Mr. and Mrs. J. C. Moss of Anson spent the week end here with his grandparents Mr. and Mrs. J. T. Bradley.

Mrs. Lela Overstreet and her mother Mrs. C. E. Anderson spent Sunday in Amarillo in the home of Mr. and Mrs. John Wilkerson visiting with them and with the John McKinleys from Pampa.

Mrs. Mae Brittain and her sister Mrs. Ernest Steele, visiting from Altus, Okla., spent Monday and Tuesday with Mrs. Babe Carthel and family at Lockney.

BROXSON FAMILY REUNION AT QUITAQUE CITY PARK

The family of C. W. Broxson held a reunion at the Quitaque Park last Sunday. The first time the family had been together in several years.

A delicious picnic dinner of baked ham, fried chicken, all kinds of salads, cake, ice cream, ced tea and soda pop was served at noon.

In the afternoon various games were played by the younger members. Friends from Turkey and Quitaque dropped by to visit with the older ones.

Eight of the nine children were here to attend the reunion, one son S-Sgt. T. J. Broxson in the Air Force at Mercedes, Calif. being unable to attend. Those enjoying the reunion were Mr. and Mrs. C. W. Broxson, Mr. and Mrs. C. B. Broxson and Sharon, Mr. and Mrs. L. B. Pawver and Glenna Jean of Fort Worth; Mr. and Mrs. Jack Broxson and W. T. Broxson of Pampa; Mr. and Mrs. L. A. Broxson, Louise and Bobby of Sunray; Mr. and Mrs. Gibbs Rucker, Donald and Johnny of Bellview, N.M.; Mr. and Mrs. Ralph Carter, Mozelle and Melvin of Quitaque and Mr. and Mrs. Byron Young and Gary of Turkey.

Grandchildren present were Mr. and Mrs. Bennie Tinker and Jan of Ft. Worth; Mr. and Mrs. Bill Broxson, Latice, Bill jr and Marion and Charles Broxson and Larry of Pampa.

FAMILY REUNION

Mr. and Mrs. W. R. Weems and children are visiting from Carlisbad, N.M., and other members of the Payne family are here, so a family reunion was held Sunday at the home of the parents, Mr. and Mrs. Cecil Payne, south of town. Most of the Payne children and their families were present and some other friends, including Warren Payne ad family, Mr. and Mrs. Orb Payne, Mr. and Mrs. F. Payne, Buck Payne and family, Bill Payne, Jim Fuqua and family of Lockney, Pete Stockton and Jimmy Stockton and their families of Portales, and Ray Payne and family and Cecil Reagan and family.

THANKS, VERY MUCH

To my WMU friends and others who surprised me last Monday with a shower of nice gifts to be opened, one each day—I won't say just how long it was before I had unwrapped and admired all of them. Your thoughtfulness is really appreciated. Sincerely,
Mrs. J. A. Johnson

IN APPRECIATION

We wish to acknowledge the lovely flowers sent to the hospital for the opening Sunday afternoon, and express our appreciation for them and to those who called and extended good wishes. Thank you very much.
Dr. and Mrs. John C. Epperson, Jr.

"Come, come, my good man. You've been looking around here a long time without buying. What do you want?"

"I guess I want another department manager," replied the man. "I'm the new owner of this store."

Drive safely on the highways—It might be your own life you save.

BAPTIST WMS

The Baptist WMS met Thursday of last week for an evening session at the church, with a program on missions. Mrs. Ray Persons gave a review of the book "Crusade in Home Missions" for the eleven members present.

Monday afternoon the regular meeting was held at the church at 3:30 o'clock. The program was on Relief and Annuities for Retired Ministers. Mrs. J. R. Stroup opened the meeting with prayer followed by a devotional presented in a novel and interesting manner by Mrs. Buddy Morris and Mrs. Ed Dunavant, who represented an aged minister and his wife in a short skit.

Mrs. Roy Burgess and Mrs. Leon McCracken sang a duet.

Mrs. Ray Persons and Mrs. Scott Bolton gave a part from the study: Old Shepherd at Sunset.

Mrs. Hubert Gilbert gave: Old Shepherd's Rod and Staff.

Mrs. Jim Stroup read a poem, Dear Old Shepherd.

Mrs. A. E. Gragson played music during the offertory, and the meeting closed with prayer by Mrs. Dunavant.

DISH-GRAFUL!

Brides should try to train their new husbands to eat out of their hands—saves a lot of dish washing.

