## THEN & NOW!

by Eunice McFall

This morning was almost a winter morning. The temperature was in the forties with a cold north wind blowing. The last couple of weeks the days have been warm summer days with the cool nights of fall taking over at nightfall. In the cotton fields you can see white showing up in places but it is still rather early for us to be thinking of freezing weather. I rather think that the farmers are not quite ready for that to happen to their crops just yet. It does make for good football weather so perhaps there will be a capacity crowd at the Homecoming game with Higgins on Friday at Valley.

A couple of weeks ago I wrote about sportsmanship here. This week I have been thinking about how we become what we are. We are not born being the person that we will become. Many factors are in the building of the characters, personalities and people that we become. Much of our character and outlook on life will depend upon how we have been treated in our childhood. Were we given positive thoughts or negative thoughts?

It is so easy to look at life through dark glasses and think the worst of what is happening, in other words to be negative about everything. When we give a child a negative reaction to every problem that they have we give them the impression that all of life has to have a negative response. Is this really the way that we want to have our children to grow up and live with this kind of philosophy?

If we always overlook the positive and accentuate the negative, we continue to tell our children by words and deeds that nothing will ever be better. But if we can focus on the positive we can help our children to become happier, more outgoing, more open to trying new experiences which is how they learn about life. This is what we all want for our children—a happy positive life so that they can be a productive human being.

So why not try to think of the positive and talk about it and ignore the negative and try to not even think of it, all for a better future for us, the future of our children and the future of our nation.

We have several new families in town to welcome to our community. Vinita and Guss Hrcnr have recently bought the Quail Lodge. We have two new coaches, Coach Jeffcoat and family and Kirk Saul and family. The Methodist have a new pastor, Rev. Carlton Thomson and his wife Waldeen. When you see these new families in town be sure to tell them how glad you are that they have chosen Quitaque for their home.

The meeting will be at 8:00 p.m. on Tuesday, September 21, at the Pioneer Room of the First State Bank, Silverton, Texas.

Jim Bullard, Assistant Vice-President, for Regional Services, and Ray Mason, Assistant Vice-President for Community and Physician Relations, will represent Methodist Hospital at the meeting. They have indicated a high level of interest in operating our clinic. We need to demonstrate our interest and commitment by having a large turn-out for this meeting.

## ASCS Deadline For Disaster Applications

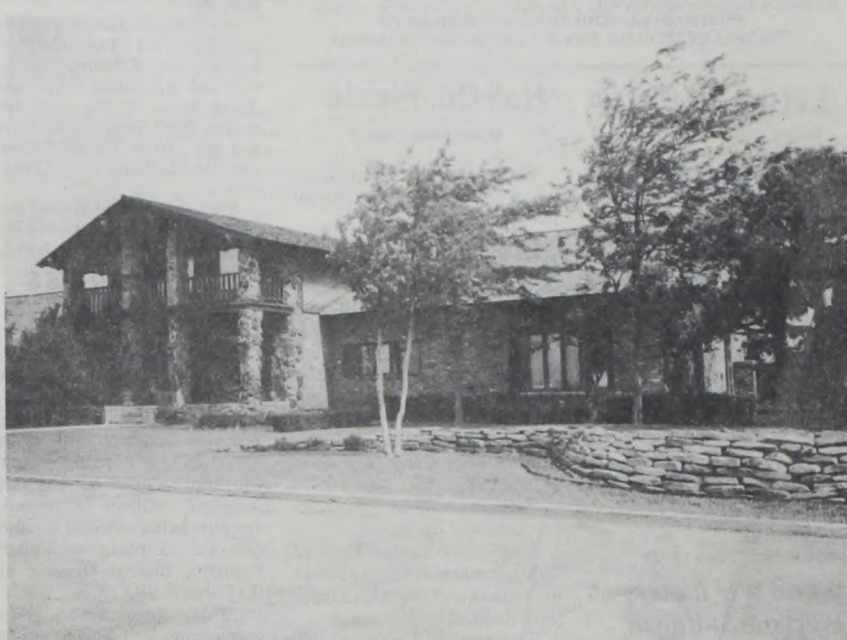

Friday, September 17th is the final date to apply at the county ASCS office for disaster benefits due to low quality adjustments on the following disaster affected commodities: cotton, grain sorghum, wheat, oats, barley corn, sunflowers, sugarbeets, soybeans, and peanuts that were produced on a farm 2 out of the 3 years, 1990, 1991 and 1992.

