## New And Popular Crop May Benefit Local Area

Grapes, a new and popular crop of the High Plains is a new interest of the Texas Agricultural Experiment station scientists. Scientists can explain effects of variations in climate and soil types in the High Plains upon selection of cultivars for best results in our area.

Research results from 1985 and 1986 have shown improved crop yields and increased profitability from conservation tillage and rotational systems when compared to conventional

crop production, said Dr. Wayne Keeling, systems agronomist with the Experiment Station. He also includes weed research in conservation tillage and control of problem annual and perennial weeds.

Commercial producers and home grape growers can learn more about this increasingly popular area crop from Dr. William Lipe, professor of viticulture with the Experiment Station.

Lipe understands the effect of differing microclimates of

the area have on the adaptability of cultivars. "It is imperative to select cultivars that are less vigorous and more cold tolerant for the heavier soils and colder temperatures around the Plainview area than for vineyards in Lubbock," Lipe said.

Lipe also displays varieties of grapes which have undergone tests and will discuss their merits.

The experiment station also researches center pivots and its use to the farmer; studies on the amounts and types of fertilizer applications for maximum benefits, and cotton types developed for new farming systems.

For more information contact Dr. Wayne Keeling, System Agronomist and Texas Agricultural Experiment Station, Route 3, Lubbock, Tx 79401 or call 746-6101.

## Immunization Clinic Scheduled

Immunization clinics offering vaccines that give protection against several childhood diseases are scheduled for September. Protection is against polio, diphtheria, lock jaw (tetanus), whooping cough (pertussis), measles, rubella, and mumps. The clinic is scheduled for Valley Schools on September 18 from 10-11:00 a.m.

The Texas Department of Health is charging money to help with the cost of keeping the clinic open. The amount of money charged will be based on family income and size, and the ability to pay.

Patriots saw exciting action Friday night against Claude Mustangs, in the season's opener. Valley brought home a big win, 47-0, as they get ready for Happy Friday night.

## Patriots Win Big Over Claude In First Outing

The first football game of the season was played at Claude this past Friday with the Valley Patriots coming out with a 47-0 victory.

Eric Scoggins had 98 yards rushing. Bubba Clardy, who played only in the fourth quarter had 63 yards rushing.

## Camera Club Resumes Activities

The Caprock Camera Club will meet this Thursday night at the bank community room at 7:30 p.m. Print competition starts this month, so be sure to come prepared.

were Eric Scoggins with a 27 yard run, kick failed; Kirk Martin, 11 yard pass from James Taylor, kick good; Scoggins, 13 yard run, kick good; Jackie McNary, 6 yard

run, kick failed; Scoggins, 20 yard run, kick good; Jackie McNary, 20 yard run, kick good; Scoggins 21 yard run, kick good; Clardy, 15 yard run, kick good.

Patriots offense racked up a total of 220 yards with 165 coming on the ground and 55 yards passing.

Valley had 23 first downs and intercepted 3 passes.

Patriots will play the Happy Cowboys at Happy on Friday night at 8:00 p.m. This should be a real test for the Patriots because Happy is an excellent ball club.

## Guest Editorial

by Patty Adams / Editor-The Paducah Post

The United States Post Office and its services most of us take for granted. We are quick to criticize when mail goes astray, never thinking for one moment that it could have been US!

Probably none of us think to toss an occasional bouquet of appreciation their way either. For the most part, service is good in both rural and city areas with "going the second mile" not uncommon.

In fact, just yesterday I received a reply from the office of the Postmaster General in Washington regarding my July 24 request for information regarding the establishing of the Cee Vee Post Office. Instead of being directed to File 13, an informative letter was forthcoming!

From a postal column entitled *Stamping Around* authored by Les Winick, comes the following:

Postal service has come a long way since the post office tried camels for mail delivery during the Civil War. They did not work out because the animals stampeded when they came into contact with horses or mules and bit their drivers. Today, letter carriers only have dog bites to worry about.

Love postage stamps are very popular, but not with everyone. In Arkansas, a neighbor asked another to trade a postage stamp. Asked if this was some kind of joke, neighbor number one replied, "Far from it, I'm sending in my tax return. The only stamp I have in the house says LOVE."

A yachtsman recently visited the Tuvalu Islands in the South Pacific. It's unconfirmed, but the manager of the local stamp bureau reported that the boat owner did not have a map of the islands, but was able to navigate through the shallows by using a Tuvalu postage stamp that pictured the islands in detail.