CHANDLERS GO TO DALLAS FOR STAMPS ALL-NITE SINGING

Mr. and Mrs. Gene Chandler took off a few days last week end so that Gene could attend the all-night Stamps quartet program at Dallas. Son McCracken took them down to Dallas Friday in his car, returning Priss Chandler home and accompanied by Betty Chandler of Turkey who came home with him. Grandpa Jones also went along as far as Olney where he has remained for a visit with grandchildren.

Son and his wife went back to Dallas and brought the Chandlers home Monday. Gene said it was a wonderful experience for him to hear the music and see the singers in person, but he couldn't stay with it all night and had to give up about 1:00 a. m. and go home to his radio.

A lovely and attractive young lady was asked why she did not get married.

"I don't need to get married," she replied. "I have a parrot that curses every time he opens his mouth. I have a dog that growls every time I feed him. I have a fireplace that smokes up the living room and get ashes over my rugs, and I have a cat that stays out all night. So why should I get married?"

Alice: "My friend, Maud, is only twenty-five, but she's been married three times. And all her husbands have been named William."
Jane: "My, she's a regular Bill collector, isn't she?"

As an elderly lady stepped off the bus she was struck by the look of gloom on the face of a tall, slim man standing on the corner. Impulsively, the kind-hearted lady slipped a \$1.00 bill into his hand and gently whispered, "Never despair, never despair."

The next morning as she got off the bus again, there stood the same man. As she approached him, he handed her eleven \$1.00 bills and whispered, "Boy, lady, you sure can pick 'em. Never Despair won by 7 lengths and paid 10 to 1."

Some folks get so mad at their officials they threaten to vote.

Cattle Rustlers Rouse Ire Of Stockmen

BY TED GOULDY

Fort Worth—We read with considerable interest of the gathering of farmers and livestock men near Chandler, Texas, recently when a suspected cow thief was in fair position to fall victim of Judge Hemp, just as such miscreants were usually dispatched in the pioneer days.

According to witnesses quoted in the story we saw in the Athens Weekly Review of Henderson County, Texas, it was only the high regard that the some 85 indignant citizens had for sharp-shooting Sheriff Jess Sweeten that cooled their tempers and probably saved the man from being a victim of the first such frontier justice to be recorded in Texas in a generation.

The controversy hinged on four cows and in true Solomon-wise manner, one of the cows escaped from the alleged rustler's pasture and claimed her calf on the property of the original claimant. You just can't set aside such elemental witnesses in any controversy. A mother sure knows her own offspring.

The crowd, according to the Review, was orderly, but was armed with sticks, canes and swinging ropes. A witness reported a remark was heard from the crowd, "Let's just hang him!"

It is difficult for city folks, especially in some of the more effete Eastern and Northern States to understand such rancor. However, a man's livestock is his meal ticket and wars are fought and blood is shed over this simple

right to property.

There is a general need for a crackdown on livestock rustling.

In Texas, and we believe in most states, it is the law that a selling agency of livestock is responsible for the title of livestock sold. Market agencies at Fort Worth carry heavy amounts of insurance to protect them against claims stemming from sale of stolen livestock or sale of mortgaged livestock.

In one historic case some cattle were paid for three times. First the thief got away with the money. Then the rightful owner sued and collected. Later the owner got into financial difficulty and it was discovered that the stock had been mortgaged at time of theft and sale and then the mortgage holder collected.

Officers, livestock owners and courts should crack down hard on all thieves, once they are apprehended, otherwise Judge Hemp may come back someday to the livestock country.

A mild little man walked into an income-tax inspector's office, sat down and beamed on everyone.

"What can we do for you," asked the inspector.

"Nothing, thank you," replied the little man. "I just wanted to meet the people I'm working for."

"Are you unmarried?" inquired the census taker.

"Oh, no," she replied sweetly, "I've never been married."

There's a town out West, that's so small they have "Come again" on the back of the "Welcome" sign.

It Takes Long-Range Plan To Fight Polio

A long-range battle plan against rampaging polio was outlined Wednesday by the State Department of Health.

State Health Officer Geo. W. W. Cox recommended these eight points of action in combatting the disease which this year is striking harder at Texas than at any other part of the nation.

1. Spot spray insect breeding places after they have been cleaned and destroyed. Spraying indiscriminately might kill a few insects on the wing, but it won't do the job. It might kill valuable plants and create a false sense of security.

2. Get rid of animal shelters in urban areas. They cannot be kept clean and consequently create a health hazard as fly breeders.

3. Get rid of dump piles, tin cans, old tires, and accumulated debris which breed flies and mosquitoes and provide harborage for rats.

4. Provide a properly operated sewer system, and get rid of all surface toilets. Dr. Cox believes surface toilets constitute one of the major health hazards facing Texas.

5. Provide a source of pure water.

6. Protect food supplies in wholesale business houses, retail shops, and in private homes.

7. Make regular inspections of all premises to see that no possibility exists for fly breeding. If you have flies, somebody is maintaining a breeding spot.

8. Garbage should be placed in fly tight garbage cans until time of disposal. Tubs, boxes, lidless garbage cans, etc., are of no value.

He urged each home owner to assume responsibility for keeping his property clean inside and out. This will help protect you and your neighbor. More people have been struck down by polio this year than ever before.

He said it takes months and months to clean up a city, and that it "takes forever to keep it that way." The program must be continuous. "It will take from one to five years to really clean up our larger cities," Cox said.

"This is the same program we have followed and published for the past ten years. People have got to get over the notion that spraying alone will keep their city fly-free," Dr. Cox declared. "The only way to kill flies is to do it methodically, block by block, by eliminating their breeding places."

"They carry many diseases—diarrhea, typhoid fever, cholera, trachoma, just to mention a few. I firmly believe that if this 8-point program is invoked, we'll see a lessening of polio incidence in the future."

LOCALS

Visiting in the Leon Barham home the past week were his sister and husband Mr. and Mrs. J. O. Funderburk of Corpus Christi, and his brother Mr. and Mrs. James Barham of Fort Worth, stopping by for a visit enroute to Colorado.

Mrs. Price Colwell and children visited over the week end in the home of her sister Mrs. Alton

TEXAS SCHOOLS MAINTAIN HIGH TEACHER REQUIREMENTS

Austin, June 25, 1952—Despite the fact that Texas teachers have not had an increase in their base salaries since 1949, they have continued to improve their professional training. They now rank among the five top states in the nation in teacher preparation, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association. Tennyson said that figures available from the Texas Education Agency show that more than 95 percent of the state's 58,513 public school teachers now hold degrees from accredited institutions of higher learning.

During the school term just closed, only 2,299 or 4.5 percent of the white teachers in the state did not have degrees. Only 146 or 1.84 percent of the Negro teachers in Texas do not have degrees.

The school year 1951-52 also marked progress in another direction, Tennyson added. It was the first year in the history of the state that the schools did not have some people teaching who had less than a high school education. The previous year 34 such people were employed as teachers.

OLD STORY

This little news item is an old story, but we're going to tell it anyway—before Ronnie does, we hope. Ronnie, 7-year-old son of Mr. and Mrs. Ted Hester (who is going to be a big radio singer when he grows up and can sing like a lark now) had an emergency appendectomy at Silverton about

two weeks ago. Ronnie expected us to have this in the paper last week (his operation was June 18) but the little bird who whispers news to us didn't even peep about Ronnie, and we didn't know. He's getting along fine, we're happy to report, and he'll be glad to tell you about his operation—if he hasn't already.

We miss quite a few items we'd like to publish simply because our little bird doesn't get around like it should, especially these hot days, and we must depend on folks telling us. You'd be surprised (maybe) at how interesting it is to others to read about where you've been, or who's been visiting you, how many fish you caught, or the big one that got away, etc., so please help us out with the news, and tell us what you know.

GOOD FISHING

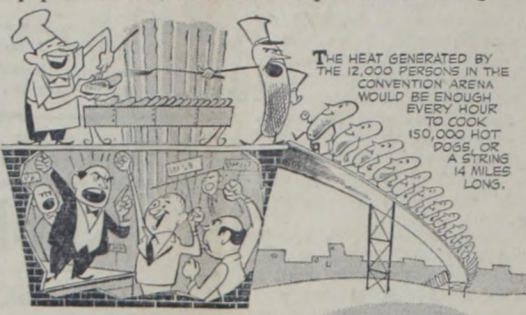

Mrs. M. E. Loving accompanied her sister and nephew Mrs. Keyth Tiffin and Doyle Ray to Fort Worth last week where the latter had plastic surgery to correct injury to his hand which he hurt in a hunting accident. Word from her stated that he was getting along nicely and she was to meet Mr. Loving this week at Strawn for some fishing.