If a producer did not receive disaster benefits in any of these three years, or in only one of these years, he may still apply if the crop was disaster affected and eligible for a quality adjustment.

Producers will be required to furnish evidence of production, containing information showing the grade of the commodity (such as gin bale listings and recap sheets) and what each bale would be worth in the loan.

If production evidence cannot be provided, or the production was appraised, the County Committee will assign a grade based on average grade on similar farms.

September 17th is also the deadline for opting to switch planted acres to CU for PAY, or CU for PAY to planted acres (providing the producer had intentions of harvesting the crop), and to modify acreage previously switched to CU for PAY. After September 17, no further opportunity will be available for the producer to make changes, according to Earlyne Hutsell, Briscoe CED. Check with the ASCS office for more details.

**World War II Story--A Wartime Skirmish**

One sunny afternoon while serving in the waves during World War II, I boarded a train in Dallas to return to the Naval Supply Depot in Clearfield, Utah. I sat beside a handsome sailor, who asked the question all service personnel ask: "Where are you from?"

The thought flashed through my mind that he would never know if I didn't tell him the truth, so I said, "I'm from Dallas. Where are you from?"

"Houston," he replied. Within minutes, Shore Patrol came through the train checking leave papers. When he looked at mine, he read in a loud voice, "Turkey, Texas!"

Next he looked at the sailor's leave papers, and in the same loud voice, read, "Goose Creek, Texas!" Then he went on his way, laughing.

The above article was written by Lee Nelson of Waco, Texas. G. P. Driskill recently received this article from a cousin of his who resides in Crockett, Texas. The cousin thought G. P. might know the lady.

The Driskills did not know who Lee Nelson was. When seeing the picture of Lee Nelson and reading the article, Rita Guest thought she was a Hill. By contacting Bonnie Hill, she confirmed Rita's observation. Lee Nelson was Leola Hill, daughter of Mr. and Mrs. Garland Hill, all past residents of Turkey.

- A vacation from a vacation?** On average, twelve days was rated the ideal length for a vacation. Still, many people (74 percent) said they usually need a day or two to recover from their trip!

**Small Business Clients May Participate**

The U.S. Small Business Administration (SBA) has announced that the Small Business Institute (SBI) is in operation at Texas Tech University (TTU) for the fall semester. Client businesses are now being selected for the program according to Walter Fronstin, District Director of the Lubbock SBA office.

"This program gives graduating seniors a practical 'real world' experience, by providing them with an opportunity to apply to a live business environment the skills they have learned in class," said Fronstin.

Small businesses in the Lubbock area are encouraged to take this opportunity to participate in the program by contacting Professor Fred Volker, SBI Director at TTU, at (806) 742-3461 or contact the Lubbock SBA office at (806) 743-7462 or 1-800-676-1005 and ask for Jonanna Teeters or Ruby Abarca. Businesses are chosen on a first-come, first-served basis.

**Come To The Gingerbread House**

There once was a couple who lived the 40 years of their married life in the same rural community. Thirty years of that time was in a large brick home where they raised three lovely children. The time came when that couple decided to move in a small house in the city.

The people of the community couldn't decide if they'd lost their mind or their money. Well, they never had much of either, so neither was the case. This couple couldn't have made a better choice of city, neighborhood or house, and they would like all their friends to come by to their "Open House" on Sunday, September 19 from 3 to 5 p.m. and see the finished product.

