When you sprinkle clothing before ironing, use lukewarm water—it penetrates more evenly than cold water.

If you keep a candle stub in the thread box, you can draw thread through the wax to stiffen the end before threading a needle.

Coat children's gold colored jewelry with clear nail polish, and the jewelry won't turn green.

Mrs Hamilton Feted Last Tuesday With A Pink and Blue Shower

Mrs. Kenneth (Poss) Hamilton was honored with a pink and blue shower last Tuesday morning, July 3, in the home of Mrs. Jack Loudermilk. Hostesses were Mmes. Wayne White, Rayburn Burgess, Jack Chandler, Ruby Herrington and Jack Loudermilk.

The Loudermilk home was attractively decorated in the pink and blue theme. The front entrance featured a pink metalline streamer across the top, centered with blue satin ribbon bearing the word "baby".

At each of the two corners there was a blue satin bow, with long streamers which bore the name "Joyce" on one side and "Kenneth" on the opposite side.

Guests were greeted by Mrs. Chandler, who also presided at the register.

The serving table centerpiece featured a pink and blue bassinet of nylon tulle ribbon and pink and blue fringed carnation flowers. This was flanked at each end by a little stork carrying a tiny baby. Refreshments of french muffins, bacon curls and coffee were prepared by Mrs. Loudermilk and served by Mrs. Burgess. Individual favors consisted of miniature baby shoes tied with blue ribbons and filled with pink mints.

Mrs. Hamilton wore a unique corsage made of pink carnations with a white and yellow carriage rattle attached by a blue satin ribbon. Her lovely gifts were arranged on display in the bedroom by Mrs. White. The head of the bed was adorned with a pink and blue scroll bearing the lettering of "Baby Hamilton" in gold. A Cosco jumper was presented to the honoree by the hostesses.

Mrs Willie Gragson Honored Recently At Bridal Shower

A bridal shower was given at the home of Mrs. Ralph Carter Monday afternoon, June 25th, honoring Mrs. Willie Gragson, the former Miss Laurine Whittington. The Carter home was attractively decorated with bouquets of roses, gladioli and daisies.

Miss Fannie Lewis presided at the guest book, registering the 42 guests that were present. Miss Brenda Gilbert and Janelle Woods greeted the guests as they arrived.

Miss Francis Barefield was in charge of the many lovely and useful gifts that were given the bride to use in her new home. Each gift was displayed for all to see and admire. The hostesses

Cotton Showers Fell In Local Area Up To 1.04

More "cotton showers" fell in the local area last week with amounts totaling 1.04 inches for the first four days of July. Homer Gregg recorded the following measurements from the government gauge: Sunday —

43; Monday —.03; Tuesday —.33 Wednesday —.20. Wednesday's entry actually fell Tuesday night after Homer had already taken the Tuesday reading.

Various other totals, all exceeding the City's report, have been measured to total as much

as 2 to 3 inches through the four-day period. We're still puzzled as to how other gauges can show so much more than the one here in town. We've come to the conclusion that either our neighboring farmers give a Texas-sized report or they use Texas made gauges. Anyway, we believe we're fortunate to have some rain to report.

With June's total of 1.99 inches, crops in the local area have been greatly benefited and are in good condition.

Roaring Springs, Whiteflat & Flomot communities have fair to good prospects. Farmers in the Matador area, have in most instances, been unable to plant cotton. With the planting season now passed, hope is still held that rainfall may yet make it possible to plant late feed.

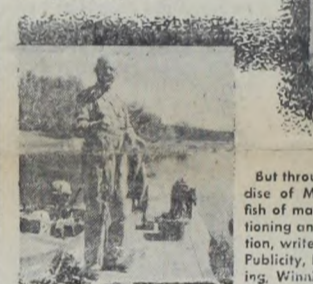

Hall county received rain and hail last Wednesday night leaving several farms between Lesley and Deep Lake wiped out by hail. Lakeview reported about one-half inch of rain with no hail; Turkey received one-half inch; Bride Bit reported about an inch; Memphis gauged .47. An earlier rain, on Monday of last week, dumped over 4 inches in the area south of Turkey.

