Elementary Teachers Hired For School Year At Valley

Three new teachers have been employed to teach in the elementary grades at the opening of the school year, and Mrs. Lemons has been assigned to teach Kindergarten. Mrs. Lemons taught one section of second grade last year.

Employed to teach the first grade is Susan Youssi. Miss Youssi is beginning her first year of teaching and is a recent graduate of West Texas State University. She is single and her home is in Amarillo. An education major, her minor was in Eng-

Body Found By R.R. Crew In Memphis

A 60-year old man, Alfred Joseph Martin, was found dead between the railroad tracks 10 miles southeast of Memphis about 4:15 a.m. Wednesday morning by one of the freight trains on the Burlington Lines.

Members of Hall County Sheriff Department and Texas Department of Public Safety Troopers investigated the death which is being considered an accident.

Apparently, the train crew which located the body was not responsible for the death. It is being considered that Martin had caught a ride on one of the coal trains and fell to his death beneath the train.

Attempts to locate next of kin have not been successful and Martin was buried in a local cemetery by Spicer Funeral Home at county expense.

(From the Memphis Democrat, 8-11-88)

Turkey G.A.S. To Have Party

Girls in Action of First Baptist Church will have an overnight party Friday, Aug. 19. Any girl in grades 1-6 is invited to come.

Meeting at the church at 6 p.m., girls are to bring sack lunches and sleeping bags, or blanket and pillow.

Hope to see you there!

lish. She has studied modern languages in French and Spanish, and has a BA degree.

Joy Whitaker will teach one section of the second grade this year. The other section will continue to be taught by Jacquelyn Ham. Mrs. Whitaker graduated from Texas Tech University with a degree in Education in 1985. She attended South Plains College and received an AA degree from the Levelland school in 1982. Mrs. Whitaker concentrated her college studies in the area of teaching of reading, especially reading problems. Coming to Valley with one year teaching experience, she is married, with two children, and lives in Flomot.

Jennifer Green has been employed to teach one section

of the third grade. She is single and comes to Valley with two years teaching experience. She is a graduate of Texas Tech, where she majored in Elementary Education with concentration in Elementary Reading. In addition to teaching experience, Miss Green gained experience in teaching of reading by assisting in the Texas

Tech Reading Lab which provides individual tutoring in study skills. She attended

high school in Amarillo and one year at Rhodes College in Memphis, TN, before coming to Texas Tech. Miss Green enjoys a number of hobbies and activities, including vocal music, reading, snow skiing, and sewing.

These three new teachers are expected to follow in the Valley tradition - providing the best possible education to our youngsters. We welcome Susan Youssi, Joy Whitaker, and Jennifer Green to the Valley community.

Valley Classes To Begin September 1

First day of classes for students of Valley School for the new 1988-89 school year will be September 1. Enrollment and registration is set for Tuesday, August 30, beginning at 9:00 a.m. and will continue until 12:00. Late registration will continue after 1 p.m. The usual school supplies will be necessary - paper, pencils, etc. - and teachers will notify parents of the need for any special supplies.

Teacher inservice training will start on August 23, and will continue on scheduled days until the first day of school. There is one teacher workday scheduled at the end of the first semester and one at the end of the school year. Teachers will be required to acquire one compensatory inservice day during the year to acquire the required eight days of inservice.

The school calendar scheduled 13 student holidays throughout the school year, beginning with Labor Day and ending with one holiday at Easter. The state requires that school districts schedule "Bad Weather Days" (two days) throughout the school year. The Valley calendar schedules one bad weather day on May 1 to give students a break at that time if the day is not used for school closing due to bad weather and the other day is scheduled for May 26. If necessary, the May 26 day will be used first. If

both bad weather days are used, then the school year will end on May 26. The school year is scheduled to end on May 25.

An Immunization Clinic will be scheduled sometime early in the school year, hopefully in September.

