Redistricting Preliminary Meeting Held

The Briscoe County Commissioners and a Citizens Advisory Committee met Tuesday, August 6, 1991 with Nick Olenik to begin preliminary planning on the redistricting of Briscoe County. Mr. Nick Olenik has been hired by the Briscoe County Commissioners to prepare the redistricting according to the new census figures. By redistricting each person is assured of being fairly represented in their county.

At present Precinct 2 has too many people according to the other precincts of the county. Each precinct should have an equal number of people if equal representation is to happen.

In the near future, public hearings will be held in this matter.

THEN & NOW!

by Eunice McFall

When was the last time you took a chance? Now by chance I do not refer to a dare-devil stunt—but just to take a chance and try something new, to take a chance and do something nice for someone, to take a chance and change the direction of your life or to take a chance and do something you have always wanted to do.

Everyday we live, we take many chances, chances of being hit by a car as we cross a street, a chance that the cotton crop we are depending on to mature to carry us financially through next year, gets hailed out, and many other such instances could be quoted. But if we lived in fear of all such chances, we would never get out of bed in the morning—

So when fate sends a good chance your way—do you grab it and go for a ride or do you crawl back into your safe little cocoon?

Now chance has a partner—if you take a chance, you are also held accountable for taking it. Many of us like the excitement and risk of the "chance" but we really balk when we have to take the responsibility for our actions.

Yes, chance can come our way daily but many of the chances we take, we never even think of and then some of those we think about, we procrastinate too long and lose the opportunity to take advantage of them.

What we really need is the wisdom to separate the good chances from the bad and the ability to take responsibility for the results of our actions with good grace.—Hard to do but well worth the effort. Quite a character builder—this standing up and being counted for what we have been responsible for!

So watch for your chance to make the right decision this coming week!

Canadians Impressed By Park, City's Friendliness

by Eunice McFall

Friday, August 2, 1991, a couple of very interesting young men were in Quitaque. Many miles they had traveled to arrive at Caprock Canyons State Park for a couple of nights visit.

Mr. Louis Rivest and his nephew, Sylvain Simard of Montreal, Quebec Canada ate lunch in Butler's Drive In. After driving to Turkey to purchase "cowboy boots" and "hats", they returned to the park for a long hike.

Mr. Rivest remarked that this part of the world reminded him of the tundra when he was working with the Eskimos. The fact that you can see so far is what he was referring to.

Mr. Rivest is a co-ordinator in the health and social service office in Montreal. Mr. Simard is an artist who sometimes helps his uncle out in the social service area.

They began their trip at the Great Lakes, toured Chicago, St. Louis, Memphis, Tenn., New Orleans and camped on Grand Island, La. From there they began their journey into Texas, Beaumont, Houston, Dallas, and on northward on 287. Caprock Canyons State Park was recommended to them in Houston.

They were very impressed with the friendly people in our town. After living in a city of over one million residents in an apartment house built in the 1800's, Quitaque was a very different atmosphere.

Mr. Simard did some charcoal sketches of the Caprock so that when he arrived home he would be able to catch the reality of the Canyons in oil.

While here they were treated to a buggy ride by Odis Reagan, through the cotton fields and grain fields, very different to bumper cars and festivals each week.

Notice of Effective Tax Rate (for use by counties)

1991 Property Tax Rates in BRISCOE COUNTY

This notice concerns 1991 property tax rates for Briscoe County. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

	General Fund	Farm to Market/ Flood Control Fund	Special Road/ Bridge Fund
Last year's tax rate:			
Last year's operating taxes	\$ 401,008	\$ -0-	\$ -0-
Last year's debt taxes	\$ -0-	\$ -0-	\$ -0-
Last year's total taxes	\$ 401,008	\$ -0-	\$ -0-
Last year's tax base	\$ 79,250,700	\$ -0-	\$ -0-
Last year's total tax rate	\$.506/\$100	\$ -0-/\$100	\$ -0-/\$100
This year's effective tax rate:			
Last year's adjusted taxes (after subtracting taxes on lost property)	\$ 401,008	\$ -0-	\$ -0-
+ This year's adjusted tax base (after subtracting value of new property)	\$ 78,892,843	\$ -0-	\$ -0-
= This year's effective tax rate for each fund	\$.50829/\$100	\$ -0-/\$100	\$ -0-/\$100
Total effective tax rate	\$.50829/\$100		

(In the first year a county collects the additional sales tax it must insert the following lines unless it made its first adjustment last year.)

