Quitaque Observes National EMS Week

Have you been reading the EMS Profiles in the paper the last several weeks? They have been written to help you get better acquainted with the people who volunteer their time to the Quitaque Emergency Medical Service.

Can you remember back some 20 years ago, before there was an Ambulance Service? The local funeral home provided transportation in their station wagon to many a sick or injured person, during those early years. Friends and family were also contributing in the effort to get people where they needed to go for care. In the late '70's, the Quitaque Ambulance Service came into being. By the time the second class of EMT's had completed their training Quitaque had about 22 certified technicians involved in the service. We used to have to practically beat them off with a stick when the ambulance was called out. The Panhandle Emergency Medical Services System (PEMSS) was still evolving into the excellent system it is today.

All of the articles about QEMS over the past several weeks have been leading up to this week, which is National EMS Week. Let's take a look at what is involved in maintaining the Ambulance Service. There have been some critical changes over the years, one aspect, some of

THEN & NOW!

by Eunice McFall

Congratulations are in order for nineteen young men and women from the Valley School for completing thirteen years of study to be able to graduate this Friday night and begin to travel the road of adulthood. They have spent much time in study and perhaps shed a tear or two trying to accomplish the feat of being able to graduate with their classmates. Right now they feel that this is such a wonderful day--school is over!

But when the night of graduation finally arrives a bit of reality begins to sink in and they have such thoughts as "It will never be quite the same for me and my friends after tonight", "I will now have to be more responsible as I am officially out of high school", "When will I get to be with these special friends again?", or "Where do I go from here?"

We, the family and friends of these graduating seniors have a great job ahead of us in helping them to make the right decisions for their coming life. Some may want to travel the road to higher learning and go to college to perhaps teach other young people how to become better citizens for the coming years. Others may have no desire for more education and wish to enter the work force. While some plan to travel the next few years alone some are planning to be married and will therefore have another person to consider when they make their plans for the future. No, we as parents, family and friends do not have the right to make these decisions for our graduates but we do need to stand by and give them guidance when they need it. After all maturity and experience must count for something! However we do not need to rush in and give a bushel of unwanted and perhaps unneeded advice. Choices and mistakes are all part of the growing process.

Yes, that is right graduates, you are still in the process of growing. That diploma only says that you have passed one milestone in your life. There are many more milestones to pass in the years to come. Some will be passed with joy, a few with tears but all with more knowledge in how to make your life a better life for you and for your loved ones.

Seniors, my main wish for you today is for you to stop and think before you make that giant leap into the great unknown of adulthood. A few minutes of thought might just save you hours of grief.

Congratulation to each of you as you step out of the sheltered life of high school and enter the road to the rest of your life. May the way be smooth and happy for each and everyone of you.

Jim Weeks
EMT Veteran
Turkey EMS
Profile

Jim Weeks has served nineteen years as an EMT for Turkey. He became an EMT in 1977 at Clarendon College. Mr. Weeks was very hesitant about becoming one. He started out by riding to Clarendon with Danny Stewart, who was taking the class. Danny along with the instructor, Mr. Marshall Peters talked him into taking the course. Jim became very interested in it and found out he liked it. He completed the course.

Jim took his hospital training at North West Texas Hospital in Amarillo. At one time he let his certification expire for a few months and discovered that he was lost without it. He took the course again under Anthony Kingery. Jim stated that he loved helping people of the community and the feeling you get when someone comes up to you to thank you, or just enjoy the smile they give with the warmth of their heart.

Jim married on February 18, 1995 to his high school sweetheart. His wife's name is Mary Katherine and she works at Texas Horse Pad in Quitaque. They have two children, Dewain David, a Freshman in Levelland College and Justin Davis, a 7th grader at Valley School.

Jim has been employed by Wheeler and Sons for the last 13 years.

Dignity does not consist in possessing honors, but in deserving them. —Aristotle

Quitaque
EMS profile

Dianne Washington

I am Dianne Washington, one of the three EMT's in the Quitaque EMS that live in Flomot. Because of the communications system that QEMS has, we are able to respond to calls in the Quitaque and Flomot areas.

In March, 1989, Susie Shannon called me and told me that there would be an Emergency Medical Technician Class starting at the Valley School in April. Susie was aware of the need for EMT's in the outlying areas of the Quitaque community. She encouraged me to take the class. Steve Farley and Anthony Kingery were the instructors for the class. I received my certification in August, 1989. After four years in the system, I took a review class from Anthony Kingery in Silverton and recertified.