Years ago, in Norway and Sweden, when a message was extremely urgent, a feather was attached to the envelope, indicating that postal officials should "fly like a bird and deliver the message with all speed. These envelopes still exist today and are considered highly collectible items by stamp collectors.

Post, as in "post office" comes from the Latin "positiones," the inns where men and horses were housed at the end of a day's journey in ancient Rome.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION NOVEMBER 3, 1987

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 104 proposes a constitutional amendment to allow the legislature to provide a guarantee for the Texas grain warehouse self-insurance fund. The guarantee of the fund may not exceed \$5 million, and when the fund reaches \$5 million, the guarantee will cease. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the surety of a grain warehouse fund to be established by the grain industry for the protection of farmers and depositors of grain in public warehouse facilities."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 60 proposes a constitutional amendment to permit rural fire prevention districts in counties with populations over 400,000 to levy a tax at a rate not to exceed six cents (\$.06) per \$100 property valuation for the district, if the voters of the district approve the tax.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to raise the maximum property tax rate that may be adopted by certain rural fire prevention districts, but only if approved by the districts' residents."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 48 proposes a constitutional amendment to extend the school ad valorem tax exemption for elderly persons to the surviving spouse of a person receiving the exemption. If a surviving spouse is at least 55 years old at the time of death of the person receiving the exemption, ad valorem public school taxes could not be increased as long as the homestead remained the residence homestead of the surviving spouse.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to limit school tax increases on the residence homestead of the surviving spouse of an elderly person if the surviving spouse is at least 55 years of age."

PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 5 proposes a constitutional amendment to allow the legislature to create programs and make loans and grants of money for development and diversification of the economy, elimination of unemployment and underemployment, stimulation of agricultural innovation, promotion of agricultural enterprises, and development of transportation and commerce. Bonds or other obligations payable from ad valorem taxes must be approved by the voters in the political subdivision seeking such funding sources.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide assistance to encourage economic development in the state."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment to permit the State Department of Highways and Public Transportation to contract with the Texas Turnpike Authority and to contribute money to the costs of turnpikes, toll roads and toll bridges of the Authority. The amendment would authorize the governing body of a county with a population over 400,000, a county adjoining such county, and any city or district located in or partially in such county to make agreements with the Texas Turnpike Authority and levy ad valorem taxes to pay part or all of the principal and interest on Turnpike Authority bonds and to pay maintenance and operating expenses of the Turnpike Authority, if the voters approve the tax.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing agreements between the State Department of Highways and Public Transportation and the Texas Turnpike Authority and the governing bodies of counties with a population of more than 400,000, adjoining counties, and cities and districts located in those counties to aid turnpikes, toll roads, and toll bridges by guaranteeing bonds issued by the Texas Turnpike Authority."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to allow the legislature to establish three separate development funds. A Texas product development fund could be established to aid in the development and production of new or improved products in the state. The amendment would authorize the issuance of up to \$15 million of general obligation bonds to provide initial funding for the program. A Texas small business incubator fund could be established to foster and stimulate the development of small businesses in the state. Small businesses operating under the program would be exempt from ad valorem taxation. The amendment would authorize the issuance of up to \$10 million in general obligation bonds to provide initial funding for the program. A Texas agricultural fund could be established to promote the production, processing and marketing of agricultural products produced primarily in Texas by small Texas agricultural businesses. The amendment would authorize the issuance of general obligation bonds in the amount of \$100 million outstanding at one time to carry out the agricultural fund program. The legislature could require review and approval of the issuance of bonds and the use of bond proceeds.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for state financing of the development and production of Texas products and businesses."

PROPOSITION NO. 7 ON THE BALLOT

Senate Joint Resolution 55 proposes a constitutional amendment to authorize the legislature to provide for the issuance of \$400 million in general obligation bonds to be used for loans to local governments for acquisition, construction, repair, renovation, and equipment of public facilities or for grants to local governments for planning public facilities. The amendment would also permit the issuance of revenue bonds for the same purposes to be repaid from excess revenue from repayments of loans made under the amendment and from other revenues pledged to the retirement of revenue bonds. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the issuance of general obligation bonds to finance certain local public facilities."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 56 proposes a constitutional amendment to allow the legislature to authorize the issuance of up to \$500 million in general obligation bonds to be used to acquire, construct, and equip new correctional institutions and mental health and mental retardation institutions or to repair existing institutions. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the projects to be financed by the bond proceeds.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of general obligation bonds for projects relating to corrections institutions

and mental health and mental retardation facilities."

