THURSDAY, FEBRUARY 10, 1983

NEW BELL HELICOPTER— Pictured above is a new, twin-engine jet Bell helicopter which landed at Memphis Airport Saturday about noon. The pilot, Gary Young, a Bell Helicopter employee at Fort Worth Plant, landed the machine to unload his wife, Jane, daughter of Mr. and Mrs. Johnny Fowler of Memphis, and two daughters, Audrey and Jennifer, for an overnight visit. Johnny Fowler rode with his son-in-law to Amarillo to exchange this twin-engine helicopter for one of the single-engine "Huey" type helicopters to take back to Fort Worth. Mrs. Fowler said, "Gary has been waiting for the weather to clear for over a month to make the trip up here." Gary said they made the trip against a strong north wind in 2½ hours, refueling in Vernon. He said the twin engine model carries 15 passengers and is used

a lot by oil companies which have offshore rigs.

Gary is the son of Byron Young of Turkey.

On Sunday, Gary and his daughters came to Turkey and landed at the Ronnie Eudy farm. They took a group of relatives and friends for a tour of farmland south and east and then over Caprock Canyons and back over Smith Camp where the Bell Ranch is located. According to Mrs. David Guest, "It was a great trip and we enjoyed the view of the Canyon and the Bell ranch, etc."

Those making the tour included Mrs. Guest, Ronnie and Kay Eudy, Mozelle and Lewis Eudy, Truman Young, Walter and Clarene Geissler. Byron and Sybil Young were with the group at Ronnie's but did not go on the ride since Byron's knee is in a cast.

Bob Wills Foundation To Have General Meeting

There will be a general meeting of the Bob Wills Foundation on February 16 at 8:00 p.m. at

the Bob Wills Center, according to an announcement made by Jim Majors, president. He especially urges all committee heads to be present so they can get started on plans for Bob Wills Day the last Saturday in April, which falls on April 30 this year.

TURKEY LIONS PLAN LADIES NIGHT

Turkey Lions Club has scheduled Ladies Night for Thursday, February 17 at 7:00 p.m. at the Bob Wills Cafeteria.

All Lions are urged to bring their ladies.

Entertainment will be provided and there will be a good meal.

Mr. and Mrs. Wesly Woods and family of Plainview spent from Thursday last week until Sunday in Quitaque visiting their parents, Mr. and Mrs. Carl Woods and Mr. and Mrs. Buster Chadwick and Stachia.

Mr. and Mrs. Lloyd Jeffreys of Hale Center spent one night last week in Quitaque visiting her sister and husband, Mr. and Mrs. Roy Hunter.

Mr. and Mrs. Roy Hunter were in Plainview Monday on business.

Old Sol Finally Found His Way Out

The Valley area was delighted Saturday morning when the sun came shining through after so much snow and bad weather. The weather reports on the television had predicted more snow and cold weather and it came as a surprise to the Valley area when the sun shone through and the snow melted.

The Quitaque weather gauge showed four inches of snow and the moisture content was .60.

The snow began falling shortly after noon Thursday and continued the rest of the day, through the night and all day Friday. With the sun shining Saturday and melting the snow, none of the moisture was wasted. City Secretary James Brunson reports this brings the total so far this year to 3.40 inches.

The cold weather continues, but according to reports, it is to get warmer as the week progresses.

Anniversary of Scouting Celebrated in Quitaque

To celebrate the 73rd anniversary the Cub Scouts and Boy Scouts in the Quitaque area will be taking part in various activities.

The Cub Scouts will take part in the Blue and Gold Banquet, where families of the Cub Scouts will join together to celebrate the

anniversary of Scouting.

The Boy Scout troop, under the leadership of Randy Stark and Ralph McCormick, will wear their Scout uniforms to school in recognition of the 73rd anniversary of Scouting.

The purpose of the anniversary is to celebrate the 73rd year that Scouting has been in existence in the United States.

As every Scout knows, it was the unknown scout, who led American businessman William D. Boyce to a destination in a thick fog in London, that sparked Boyce's idea to bring this British youth movement to the United States.

Under the direction of Robert Baden-Powell, founder of the English Boy Scouts, Boyce and a group of outstanding men founded the Boy Scouts of America in Washington, D. C. on February 8, 1910.

WITH THE SICK

Bill Griffin returned home from Central Plains Hospital in Plainview Monday after he had been there several days for treatment of an ulcer, he reports.

Mrs. George (Olive) Owens is still in Central Plains Hospital in Plainview where she underwent surgery Thursday, January 28. The doctor told the family she may be released from the hospital the latter part of this week. She has done exceptionally well, the doctors report.

Mrs. April Thompson was taken to Lockney General Hospital Saturday by her son. Her condition is not known as the Tribune goes to press.

Mrs. Bud Bailey drove to Plainview Thursday of last week to visit her mother, Mrs. T. J. Reeves, and Mrs. Reeves returned home with her to visit a few days. Reported

1983 Aoudad Sheep Hunt At Caprock Canyons State Park

The 1983 public aoudad sheep hunt at Caprock Canyons State Park concluded at 12 noon January 15. Our third hunt was again a success in that no injuries or accidents occurred. A four inch snowfall on December 31 and January 1 limited hunter mobility for the first week of the hunt. Cold weather was not a handicap. Daytime temperatures were never below the supper 20's and several days were in the 60-70 degree range.

