Good Guy Award

by Ann Coker

Sunday morning was so unpleasant and we heard over the news that the roads out of Amarillo were closed. We didn't expect to receive our Amarillo paper.

We were quite surprised and pleased when Arthur Beck pulled into our drive and delivered our paper in our yard.

Virginia Degan reported that Arthur brought her paper to her porch Sunday morning.

For this caring gesture, I nominate Arthur Beck for the "Good Guy Award."

Sanctioned by the Ultra Marathon Cycling Association "The Race Across America" began in 1982 and has taken place once per year for the past 16 years. RAAM 1998 is the 17th annual event.

The race was founded in 1982 by John Marino, Michael Shermer, and Lon Haldeman. The first woman entrant was in 1983. The first tandems entered in 1990. The team event began in 1989 with four 4-man HPV relay teams. In 1992, four 4-cyclist teams on traditional bikes competed.

Lon Haldeman, Pete Pensyres, Bob Fourney and Susan Notorangelo have each won the race twice. Rob Kish is the only man to win three RAAMs and Seana Hogan is the only rider to win it five times.

All solo men and women and individual tandems will start the race on Thursday July 23. The four person relay teams and eight person tandem relay teams will begin their race on Sunday July 26 at 9 a.m.

Spring rehearsal was in Midland, March 6th through noon on Sunday the 8th. Spirit Wind 1998 dates will be May 31 through June 14.

THEN & NOW!

by Eunice McFall

Last week we started a column with one person's ideas about what lessons are sometimes learned at certain ages. This week we will continue through the age of 90.

I've learned that you can tell a lot about a man by the way he handles these three things: a rainy day, lost luggage and tangled Christmas tree lights. Age 52

I've learned that regardless of your relationship with your parents, you miss them terribly after they die. Age 53

I've learned that making a living is not the same thing as making a life. Age 58

I've learned that if you want to do something positive for your children, try to improve your marriage. Age 61

I've learned that life sometimes gives you a second chance. Age 62

I've learned that you shouldn't go through life with a catcher's mitt on both hands. You need to be able to throw something back. Age 64

I've learned that if you pursue happiness, it will elude you. But if you focus on your family, the needs of others, your work, meeting new people, and doing the very best you can, happiness will find you. Age 65

I've learned that every day, you should reach out and touch someone. People love that human touch--holding hands, a warm hug, just a friendly pat on the back. Age 85

I've learned that relationships are what really count. Old friends are special to remember with but new friends are the spice of life and the roadway to the future. Age 90

If I reach the age of 100 I hope I shall remember how wonderful, full and rich that my 100 years have been and that I have learned to take each day--one day at a time.

Things Seen or Heard

by Ann Coker

We thoroughly enjoyed watching "John Bayless in Concert," a 90 minute documentary put together by Amarillo's PBS affiliate KACV-TV. It was on Sunday night.

John Bayless is an extremely great musician. He has given concerts all over the world. He is a Borger native.

One of his requests Sunday night was "Play the Eyes of Texas as Mozart would play it." It was quite an unusual piano performance.

John Bayless' mother, Mary Lee Bayless was in school with me in McLean and we also attended WT together and lived in the same dorm.

John's father is a county commissioner at Borger and Coker has enjoyed knowing him.

Jack Case of Matador had some heart surgery last Thursday. He was allowed to return to his home over the week-end.

Janice and Billy Wheeler and Dovie Wheeler were visitors in Oklahoma last week. They visited with Dovie's sister and other relatives.

Abusy woman the last few weeks has been Rita Guest. She has been working at the Silverton Post Office many mornings and some all day.

Visiting with Janice Russell the first of the week was her grandson, Jason Cloyd of Memphis. Jason is enjoying spring break.

Homer Hawkins received word Monday that his sister-in-law, Mrs. Paul Hawkins, died Sunday night. The Paul Hawkins live in Vernon. Her funeral will be at the Vernon Methodist Church Wednesday at 2.

Visitors in the home of Virginia Degan over the week-end were her grandson and wife, Mike and Shelia Prather. The Prathers live in Amarillo.