PROPOSITION NO. 9 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment to provide that a state legislator is eligible to serve in another state office even if the compensation of the office was increased during his legislative term or even if the appointment is made in whole or in part (including Senate confirmation) by the legislature. The legislator could not, however, receive the increased compensation approved during his legislative term.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide that a member of the legislature is eligible to be elected or appointed and to serve in a different state office but may not receive an increase in compensation granted to that office during the legislative term to which he was elected."

PROPOSITION NO. 10 ON THE BALLOT

Subsections (d) and (e) of Section 1 of Senate Joint Resolution 12 propose a constitutional amendment to allow the legislature to exempt from ad valorem taxation all tangible personal property except structures which are used as residential dwellings and property held or used for the production of income. This exemption would be in addition to the personal property homestead exemption already established by the constitution. If the legislature authorizes the exemption of additional personal property from taxation, under this amendment, local political subdivisions may pass resolutions providing for taxation of such property unless the property is exempt from ad valorem taxation under another law.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to exempt from ad valorem taxation certain personal property not held or used for the production of income."

PROPOSITION NO. 11 ON THE BALLOT

Section 1, Subsections (f) and (g) of Senate Joint Resolution 12 propose a constitutional amendment to exempt from ad valorem taxation goods, wares, merchandise, and ores other than oil, gas and petroleum products. These items would be exempt from taxation only if they originated outside the state and were located in the state for a period of 175 days or less for purposes of assembly, storage, manufacture, processing, or fabrication. Such property could be taxed by a county, school district, or municipality if the governing body of the political subdivision took official action to provide for the taxation of the items while they were located in the political subdivision. If the governing body of a political subdivision took official action to tax the items before January 1, 1988, the tax would be effective for the 1988 tax year. If the action were taken after January 1, 1988, and before April 1, 1988, the tax would become effective January 1, 1989.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the exemption from ad valorem taxation of certain property that is located in the state for only a temporary period of time."

PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 35 proposes a constitutional amendment to allow a married couple to agree in writing that all or part of their community property will become the property of the surviving spouse if one spouse dies.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting spouses to hold community property with right of survivorship."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment to authorize the creation of special districts to provide emergency services. The commissioners court in a county participating in a district could, upon approval of the voters, levy an ad

valorem tax of up to ten cents (\$.10) per \$100 valuation of the property located in the district.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow for the creation and establishment, by law, of special districts to provide emergency services."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment to allow the state a limited right to appeal criminal cases. Under current law, only criminal defendants are allowed to appeal. This proposed amendment would allow the legislature to pass laws granting state prosecutors the right to appeal in limited circumstances.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment giving the state a limited right to appeal in criminal cases."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 35 proposes a constitutional amendment to abolish the office of county treasurer in Gregg County and transfer the duties of that office to the county auditor or an elected official designated by the commissioners court. The amendment would also abolish the office of county treasurer in Fayette and Nueces counties if a majority of the voters in those counties vote in favor of the amendment. In Fayette County, the functions of the treasurer would be transferred to the county auditor or the officer succeeding to the auditor's powers, duties, and functions of the treasurer would be transferred to the county clerk.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the abolition of the office of county treasurer in Gregg, Fayette, and Nueces counties."

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment to allow the commissioners court in a county with a population of more than 150,000 to establish more than one Justice of the Peace court in each Justice of the Peace precinct, i.e., to provide for the election of more than one Justice of the Peace in each Justice of the Peace precinct. The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that certain justice precincts may contain more than one justice of the peace court."

PROPOSITION NO. 17 ON THE BALLOT

Senate Joint Resolution 26 proposes a constitutional amendment to allow the legislature to define by law those municipal functions that are governmental and those that are proprietary. This authorization would apply to laws passed by the 70th Legislature, 1987, and by future legislatures in regular or special session. A municipality is liable for damages arising out of acts committed under its proprietary functions, but not its governmental functions. Definition of such functions by the legislature would clarify the liability of a municipality in civil lawsuits filed against it.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to define for all purposes the governmental and proprietary functions of a municipality."