THE FISHING'S FINE IN MANITOBA

Thirty-pound Lake Trout... 20-pound Northern Pike... and five-pound Brook Trout are not uncommon in the numerous lakes, rivers and streams of Manitoba.

Spring and fall provide the most thrilling Trout sport. Then the Lakers are found covorting close to the surface, ready to do battle with all comers. Manitoba, incidentally, for 24 years held the world's record for the largest Lake Trout ever landed with hook and line — a whopping 63-pounder!

But throughout the Fisherman's Paradise of Manitoba, giant-size fighting fish of many varieties await the vacationing angler. For additional information, write to the Bureau of Travel and Publicity, Room 254, Legislative Building, Winnipeg Manitoba, Canada.

Wheat Farmers Vote On July 20 Will Set Policy

1957 Wheat Marketing Quota Referendum To Be Held July 20, 1956. The two points at issue in the vote are (1) whether marketing quotas shall be in effect, with penalties on excess wheat

from farms (with more than 15 acres of wheat harvested as grain) not in compliance with the acreage allotment; and (2) the level of price support available to those who comply with their farm acreage allotments.

Whether or not quotas are in effect, acreage allotments will remain in effect for the 1957 wheat crop.

If quotas are approved by at least two-thirds of those who vote in the referendum, the quotas and penalties for excess production will be in effect; and price support on the crop will be available at a level between 75 and 90 percent of parity to those who comply with the farm wheat allotments. If more than one-third of the voters disapprove the quotas, there will be no marketing quotas and no penalties for excess production, and the available price support will drop to 50 percent of parity, as provided by law.

Polls will open at 8:00 a.m. & close at 7:00 p.m. Places for voting will be as follows:

- A Community — Briscoe Co. ASC Office
- B Community — City Hall Quitaque, Texas.
- C Community — Briscoe Co. ASC Office.
- D Community — City Hall Quitaque, Texas.
- E Community — San Jacinto School House & Briscoe Co. ASC Office.
- F Community — G. W. Selmon's Residence Brice, Texas.

Farmers Get Gas-tax Back

College Station - Farmers are entitled to claim a refund of the Federal tax on all gasoline bought and used for farming during the 6-month period Jan-

uary 1 through June 30, 1956. C. H. Bates, extension farm management specialist reminds Tex. producers.

Any owner, tenant, or farm operator who buys gasoline for

use on a farm may file a claim, says Bates. A farmer may also request a refund of the tax on any gasoline used by a custom operator or a neighbor in connection with cultivating the soil or raising or harvesting a crop.

Under the law enacted April 2, 1956, the amount claimable this year is 2 cents on each gallon of gasoline purchased and used on a farm for farming purposes during the first 6 months of 1956. In future years claims will be filed for a full 12-month period from July 1 through June 30.

Claims must be filed on Internal Revenue Service Form 2240. It may be obtained from county agents or District Directors of Internal Revenue. Date for filing for this year's refund is after June 30, but not later than October 1, 1956. The law does not permit payment of claims filed late.

Refund claims must not be made for gasoline used off the

farm, according to the specialist or for gasoline used for other than actual farming purposes, as described in Form No. 2240. This applies to gasoline used on the highway, for personal use such as mowing the lawn, or for processing, packaging, freezing, or canning operations. Sufficient records should be kept to enable the Internal Revenue Service to verify the accuracy of the refund claimed.

TAKE IT FROM THE GIRLS AND YOU WILL LEARN TO GET IN THE SWIM

You're never too old to learn some new activity. Some of the ladies of our community are learning the art of swimming. Five of them got the yen and courage last week to attend Ladies' day at the Memphis pool. Those receiving their first lesson on Wednesday morning were Winnie Hamilton, Pearl Allen, Ruby Herrington, Ira Brunson and Yvonne Wise. They returned home with more enthusiasm (and sunburn) than they had previously.

This week two carloads got there bright and early Wednesday morning for instructions. Those attending were Winnie, Ira, and Pearl, and Euna Bradshaw, Jean and Billie Jean Woods, Collene Taylor, Peggy Brunson and Rhonda Harmon.

