PENASCO TO BE USED.

Penasco River is to Be Harnessed to Supply El Paso and Vicinity with Water Power.

If the plans of the New Mexico Power company, owned by E. K. Krause and W. E. Fletcher, of this city, mature, in eight months more 2000 horsepower of electricity will be delivered to this city, the probably cost of which, according to Mr. Krause, will be 1 1-2 cents per horsepower an hour, or about one-half of what is now charged for power in this city.

This company has acquired about four and one-half miles of the land along the Penasco river, southeast of Clouderoft, and the water from this river will be diverted by a dam to Cox canyon. From the lake thus formed the water will be taken in a ditch along the foothills to a power plant about three miles from Mayhill, about 18 miles southeast of Clouderoft.

From the power plant it is planned to carry the current to Jarilla and down along the Rock Island to Alamogordo, Orogrande and this city, where it will be utilized for power.

It is estimated that 2000 horsepower can be delivered to this city by this means. The entire plant will cost about \$500,000, according to Mr. Krause.—El Paso Herald.

Wanted--Tarps and Wagon Sheets

The committee in charge of the Alfalfa Festival have decided to build an alfalfa palace in which to house the exhibits in, and as the of which the building is to be constructed must be returned uninjured to the owners, the committee requests the loan of all the tarps and wagon sheets which are available. Care will be taken to return these to the owners as soon as the Festival is over and all which may be damaged while in use will be settled for. If you have a tarp or wagon sheet you can let us have, leave your name at the News office and the favor will be greatly appreciated.

FESTIVAL COMMITTEE.

Retaliation

When Bernard S. Rodey, now a judge in Porto Rico, was the delegate in congress from New Mexico, he used to get furious because members would introduce bills relating to New Mexico without consulting him. He declared it brought him into the contempt of his constituents.

One day "Charlie" Curtis of Kansas, now Senator Charles Curtis, introduced a bill setting aside 100,000 acres of land in New Mexico as a ranch for the breeding of buffalo.

A couple of days later Curtis was amazed to find in his batch of printed bills one providing that 100,000 acres should be set aside in Atchison county, Kas., which was in Curtis's district, as a ranch for the breeding of prairie dogs. Rodey had introduced it.

The Third Political Game.

The third and last ball game of the political series will be played at the new park next Thursday, September 3. On that date the new park will be dedicated, and in addition to the ball game there will be a number of races and contests which suitable prizes will be given.

A relay race of a quarter of a mile will be run by four men on each team. The 100 yard dash will be free for all, "Doc" Kuykendall will challenge the winner. The players on the ball teams will be timed on base running, and a ball throwing contest will be held.

Don't fail to turn out and enjoy the best afternoon's sport of the season. The Elephants have won the first game, 11 to 6, and the Burros the second, 6 to 4. The game next Thursday will decide the championship.

More Alfalfa Going Out

The Alfalfa Growers' and Shippers' Association shipped fourteen cars of alfalfa to southern points this week. The alfalfa was all of the finest stock. The cars were decorated with a large banner before they were shipped and some fine photographs were taken of them. We understand that more are to follow as soon as the alfalfa can be loaded.

Notice

DEPARTMENT OF TERRITORIAL ENGINEER Santa Fe, New Mexico, August 8, 1908. Notice is hereby given that on the 20th day of July, 1908, in accordance with Section 26, Irrigation Law of 1907, Milton Spencer Lee, of Artesia, County of Eddy, Territory of New Mexico, made application to the Territorial Engineer of New Mexico for a permit to appropriate from the Public Waters of the Territory of New Mexico.

Such appropriation is to be made from Eagle Draw at a point in SE 1-4 of NE 1-4 Section 22 T. 17 S. of R. 25 E. By means of Diversion and 3.1 cu. ft. per sec. is to be conveyed to points in NE 1-4 sec. 13 T. 17 S. R. 25 E. & S. 1-2 of SW 1-4 of SW 1-4 Sec. 7 T. 17 S. R. 17 S. R. 26 E. & S. E. 1-4 of S. E. 1-4 Sec. 12 T. 17 S. R. 25 E. By means of ditch and there used for irrigation of 220 acres and domestic purposes.

