VOLUME 26 NUMBER 37

VALLEY PATRIOTS—[left to right, back row] Jamie Cox, Kirk Saul, Kirk Martin, Chuck Martin, Will Williams, Rosendo Silva, Buster Beavers, Coach Adams; [front row] Steve Price, Brandon Smith, Laurie Harp [Manager], Sandra Lipscomb [Manager], Denice Bynum [Manager], Matt Barrett, Eric Scoggins.

Patriots Are Bi-District Champs!

The Valley Patriots went to Olton Friday night to win and they took the Bi-District victory over Happy 63-50.

Those who saw the game report it was nip and tuck until the last few minutes when Coach Adams sent Jamie Cox into the game to guard Happy's top tall

Trustee Election To Be Held Soon

An election will be held April 5, 1986 for the purpose of electing two trustees to the board of trustees of the Turkey-Quitaque ISD. Deadline for candidate filing is March 5. Applications for filing are available at the school business office.

The election will fill positions currently held by Jarrell Rice and Jerry Morgan.

Merrell Catches Calf at Houston

Mr. and Mrs. Warren L. Merrell received a telephone call from their son, Warren Wayne, Monday night and he reported to them that he had caught a calf in the scramble at the Houston Junior Livestock Show.

There were 24 calves released and 12 boys. Warren Wayne caught and held him under his arm until the calf quit struggling.

A full report of those who participated in the Houston Show will be in the Valley Tribune when Ag Teacher Jon Davidson and the students returned home.

boy who had been hitting the basket every time he got the ball. Jamie stopped him and the Patriots went on to win.

With the Sick

Mrs. Leon McCracken reports that her brother, Ordis Chandler of Dallas, suffered a heart attack Monday of last week. He is in Baylor Hospital there in intensive care.

His son, Jerry Chandler, is in the same hospital in the Truitt Addition. He is pretty sick, too, she reports.

Mrs. Olive Owens of Plainview, a former Quitaque resident, has been very ill for over a week with bronchitis and complications. Her daughter, Mrs. Olen Lane of Pecos, and another daughter and husband, Mr. and Mrs. Bill Ebbs of Lubbock, her daughter-in-law, Lottie Owens of Quitaque, and her grandson, Eddie Owens of Plainview, were all with her Sunday. Her two daughters took her to the doctor again Monday and will take her again Thursday. Mrs. Lane planned to remain until Friday and will return home if her mother is improved.

Mrs. T. J. Reeves of Plainview, mother of Mrs. Bud Bailey of Quitaque, received a bad fall at the Heritage Home in Plainview Sunday morning. She received cuts on her arm and shoulder and hurt her hip but she was taken to the hospital and x-rayed and no broken bones were found.

Scores by quarters with Valley on top were 18-14, 31-28, 45-38 and 63-50.

Scoring for Valley were Will Williams, 22; Kirk Saul, 18; Jamie Cox, 6; Buster Beavers, 8; Kirk Martin, 4; Matt Barrett, 2, and Rosie Silva, 1.

Valley and Sudan played Tuesday night at Wayland Baptist University's Hutcherson Gym, with the game beginning at 7:00 o'clock. Sudan defeated Whitharral to advance, and their season record was 21-8 while Valley's was 27-3.

Valley came home victorious from this contest, and will play in the Regional Tournament at Levelland February 28-March 1. The first game will be with the winner of Phillips and Wheeler with game time at 7:00 p.m.

At presstime, it appeared that the Patriots would play Phillips Friday night at Texan Dome at South Plains College in Levelland in the first round.

The score between Valley and Sudan Tuesday night was 69-49, with Valley playing real well throughout the game.

By quarters, Valley led 15-8, 30-19, 49-39 and 69-49.

Leading the scoring was Will Williams with 33 points. Kirk Saul added 21; Kirk Martin, 6; Jamie Cox, 2, and Buster Beavers caged 3 points.

Congratulations to the Patriots, for reaching the Regional Tournament!

People once believed emeralds could calm storms at sea.

Sesquicentennial Tree To be Planted at Quitaque

The Briscoe County Sesquicentennial Committee will sponsor commemorative tree plantings and programs on Sunday, March 2.

A Heritage live oak will be planted at 2:00 p.m. at the Quitaque Community Center.

At 4:00 p.m. the same day a Shumard oak will be planted at the Briscoe County Courthouse in Silverton.

March 2 is the 150th birthday of Texas Independence. The sesquicentennial is an excellent time to erect a permanent legacy from this generation for those generations yet to come.