The first football game is scheduled for September 2, one day after school starts, with Valley playing Claude.

Homecoming will be early this year - September 16 at Happy vs Valley.

Lions Club Softball Tournament This Weekend

4-H Family Swim Party Tuesday

All 4-H members and their families and leaders are invited to a 4-H Family Swim Party on Tuesday, August 30, from 8:00 to 10:00 p.m. at the Silverton Pool.

After swimming, all 4-H's will be divided into their clubs and meet with their leaders to elect officers for the coming year and set their club meeting dates.

Parents and leaders will meet at 8:30 p.m. to plan activities and set dates of events for the 1988-89 4-H club year.

Families may bring snack food of their choice - brownies or cookies, chips, dips, ice cream, cake, sandwiches. Drinks will be furnished.

The 4-H program is open to boys and girls in the third grade to 19 years of age regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Tom West

Tom West Candidate For District Attorney

Tom West, currently serving as county attorney in Briscoe County, has announced he will be a candidate for district attorney of the 110th Judicial District in the November 8 general election.

West, who is involved in farming and ranching interests in Briscoe County, will run as a write-in candidate because there will be no names from either party on the ballot this fall.

The district is comprised of Floyd, Motley, Dickens, and Briscoe counties.

"I'm running for this highly important position because I'm sick and tired of criminals running loose in our area, who should be behind bars," West said.

"When a person is convicted of a crime I want them behind bars for the length of their sentence and not to be let loose on some technicality or fancy plea bargain deal.

"If elected district attorney, the saying 'law and order' won't be an empty slogan; because if they do the crime, and are convicted, I'll see they do the time in jail," West said.

He pledged to pinpoint the drug traffic saying, "as district attorney, the four counties I represent will be cleansed of drugs. Whether it be manufacturing, selling, or abusing any controlled illegal substance," he added.

West, who is a Democrat, pointed out the voters will have to take a few seconds longer to write-in his name, adding "but for a job this important I'm confident they will take that time to select the right person, someone like myself who will slam the jail door on the criminals."

A native of Lubbock, West

is a 1967 graduate of Texas Tech University and received his law degree from Baylor University in 1969. He has been in private practice of law in Lubbock and Silverton since that time. He became Briscoe County Attorney in 1987.

He has two children, a son, Greg, 17, and a daughter, Catharin, 13.

In addition to his affiliation with several law associations, he has served as a deacon in the First Presbyterian Church. He is a member of the Texas District and County Attorneys Association's legislative committee.

Valley Patriots To Scrimmage Friday Night

The 1988 Valley Patriots will scrimmage Highland Park at Clarendon Stadium Friday night at 7 o'clock.

Be sure to go and support the Patriots!

Six Turkey Girls Enter Pageant

The annual Miss Hall County and Jr. Miss Hall County pageant will be held Saturday night at 7 p.m. at the Memphis High School Auditorium. This year, they will also crown a Little Miss, and Little Master.

Local girls competing for the crown are Michelle House, Tina Clay, Shadi Mullin, Robyn Lane, and Samantha Stark.

In the Jr. Miss competition will be Audra House.

by **Thelma Gafford**

The other day I was reading "comings, goings, and doings," about the other long distance services, other than AT&T or GTE that cover our area. It stated an incident of tremendous overcharges that had made calls from a pay phone back to Quitaque and Turkey. I have to admit, I really didn't pay much attention to it at the time, but that very same day, I received a bill from a long distance service in Florida for a call made one year ago, supposedly from Quitaque to my home phone. The charge was \$4.75 for a two second call. I immediately went back and reread the article, and was outraged that this can happen to anybody, by any phone company. I called the toll free number to question the charges, and was told that last year this company was in the middle of a take-over of services in our area, and they were just now getting the billing out. They couldn't give me the time the call

was made, and agreed with me that the charge was extremely high, compared with AT&T and GTE, but that's the way it was. As luck would have it, this call was made on 9/01/87, that was the first day of school here, and no one in my family was in Quitaque that day. I even questioned the 2 second charge, pointing out to her that the average ring of a phone is 5 seconds apart, so my phone wouldn't have had time to ring.