The Territorial Engineer will take this application up for consideration on the 7th day of October, 1908, and all persons who may oppose the granting of the above application must file their objections with the Territorial Engineer on or before that date.

VERNON L. SULLIVAN,
Territorial Engineer.

Big Land Sales This Week.

This week has surpassed all previous excursions in the history of the Middle Valley for big land sales. A large number of homeseekers and investors came in, and most of them were men with money who were looking for something good. One firm has sold over \$100,000 worth of land and all of their deals are not closed up yet. Nearly all the real estate men had homeseekers with them on this excursion and the majority of them purchased land.

MCBEE THE CHOICE.

Man from Melrose was Nominated by Acclamation. Said to Favor Small Counties.

At the Democratic convention at Portales Tuesday, Wm. D. McBee, of Melrose was nominated for Councilman from the Twelfth district by acclamation. The Chaves county delegation was instructed to vote for J. S. Lea, of Roswell, but when they arrived at Portales they found that Roosevelt and Eddy had got together on McBee, giving him 32 votes to start with. J. T. McClure, of Roswell, made the nomination.

The Roswell Record stated a few days ago that McBee was in favor of county division for his own county, so it is not much to suppose that he would also favor Artesia county. While one Democrat in the council cannot do much either way, it will do no harm to have him on our side. Chaves and Eddy counties are to be congratulated on the delicate way in which they have aided the Artesia county proposition.

Notice for Publication

U. S. Land Office, Roswell, New Mexico, August 8, 1908.

Notice is hereby given that Allen C. Heard, of Carlsbad, Eddy county, New Mexico, has filed in this office his application 01907 to enter under the provisions of Sections 2306-7, Revised Statutes, the following described land, to-wit: Northwest Quarter of Southeast Quarter, Section Six, Township Sixteen South, Range Thirty-eight East New Mexico Principal Meridian, containing forty acres.

Any and all persons claiming adversely the lands above described, or desiring to object because of the mineral character of the land, or for any other reason to the disposal of the applicant should file their affidavits of protest in this office on or before 12th day of September, 1908. 50-2

Money is Divided

A meeting of all the committees of the Alfalfa Festival was held in the Club rooms last Saturday afternoon, and the final division of the money took place. Some features of the Festival had to be omitted, owing to the lack of funds, but there is plenty to give the biggest celebration in the Pecos country and that is what we are after.

At the first meeting the band was apportioned fifty dollars, but Manager Adams declared that this was not enough for the work the boys would have to do in the two days. After some discussion the amount was raised to \$100. The boys are practicing hard on some new music and if we didn't already have the best band in the Valley we will have it in a short time.

A full list of prizes and awards will probably be ready by next week.

Our Birthday Edition.

THE NEWS will be two years old September 10th, and in honor of the event will be put out a large special edition, devoted mainly to the Middle Valley, its advantages and the improvements made during the past year. A large number of extra copies will be printed and distributed both in the Valley and the north, where the immigrants are coming from at this time. The issue will be well illustrated with cuts of Valley scenes, and altogether it will be quite an advertising feature.

Single copies of this paper will be sent to any address for 5 cents each or 50 cents per dozen. Advertising will be taken at the regular rates. Place your order early.

Boatride at Lakewood

Word reached Artesia this week that the school teachers had taken a boatride on Lake McMillan last week and with very disastrous results. About the time the big tub reached the middle of the lake the gasoline engine went dead on them and they had to drift whither the Pecos took them. The said Pecos took them to the east bank, and my, but it was a long walk from there home!

It is reported upon very good authority that the next time the young boatmen of Lake McMillan plans a ride by moonlight, his party will be made from other sources than County Institutes.

