the U. S. Land Office at Lake City, Colorado, enter in trust for the use and benefit of the town-sites thereof, that certain tract or parcel of land situate in the county of Oury and State of Colorado, known as the Town Site of Rico and more particularly described by metes and bounds as follows, to-wit:
