of pure cussedness. There is no use to wait for home city knockers to reform or die. They never do it. They are long-lived individuals and always on the job.

Cities who pay no attention to knockers and put forth special efforts towards a closer spirit of cooperation among its live citizens cash in the heaviest on the returns.

Farm, Livestock And Poultry Hints

By Ross B. Jenkins, County Agent

HAWKS OF OCTOBER

Since the pastures of West Texas have become so dry, there has been a decided falling off of the easy prey for hawks. This has been noticed by the poultrymen first, since he is losing his friers and even grown hens.

In a communication from College Station, it is said that contrary to the common belief, the feeding of nuxvomica to poultry will not kill the hawks. It is very reasonable to believe if the blood that a hawk should suck would kill him, then why wouldn't the same blood kill the chicken.

Poisoning has not been found to be of much value in combating the destruction of hawks. The suggested methods above must in the main be our future hope in eradicating of this pest.

THE 1934 and 1933 COTTON PLAN. In a letter from O. B. Martin, Director of the Extension Service of Texas to Ross B. Jenkins, county Agent he states that a letter from C. A. Cobb, Chief of the Cotton Section for the Agriculture Adjustment Act, gives some high lights on the new Plan.

It is planned to reduce the acreage in the United States for another year from 40 million acres to 25 million. This is a cut of 40 percent. This cut is based on the five year average. It will not cut 40 percent from this year's reduction but from an average gained during the past five years.

The new program will allocate the acreage by states among cotton farmers and restrict total planting to approximately 25 million acres next year. This is expected to be 60 percent of the five year average from 1928 to 1932 inclusive, and this will be the basis on which allotments are to be made to states (counties, and individuals. The grower will be compensated in part by cash rentals for the

land left out of production on a sliding scale based on the productivity of the land. The big feature of the new plan, according to Mr. Cobb, is the domestic allotment clause which provides that a producer shall receive approximately parity prices for that part of next year's crop consumed in the United States. Payments are to be based on the proportion of the 5 year average production which is domestically consumed.

The new program will operate through county cotton production control associations through which growers will enter into contracts for two years with the Secretary of Agriculture. The acreage to be planted is to be determined on or before January 1st next. Compensation for 1935 reductions is to be on the same basis as for next year. Reductions for 1935 in acreage will not be more than 25 per cent of the five-year average acreage, Mr. Cobb said. These contracts and the working of the association is almost the same as the Wheat Plan that is being signed now.

He got a party of men and went out to help fight the fire but when they reached the scene of the fire it was much bigger than they thought for and they sent back and called the fire boys, who with several others went and helped put the fire out.

Grass is rank and dry and all should take every precaution as the least carelessness could cause heavy losses.

The Star has inaugurated a subscription campaign, a little out of the ordinary—A Clean Slate campaign in connection with our annual Bargain Day Rates.

We have several hundred subscribers who are in areas on subscription and to these we offer to wipe the slate clean and credit them one year in advance on payment of one year's subscription which is \$1.50 in Callahan county and \$2.00 elsewhere.

To our subscribers who are paid up to this fall or the first of January we make our usual annual bargain rate of \$1.00 in Callahan county or \$1.50 elsewhere.

We urge our subscribers to take advantage of these offers to put their subscription on the paid in advance plan.

We have obligations running into several hundred dollars which we must meet at once and we especially ask our subscribers to pay up as promptly as possible to enable us to pay what we owe.

We will not send out statements on subscriptions as we do not consider it necessary to go to this additional expense because if a subscriber is paid up he will be due only \$1 or \$1.50 and if in arrears the amount will be \$1.50 or \$2.00 and we feel sure that each subscriber knows what their subscriptions account is, so we make this earnest appeal to our subscribers, through The Star to help us in this time of need.

We will also accept new subscriptions at Bargain Rates.

Pay One Years Subscription to The Star and we will mark you paid in advance—wipe the slate clean and begin all over again.

Home Economic Class Give Tested Recipes

The Home Economics II Girls of our High School have been studying tough meat cookery. They find that by cooking longer, searing, steaming by pressure, or softening meat tissues with acids such as tomatoes or lemon juice you can have as good dishes out of inexpensive cuts of meats as the most tender cuts, which are also more expensive. Here are some menus and tested recipes the girls have worked out:

- I Cream of Tomato Soup, Italian Hash, Sweet Potatoes, String Beans, Fruit Salad, Hot Biscuits, Butter, Apricot Pie, Coffee. II Meat balls with tomato sauce, Green Beans, Potato Salad, Cornbread Sticks, Banana Pudding, Milk or Coffee. III Meat Turnovers, Cream Peas Mixed Vegetables Salads, Hot Rolls, Plum Jelly, Chocolate Pudding, Mik or Coffee, Italian Hash (Recipe). 1-4 macaroni; 2 c chopped cooked meat; 3-4 grated cheese; 1 c tomatoe sauce. Cook macaroni in boiling salted water until tender. Drain off the water. Butter a casserole or baking dish. Put macaroni in dish, pushing it to the sides. Fill center with chopped meat. Sprinkle with grated cheese. Pour over the whole a highly seasoned tomato or brown sauce. Brown in oven. Meat Balls 1-2 lb. beef; 1-2 onion; 1-4 lb. lean pork; 1-2 egg; 1-2 cup bread crumbs. Mix all ingredients together and roll into balls the size of a large marble. Put lots of lard in skillet and brown the balls slightly. Then put the balls in a casserole and pour the tomato sauce over it, and place in a hot oven and cook until thoroughly done. Meat Turnovers Ingredients of 3c flour in biscuits; 1 1-2c ground cooked meat; 2t butter; 1-2c meat stack; 1-2c mashed potatoes. It hopped parsley; 1 egg. Roll dough 1-8 inch thick. Cut in circles with saucer and paring knife. Moisten edges slightly with egg white. Place mixture of above ingredients in center of one side of circle and dabble the other side over to make a semi-circle. Pinch edged together with a fork. Bake in a moderate oven for twenty minutes. Tops of baked turnovers should be brushed with milk or egg white when half done to make them brown evenly. Serve with brown sauce.