- Sales tax adjustment rate	\$ /\$100
= Effective tax rate	\$ /\$100
* 1.03 = maximum rate unless unit publishes notices and holds hearing	\$.52353

This year's rollback tax rate:

Last year's adjusted operating taxes (after subtracting taxes on lost property)	\$ 401,008	\$ -0-	\$ -0-
+ This year's adjusted tax base	\$ 78,892,843	\$ -0-	\$ -0-
= This year's effective operating rate	\$.50829/\$100	\$ -0-/\$100	\$ -0-/\$100
* 1.08 = this year's maximum operating rate	\$.54895/\$100	\$ -0-/\$100	\$ -0-/\$100
+ This year's debt rate	\$ -0-/\$100	\$ -0-/\$100	\$ -0-/\$100
= This year's rollback rate for each fund	\$.54895/\$100	\$ -0-/\$100	\$ -0-/\$100
This year's rollback rate	\$.54895/\$100		

(A county that collects the additional sales tax (including one that collects the tax for the first time this year) must insert the following lines.)

- Sales tax adjustment rate	\$ /\$100
= Rollback tax rate	\$ /\$100

SCHEDULE B: 1991 Debt Service

The unit plans to pay the following amounts for long-term debts that are secured by property taxes. These amounts will be paid from property tax revenues (or additional sales tax revenues, if applicable).

The Valley school serves meals each school day. Children may buy lunch for .78-.80 and breakfast for .35. Children also may get meals free or at a reduced price.

If you now get food stamps of AFDC for your child, your child can get free meals. If your total household income is the same or less than the amounts on the Income Chart below, your child can get free meals or reduced price meals. A foster child may get free or reduced price meals regardless of your income. The reduced price is .40 for lunch and .15 for breakfast.

TO GET FREE OR REDUCED PRICE MEALS FOR YOUR CHILD, YOU MUST COMPLETE AN APPLICATION AND RETURN IT TO THE SCHOOL. WE CANNOT APPROVE AN APPLICATION THAT IS NOT COMPLETE.

HOW TO APPLY

If you now get food stamps or AFDC for the child you are applying for, the application must have the child's names, a food stamp or AFDC case number for each child, and the signature of an adult household member. If you are applying for a foster child, the application must have the child's name, the child's "personal use" income, and an adult signature. If you do not list a food stamp or AFDC case number for the child you are applying for, the application must have the child's names, the names of all household members, the amount of income each person got last month and where it came from, the signature of an adult household member and that adult's social security number or the word "none" if the adult does not have a social security number.

Verification: Your eligibility may be checked at any time during the school year. School officials may ask you to send papers showing that your child should get free or reduced price meals.

Fair Hearing: You may talk to school officials if you do not agree with the school's decision on your application or the results of verification. You also may ask for a fair hearing. You may do this by calling or writing:

Name Rusty Henson Phone: 455-1411

Address: Box 397
Turkey, Texas

Reporting Changes: If your child gets free or reduced price meals because of your income, you must tell the school if your household size decreases or your income increases by more than \$50 per month or \$600 per year. If your child gets meals because they get food stamps or AFDC, you must tell the school when you are not getting AFDC or food stamps for them. You may then fill out another application giving income information.

Confidentiality: School officials use the information on the application only to decide if your child should get free or reduced price meals.

Reapplication: You may apply for meals anytime during the school year. If you are not eligible now but have a change, like a decrease in household income, an increase in household size, become unemployed or get food stamps or AFDC for your child, complete an application then.

IN THE OPERATION OF THE CHILD FEEDING PROGRAMS, NO CHILD WILL BE DISCRIMINATED AGAINST BECAUSE OF RACE, SEX, COLOR, NATIONAL ORIGIN, AGE OR HANDICAP. IF YOU BELIEVE YOU HAVE BEEN DISCRIMINATED AGAINST, WRITE IMMEDIATELY TO THE SECRETARY OF AGRICULTURE, WASHINGTON, D.C. 20250

Pointers For Parents

Beware Of Health Hazard

Children in school may carry more than books with them. They may have head lice. Although this disease can occur any time, school days bring a higher incidence of head lice, when screening reveals an infestation. Head lice (pediculosis) most often afflict young children, and the long-term, emotional damage "can be enormous," says Julius Segal, Ph.D., a child psychologist and authority on stress from Bethesda, Maryland.