The sheep population is presently at its lowest since the first hunt in January 1981. This fact was reflected in the hunter success percentage. The total of sheep taken in three hunts is 45. Hunter success for each hunt is: 1981—43 hunters killed 20 sheep for 47% success; 1982—17 of 39 for 44%; 1983—eight of 39 for 21%. Of the 31 unsuccessful hunters in 1983, 13 shot at sheep and missed, eight saw sheep but did not shoot and 10 did not see sheep. One goat was taken.

All of the hunters have been residents of Texas except for one from Vale, North Carolina. Those from Texas came from Huntsville, Castroville, Stephenville, Dallas, Baytown, Muleshoe, Seabrook, Burleson, Amarillo, San Antonio, Arlington, Odessa, Junction, Pinehurst, Abilene, Katy, Houston and Seminole.

Dr. Maxwell Suffers Mild Heart Attack

Dr. Wayne Maxwell suffered a mild heart attack, according to reports, Monday afternoon and was taken by car to Memphis by his wife and Rev. W. L. Armstrong. He will be a patient in Hall County Hospital for a few days, according to his son, Dr. Jon Maxwell of Idabel, Oklahoma, who is visiting here.

Mr. and Mrs. Lewis Eudy and Rev. Armstrong visited Dr. Maxwell on Tuesday.

MICROWAVE SCHOOL IS FEBRUARY 10

A Microwave School, sponsored by West Texas Utilities and the County Extension Service, will be held February 10, from 7:00 until 9:00 p.m. at the West Texas Utilities office in Quitaque.

The microwave demonstration will be taught by Karen Burgess, home economist with West Texas Utilities in Childress. The public is invited and there is no charge.

Educational programs of the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or national origin.

Valley Boy Scout Derby Held Recently

Valley Boy Scouts of America Troop 264 met Saturday, January 29 for the monthly pack meeting and held the Pinewood Derby Car Elimination Race. Those participating and present for the race were Chad Calvert, Henry McNary, Tommy Pinkerton, Joe Wayne Fuston, Chad Powell, Shannon Jackson, Cody Pointer, Josh Brooks, Jay Gray and Scotty Tucker. Three Webelos were unable to attend but their cars were entered into the race. They were Warren Merrell, Coby Waldrop and Benjie Hughes.

Judges for the Paint and Design Awards were Rita Mullin, Brett Parsley and Chuck Dees. Henry McNary received the award for the best paint job and Joe Wayne Fuston received the award for the best design.

Taking first place in the Cub Scout division was Chad Powell; second place went to Josh

Brooks, and third place was won by Shannon Jackson.

First place in Webelos went to Warren Merrell, whose car was driven by Chad Powell. Second place winner was Scotty Jackson.

Only one boy per four registered for 1983 by February 1 can attend the District Meet which will be held February 19 in Plainview. Those who will advance to this meet will be Warren Merrell, Chad Powell and Josh Brooks. If one of these should be unable to attend the meet, then the alternate next in line will get to attend.

Following the racing, those enjoying a sack supper were Mr. and Mrs. Don Gray and family, Mr. and Mrs. Joe Fuston and family, Mr. and Mrs. Billy Pinkerton and family, Chad Calvert, Josh Brooks, Cody Pointer and Henry McNary.

Valley Basketball Season Ends District Play With Good Results

The District 2-1A basketball season came to a close Tuesday night with the Valley boys and girls giving a good report. The boys have played 24 games, winning 22 and losing two.

The girls have played 25 games, winning 20 and losing five.

The inclement weather caused the last three games to be rescheduled. The first game with Estelline was scheduled to be played Tuesday, February 1, and was played on Thursday, February 3. This was for the boys only. By quarters, Valley was on top with 19-9, 45-17, 75-35 and 109-82. This was a very sad game for Estelline and the area because it was the last game to be played at Estelline. The high school there will be transferred to Memphis from now on.

The Hedley games were scheduled to be played Friday night and due to more snow, they were played there Monday night, February 7.

The Lady Patriots won their game easily. Quarterly, the Valley girls were 11-3, 25-7, 41-13 and 41-25.

Angie Clay dropped in 15 points for scoring honors. Candy Jones added 14; Sherri Hendrix, six; Mary Dowd, four; Cindy Fullbright, three; Elaine Adams, Karen Ramsey, Wanda Brittian, two each, and D. Smith added one point.

The Valley Patriots had no trouble Monday night with the Hedley Owls. The first period the Patriots led 21-6; it was 47-16 at halftime and 68-24 at the end of three periods. The final score was 82-34.

Brett Cheatham took honors with 19 points; Billy Shannon added 13; Randy Fuston and Will Williams added 11 each; Tim Clardy, nine; Tommy Williams, six; Lupe Reyna and Shon Phelps, four each.

Tuesday night of this week the Valley teams hosted Lakeview, winning both.

The Lady Patriots were on top 24-8, 36-17, 67-23 and 81-31. Angie Clay took honors with 25 points. Candy Jones added 18; Sherri Hendrix, 11; Mary Dowd, 10; Karen Ramsey, eight; D. Smith, four; Lori Clay, three, and Wanda Brittian, two.

The Valley Patriots played a little closer to the Lakeview Eagles. In the first round, the Patriots were ahead 15 to 14, and at halftime the score was 37-24. After three periods, the Patriots were ahead 50-38 and went on to win 80-53.

