Outstanding Program Planned For Chamber Banquet

A large crowd is expected for the second annual Quitaque Chamber of Commerce banquet that will be held next Thursday, April 19, at the Quitaque Community Center beginning at 7:30 p.m.

Heading the program will be Marshall Formby, prominent attorney and civic leader from Plainview, who will be principal speaker of the evening.

Mr. Formby is well known

throughout this area and across the state, and has been widely used as a speaker at important occasions over the years.

He is a former State Senator and served five years on the Texas Highway Commission in Austin, the last two years being in the capacity of chairman. He is due much of the credit for the network of fine Farm-to-Market roads in West Texas, for he is an advocate of a paved access for every farmer.

Mr. Formby is a graduate and booster of Texas Tech University and is a former member of the Board of Regents and the Texas Tech Coordinating Board. He recently gave the address at the fifty-year reunion of his Tech graduating class.

Entertainment for the evening includes musical selections by Jamie and Mary Johnson of Wellington. Jamie grew up in Quitaque and is well known for his musical talent. He and his wife, Mary, often perform for banquets and special occasions.

Quitaque is fortunate to have this outstanding program lined up, and it is hoped that everyone will make an effort to be present next Thursday.

Tickets are available for \$5.00 from Chamber members and at the First National Bank.

Mr. and Mrs. George Gafford went on a fishing trip to Lake Breckenridge last week and reported a good trip.

MRS. MARJORIE BOYLES

DAVID BRUNSON

Man and Woman Of The Year Announced At Quitaque

The honor of Quitaque Woman of the Year for 1984 went to Marjorie Boyles when she was presented an engraved plaque at the annual "We the Women" banquet on April 3.

Mrs. Boyles and her husband, Tate, moved to Quitaque from Amarillo in November 1978. Marjorie and Tate lived in Amarillo for 30 years where she worked as a long distance telephone operator for 20 years. Since moving to Quitaque she has been very active in both church and civic groups and is a member of United Methodist Church. Marjorie served as secretary-treasurer of Methodist Women and "We the Women." She also was chairman of the Finance Committee for Senior Citizens and is on the Building Committee for Senior Citizens.

Whenever there is any community function, Marjorie cheerfully helps with whatever needs to be done. She is a very worthy recipient of Woman of the Year.

David Brunson, a young man who was born and reared in Quitaque, was selected as Quitaque Man of the Year. David and his wife, Dianne, have operated Brunson Supply for the past six years. They have two sons, Derek, four years old, and Dustin, three years. They are members of the United Methodist Church.

After graduating from Quitaque High School, David attended Frank Phillips College, Clarendon College and West Texas State University. Since living in

Quitaque he has served as Lions Club President in 1981 and has been very instrumental in a good Firemen and Emergency Medical Technician program. He is currently Hose Captain for the Fire Department and has taken all of the training available in the Emergency Medical Technician program.

We congratulate David on this well-deserved honor!

**New Businesses
 Progressing
 In Quitaque**

When towns and cities nearby
 are closing doors, Quitaque has
 new businesses that are progres-
 sion daily.

The Caprock Home Center has
 been adding lumber, roofing
 products, lawn supplies, vacuum
 cleaners, and in another section
 of this Valley Tribune there is a
 big advertisement of the paint
 line which they carry.

The ladies who have opened
 Stitch 'n Such are carrying all the
 supplies or will have available
 soon, for the arts and crafts
 which so many area people are
 needing to complete their pro-
 jects. Many of these items have
 not been available in town
 heretofore. These include items
 for candlewicking, embroidery
 floss, applique kits, etc. Mrs.
 Murry Wayne Morrison and Mrs.
 Tom Loper have many gifts on
 display for baby showers and
 miscellaneous showers. They are
 planning a grand opening soon,
 but if you have not gone by and
 visited their shop, you are
 missing something. Their shop
 compares with the best in
 Plainview and other area towns.

**Restaurant To
 Open Under
 New Management**

Mrs. Faye Dudley and Mrs.
 Pinky Barrett have purchased
 Roye's Restaurant in Quitaque.
 They took charge Tuesday and
 the restaurant will be closed
 until Sunday for repair and
 cleaning. New ceiling fans are
 being installed, and other neces-
 sary repair being made.