PROPOSITION NO. 18 ON THE BALLOT

House Joint Resolution 18 proposes a constitutional amendment to authorize the legislature to provide for the creation, operation, and financing of jail districts. Financing of a jail district could be accomplished through the issuance of bonds and other obligations, or by levy of an ad valorem tax on property located in the district if the qualified electors of a district approve an ad valorem tax or bonds secured by a property tax.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the creation, operation, and financing of jail districts."

PROPOSITION NO. 19 ON THE BALLOT

House Joint Resolution 88 proposes a constitutional amendment to authorize the issuance of \$500 million in general obligation bonds, the proceeds of which will be used to establish a superconducting super collider fund. The fund would be used to provide economic incentives for the superconducting super collider research facility, and the agency administering the fund would be authorized to grant land or property to the United States government for undertakings related to the facility.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to fund undertakings related to a superconducting super collider research facility sponsored or authorized by the United States government, and to make appropriate grants for such undertakings."

PROPOSITION NO. 20 ON THE BALLOT

House Joint Resolution 96 proposes a constitutional amendment to allow the legislature to provide ad valorem tax relief for mobile offshore oil and gas well drilling equipment. The tax relief would be limited to equipment that is being stored while not in use in a county that is adjacent to the Gulf of Mexico or on a body of water that is adjacent to the Gulf of Mexico.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to provide ad valorem tax relief for certain offshore drilling equipment that is not in use."

PROPOSITION NO. 21 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment to provide for legislative involvement in the executive branch of government by permitting the legislature to include the speaker of the house of representatives in the membership of an agency or committee that includes officers of the executive branch of government and performs executive functions. Under current law, the legislature is not allowed to exercise any powers in executive matters under Article II of the Texas Constitution, which provides for the "separation of powers" into three distinct departments.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the legislature to include the speaker of the house of representatives or the speaker's appointee in the membership of an executive agency or committee."

PROPOSITION NO. 22 ON THE BALLOT

Senate Joint Resolution 53 proposes a constitutional amendment to allow the legislature to limit the term of office of a gubernatorial appointee to a vacancy in a state or district office to a partial, temporary term if the appointment is made on or after November 1 of the last year of the governor's term and the governor is not reelected. Under this amendment, the legislature may provide that the tenure of such an appointee would end sooner than the term would normally expire.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to limit the authority of a governor to fill vacancies in state and district offices during the end of the governor's term if the governor is not reelected."

PROPOSITION NO. 23 ON THE BALLOT

Senate Joint Resolution 54 proposes a constitutional amendment to authorize the Texas Water Development Board to issue an additional \$400 million in water development bonds. Of the \$400 million authorized, \$200 million would be designated for conservation and development of water resources, \$150 million would be designated for water quality enhancement, and \$50 million would be designated for flood control. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$400 million of Texas Water Development Bonds for water supply, water quality, and flood control purposes."

PROPOSITION NO. 24 ON THE BALLOT

House Joint Resolution 83 proposes a constitutional amendment to allow a county to use county equipment and personnel to perform work, without compensation, for another governmental entity if the commissioners court finds that the work will not interfere with the performance of county work and approves performance of the work. The governmental entity must be located wholly or partly in the county, and the governing body of the governmental entity must file a written work request with the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit a county to perform work, without compensation, for another governmental entity."

PROPOSITION NO. 25 ON THE BALLOT

Senate Joint Resolution 5 proposes a constitutional amendment to allow the Legislature to authorize Randall County to levy a tax for the benefit of the Amarillo Hospital District. Any such tax could be levied only on property located outside the City of Amarillo and outside the South Randall County Hospital District. The tax could not be more than 75¢ per \$100 property valuation and would be effective only upon approval by the voters in the area to be taxed. If the tax is authorized by the Legislature and approved by voters, the Amarillo Hospital District is to serve residents of part of Randall County. If a tax is levied under this provision, Randall County must repay the State for the cost of publication of this amendment.