Canned Cantaloupes

The editor of THE NEWS has been somewhat backward this year in crop stories, and otherwise recording the marvelous facts about the Pecos Valley, but Tuesday morning we saw a canned cantaloupe that caused all our good resolutions to vanish like smoke. This cantaloupe was grown by J. D. H. Reed and is now on display in his show window. In some way the melon grew inside a tomato can, and as the warm sun shown down and the wet water irrigated it, it grew so fast as to completely push the bottom out of the can.

Had the can been larger today Artesia would have a perfect specimen of the natural canned melon, homegrown and ready for shipment, but no Pecos Valley melon would allow itself to be confined to an ordinary tomato can without protest. As it is Artesia is now a step ahead of Burbank and a company will be organized in the near future to put the Natural Canned Melon on the market.

BIG JO IS ENJOINED.

Work on the New Lumber Yard is Stopped--Benson Resigns as City Treasurer. Blake Elected to Take the Place.

The Council met Monday evening with Hess, Highsmith and Majors present, to consider a proposition which Mr. Samson, manager of the Big Jo Lumber Co., made to them. As serving the injunction would only stop the work on the new yard only one day earlier than the ordinance Mr. Samson proposed that the City and the Big Jo get together and save the expense. If the City would not bring the injunction, Mr. Samson said he would stop work until the ordinance was in force, after which the matter could be settled either in or out of the courts. The board adjourned without taking any action.

The council met in regular session Tuesday night and the matter of the injunction against the Big Jo Lumber Company was taken up again. The council finally decided to let the matter go on, and the injunction was served Wednesday. The matter will now have to be fought out in the courts.

Wm. Benson resigned as City Treasurer, and Albert Blake was elected in his place. Several new ordinances were read and passed over until the next meeting. There being no other business on hand the council adjourned.

Decide to Have Another Horse Show.

The Horse Show Committee, which made such a great success with their public entertainment last fall during the Elk's Carnival, held a meeting at the Roswell Trading Co., and decided to have another show this fall. They will have it some time in October, probably the Saturday after the close Irrigation Congress at Albuquerque, which will be the 17th. It is the intention of the committee to give about \$400 in prizes. The purpose of the show is to arouse interest in fine horses in the Pecos Valley and to afford entertainment for the people of the valley. The show of 1908 is to be bigger and better than ever. Charles C. Tannehill was elected a new member of the committee and given the only office, that of secretary.

CIVILIZATION is largely a matter of conveniences. The more convenient it is for us to live our life, the more civilized we are said to be. The Anglo-Saxon people are more civilized than any other people, simply because they have made living a little more convenient than other races and have been foremost in the fight to discover new conveniences. If we are to overlook convenience in locating the new high school building, and force the school children of Artesia to walk from four to five miles a day simply because school children outside of town do it, we are going back a step and imposing a burden upon the children because a few disciples of Major Ozono and Bernard McFadden are crazy with the heat.

Their arguments in favor of physical culture on the road to school might fit very well in some crowded city, but in a small town like Artesia the children who lay back and live a life of idle ease are few indeed. The fads and fancies of individuals bidding for notoriety are all very well for those who can afford them, but Artesia cannot afford to locate a school at such a distance from town merely on the say so of these dreamers and real estate dealers.

The argument has been advanced that the school should be located outside of town because the whole district is paying for it. Were it possible for a location to be secured where all would be equally benefitted this should be all right, for the farmers on the outside of town will have to bear their proportion of the expense as well as the people in town. But the majority of pupils would come from the EAST AND SOUTH and the walk to the college would be much longer than to a school building in town. However, this idea has much more sense in it than any other so far advanced by the advocates of the college site.

By the time Artesia has grown out to the college, we will need at least one and perhaps more, school buildings, and if the new high school is located there at present it

will keep many pupils out of school whose parents are unable to hire rigs to carry them out there, and will cause many others to be absent in stormy weather.