They will be open Sunday
 morning for the breakfast run
 and the noon meal will be served
 buffet style. Special orders will
 be served to those who had
 rather not go through the buffet
 line.

The new restaurant will be
 operating under the name of
 "Friends."

The ladies invite everyone to
 come visit with them, and enjoy
 eating out.

Visiting over the weekend
 with the Harold Thrashers were
 their other grandchildren, Wade
 and Kim Cagle of Flomot and Mr.
 and Mrs. Randy Purcell of
 Silvertown and Travis and Shorty
 Kimbell of Turkey.

Patty Kimbell had surgery in
 Nichols Hospital in Plainview
 March 30. She spent a few days
 with Mr. and Mrs. James Kim-
 bell in Quitaque and on Monday
 night came to her parents home
 in Turkey. Her parents, Mr. and
 Mrs. Harold Thrasher, report
 she is doing fine.

Mr. and Mrs. Dwight McKay
 and son, Jody, of Amarillo spent
 the weekend in Quitaque visiting
 his parents, Mr. and Mrs. Lon
 McKay on March 31. Trent
 McKay of Quitaque and Dwight
 installed a dishwasher for their
 mother. Lon McKay had bought
 the appliance for his wife for her
 birthday on March 26.

**Good Crowd Turns
 Out For Banquet**

Laughter shook the walls of
 the Community Building on April
 3 when Wynon Mays, Hale
 County Extension Agent, enter-
 tained at the "We the Women"
 banquet. Ms. Mays gave an
 "Erma Bombeck" talk and
 brought the house down as
 everyone could relate to an antic
 as told by Erma Bombeck.

There was a good group on
 hand to pay honor to Quitaque
 EMTs, Firemen and City Council
 members. Joy Loper led in a
 group "sing-along" attempting to
 put a feeling of summer in the
 atmosphere as the area had been
 experiencing cold March winds

for so long. She also sang a solo,
 "If I Can Help Somebody,"
 characterizing the unselfish ser-
 vice performed by those being
 honored.

It was an enjoyable evening
 and gave those present the
 opportunity personally to thank
 the men and women for giving so
 generously of their time and
 efforts.

J. D. Nance of Rock Creek
 spoke at both services at the
 Quitaque Church of Christ Sun-
 day. He and Mrs. Nance were
 guests of Mr. and Mrs. Ralph
 Carter for lunch.

Daniel and Craig Thrasher of
 Canadian spent two weeks with
 their grandparents, Mr. and Mrs.
 Harold Thrasher in Turkey.
 Their mother was in Lubbock
 spending time with her mother
 while she was in the hospital and
 she also took care of her dad in
 Silvertown part of the time.

Edge of America

A barren beach — some plunging waves — and then for thousands of miles, the sea. Poets might think that way. But millions share the thought . . . this is the edge of America!

But the edge of our nation has been closing in. Within our restless society we have confronted a new edge of America — a shoreline of *freedom*, of justice, of mutual respect of men for one another and for their institutions. When you leave that shore behind, there is nothing . . .

Look rather at the *heart* of America. Look at the spiritual treasure which inspired patriots to crown religious liberty as the supreme freedom.

Each week our churches pursue their sacred mission. More and more they've been welcoming families like your own . . . folks who have seen the edge of America — and are seeking the heart!

Dana Ramsey Elected President of Wayland Student Government

Quitaque native Dana Ramsey has been elected president of the Student Government Association at Wayland Baptist University for 1984-85.

Miss Ramsey was named to the post by vote of the entire student body in a campus election held last week. She replaces graduating senior Joel Bratcher of Muleshoe in Wayland's highest elected student office.

The Student Government Association is the student voice in university affairs, interpreting student desires and needs to the administration. Pattered after the United States government with the legislative, executive and judicial branches serving to check and balance each other, the SGA is organized to facilitate efficient self-government, to establish and maintain good administrative relations, and to enrich student life and campus activities.