The proposed amendment also permits the legislature to authorize a hospital district to change its boundaries or jurisdiction if the district was created or authorized by a constitutional provision that includes a description of the boundaries or jurisdiction of the district. Any change in the boundaries or jurisdiction of such a hospital district would become effective only upon approval of the voters in the district.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to permit the Amarillo Hospital District to serve certain residents of Randall County, to authorize Randall County to provide financial assistance to the district, and to authorize certain hospital districts to change their boundaries or jurisdiction with voter approval."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 1

Senate Bill 86 submits to the voters the question of whether the 15 members of the State Board of Education should be appointed instead of elected. If the proposition passes, the Governor will appoint a member of the board for each district, with the consent of the Senate. If the proposition fails, the members will be elected from these districts.

The referendum will appear on the ballot as follows:

"The State Board of Education shall be composed of members who are appointed from districts instead of elected, with equal representation throughout the State of Texas."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 2

The Texas Racing Act submits to the voters the question of whether pari-mutuel wagering should be legal in Texas on a county-by-county local option basis. If pari-mutuel wagering is adopted by the voters statewide, a county must also pass a separate proposition on pari-mutuel wagering at an election held in the county before any such wagering may be conducted in that county.

The referendum will appear on the ballot as follows:

"The legalization of pari-mutuel wagering under the Texas Racing Act on a county-by-county local option basis."

# Coker Children Visit During Month Of August

During the month of August, Ann and U. F. Coker were fortunate enough to have all their children home.

Linda and Mark Hamilton were called home to Mark's home, Lamesa, because of the death of his grandmother, Mrs. Roland Hamilton. Immediately following the funeral, Mark had to return to the Pensacola Naval Station.

Linda came to Turkey for a visit with her parents.

Before she had to return to Pensacola, Brenda Coker, of

Junction, came for a visit. Both girls were here to celebrate their mother's birthday.

A few days later, Kim and Lisa Coker, of Sugarland, arrived for a short visit. Kim's birthday was celebrated a few days early, before they returned to their home.

Also guest in the Coker home during August was Ann's brother and wife, Chuck and Margaret Bogan of Borger. Chuck and Ann celebrated their "summer" birthdays together.

thanks for the meal. A delicious covered dish supper was enjoyed by nineteen members and three visitors, Mrs. Lola Hooker of Visalia, Calif. and Brenda and Jennifer Aubuchon.

Table games were played followed by group singing of songs. Mrs. Hooker played several musical selections on the piano which were greatly enjoyed.

Rev. Roy Patterson gave the dismissal prayer.

Margie Pinkerton took blood pressure tests before the meeting began.

## BATTY FACTS

Q. Do bats really fly?  
A. They do indeed, and are the only mammals to do so, report researchers from *Newton's Apple*. Bats are unique in another way. They can produce and hear sounds up to 1,000,000 vibrations per second. Humans can rarely detect frequencies higher than 20,000 per second but if we were able to hear bats, they'd sound like the scream of a jet fighter.  
Here are some more bat trivia:  
• As bats fly—at speeds of up to 40 miles per hour, they emit ultrasonic clicks that bounce off objects and are reflected back to their sensitive ears.  
• The largest living bats, the so-called flying foxes of Malaya, may have a wing span of between four and five feet.  
• A newborn bat clings to its mother or to the ceiling of the cave because it cannot fly when first born.

## NEWS OF HEALTH

Firm Mattress Best For Backs  
People have a lot of remedies for back pain. Because we spend one-third of our lives in bed, there are many opinions about what type of sleep surface is better for our backs.

But orthopedic surgeons still say that a firm to hard innerspring mattress and box spring combination is better for your back and overall health. In a nationwide survey, it was their number one recommendation.

A quality innerspring mattress, one which is supportive and comfortable, is important in the prevention of back problems, the doctors said. An old and worn innerspring mattress, or in some cases, other types of mattresses like those filled with water, may even cause back injuries because they are not supportive enough.  
More than half of the 200 surgeons interviewed (51%) said sleeping on a water bed could increase the pain of an existing injury. Another 36% said water beds could aggravate an old injury.  
"Doctors suggest a firm sleeping surface because it keeps the body in its natural alignment. It's a good buy for your money and your health," says Arthur Grehan, executive director of the American Innerspring Manufacturers (AIM).

**OBSIDY & TV**

Do your kids come home from school "starving" and park in front of the television and eat?

Many kids spend as much time watching television as they spend in school each day. If they're watching TV, there's a good chance they're snacking—possibly on a food they saw on a commercial.

According to the National Health Survey, childhood obesity is linked to the amount of time children spend watching TV. TV viewing takes time away from active playtime.