School children can suffer emotionally as well as physically from having head lice.

"Children who are stigmatized, for whatever reason, are less accepted by their peers. Classic studies of teacher expectations tell us that it only takes a subtle suggestion that you can expect less from stigmatized children, for teachers to change their perceptions and actual gradings of those kids."

Society doesn't just brand victims of the disease. It also blames them—unjustly—for having it, he said. The common myth is you have to be poor or dirty to get head lice. However, everyone is at risk. All it takes to get the disease is contact with the effects—or the head—of someone already infested. Children sharing hats, or huddling together, for instance.

If a child does get lice, effective over-the-counter products such as A-200 pediculicide shampoo can be used to kill the lice. The shampoo includes a special comb to remove all the nits (eggs). It's important to remove the nits so they do not hatch and reinfest the child, and also to avoid teasing from other children who see them as offensive.

Segal was one of eight head lice experts who met recently at Harvard University, under the auspices of SmithKline Beecham Consumer

Long Distance: What You Should Know

There's good news for consumers looking for ways to trim their long distance bills. While the difference between standard prices from long distance companies may be just pennies per call, long distance calling plans can save you a bundle.

According to the Telecommunications Research and Action Center (TRAC), many people could be saving 15 to 20 percent off their long distance bills, even if those bills run only \$10 or so a month. That's partly because many people still use standard service, especially if they chose their carrier several years ago. The calling plans introduced in the last few years offer significant savings opportunities.

You can sign up for a calling plan through the long distance company

Brands, to explore ways of managing head lice. Management, they said, is crucial. While most states don't require cases to be reported, panelists said the numbers are rising.

"In 1984, my state had 2,377 reported cases of head lice," said Irene Donnelon, a health program representative in the Missouri Department of Health. "In 1990, there were 12,616, and I'm sure that's just the tip of the iceberg." The National Pediculosis Association, meanwhile, says there are six to 12 million recorded cases a year, 72 percent of them contracted by kids aged 1-12. If the incidence increases, so will the overall medical bill. "The annual cost is now \$195 to \$650 million," said Gilbert Simon, M.D., a pediatrician from Sacramento, CA; and medical director of the Sacramento Children's Medical Clinic.

The panel agreed that more public education was one essential way to combat the ignorance and myths that keep pediculosis going.

that provides service to your home or small business. AT&T introduced the first calling plan, Reach Out® America, in 1984. Since then, MCI, Sprint and others have brought out their own plans and AT&T has expanded and enhanced its initial offerings.

There are several types of plans, but generally you buy a half-hour or an hour's worth of calls during certain times of the day or week.

Which plan works best for you depends on where, when and how often you call. If you dread analyzing your phone bills and calling patterns, there's help. With AT&T, for example, you can call 1-800-222-0300 any time of the day or night and a service rep will steer you to the calling plan that works best for you.

SERVICE CALLS LET US HELP YOU!

Pointers For Parents

If your son or daughter is going away to college for the first time, here are some ways to make it easier on yourself as well as your child.

• If your youngster has reached the age of 18 without ever using a laundry machine, a lesson or two might lighten the load on you and him.

• So would a cooking lesson, should he or she be living off campus.

• To make it easier for your Freshman to keep in touch, give MCI's "Personal 800" service which lets your child call you for free since calls are billed to your home at a single, low rate. With Personal 800, students can call home at their convenience from any telephone or payphone anywhere in the country without complex dialing—or using their own funds. The service is also good for anyone with elderly parents living far away.

• Finally, if your youngster has learned how to handle money, a credit card in his or her name would give you peace of mind. It might increase the number of visits home.

It might also be a good idea for you to develop a new interest. Though you may think you'll breathe a sigh of relief when your youngsters finally leave home, it's funny how much they're missed.

For further tips about sending your students away to school, write or call for MCI's free brochure, "Surviving Freshman Year...A Guide for Parents of College Freshman." Send a self-addressed, stamped envelope to: MCI "Surviving Freshman Year," Suite 1400, 40 West 57th Street, New York, NY 10019, or call toll-free 1-800-925-9925.

The word "bicycle" is a combination of a Latin and a Greek root: bis is Latin for twice and kylos is Greek for circle.