There will be food and fellowship and you will have an opportunity to share your advice for "living in the city." So far, the man of the house, loves the advice he has received. Especially that city men do not mow lawns or burn trash.

If you have good advice to offer, please come by, and share in the fellowship and help introduce this couple to city life. This couple's name is John and Maebelle and they live at 106 Braidfoot Street, Silverton in the grey and white "Gingerbread House."

**"Structured Liquid" Laundry Detergent:** Laundering makes its way into the 90s with the arrival of Double Power Wisk—the most concentrated liquid laundry detergent on supermarket shelves. The new formula features a breakthrough structured liquid technology that packs in double the cleaning power, so you use only half the liquid to clean clothes better. This makes it the best Wisk ever. And, it cleans the same number of loads as the conventional bottle.

In addition to introducing technological milestones that have made life easier on the laundry front, Lever Brothers and Wisk want to help you do your laundry better. If you've got a wash-day dilemma such as how to get rid of stains or when to add bleach, just call the Wisk Washline toll-free at 1-800-ASK-WISK. Your questions will be answered by an on-line, laundry expert.

**Crump Promoted To Bank Manager**

Ken Crump was recently promoted to the office of Branch Bank Manager of Sunray State Bank, Sunray Texas.

Ken started to work for the bank May, 1933, as Loan Administrator. He will retain his job as Loan Administrator as well as being Bank Manager.

Sunray State Bank operates a bank in Dumas, Texas.

Ken had previously worked for Amarillo Production Credit Association as Loan Officer at the branch office in Dumas.

**Turkey Extension Club To Meet**

The Turkey Extension Homemakers Club will meet next Monday night, September 20th, at 7:30 p.m. in the Senior Citizens Room.

Marjorie Pinkerton has prepared quite an interesting program for the group. Mrs. Pinkerton will be showing the members the fine art of cake decorating.

A business meeting will follow the program. Those who have not paid this year's dues need to pay them at this time.

Roll call will be answered by telling your favorite cake or cookie.

Anyone who would like to be better informed and learn to do new things is encouraged to become a member of this informative club.

The American flag is said to have been named Old Glory by William Driver, a sea captain of Salem, Mass. His daughter said he named it at his 21st birthday celebration in 1824, when his mother presented the homemade flag to him.

**WTAMU Sponsors First Family Day**

Capitalizing on the traditional Parent's Day weekend, and adding to it the fact that many students are now supported by family members besides their parents, West Texas A&M University will host its first-ever Family Weekend Sept. 17-19. New, more casual activities will pack the schedule of events to be held on the WTAMU campus.

"Because our student body has changed in recent years and we now have older, non-traditional students, the organizing committee felt like it was time to begin recognizing other support groups in addition to parents," Frank Castleberry, director of the Jack B Kelley Student Center and chairman of the Family Day Committee, said. "This will allow more students to participate in the event while leaving the tradition of honoring parents intact".

The weekend kicks off Friday evening at 5:20 p.m. with a soccer match against Oklahoma Christian University. Family Weekend registration will begin at 7 p.m. in the Commons Area of the Jack B Kelley Student Center (JBKSC) and will be followed by a concert featuring Robin Crow sponsored by the Office of Student Activities.

Registration will continue Saturday morning at 9:30 a.m. in the JBKSC and will be followed by a style show sponsored by the Interfraternity and Panhellenic Councils at 10 a.m. Hamburgers and hot dogs will be served at 11:30 a.m. on the lawn between Terrill Hall and Cornette Library for \$1. Games such as bed sheet volleyball, a three-legged race and other family-oriented relays will begin at 12:30 p.m. on Terrill L. wn..

Afternoon events will include receptions by student organizations and residence halls from 2:30-4 p.m. with an equestrian display at the WTAMU Horse Center at 3:30 p.m. The Mom and Dad's Association will meet at 4 p.m. in the JBKSC Room 11, and the day will culminate with the announcement of Parents of the Year and Family of the Year at halftime of the football game. The game, pitting the Buffs against the Aggies of Panhandle State University, begins at 7 p.m. at Kimbrough Memorial Stadium.