Get your child interested in more active recreation than television. Encourage kids to use their imaginations in physical activities. When they do watch TV or do homework, provide them with nutritious, lower-calorie snacks such as fruits, cheese, breads, peanut butter, crunchy vegetables, or milk rather than the higher calorie, less nutritious soft drinks, chips, cookies, and candy.

My college daughter recently received information from her university dining hall indicating that many freshmen students gained an average of 9 pounds during the year, sophomores an average of 7.3 pounds, juniors 7.8 pounds and seniors 6.5 pounds. That is over 30 pounds during a 4-year college career.

This weight gain might also be attributed to a less physically active lifestyle.

We need to encourage a more active lifestyle and more calorie conscious food choices in our young people in order to reduce health problems in later life.

If you need nutrition information or would like a copy of the letter series, "The Diet-Exercise Connection", call 823-2343 or come by my office in the courthouse basement.

**Study In Acts Begun By UMW Group**

Turkey United Methodist Women met in the Church chapel at 4 p.m. Monday for the beginning of their Bible Study of the book of Acts.

The program book was written by Charles Yrigoyen Jr., General Secretary of the General Commission of Archives and History of the United Methodist Church. Prior to this position, he was a chaplain and professor at Albright College.

Mrs. Fredia Fuston is leading the study that opened with the 1st and 2nd chapters of Acts.

As each one arrived, Mrs. Fuston pinned a name on each person's back. During the session each one had to guess who each represented by clues presented by the others. It became quite informative as each one tried to guess their own character.

Mrs. Patterson, president, presided over a short business session with Mrs. Wedge reading the minutes which were approved. Mrs. Green gave a treasurer's report.

Next session will cover Chapters 3, 4, and 5 of the Book of Acts. Mrs. Degan gave the benediction. Those present were Mmes. Roy Patterson, Gene Fuston, R.C. Green, Gilbert Wedge, Virginia Degan and Nadine Baisden.

**Cogdills Wed 50 Years Sept. 16, 1987**

Mr. and Mrs. Oval Cogdill will celebrate their 50th wedding anniversary Sept. 19th, in the Turkey Sr. Citizen building.

The former Clova Dell Baker and Oval Cogdill were married Sept. 16, 1947, by Bro. Luther Crawford in Newlin, Texas.

**Bridal Shower Honoree Is DeLane Proctor**

A bridal shower honoring DeLane Proctor, bride elect of Brent Brown of Quitaque was held in the home of Mrs. Hubert Price in Turkey on Saturday, Sept. 5.

Guests were greeted by Mrs. Frank Lane who registered the guests. Other hostesses directed the guests to the bedrooms where a large assortment of gifts were on display. A card table and four chairs, the hostess gift, were on display in the living room, along with a barbecue grill, a gift from the parents of the groom-to-be.

Refreshments of spiced tea, coffee, cinnamon rolls, and sausage balls along with fruit balls, were served from a table covered with a white linen cloth centered with a country floral arrangement in navy and yellow. Crystal and silver appointments competed the arrangement from which Mrs. Johnny Peery and Mrs. E.L. Hill served the guests.

Hostesses were Mmes. Mary Hogue, Kay Eudy, Virginia Degan, Wilda Fuston, Delores Price, Lisa Price, Sandy Fuston, Jo Lacy, Claudine Peery, Bonnie Hill, Nadine Baisden, Margie Pinkerton, Mary Beth Adamson, Paulette Lipscomb, Colleen Stone, Betty Green, Velma Lacy, Cathryn Setliff, Cindy Lane, Janice Wheeler, Willie Grace Majors, Gladys Hanna, and Karen Thompson of Lubbock.

"Yes, dear." "Then tell me, mama, what's the use of having daddy hang around?"

France has out a new record.

It's titled, "If you were De only Gaulle in the world!"

Sign in a traffic court "Don't Complain... just think of the many times you should have been here!"

Little girl, showing her playmate the bathroom scales, "All I know is, you stand on it, and it makes you very mad!"

"There's nothing wrong with rock fans" said a local man. "Why, the 15 year old girl next door to me is one, and she's the most wonderful mother to her two youngsters you ever saw!"

Don't let anybody influence your vote. Read the paper, listen to the speeches, read the literature, and draw your own confusion!

That's -30- for this time, remember, the reason we get gray is because we purchase last year's car with next year's money!
