

Locals Take Easy Win Over Hart; Go to Wheeler This Week

The Quitaque Panthers took an easy victory last week in the Panther Stadium, as they trounced the Hart Longhorns to the tune of 32-0.

The game belonged to Quitaque all the way, with several local lads turning in excellent performances. Thomas Phelps stole the show, by seeming to be everywhere at once, and on more than one occasion dealt

misery to the visitors.

The game started with a bang. Hart kicked to Quitaque and on the first play from scrimmage, on the Quitaque 40 yard line, Phelps raced downfield 60 yards for the first TD.

Murry Wise booted over the point, making a 7-0 score with only a few seconds gone from the game time. The next TD came following

an interception by Phelps. The Panthers took two plays to go over from the 20 with Wise lugging the pigskin. The point try failed.

Felix Johnson stretched forth a long arm and snagged another Hart pass a few minutes later but the Panthers were unable to score this time and had to punt.

After another exchange of

balls, and beginning the second quarter, Quitaque lost the ball on a fumble, but Hart could not take advantage of the situation and had to kick. Quitaque had to kick again, but put the Longhorns deep in the hole, by stopping the runback on the 6-yard line.

Johnny King dove into a scrambled pile of players on the 20 a few minutes later, and

came up with the ball for Quitaque, which set up the next touchdown. The Panthers were penalized, lost a yard or two, and wound up on the 30 yard line, facing a 4th down. Quarterback Johnson fired a perfect pass to Phelps, who took it over his shoulder on the run, and sailed over for a TD. The conversion failed again, leaving the score at halftime reading 19-0.

The third quarter was scoreless, but interesting. Phelps intercepted another Hart pass, which nullified by a penalty, and a few minutes later, Johnson intercepted a pass on the Hart 32. Wise carried the ball to the 15 before the quarter ended.

To start the 4th quarter right Johnson went over the TD making the score 26-0.

Nobody knows exactly what happened later on in the quarter except that Phelps took the ball on the Quitaque 38, shook loose a slew of would be tacklers, and made a mad dash for a 62 yard touchdown. This was the last scoring spree, and brought the final figure of 32-0.

The game ended uneventfully, except for a pass interception by Wise and a fumble recovery by Hart.

The Panther line held their opponents to a standstill all evening, only on very few occasions allowing them any yardage. The blocking in the line for the most part was good, as was the interference for the ball carriers.

To Meet Wheeler
The Panthers will begin their regular conference play this Fri. night as they match brain and brawn with the Wheeler Eleven. Wheeler is said to have a rough team, and has been rated over Quitaque by the so-called experts. If the Panthers play the brand of ball they did last Friday night, however, there is no doubt what the outcome will be—Another Quitaque victory.

It will be a tough game for the locals, as will be most all the conference games this year. See you there!

(The following article was borrowed this week from the Turkey Enterprise and written by Turkey's old Philosopher, Arville Settling.)

Well this is it. This is the week that every game counts. All Non-conference games are over with and play for the district crown starts.

Our game with Estelline should be an easy win for us. However, Estelline has beaten us twice the last few years when they slipped up on us. Boys, let's not make a habit of that — get in there and show them who's boss from the first whistle on to the end of play. Remember from here on each game counts 1 win or loss whether it's Estelline or Matador and Wheeler. See what I mean. See you at the game Friday night.

As this is the first week of Conference play lets see how the teams stand as to wins & losses as of now. Wheeler has 3 wins and 1 loss. Matador has 3 wins & 1 loss. Turkey has 3 wins & 1 loss. Quitaque has 2 wins 1 loss and 1 tie. Estelline has 1 win 1 loss and 1 tie. Silverton and Lakeview have lost all 3 of their games. Wheeler, Matador, Turkey & Quitaque are all ranked in the Panhandle top ten teams in class B.

This is the following schedule for district 2-B this week and my pickings. Lakeview at Silverton — Everybody beats Lakeview again this year.

Turkey at Estelline — should be about the same score as the Claude game with Turkey on top.

Quitaque at Wheeler — Without their ace QB Price Quitaque gets a long ride on that's about all. Wheeler by 3 TDs.

Johnny Van Meter of Bisby, Arizona, visited with his mother, Mrs. A. F. Van Meter, Sr. of Quitaque.

(Set two weeks ago and just now making it's appearance)

The Quitaque Panthers tied one of the hardest fought games last Friday night that this reporter has seen in many a day.