Cemetery Directors To Meet Monday

There will be a meeting of the directors of Dreamland Cemetery Monday, March 3, at 7:00 p.m. in the Senior Citizens Room. All directors are urged to attend.

—Arlowen Williams, Secretary-Treasurer

Swim Pool Members Asked To Meet

A general meeting of all members of the Turkey Swimming Pool Association has been called for Thursday, March 6, at 7:30 p.m. in the Bob Wills Cafeteria. It is important that all members attend.

Scouts To Sponsor Cystic Fibrosis Event

The Turkey Cub Scouts have been asked to sponsor the Cystic Fibrosis Bike-and-Walk-a-Thon this year, it was announced this week by their sponsor, Mrs. Margie Pinkerton. She said when plans are finalized, dates and other information will be published.

Darren Edwards On Honor Roll at Tech

Darren Edwards was listed on the Dean's Honor Roll at Texas Tech University with a grade point average of above 3.5 for the fall semester.

More than 1,950 students at Tech qualified for the President's and Dean's honor rolls in the university's six colleges.

Darren is the son of Gary and Margie Edwards of Turkey.

Cindy Hawkins, a senior at WTSU at Canyon, was recently named to the Dean's Honor Roll. The Tribune editor thought we had received a statement from the school, but we want her to have credit either way.

Agricultural Programs At Bottom of Priority List for 1987

Texas farmers will have to tighten their belts another notch if Reagan's proposed 18 percent cut in the Agriculture Department's budget is approved in his national budget proposals for 1987.

"The administration is going to try to pay for their defense increase by taking funds from agriculture programs, which is at the bottom of the priority list," Joe Rankin, president of the Texas Farmers Union, said recently.

The budget calls for the 1986 food and farm program, estimated at \$54.1 billion to be reduced in fiscal year 1987 to \$44.6 billion.

The budget trimming includes commodity price and income supports, farm lending, crop insurance and agriculture extension funding.

"While many rural Texans are struggling to stay above water, the budget proposes to eliminate federal involvement in rural areas by cutting most of the rural development programs," Rankin said. "The Extension Service, which provides education in agriculture, home economics, and community development, could loose about 60 employees."

"The national deficit needs to be dealt with, but not to the point of pushing thousands of family farmers off their land," Rankin said.

The first battle concerning the 1985 farm program has not been successful. The program details which are being released, clearly indicate to farmers, bankers, business men and consumers that additional corrections desperately need to be made in this program to improve farm prices and income for the family farmer to survive.

Has Anyone Been Reported Missing?

There has been much hay and grain stubble harvested into round bundles this year. On the Jimmy Myers farm southeast of Silverton, someone got too close to the machine that was turning out the bundles and was tied up in it. All that can be seen is the jeans-covered legs and boots with the toes turned down.

Lewis and Mozelle Eudy have returned home from a visit to DeSota, where they visited Ronald and Kay Eudy. They visited Angie Eudy in Tyler, then drove to Austin to visit the new grandson, Marshall, and his parent, Ron and Kim Eudy.

Mozelle said, "Most people were in Austin on Friday to see Prince Charles, but Lewis and I were there to see His Majesty, Marshall."

OBITUARIES

MARY ELLEN McCracken

Mary Ellen McCracken, 78, died Saturday in a Lubbock hospital after a short illness.

Services were held Monday, February 24, 1986 at the First Baptist Church in Quitaque at 2:30 p.m. The Rev. Jess Little, pastor, officiated.

Burial was in Rest Haven Cemetery by Schooler-Gordon Funeral Directors.

Miss McCracken was born at Gasoline and had been a long-time resident of Quitaque.

Survivors include a brother, Leon McCracken of Quitaque; a sister, Maudeine Richmond of Turkey; several nieces and nephews.

Pallbearers were Murry Morrison, Morris Wilson, John Francis, J. D. Nance, Alvie Francis and Odis Reagan.

MRS. GUY SMITH

Mrs. Guy Smith of Turkey died in her sleep Tuesday night.

Services were pending at presstime with Schooler-Gordon Funeral Directors.

Her obituary will be printed in next week's issue of The Valley Tribune.

CLAUDE TRAVIS THRASHER

Claude Travis Thrasher, 68, died Friday, February 14, in the Veterans Administration Hospital in Temple.

Burial was in Restland Memorial Park in Dallas.

He is survived by three daughters and several grandchildren; a sister, Olene Chandler of Dallas and a brother, Harold Thrasher of Turkey.

