Bob Wills Day Is Approaching Quickly

Many plans are being formulated for the annual Bob Wills Day Celebration in Turkey, Texas. This will be the 27th anniversary of the celebration. Thursday evening at 8 p.m. there will be an Autograph Party/Jam Session at the old Turkey high school gym with former Texas Playboys. Friday, April 24th a dance will begin at 9 p.m. at the Bob Wills Center featuring the former Texas Playboys. Saturday will kick off with a pancake breakfast at 6 a.m. sponsored by the Turkey and Quitaque Lions Clubs. This will be at the Bob Wills Center Cafeteria.

Turkey Council Makes Plans For Celebration

The governing body of the City of Turkey met on April 9, at 7:00 p.m., with council members Vicki Lindsey, Barry Long, Louis Randall, and Don House, and Mayor George Colvin. Councilman Rick Mullin was not present. Others attending were City manager Jerry Landry and Theresa Clinton, city secretary. Also attending the meeting were Byron Young, Sheriff Jarrod Wilde, and Deputy Steve Farley, Sergeant Richard Gribble, Larry and Dustin Denton, and Gary and Suzie Johnson. Guests were present to express their concerns about having a safe Bob Wills celebration. Officers assured them that everything is being done to preserve safety and wellbeing of the citizens of Turkey. The financial statement was approved and accepted as read, and bills were approved for payment. The council also voted to purchase food to feed the officers during the Bob Wills weekend, and to have three signs made for entrances into Turkey, outlining rules and regulations of what is allowed in the city. No further business, the meeting adjourned.

The parade will begin to wind its way down Main Street at 10 a.m. on Saturday. Gather up that group, fix your float and let Dusty Hill know that you will be coming to ride in the parade. During the day there will be a barbeque lunch, Old Fiddlers Contest, arts and crafts displays, Bob Wills Concession and a mid-night breakfast starting at 11 p.m., as well as the free afternoon program with MC Dr. Charles R. Townsend on the old football field which will spotlight former Texas Playboys who are present. Saturday night's dance will begin at 7 p.m. featuring Jody Nix and the Texas Cowboys. The Bob Wills Museum will be open during the event and Sunday morning at 8:30 a.m. a Community Worship Service will be held on the old football field.

Lone Star Swing Is Now In Print

The book, *Lone Star Swing, On The Trail Of Bob Wills and His Texas Playboys* by Duncan McLean of Orkney, Scotland is now available. He plans to be at the Bob Wills Arts and Crafts show on April 25, 1998 for a book signing. Mr. McLean was the winner of the prestigious Somerset Maugham award in 1993. He has also written scripts for the stage and for television. Stop by and visit with him and look at this very interesting book on Bob Wills Day, April 25, 1998.

Volunteers are needed in Turkey to help clean up the town. The group will meet at 8:30 a.m. Saturday, April 18th in front of the old high school building. Come and join the group and help make the town shine for the upcoming celebration.

"FACES OF THE WEST" INSPIRED BY WILLS' HERITAGE

Recent work by Texas artist, Cindy Wills, will be exhibited at the newly renovated Sportsman Restaurant in Quitaque, Texas from April 19-25. Coinciding with the Bob Wills Festival in neighboring Turkey on April 24-26, "Faces Of The West" pays tribute to the spirit of the Cap Rock and the people who "make their own rules". Inspired by the artist's experiences in Turkey over the past five years, "Faces Of The West" is a collection of woodburning images on basswood, as well as, a series of paintings using a combination of crayola and watercolor.

Cindy Wills, Youngest daughter of Western Swing creator Bob Wills, inherited the tradition of being born to art and spending life at its development. Aside from studying at the University of Alaska at Fairbanks, she is primarily self-taught, and like her father's music, her work is highly personal, imaginative, and charmingly provocative. For her, art was not an educational or career choice or so much a moment of decision, as it is what she does. "I think that's why I'm so inspired by this part of Texas," she says, "there's such strength and belief in individual choice. People seem to be described not by where they work or how they look or what they own but, really, by what they're doing in their lives."

