Otho Stubbs, famous local artist, gave a program on the early history of this area. He said the first cattle were brought into the area in 1879. Turkey was established in 1883. It was first called Badger but when they went to Austin to have the name recorded, they were told there was already a Badger in Texas, so it was called Turkey Roost and later shortened to Turkey. He told his listeners that the first bank was established in 1908 and was called Turkey State Bank. The wagon yard was owned by Lion Byron Young's grandfather, he said.

A delicious meal of barbecued chicken and all the trimmings was served by Mrs. Faye Armstrong.

Mrs. Ross Dies In Auto Collision; Mr. Ross In Serious Condition

The entire area was saddened Tuesday morning when two of its outstanding residents, Mr. and Mrs. Sam Ross of Flomot, were involved in a van-semi tractor-trailer collision. Mrs. Ross died in the accident and Mr. Ross is in serious condition at Lubbock General Hospital where he was taken immediately following the accident. He underwent surgery there Tuesday evening for repair of a broken wrist and contusions.

He remains in the intensive care unit.

Mrs. Shirley Lockhart Ross, 73, was pronounced dead at the scene by Justice of the Peace R. H. Ford of Lockney, after she sustained fatal injuries in the crash which occurred at 7:00 a.m. at the intersection of Ross Pit Road and Highway 207.

Sam Davis Ross, 77, driver of the van, sustained a broken wrist, cuts and abrasions from the collision. He was taken to Caprock Hospital in Floydada following the accident and later transferred to Lubbock General.

According to Department of Public Safety Trooper Doug Whitworth, who investigated the accident, a gravel truck being driven by David Kilpatrick of the Weaver Trucking Company of Odessa had pulled out onto the Highway 207 from the pit after failing to see the oncoming van. Whitworth said that a stop sign was at the intersection on Ross Pit Road, but that charges against the driver are still pending. The collision occurred 4½ miles north of Floydada.

Services for Mrs. Ross were scheduled for 2:00 o'clock Wednesday afternoon at the United Methodist Church in Quitaque, with the Rev. Sid Parsley of Crowell officiating, assisted by the Rev. Dennis Flaughter, pastor. Interment was in the cemetery at Flomot under direction of Moore-Rose Funeral Directors of Floydada.

She was very active in the church and "We the Women" organization and other civic affairs in Quitaque and the surrounding area.

She is survived by her husband; a step-daughter, June Ware of Floydada; a step-son, Jimmy Ross of Quitaque; a sister, Vivian Campbell of Amarillo; a brother, Peary Garringer of Yucaipa, California; and five step-grandchildren.

All fans are urged to attend the game and boost the Patriots!

Say hello to everybody.

The Superintendent's Corner

by Wilburn Leeper

The introduction of Chapter 75, which establishes new curriculum rules, has brought about a number of curriculum changes for Valley High School students. One such rule change has created an additional English course called Correlated Language Arts which is available to all ninth and tenth grade students. For this first year the school was required to offer the course for ninth graders only but within three years it must be available to all high school pupils.

The state law requires that all graduating seniors must have completed four years of English. The introduction of Correlated Language Arts made it possible for students to select their desired course of study from either English or Correlated Language. Correlated Language Arts is a basic English which is much less rigorous than the more advanced English courses. The program is designed to assist in selecting courses more suitable to the particular needs of students. Both courses will be acceptable for college entry but English better prepares the student for a successful college career.

Some schools are offering both courses together in the same classroom and are giving credit according to the course in which the student enrolled. Valley School is offering the courses in separate classes because this more nearly reaches the intended goals for each class and probably will be less confusing to teachers and students. Eventually, in three years, when the whole program is put into practice a total of eight English courses will be offered in high school.

This year's Freshman class will be graduating in 1988 under a 6.0 grade point system to determine the honor students.

Students who take advanced courses in English, Math, Science or Business will receive a higher grade point than other students who are satisfied taking a number of less rigorous subjects. The system is designed to reward students for enrolling in advanced or honors courses. If a student is looking forward to becoming an honors student (valedictorian, salutatorian, honor), then some attention should be paid to the grade point value of courses. Only the 1988 graduating class will be affected by the grade point.