Against overwhelming odds, and plagued by hard luck, the Panthers drove on with a determination that is unusual in high school football. Defying the experts, the lightly considered Quitaque eleven fought the mighty Cowboys to a stand still, not even allowing them the pleasure of a first down until almost half time.

Murray Wise, little 160 lb. Full Back, thrilled fans with power drives when carrying the ball, and his bone crushing tackles in breaking up the opponents plays.

Felix Johnson, handled the quarterback spot like a veteran — taking charge of a situation where his experience was practically null.

Hubert Price, Panther Quarterback who came out of the game with a cracked arm just below the elbow, was playing one of his finest games before he had to leave the game just before the half. Hubert, even though more concerned about his not being able to play than about his broken arm, will be one of the teams strongest players, encouraging them on victory.

In the line, action was and deadly. The Panther held their opponents time at time, charging through and sing them no end of grief in backfield. A backfield runner, no matter how good, must depend on a solid line for support and protection, and the Panther line lived up to that expectation last Friday night.

All the scoring excitement came in the third quarter, with Happy drawing the first TD. They pushed over from the 3 yard line just a few minutes after the beginning of the third quarter. Clinching the score, they kicked the extra point to lead 7-0.

After an exchange of the ball, a 15 yard penalty against Happy, and a recovered fumble by Quitaque, the Panthers were knocking on the goal line door. They were set up with a 1st on the 2 yard line.

Hard luck plagued the locals as they tried for a TD. A loss, and a penalty set them back to the 12, with the fourth down coming up. A short bullet pass from Johnson to Butch Hamilton saved the day, as Butch pulled in the ball and fell across the goal line in a tangle of Happy players. Johnson had to jump straight up in order to clear the interference which surrounded him. Against an usually stiff breeze, Murray Wise booted the pigskin through the goal posts for that needed extra point which tied the game.

After the kickoff, Bear Gilbert recovered a fumble for Quitaque on the 45. Wise made a first, then the drive bogged down.

The rest of the game was not eventful as far as scoring or near threats were concerned. The Panthers were playing good ball, trying for that winning touchdown, as were the Cowboys. On one occasion, a long pass was completed by Happy which put the ball deep into Quitaque territory, but the receiver had just stepped over the sideline when he contacted the ball.

It is very doubtful if this fellow will get very far, from the looks of things. He is Ervin Willard, Flomot, and his apprehending buddy is Buzz Folley. This picture was made by John Pope during a scrimmage session.

Price 7c per copy Thursday, October 3, 1957

NUMBER 37

Could this be Main? — Yep, only a few days ago. All the loose dirt and construction as soon as the paving is completed to join the curbs.

Editorial . . .

No one can be blamed for stretching a dollar as far as it will go. However, it is difficult to understand the person who spends two dollars to stretch one.

Every community has a sizeable number of penny-conscious shoppers who will travel from twenty to fifty miles in search of a bargain. Such buying is usually unwise and wasteful. The cost of the trip is likely to run higher than any fancied savings. Also, a careful check of local stores would often reveal that a better price could be obtained here at home.

We can not question the loyalty or good intentions of local citizens who rush off to larger cities to make major purchases. They believe that they are practicing sound economics. And they may have some reason for their actions.

For, quite often our local people know more about the goods available in the metropolitan stores than they do about the goods in the stores here at home because of the extensive advertising originating in the larger trade centers.

Retail advertising from larger cities in constantly coming into every community in the form of catalogs, circulars and in regional newspapers. When local merchants do not counter the out-of-town advertising, it is natural for some shoppers to believe that the goods and services they seek can not be obtained locally.

Despite the aggressiveness of distant competition, the local merchant has a distinct advantage — the local newspaper. No advertising medium used by

Bridal Shower Honors Mrs. Corgill

A bridal shower honoring Mrs. Eugene Corgill Nee Sharon Lou Woods, was given Monday afternoon in the home of Mrs. Ralph Carter.

A pink and white color scheme was carried out in the table decorations and refreshments. The table was laid with a crocheted cloth over pink, centered with a bouquet arrangement of dahlias and other garden flowers in varying shades of pink and pink satin streamers, bearing the names of Sharon and Eugene.

Thirty four names were registered in the bride's book in charge of Miss Bettie Mae Monk. Misses Peggy Brunson and Yvonne Wise were in charge of the serving.

The bride received many lovely and useful gifts including spreads, blankets, linens, dishes, an iron, ironing board, towels and many others.