Randy Fuston took honors with 20 points. Kraig Cox added 16; Brett Cheatham and Jerry McNary added 11 each; Tommy Williams, 10; Billy Shannon, six; Tim Clardy, four, and Will Williams, two.

The Valley girls have a prac-

New Bible Study Begins

Have you really wanted to know what the Bible said about a specific topic? Perhaps you have wondered about some of those seemingly radical ideas of Paul in I and II Corinthians. Now is your chance to study the New Testament books of Acts, Romans, I and II Corinthians and Galatians. On Wednesday, February 16, at 7:00 p.m. at the First United Methodist Church, a new session of the Trinity Bible Studies will begin.

This session will focus on the books of Acts through Galatians and is open to everyone. "The Trinity Bible Studies," according to Rev. Wayne Norman, "was developed to help everyone understand what the Bible means by knowing what the Bible says. This goal is achieved through daily Bible readings, plus the recording of important facts and insights." Rev. Norman goes on to say, "The class sessions last between 1½ and 2 hours and are a combination of lecture and lively discussion." There is a charge of \$5.00 for materials used in the course, plus \$3.00 for a binder.

If anyone needs more information concerning the Bible Study program, please contact Wayne Norman at 455-1439 or 455-1179.

TURKEY CITY ELECTION WILL BE HELD APRIL 2

The City Election for Turkey will be held on April 2, 1983. There are three places on the ballots: Place 2, Place 3 and Place 5.

Monday, January 31, 1983 was the first day anyone was eligible to file an application to have a name placed on the ballot. Wednesday, March 2, 1983, is the last day for filing for a place on the ballot.

The Nolen Kells Observe Silver Wedding Anniversary

Mr. and Mrs. Nolen Kell of Canadian repeated their wedding vows Monday evening at 7:00 o'clock February 7 at the Abundant Life Assembly of God Church in Canadian with the Rev. Larry Watts officiating.

The couple's youngest sons, Ronald and Clifford, hosted a reception in the couple's home following the ceremony.

Sharon Ladell Brummett of Quitaque and Nolen Kell of Flomot were married February 7, 1958 at Tulia, with Harold McColum, minister of the Church of Christ, reading the vows.

Monday evening Mrs. Kell wore pink, repeating the year she was married when she also wore pink, and Mr. Kell chose a beige suit, in repeat. Mrs. Kell wore a white carnation corsage with pink and green leaves. Mr. Kell wore a white boutonniere.

The couple has five children and three grandchildren, all of whom were present.

Parents of the couple are Reece Kell of Lockney and the late Ollie Kell, and Mrs. Velma Brummett and the late W. M. Brummett.

For the reception, a white decorated cake with pink hearts and greenery, and tea were

served the guests.

The children and grandchildren attending were Ronald and Clifford Kell of the home; Sam and Sharon Keller, Kimberley and Chad of Canadian; Kellena Charmasson and daughter, Alicia, Elk City, Oklahoma, and Nolen Glen Kell, also of Elk City. There were a number of friends to help them celebrate the evening also.

NEW SCHEDULE ANNOUNCED BY CHURCH

The First United Methodist Church of Quitaque announces changes in its schedule. Sunday School now begins at 9:45 a.m. each Sunday. There are classes for every age group, and everyone is invited to come and grow together.

Morning worship begins at 10:50 a.m. now. You are invited to be a part of an exciting service each week.

The evening service is still set for 6:00 p.m. each Sunday. This service is more informal with much singing and Bible Study.

The Wednesday Bible Study meets at 7:00 p.m. and is open to anyone who wants to know more about the teachings of the Bible.

MR. AND MRS. KEITH PASCHAL

Green-Paschal Wedding Vows Exchanged

Marriage vows were exchanged Saturday, December 18, 1982 at 5:00 o'clock in the afternoon by Miss Sherry Green and Keith Paschal at the First Baptist Church in Matador. The Rev. Gary Hillyard, pastor, performed the double-ring ceremony.

Parents of the couple are Mr. and Mrs. Ted Green of Matador, Donald Paschal of Paducah and Lorene Paschal of Guthrie.

Mrs. Howard Traweek presented traditional wedding music and accompanied Richard Campbell as he sang, "You Needed Me," and "Love Me Tender."

The bride was escorted to the altar by her brother, Rickey Green.

She wore a knit chiffon gown with a wide double flounce on her full skirt that flowed into a chapel-length train. The bodice had a round yoke of chiffon which was bordered with a wide wedgewood lace flounce and edged with satin ribbon, and had a stand-up collar of matching lace and ribbon. Her long, fitted sleeves of wedgewood lace were trimmed with a ruffled cut and satin ribbon. She wore a fingertip veil of illusion bordered with Chantilly lace.

She carried a bouquet of silk miniature roses and baby's breath.

Miss Sharla Green served her sister as maid of honor. She wore a floor-length gown of pink satin knit and carried a single long-stemmed pink rose.

Serving as best man was Tommy Miller of Paducah.

Guests were seated by David Green of Matador, brother of the bride.

Following the ceremony a reception was held in the church parlor. The bride's table was covered with a pink cloth with a white lace overlay. The three-

tiered cake decorated with miniature pink roses was made and served by Mrs. Donnie Buckelew of Matador. Mrs. Rickey Green, sister-in-law of the bride, served the punch from crystal appointments.

The couple is at home in Matador where the bride is employed at the Post Office and the groom has a plumbing business.

The bride is a granddaughter of Mrs. Olene Edwards of Turkey and the late Roy Edwards.