The weekend will conclude with a soccer match at 1 p.m. Sunday. The match will be followed immediately by a concert by the Blue Johnnies. Both events will be at the WTAMU Soccer Field.

"This new, expanded schedule is going to be a lot of fun," Castleberry said. "We want everyone to enjoy the day honoring their parents and families in a relaxed, casual atmosphere."

Nominations are currently being accepted for Parents of the Year and Family of the Year. Criteria for selection includes encouragement of their children's or family member's education and loyalty, support and interest in the University. Nominees must be parents or family members of current WTAMU students. Forms are available at the JBKSC Information Desk and must be returned by 5 p.m. Tuesday, Sept 14.

## Do Gooders Club Dressing For Success

Mrs. Beverly Logston of Memphis, Regional Home Extension Agent, presented a program on Dressing for Success at the Do Gooders' Club meeting, Tuesday afternoon, September 7.

There are a myriad of dress styles, but you want one that will last more than a season and be a ultrafeminine fashion. Inexpensive accessories can help capture this look. Lacy scarves, dainty pearls and other little details give you a feminine look, she said. Welcome changes include smaller shoulders and a wide range of jacket lengths and pant widths. Any length dress is fashionable today if the garment is attractive on you.

Mrs. Logston passed out forms for a person's body measurements. She will put these in a computer to tell what style clothes is best for each individual. She will return for the next club meeting in October to discuss the results. She left measurement forms to give to members unable to attend the day's meeting.

Mrs. Jimmie Hunter, vice president, presided at a short business meeting. Hostesses, Mrs. Judy Poulson and Mrs. Bernice Bond served refreshments of chips and dips, cookies, fruit punch and coffee.

Others attending besides those mentioned above were Mesdames Alma Shorter, Mary Jo Calvert, Christeen Gilbert and guest, Mrs. Annie B. Cloyd.

Present, I often say, endear absents.

—Charles Lamb

**Guthrie 30 Valley 28**

by Coach Gilmore  
The Valley Patriots had their first setback of the year when they traveled to Guthrie and were defeated 30-28.

Guthrie started the scoring with a 53 yard punt return. The kick was good for a 8-0 lead.

Valley scored twice in the second period on a 58 yard pass from Joe Valdez to Reggie Hendrix. Dewayne Davis added the extra point to tie the game. Hendrix found the end zone again, this time on a 51 yard run. The kick failed and Valley lead 14-8. Guthrie tied things up again with a 1 yard run, by Clint Hale.

Guthrie started the second half with two quick scores- a 36 yard run, by Hale, and a 1 yard run, both extra point attempts were good for a 30-14 lead. Valley came back with two scores of their own on a 5 yard pass from Valdez to Donnie Calvert and a 34 yard pass from Valdez to Calvert. This brought the score to 30-28 at the end of the 3rd period.

Neither team could score in the fourth period, but with less than a minute on the clock, Valley moved down for an apparent 'go-ahead' score, but a miscue caused a fumble and Guthrie recovered and ran out the clock.

Leading the offense was Joe Valdez as he passed 13-24-236 yds 3 TDs. Reggie Hendrix had 5 catches, for 91 yards, 1 TD, he also rushed 2 times for 69 yards, 1 TD.

Donnie Calvert had 4 catches, 83 yards, 2 TDs; Paul Brittan, 1 catch, 48 yards; Dewayne Davis, 2 catches, 1 yards; Bubba Powell 1-5; Ricky Hughes, 1-3. Also rushing for the Patriots was Valdez with 9-8 yards; Brittan, 2-21; Davis 6-8. Valley will host the Higgins Coyotes, Friday at Patriot Field, 7:30 p.m. Homecoming.

**JV Beats Aspermont**

by Kirk Saul  
The Valley JV improved its record to 2-0 last Thursday night by beating Aspermont 19-18 in a very exciting game. The game included three lead changes and the outcome was not decided until the last play of the game.