Co-hostesses with the girls were Mrs. Leroy Hamilton, Mrs. R. L. Brunson, Mrs. Wayne Whittington, Mrs. Boone McCracken, and Mrs. Ralph Carter.

Mrs. Pearl Allen was in Lubbock last week end to see Holiday on Ice and the football game between Texas A&M and Texas Tech.

non-local retailers covers our trade area so thoroughly and at such low cost as your local newspaper.

Thus, before the local retailer becomes too critical of out-of-town shopping, he should ask himself if he has given his potential customers enough shopping information to keep them at home.

Yarborough Speaks On Little Rock Crisis

United States Senator Ralph Yarborough released the following statement on the Little Rock tragedy from his office in Austin last week end before leaving to open the Heart O' Texas Fair in Waco and address the Baylor University student body in chapel.

"Some vocal Texas politicians who have campaigned for the Republican party for years and years are now running over Texas hiding their Eisenhower buttons."

"Everybody knows that I have opposed this administration with all the means at my command, so it is not necessary for me to issue any exculpatory statements."

"However, no real American can fail to be saddened by the tragic conflict dividing this country. Now is the time for statesmanship, not brinkmanship."

VISITS RELATIVES

Jim Davidson visited his brother, H. W. Davidson, and two sisters, Mrs. J. R. Hay and Mrs. Ray Tollerson, in Ft. Worth, last week end. He also visited his mother, Mrs. H. K. Davidson and sister, Mrs. W. A. Reeves in Joshua; Mr. and Mrs. James M. Davidson of Killeen, and stopped on the return trip home to visit his aunt, Mrs. Jim Foster Electra.

Mrs. Larry Hedrick of Hale Center spent Friday night with her parents, Mr. and Mrs. Ralph Carter and Melvin. Mrs. Hedrick participated in the wedding of Patsy Barbee.

City Council To Discuss Telephone Pay Increase

Next Tuesday, October 8th, at 3:30 p.m., the city council will meet at the City Hall with representatives from the General Telephone Company to discuss the pay increase proposed by the company. Many citizens have voiced their objections to a rate increase and the city council wishes to know the desires of the people in this matter. Local citizens are invited to attend this meeting and hear the General Telephone Co. representatives state their reasons for the proposed increase in rates. If there is opposition to the raise, the city council wants to know so action can be taken.

Ag Boys Discover Fertilizer Results

Wednesday, Oct. 2, 1957, the Ag. III boys made a visit to the Donnie Brunst farm, Northeast of Quitaque, where they viewed the effects of fertilizer on different patches of cotton. The effects were very noticeable. One could tell to the very last row where the fertilizer was or was not applied. That cotton which was fertilized was the same type of cotton as that which was not fertilized. It was estimated by the group that the fertilized cotton would make approximately three times as much cotton as compared to the other.

Pvt. Lemon In Korea

U. S. Forces, Korea — Army Pvt. Donald R. Lemon, whose wife, Allene, lives in Quitaque, Tex., recently arrived in Korea and is now a member of the 51 Signal Battalion.

Lemon, a radio - teletype operator in the battalion's Company D, entered the Army in February 1957 and received basic training at Fort Bliss, Tex. He was last stationed at Fort Gordon, Ga.

The son of Mr. and Mrs. Roy E. Lemon, Route 1, Lehigh, Iowa, he was graduated from Burnside (Iowa) High School in 1953 and was employed by the Turkey Progress, Turkey, Tex., before entering the Army.

NOTICE!

A Cub Scout Meeting will be held Monday night immediately following the Lions Club meeting. (Approximately 8 p.m.)

COTTON HARVEST SOON BE IN FULL SWING

The cotton harvesting season is rapidly getting underway, and by the end of next week will probably be in full swing. Gins are beginning to hum as the bales began trickling in.

Local gins, the Farmers Co-op and the Payaster Gin have added facilities during the past year to be of greater service to the farmers they serve.

Among these things are improved conditions of the cotton pickers housing, and in expectation of a good fall, new rooms have been added to accommodate more harvesters.

The Paymaster Gin has added 15 new stucco units to its original number, making a total of 47 rooms, all modern with all utilities. A unique feature

of the Paymaster housing program is a large recreation room in which those occupying the units will be able to meet and enjoy fellowship, music, and other types of recreation. This plan was adopted to try to combat the building program Silverton is undergoing to attract harvesters.