Fishing was good for Mr. and Mrs. M. E. Loving at Wichita Falls the first of the week. They fished with L. C. Parker in the well-stocked tank on his land, and it was a fish round-up. They had some nice 6 and 7 pound bass and catfish. They also fished at Possum Kingdom and at Strawn.

Typewriter Ribbons — Post.

CONVENTION NOTES

The 1952 political conventions are the first in history to be air conditioned. While delegates may still get "hot under the collar," they can't blame the heat or the humidity. Here are facts compiled by engineers of Carrier Corporation, which manufactured the air conditioning equipment for the International Amphitheatre in Chicago.

THE HEAT GENERATED BY THE 12,000 PERSONS IN THE CONVENTION ARENA WOULD BE ENOUGH EVERY HOUR TO COOK 150,000 HOT POPS, OR A STRING 14 MILES LONG.

COMFORT WILL BE THE KEY-NOTE OF THE 1952 CONVENTIONS. AN ACRE OF COOLING COILS WILL REMOVE 1800 QUARTS OF MOISTURE PER HOUR FROM INSIDE THE CONVENTION HALL.

CARRIER REFRIGERATION MACHINES IN THE AMPHITHEATRE CREATE A COOLING EFFECT EQUIVALENT TO PROVIDING EVERY DELEGATE WITH A SEVEN-POUND CAKE OF ICE EVERY HOUR; OR SPREADING A LAYER OF ICE KNEE-DEEP OVER THE ENTIRE ARENA FLOOR EVERY MORNING.

Timely Notes From Briscoe PMA Office

PMA OFFICE TO BE
CLOSED JULY 4, 1952

ACP COSTS

In considering the cost of the Agricultural Conservation Program, the following figures should be of interest:

1. A 1 cent-a-quart increase in the cost of milk resulting from a neglect of resources and a decline in production would cost the consumers of this country \$37 million more than the cost of the ACP program (\$250 million).
2. A 1 cent-a-pound increase in the cost of meat, dairy and poultry products resulting from a neglect of resources and a decline in production would cost the consumers of this country more than four times the cost of the ACP program.
3. A 1 cent-a-pound increase in the cost of the total domestically produced food resulting from a neglect of resources and a decline in production would cost the consumers of the country nearly 10 times the cost of the ACP program.

These figures were derived at in the following manner:

1. Per capita consumption of fluid milk and cream is 184 quarts a year. Population of US is 156 million. $156 \times 184 \times 1$ cent equals \$287 million. Cost of ACP—\$250 million.
2. Per capita consumption of meat, dairy and poultry products is 666.6 pounds. $156 \times 666.6 \times 1$ equals \$1,040 million or 4.1 times cost of ACP.
3. Per capita consumption, 1952 estimate, is 1550 pounds of domestically produced foods. $156 \times 1550 \times 1$ equals \$2,418 million or 9.7 times the cost of ACP.

1953 ACP PROGRAM

The 1953 Conservation Program will require a farm plan. The Community Committeemen will help the farmers plan their conservation program. Now is a good time for all farmers to decide what they need most next year in the way of conservation and then be able to help out the committeeman that calls on them. May be more than one thing needed or you have some special problem that you would like to have checked. The ACP program is your program—use it wisely.

Grain Is Food — Keep It Clean

PRICE-SMITH NUPTIALS ARE SPOKEN AT CLOVIS

Miss Elnora Price and Guy Paul Smith were married Friday morning, June 27, at Clovis, NM. Rev. E. D. Morgan, pastor of the First Baptist Church of Clovis, officiated.

The bride is the daughter of Mr. and Mrs. T. J. Price. She attended Turkey High School and was employed at the City Drug at the time of her marriage. For her wedding she wore a blue dress with white accessories.

The groom is the son of Mr. and Mrs. Guy Smith. He was graduated from the Turkey High School with the class of 1951.

After a few days spent visiting relatives in Sunray the couple returned to Turkey to make their home where he is employed.

FARM INFORMATION

L. R. ARMSTRONG
Quitauque FFA Adviser

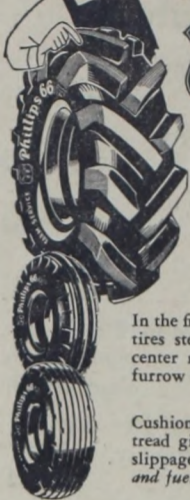

Doyle Poole says he can't see 5 1/2 feet to the rod—neither can I—it is 16 1/2 feet or 5 1/2 yards to the rod.