Composed of all regularly enrolled students at Wayland, SGA seeks to promote individual responsibility and respect for the rights of others throughout the student body.

Would you like to be able to go to a retreat like this when you are worried — a place where you could be alone with your thoughts — a place where you could untangle your problems?

If you would, then you are like most people. Everyone needs a retreat, at moments. And everyone has one! It isn't a mountain cabin or a seaside cottage — but it is a place far better suited to prayer and contemplation, a place to sort out old errors and make new resolutions. It is your place of worship.

Let it be your sanctuary. Go to it when you are troubled. You will find within its walls your moment of peace and you will walk out into the street again far better able to make the most of your life.

There has been a lot of talk about the new requirements set forth in a new curriculum adopted by the State Board of Education. When new requirements are discussed it is natural-

ly assumed that a great number of changes are being made to the already existing curriculum. The fact is, however, that a large number of our students, especially the lower elementary grades,

TO ALL TV VIEWERS

The pay movie channel is out for now. We have tried and tested the equipment of three companies and not one of them worked satisfactorily. When equipment becomes available that will work, a pay channel will be put on the air immediately.

In the meantime, we propose to add an independent station to the three network stations if we can raise enough money from non-paying customers to pay for this equipment. This Satellite station would have completely different programming than the networks. This would give viewers a much wider selection of programs to watch. We have ordered necessary equipment to add this channel to our station; however, if we fail in our effort to collect enough money to pay for this added service in the next two weeks, the order for this equipment will be cancelled. The first week of this drive we will insert spot announcements on your TV urging people to pay their TV dues and where. After a week or ten days, if this fails to bring in enough money, we will close down operation of the station until we do get enough money. To avoid this happening, just pay your TV dues **NOW** and enjoy the new channel at no increase in yearly rates. If you will do this for us, we will do the following for you:

Add a new XL-20 Translator to both Channel 4 and Channel 10 just like the one operating on Channel 7, at a total cost of over \$16,000.00.

Install new broadcasting antenna bays and equipment to replace the ones now in service. This will cost an estimated \$4,000.00.

This will give us a completely new up-to-the-minute TV station with four channels.

Only you can keep this from happening. By not paying your TV dues now, you can kill this deal completely. By paying now, you can assure good quality TV now and in the future.

You can pay in the following ways:

Send check to Valley Translator System, Box 372, Turkey, Texas 79261, or to Valley Translator System, Box 213, Quitaque, Texas 79255. Take check to Peoples State Bank or First National Bank and deposit to the account of Valley Translator System. Your name will be on the deposit slip and you will be given credit for amount deposited. You may also, at the bank, sign a draft authorization for monthly payments.

Dues are \$60.00 a year, \$33.00 for six months, \$6.00 a month by draft only.

VALLEY TRANSLATOR SYSTEM

will begin school next year and never notice much change at all.

As students advance in grades a more noticeable change will occur in the curriculum. The seventh and eighth graders will be affected to a greater degree than the lower grades but even still, there will not be much difference in the subjects now being taken. Each student in those grades will be required to take English, math, science, social studies, and physical education. Each eighth grader will be enrolled in computer literacy and every student in both grades must take enough electives to complete a minimum of 12 units (credits) during the two-year period. The 12-unit requirement equals the current practice at Valley.

One noticeable change in Junior High which may affect a number of students has to do with students who have difficulty in reading. According to the plan, any student in grades seven or eight who score one year or more below grade average on a standardized achievement test will be assigned to a reading improvement course. The student must take the course for the full year in place of an elective and all the other students will be enrolled in an elective course.

The word "elective" is a bit of a misnomer because it does not mean that a student has an option of several choices of courses to study. It does mean that a school has an option of offering several courses and that the student must take those courses in order to receive the required 12 credits. The electives which the school will offer will depend upon the available teaching personnel and working out a daily course schedule. Those courses which are approved for schools to offer in Junior High are speech, other languages, health, fine arts, typewriting, and vocational education.