Silverton has instigated a program to build a community center for local and area Mexicans, which, when completed, will be a tremendous drawing card for the county seat town. They have a building rented that is used for a dance hall for the harvesters, and brings in about \$50 per week in admittance fees. This is what they plan to use to pay for the

proposed community center. Another attraction they have employed, is the services of a priest once each week to visit in Silverton.

It is feared that these and other things that are being offered the Mexican harvesters will make it difficult for local farmers to find laborers in the future, as they will prefer to go to the "bright lights" of other communities.

The Farmers Co-op Gin in Quitaque also has built a new housing unit this year for cotton gatherers, which contains 14 rooms.

Both gins at Flomot, the Flomot Gin and the Speer Gin have built new housing units and added to old facilities, in order to

better serve their customers. Crop prospects are good, from every indication, and gin turnouts thus far are of the best quality.

Ross Herrington, manager of the local Paymaster Gin reported this week that Otis Reagan has ginned cotton that turned out Strict Middling and produced a staple of 1-3/32 inch. This was irrigated cotton and drew a very good price because of the sample.

J. P. White, also ginned a good bale, but could not stretch his staple to meet Otis' sample. The cotton turned out GM with a staple of 29/32, which put him way up on the price list also.

Of course the outcome of the

crop is still speculation, but in most cases, the cotton is turning out more and better than it was estimated a few weeks ago.

As Bert Grundy so aptly put it, several weeks ago, "Anything will be an improvement over last year. We can't go any way but up."

H. G. Hunter, manager of the Co-op Gin reported that a great deal of his ginned cotton was returning with SM 1 inch recorded on it. Roy Hunter, and Joe Holmes, to name two, have had these returns. Orvall Cobb, Hunter said, had some cotton that ginned SM 31/32 and SM 15/16.

The total ginning for Quitaque up until Wednesday evening was 56 bales.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Board Meets

The Board of Supervisors met in regular session Thursday evening at the ASC office building, with Lem Weaver as chairman.

Plans were made to hold an election in Sub-Division Four of the district on or near the first of October. County Agent Ledbetter, was appointed to see that notices were posted and sent out.

The Board also decided to sponsor a grass judging Contest for the F.F.A. and 4-H boys.

The Board noted also to make plans for a Conservation Tour to be held in Quitaque on the 25th and in Silverton on the 26th. Please look for other details concerning these tours.

Glynn Morrison reported to the Cap Rock Board on the Watershed Committee trip to Brown wood to view and study flood prevention work and procedures. He reported the Committee was anxious to get started in forming a Water Contract and Improvement District.

The Board further reviewed and approved 15 Conservation agreements covering 7,310 acres.

What's Doing Field Leveling for a Conservation Irrigation System

F. E. Hutsell, Tomlin & Fleming, Scott Smith, L. A. Mathews.

This leveling is being done by Milton Duddley and L. A. Mathews.

Ponds for Livestock Water

Bill Cushing, and Scott Bolton.

Dryland Combination

Have run into what I think is a good dryland combination for our area this past week. First, at the Great Plains Conservation Station where they have been trying 2 rows of grain sorghum in summer, with

2 rows of wheat drilled in the fall. This is working out good. Especially during dry years. Grain sorghum this year appears to have been irrigated with the two in and two out combination, but of course this has not been.

Here at home several have tried this system with a little modification.

Cliff Allard has red top cane planted in one row and skipped two rows, which he has just planted in wheat.

The one row of red top is about 8 to 10 feet high and has had one irrigation some weeks ago from a lake pump.

Milton Duddley advises that he used this system during the year of 55 and 56.

He reported that he made 700 lbs. of grain sorghum on the one row planting. Where it was planted, every row, it made 500 lbs. The following summer, he harvested 5 bushels of wheat after about 50 per cent hail damage in 1956.

Good Towns

The Cap Rock District Supervisors, County Agent, Ledbetter and I are pleased and enthused about the Conservation, towns held this past week. I have had most excellent reports from the Quitaque area. I was unable to attend because of a meeting on the Great Plains Conservation Program in Amarillo.

Missing the meeting and the watermelon "cutting" on the Glynn Morrison farm can be marked up as a loss by me.

One of the greatest things to come out of a town is the exchanging of ideas. I can truthfully say that your ideas tempered by thought and experience refreshes me.

In these towns we endeavor not to claim perfection, but freely admit mistakes. Lessons learned by mistakes are those best learned.

