LUBBOCK — Muleshoe broke open a tight game with five runs in the seventh inning, beating Littlefield Thursday, 10-4, and advancing to the consolation championship game in the District 2 Senior League (14-15 year olds) all-star tournament at Lewis Park.

Muleshoe played Lubbock Red Friday, with the winner playing Lubbock Blue for the district title. Lubbock Red beat Muleshoe, 15-2, in the first round. Lubbock Blue is the only unbeaten team left in the double-elimination tournament.

Leading 5-3, Muleshoe collected five of its 10 hits in the seventh inning. Rocky McAdams had an RBI double in the inning and Mitch Mason, Gilbert Vila and James Barrett added run-scoring singles as Muleshoe won its fourth-straight game.

Sudan's Cameron Nix went the distance for Muleshoe, allowing six hits while striking out five and walking one.

## Nearly all farmers join program

By RICK WHITE  
Managing Editor

Frances Houston was busy Thursday making calls to the few Bailey County farmers who hadn't yet signed up for the federal farm program.

Nearly all the 1,300 farms in Bailey County were already signed into new seven-year program by the July 12 deadline.

"We're about 98 percent complete," said Houston, a chief program assistant with the Farm Service Agency. "We're just making a few calls. We're pretty sure we got almost everybody."

Farmers won't be eligible for the farm program for seven years if they miss the deadline.

"Most everybody signed up early," Houston said. "We've had a few with smaller base acres who have not signed up yet."

There's one exception.

## County soaked by series of thunderstorms

By JOANNA GALLMAN  
Journal staff writer

Thunderstorms that moved across Muleshoe Tuesday and Wednesday dropped significant rainfall in Bailey County, but gave birth to hail and tornadoes in two counties.

A storm system that dropped more than a half inch of rain in Muleshoe Tuesday yielded a strip of hail a mile wide, and destroyed cotton crops three miles east of Oklahoma Lane.

A farmer near Oklahoma Lane said the hail was pea to marble size, and pulverized cotton in its three to four mile wake.

Bailey County Extension Agent Curtis Preston said it is too late for the farmers to re-plant hailed out cotton.

"The cotton won't make anything," Preston said. "It's too late to do anything now, though. They're just going to have to wait and see what the corn makes."

The same system that yielded the hail reportedly produced hail, high winds and a tornado that ripped apart two trailer homes northwest of Dimmitt.

Another storm dumped .67 inch in the city Wednesday. A small tornado dipped down just south of Texico, N.M. at approximately 2:30 p.m. that afternoon, although no damage was done.

Enochs reported three inches of precipitation from the storm systems, while Maple and Lariat reported 1.5 inches.

"Even an inch helps get the crops farther along," Preston said. "Two inches is even better. It was enough to help."

### Mud bog

A three-mile detour that runs along Texas Highway 214 near Needmore was flooded after Tuesday's thunderstorm dropped more than an inch of rain. Recent rains have halted road construction and left a few vehicles stranded along the muddy detour.

## Rain muddies Highway 214 construction plans

By JOANNA GALLMAN  
Journal staff writer

An 18-wheeler snaked its way in reverse up a hill Wednesday, abandoning its attempt to travel a muddy detour along Texas Highway 214 near Needmore.

The truck was avoiding the three-mile detour, which turned to mush after thunderstorms dumped more than an inch of rain in southern Bailey County Tuesday and Wednesday.

The detour runs along the caliche/dirt shoulder of Highway 214, and is part of a 14.5 mile construction project between the Cochran County line and Needmore.

Construction workers have been rebuilding and widening the road in two to three mile sections. Construction has been halted because of rain delay, and according to one Texas Department of Transportation employee, several semis have become stuck in the bog.

Although large portions of the detour were standing in water Wednesday, DOT officials

say the road is safe to travel.

"It's a little muddy, but it's passable," said Texas DOT Area Engineer Steve Perez. "If people will stay on the detour it will be okay. The majority of problems we have are from people who try to get on the road itself. The detour is made of caliche. The road has dirt on it, and so it gets muddy, and that's where most people get stuck."

Bailey County Sheriff Jerry Hicks said that people who live near the construction site will not be affected as much as people passing through.

"The people that live around there are aware of the conditions and can modify their travel plans accordingly," Hicks said. "The thing that concerns me is the travelers who don't know how muddy it is and end up getting stranded."