Breeding The Best Tasting Beef

By, Pammy Millican, CEA-Ag.
Texas A&M researchers are one step closer to engineering the perfect steak. Experiment Station Biologist Dr. Scott Davis says they have pinpointed the location of the genes that control meat quality such as tenderness, fat and cholesterol. Now they're moving into the second phase where they will identify the genes and the differences they cause in the animals. Davis describes it as a consumer-driven project. It's funded by the beef check off program where a dollar a head is collected when cattle are sold. The project involves a herd of cattle south of Houston in Angleton. For years, scientists have bred the cattle and tested the meat. Davis says if the research works the way they hope it will, consumers will no longer have to be concerned about getting a bad cut of beef. Through gene manipulation and breeding, the product can be consistently good. Davis thinks the Angleton Project will lead to what he calls branded products from cattle that have been specifically bred to produce meat lower in fat and cholesterol. For instance, you will be able to buy a steak that is ten percent lower in saturated fat or 20 percent lower in cholesterol. Davis says people who are on a restricted diet will be able to eat more red meat if the meat does not pose as much of a health risk. CONTACT: Dr. Scott Davis (409) 845-4896.

Wayland Sponsors Big Weekend

by Cindy Clinkenbeard
High school junior and seniors from Texas and five surrounding states are planning to converge on the Plainview campus of Wayland Baptist University for the March 27-28 "Big Weekend."
The spring college preview event, sponsored by Wayland's Student Foundation and Admissions Office, will be a great opportunity for high school juniors and seniors to find out more about Wayland's unique atmosphere.
The weekend's featured attraction will be a concert by Third Day, the 1997 New Artist of the Year Dove Award Nominee. The group is conducting a Conspiracy tour concert, with special guests Grammatrain and Silage, and showcases three up and coming groups on the Contemporary Music Scene.
With their full band and light show in support, the Third Day concert, to be held in Wayland's Harrah Auditorium, promises to be an energetic portion of Big Weekend.
Activities following Friday night's concert include a Late Night Breakfast and Midnight Madness. A menu of basketball, volleyball, bowling, and movies closes out Friday's events.
Parents and students will gain knowledge through the information sessions about financial aid, admissions, and academics. A Parent's Breakfast concludes Saturday morning's schedule.
Pioneer Feast, Saturday's lunch, includes a concert by Wayland's own Spirit, as well as displays by student organizations. Mock academic classes and opportunities to visit with financial aid and admission counselors are offered to participants in the afternoon.
All students attending Big Weekend will be eligible for scholarship and prize drawings.
Auditions will be held for band, choir, and theatre scholarships. Tryouts for men's and women's basketball, women's volleyball, men's golf, and coed cheerleading will also be held on Saturday.
For information on the cost, lodging, meals and registration contact Wayland's Admission Office at 1-800-588-1928.

Report Those Tips

Restaurant workers, baggage carriers and others who get tips of \$20 or more a month while working for one employer must report the tips to the employer. Employers must withhold federal income, Social Security and Medicare taxes on those tips. Then employers report the withholding to the IRS. For a brief overview, call 1-800-829-3676 and ask for Tips on Tips (Publication 1872 for employees or 1875 for employers). Or to get all the details, ask for Publication 15, Circular E, Employer's Tax Guide.

Scholarship Money Available to Students

With the college application season in full swing, families are now facing the dilemma of how to pay for tuition, room & board, text books, lab fees, and other expenses. Skyrocketing costs coupled with cutbacks of government grants and college assistance are putting extra strain on family budgets and assets. As a result many families are relying on burdensome debt to finance their children's education.

The good news is that there are nearly 400,000 scholarship and grant sources now available to help students pay for college costs. Over 80% of these scholarships do not depend on family need or high grades but are awarded based on factors such as the students interests, activities, field of study, age, ethnic background or parent's work or military service.

According to the U.S. Department of Education and financial aid experts, many students are missing out on the financial assistance opportunities available to them simply because they are not aware of the scholarship process and where to find scholarships that can help them. "Students who take the initiative to find out what sources they qualify for are usually successful in funding either part or all of their education."

Now through the resources of the National Academic Funding Advisory (NAFA), an updated and expanded publication for 1998 is available which provides important information for all students seeking financial assistance, how to use the

new tax changes to save money on your educational expenses, and where to secure direct scholarship money.

For information on how to receive academic funding and scholarship for college, graduate school or trade school, send a No. 10 self addressed, double stamped envelope plus \$2.00 to cover handling to the National Academic Funding Advisory (NAFA), 188 Summer Street Dept. M1, Portsmouth, NH 03801.

Label and Envelope— a Good Idea

Want to shorten the time it takes to process a tax return? How about reducing the chance of misrouted mail or refunds because of hard-to-read handwriting? When mailing a federal tax return, use the peel-off label and envelope that comes inside the tax booklet. It's a good idea.

We would like to say thank you to all our friends and family who have done so much to help us through the past few months. The many prayers said in Mama's behalf and the numerous acts of kindness mean so much to us all. A special thank you to the parents who let Mama love their babies: they will all have a special place in our hearts and lives and will never be forgotten.

We appreciate the many years of love and kindness you have shown our family during our times of need. May God Bless You All,