Why don't you rebuild or build those terraces or make fills like E. A. Birdwell and Mr. Eudy are doing—they are repairing the damage done by a rain last fall to their terracing system. Mr. Birdwell rented a rotary fresno from the FFA chapter to do the work. You too may rent a terracing attachment, a slip, or fresno from the FFA Chapter for only \$1.00 per day—25% of it goes to the chapter fund, the rest to the Soil Conservation Service who purchased the implements.

Your cotton loan will mature July 31. If congress passes a bill the support price of cotton this fall will be based on low middling 7/8" at about 30.91 cents per pound as against 30.46 cents on middling 15/66" last year.

Tab Morrison reports grass-hoppers in the pastures and fence

You Get Good Traction with PHILLIPS 66 FARM SERVICE TIRES

The more traction you get from your rear tractor tires, the quicker and easier your work gets done. That saves you both time and money! You start making this double saving when you put husky Phillips 66 tires to work on your tractor. Their open Center Flex-Action Tread grips firmly and cleans the tires as they roll. Phillips' deep, tapered "Pyramid-Type" bars won't pull off or loosen. They're paired for steady, continuous pull. Result: Fast, easy field work. Get ahead with Phillips!

FRONT TRACTOR TIRE

In the field or on the road Phillips 66 front tractor tires steer easily and wear long. Reason? High center rib. Double side ribs help them hug the furrow and aid in pulling out of it.

IMPLEMENT TIRE

Cushions equipment, load, and operator. Thick tread gives long service. Deep-grooved ribs fight slippage, let implements roll easily. You save time and fuel! Ideal for all free-rolling wheels.

Phillips 66 rear tractor tires are guaranteed 50 months against all road and field hazards. This guarantee covers tires that are cut, bruised, blown out, or rendered unfit for further service by any hazard. Phillips 66 front tractor tires carry the same guarantee for a 12-month period.

rows out his way. The time to poison them is when they are in fence rows and bunched. Toxaphene will do the trick or any good bait—besides it cost less to kill them you have less area to spray.

You can water your lawn too much according to Rutgers University. If you wish to water in an extended dry period—'tis all we have here—apply water only after the soil has dried to a depth of about six inches, apply the water slowly until the soil is moist to about six inches. Browning of the grass is not always an indication of the need for water. One watering should last a week. My wife worried about our lawn while we were away this last week—think it looks better than if we had been here watering it.

Say, why don't you take a look at the grass notebook in the bank if you haven't done so. Mr. Stark and O. R. tell me the interest has

been good. This notebook was prepared by the boys in VA III—each member of the class made a book like it.

AMARILLO BASEBALL PARK IS DESTROYED BY FIRE

Amarillo, July 1—Gold Sox Park, home of the Amarillo baseball team of the West Texas-New Mexico League, was destroyed by fire early Tuesday.

Pete Knapp, owner of the Gold Sox, estimated damage of \$100,000. The cause of the blaze was unknown. It was believed to have started in one of the concession booths in the grandstand.

Firemen received a call to the park at 1:30 a. m. When they arrived they found the fire raging and were unable to get it under control.

Potter county owned the park and leased it to Knapp. County Auditor Boone Moreland said the stadium was covered by insurance. Only a small section of the right field bleachers survived the fire.

"Governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute a new Government..." (From the Declaration of Independence now 176 years true.)

-- and the fight for Freedom must never cease!

Absolutism Government is no respecter of person or place. It can and does raise its ugly, ungodly standard over traditionally free soils as it does over England and the land of the Czars. None of the real, pretended, or promised benefits of Absolutism Government can in the end justify its existence.

The freedoms for which generations of Americans have fought and died are slipping away from us... centralized government and bureaucratic directives are nibbling away at our American heritage.

Freedom is not free—it had to be fought for, and you will have to fight to maintain it. Now is the time for everyone to come out, stand up, be counted, and vote the way he desires to vote, regardless of those who would perpetuate power politics.

West Texas Utilities
Company

Enos T. Jones for Dist. Attorney

Qualified
Experienced
Veteran

Mr. Jones is a public spirited Citizen; scrupulously honest and trustworthy; and a Christian gentleman.

He is worthy of the office of District Attorney and is well able from experience and ability to fill the position efficiently.

Without reservation we recommend him to the voters of the district.