Perez said it is unlikely that the road will be closed because of the muddy detour.

## Future of play in doubt after subpar ticket sales

By JOANNA GALLMAN  
Journal staff writer

Low ticket sales and attendance have threatened the continuation of "Keepers of the Legend."

The play, which finished out its second season Tuesday night, attracted approximately 1,400 during its week-long run — a turnout that the play's producer, Alan Finney, said was far below projections.

"Mule-Plex had committed to sell 3,000 tickets. We sold about 1,392," Finney said, adding that attendance was down about 100 people from last year.

"It was quite a bit less than what I had wanted. We just didn't have enough publicity, and there were a lot of local people that didn't come," Finney said. "There were hundreds and hundreds from here in town that should have attended."

Finney said that the future of the play will depend on the production's shaky budget.

"My plans are to do it again next year, but we'll see what happens. We're in a financial bind right now. We have a lot of bills to pay," Finney said, adding that the low ticket sales left the production more than \$15,000 in debt.

Finney believes the play is a quality production, and worth pursuing.

"As far as the play goes, there is no doubt that it's second to none," he said. "There wasn't a single person that came that didn't go away raving."

The play opened July 3 and ran through Tuesday. The play's director, Sally Messenger, said the performance aspect

of the production went as expected.

"The play went very well," Messengersaid. "The cast held together very tight, and it was a good production all the way through."

By the last night, the cast was a bit punch drunk.

"Tuesday night, the part where Heath Scott (Tom Masters) gets beat up was totally different," said Buddy Beach, who played John Masters in the production. "Scott (Jake Diamond) and Kermit (Henry) were mimicking the World Wrestling Federation thing where they jump up and fall on the guy. It was really hilarious. Everybody just cut loose. We did stuff we had never seen before."

Messenger also admitted

that the production wasn't word for word by the last performance.

"There was a lot of ad-libbing and part switching going on Tuesday," she said. "It was really funny, particularly for the die-hard fans who had come four or five times. Seven nights is a really long run," Messenger said. "So they don't perform the script the same way all seven times."

Messenger said the weather was favorable for every performance, and noted that pre-performance showers Tuesday did not affect the 185 people in attendance.

"I was surprised — I think a lot of people didn't think we would still have it," Messenger said. "More showed up than I thought would."

Farmers can still sign Conservation Reserve Program (CRP) land into the program when contracts expire.

The so-called "freedom to farm" program was signed into law April 4 after a long battle in Congress. The new program pays farmers on a fixed payment schedule for seven years and is designed to allow farmers greater planting flexibility. The old program was based on market-price subsidies.

The new program had little effect on the types of crops planted this year.

"They'll probably be the same amount of crops planted," Houston said. "We haven't seen any major changes."

The FSA will begin certifying acres for crops planted this spring next.

## Federal probe nixes cattle price-fixing claims

The government probe into cattle purchases by the top four meatpacking companies, called the Kansas '95 investigation, found no evidence of price fixing.

Investigators looked at 15,000 transactions covering more than two million head of cattle. The report concluded that supply and demand were the primary causes of cattle price declines. U.S. Secretary of Agriculture Dan Glickman said the U.S. Department of Agriculture is conducting similar investigations of cattle pricing in Texas and hog pricing in Iowa and Minnesota.

## New wheat insurance offered

COUNCIL BLUFFS, Iowa — American Agrisurance, sister company to Texas based USAG Insurance Services, has announced that Crop Revenue Coverage (CRC) has been approved by the Federal Crop Insurance Corporation (FCIC) Board of Directors for sale to wheat farmers.

The states in which CRC will be available for wheat are Texas, Kansas, Nebraska, South Dakota, Michigan, Washington and parts of Montana.

CRC is a revolutionary new crop insurance product that provides farmers a predetermined income from their crops, regardless of price swings in the market. It protects against lost revenue caused by low prices, low yields, or any combination of the two.

The product was developed by American Agrisurance in conjunction with farmers, commodity crops, and the federal government. The guaranteed income policy is an alternative to the federal Multiple Peril Crop Insurance Program. This insurance will be reinsured and farmers premiums subsidized by the federal government.

CRC offers farmers a safety net, as well as the economic security to obtain agricultural loans and the ability to use progressive marketing strategies such

as forward contracting to increase their income.