Cotton Burrs

I have noticed several of our

STATEMENT OF OWNERSHIP

Statement required by the act of August 24, 1912, as amended by the acts of March 3, 1933, and July 2, 1946 (Title 39, United States Code, Section 233) showing the ownership, management, and circulation of The Quitaque Post, published each Thursday at Quitaque, Texas for Oct. 3, 1957.

The names and addresses of the publisher, and editor is: John W. Pope; Managing Editor, Mrs. John W. Pope.

The owner is: W. R. Scott, Plainview, Texas.

The known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are none.

The average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the 12 months preceding the date shown above was 625.

Flomot News

Mr. and Mrs. S. A. Tibbets of Snyder and Mr. and Mrs. L. B. Turner returned home Tuesday from a vacation trip of 12 days. They visited Mrs. Tibbets' and Mrs. Turner's brother and family, Mr. and Mrs. Albert Jones in Akron, Ohio, Sept. 20. The Tibbets, Turners and Jones visited in Erie, Penn., then went on to Niagara Falls, N. Y. and on to the Canadian side of Niagara Falls in Ontario, Canada.

Mrs. L. B. Turner was called to Lafayette, La. Wednesday night by an illness in her daughter's family, Mrs. C. R. Carson.

Mr. and Mrs. John Jones visited in Plainview with their daughter, Miss Francis Jones and with her sister, Miss Roxie Turner, over the week end.

Tommie Merritt, son of Mr. and Mrs. Ervin Merritt of Mor-

ton is visiting with Mr. and Mrs. Tom Bynum this week.

Mrs. Dinzel Leonard and children were in Floydada Thursday on business.

Mrs. Cordie Barham spent the week end at Silvertown with her son and family, Mr. and Mrs. Doyle Barham.

The Women's Sunday School Class of the First Baptist Church met Thursday, Sept. 26th, in the home of Mrs. F. S. Bourland. The women that were present quilted a quilt and each guest brought a covered dish and a delicious luncheon was enjoyed. Those who helped quilt were Mesdames J. C. Franks, Guy Hammon, Bernice Gates, Ralph Stapleton, Maudie Marler, Ernest Fisher, J. T. Hall, Evert Shorter, and F. S. Bourland.

Mr. and Mrs. C. M. Bridwell of Littlefield visited her sister and family, Mr. and Mrs. J. C. Franks over the week end.

Mr. and Mrs. Wayne Spray and son of Irving visited her parents, Mr. and Mrs. Ernest Fisher, and at Matador with other relatives.

Mr. and Mrs. Rawleigh Anderson drove to Woodward, Oklahoma Tuesday to visit his brother and family, Mr. and

Mrs. J. F. Anderson.

Mr. and Mrs. W. D. Graves, Sr. returned home Friday after spending several months with a son and family, Mr. and Mrs. W. D. Graves, Jr. of Tucson, Arizona.

Mr. and Mrs. Barnell Washington of Friona visited in Flomot with relatives and friends over the week end.

Mr. and Mrs. Bert Cloyd have returned from a 10 day trip to Cypress, La.

Mrs. Reece Kell spent 3 days this week at Tulia with her son and family, Mr. and Mrs. Kenneth Kell, whose small daughter is in the hospital at Tulia.

Mr. and Mrs. Brock Pinchard of Amarillo visited their daughter and family, Mr. and Mrs. L. W. Crowell Saturday and Sunday. They were accompanied by Mrs. Lizzie Crowell.

Mr. and Mrs. Ernest Fisher are happy over their new granddaughter, who came to make her home with Mr. and Mrs. Frank Fisher in El Paso.

Mr. and Mrs. Charles Stewart and baby of Lubbock are visiting her parents, Mr. and Mrs. Jeff Sperry over the week end.

Calvin Monk came from Grant, N. M. this week for his family who have been here visiting the J. E. Monk family.

Delayed News From Sen. Yarborough

Dear Fellow Texans:

We have occasion to rejoice this week, for the Senate passed and President Eisenhower signed into law a supplemental appropriations bill which includes \$20 million for restoration of land eroded away by drouth and flood. The major portion of this sum should go to Texas for a land rehabilitation program.

Many of you will recall that on August 12 I asked the Senate for \$32 million as an emergency appropriation to help Texas farmers and ranchers rehabilitate their lands which were damaged or destroyed by the drouth and floods. Other states asked for \$13 million. The final appropriation for all is \$20 million.

This appropriation is to take us over until next session, at which time I am hopeful that the remainder of the amount will be appropriated for the program. Per ratio, Texas should receive 1/2 this sum.