When the Artesia college was incorporated one member of the school board held \$500 worth of stock, and unless he has disposed of it since that time the Board is prohibited by law from buying the college grounds for the new building. In fact, according to this law they are not even allowed to rent the college, although they have already done so. Following is a part of sec. 7, school laws of 1903:

"And all persons identified in an official capacity with the public schools or the higher education institutions supported in whole or in part by the public funds of this territory, are hereby prohibited from being a party, directly or indirectly, to any contract for which public money is to be used in connection with the operation or maintenance of such public schools or higher educational institutions."

From which it will be seen that unless the president of the Board has disposed of his interest in the Artesia College, the rental contract is null and void, as such contracts are prohibited by law.

SOME of that peculiar class of human beings, the dyed-in-the-wool Democrats have discovered that the man Graham, of the plains country is a very good man, and they believe if he is elected he will give Artesia a square deal. For this reason an active campaign has been started against Commissioner Turknett. It matters not to these fellows that Turknett has given Artesia a square deal all during his term of office, neither does it matter to them that he will do so again if re-elected. They have a rumor that Graham is alright, and they are willing to back that flimsy rumor against the certainty of Turknett's actions. They do not give a continental for the fact that Heard has done everything in his power to injure Artesia. They blindly overlook the fact that Graham was nominated because he was backed by Heard and his gang of hungry pap-suckers. They are out to defeat Mr. Turknett and with all of Graham's Heardism they are willing to elect him on the supposition that "he is a good man" and "he will PROBABLY vote for Artesia a bridge."

How noble, upright, how magnanimous it is for an individual or clique to return money to an individual or organization, which rightly belongs to such an organization, without the interference of non-combatants. Especially is this to be commended when such action is forced upon the party of the first part by law. Splendid! Wonderful! Magnificent! This is too much for our already overwrought feelings. Let us prey.

E. C. COOK, of Lakewood, Republican nominee of the twelfth district is well worth the honor bestowed upon him. He commands the respect and confidence of all who know him and will certainly bring out the entire strength of the party in this locality. We have at least set the Democrats a good example in nominating a candidate worthy of the position.

It is to the interest of the north end of the county to re-elect Commissioner J. W. Turknett and we have enough faith in the good judgment of the majority of the voters to believe that he will receive the support which is due him.

No accounts will be carried longer than thirty days after July 1. 44-49 ArtesiaMachine Shop.

Penasco Dam Will Be Rebuilt.

We have been informed that the Penasco Reservoir and Development Co., which was enjoyed by the government a few days ago from further molesting the waters of the Penasco and Walnut creeks, has adjusted the matter with the agents of the reclamation service and will go ahead with the work. The dam across Penasco, which was built to divert the water into the reservoir and which was washed out by the rise a few weeks ago, is to be rebuilt in the near future and the parties who are at the head of the project claim to have as much faith in the undertaking as they ever had. We hope to see this project develop some of the semi-arid lands west of Dayfun yet.

At last the Democratic papers, that is a certain class of them, have found some campaign material, and they are so happy! One of these amateur Sherlock Glucks delved around until he discovered a technicality in the platform of the Chaves county Republican, and when he made the fact know to the world the other Democratic editors came flocking like buzzards to enjoy the feast. This is only dead thing found this year in the Republican ranks but the birds are hanging overhead, hoping against hope.

WELL, thank the Lord, that means a walk-over for Larrazola and at the coming election and we will vindicate our man and show the "Bovine" under so deep that he will be a dead Bull in cold storage for years to come.—Roswell Democrat.

Haw! This causes us to cogitate some. Has Uncle Dick merely absorbed a pint of Epsom salts unto himself or can it be possible he has filled up on Dutch courage?

H. O. BURSON was not only the choice of Delegate Andrews for campaign manager, but he was the choice of the convention also. Indeed, he is the choice of the people of New Mexico for that responsible position. Another vindication, George.