I work as a Certified Public Accountant in Floydada and Quitaque. Without the support of my husband, Seab, I could not be an EMT.

I am excited about the advances that the Quitaque EMS is making in patient care. The new AED that has been ordered will help the people in Flomot and Quitaque during the "golden" hour of emergency care.

Quitaque EMS Holds Monthly Meeting

The local EMS held their meeting on Wednesday, May 1st, at 7:30 p.m. The group met at the Quitaque Emergency Services Building only to find a scenario of heat related cases which would be found at the State Park. Sandra Barclay and Dedra Payne had enlisted the services of the Park Personnel, as well as, three local ladies to act as victims for our skills practice. After boarding the ambulance, the group headed for the park to find and treat the victims. All the patients were saved and there were several reminders never to assume injury or safety. The banks rubber snake was also a volunteer in the practice. The services of Ann Chadwick, Donna Roys, Kay Myers, and Park Superintendent Geoff Hulce, C.L. Hawkins, and James Ortiz, from the Park were appreciated.

From the Park, the group went back to the QES building to critique the actions and conduct the business meeting. Jack Wellman reported that the City Council had approved our building project and agreed to replace pagers with radios as they were affordable. The need for a City Wide Disaster Plan with the tornado season upon us was discussed. The Fire Department and the County will be called upon to help get a plan underway.

The ambulance will be taken to the school on Monday, May 20th to let students look inside

and ask questions about what services the EMS performs. This is in conjunction with EMS WEEK. The children will receive coloring books and stickers and brochures will be given to adults.

Jack and Deborah Wellman will have skills practice for June. The skills will be on all types of burns.

Caution Should Be Used For Memorial Day Weekend

Memorial Day weekend is the gateway holiday to warm weather activities. There will be cookouts and camp outs, swimming and fishing, hiking and biking. Nearly all of these will require traveling, whether it be a few blocks or several miles. The Texas Department of Public Safety urges motorists to take time to prepare for safe driving this holiday.

Trooper L. B., Snider, Public Information Officer for the D. P. S. Amarillo District offers the following safe driving tips:

1. Have the vehicle properly tuned.
2. Driver should be rested and alert.
3. Use safety belts properly, with the lap belt low and across the hip bone and the shoulder belt over the shoulder for maximum protection, and have safety seats firmly secured.
4. Use headlights day and night, it is as important to be seen as to see.
5. Drive at a safe speed, the faster we drive the greater the risk of serious injury or death from a wreck.
6. Develop a safety space zone, allowing two (2) seconds for the vehicle ahead to pass a certain place before you reach the same if you are in a car or pickup and four (4) or more seconds if in a larger vehicle.

Running For The Gold

courtesy of Today Duncanville
Johnny Black gives new meaning to the phrase "all things are possible."

Father of four, a Duncanville Police Officer and local minister, Black is carrying a full plate.

Add competing in the Olympic trials, and his cup runneth over.

But Black handles all his duties with ease, and attributes his success to the Lord.

"To be honest, running is probably my greatest skill, but also communication through ministry, I was called to run before I was called to preach. Both were big turning points in my life, at the time when I became a Christian," Black said.

Black competed in just one track meet in high school when he found out he was going to be a father. At that point, he said, he felt getting a job and raising his child were his priority over racing.

After high school he held a series of jobs before joining the Duncanville Police Department two years ago.

Black runs at Duncanville High or Reed Middle School in the early afternoon. Trips to the track are two-fold for the runner, who trains and ministers while at the schools.

"When I teach and preach I like to say you don't lay down one gift to pick up another, you work on them all. That's what I'm doing; that's what these kids should do. Pray, and trust God, and ask for His guidance in life."

Today God is guiding Black to the summer Olympics, where the officer hopes to earn a record time in the 100-meter run.

Aside from his Olympic goal, Black said he hopes his future holds a flourishing ministry at Praise the Lord Church, and coordination of a recreational facility for local youth.

Black is confident people can watch for him at the Olympics. He looks forward to watching his own children, JeQuithia, Juriel, Sierra and Emanuel, along with wife Cynthia, achieve their goals in life.

Zeola Taylor is the proud Aunt of this fine young man.