Consumer discontent could cause more government rules

COLLEGE STATION — If today's frustrations are tomorrow's legislation, business is in for more, not less, regulation, says a Texas A&M University marketing professor.

"If business wants to keep consumers and government off its back, then it's simply going to have to keep its own front yard clean," said Dr. Steve McDaniel of Texas A&M's College of Business Administration. McDaniel has just completed a survey of more than 200 consumers in the Bryan-College Station Standard Metropolitan Statistical Area.

"Consumer discontent appears to be rather widespread," McDaniel said, "and in some areas, particularly advertising, discontent appears to be growing." McDaniel's study looked at marketing malpractices, such as deceptive advertising, misleading warranties, deceitful credit practices and unsupported product claims, which are already heavily regulated.

New State Officials Support Farmers, Rural Programs

More than 500 Texas Farmers Union members and friends attending Texas Farmers Union's annual convention in Austin January 20-22 heard the state's newly-elected top officials pledge their support for farmers and rural programs, including the TFU Green Thumb employment program for older workers.

TFU Green Thumb employs more than 1,000 rural, low-income elderly persons in schools, senior centers, libraries, and museums in 111 counties across the state.

New Agriculture Commissioner Jim Hightower said Texas farmers are "innovative, productive—and they are broke. Thousands are staring bankruptcy in the face. We can't have an economic recovery in this country until the farmers recover."

Hightower promised to work with farmers and farm communities to bring about some changes. "We worked with you to save the Green Thumb program," he said, referring to successful efforts to maintain Green Thumb funding in the face of proposed budget cuts. "That's one battle we won."

Hightower recognized that the larger problems facing farmers would require immediate and concerted action. "It's time to raise less corn and more hell," he said.

Governor Mark White, in his first major address on farm policy since taking office, expressed his solid support for family farmers, the "biggest and most efficient producers in the United States."

"One thing we do better in Texas than anywhere else on earth is produce food and fiber," White told the farm group. "We just can't let you go out of business." The governor said he was planning to work closely with Hightower and other officials to advance the farmer's cause.

Also addressing the convention were Congressman J. J. (Jake) Pickle of Austin; Texas House Speaker Gib Lewis; Attorney General Jim Mattox; State Treasurer Ann Richards, and Texas Farmers Union President Mike Moeller.

Moeller, elected to a second two-year term by convention

delegates, said Green Thumb had been a vital part of the Older Americans Act for years.

"People came together as never before to fight the fight to save Green Thumb," Moeller said, "and the main reason we won is the Green Thumb workers themselves."

Pickle told the farmers that "Green Thumb is a great program and you (Farmers Union) ought to be proud to sponsor it."

BRUCELLOSIS CONTROL VACCINATION BEING ENCOURAGED IN TEXAS

Regulations designed to encourage vaccination for brucellosis control went into effect January 12. They apply to cattle being shipped into Texas as well as cattle being moved intrastate.

Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said that vaccination of eligible female cattle is a cornerstone of the Texas brucellosis program. "The new regulations reflect this. In order to more effectively control brucellosis, we simply need to get more cattle vaccinated," he said.

More than 98 percent of all cattle herds in Texas are now free of brucellosis. "This is a good record, but we need to get at the remaining infection in this state. These regulations relating to vaccination will help us accomplish this goal," Dr. Holcombe explained.

The two-area program for Texas will become Class B and Class C this month. This means the present Class A control area which comprises 140 counties in the western half of the state will become Class B. The present Class B area, which comprises 114 counties in the eastern half of the state will become Class C area.

The new vaccination requirements for cattle entering either area of Texas are:

After July 1, 1983 female breeding cattle four months of age or older, with some exceptions, must be vaccinated before entering Texas. The exceptions are: cattle from a certified free herd, cattle being shown in fairs or exhibitions, cattle from commuter herds, cattle designated to go to a quarantined feedlot or slaughter, and cattle born prior to January 1, 1983 moving from one area to another within the state.

Female cattle four months of age or older born after January 1, 1983 must be vaccinated when moving from one area to another area in Texas. However, female cattle born prior to January 1, 1983 moving from one area to another in the state need not be vaccinated.

Cattle born after January 1, 1983 changing ownership within the C area must have two negative tests at least 60 days

INTEREST RATES FOR USDA FARMERS HOME LOANS DROP

Interest rates for loan programs of the U. S. Department of Agriculture's Farmers Home Administration will drop again on January 17, Secretary of Agriculture John R. Block announced recently.

"These lower interest rates, which apply to most loans made by the USDA Farm Credit Agency, will be of great benefit to the rural economy and particularly for the nation's farmers who depend heavily on credit," Block said.

It is the third such reduction since October 1982 by the Agency, which makes farm, home and other loans to rural residents and communities who cannot get credit from private lenders.

Block said the reductions are possible because of a general move toward lower interest rates across all sectors of the economy and because of lower costs of federal borrowing.

Interest rates for farm operating loans, used to finance annual costs of production, will drop from 11.5 to 10.25 percent.

Farm ownership rates will drop from 11.5 to 10.75 percent.

Interest rates for "limited resource" borrowers—those unable to afford the full interest rate—will drop from 8.5 percent for operating loans to 7.25 percent. Limited resource farm ownership loans go from 5.75 to 5.25 percent.