To make a long story short, she asked me if I would be satisfied if she marked the account as an error in billing. I assured her I would, and hope I never got her company again.

Since then, I've had several people tell me they have received bills from the same company. I hope you all get yours worked out too. I hope mine is worked out!

I would like to commend the First National Bank of Quitaque for alerting us of the Coming, Goings, & Doings of our communities, because if not for them, I wouldn't have known about this rip-off. If you use a pay phone, be sure to ask the operator to identify her company, then you make the choice of the long distance service, not someone else.

Educational Programs On New State Pesticide Law

Educational programs to acquaint agricultural employers and laborers with provisions of the state's new Agricultural Hazard Communication Act are being conducted by the Texas Agricultural Extension Service.

Commonly referred to as the "Right-to-Know Act," the measure was enacted by the legislature in 1987 to promote the safe use of pesticides and protect the health of farm workers, farmers and farming communities, explained Bob Robinson, South Plains District Extension director.

Proposed regulations of the provision have been drafted by the Texas Department of Agriculture. The law requires the TDA to develop and conduct training programs in selected counties, based on population, and the Extension Service to conduct training in all other counties.

TDA has designated 21 counties in which it will conduct training. Among these are: Castro, Dawson, Floyd, Gaines, Hale, Hockley, Lamb, Lubbock and Terry.

In other counties of the High Plains, Rolling Plains and Panhandle, the Extension Service is conducting programs to inform employers of their responsibilities, and to emphasize to workers safety and health aspects of working in fields and areas where

pesticides are used to produce agricultural commodities.

The law applies to agricultural employers who:

*Hire emigrant or seasonal workers with a gross annual payroll of \$15,000 or more, and who annually use or store 55 gallons or 500 pounds of any pesticide; or

*Hire permanent agricultural workers with a gross annual payroll of \$50,000 or more, and who annually use or store 55 gallons or 500 pounds of any pesticide.

Employers in these categories must provide relevant crop sheets for the commodity being grown, and ensure that these are read aloud to each farm laborer, in the most understood language, at least once each growing season.

Crop sheets are regional documents which list the pesticides used on that crop in that region; the time of year in which they are used; re-entry intervals, or the time which must elapse following pesticide application before workers can re-enter a field; and health effects and precautions which should be exercised by the worker.

In addition, employers covered by the law must maintain a workplace chemical list which records information about pesticides used or stored in the workplace, and a material safety data sheet (MSDS) for each pesticide purchased. These documents are to be made available to workers or their representatives, on request.

Clarendon College To Offer Five Courses Via Television

Clarendon college will be offering five courses via television this fall for the first time in its history. Freshman English, American History, American Government, Introduction to Business, and General Psychology will be broadcasted over Channel 2 (non-cable) and TCA Cable Channel 3 in Amarillo. Interested students should consult their local cable companies to determine on which channel KACV-TV will be broadcasted.

These courses are equivalent to on-campus courses and are fully transferable. Clarendon College is planning three registration days, August 24-26. Students may sign up for TV courses at the registration office on the campus of Clarendon College on these days. Students will be required to come to a general orientation session at 7:30 on Monday, August 29. The first televised course will begin on Monday morning, August 29.

Exams will be given on three or four dates during the semester. Students must come to campus for the exams. For more information about the viewing times, on campus meetings, support-

instructor names, or costs, please come by the registrar's office at the main campus or Pampa Center of call 1-806-874-3571 in Clarendon or 1-806-665-8801 in Pampa.

A garlic press can be used to pulverize foods too small to put in a blender.

Lela Mae Hutcheson and Ruth Hooks were in Lubbock Tuesday of last week.