"Faces Of The West" will be displayed at the Sportsman Restaurant in Quitaque, ten miles west of Turkey. "This is a great way to be part of the Bob Wills' celebration," says owner Roy Pigg. "I've known Cindy since she first started coming to this area and am honored to host this exhibit." According to Cindy, "Almost everyone in this area ends up at the Sportsman Restaurant at some point. It's the community gathering place!"

When she's not spending time at her second home in Turkey, Cindy lives with her husband who is a native Texan and her two sons in a community south of Fort Worth. Her art has been shown in Florida, Washington, Oklahoma and Texas. Last year, she was selected as a featured artist in the First Texas Council of Camp Fire's annual "An Artist's Christmas".

Quitaque EMS News

The Quitaque EMS held their regular monthly meeting on Wednesday, April 1st. There were six members present with two guests. Those present were Rod Hinkle, Jerry Barclay, Jack and Deborah Wellman, Kevin McClellan, Dennis Farley and guests, Roland Hamilton and Deputy Brett Wright.

The Quitaque Volunteer Fire Department presented a proposal to the EMS concerning their assistance at fire scenes. They are asking the EMS to be the incident command and communications center. The Fire Department is so short-handed they cannot afford to have one person for paper work only. They barely have enough manpower to run the trucks. The EMS would not make any firefighting decisions, they would just keep track of times, resources, locations, and etc. The EMS had asked the fire department to let the EMS know if there was anything they could do to be of more help at the scene of a fire.

The EMS felt they should be doing more to help than just being there if they were injured. The plan will be easy enough that anyone can do it and if the EMS should need to transport a patient any firefighter can take over. The EMS is looking forward to helping in this manner.

THEN & NOW!

By Eunice McFall
 Wind, wind, boy have we had a bit of it blowing the past few weeks I had always been told that the month of March was when the wind was so fierce but I think the month of April has been much worse this year. I think if I was naming a pet peeve, this would be it the wind blowing a gale. Not only does it do in your hair, it upsets the sinus in you head, makes you cough, takes away you breath. It can either freeze you or burn you up according to the temperature otherwise. If you have on a full skirt you will spend all your time trying to keep it on your body and if you have a hat on, you will probably chase it down the street and never stand a chance of catching it! Of course, I am told regularly when I complain about the wind that it is very necessary. Without the wind the cattle would probably go thirsty in this part of the world as we need the wind to turn the windmills. Well, my thought is that you can go to the excess of anything! And these high, high winds are not good for anything except moving the real estate into the next county. Several years ago I went back to a school reunion. There was a light wind but nothing like we have had recently. As I entered my aunt's home I was complaining about my face feeling so dirty since the wind and sand had blown! She replied that she had not even noticed the sand at all! So guess it is all in the way that you accept the weather. As for me, I shall never be happy when the wind is blowing a gale and moving sand from hither to yon! Perhaps one of the most annoying things about the wind is that you can gripe all you want and it does not even faze it. It just continues to do its own thing at its own pace in its own time. Really I am just wasting my breath by complaining. Why it won't even show its face! Of course there is absolutely nothing that you can do about the wind except move to a non-windy place--Is there such a place?

**Interest Got Hot In
The City Election**

The city election in Turkey Tuesday resembled somewhat in appearance the month of March—came in like a lamb and went out like a lion. The election started off in the morning in a very quiet and usual manner, 17 votes being cast up to noon.

However during the afternoon "the wind came up" as a write-in campaign got under way, and at closing time (7 o'clock) 133 votes had been cast and voters were still coming.

W B Mullin was re-elected mayor and Drew Holcomb was retained in his job of street commissioner. Those were the only names on the ballot, the others being written in. Here is the unofficial tabulation of the count.

For Mayor, W B Mullin 83; George Stewart 41; Harry Barnhill 2; Bert Degan 1.

For Commissioner, Drew Holcomb 97; Bert Degan 28; George Stewart 1; F O Ham 1; Red Williams 1.