Valley School now has 322 students enrolled and the largest class in the school is Kindergarten with 29. High school enrollment is 97 and the Freshman class is the largest with 28. Enrollment is larger now than at any time during the past school year and it is hopeful this can be maintained.

given by Mr. and Mrs. Albert Castillo, Rollie and Ricky Castillo and Susie Rivas, all of Quitaque, and Mr. and Mrs. Bob Pemperton of Bowie.

Mr. and Mrs. H. H. Vardell of Quitaque spent most of the summer vacationing and fishing, making their headquarters at Eagle Nest, New Mexico. They spent a month there, then returned to Quitaque for a time, then went back and spent a visit in Albuquerque, New Mexico, then back to Eagle Nest. Mr. and Mrs. Afton Teague of Amarillo spent two months with them there and Mr. and Mrs. O. E. Chandler spent a night enroute to Farmington, New Mexico.

They returned to their home in Quitaque last week reporting a very good, cool summer.

Local Youth Is Runner-Up For Regional Award

Larry Clay of Valley has been named a gold award winner in regional competition for the National FFA Fruit and/or Vegetable Production Proficiency Award.

He is the son of Joe Ike and Anna Beth Clay and is a member of the Valley High School FFA Chapter.

He became eligible for the regional run-off when he won the \$100 State FFA Fruit and/or Vegetable Production Proficiency Award sponsored by Briggs & Stratton Corporation Foundation, Inc., Milwaukee, Wisconsin. The award is one of 22 Agricultural Proficiency Awards pres-

ented annually at local, state, regional and national levels to recognize FFA members for achievements in activities leading to careers in agriculture.

This year's regional winner was Eric Hassel of Wenatchee, Washington who will receive a plaque, a check for \$250 and partially paid travel expenses to the National FFA Convention in Kansas City, Missouri in November. At the convention, Hassel will compete against three other regional Fruit and/or Vegetable Production Proficiency Award winners selected from each of the other three FFA regions.

Clay was presented a framed certificate recognizing his placing in the regional competition.

Mr. and Mrs. John Bowman of Silverton attended services at

the Quitaque Church of Christ Sunday.

Mr. and Mrs. Howard McKay of Kermit spent the weekend with his sister and husband, Mr. and Mrs. Shorty Woods, in Quitaque.

Mrs. Fannie Mae Lokey of Lubbock and Mrs. Charley Grundy of Quitaque spent a few days last week at Mrs. Lokey's home at Breckenridge. The ladies got in some fishing but they said the lake is so low that fish were not biting.

NOTICE

Energas Company hereby gives notice of its intent to implement new rates for domestic and commercial type customer classes residing in the unincorporated areas of its West Texas System. It is anticipated that the new rates will result in approximately a two tenths of one percent (.2%) increase in Energas Company's gross revenues, which increase is not a "major change" as defined in Section 43 (b) of Article 1446c, V.A.T.C.S.

A Statement of Intent to change said rates was filed with the Railroad Commission of Texas on or about September 21, 1984, and is available for inspection at the Company's Amarillo office, 301 S. Taylor Street. Further information may be obtained from the Railroad Commission of Texas, Gas Utilities Division, P.O. Drawer 12967, Capitol Station, Austin, Texas 78711.

The proposed increase will not become effective until or except to the extent that the same rates are approved for service within the municipalities on the West Texas System.

Newspaper Best Source Of Advertising

According to the results of the Texas Consumer Survey for 1984, newspapers pack a solid wallop for Texas business and residential communities alike—for outdistancing all other forms of communication.

This was the largest and the most comprehensive study ever conducted on readership, listening, viewing and shopping habits. There was 86.3 percent who read a newspaper every week with 87.6 percent of the readers reading the local newspaper and that many of the locals stating the ads in the local newspaper meant much to them.

USDA Announces 1985 Cotton Program

Secretary of Agriculture John R. Block has announced a 20 percent acreage reduction program and a 10 percent paid land diversion program for the 1985 crop of upland cotton.

Program signup will be October 15 through March 1.

Producers may request 50 percent of their projected 1985 deficiency payments and 50 percent of their 1985 diversion payments when they sign up.