The Texas Department of Agriculture reported that 1,971,849 acres of land were permanently damaged by the recent floods, and 3 million acres of cropland and 800,000 acres of range land were permanently damaged by wind erosion in the great Texas drouth.

I asked for this supplemental appropriation in order to restore the land to its level of useful productivity, and I am happy to report to you that a workable program has been financed.

I am grateful to the members of the Senate and House who gave me such wonderful cooperation in voting a substantial portion of the funds asked in a period of less than 20 days from the time I asked for the appropriation. This is a real victory for Texas.

From your letters and telephone calls, I know that you Texans are opposed to the proposed regulations which would require you to sign receipts for every gun and cartridge that you purchase.

Such a law would not only be burdensome on our sportsmen and sports store owners; it would be a waste of your money.

This week I opposed this bureaucratic resolution before the Alcohol and Tobacco Division of the Internal Revenue Bureau, which is proposing such regulatory action. I asked the rejection of the proposed regulation.

The people of Texas are accustomed to the use of firearms, and our love for outdoor life and sports has helped make us a healthy, vigorous people. It is unreasonable to require boy who wants to hunt rabbits government records from every with a shotgun, or every farmer who wants to shoot a rattlesnake or rabid fox.

For more than 26 years I have worked for the conservation of Texas waters. This year we are making more progress than ever. In a later report I will give more details about this progress.

Why Is It That —

— a man wakes up in the morning after sleeping under an advertised blanket on an advertised mattress and pulls off advertised pajamas, takes a bath in an advertised tub, shaves with an advertised razor, washes with an advertised soap, dons advertised clothes, sits down to a breakfast of advertised cereal, drinks a cup of advertised coffee, puts on an advertised hat, rides to the office in an advertised car, "then he refuses to advertise, saying that advertising 'doesn't pay'!"

Quick Relief of HEADACHE

EASE PAINS OF HEADACHE, NEURALGIA, NEURITIS with STANBACK TABLETS or POWDERS. STANBACK combines several medically proven pain relievers. The added effectiveness of these MULTIPLE ingredients brings faster, more complete relief, easing anxiety and tension usually accompanying pain.

Mr. and Mrs. C. C. Mose of Anson spent part of last week with their parents, Mr. and Mrs. J. T. Bradley. During their visit, Mr. and Mrs. Dick Taylor helped them redecorate part of the Bradley home.

COLD SUFFERERS

Get STANBACK, tablets or powders, for relief of COLD DISCOMFORTS. The STANBACK prescription type formula is a combination of pain relieving ingredients that work together for FASTER RELIEF of HEADACHE, NEURALGIA and ACHING MUSCLES due to colds. STANBACK also REDUCES FEVER. SNAP BACK with STANBACK.

*1957 State Fair In Brief

The 1957 State Fair of Texas, America's largest annual exposition, runs Oct. 5 through 20 in Dallas. Highlights of the Fair program are as follows:

Daily Entertainment: "My Fair Lady," Ice Capades, the Aut Swenson Thrillcade, the Jimmy Savo Show, Aztec-Mayan Spectacular, million-dollar Midway, home-sewing fashion shows, planetarium shows, magic shows, band concerts, western music shows.

Livestock: Championship beef and dairy cattle, swine, sheep, goats, quarter horses, Palomino horses, Shetland ponies, chickens, turkeys; Pan-American Livestock Exposition Oct. 5-13; Junior shows, Oct. 14-19; horse shows all three weekends.

Exhibits: Earth satellite replica, Nike guided missiles, International Center, old and new railroad trains, Automobile Show, Electric Show, model kitchens, Natural Gas Show, Food Show, farm machinery, Home and Family Show, Women's Department, Aquarium, Hall of State, Fine Arts, Natural History and Health museums.

Highlight Events: Mexico Day spectacular Oct. 7, Music Festival Oct. 8, SMU-Missouri football Oct. 11, Texas-Oklahoma football Oct. 12, Pat Boone show Oct. 13, Prairie View-Texas Southern football Oct. 14, East Texas Day show with Gordon MacRae Oct. 15, fireworks Oct. 7, 8, 9, 10, 15.

the Snapshot Guild

An A filter brought out the clouds in all their billowy whiteness in this shot.

The ABC's of Filter Facts

A number of our readers have asked us to tell them something about filters. In the main, their questions are concerned with when to use them and what kind to choose.