Aspermont opened the scoring on its second play from scrimmage with a 55 yard touchdown run on a tricky option play. The Kick failed and Aspermont owned an early 6-0 lead. The Patriots came right back, however, with a 42 yard scoring drive that featured two passes from Matt Abram to Andre Gaddis, good for 11 and 27 yards respectively. Ruben Hinojosa capped off the drive with a 4 yard run. The Patriots converted the PAT as Matt Abram found a wide open Jarret Pigg in the end zone for a 7-6 Patriot lead. Aspermont went on to score later in the first quarter and owned a 12-7 lead going into the second quarter.

In the second quarter, Valley took control of the game, both offensively and defensively. The

defense held Aspermont scoreless while the offense scored on touchdown runs of 24 and 6 yards, by Brian Moore. Both PAT's failed and Valley led 19-12 at the half.

The second half turned out to be a defensive battle until late in the fourth quarter. As time expired, Aspermont completed a touchdown pass to cut the Valley lead to 19-18 and set up the exciting finish. Aspermont decided to go for the victory by attempting to kick the PAT. The kick failed, but Aspermont was given one chance to kick the PAT, due to an offside penalty. The second was wide left and Valley had hung on for a very exciting victory.

The next J.V. game will be Thursday, September 16, at home against Happy, Texas. The game will start at 6:30.

THE ACCOMPANYING TAX NOTICE IS WRONG!

The Turkey-Quitague ISD Independent School District is required by state law to publish the accompanying tax notice in this form, even though the notice is deceptive.

Because of an omission in the recently-enacted state law, Turkey-Quitague I.S.D. may not include revenue collected by the county education district in the calculation of taxes for the 1992-93 school year. The effect of this is to understate last year's actual school tax rate and produce an inaccurate comparison of last year's tax rate to this year's tax rate.

The correct comparison of tax rates is as follows:

Last year's (1992-93) total school tax rate (including county education district taxes):	.97
This year's (1993-94) proposed school tax rate:	.97
Percentage change:	-0-

This notice and the information included is required in this format by the Texas Legislature.

Notice of Public Hearing on Tax Increase

The Turkey-Quitague ISD will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in 1993 by 624.5 percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in base value of all other property.

The public hearing will be held on September 20 at 8:00 p.m. Valley School. FOR the proposal: Brian Wheeler, Don House, Larry D. Price, Greg Ramsey, Clinton Pigg. AGAINST the proposal: Brent Giest. PRESENT and not voting: Rusty Henson, President. ABSENT: None.

The statement above shows the percentage increase the proposed rate represents over the .14 tax rate that the unit published on August 26, 1993. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	\$ 25,000.	\$ 25,000.
General exemptions available (amount available on the average home, not including senior citizen's or disabled person's exemptions)	\$ 5,000.	\$ 5,000.
Average taxable value	\$ 20,000.	\$ 20,000.
Tax rate	14 / \$100	97 / \$100 (proposed)
Tax	\$ 28.00	\$ 194.00 (proposed)

Under this proposal taxes on the average home would increase by \$166.00 or 592.9 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would increase by \$83 per \$100 of taxable value or 592.9 percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

This percentage increase does not reflect 1992 taxes levied by the now-abolished county education district (CED). In 1992, the CED levied a portion of the taxes used for school purposes, and the school district levied the remainder of school taxes. In 1993, school districts will levy all school taxes. For an explanation of the increase, attend the public hearing scheduled above or call your school district.

HINTS FOR HOMEMAKERS

(NAPS)—You can save time and money, and help the environment, by doing something as simple as saving plastic bags.

That's right. There's more than one way to use a plastic bag and that's good news for environmentally conscious consumers interested in conserving resources and reducing waste.

In a recent survey conducted by The Wirthlin Group, 83 percent of consumers surveyed said they already reuse their plastic grocery bags. However, if you're one of the few people who hasn't adopted this practice, here are a few tips on how to reuse these plastic bags.