The Board of Trustees has adopted a grading scale which will go into effect next school year. Any grade below 70 will be considered failing. Grades 60-69=D, 70-79=C, 80-89=B, and 90-100=A. Any grade less than 60 will be given an F.

Valley School welcomes Mack Seymour as a new member of the board of trustees. Mack was elected last Saturday along with Ronald L. Mullin and Deloy Myers and will serve three-year terms on the board. Other members of the board are Jim Saul, Murry Wayne Morrison, Jerry Morgan and Jarrell Rice.

In its election of board officers, Deloy Myers was selected to serve as president; Jerry Morgan as vice-president; Jarrell Rice as secretary, and Jim Saul was elected as second vice-president.

New Students—Jason and Jess Little have enrolled at Valley School. Jason is in the sixth grade while Jess is an eighth grader. They moved here from Texline along with their parents, Linda and Jess Little. Jess Little, sr. is the new pastor of First Baptist Church in Quitaque. Welcome to Valley!

FIELD TRIP TOPIC — Dr. Schultz describes the partial bone of a giant ground sloth to fellow lecturer, Roberta Speer.

Area's Icy Past Is Topic of Study For Three-Day Field Trip

A three-day field trip of some of the area between Estelline and Tulia with many stops in this area was conducted Friday, Saturday and Sunday. This year's trip was sponsored by the Bureau of Economic Geology in Austin and was led by Dr. Gerald E. Schultz, a geology professor at West Texas State University in Canyon.

The trip began at Estelline and headed west with 18 stops being made in and around Turkey, Quitaque, Silverton and Tulia.

Billy R. Harrison, curator of anthropology at the Panhandle-Plains Historical Museum, led the group on Saturday at the Lake Theo site at Caprock Canyons State Park. Harrison said the site was inhabited about 10,000 to 12,000 years ago.

"The people were hunting the big Ice Age bison," Harrison said. "The site has a bone bed of the Ice Age bison associated with Folsom points. These points (flint points) are the second oldest type recognized in America."

On the third day the group stopped to examine the area around a small butte located on the Mayfield Ranch near Silverton.

Roberta Speer of West Texas State guided the tour at Lake Mackenzie. She directed the archaeological research at the site in 1973-74 before the dam was completed. After the dam was finished, the area flooded and all sites were lost. She said the nine sites were totally or partially excavated and three were very important.

Many of those on the tour were guests at Turkey Hotel, according to Mrs. Gordon Bain, who provided material on the field trip.

Mrs. Gordon Montague and Mrs. Keltz Garrison of Plainview visited their sisters in Turkey last Monday. Mrs. Montague visited Mrs. R. C. Green and Mrs. Garrison visited Mrs. George Setliff.

Mr. and Mrs. R. C. Green visited in Lubbock Saturday with her sister, Mr. and Mrs. Chester Strickland, and his brother, Mr. and Mrs. J. T. Green.

Mr. and Mrs. Jack Wellman and children, Jamie, Richard and Ryan spent from Saturday until the following Wednesday of last week visiting his parents, Mr. and Mrs. Lloyd Wellman and Kenneth in Shallowater.

Lafayette was a major general in the U.S. Army at the age of 19.

Ten members and a guest, Jimmy Ross of Quitaque, were present in addition to Sweetheart Kaylene Green and her guests, D'Anna Smith, Karen Ramsey, Mary Dowd and Lori Clay.

Mr. and Mrs. Scotty Davis of Amarillo are the proud parents of a baby girl, Shelby Lee, born April 9, at 7:15 p.m. She weighed 6 lbs. 2 ozs.

1983—GREAT MEAT YEAR

The year of 1983 was the "great meat year," and the near-record levels of meat on the market shocked many economists.

While 1983 red meat production did not quite match records set in the mid-seventies, it was up substantially from the previous year and came close to the record high—only two percent short.

At the same time per capita consumption of meat and poultry set a new record of 209 pounds in 1983—up six pounds from 1982, points out an economist with the Texas Agricultural Extension Service, Texas A&M University System.

With even larger supplies of beef, slightly larger supplies of poultry, and fairly level pork supplies forecast for 1984, consumption could set another record.