The interest rate for actual loss loans due to natural disasters remain at eight percent for those farmers unable to get credit from private lenders. For farmers who can obtain natural disaster loans elsewhere but choose to deal with the Farmers Home Administration, the rate

apart unless they have been officially vaccinated.

Non-vaccinated female cattle entering either B or C area of Texas from a Class C state or area require two negative tests 60 days apart until July 1, 1983.

Dr. Holcombe noted changes in the Code of Federal Regulations went into effect January 12. "These changes in the Texas program conform to that code," he said.

Bryan garden center hires only disabled

BRYAN — A garden center here not only nurtures plants, but also its employees.

The ten employees are participating in a new horticultural therapy program developed at Texas A&M University and supported in part by the Texas Rehabilitation Commission (TRC).

Called Geranium Junction, the business provides responsibilities and the opportunity to be among the public that this group of workers would not otherwise have. Each is handicapped with physical, mental or emotional disabilities, including spina bifida, multiple sclerosis, retardation and blindness.

"The program is a new concept. We're one of the first businesses in the state to hire only handicapped individuals," said Trish Barksdale, store manager. "There's a real need for us and other programs like this. I get calls every day from people who ask if there are any job openings."

remains at 14.25 percent.

The interest rate for production loans to farmers who need financing above the actual loss and are unable to get credit elsewhere drops from 14 to 13 percent. The rate for real estate purposes remains at 13 percent.

Interest rates on long-term loans for soil and water conservation, grazing associations, irrigation and drainage and Indian land acquisition drop from the present 11.5 percent to 10.75 percent.

In housing, interest rates for single family homes drop from 11.5 to 10.75 percent except for borrowers who can afford rates charged by the Department of Housing and Urban Development. Their rates remain at 12 percent.

Rural rental housing loan rates go from 11.5 to 10.75 percent.

On December 31, 1982, rates for water/sewer and rural community facility loans were lowered. The "market" interest rate for those communities able to afford it went from 16.625 to 9.750 percent, and the "intermediate" rate dropped from 7.875 to 7.375 percent. The poverty-line interest rate remained at five percent.

RUTH LEE

**RUTH LEE
CERTIFIED AGENT**

Ruth Lee of Lee's Insurance Agency in Flomot has achieved certification from the Federal Crop Insurance Corporation to sell and service insurance coverage on cotton, grain sorghum, soybeans, sunflowers, barley, wheat and oats.

According to Jackie Harris, District Director of the FCIC, Ruth Lee earned the certification by participating in the intensive training program recently conducted in Lubbock and successfully passing examinations that required a knowledge of all aspects of the Federally-backed insurance program as well as of the coverage available for individual crops produced in Motley, Floyd, Briscoe and Hall counties. The training and testing program was initiated in the fall of 1982 to assure a high level of professional competency among private insurance agents who offer Federal Crop Insurance to farmers in their communities.

Federal Crop Insurance policies, which provide coverage against all unavoidable causes of loss, are designed to offer farmers an affordable way to protect the substantial sums of money which must be invested and risked to produce a crop. The insurance can also assure a source of income to repay outstanding production loans and to meet fixed expenses such as taxes and mortgage payments. To make the coverage as economical as possible, the Federal Government currently pays up to 30 percent of the premium cost.

Mr. and Mrs. Smitty Guest and granddaughter, Tracy Guest, were accompanied by Neal Guest and Doyle Deal Proctor to Ruidoso weekend before last for visiting and skiing. They were met there by Rita's brother, Olen Lane of Van Horn, and his daughter, Leigh Ann Lane of Midland. Mrs. Lane was unable to accompany them because her mother, Mrs. Olive Owens, had undergone surgery in Plainview and she went there to be with her.

Halley's Comet's spectacular tail is about 37 million miles long.

**Autograph Party To
Be Held Saturday**

Few people would have been in a better position to write a book about Hall County than Virginia Browder of Memphis.

An autograph party for her *Hall County Heritage Trails* will be held next Saturday afternoon in the Memphis Library.

Virginia has seen three quarters of a century of Hall County history reel off and she has lived it, loved it and above all enjoyed it.

She grew up on a ranch at Memphis and still lives on the old home place although it has dwindled to a mere five sections.

Her family has been a part of the history of Memphis, her dad, the late James D. Browder, having put in the city water works in 1907.

Virginia has been an almost constant resident of the Memphis community since infancy except for time away in school and time for trips—two to Europe.

"I touched base at the University of Texas," she confides although she did not receive a degree there.

She says she lived the life of a tomboy on her dad's ranch riding horses and helping with the work around the place.

She began her history of Hall County about four years ago.

The first of two volumes of *Hall County Heritage Trails* has just come off the press and will be available at the autograph party in the Memphis Library Saturday afternoon from 2 until 5 o'clock.

**NEWS
OF SPORTS**

Paraskiing is a relatively new sport that is hitting—literally—ski slopes in some of the most treacherous mountain ranges of the United States.

Paraskiing is an unlikely combination of two sports—skydiving's jumping-for-accuracy and skiing's giant slalom racing.

Sometime's called the "hit-and-ski" sport, paraskiing will debut this winter at the Camel Ski Adventure events at 28 ski resorts in the United States.

Jumping out of airplanes flying at 2,500 feet, paraskiers try to hit a 5 centimeter disk in the center of a 5 meter target area. They quickly put on their skis and then race down a giant slalom course.

Some jumpers go bare-foot, but most wear sneakers. The cold snow can cause numbing frostbite—a liability that could prevent skiers from competing again.