Among those attending the golden wedding anniversary reception held for Mr. and Mrs. J. D. Nance at the Rock Creek Church of Christ fellowship hall Saturday, February 22, were Mr. and Mrs. Ralph Carter, Mr. and Mrs. James Brunson, Mr. and Mrs. Shorty Woods and Buck Chandler, all of Quitaque.

Mr. and Mrs. Joe McWaters of Silverton were guests in the Shorty Woods home in Quitaque Sunday.

Turkey UMW Observes Week of Prayer with Self Denial Program

The Turkey United Methodist Women met with Mrs. Gordon Bain Monday, February 24, for a program in observance of the Week of Prayer and Self Denial. Mrs. Roy Patterson gave the opening prayer and conducted a business session. Mrs. Nadine Baisden reported on the cost of some additional hymnals and the group voted to buy 15. It was also voted to send \$10 to the District Treasurer for the Assembly Fund.

Mrs. Bain, program leader, said one-half of the offerings for the Week of Prayer is used for home missions in the United States and one-half is sent for overseas projects. Other members had parts on the program which was closed with prayer.

Those attending were Kathleen Green, Marcella Patterson, Wilma Wedge, Nadine Baisden, Virginia Degan, Jill Flaughter and the hostess.

The group adjourned to meet Monday, March 3, for a program on "Women in Crisis," led by Virginia Degan.

Guests in the home of Mr. and Mrs. Charlie Gray at Caprock Canyons State Park and their home Sunday were his parents, Mr. and Mrs. S. A. Gray of Breckenridge.

Mr. and Mrs. Clyde Monk and Mr. and Mrs. Jimmy Baird of Lubbock were among those here for the funeral service for Mary Ellen McCracken.

Attend McMurry Event At Plainview Sunday

Rev. and Mrs. Dennis Flaughter and Rev. and Mrs. Roy Patterson attended the "McMurry Excitement" event held at First United Methodist Church in Plainview Sunday afternoon at 3:00 o'clock.

The event, presided over by Dr. Bruce Parks, District Superintendent of the Plainview District, takes the place of the usual "kick-off" dinners held at three different places in the district.

The McMurry Chanters, a 52-member choral group directed by George L. Biffle, assistant professor of music at McMurry, sang several numbers.

Pledge cards were distributed and signed by many of those present. \$14,500 was pledged toward a goal of \$35,000 for 1986. This will be to help the Library, General Operations and Maintenance and Student Aid and Services.

Mrs. Patterson's great-niece, Debbie Reeve of Friona, a McMurry freshman, is a member of the Chanters.

There's a man in Quitaque who has been trying to get the editor of the Valley Tribune to write a story about him in the newspaper. He told the editor Tuesday morning he had been "real good" so he gets his story this week.

The city of Danbury, Connecticut was once known as America's "Hat City" since more hats were made there at one time than in any other city.

"We the Women" Banquet Held

The annual Sweetheart Banquet sponsored by "We the Women" was held this past Monday at the Community Center in Quitaque. The banquet room was decorated in a tradition Valentine theme with hearts and cupids soaring from the ceiling, and red votive candles and lacy hearts adorning the tables.

Following a delicious meal prepared by Mrs. Billie Jean Griffin and Mrs. Eunice McFall, Rayford Hewett, who served as master of ceremonies, gave a lively and entertaining speech highlighting various incidents and quips concerning historical Quitaque, the community and its people. He then introduced the organizations which "We the Women" traditionally honors at this special occasion: the city's EMTs, firemen and the City Council.

A representative of each of the organizations reported on their accomplishments throughout the year. James Brunson of the City Council spoke about the progress of the water development project, and David Brunson, representing both the firemen and EMTs, explained the role and function of both of these needed and valuable services. He also detailed the recent acquisitions by the fire department of a new communication system and ambulance vehicle.

Mrs. Clara Ruth Davidson, president of "We the Women", then gave her report on the activities of "We the Women" throughout the year. She cited the highly successful "Chautauqua" talent show, the purchase of a speaker system for Valley School, and many social events such as the summer picnic as highlights of the year.

Mrs. Davidson introduced Mr. and Mrs. Rusty (Janice) Henson, last year's recipients of the Man and Woman of the Year awards. In turn, each of them introduced this year's winners: Mrs. Clara Ruth Davidson and Manual Cruz. After listing the many accomplishments that both of these individuals have contributed to the community within the past year and previous years, they were presented with a beautiful plaque commemorating them as the new Quitaque Man and Woman of the Year.