Mr. and Mrs. Dick Taylor visited Sunday in Panhandle with Dan and Barbara Duncan and DanRay and Nikki Duncan and families.

Social Security News

By Terry J. Clements
For many years, Social Security assumed that a beneficiary would receive benefits by check through the mail. From now on, if you are applying for benefits, Social Security will assume that you want to have your benefits paid directly into your bank account.

The step is a result of technological improvements which make the electronic transfer of funds a great deal more efficient than the paperwork involved in the old method. As a result, the Treasury Department no longer requires that beneficiaries complete an authorization form at their financial institution for their deposit. Now, during the initial claims interview, the Social Security representative can input their request for direct deposit directly into the computer and start the direct deposit process along with the processing of their claim.

Direct deposit has been around since 1975. Today more than 48 percent of Social Security beneficiaries have the service. Most people chose it as a matter of convenience. It eliminates waiting at the mailbox for the check to come, waiting in line to cash a check, and the risk of loss or theft of the check. The convenience is especially important to disabled and elderly beneficiaries whose mobility may be limited. But it has

also become the choice of people who appreciate the convenience of not worrying about their check when they are away from home.

Direct deposit is a more cost-effective method for the Government. It eliminates the cost of storage, handling, or postage for checks. The Treasury Department spends only 4 cents to issue a direct deposit benefit, and about 29 cents to issue a check.

People who are already receiving their benefits by check can arrange for direct deposit simply by calling the nearest Social Security office with their checking account or savings account number. Social Security can arrange to have their checks routed directly to their accounts.

For more information, or to file a claim, call 293-9623.

Remember - Safety First Around Electricity!

Enjoy a safe summer while working in your yard by following these safety tips.

- Use only properly grounded electrical equipment and replace all worn and damaged cords.
- Never use electric tools in rain or on any wet surface.
- Keep electric cords clear of your working area.
- Keep ladders or long-handled tools clear of power lines. Even wooden ladders can conduct electricity.
- Be careful when digging. Call your Local WTU Office to locate underground power lines in your area.

PLANE HERE THIS WEEK TO DUST-SPRAY COTTON

A plane will be in Quitaque this week, in fact two planes, equipped for spraying and dusting cotton, and the material needed for the work is available here now. Farmers are urged to take precautions now against Boll Worms.

TOURNEY IN PROGRESS AT QUITAQUE GOLD LINKS

The golf tournament at the Caprock recreation and Golf club, Quitaque, got underway this week and several matches have been started.

In the Championship flight Gus Gibson is leading C. Alexander; Hubert Gilbert is leading Earl Morrison, in a close match, the most exciting thus far; and George Owens and A. Brown are scheduled for a match (as soon as they can get around to it).

In the first flight to date, Garrett Morrison is leading W.C. Weathered; Gaston Owens and Joe Bedwell are all even; H.B. Settle is leading Dee McWilliams; Glen Gibson is leading J.E. Simpson; Roy Burgess is leading Bert Grundy.

Matches not yet played in the first flight are Murry Morrison vs. Marvin Tracy; C.C. Ham vs. Edgar Morrison and J.T. Persons vs. J.P. White.

From the files of the Turkey Enterprise, August 19, 1948

TURKS PRACTICE FOOTBALL IN COOL RED RIVER N.M.

Twenty-four 1948 Turkey Turks boarded a large school bus and took off for Red River, New Mexico where they will spend 10 days in practice.

Among them were Dr. Achor, Buck Hale, driver, Coach Porter Willis, Edmond Harris, Frank Hedrick, Jay Eudy, Alan Setliff, Guy Paul Smith, Harold Wheeler, Ben Wiley, Doyle Lacy, Leroy Parker, Joe Bob Barnhill, Bruce Garner Gibson, Norbitt Mullin, Billy Frank Guest, Dickey Young, Leroy Weatherly, Jack Logan, Bob Lane, Bob Russell, James Studer, and Tommy Russell.

