The Patriots were led by the fine play of Chuck Martin, Jamie Cox, Ray Beavers, Rosendo Silva, Joe Silva, Kirk Martin and Lance Myers.

Coach Adams stated, "If we are to be successful offensively, our line has to do the job. We cannot pass or run if the line does not block. The linemen blocked very well against Claude Friday night."

Will Williams had 111 yards on 13 carries to lead Valley rushers, and was listed as an honorable mention for Player of the Week in the Amarillo Globe News Tuesday.

Eric Scoggins had 54 yards on 12 carries, Tommie Rodriguez had 44 yards on six carries, Freddie Ruiz took 24 yards on 11 carries, and Rosendo Silva hit six of six

Runaway Sign Sought in Quitaque

The "Yard of the Month" sign keeps disappearing each summer and this time it can't be found.

If you know the whereabouts of the sign, won't you please return it to We the Women.

This recognition is used to give people in the community the incentive to beautify their homes and yards. It takes a lot of effort to "build up" a community with people working together. It doesn't take much to "destroy" anything good.

Please help in locating the sign.

Immunization Clinic To Be Held At Valley

An immunization clinic offering vaccines that give protection against several childhood diseases is scheduled from 9:00 until 11:00 a.m. Friday, September 24, at the Valley School.

Protection is against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella and mumps. There will be no charge.

Mr. and Mrs. Tom Eudy were in Claude at the home of their daughter, Mr. and Mrs. Jack Fields and family, on Saturday. They celebrated Lindsay's third birthday.

Roy Davidsons Visit From Africa

Roy and Patsy Davidson, former pastor of Quitauque First Baptist Church, were guests over Labor Day weekend of Mr. and Mrs. O. R. Stark.

The Davidsons have served for the past 20 years as Southern Baptist Missionaries and are returning to the mission field of Swaziland, South Africa after spending a mini-furlough of two months in the United States. They were on furlough to attend the wedding of their daughter, Gay, who was recently married in Little Rock, Arkansas.

Quitauque will remember the Davidsons' other children who lived here. Guy, who is the eldest son, now lives in Charleston, South Carolina. He and his wife have four-year-old twin daughters. Gill is living and working in Forth Worth, and the youngest daughter, Gay, who was born in Africa, is a sophomore student at Hardin-Simmons University.

An outdoor barbecue was given in honor of the Davidsons on Saturday night with many out-of-town guests present. Attending were Rev. and Mrs. Bill Curry, Andrews; Mr. and Mrs. J. T. Rogers, Plainview; Mr. and Mrs. Murray Wise, Tammy and Brent, with their husband and wife, Marlin. Others present were Mr. and Mrs. Glen Ramsey, Mr. and Mrs. Grady Tyler, Mr. and Mrs. L. B. Monk, Mr. and Mrs. R. J. Harmon, Mr. and Mrs. Bruce Price, Dana Ramsey, Rev. and Mrs. Jess Little, Mr. and Mrs. Duke Woods.

On Sunday night the Davidsons presented a slide show and spoke of their work in the new field in Swaziland. This is new work which was begun two years ago when they returned to Africa after a year's furlough. Rev. Davidson said the way to begin a new work is "just to make yourself available." A new English-speaking church has been organized and they also have a radio ministry. A television ministry will begin after their return to Africa.

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION
NOVEMBER 5, 1985

PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of these bonds proceeds to be used for water supply loans and facilities expansion and with \$400 million of these bond proceeds to be used for water participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater. Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to manage grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to non-profit water supply corporations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, chloride control, recharge, chloride control, agricultural soil and water conservation, and desalinization, and to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than \$800 million in bonds, \$500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to \$1.3 billion in bonds, \$1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The Superintendent's Corner

by Wilburn Leeper

The 1985-86 school year is underway at Valley School and students at all grade levels seem eager to get started. The new state law which limits the starting of school before September 1 has created a one-week extension to the summer vacation and caused a number of school activities to start before school started.

The Texas legislature completed its regular session this summer and confirmed almost all its previous actions which were written in House Bill 72. One of the rules created by the bill has to do with student absences. The absence rule was in effect last school year and some students were affected adversely by its mandates. Parents and students are reminded just how much harm can be done to the student if they go beyond the limits of the rule. The rule states that a student may not be given credit for a class if the student has more than five days of unexcused absences during a semester. If such absences go beyond the five days he/she will fail the subject or grade. An "excused" absence is one which causes a student to be absent from school due to illness, death in the family, or is somehow related to an illness in the family. Except for very unusual circumstances, all other absences will be counted unexcused.

To insure that students receive credit for excused absences, each child must bring a note from home or doctor naming the reason for missing school.

Beginning this October, all students across the state of Texas who are enrolled in the eleventh grade class will be required to take an exit level test. This is a basic skills test in math and language arts that must be passed before these students receive a diploma their senior year. Seniors graduating this year will not take the test but all future eleventh graders must take the test and pass as a condition of graduation.

The Commissioner of Education commented this past summer that his best estimates concerning the number of students expected to fail the test would be about 25 percent statewide. Students who fail the test will have another opportunity to retake the test next Spring and then again next year.

Enrollment figures at Valley are very near last year's enrollment number. Total students enrolled this year for all grades is currently 314 for an average class size of just over 24. There are 223 enrolled in grades kindergarten through eight and 91 in high school. The largest class in school is first grade with 29, followed by kindergarten which has 28 students. The smallest class in school is the eighth grade which has 19 students while the eleventh has 20 students. All other classes range in size from 23 to 26 students.

If normal trends continue, the total school enrollment should climb to about 325 in October and then decline in the Spring.

Student insurance has been purchased to properly cover every student enrolled against accidents at school or for any school activity outside of normal school hours.

VALLEY SENIORS ELECT OFFICERS

The Senior Class of Valley High School elected officers for the 1985-86 school year. The officers are Will Williams, president; Chuck Martin, vice president; Devona Smith, secretary-treasurer, and Cynthia Fulbright, reporter.

GRIFFIN NAMED TO PRESIDENT'S HONOR ROLL

Russell Griffin was recently named to the President's Honor Roll at Texas State Technical Institute.

Inclusion on the President's Honor Roll requires a 4.0 grade point average on a 4.0 scale.

Griffin, son of Weldon and Billie Jean Griffin of Quitaque, is a computer electronics technology student.

No matter what anyone says, nothing is "just as good as a John Deere."

"And ours is just as good as a John Deere." How many times have you heard that? When one manufacturer is so clearly the leader, that's the ultimate claim any competitor can make. But when you put all claims aside, there's nothing like a John Deere tractor with Caster/Action™ mechanical front-wheel drive and 15-speed Power Shift transmission. No combine can match the productive efficiency of a Titan II. And the superior seed/soil environment created by Max-Emerge™ planters is literally legendary. But so is the dealer support that's provided with everything in The Long Green Line.™ Don't take our word for it. Ask anyone. We're happy to be judged by what we're known for.