Following a few closing words by Mr. Hewett, Rev. Dennis Flaughter concluded the banquet with a prayer.

Cub Scouts Have Busy Saturday

Two groups of Webelos went on outings Saturday, February 22. Pat House took Danny, Kyle, Jo Dee and her mother to Plainview to the Rock and Gem Show. These boys are working on their Geology Activity Badge.

They were met by Garrett, Jason and Tommy who left earlier with Mrs. Pinkerton to take a load of aluminum cans and were combining their Travel and Geology activities. The group received \$30.60 for the cans.

We purchased \$8.25 worth of tools, \$8.49 fossils, a Cub Scout shirt for \$9.89, parking ticket at airport for \$2.69, craft materials for \$3.99 and \$3.25 on kits. We want to thank everyone who donated cans and helped them to have money for these items.

Jason and Garrett visited the bus station at Plainview and priced fares to Dallas and Fort Worth and checked timetables.

After visiting the Rock Show, we all had lunch at Long John Silver's. Pat and her group returned home and Mrs. Pinkerton's group went on to Lubbock to the airport where they priced flights to Dallas and checked timetables and toured the airport. They were there for four departures and two arrivals. Vanessa Jennings was returning home after being in Turkey with her grandparents, so the group watched her board her plane and watched her flight take off. We returned home about 6:00 p.m.

Nuevo Study Club Meets With Mrs. Gordon Bain

Mrs. Gordon Bain was hostess to members of Nuevo Study Club Thursday, March 20, at 3:00 p.m. Mrs. Paul Robertson, president, conducted a short business session. A card was signed to send to Mrs. Dot Christian, a former resident who lives in Lubbock now. A letter was read from the Vernon Center thanking the club for the box of Christmas gifts sent.

Mrs. Bain, program leader, gave some interesting facts concerning women in government. She said there were two women governors now serving. The states are Kentucky and Vermont. There are now 25 women members of Congress, two in the Senate and three in the House, compared with 19 a year ago. Her program was taken from Texas Highways and she gave many facts about early Texas history.

The hostess served a delicious refreshment plate, which Mrs. Degan and Mrs. Robertson helped provide, to Judy Gafford, Louise Meacham, Lurline Walker, Kathleen Green, Marcella Patterson, Virginia Degan, Nadine Baisden, Ella Colvin, and those named above.

Mr. and Mrs. E. L. Hill visited the Jerry Weatherlys and the Wiley Davises in Memphis Saturday afternoon.

James Bain of Clarendon visited in the home of his cousin, Mr. and Mrs. Gordon Bain, Sunday.

Albert Reyna was taken to Hall County Hospital in Memphis Saturday by Turkey ambulance where he is being treated.

New Customer Service Survey Implemented

General Telephone's Memphis Operations Manager Jerry West announced the implementation of a new customer service survey in Quitaque and Turkey.

The new survey will be used to assist local management in continuing to improve customer service. One management measurement for quality of service in the Company is the number of service calls the Company received per 100 telephone lines. In the past year this count has dropped drastically. Reflecting on this marked improvement, West stated, "Most of the credit goes to the dedication of our employee group to provide better customer service coupled with a tremendous service improvement program in all GTE exchanges in the Panhandle area of Texas. We want to stay on top of our customers' ever-changing needs. One way to do this, and at the same time provide a vehicle for customer comments, is through the Customer Service Questionnaire.

"The mailing began last month and has been very successful and helpful to us in identifying not only potential service concerns but also positive contacts. The return rate has been very good, averaging 20% returned with a very low percentage of negative comments on those returned. Although it is generally understood that a "no return" questionnaire indicates the customer was satisfied, we would like to encourage customers to actively participate by filling out the short questionnaire and returning it as quickly as possible. We've found that written comment forms are one of the most favorable measurement tools available to provide us with the customers' actual viewpoint," West explained.

"The survey, which originated in Dallas, was found to be quite successful in measuring quality of service, repair, and service installation. The postcard is postage paid with a short selection of yes/no responses aimed at isolating positive or negative feedback with comment space allowing the customer direct input. The Customer Survey will help us modify our present service as needed and help determine future service needs," West added.

"The customer is number one to us and we want to have as many avenues open as possible for communication. This survey

is one more way to show our customers that GTE is working hard to fulfill their communication needs," concluded West.

The U. S. census bureau reported that the 1970 census missed about 5,300,000 people.

The world's largest swimming pool is in Casablanca, Morocco. It measures 1,575 feet by 246 feet.