Demos Win Ball Game.

The political ball game Tuesday afternoon was a sin and a shame. It was a sin on the part of the Republicans to let the Democrats win and it was a shame to take the part of the Democrats. The Burros got busy right at the first and brought in five runs in the second inning. They picked up another run in the fourth which ended their scoring. The Elephants rested on their oars until the seventh when three runs were brought in. They added another in the last half of the ninth, making the final score 4 to 6 in favor of the Burros.

But for the good work of Kuyrkendall in the field, the Elephants would have had more runs and less goose-eggs. Schwartz done some pretty work for the Elephants, but the feature of the game was Easleys pitching. Nobody had ever heard of Ben handing them over, but with the exception of a couple of Elephants who had to be carried to first base, he done well. Lynn pitched for the Republicans. Terwilliger was the champion base runner of the game and Joe Cohen demonstrated that fowls occupied nearly as warm a place near his heart as watermelons.

Likes The Pecos Valley.

C. E. Young, of Jones county, Texas, was in Artesia yesterday and made THE NEWS office a pleasant call. Mr. Young came overland, striking the Valley at Hagerman and the turning south. He is well pleased with the Middle Valley and when he returns home, will endeavor to have his father, A. B. Young, come here to live.

WHOA, BILLY BURRO.

In Case Bryan is Elected a New Hampshire Man Will Flood the Country With the New Toy.

Clarendon, N. H., Aug. 22.—A. H. Wilkes, of this place has invented a new toy which may rival in popularity the far famed Teddy Bear. This is no more nor less than a "Billy Burro," which will be manufactured and sent out over the country in large numbers in case Wm. J. Bryan is elected this fall. It is claimed that the Billy Burro is better adapted for the nations plaything than the Teddy Bear. The cars can be moved in any direction as well as the legs, and when squeezed the Burro says "Billy."

Mr. Wilkes got his idea in Roswell, N. M., about two years ago while on a prospecting trip to the Pecos Valley. Large numbers of the little animals are to be found in that section, and there are hundreds of them running wild in the mountains about fifteen miles west of Roswell. It is no trouble at all to capture these wild burros, but they can be bought in Roswell from the Mexicans from 50 cents to one dollar per head. Mr. Wilkes brought back two for his little daughters, who would not trade them for any other pets.

"All arrangements have been made for the manufacture of the Billy Burros," said Mr. Wilkes yesterday, "and if Bryan is elected we will begin to turn them out at once. We expect to sell over 200,000 the first month."

DRY CLEANING

Is an art accomplished by few tailoring establishments in the southwest. The process removes all sticky substances and stains from the garment without the use of soap and water thereby keeping the article from shrinking and drawing out of shape as does the inferior method. Up and Down The Pea Vine

"Uncle Tom's Cabin" is coming down the line.

The Lakewood Progress was out last week boosting Judge Brice, of Carlsbad, for Democratic nominee for the council from the 12th district.

The Democratic County Convention in Roswell last Saturday night endorsed J. S. Lea for nominee for Councilman. A. L. Whiteman was elected County Chairman.

Judge Pope is in Santa Fe attending the meeting of the Supreme Court.

The first shipment of cantaloupes was made from here Wednesday. Lake Rush was the shipper and the eleven large crates of melons went to points in Colorado, Texas, Oklahoma and New Mexico.--Lakewood Progress.

Roswell is looking into the quality of the milk sold in that city and Dr. Jenkins has been appointed by the council to inspect the cows. One dairyman has notified the public that he will submit to the inspection provided the out-of-town dairymen who ship milk to Roswell do the same.

The Lake Arthur public schools will open the 7th of next month and will be in charge of Miss Carrie Childress, who taught in the Artesia schools last year.

Articles of incorporation were filed last week of the Roswell White Mountain Development Co. The object of the corporation is to lay out townsites and construct power plants. The place of business is in Roswell and the agent is E. W. Doane.