MR. AND MRS. RANDY CLAY

**Reagan-Clay Wedding
Vows Solemnized**

Miss Eva Reagan and Mr. Randy Clay were united in marriage Monday afternoon, February 8, 1983, at 2:00 o'clock in the afternoon at the First United Methodist Church in Quitaque with the Rev. Wayne Norman, pastor, performing the double-

ring ceremony. Miss Reagan is the daughter of Mr. and Mrs. Odis Reagan, and Mr. Clay is the son of Mrs. Charles Wallace.

The bride wore an orchid pleated chiffon dress with white accessories. She carried a bou-

quet of orchid and white silk roses showered with orchid and white streamers.

A reception followed in the Fellowship Hall of the church. A two-tiered white decorated cake with orchid flowers topped with the traditional bride and groom, was served with punch from milk glass appointments. The bride's sisters, Mrs. Rex Harmon and Mrs. Stanley Price, served the cake and punch respectively. The groom's sister, Mrs. Melissa Benenati, registered guests.

After a wedding trip to Lubbock, the couple is at home on the Cross S Ranch at Kalgary. Their mailing address is Cross S Ranch, Star Route, Post, Texas 79356.

**TURKEY UMW MEETS
WITH MRS. ARMSTRONG**

The Turkey UMW met with Mrs. Faye Armstrong Monday for a Call to Prayer program. Ila Turner and Mrs. Armstrong were in charge of the program with each person present taking a part. An offering was taken at the close of the program.

Mayme Blume gave the devotional from Psalms 37:5 and read a short article by Norman Vincent Peal.

The hostess served spiced tea, coffee, cocoa and cookies to Kathleen Green, Virginia Degan, Mayme Adamson, Marjorie Bain, Marcella Patterson, Nadine Baisden, Fredia Fuston, and Mmes. Turner, Blume and Armstrong.

There's an old saying that "blue eyes belong to leaders and brown eyes to dreamers..." We can't tell the color of this child's eyes from her picture, but they look a great deal like the eyes of rich wisdom.

Wisdom comes to most of us only after many years of struggle and growth. And even when we feel a bit wiser, we soon realize that there is always much more to learn — that, in truth, learning is a life-long process.

But whatever age and degree of wisdom we may attain, our need for a changeless source of inspiration remains the same. Within your place of worship you will find a power of truth founded on eternal love and maintained by divine wisdom. On such, character is built and wisdom enhanced.

Draw new courage and hope from the wellspring of knowledge that makes men free. Worship this week!

You never mistake the meaning of a Church spire. Even to those who are cold to the ideals for which the Church stands, that finger of faith always points to something that is comforting, reassuring, safe.

The very presence of a Church, whether in a crowded city street or on a quiet country road, is a benediction to all, including those who are not conscious of worship.

Such an influence, with what it means to those who open their hearts to truth, is worthy of a second thought. It merits acceptance as a refuge. It commands confidence as a port in time of storm.

The Church deserves your support — your membership — because it affords real protection for the family whose welfare it is your duty to defend and whose proper upbringing is your solemn obligation.

Panhandle State University students have recently returned from the Sunlight Ski Area at Glenwood Springs, Colorado. The group of 48 was enrolled in HPER 2011 Skiing. They received instruction based on their ability level. The ski class is a yearly event for the PSU students. Those Texas Panhandle

students taking the ski class were, front row left to right: Kathy Woolsey, Stratford; Cindy Miller, Groom; Tracy Adams, Amarillo; Rhonda Slaughter, Perryton; back row left to right: Frank Craig, Sunray; Matt Crowley, El Paso; Tom Eck, McLean; Jim Cabbell, Quail, and Darrell Dowd, Quitaque.

CONFERENCE FOR COMMERCIAL BANKERS

The 1983 Texas Farm and Ranch Credit Conference for Commercial Bankers at Texas A&M University, February 27 - March 1, is designed to provide leaders in the farm credit area with an update on current conditions in agricultural economy and to give insight into dealings with the risks of making credit available during times of economic uncertainty, says an agricultural economist with the Texas Agricultural Extension Service, Texas A&M University System. Sessions in the Rudder Center will deal with state and national economic outlook, evaluating crop insurance, and state and regional loan opportunities.

HEALTHCARE POLICY DECISIONS NEEDED

Current economic conditions are causing people to take a closer look at why healthcare costs are rising faster than any other sector of the economy. Last year, the nation's healthcare bill reached \$287 billion—almost a tenth of the gross national product, reports a health education specialist with the Texas Agricultural Extension Service,

EMGYTAT!

Q. Some refiners advertise that using their oil will improve gasoline mileage. Why?

A. A motor oil's ability to improve gasoline mileage is directly related to its ability to reduce friction. While motor oil itself is a lubricant and therefore reduces friction between rubbing surfaces, Gulf Oil experts point out that this ability is improved through the addition of friction modifiers or additives that further enhance the oil's ability to reduce friction. Oilier oil, so to speak.

Texas A&M University System. Although it is not presently known what approach will be most effective in containing these costs, the health consumer and healthcare system will need to make some difficult policy decisions on this complex issue in the near future, the specialist adds.

**ATTEND SEMINAR
IN HUNTSVILLE**

Roy Patterson, Justice of the Peace of Precinct 4 in Hall County, and James Edwards, Justice of the Peace in Briscoe County Precinct 1, attended a 40-hour seminar at the Criminal Justice Center at Sam Houston University in Huntsville from January 30 until February 4. On the way down, Mr. Patterson spent Saturday night with Mr. and Mrs. Randy Cambridge and baby, Jared, in Dallas, and Mr. Edwards spent the night with a sister and her family in Fort Worth.