Though the soybean was cultivated in China before 3500 B.C., it was virtually unknown in the U.S. until 1900.

VALLEY TRANSLATOR SYSTEM

Mrs. Poppy Hulsey

Mrs. Hulsey is Candidate for Silver Haired Legislature

Poppy Hulsey of Tulia has authorized the Briscoe County News to announce her candidacy for the Texas Silver Haired Legislature.

In making this announcement, she said: "I came to Tulia as the bride of W. K. (Kirk) Hulsey 45 years ago. We have been engaged in farming and ranching, an operation begun in the early 1890's by his grandparents. Our grandsons are the sixth generation to live on this land.

"We are the parents of four and while they were in high school we shared our home with two Exchange Students, a boy from New Zealand and a girl from West Pakistan.

"I was the editor of the Swisher County History Book, "Windmilling," and was named "Woman of the Year" by the Tulia Chamber of Commerce in 1977.

"In 1979 I was presented the "Distinguished Service Award" by West Texas State University.

"Currently I am serving on the Private Industry Council of the Panhandle Regional Planning Commission for the Tulia Industrial Foundation, and representing Swisher Electric Cooperative, Inc. for whom I am a consultant.

"Some of the issues we are addressing include: displaced workers, older workers, and job training. My participation in this program gives me knowledge that I think I can use as we seek solutions to older Texan problems.

"The Texas Silver Haired Legislature will consist of 116 elected representatives, with

four from the Panhandle. The Panhandle is divided into three areas, and we will be voting in the South Area, which includes Swisher, Castro, Farmer, Deaf Smith, Briscoe, Hall, Oldham, Wheeler, Gray, Donley and Collingsworth counties. One representative will come from this area. I will try to represent the 11 counties in our area. Though we are separated by many miles, our concerns are one.

"Voting places will be designated for each town. A voter must be registered to vote in Texas and be 60 years of age or older on January 1, 1986.

"The Swisher County Senior Citizens Association and the Retired Senior Volunteer Program Association have endorsed my candidacy and pledged their

support.

"I seek your vote and influence in the May 20, 1986 election. Thank you for your support," Mrs. Hulsey concluded.

The Superintendent's Corner

by Wilburn Leeper

The recently adopted "Discipline Management Plan" sets standards for systematic punishment of students when the code of conduct is broken. The plan calls for light punishment when the infraction is minor but allows for a more severe punishment when the infraction is serious. Whatever the punishment, the school must, with some exceptions, continue to provide for the education of the student. The intent is to deter bad behavior in school.

For more serious infractions of the student code of conduct, one provision in the plan allows for the student to be punished by excluding the student from normal class activities, but provides for instruction while excluded from class. This alternative education provision is an effort to keep the student in school but disallows disruptive behavior.

Earlier practices by schools provided for student expulsion for any number of reasons. Now, however, under the new way of doing things concerning the administering of discipline, the student will no longer be threatened to be "kicked" out of school for a few days. That is, unless the student is continually incorrigible or is guilty of assault upon another individual.

There are three categories available to school officials whereby for the purpose of initiating the alternative education provisions of the plan. These provide for in-school suspension, reassignment of classes, and home-based instruction.

In-school suspension requires that the student be placed in a special classroom which is supervised in an educational setting. In this setting, the student receives assignments in each course to the extent possible, with little or no opportunities for social interaction with other students. Supervised breaks for restroom or water are allowed and lunch will be brought to the student.

The minimum stay for in-school suspension, according to the plan, will be one day while the maximum will not exceed the end of the semester. Lack of cooperation by the student could increase the length of the stay.

At times, when possible, students may be reassigned classes in order to correct a potentially dangerous situation. At Valley, this alternative is unlikely because of the lack of flexibility in the class schedule.

For more serious cases of misconduct or continued incorrigibility, the student may be placed in unsupervised home-based instruction. This alternative allows the student to receive limited instruction but restricts him from attending any school activity day or evening. He will be allowed to receive instruction or assignments only before or after the school day. No instruction will be provided during the school day but the student will be counted present for attendance purposes.

The 1986 district football schedule has been set. Valley will compete in the North Zone and will begin district play on October 10 against Crowell. The Crowell game will be followed on the schedule by Motley County, Paducah, Knox City and Chillicothe. The games with Crowell, Motley County and Chillicothe will be played at Valley.