Seniors Make Trip To Amarillo

The Senior Class went to Amarillo on Saturday, May 11, 1996 for their class party.

They started off with lunch at the Westgate Mall. Then off to Wonderland Park for four hours of riding rides.

From there they went to Wal-Mart for a little shopping. It seems everyone had a great time.

 It is far more impressive when others discover your good qualities without your help.

Sallie Mae Introduces New Line Of College Loans

The nation's most widely recognized first and last name in college financing has autographed a new line of education loans designed to make borrowing for college less expensive, more convenient, and nearly as simple as signing on the dotted line.

Sallie Mae, the country's chief source of funding for higher education, today introduced the Signature Education Loan Program, a package of low-cost federal Stafford and private supplemental loans that can provide students with a single, comprehensive source of education funding throughout their college careers. The loans--Signature Student Loan and Signature Health Loan--are being offered for the

upcoming academic year through a network of participating lenders, providing borrowers with a range of money-saving borrower benefits, flexible repayment options, and quality life-of-loan servicing.

"We are introducing the Signature Education Loan Program to meet a critical need," said Lydia M. Marshall, executive vice president, Sallie Mae. "Federal student loan programs have not kept pace with tuition and other college costs, and

as a result, there is an ever-widening gap between the amount of funds students need for college and the amount available to them. Through the Signature Education Loan Program, students can now apply for as much as they need at one time, in one place and with one application package."

**Tribune Will Cost
More After June 1**

With the cost of newsprint rising, like the cost of everything else - even a cup of coffee, the Tribune's printing costs have also risen. We have tried to hold our newspaper prices as low as possible, for as long as we can, but now we find that we must go up on our single copies and subscriptions to match those of other area papers.

Beginning June 1, cost of a single issue on the newsstands and in the Tribune office will be 50 cents and the price of subscriptions will go up to \$17.00 local, and \$20.00 out of town.

During the remainder of the month of May, your subscription may be renewed at the old price of \$15.00 and \$18.00. New subscribers will pay the old price also, but only during the rest of this month.

Stan Musial, the great baseball slugger, never won a league home run title.

THANK YOU

The area youth would like to thank everyone for their support of our recent fund raisers, the brisket dinner and the car wash. Special thanks to Daniel and Jackie Jenkins, Jon and Laura Davidson, Brent and DeLane Brown, Rick McKay and all the area churches who pitched in to help make the dinner a success. We are also grateful to the Bob Wills Foundation for their generous \$500.00 donation that finished paying on the bus and will provide financial assistance for a few students going on the trip. You all have blessed us and we appreciate it so much!

Swimming Party Friday For Cub Scouts, Den 2

Mrs. Bernard Bray, Den Mother, accompanied the Cub Scouts on a swimming party Friday afternoon to Roaring Springs.

Scouts enjoying the outing were Terry Doc Williams, Kenneth Hulen, Jerry Frank Garner, Billy Wheeler, Monty Bray, Royce Hanna and a guest, Ted Barnhill.

Miss Alpha Joyce and Earl Dean Mullin were taken to Matador the first of the week where they had their tonsils removed. They are both back home and are doing nicely.

Sew And So Club Meets In Parmenter Home

Mrs. W.R. Mohon and Mrs. C.W. Parmenter were hostesses to the Sew and So Club at the latter's home Tuesday afternoon, May 4th. The club was very happy to have Mrs. Roy Fuston enrolled as a new member.

Refreshments of tuna sandwiches and iced tea were served to Mmes. John Bush, G.P. Driskill, Sr., U.F. Coker, D. Armstrong, O.D. Coleman, Denver Powell; two guests, Mrs. Stoffers and Mrs. C.L. Cooper; and the hostesses.

Norma's Shop Redecorated

Work of enlarging, remodeling and redecorating Norma's Shop, Turkey's exclusive ladies ready-to-wear, has been completed and the Shop is now very pretty as well as modern in every respect.

Mrs. Russell moved her husband's office to the two rooms north of his former location and has taken that space in her shop.

An archway has been cut to connect the additional two rooms with the original lay-out, making a very nice set-up. New linoleum has been placed covering the entire floor, new fixtures have been added and the whole interior has been treated to a two-toned paint job. It's really snazzy.

The nice thing about egotists is that they don't talk about other people. —Lucille S. Harper