Mrs. Virgil Blakney has been a patient in Hall County Memorial Hospital for the past two weeks with a severe case of food poisoning, it was reported. It was thought to have been from something she ate while she and Virgil were in Austin for the Farmers Union Convention. She is feeling much better at this time.

Mrs. Snow Castleberry has returned to her home after spending some time in Hall County Hospital. According to her daughter, Mrs. Dale Garner, she is doing much better.

Mrs. Cora Gragson and Mrs. Ella Mason were in Plainview Monday for Mrs. Gragson to see her doctor.

Earl Hamilton and his daughter, Mrs. Janice Lindsey, of Clarendon visited Mr. and Mrs. Leroy Hamilton one day last week. They are former Quitaque residents.

Mrs. Bill Lane of Turkey visited her parents, Mr. and Mrs. Lon McKay, in Quitaque Monday.

Mrs. Edith Guest of Turkey visited Mr. and Mrs. Lon McKay in Quitaque Sunday afternoon.

Mr. and Mrs. Glynn Barrett, Mrs. A. C. Barrett and Mrs. Lela Mae Hutcheson drove to Plainview Sunday to visit A. C. Barrett. They also saw Bill Griffin.

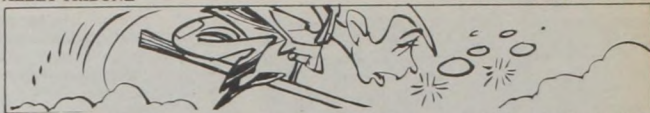

Lottie Owens drove to Plainview Sunday to visit Mrs. Olive Owens at the hospital. She had a good visit with Mrs. Bill Ebbs. Mrs. Olen Lane returned to her home in Van Horn Sunday after spending ten days with her mother at the hospital.

Mr. and Mrs. Elgin Conner and girls spent from Wednesday until Sunday in Harlingen, returning home Monday of last week. Elgin preached there. They were guests of the George McCalls. They also visited the Steve Jennings family. Mrs. Jennings is the former Vanessa Robison of Quitaque.

Enroute to Harlingen, they spent a night in San Antonio and visited the Alamo. They went down on the river for supper and were disappointed that the water was so low that they didn't see any boats.

While in Harlingen, the McCalls took them to Padre Island one day, and another day they went to Matamoros, Mexico. They report a good trip.

The human body is built around a frame containing 206 bones. The whole works is linked together with 60,000 miles of blood vessels.

The world's record for non-stop see-sawing is 101 hours, set by two California boys in 1964.

A few teachers have expressed their concern about a proposed drop in the percentage the teacher and the state pays into the Teacher Retirement System. There is no need for concern. A well-known actuarial consulting firm recommended the state's

contribution be dropped from 8.5 percent to 7.1 and the individual teacher's contribution drop from 6.65 percent to 6.00 percent. This will save the State \$200 million. It will save Texas teachers almost \$100 million. The good investments by the board, the extremely high earnings due to high interest rates and good management were cited as reasons why the contributions could be lowered. This will save each individual teacher about \$120.00 annually. This should be considered good news in view of the tight budget which we are facing. For many years prior to the 1981 Legislative Session, teachers pay was considered after

most of the other items had been built into the budget. During the 1981 session, teachers were considered along with all other segments of the budget. As a result of hard work by the Education Committee and the Appropriation Committee in 1981, teachers were given some of the best raises in years. Some of these raises were accomplished by the Education Committee cutting out fat items in areas not needed. I feel this same process will occur again. We do not need to be pulling any items out of the budget for last or first consideration. We must consider each item, along with others, like placing a jig-saw puzzle together.

To do otherwise will cause divisiveness among different groups and factions affected by the State budget.

Governor Mark White endorsed the election of the Public Utility Commission. I see an appointed commission as being a much wiser route to follow. Appointees get screened through the Governor's office with exhaustive checks made. They are interrogated for days in the Senate. Sometimes to the point of total invasion of privacy. How intelligent was your vote on any of the Supreme Court or Civil Appeals Court judges? How well are you satisfied with the rate

and regulatory decisions of the elected Railroad Commission?

A person of excellent judgment, honest, mature, high character, and well educated running on a ticket of fairness to both the utility company and the consumer would be no match to a shrewd politician running on the ticket, "I'll lower your utility bill."

If you wound up with all consumer activist on the Public Utility Commission, every rate case would wind up in the courts and the Public Utility Commission would be as worthless as a confederate dollar.

Our WATT line number: 1-800-692-1389. For information regarding status of a bill: 1-800-252-9693.

Notice to Hall County Farmers

The Commissioners Court of Hall County has received several complaints on the conditions of our county roads. Many miles of roadway have been turned into waterways after each rain, destroying the roadbeds. This problem has been several years in the making. Landowners and/or their renters have opened terraces, causing the water to flow into the roadway, while others have built diversion dams to divert water from its natural flow. The practice of using the roadway as a turnrow or filling in a ditch so it can be used to turn in has added to the erosion of the roadbeds.

The commissioners court, having duly noted that these practices are a violation of the law, is asking the voluntary cooperation of all landowners and/or their renters in stopping these illegal practices. The court is currently looking into the various ways available to it in solving this problem.