Also Johnny Powell, manager of the trip, and Jimmy Guest, asst. coach. The trip was made possible by donations from the merchants of Turkey.

OBITUARIES

Emmett Arnold, 71; Virgil Lee Lewis, 51; John S. Rucker, 69.

DOC YOUNG INJURED

Doc Young was doing some work around his place, and tried to pull us a small post by hand, pulled too hard, and busted two ribs.

He was treated, taped and released at the Matador Hospital.

RECENT WEDDINGS

Miss Patti Clariece Mohon became the bride of George Wilk Woodley in Dallas.

Lockett Payne and Mrs. Lillie Watkins were married by Buster Mullin last Wednesday.

Otis Dean Purcell, son of Mr. and Mrs. Otis Purcell of Quitaque and Miss Margie McKay, daughter of Mr. and Mrs. Lon McKay of Turkey were married Monday at Childress by Rev. Cole.

Dental CARE HINTS

Facts from the Princeton Dental Resource Center

By Marilyn Miller DDS
Have you taken a large bite from the tree of knowledge about tooth care? Taking this quiz may help.

- The almost invisible, soft, sticky, bacteria-produced coating that constantly forms on everyone's teeth is called--
a. tartar. b. plaque.
 - The process of calcium and phosphate leaving the tooth over a period of time and resulting in cavity formation is called--
a. Demineralization b. Remineralization
 - Oral enzymes are salivary substances that--the breakdown of starch
a. delay b. hasten
- Answers: 1. b. Plaque. 2. a. Demineralization--remineralization is the uptake of calcium and phosphate from the saliva into the tooth. Fluoride helps in this process. That's why everyone should have systematic fluoride, and brush twice daily with a fluoride toothpaste. 3. b. Hasten--Salivary amylase is the enzyme that breaks down cooked starches into simple sugars in the mouth. These sugars can then be used by bacteria to produce acid.

Frederick the Great always insisted his coffee be made with champagne instead of water.

Wedding Shower Honors The Franklins

A wedding shower honoring Thomas and Rieta Franklin of Childress was held Sunday afternoon, August 7, in the Fellowship Hall of the First Baptist Church in Turkey.

An arrangement of peach-colored flowers centered the table where punch and cookies were served to the guests.

The couple received many useful gifts including several small appliances, linens and wall decor.

Hostesses for the occasion were Ora Lee King, Gladys Hanna, Colleen Stone, Guyretta Clinton, Jo Lacy, Mary Beth Adamson, Izell Proctor, and Dolores Price.

Their gift to the couple was a blender, can opener and an electric skillet.

Out of town guests included Mrs. Cordye Hood, Mrs. Nelda Ferrell and Miss Amber Ferrell, all of Estelline, Peggy Garvin of Silverton and Dara Ware of Lockney.

Some wine will spoil if exposed to light; hence tinted bottles.

Mrs. Ruby Cushenberry Enjoys California Trip

On Friday, August 5, Ruby Cushenberry started the adventure of her life, when she went to Amarillo to visit her son and daughter-in-law, Layne and Betty Cushenberry.

For her birthday on August 20, the three of them flew to California -- where they viewed beautiful, historic sights in Oakland and San Francisco: the Golden Gate Bridge, Alcatraz, and China Town, Telegraph Hill and Nob Hill.

A visit to the vineyards, wineries, and lumber mills of Southern California, and to a gift shop built up in a redwood tree were exciting for Ruby.

A visit with W. C. and Marie Eddleman (Ruby's brother), in

Tips To Battle The Back-To-School Blues

It seems summer has just begun, yet, it soon will be time to begin thinking about getting the kids ready for the coming school year.