The girls are having a lot of fun learning how to swim, float and even dive. They may not ever be champions but they're giving each other competition. Already they've learned that in order to find fun you have to have the creative interest and look for it.

Your key to Blue Chip value

Now-GMC gives you a bonus of up to 3 gallons in every tankful!

TALK about low-cost GMC ownership! With its new high-ratio cruising axle, a Blue Chip GMC pickup now gives you up to 17.8% better gas mileage. That's 3 gallons' worth of bonus miles in every filling!

And you get far better road speeds, too, from an easy-stroking, unstrained engine. In short, from a mere \$10.50 axle option, GMC now gives you the advantages of a \$125 overdrive.

Add this to the super-efficiency of a GMC 180 hp V8 engine — to the moneysaving advantages of Hydra-Matic Drive® — and this fact is clear:

The operation and maintenance savings of Blue Chip features can bring the over-all cost of a half-ton GMC down to the level of — or below — the cheapest stripped-model truck on the market.

New Electronic Achievements

Automation and printed circuits are credited with making possible the two newest developments in the electronics field—a lightweight personal TV receiver and a sun-powered tubeless radio. The new personal TV (top left) weighs only 16½ pounds and provides a 10.375-inch picture. Since the cabinet back is completely finished, the set can be placed on a desk or similarly positioned with the back in full view in a bedroom or living room, in a college dormitory, hotel or hospital. Ross D. Siragusa, president of Admiral corporation, estimates that from 1,500,000 to 2,000,000 of these portable sets will be made by the industry during 1956. Sunglasses might well be standard equipment with the second development: the world's first radio powered by the sun. A 32-cell Sun Power Pak is available to harness sunshine for operating the company's transistor radio. The small accessory plugs into the back of the set and converts the sun's rays instantaneously into electrical energy. Since it contains no moving parts and nothing to burn out, the solar radio will last virtually a lifetime. Without the solar battery, the radio can run on six conventional flashlight cells. Culminating over 18 months' research, the solar radio marks a milestone in electronics by being the world's first consumer product designed for operation by that inexhaustible resource—sunshine.

QUITE often I think that the woman I married missed her calling. She should have been a newspaper woman, rather than the mother of three tow-headed children. She has a demand for accuracy that extends to the smallest of things, often making me appear a bit on the dense side or at the least rather careless in what I say. Take what happened at the Bridge Club a few nights ago. The only shirt I had to wear was a bright red number I have sported on so many occasions. I snort like a bull every time I open the closet door and see it lighting up the place. Someone commented on "the pretty shirt." Busy trying to make a little slam with a three-clubs hand, I said something about like "Oh, guess I'm going through my fourth season with this old thing." The little woman, who didn't belong in the conversation anyway, since she was sitting at another table, piped up: "Now, dear, you know you bought that shirt last summer at Harold's Store." "Now, honey, I distinctly remember last summer when we took our vacation in July, I took this shirt out of the clothes we had stored away the year before..." "We took our vacation in June, not July, sweetie." "I'm sure it was July. We went just a week or so after Tob fell and cut his head and had to have three stitches..." "That, my dear, happened the year before." About this time, I'm down something like six tricks, doubled, vulnerable and embarrassed. "Well, ten till eleven, guess it's time to go home." "Your watch must be slow, dear, it's five after." See what I mean. She missed calling.

H.A.C. BRUMMETT VISITED IN QUITAQUE TUESDAY

H. A. C. Brummett of Floydada stopped in for a visit Tuesday while campaigning our fair city. H. A. C. is a candidate for

District Attorney of the 110th Judicial District and is looking forward to receiving your vote July 28th when you make your trip to the polls.

H. A. C. just returned last week from a short vacation in Colorado. He went to meet his wife at Fort Collins where she had been attending a meeting of Home Demonstration Agents, as delegate of Floyd County. Traveling's for the birds, though, as far as he's concerned. If elected to the office of District Attorney, H. A. C. plans to devote his time to the interests of the people of Briscoe, Dickens, Floyd and Motley Counties.