This soil conservation district has offered technical assistance to anyone needing information on repairing or maintaining blocks on terrace systems.

These are several statutes covering the flow of water in Texas; One of these statutes states:

#1 TEXAS CIVIL STATUE 5.085 Interwatershed Transfers

(a) No person may take or divert any of the water of the ordinary flow, underflow, or storm flow of any stream, watercourse, or watershed in this state into any other natural stream, watercourse, or watershed to the prejudice of any person or property situated within the watershed from which the water is proposed to be taken or diverted.

(b) No person may transfer water from one watershed to another without first applying for and receiving a permit from the commission to do so. Before issuing such a permit, the commission shall hold a hearing to determine the rights that might be affected by the transfer. The commission shall notice and hold the hearing in the manner prescribed by its rules.

(c) A person who takes or diverts water in violation of this section is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$100 nor more than \$500 or by confinement in the county jail for not more than six months.

(d) a person commits a separate offense each day he continues to take or divert water in violation of this section.

#2 THE TEXAS PENAL CODE SEC 28.04 States: Reckless Damage or Destruction

(a) A person commits an offense if, without the effective consent of the owner, he recklessly damages or destroys property of the owner.

(b) An offense under this section is a Class C misdemeanor.

These and other statutes may be brought into use in solving this problem when it becomes necessary. The county road administrator has been instructed to report to the court and the county attorney anyone causing water to be turned into the roadway and to file charges on anyone who deliberately damages the roadway.

THE DICK TAYLORS HAVE NEW GREAT-GRANDCHILD

Mr. and Mrs. Dan Ray Duncan of Panhandle are the proud parents of a baby daughter, Samantha Jo, born Saturday, January 29, 1983 at Northwest Texas Hospital in Amarillo. The young lady weighed 7 lbs. 15 1/2 ounces, and measures 19 inches.

Grandparents are Mr. and Mrs. Dan Duncan and Mr. and Mrs. Toby Cunningham, all of Panhandle.

Great-grandparents are Mr. and Mrs. Dick Taylor of Quitaque and Mr. and Mrs. Ray Duncan of Amarillo.

Mrs. J. T. Bradley of Lockney Care Center is the baby's great-great-grandmother.

FIRST NEW GRANDBABY

Mr. and Mrs. Lonnie Wayne Payne are the proud parents of a new baby boy, Micah Wayne, born Thursday, February 3, 1983, at Central Plains Hospital in Plainview. He weighed 8 lbs. 2 ozs. and measured 20 inches.

Grandparents are Mr. and Mrs. Lonnie Payne and Mr. and Mrs. Joe Edd Smith of Quitaque. This is the first grandchild for both couples.

Great-grandparents are Mr. and Mrs. W. W. Woods and Isaac Smith, Quitaque, and Mrs. Henrietta (Skeet) Payne of Clarendon.

Great-great-grandmothers are Mrs. Bertha Woods of Quitaque and Mrs. Olene Edwards of Turkey and Mrs. Beckworth of Amarillo.

NEW ARRIVAL

Mr. and Mrs. Danny Stewart are the proud parents of a baby boy born January 27 at the Childress General Hospital. He weighed 7 lbs. and 15 ozs. and has been named Brandon Kyle. He is 23 inches long and has a sister Katrina Kay, who is three years old.

His grandparents are Mr. and Mrs. Harold Lane of Lubbock and Mr. and Mrs. J. E. Stewart of Turkey. The great-grandparents are Homer and Zona Lane of Turkey and Mr. and Mrs. George McKay of Amarillo.

If milk or cream spills on furniture, wipe it up quickly. Dairy foods act as mild paint and varnish remover. If spots show, clean with white liquid wax.

CARDS OF THANKS

I want to thank all my friends who remembered me with cards, visits, phone calls and, especially, prayers while I was in the hospital. It is people like you who make life worth living. God bless you.

Bill Griffin

Texas A&M engineer working to improve treatment of cancer

COLLEGE STATION — A Texas A&M University electrical engineer is working with a leading Houston cancer institute to improve the effectiveness of a tumor treatment technique that uses heat (hyperthermia).

Dr. Walter Kuklinski, a researcher in Texas A&M's bioengineering program, is developing a system that will measure and record the temperatures of tumors undergoing radio frequency hyperthermia treatment.

Previous studies conducted by the Stebbins Foundation for Cancer Research in Houston have shown that elevated temperatures can destroy cancerous tumor cells without affecting nearby normal cells. Stebbins Foundation physicians currently are using hyperthermia to treat tumors deep within the body that cannot be removed surgically or that haven't responded to chemotherapy.

"Effective hyperthermia treatment of tumors requires precise temperature control," Kuklinski said. "There is only a small range of temperatures where the desired effects of hyperthermia are observed. Temperatures a few degrees lower won't kill the tumor cells and a few degrees higher will destroy normal cells."

Fuel-efficient tractors are goal of Texas A&M engineers

COLLEGE STATION — Texas A&M University agricultural engineers are developing an automated tractor system that could tell a farmer when to slow down or even shift gears to conserve fuel.

The research conducted by Texas A&M's Agricultural En-

gineering Department is part of an effort to help farmers improve energy efficiency, reduce their costs and lower consumers' grocery bills.

The researchers are connecting a complex network of sensors to a tractor for measuring such things as fuel flow, forward travel speed and the amount of power that's being produced.