The Artesia teachers enrolled at the Institute at Lakewood are: W. L. Bishop, W. S. Hicks, H. G. Howard, Mrs. H. G. Howard, Harvey Walther, Misses Hertz, McMahon, Williamson, Atteberry, Tuttle. The total enrollment is 57.

Albert Bratton returned Monday from his trip to Canyon City. While there he played four games

of base ball with the ball team of that town, Canyon City being victorious in all of them. Bratton pitched two games, one against Amarillo and one against Hereford. He had the misfortune to sprain his wrist just before he left for home by cranking an auto.--Times.

Dayton is to have two new real estate firms in the near future. One is composed of Platt, Boyd and Matthews, the first named gentleman having just settled in Dayton while the other two are the well known Lake Arthur land men. I. C. Roberts, of Nebraska, has entered the real estate business at Dayton and between the two new firms and the older ones, Dayton is preparing to make business pick up.

A fine well was brought in on the Washington land near Lake Arthur last week by the Stancliff well rig. The flow is fifteen inches over an eight inch casing. The rig will start at once drilling another well on the same land.

The gas well near Lakewood is still showing up fine, and one night last week the Lakewood Progress was read by the light from the burning gas. The Progress claims it is the only paper in the valley that can boast of such distinction.

Several neighborhoods around Artesia have been visited by good rains during the past week, and while some alfalfa was lost the good done to the rest of it and the other crops more than makes up for the small loss.

Dexter has no cooler, but when some out-of-town individual comes in and starts anything they just lock him up in a box car until the court decides what to do with him.

Walter Pendleton has purchased all the remnant of the Drum Commission cattle. The cattle range generally east of the river in Eddy and Chaves counties and constitutes the various brands formerly owned by W. E. Washington, including the rail and other brands.--Carlsbad Current.

A Carlsbad man has invented a nut splitter which he expects to make a fortune out of. We would give the invention a big puff and much free advertising, but the memory of a certain left-handed monkeywrench and a round square is still fresh in our mind. Somebody else please bite first.

C. C. Brooks was tried before the justice court in Carlsbad last week for killing a steer belonging to Farrell & Russell. Instead of lack of evidence there was too much of it, and the court was forced to turn Brooks loose.

Four Dayton boys made fatal mistake of taking a bath last week and during the time allotted for cleaning purpose the Penasco rose about four feet and carried away their clothes. No barrels were handy so the boys had to wait until a passerby could go into town and get more wearing apparel for them.

A Carlsbad man returned from Quebec, Canada, last week with the information the Prince of Wales can carry a bigger load of red-eye than any ordinary cowpuncher in the Valley. He does not go out on the street now without an armed bodyguard.

Cottonwood Items.

A. E. Whitehom was a Lake Arthur visitor Saturday.

Mr. Stringer, of Hope, brought a load of nice fruit down Saturday. Dr. Hendrickson drilled twenty acres of alfalfa this week.

Mrs. Norval Randolph called on Mrs. McMullan Tuesday.

Mrs. Lesley and children, of Artesia, spent the week with Mrs. Claude May returning home Saturday.

Judge Basil was out in the Cottonwood country this week.

Mr. and Mrs. A. E. Howard came home Saturday to see the children returning Sunday to Lakewood to resume their work.

Mr. McMullan is fencing his desert claim this week.

G. E. Whitehom and J. A. Woolfolk drove to Artesia Friday. MAR.

Millinery Opening

Cora J. Callans of Chicago will have her millinery opening, Saturday, Aug. 29th. Her parlors formerly conducted by Miss Crawford have been enlarged and redecorated making one of the neatest places of the kind in the Valley. On the above date she will not only have the latest creations, and most up-to-date styles ever displayed in the Pecos Valley. The public generally and the ladies in particular are requested to be present on the above date.

Light refreshments will be served.

Don't forget the date, Saturday, August 29th.