SCHOOL TRUSTEE ELECTION

In the school trustee election Saturday, Jim Eudy was returned to the county board as trustee, a position he has held for several years.

In Turkey independent school district, Roy Fuston and Fox Bolton were returned to their jobs which they have held for several years.

UNDERGOES OPERATION

Mrs. Tom Salem underwent a major operation at a Wellington hospital Monday morning. Mr. Salem is there with her. Visiting her Monday night were Mrs. Laura Campbell, Mrs. Lee Gregory and Mrs. Vivian Cooper who report she is getting along fine.

I D Mullin, Gordon Hedrick, Bert Degan and J T Mullin attended the state ginners convention at Dallas last week, returning home Friday night. All reported a very nice big time.

Plains Cotton Growers Host Annual Meeting

by Shawn Wade
El Nino appears to have played the Texas High Plains right into the hands of the boll weevil in 1998 according to preliminary information on weevil over winter survival.

With the probability of high weevil numbers right from the start in 1998 High Plains producers are being encouraged to up their knowledge of effective boll weevil management techniques.

A workshop the afternoon of April 17 will allow producers to begin the process of preparing for heavier boll weevil pressure in 1998 crop.

The workshop, "Adjusting Cotton Production Systems for Boll Weevil Management", will be held in Room 107 of the Lubbock Memorial Civic Center on Friday, April 17 beginning with CEU registration at 1:30 p.m. A total of 3 Continuing Education Units will be available (1.5IPM and 1.5 General).

All producers are encouraged to attend the workshop to hear about how they can integrate effective boll weevil management techniques into their own cotton production systems.

The workshop will follow the 41st PCG Annual Meeting beginning at 8:30 a.m. Featured speakers for the PCG meeting will be Congressman Larry Combest, Dr. Mark Lange of the Nation Cotton Council and Ms. Carla West from the NCC Washington office.

TURKEY ROOST MUSEUM NOTES

(by Margie Pinkerton)
Approximately two years ago, as Billy and I were working on our farm, Virgil (Buck) Blakney stopped by to visit as he often did. On this occasion he told me he had one of the last walking plows that was used in this area, and that he wanted the Turkey Roost Museum to have it. Just a few days before Buck passed away, he told me not to forget the plow, that he wanted the museum to have it.

"Wednesday" is named after the chief god in Teutonic mythology, Woden, or "Odin." At the beginning of the Christian era, the Germans called it "Woden's-day." The French word for Wednesday is "mercredi," after the Roman god Mercury.

4-H To Host Shower For Rainbow Room

The Briscoe County Senior 4-H Club will host a shower for the Rainbow Room on April 20-24. The Rainbow Room is a resource that case workers for Child Protective Services use to get supplies for abused or neglected children when they are removed from a home. The Rainbow Room is supported only by donations and without the room case workers would supply diapers, cleaning supplies, toys, etc. out of their own pockets.

The Senior 4-H Blue will be collecting such items to donate to the Rainbow Room that case workers who serve this county would use.

Donation boxes will be set up at Nance's Food Store in Silverton and Merrell Food in Quitaque the week of April 20 through 24. Your donation would be much appreciated. For more information contact the Briscoe County Extension Office at 823-2131 or Molly Brooks at 847-2559.

Fifteenth Annual Panhandle Heritage Memorial Trailride Benefits Make A Wish Foundation

May 23 and 24th the Panhandle Heritage Memorial Trailride will once again hit the trail. This year the net proceeds of the trail ride will go to Make-A-Wish Foundation of the Texas Plains. Their motto is "No one stands taller than when they stoop to help a child!"

Some changes have been made this year due to circumstances beyond their control. This year they will be having a medley of rides; beginning as in the past at the Figure 3 Ranch's "Cowboy Mornin' Breakfast."