This year don't panic! Knowing how to handle a Back-to-School shopping spree for your child can make the trip a pleasant adventure for both you and your child. A nationally syndicated columnist and author specializing in the subject of child-rearing, Dr. Linda Albert and JCPenney have developed a list of ten ways to Battle the Back-to-School Shopping Blues:

- Try on last year's fall and winter clothes to see what still fits. Take an inventory of needed purchases. If your children are old enough, let them help you with a wish list. Then decide on a budget before you go so they know costly "must have" items means sacrificing others. Popular on the wish list are stonewashed jackets, miniskirts and jeans from JCPenney.
- Teach your children to recognize quality and durability in fabric and how to care for the item. Even small children can learn what feels soft or itchy, warm or cool, strong or fragile.
- Shop for the most important articles early in the season, when the selection is best. Your children are more likely to wear the items they are happy with, so the higher prices will be worth it in the end. Bargain hunt later during sale sea-

son for basics like socks and T-shirts.

- For children under 10, you select--kids choose. Assemble a selection of items that are acceptable to you in terms of style, durability, practicality and price. Let the kids make the final choice from this selection.
- Don't fight the fads, remember that every generation of kids dresses differently. Forcing your fashion preferences results in a closet full of unworn clothes. Allowing children choices will also develop their individual sense of style.
- When you have to say no to a particular item, try to give alternatives. If he can't have the designer sweats, point him toward his favorite color in a similar look of private label fleecewear. Stores such as JCPenney carry a wide variety of national and private labels.
- When your child insists on a high-priced item, compromise by

putting down the amount you'll pay, and let the child make up the difference with savings or household chore earnings. Or buy fewer expensive items and stretch their usable life by dressing them up with accessories.

• Try to educate, not control. Teach children to wear colors and styles that flatter them, and stress the importance of fit. Have children stretch, sit and squat in the clothing and ask how it feels.

• Praise your child when they make wise choices in matching outfits or selecting quality items. In young children, develop confidence in making the right choices by cutting out pictures from the JCPenney catalog and putting different outfits together. Talk about colors and how to mix and match patterns. This will help children prepare for school on mornings you're too busy to supervise.

• Make the shopping trip a special treat by taking each child separately when possible. Shopping with each child alone is a high-quality time for the two of you. Two hours is the maximum time you should spend to avoid frayed nerves on both sides. Department stores offer a large assortment of merchandise for time-saving one-stop shopping. Finish the trip with a special treat; you both deserve it!

The largest bowling alley in the world is the Tokyo World Lanes Bowling Center with 252 lanes.

LOST

LOST: Small black and white dog named SPOT. The little dog was always with Steve Farley. Reward offered for his safe return. Last seen on Monday night, Aug. 8. Any information on the fate of our pet is welcomed. 423-1356. 11-1p

Clothes Dryers

When using automatic dryers, better results—and greater energy efficiency to boot—can result from the following tips:
• Sorting: it's safe to combine clothes that you've washed together.
• Don't overload: this increases drying time (and your energy bill). If you feel your dryer load is too small, the home economists suggest adding a few towels to the load, to help tumbling action.
• Clean the lint screen after each load, to diminish linting and increase energy efficiency.
• Vent the dryer according to installation instructions, for safety's and comfort's sake.
• Avoid over-drying, which can cause shrinkage, wrinkling, and harsh-feeling clothes.
Proper drying techniques can save aggravation by keeping that freshly laundered look longer, so that you can meet your busy schedule, and look great doing it.

DPS Reminds Everyone Of Back To School Safety

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety, wants to remind everyone that the summer vacation will soon be over, and thousands of youngsters will be starting back to school, many of those for the first time.

So, once again, we will be seeing those big yellow school buses back on the streets and highways. The Texas Department of Public Safety wants to remind you that Texas law prohibits the passing of a stopped school bus that is loading or unloading passengers when the lights are flashing. If you are in doubt - stop - those few moments you lose may mean a lifetime to some youngster. None of us wants to be responsible for the death or injury of a young child, so remember to slow down in the school zones in the mornings and again in the afternoons.