- hold groceries during return trips to the store
• carry lunches
• protect videos from the rental store to home
• store recyclables
• tote shoes
• line trash cans
• protect off-season clothes during storage
• carry library books

When you've finished reusing your plastic bags, remember to return them to supermarkets, or dry cleaners that collect plastic bags for recycling.

"Plastic bags are strong and durable, so you can reuse each bag again and again," says Len Levy, president Plastic Bag Association. "Their handles make them easy to carry, and they're waterproof. These are just a few of the reasons consumers choose them. The environmental benefits of reusing and recycling plastic bags only add to their appeal."

Harmon Publishes New Poem Recently

Dawn Harmon recently had another original poem published in Distinguished Poets of America. A treasury of today's poetry compiled by "The National Library of Poetry".

The poem is entitled For Grandy's Memories. Subject of the poem was Dawn's Grandfather, R. J. Harmon who died last October after a lengthy illness.

Dawn also received the "Editor's Choice Award" with this poem. Dawn wanted people to know how special Grandy was so she put her feelings for him down as a poem.

Bible Brainteaser

Once made some remarks about hidden books in the Bible. It was a lulu; kept some people looking so hard for facts, and to others it was a revelation. Some were in a jam; especially since the books were not capitalized. But the truth finally struck home to numbers of readers. To others, it was a real job. We want it to be a most fascinating few minutes for you. Yes, there will be some really easy ones to spot. Others might require judges to determine. We will quickly admit it usually takes a minister to find one, and there will be loud lamentations when you see how easy it is. A little lady says that if she brews tea, she can concentrate better. See how well you can compete. Relax, now, there are sixteen in this paragraph.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 2, 1993

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses. The amendment provides that the legislature by law may establish a Texas historically underutilized business capital growth and start-up fund. The money in the fund may be used without further appropriation and only for a program established by the legislature to aid in the start-up costs of a historically underutilized business, as defined by the legislature. To carry out the program, the legislature may issue up to \$50 million of general obligation bonds to provide funding. The legislature may require review and approval of the issuance of bonds, the use of the bond proceeds, or of the rules adopted by an agency to govern use of the bond proceeds. Bonds authorized by the amendment constitute a general obligation of the state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the issuance of \$50 million of general obligation bonds for the recovery and further development of the state's economy and for increasing job opportunities and other benefits for Texas residents through state financing of the start-up costs of historically underutilized businesses."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution. The amendment applies to real and personal property used as a facility, device, or method for the control of air, water, or land pollution that would otherwise be taxable for the first time on or after January 1, 1994. The amendment does not authorize the exemption from ad valorem taxation of real or personal property that was subject to a tax abatement agreement executed before January 1, 1994.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air, water, or land pollution."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to an undivided one-third interest in and to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick or on or about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830. Title to such interest in the lands and minerals is confirmed to the owners of the remaining interests in such lands and minerals.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin counties."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax. The referendum must specify the rate of the tax that will apply to taxable income.

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax.

The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than two-thirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the deduction of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties, and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment abolishing the office of county surveyor in Jackson County."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 57 proposes a constitutional amendment that repeals article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second type of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax sale."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that adds a

new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government, an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed, variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, and at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Housing Fund. If there is not enough money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or become due during that fiscal year.

If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates of interest as the Board determines.

The general obligation bonds authorized to be issued by the Board by this section or by sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the

board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the system.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a child.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that amends article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a two-thirds vote of the membership of each house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes for the purposes of refunding bonds or notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge money to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent im-

provements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (e) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. If the office of county surveyor is abolished, the maps, field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the county."

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 44 proposes an amendment to article III, section 49-(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

## DO IT AND DIET!

*It's Not How Much You Eat, It's What!*

(NAPS)—If you've ever gone on a diet, or know someone who has, here's news that may surprise you. A recent panel of weight-loss experts convened by the National Institutes of Health concluded that *none* of the conventional approaches to losing weight is effective. In other words, most diets don't work because they are based on deprivation. Only three percent of those who take off weight keep it off for at least five years.