Though there are a great many different filters, we'd like to describe the three that you'd probably find most useful to you in your black-and-white snapshotting this summer. These are a red or A filter, a medium yellow or G filter, and a deep yellow or K2 filter.

If you're looking for dramatic dark-sky effects with sharply contrasted clouds, try slipping a red filter over your camera lens. It's amazing what that little piece of dyed gelatine can do in turning

an average shot into something quite spectacular.

A medium yellow or K2 filter will cut any haze there might be at sunset time. But for a truly brilliant scene, the deep yellow G filter is in order. It's that G filter again for landscapes where distant details are important, and for bringing out textures of stone and sand under sunlit blue skies.

You'll find that marine or water scenes can also be much more effective when filters go to work on the job. To show up the shimmer and sparkles in water, a medium yellow (K2) filter is a good choice—but if you prefer your print to have the water more dramatically darkened, a deep yellow (G) filter is the one to do the trick for you.

may not be a pot full...

... but that's how much you can save a year using economical GAS for Clothes Drying!

If you've already "got it made" . . . 25 bucks to the good is of little consequence. But if you still work for a living, using GAS for clothes drying can provide fodder that helps fatten the family piggy bank! (Just \$2.64 is the average cost to a family of four!) Add to this the fact that gas dries clothes faster, safer and more dependably . . . and it just makes good sense (and a lot of dollars) to go First Class with GAS and SAVE the difference!

COMPARE and you'll go GAS everytime!

Cash Crop Sought By Experiment Station

Plant scientists of the High Plains Station at Halfway in Hale County are investigating man's oldest food crop, sesame, as a potential source of cash income for regional farmers.

"The Station's sesame program is designed to find those varieties and strains that are adaptable to High Plains soils and climate, that are profitable yielders and that may be easily and cleanly harvested with modern combining machinery," Dr. H. Davis, Associate Head of the Station, said.

"Such varieties and strains have been produced for other parts of the state. Sesame now is a profitable cash crop grown on a large scale in North, Central and South Texas."

The Station's sesame investigation program consists of three parts. One is a study of

Mrs. J. O. Davidson and Freddie, visited last weekend with Mrs. S. B. McCracken of Tullia; and H. R. Curtis, of Olton.

The H. R. Curtis family of Olton, visited in Quitaque Friday afternoon with the J. O. Davidson family. They accompanied the Davidsons to the Quitaque-Hart football game.

Following a visit to Oklahoma and Arkansas, Mr. and Mrs. Homer Stout spent Tuesday night in the home of an uncle, J. T. Bradley of Quitaque. Mr. and Mrs. Stout left Wednesday for their home in Richmond, California.

50 varieties in 22-foot rows, with four replications, on irrigated land.

In another phase of the program, four varieties in 2-row plots, 100-foot long, with four replications, are being studied for dryland culture.

Lynnette Taylor Feted on 8th Birth'day

Lynnette Taylor was honored on her 8th birthday September 25 with a party given by her mother in the second grade room at school.

Green cupcakes and cokes were served to members of the class, after the singing of "Happy Birthday." Lynnette's cake, baked and decorated by her aunt, Mrs. Leslie Burns of Norwalk, California, was a bridesmaid doll dressed in a shaded green gown accented with pink roses. The doll wore a white hat trimmed with a garland of pink rosebuds. Favors for the girls were bridal bouquet baskets filled with candy. The boys received sport cars.

Lynnette received several socks, toys, a harmonica, two dresses and a set of jewelry. Class mates, her teacher, Mrs. Dora Hawkins, Anna Jean Taylor and Mrs. Walter Taylor served fruit cup cakes topped with cotton candy, pink lemonade and peppermint posts and nuts.

James Pope Celebrates 7th Birthday at School

James Leroy Pope celebrated his 7th birthday Sept. 25 with a party given in the first grade room of the Quitaque school with his mother as hostess.

As soon as classes were over, refreshments were brought in and the party began. Class mates expressed varied exciting wishes for the honoree's ensuing years. The group chanted "Happy Birthday" in true party tradition; then group pictures were taken.

The pink birthday cake was topped by a twirling merry-go-round and graced one end of a mid-way set with cotton candy, snow cone, ticket and side show booths in a carnival theme.

The class and other guests went "Game Hunting in Africa" and upon their return were served fruit cup cakes topped with cotton candy, pink lemonade, peppermint posts and nuts.

Favors were plastic "wild" animals.