Major Cawthon stated, "Just because most of the children will be in school, we must not forget the preschooler who will still be playing in the residential areas. Remember, slow down as you are driving through school zones, playgrounds, and in and around school areas."

Drive as if you had a child there - because someone has!

Education News & Notes
Interested in getting your children in the letter-writing habit? The National Education Association offers the following tips to help parents encourage letter-writing by our nation's youngsters.
• Have your children write thank-you letters for gifts they receive.
• Let children write and send invitations to birthday or other parties.
• Encourage your child to write and draw cards to send to relatives and friends for birthdays and holidays. A child's handmade card is often a cherished gift.
• Promote all types of letter-writing and set a good example. Let your children know you write letters regularly: letters to the editor, letters for information, letters for travel brochures, letters of praise or complaint to businesses, letters for free samples.
In short, WRITE, right now!

Caprock Comments

The Republicans now have their theme all set to the tune of Dixieland Music from New Orleans and Bush-Dukakis are at the starting line for the Marathon of the next three months... We'll see more elephants and Jackasses and hear more unnecessary rhetoric for the next 75-80 days than we really want to hear or see, all in the business of electing a President for the next four years, and at a cost of some 60 to 70 million bucks which will be paid by you-know-who in the final accounting. There should be a better way and a cheaper way to obtain an unknown product. Most all of us would exercise much more caution and guarantees if we were buying an automobile, refrigerator or a family toaster for the kitchen. Maybe that's the reason we're in the red for some 3 or four trillion!

The Town Loafer says he ran for office one time... said he overslept and missed the bus!

All the candidates for public office from the smallest to the greatest have one real purpose in mind... that's to perpetuate themselves in office!

And: they have a better chance of doing that than the average family farmer has in staying on his farm and making a living and paying his debts!

Still, we leave it up to the Yankees and Rich folks to tell us how to run our business!

Big news in the musical world... the president of a Rock Group's Fan Club is learning to read!

They've changed an old saying... "A man's home is his lending agency's castle!"

Northpark Sam says he swore off of cigarettes and the more he was off them, the more he swore!

About the time we reach the crossroads of life, the light turns red!

The reason that Dan Rather and some other newscasters don't get along is because of personality conflict... Rather has one!

The Candidates have a real incentive to do well in their upcoming debates... the winner will get a big hug from Sammy Davis Jr.!

If they speak on only the issues which are familiar to them, we should expect some very short debates!

They are trying their best though, to keep up with the issues... neither of them ever miss the Johnny Carson monologue!

One comforting thought though is that on the first of September, kids return to school and the teachers return to their jobs and mothers will return to sanity!

They say that Dukakis can swim 22 laps across his swimming pool in less than an hour... of course, they say, he will do much better than that when it's filled with water!

George Bush and Bob Dole would make an interesting team... according to the Democrats, it would be "Dole and Dull!"

Delegates who demonstrated for Jesse Jackson have one consolation... they've been invited to participate in the Rose Bowl Parade!

That's -30- for this time, remember, Reagan will return to his ranch, and start naming cowchips after Democratic candidates!

IT'S A FACT!

Upper respiratory symptoms are a year-round problem for Americans. Researchers have found that in addition to about 100 million illnesses caused by colds each year, approximately 15 percent of the population suffers from allergies. Another 6 percent have hay fever. The good news is that a new non-steroidal over-the-counter drug offers relief from sinus headache pain as well as cold and allergy symptoms.

CREATIVE COOKING

When summer's heat wave has you searching for light and easy-to-prepare recipes, try Tarragon Chicken Salad.

TARRAGON CHICKEN SALAD

- 4 small avocados
- Crisp salad greens
- 2 cups cooked diced chicken
- 2 firm, small Dole Bananas, peeled, sliced
- 1 Dole Orange, peeled, sectioned
- 1 green bell pepper, seeded, diced
- 3/4 cup mayonnaise
- 2 teaspoons spicy mustard
- 1 teaspoon red wine vinegar
- 1 teaspoon tarragon, crumbled

Halve, peel and seed avocados. Place on 4 salad plates lined with salad greens. In a bowl, toss together chicken, bananas, orange and bell pepper. Fill each avocado half with chicken salad. Garnish with additional fruit slices if desired. In a bowl, whisk together remaining ingredients. Serve dressing with salad. Serves 4.