USDA estimates the deficiency payment rate at 19.80 cents per pound. Advance payments to eligible farmers will be half that rate.

The land diversion payment rate has been established at 30 cents per pound. This is based on the per pound payment rate times the farm yield times the acres diverted. Advance payments will be one half of the diversion payment.

A producer who accepts an advance payment, but who later does not comply with program provisions, must refund the amount of the advance payment with interest plus liquidated damages.

Secretary Block encouraged cotton producers to participate in the 1985 program and help prevent stocks from rising to excessive levels.

To be eligible for program benefits, a producer must agree to limit upland cotton acreage planted for harvest to not more than 70 percent of the farm's upland cotton base and devote to acreage conservation reserve an acreage of eligible cropland equal to 28.57 percent of the 1985 planted acreage plus 10 percent of the applicable upland cotton base.

The 1985 target price is 81 cents per pound. The loan rate for the 1985 crop cannot be determined until after October 15. The statutory minimum loan rate is 55.0 cents per pound.

Other 1985 upland cotton program provisions include:

*The 1985 acreage base will be the average of the acres planted and considered planted to upland cotton in 1983 and 1984.

*Acreage conservation reserve acres must have been devoted to a row crop or small grains in two of the last three years. For summer fallow acreage, the cropping requirement is one of the last two years.

*Haying will not be permitted on acreage conservation reserve land. However, the acreage may be grazed except during the five principal growing months as designated by county ASC committees. Block said he has approved a standby measure authorizing, in the event of a natural disaster, implementation of emergency haying and grazing privileges. Approval of the emergency privileges would be made as needed on a county-by-county basis.

*Offsetting and cross compliance will not apply.

*Contracts signed by program participants will be considered as binding and will provide for liquidated damages in cases of failure to comply with program requirements.

*Resource loans will be available for seed cotton. The seed cotton will be adjusted to a lint basis and the loan rate applicable to lint cotton will be used.

CONNIE SMITH WINS SONG WRITING CONTEST

Rolling Plains Economic Program Meeting Planned

The 1984 annual meeting of the Rolling Plains Economic Program will feature a "Gambler" theme to address issues facing the agricultural family. The annual meeting is scheduled to be held October 5, 1984, beginning at 9:30 a.m. in the Vernon Regional Junior College Auditorium, according to Buddy C. Logsdon, County Extension Agent.

The day-long program will focus on solutions to problems facing agriculture and its families today. Featured speakers include Congressman Jack Hightower, "What the Cards Are," (Agricultural Policy Directions); Congressman Charles Stenholm, "What to Throw Away and What to Keep," (The Development of the 1985 Farm Bill); Dr. Zerle Carpenter, Director of the Texas Agricultural Extension Service, "When the Dealin's Done," (Challenge to Agricultural Families for the Future); Dr. Bill Dugas, Extension Agricultural Meteorologist, "The Secret to Survival," (Agriculture and Weather); Dr. Larry Cotten, Director, Vernon Center-South, "Readin' People's Faces," (Stress and the Family); Bud Leslie, District Director of Farmers Home Administration, "Never Count Your Money," (Financing Agriculture); and Robert Kensing, Extension Economist-Management, "When to Hold 'em and When to Fold 'em," (Economic Decisions in Agriculture).

The welcome will be given by R. C. Harris, President of the Vernon Chamber of Commerce. Norman Brints will introduce guests. Officers for the 1985 R-PEP year will be elected during the general business session.

Rolling Plains Economic Program is a regional organization sponsored by the Texas Agricultural Extension Service to promote economic growth and development and improve family living in a 30-county area. R-PEP Chairman Dick Yeager of Vernon and Vice Chairman Jim Schur of Seymour will preside over the meeting.

Registration begins at 9:30 a.m. in the lobby of the College Administration Building. Coffee and donuts will be available, furnished by the Vernon Chamber of Commerce. Those wishing to attend should pre-register at their local County Extension Office in the Hall County Courthouse. The \$7.50 registration fee includes lunch.

Yeager urges all people interested in agriculture to plan to attend. For more information, contact the local County Extension Office.
