Caprock Public Library News

by Arlene Hinkle
All this beautiful "white stuff" on the ground and the wind whistling 'round the windows certainly creates the right mood for stew, cookies, and reading. The reading part is easy when you come to Caprock Public Library and find the book that you have been looking for.

New books this week include:
License to Steal by Benjamin L. Stein. This is the untold story of Michael Milken and the conspiracy to bilk the Nation.
On Coon Mountain by Glen Ross, an autobiography of a man during the depression years and the experiences of his family on a farm in Oklahoma.
For juveniles, *Kevin Corbett Eats Flies* by Patricia Hermes. Challenged to "chew" a goldfish for five dollars, Kevin and his challenger, Bailey, become strange allies.

The Stone-Faced Boy by Paula Fox, a story of a lonely timid middle child in a family of five individualistic children. Gus has learned to hid his feelings too well.

Holiday Hint: There are people out there who would like to receive a book for Christmas. Happy Giving!

Turkey Commodities December 18

Commodities will be available in Turkey at the Senior Citizens Room on Friday, December 18, 1992 from 9 a.m. until 12 noon.

THEN and NOW!

by Eunice McFall

Well, here our area is digging out from another snow storm. We all arose Monday morning to a beautiful, glistening world of white-all ugliness of bare grass and trees was hidden under the snow which fell during the night. The air was crisp and invigorating, putting a spring into our step but it had to be a cautious spring as the sidewalks and streets were slippery.

It has been several years since our area has had the amount of snow we have already had this year. Guess it is time for us to once again experience a "bad" winter.

A few of the heart warming sights you can see after a storm of any kind is neighbor helping neighbors, people putting forth just a bit more effort to make life better for someone else.

The UMW, of which I am a member, had a dinner to prepare for the Lions Club and their wives and guests on Monday night. Out of town invitations had already been sent so it was too late to cancel unless the town was totally immobilized.

We were elated with all the wonderful help that we had to put the affair together. Not only our members rallying around to accomplish the feat but husbands, city employees, Lions members, friends all pitched in to help make the day a little easier. By night fall, even the weather was cooperating--no more snow falling, sun enough to melt some of the snow during the day and the wind had died down so that the luminaries could be lit on the steps leading to the Community Center.

A cold brisk night to venture out in. But venture out they did and took great pleasure in each others company. After the dinner, members, friends, husbands and Lions all once again pitched in to clear out the remains of the feast and the decorations. The old saying about lots of hands making the work light is true--without all the many willing hands this particular Christmas Party would have been sadly lacking. Aren't people wonderful? (And personally I think the snow is wonderful too, but I know that I am in the minority in this thought as Sid tells me this each time it snows!)

How value is added to an agricultural product

"Value added" is defined as sales of goods minus the cost of goods sold. Businesses add value at many levels, paying operating expenses and taking profits out of value-added revenues. If value is added outside of Texas, most of the economic impact of that value is lost to the state. An out-of-state food processor's labor costs and profits, which come out of the value-added revenue it receives, will remain outside of Texas.

Where the value in a 16-ounce can of beans comes from (based on standard market conditions):

- 8¢ farmer
- 27¢ processor
- 10¢ wholesaler
- + 15¢ retailer

60¢ consumer price and total economic impact

A heat pump is one complete system that keeps you toasty warm in the winter, and cool and comfy in the heat of the summer.

Plus you'll save money because a heat pump delivers about twice the energy it uses.

So when you're building, buying or just replacing your present system, consider the all-in-one system — the electric heat pump.

The Electric Heat Pump

For more information on the electric heat pump, contact your heating and cooling contractor or West Texas Utilities.

I am thankful for friends because they are there when you need them and you are there when they need you. I am also thankful for Christmas because it is a time of togetherness. It's a time of loving, sharing and caring. It was the time Christ was born. I am thankful for family 'cause they love me, care for me and they are a part of my life. I am glad Mrs. Gilmore is my teacher because she knows how to be a good teacher. I am thankful for my cat because I've had her a long time. She is part of me, so I couldn't let her go. I am thankful for all things in the world. I am glad Elena is my friend because we never fight and are really close friends.

Sincerely,
Jamie Taylor

I'm Thankful for having a home and a family. Because a home and family can protect you from a big storm or from getting sick.

I am thankful for so many things this year. My family has been blessed with good health, happiness, and each other. I am very thankful for my wonderful 5th grade class. They are so bright, inquisitive, and cooperative. Each one is a joy to teach. Other things for which I offer thanks are: a great place and people to work with, special friends, a nice home, and the fantastic Valley Pep Squad and Cheerleaders as well as my co-sponsor, Ginger Mullin. Of course, I am especially thankful for Santa (hint-hint, Mr. Gilmore) and the upcoming holidays.

Mrs. Gilmore's Fifth Grade is Thankful for

I'm thankful for my parents cause they love me, they buy me clothes, shoes, presents, and a lot of other stuff. My dad lets me go strip cotton with him. Then every weekday my mom and dad give me money to eat with at school. My mom takes us to the movies. They both let me go to the basketball games. I'm thankful for my brother cause he makes me laugh, he plays football with me, and helps me on stuff then when I need something he will go get it for me. I'm thankful for my sister cause she helps me on my homework and she plays games with me. Then when I need money and my mom and dad are not home she will give me money. I'm thankful for my grandma and grandpa cause they take me to Idaho Falls to all the toy stores in town. Then my grandpa will take me to go fishing with my uncle Dee. Then my grandma will buy me all the toys I want.

Love,
Steven Felix Ortiz

I am thankful for my parents because they help me. My dad helps me take care of my pigs. My mom helps me with my homework sometimes. I am thankful for my sisters because they take me places. Chasity takes me to my grandparents house. Crystal sometimes takes me to my grandparents house. I am thankful for my cousins Danny & Destiny because they play with me.

I am thankful for my parents, because with out them I probably wouldn't be in school, have a house, or have food to eat. I am thankful for my friends who are Jamie Taylor, Sarah Ulrey, Mindy Proctor, Kristin Ramsey, and especially Laurie Cruz because they all are nice, and kind to me. I am thankful that I am in fifth grade, because this is my last year in elementary. I don't have to be trading classes and we don't have to run in P.E. alot. My teacher Mrs. Gilmore is making it a pretty good year. I am also thankful for a hole lot more things.

Sincerely,
Elena Fierro

I am thankful for my family. My family has raised me, and cared for me. They fed me, and bought me clothes to wear. They sent me to

I am thankful for my parents because they help me when I am sad, they are their for me when I am hurt. They give me food, shelter, and warmth. They care for me and also give me clothes.
I am also thankful for my brothers they teach me alot that I should

know like shifting gears in a car or pickup.

I am also thankful for God. He created the heavens and the earth and all of my family including me and my ancestors. He helps me through good times and bad times he is with me all the time. He always forgives you for your sins if you ask him to.
Love,
Sarah Ulrey

I am thankful for my parents. They take care of me when I am sick, they hug me when I am sad, and they love me all of the time. I am also thankful for my animals. They like me to pet them. I can teach them to do tricks when I am bored. I am thankful for my house. It protects me from danger. It gives me a place to sleep, eat, and play. I am thankful for my yard. It gives me a place to put my swing set, trampoline, treehouse, and playhouse. I can play basketball in it. I am thankful for being alive. If I wasn't alive I couldn't do anything like hug my parents and play with my animals. I am thankful for Christmas. God was born on it. You have the chance to give peole things.
Yours truly
Mindy Proctor