CRC was first offered as a pilot project for 1996 corn and soybeans in Iowa and Nebraska. It was widely accepted as 35,000 farmers snapped up more than 84,000 policies in the two states. The premium for the guaranteed income policy on a wheat crop will run about 35 percent higher than the regular MPCI premium, as it also covers the market risks.

CRC's expansion to wheat was pushed by the National Association of Wheat Growers.

"This is the kind of program farmers want and need," said NAWG President Chuck Merja.

CRC is the first privately developed, stand-alone crop insurance product to gain approval from FCIC.

"American Agrisurance is dedicated to bringing the crop insurance products that farmers demand to the market," CEO Rick Gibson said. "We see CRC as a way to offer farmers the safety net the government no longer provides."

## "Y'all Hush Talkin' and Listen to Me!"

Allen Ketchersid, a friend of mine who preaches in Indiana, was visiting with his father-in-law recently. For years, Allen's father-in-law has enjoyed raising birds and is particularly fond of a parrot which has given him a great deal of enjoyment—and conversation. As they discussed the parrot, Allen's

him, particularly if, every time you try to "correct" him, he just tells you to "hush talkin'!"

How do you "re-program" a bird who is mindlessly rehearsing exactly what you taught him to say? Do you spank him? Why? (How, for that matter?) He has no idea that what he's saying comes off as selfish, self-centered, and obnoxious. Gag him? Barbecue him? Roast him over a spit for his odious spouting?

Now, a harder question. How do you "cure" a child who persists in playing back, much to his parents chagrin, or shame, or displeasure, exactly what they taught him? How do you "cure" an adult who continually behaves childishly? Perhaps the words or the behaviors or the attitudes seemed cute once. But they've long since gotten over it. Teachers and employers, husbands and wives, don't find them cute at all.

How do any of us learn to "re-program" ourselves when we see issuing from our own lives the smoke that bears witness to the fire of selfishness burning in our souls?

Here is God's counsel: "Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves . . . Your attitude should be the same as that of Christ Jesus . . ." (Philippians 2:3-5).

Maybe we should "hush talkin'" and listen to Him!

Curtis Shelburne is minister of the 16th & Avenue D Church of Christ in Muleshoe.

### Focus On Faith

father-in-law told him about a family who purchased a similar bird and taught it to say, "Y'all hush talkin' and listen to me!"

"At first," Allen explains, "the family was greatly entertained. They laughed as the bird captured the attention of their friends with his statement. But what started out as humorous and cute became increasingly obnoxious and eventually intolerable. They had to get rid of the bird! They couldn't stand to be around it!"

Allen went on to point out that, though we expect childishness from a child for a while, unremitting childishness doesn't play well on anybody for very long, even when it comes from a household pet!

'Tis true! How do you cure your parrot of spouting the very line you taught

**Facts About The BIBLE** BY JOHN LEHTI

**JERUSALEM: ANCIENT FORTRESS WHICH STOOD UNCONQUERED IN THE HEART OF ISRAEL SINCE THE DAYS OF JOSHUA, WAS FINALLY TAKEN 500 YEARS LATER BY THE NEWLY ANOINTED KING DAVID (CIRCA 1000 B.C.)....**

...THE JEBUSITES, WHO LIVED IN THIS STRONGHOLD HIGH ON MT. ZION, WERE SO CONFIDENT THEIR FORTRESS COULD NOT BE SUCCESSFULLY ASSAULTED THAT THEY INSULTED DAVID'S ARMY BY ONLY MANNING THE WALLS AND BATTLEMENTS WITH MEN WHO WERE BLIND AND PITIFULLY LAZE!

BUT DAVID'S MEN FOUND A TUNNEL, LEADING FROM AN OUTSIDE WATER-SUPPLY SPRING, DIRECTLY INTO THE MIDDLE OF THE CITY! IN THE DARK OF NIGHT, DAVID LED HIS TROOPS THROUGH THE TUNNEL, TOOK THE JEBUSITES UNAWARES, AND CAPTURED THE FORTRESS WHICH WAS TO BECOME HIS CAPITAL--THE 'CITY OF DAVID!' AND SINCE THAT DAY, JERUSALEM HAS BEEN CONTINUALLY FOUGHT OVER--RIGHT UP INTO MODERN TIMES!

NEXT WEEK: CAN A MAN BE CALLED WISE WHO HAS A THOUSAND WIVES?!!