For more terrific recipes, write to Dole, Dept. FB/M, P.O. Box 7758, San Francisco, CA 94120. Courtesy Dole.

EYE ART

Tips And Trends From The Aziza Eye Art Studio

Lining Up The Right Eye Look

My, what big eyes you have—or don't you? If you feel your eyes are too small, open them up by applying a neutral shadow over the entire eye. Blend a deeper tone into the crease, taking it from the inner corners and blending outwards and upwards. Use a highlighter on the browbone where the brow naturally arches. Line eyes close to lashline, on outer 3/4 of top and bottom lids, blending outwards to lengthen the eye shape. Finish with colored mascara to lengthen lashes and open up the eyes.

A new and innovative liner combines the control of a pencil with the rich drama of a liquid liner. The new Aziza Perfect Performing Penliner has a flexible nylon tip that glides on luxurious color smoothly and evenly, in lines ranging from fine to bold. The applicator is designed to be held close to the eye for maximum control and mistake-proof application—a "close contact" feature that gives you rich depth of color in just one stroke. It's smear-proof, removes easily with water and comes in six fashionable shades. Like all the company's products, it's scientifically developed and tested to be hypo-allergenic.

Lines from Lynda

By Linda Fogerson Briscoe Co. CEA-HE

PULLING TOGETHER

We all have to wear many hats in a rural community in order to get things done. The successful Briscoe County Celebration and its related events is evidence of what can be accomplished when we all work together for a common goal.

Community development experts tell us that the key ingredient in progressive communities is the "sense of community" or common thread that pulls everyone together. People who work together for the good of all, rather than for their own individual recognition, are critical in building a strong community.

I recently participated in a technical course on "Revitalizing Rural Texas" during our state Extension conference in College Station. I had the opportunity to hear outstanding speakers from a chamber of commerce, the Texas Department of Commerce, the Small Business Development Center, Small Business Administration, Technology Business Development Division, and Extension specialists in economic development, business management, and tourism development.

The bottom line is that there is no ONE PERFECT solution for revitalizing rural communities. It requires a combination of work to start new business or attract industry, develop the tourism potential, support and improve existing businesses, and improve the looks of a

community and its services. One area alone will not be adequate.

Strong leadership is also necessary. We are fortunate in Briscoe County to have a number of hard-working, dedicated, community-minded, unselfish community leaders, but we need more. Leadership development is a critical issue in the county. The Extension Family Community Leadership team is working to address this need.

Each individual needs to be dedicated to working with others within their community and in cooperation with all residents of the county to analyze our strengths and capitalize on them and minimize our weaknesses.

Those who can only look at change in a negative way or from the selfish standpoint of how it will affect them individually rather than what is good for the majority can do great harm to any community development efforts.

Let's keep up the cooperation we had in promoting the County

Celebration and channel this energy and enthusiasm into other community improvement efforts.

For additional community economic development information call the County Extension office of the Texas Agricultural Extension Service at 823-2131, Ext. 12 or come by the office in the courthouse basement.

COOKING

Barbecued Chicken

- 1 can (20 oz.) Dole Crushed Pineapple
- 1 cup bottled barbecue sauce
- 1 (3-pound) fryer chicken, cut up

Drain pineapple. Combine pineapple and barbecue sauce. Arrange chicken in shallow casserole dish. Pour sauce over chicken. Cover, refrigerate overnight, or at least 1 hour. Remove chicken from dish. Bake chicken in 350°F oven 45 minutes. Heat remaining sauce to boiling and serve with chicken. Serves 4.