Four Valley students competed in the District UIL Instrumental Solo and Ensemble contest last Saturday in Lubbock. The contest judges the students on their ability to play the piano and to be classified with a rating from I to IV. As usual, Mrs. Herrington's students did very well in competing against schools like Lubbock, Lamesa and Floydada.

Entered in the contest from Valley were Melissa Maupin, Joe Morrison, Kim Cagle and Stacey Rothwell. Stacey Rothwell competed in the Freshman division and earned a II rating for her performance. The other three participants from Valley competed in the more difficult I Classification in which a I rating earns the student a trip to the state finals. Melissa Maupin and Joe Morrison earned II ratings while Kim Cagle earned the highest possible rating of I. Kim will compete in the state finals sometime in early June.

Congratulations to these Valley music students!

Seaman Recruit
Danny Neill Trout
Grandson of
Chlorene Melton of Turkey

**Trip to Naval Base
Enjoyed By Family**

Mrs. Chlorene Melton of Turkey, Mrs. Sharon Trout of Childress, and Sp/4 David Lee Trout of Fort Polk, Louisiana caught American Airlines out of Amarillo on February 5 at 7:00 a.m. for Waukegan, Illinois. They landed at Chicago O'Hare Airport at 11:00 a.m. Picked up a Hertz-Rent-A-Car and arrived at Waukegan at 2:00 p.m. After locating their motel and checking in, they ate lunch and located Great Lakes Naval Base.

On Thursday at 5:30 p.m., they went to the Reception Ball at Great Lakes Naval Base to register for the graduation exercises for Seaman Recruit Danny Neill Trout. After being registered, they were shuttled to a drill hall to watch movies and be addressed by several people, including Captain Lord. They met Danny and had a visitation period with him, returning to their motel.

On Friday at 12:30 p.m., they returned to the Great Lakes Naval Base for Graduation Exercises at 1:00 p.m. After 3:00 p.m., Danny had liberty and was able to spend two nights with them at their motel. They returned him to Great Lakes Naval Base at 4:00 a.m. Sunday and drove back to O'Hare Airport to emplane for home. The captain of their plane notified them at take off at O'Hare that it was snowing in Dallas. Shortly after arriving in Amarillo, the airport at Amarillo was closed. It was touch and go until they got to Claude and from there to Childress the roads were in good shape.

Mrs. Melton stayed on at Childress until Monday, February 17 to be with Sp/4 David Trout and his son, Christopher Lee, when David had to return to Fort Polk.

On Tuesday, February 11, Danny went to Millington, Tennessee to enter school.

The Hoang typewriter, a device for typing in Chinese characters, has 5,700 characters on a keyboard 2 feet wide and 17 inches high.

GRAND CHAMPION SHEEP—Wesley Farley shows his Grand Champion Sheep, while premium auction buyer Rodger Ferguson, representing First State Bank, holds the trophy and ribbon. Farley also won showmanship. He is the son of Mr. and Mrs. Billy Farley of Turkey.

DID YOU KNOW ?

The revolutionary advancements in electronic education promise to greatly enhance teaching and learning in 21st century classrooms, libraries and home learning centers. Did you know that:

- An electronic encyclopedia, entitled the Academic American, has already been introduced into schools and libraries. In fact, children report that using this electronic encyclopedia is effortless and more fun.

- The electronic encyclopedia is the same as the printed version, which consists of 21 volumes, 28,000 articles and nine million words. Seem like a lot? You can look it up in the encyclopedia, print or electronic.

- The world's largest publisher and distributor of encyclopedias and reference books, Grolier Incorporated, has recently introduced another electronic marvel in addition to the Academic American. The company has developed several new series of learning software, one of which encourages children to read and explore books while playing intriguing computer adventure games. Called the Knowledge Builder Series, the software program is ac-

companied by the *New Book of Knowledge* which provides all the information needed to answer the challenging questions posed in the program.

• But the company's most exciting project is its video disc visual databank now in development. This will combine sound and motion pictures so that a student doing research about a recent past president could see and hear newscasts of him in the White House, at press conferences, or on the Campaign trail.

IT'S A FACT!

Tree farmers in Washington State consider foam cups great containers for tree seedlings. The insulating properties of the cups protect the plant roots from sudden changes in temperature. The cups also maintain the necessary moisture while allowing the plant to breathe. A nurseryman says foam cups are easy to fill with soil-fertilizer mix, and easy to stack and store. Keep America Beautiful liked the idea so well, it sends booklets about it to concerned citizens and environmental groups throughout the United States.

The U. S. population in 1940 was 131,699,275.