The honoree's numerous gifts included books, socks, candy, gum, 2 sheriff sets and 4 guns, several games, crayons, and a pair of skates.

Members of the first grade, Mrs. Novelle Wise, teacher, Randy Stark, Max Ham, Kay Anderson, Bobby, Sherri and Karen Pope, Mrs. O. R. Stark, Mrs. Bob Ham, Mrs. Ober Johnson and Dickie, and Mr. and Mrs. John Pope attended the party.

Mr. and Mrs. Ralph Carter and Melvin spent the week end in Sunray visiting her sister in-law and family, Mrs. L. A. Broxson. Mrs. Broxson completed the sale of her furniture store and it opened Oct. 1st under new management.

The store was bought by Mr. and Mrs. Raymond Whatley of Clovis, N. M. whom many of this community know.

"First, a man learns to talk. After many years, he learns to keep still!"

THANKS: May all our friends who so lovingly extended help and comfort during Bailey's recent illness accept our heartiest appreciation for each card, visit and bouquet. God bless you. The W. C. Eddleman family

Famous Antique Train To Be Shown In Dallas At State Fair of Texas

An antique train reminiscent of the pioneering days of railroading will be exhibited by the Santa Fe Railway at the 1957 State Fair of Texas, Oct. 5-20.

The famous old Cyrus K. Holliday locomotive, a replica of the original engine which hauled the first freight and passengers over the Santa Fe line in Kansas in 1869, will be brought to Dallas along with its two ancient wooden coaches.

The diminutive locomotive has the famous "diamond stack" with a brass eagle figurehead gracing the engine head, a big oil-burning headlight, brass fittings and other paraphernalia of the early days of railroading.

Although the locomotive is but a replica of the original, the present Cyrus K. Holliday ranks as a museum piece in its own right. Built in 1880, the old engine was subsequently upgraded to a switch locomotive and finally withdrawn after 60 years of active service.

Restored to its original appearance, the train has been used many times in movies of the old West. The engine still operates under its own power.

With the Cyrus K. Holliday, the State Fair will have on exhibition trains spanning nearly 90 years of rail progress. The Texas & Pacific Railway Company will exhibit its old retired steam locomotive No. 909 and one of its crack modern Texas Eagle streamliners. In addition, the Fair's Monorail line, only such system operating in the U. S., offers a sample of yet another type of rail transportation, said to hold great promise for the future.

New Project Will Power Canada's Aluminum Plants

CHUTE-DES-PASSES, QUEBEC—(Special)—A huge underground powerhouse, capable of generating a million horsepower of electricity, is under construction by Aluminum Limited at this point on the Peribonka River, over 300 miles north of Quebec City.

The project involves digging a six-mile tunnel, twice the width of New York's Holland tunnel, to the powerhouse. Here, the company will install five 200,000-horsepower generators, largest of their kind in the world, capable of producing 1,000,000

Nearly 400 feet underground at Chute-des-Passes, Quebec, workmen are building a tunnel for Aluminum Limited, independent Canadian aluminum producer. Water from a reservoir will flow through the tunnel to a subterranean powerhouse where five generators will produce a total of 1,000,000 horsepower of electricity.

horsepower of electricity. When completed, Chute-des-Passes power facilities will give Aluminum Limited a total of 4,780,000 horsepower of electricity in Canada.

The project is a part of Aluminum Limited's Canadian aluminum producing facilities. More than 15 per cent of all primary aluminum used in the United States comes from Canada.

Aluminum Limited is the parent company of the Aluminum Company of Canada, Ltd., and is the same corporation which built the vast subterranean hydroelectric power plant at Kemano, British Columbia, which supplies power for the aluminum plant at Kitimat, B.C. The Chute-des-Passes power project, which will cost more than \$125,000,000, compares with that undertaken.

The Perini Construction Company, with two co-contractors, began work on the Chute-des-Passes project in November, 1956. Access tunnels, or adits, were begun at three points along the route of the main tunnel, which will run from a storage lake to the subterranean powerhouse six miles downstream on the Peribonka.

Construction contractors have completed all three tunnel adits and are now excavating the main tunnel and powerhouse cavern. The powerhouse and tunnel are scheduled for completion in August, 1959.

The tunnel, which will carry water at 12,000 cubic feet per second, will gradually decline until it will create 636 feet of head at the powerhouse. There, five generators rated at 200,000 horsepower each, will be able to produce the 1,000,000-horsepower. The electricity will be carried south to the aluminum smelter on 330,000-volt transmission lines.