Two options are available. The first is the Medley Ride which will be from the North rim of Palo Duro Canyon on the Figure 3 Ranch down into the canyon and along Dry Creek Trail to where it intersects the Prairie Dog Town fork of the Red Raiver, then eastward to the bridge at Texas Highway 207, a distance of 16 miles, and the lunch site. This will be the end of the first leg of the Saturday ride. Rigs will be shuttled to this point and after the brief lunch they will load up the mounts and proceed to Caprock Canyons State Park where the group will unload and set up camp. About 3 p.m. they will assemble for the second ride of the day, an interesting excursion into the wilds of Caprock Canyon, returning to camp in time for dinner with the Clover-Leaf Riders around 5:30 p.m.

Sweet Potatoes As Ornamental Plants

Stephen F. Austin University horticulturist Greg Grant says even an inexperienced gardener can grow an ornamental sweet potato. It likes well drained soil and full sun and does not need ideal bedding conditions. Grant says it makes excellent ground cover growing about a foot tall and four to five feet wide. He says start one potato in a container and plant it in mid-April to early May. It will last until the first frost.

The second option is the Clover Leaf Ride which will consist of rides within the realm of Caprock Canyons State Park and its Rails-to-Trails Parkway, a veritable smorgasbord of trail options including a shuttled trip for a ride down through Quitaque Canyon and the historic Clarity Railway Tunnel. There will be one of these planned for both Saturday and Sunday.

This non-profit organization has dedicated the ride as a living monument to the memory of those early settlers of this region who faced untold hardships in an untamed frontier. To the memory also of the vanquished Quahadi Commanche and Kiowa tribes who traveled the trail of tears toward the reservation to learn the white man's ways. These trails will take the through the most beautiful part of their ancestral homeland. Memories such as these should be held in hearts as a sacred trust to be shared with our children and grandchildren and generations yet to be born.

For further information call: evenings or weekends 806/655-2286, 806/488-2757, 806/354-8781, 806/352-3122 or 806/358-3144.

Water Gardens Trendy

For years, rock gardens were popular. Now the pendulum is swinging the other way and water gardens are trendy. Water adds a restful dimension to a landscape. The motion and sound create a sense of peacefulness.

People are also discovering how versatile they are. You don't have to dig a big hole in the yard. You can make smaller water gardens in portable clay, plastic or wooden containers. Extension horticulturist Dr. Bill Welch says the water needs to be at least 18 inches deep and the aquatic plants will do best if they have at least half a day of direct sunlight. Welch says the underwater, potted plants need to be repotted once a year to keep them healthy. The pool should also be cleaned at least once a year. Welch says your goal should be a balance between water, plants and animals. Fish, frogs and snails help keep down insect populations and algae.

Western Artist Featured In TEXAS Program

The paintings of cowboy artist Robert Pummill will be featured in the 1998 souvenir program of the musical drama "TEXAS," which opens its 33rd season June 10, 1998. "TEXAS" will play nightly except Sunday at 8:30 p.m. through August 22 in Palo Duro Canyon.

Pummill's western art depicts the cattle industry and transportation during the time period ranging from 1840 to 1900.

"TEXAS" annually selects a cowboy artist's work to enhance the western tones projected in the outdoor drama's script. The western scenes scattered throughout the souvenir program are vivid reminders of the culture upon which "TEXAS" is based.

Some people believe it good luck to see a swallow or a stork.

"Let all things be done decently and in order."
 -I Corinthians 14:40

If you are like a lot of us, you are hardworking, generous, kind-hearted, and in fact virtually the who list of Boy Scout attributes; but you have never learned the secret of being organized. You can quickly turn your house or office into a state of chaos, because you try to do too many jobs at once; and since you can't bear to throw anything away, you never have enough storage space. Moreover, you overload your circuits because you are too public-spirited to say no to any worthy cause; and so you are too busy to serve any of them properly. Nevertheless, take the time to attend your House of Worship, for it will help you bring neatness and order into your life. There are only so many hours in the day, and you should let the Lord show you how to make the most to them. After all, He arranged the workings of the whole universe, so He can easily do the same for you.