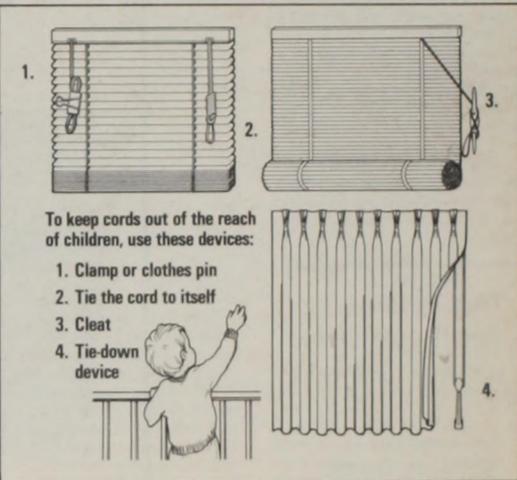

Consumer Product SAFETY ALERT

FROM THE U.S. CONSUMER PRODUCT SAFETY COMMISSION, WASHINGTON, D.C. 20207

February 1986

Under laws administered by CPSC, an estimated 325 million potentially hazardous products have been called back from the marketplace and consumers since 1973 (when CPSC was created). Most of these were voluntarily recalled by manufacturers who established programs to repair or replace the products, or to refund the purchase price.

**Parents Warned About
the Danger of Strangulation
if Children Become Entangled in
Window Blind or Drapery Cords**

To keep cords out of the reach of children, use these devices:

1. Clamp or clothes pin
2. Tie the cord to itself
3. Cleat
4. Tie-down device

The Consumer Product Safety Commission and the American Window Covering Manufacturers Association (AWCMA) are concerned about accidental death or injury to infants and young children who become entangled in pull cords for window coverings. A 1981 Commission staff report about accidental strangulations of children under five years of age found that window covering cords were identified as one of the products most frequently associated with child strangulations. In the last four years, the Commission has investigated three deaths and received reports of more than 32 other deaths in which children between the ages of seven

months and four years strangled on these cords. Most of the children were under two years of age and were in cribs which had been placed near window covering pull cords. Other victims were children who were not in cribs, but who were playing with the cord. Children may find the cord hanging near the floor, or they may reach the cord by climbing on furniture placed near the cord. These accidents can and have occurred when a child is alone in a room for only a short time.

The Commission and the AWCMA urge parents to keep cords out of the reach of young children by tying or hanging the cord at or near the top of window coverings. Remember that cribs and furniture placed near windows give children additional height to reach the cords. Some ways to secure the cords are:

- Clip the cord to itself or to the window covering with a clamping device, such as a clothes pin or cord clip.
- Wrap or tie the cord to itself.
- Wrap the cord around a cleat securely mounted near the top of the window covering.
- Securely install a tie-down device (this may be useful when a long looped cord is necessary).

The devices mentioned above are available from hardware stores or your window covering dealer. In addition to these suggestions, it is also recommended that when you install window coverings, adjust the cords to their shortest length possible, and when you order new window coverings specify that you want a "short cord".

To report any potential product-related hazards, consumers should call the CPSC Hotline at 800-638-CPSC. The teletypewriter number for the hearing-impaired is 800-638-8270.

**SCS Is Ordering
 Windbreak Trees**

The Caprock Soil and Water Conservation District is taking orders for windbreak trees through Wednesday, March 5. Trees will be delivered March 27. The Soil Conservation Service is available to design windbreaks and drip irrigation systems.

Species still available are caragana, cotoneaster, honeysuckle, lilac, plum, sumac, sand cherry, nanking cherry, saqash, Chinese elm, cottonwood, golden willow, hackberry, honeylocust, Russian olive, poplar, aspen, Austrian pine, Colorado blue spruce, Eastern red cedar, rocky mountain juniper and Scotch pine.

Please decide what varieties you would like to order and don't forget the March 5 deadline. Call 823-2320 or go by the SCS office to order your trees.

**TPPB Referendum,
 Election Approaching**

Mary Webb
 Executive Director
 Texas Peanut Producers Board

The Texas Peanut Producers Board will hold its biennial election on April 30, 1986. The current terms of three board members will expire at that time. Any person living within the following counties who is engaged in the business of producing, or causing to be produced, peanuts for commercial purposes, is eligible to vote in his district, including owners of farms and their tenants and share croppers, if such person is subject to paying the assessment that is collected on peanuts within their county.