In contrast, Dr. Dean Ornish's No. 1 *New York Times* bestselling *Eat More, Weigh Less*, (HarperCollins Publishers, \$22.50) is based on a revolutionary concept: it's not how much you eat, it's primarily what you eat. Dr. Ornish's research demonstrated that it is possible to lose weight and keep it off.

Since 1977, Dr. Ornish has directed landmark scientific research demonstrating—for the first time—that even severe heart disease, often can be reversed by changing diet and lifestyle, without drugs or surgery. Along the way, he and his colleagues made the unexpected—but very important—discovery that the Life Choice program described in his book, also had dramatic effects on weight.

Patients in Dr. Ornish's study lost an average of twenty-two pounds during the first year, even though they were eating more food and more frequently than they had before entering the study.

Many now feel these findings have powerful implications for everyone who wishes to control weight. The book, available at local bookstores, also has 250 gourmet recipes containing less than ten percent fat, from many of the country's most celebrated chefs. Here's one that's sweet and subtly hot. It's Joyce Goldstein's Moroccan Spice Carrots. It's best served with couscous and some braised greens, along with a legume-based salad or soup, for a complete dinner.

**Moroccan Spice Carrots**  
Serves 4  
1-1/2 pounds carrots (8 to 10)  
1 cup vegetable stock  
3 tablespoons brown sugar

Dr. Dean Ornish's book uses an unconventional approach which he says lets people lose weight safely while eating abundantly.

- 1 teaspoon ground cinnamon
- 1/2 teaspoon ground cumin
- 1/4 teaspoon cayenne
- 1/2 cup fresh orange juice
- Grated zest of 1 orange
- 1/3 cup currants or brown raisins, plumped in hot water (optional)
- salt
- Freshly ground black pepper
- 3 tablespoons chopped fresh mint

Peel and slice the carrots about 1/4 inch thick. You should have about 3-1/2 cups. Bring the stock to a boil in a sauté pan over moderate heat and drop in the sliced carrots.

Add the sugar and spices and stir well. Reduce the heat and simmer until the carrots are crisp-tender. Stir in the orange juice and orange zest and optional currants or raisins and simmer a few minutes longer. Sprinkle with chopped mint and serve at once.

NOTE: Beets or a combination of carrots and beets can be used. First boil the beets until tender, then peel and cut into chunks. If combining with carrots, add the beets when you add the orange juice.

### Even The Smallest Change Can Make A Difference

by Ronda Alexander  
So, you're being told to avoid saturated fatty acids, eat less cholesterol, lose weight and eat more fiber. That's enough to make a person give up! But you don't have to do it all at once. Even small changes can make a REAL difference in your health. For example, if you need to lose weight, start out by identifying the high-fat foods in your diet. Fat, regardless of the type, contains twice as many calories as carbohydrates or proteins. So when you eat less fat, you are likely to consume fewer calories.

Think about some small changes you can make in your diet to decrease the fat. Be creative and make changes one at a time. Try these suggestions: Instead of tuna in oil with mayonnaise, try water-packed tuna prepared with reduced-fat mayonnaise and save almost 200 calories. Replace 4 ounces of a heavily marbled steak with the recommended 3-ounce serving of lean eye of round and save fat calories. Try a mixture of nonfat plain yogurt and low-fat cottage cheese on a baked potato instead of sour cream or why not try lemon-pepper and green onions. You can save as much as 100 calories. The next time you order pizza, replace the pepperoni with vegetable choices or mushrooms and save between 50 and 100 calories per slice. Switch from whole to 1/2% milk. If you drink two glasses of milk a day, you will consume 1,250 calories less each week. Remember, 3,000 calories equal one pound.

These changes alone may not make a big difference in your diet, but when you start to add them up, you will see some results.