District II includes the northwestern counties of the state. The southern-most boundary of this district includes the counties of Loving, Wheeler, Ector, Midland, Glasscock, Sterling, Coke, Nolan, Taylor, Callahan, Eastland, Palo Pinto, Parker, Wise, Denton, Grayson, Fannin and Lamar. Peanut producers north

of this line are in District No. 2.

Any person qualifying to vote in the election may place his name in nomination for membership on the Texas Peanut Producers Board for a six-year term from that district by application to the above organization, signed by himself and at least ten other persons eligible to vote in the election. Such application must be filed at least 30 days prior to the election date, in order to have his name placed on the ballot.

The election will be held by mail ballot. Ballots must be mailed to the polling place at P. O. Box 398, Gorman, Texas 76454 by or before midnight on the date of the election.

Any person qualified to vote who does not receive a ballot 15 days prior to the election, may obtain one at County Agent offices in peanut producing counties within the state.

**REFERENDUM STATE
 AT LARGE**

The Texas Peanut Producers Board proposes a referendum election on April 30, 1986, under provisions of the Texas Commodity Referendum Law, Chapter 41, Texas Agriculture Code, on the proposition of whether or not peanut producers within the State of Texas shall assess themselves an increase in the current assessment rate of \$1.00 per net ton to a maximum amount of \$2.00 per net ton of farmers stock peanuts to be collected at the point of first processing or sale on a "refund only" basis, and to be used for funding programs of research, disease and insect control, education and promotion designed to encourage the production, marketing and use of peanuts. All Texas counties are within the proposed referendum area.

A "watch" of nightingales is how you refer to a big bunch of those birds.

Miss Lizzie Gregg, elected County Treasurer in 1931, in present Briscoe County Courthouse using office furniture that is still in use in treasurer's office.

**CONSUMER
 LINE**

By Stanley Berkowitz, National President,
 Society of Consumer Affairs,
 Professionals in Business

The toll-free 800 number concept is ringing bells when it comes to resolving customer problems.

Companies are beginning to establish a line of communications between customers and the company which is beneficial to both.

Recognizing the important service and marketing implications of 800 numbers, the Society of Consumer Affairs Professionals in Business (SOCAP), in cooperation with Technical Assistance Research Program, Inc. (TARP), conducted a survey of how and why 800 numbers are used and with what results.

The benefits:
 • It can help a company keep up with its customers and their changing needs.

- It provides a wealth of information.
- It is a significant marketing tool.
- It can effectively handle customers' problems—misunderstandings of products.

Without the 800 number, millions of consumers would have remained dissatisfied or unhappy. The impact of an 800 number system can reduce insurance claims and warranty expenses, broaden loyalty and customer confidence, and provide the company with a wealth of market research data.

Many customers who have a question or problem don't complain. A company, the study suggests, gains a marketing edge by actually soliciting and responding to customers' complaints and inquiries.

Copies of the "800 Numbers for Consumer Service" booklet can be secured by writing: SOCAP 1-800 Report, 4900 Leesburg Pike, Suite 311, Alexandria, Va. 22302.

The earth's surface holds 324 million cubic miles of water. Another 2 million cubic miles lie underground, and 3,000 cubic miles of water are suspended in the atmosphere.

The U.S. is the world's largest corn producer.

DID YOU KNOW?
Olive oil has a prominent place in cooking traditions both ancient and famous in Italy and other cradles of Western civilization.

Olive oil is the mainstay of a large number of well known recipes

CARDS OF THANKS

I want to thank all those who were so good to me when I had my surgery. Thanks to the ones who took me to Amarillo, the ones who brought food, the phone calls and the visits. Thanks to the ones who sat with me waiting to hear the reports from the surgery. The report was negative. Thanks again.
Dalsie Monk

To all my friends in Quitaque and Turkey:
Thank you so very much for all the cards, visits and calls during my recent stay in the hospital, and the visits and food brought since I came home. We are so blessed to have so many friends. We really appreciate all of the expressions of love and concern for us and all the prayers offered during this trying time for us.
Love always,
Ruth Ann Conner

from Italy.
• Medical research suggests this oil has nutritious features that should have a place in any prudent diet.
• A natural product with no additives, Italian olive oil keeps longer than other oils.
• Olive oil is the only cooking and salad oil which has a variety of flavors. None of them is obtained with addition of seasonings or of flavoring matter. They are all quite natural flavors because they derive from the many different varieties of olive trees and the diversity of climate and soil in Italy.
In non-cooked food, olive oil from Italy provides a subtle and healthful addition of flavor to a vast array of dishes.
