THEN & NOW!

by Eunice McFall

Fear, now isn't that a awesome word! We do not like to think about being afraid of anything but there seems to be many things that can cause our heart to beat faster, our breath to come more quickly and for us to dread to take another step. Sometimes this is really a legitimate fear but other times it is just that we do not know what we are getting into and therefore we do feel afraid.

The dictionary states that fear is anxiety caused by real or possible danger, pain, fright, awe, reverence, apprehension or concern. I think usually most of our fears do come from the fear of the unknown. If we know what we are getting into or walking into, we are not afraid but if it is to be a new experience we do tend to be a bit apprehensive of the new situation.

What can we do to make this a better situation when we feel the fear creeping upon us? First of all we can try to learn all that we can about the situation that we are facing. Usually when we really pin down the things that are bothering us and face the fact of what is about to happen, we realize that there really is nothing going to happen that we should fear.

But then there are the irrational fears that we all have a few of, such as getting up to speak before a crowd, perhaps behind a microphone. Now we all know that the microphone is not going to hurt us and the group that we are facing are probably just going to listen to us and if our talk is dull enough they might even fall asleep--so what is there to fear from this situation?

Personally I can't say but I will say that I for one have a faster heartbeat, faster breathing and a dread of getting behind the mike. So what do we do about those kinds of fears--face them and go on and do the job that we have set out to do and see how great you will feel once you have conquered the fear. The more familiar we get with a situation the easier it is for us to conquer the fear.

We all have this fear of the unknown when we face a room full of strangers or face a new job or anything that we feel will be difficult and new to do. But once we gain the knowledge and familiarity of the new thing we are trying to do, whether it be a job or a new hobby, we no longer fear it, we just accept it into our daily routine.

So when we encounter a new fear, it might be best if we try to think of it as an exciting adventure and do the very best that you can do and part of the fear will melt away as you get excited about trying out the unknown. Then the first thing that you know, you no longer have that fear of the unknown because suddenly it is the known.

Memphis Physician Nominated For Country Doctor of the Year Award

Dr. Robert E. Clark, local physician, is being nominated for the Country Doctor of the year award. This is a nation-wide contest presented by The Country Doctor Museum, in association with Staff Care, Inc.

The winner receives a handsome personalized bronze plaque featuring a country doctor making his rounds in a horsedrawn buggy. He will be memorialized by a plaque to be displayed at the Country Doctor Museum in Baily, North Carolina, the only museum in the nation devoted to preserving the contributions of America's rural physicians. In addition, the physician will be provided with a qualified physician to cover his practice for one week so he can enjoy a vacation.

Dr. Clark has been meeting the healthcare needs of Memphis residents and the surrounding area for 39 years. His last "real vacation" was in 1986, following by-pass surgery. He has spent many entire nights at the hospital with critically ill patients, delivering babies, or doing surgery and then gone to the office for a long day seeing patients. Many of his afternoons and weekends off have been interrupted by calls or needs from patients.

In addition to his medical practice, Dr. Clark has been active in Masons and Rotary Club. He served on the Memphis School Board for 15 years and was President for many years.

In an effort to help Dr. Clark receive this award, we all need to write letters telling of how deserving he is. Personal accounts of his assistance to patients and the community, such as ways he has shown his dedication, community services, quality of care, personal attributes, and any other ideas you have that will show how he epitomizes the Country Doctor need to be included in the letter.

Mail or bring letters to:
Anita Mitchell, R.N.,
Director of Nursing 1800 N.

Boykin Drive, Memphis, Texas 79245

These letters need to be received by July 27, 1993 as the deadline is July 31, 1993.

Letters may be typed or handwritten.

Final Plea Made For Host Families In Quitaque Area

Foreign high school students will be arriving soon into the Quitaque area for homestays, and the sponsoring organization urgently needs a few more local families for their upcoming academic programs.

According to Pacific Inter-cultural Exchange (P.I.E.), Executive Director, John Doty, the students are all between the ages of 15 and 18 years, have their own spending money, are fully insured and are anxious to share their cultural experiences with their new American families. P.I.E. currently has programs to match almost every family's needs, ranging in length from a semester to a full academic year, where the students attend local high schools.

P.I.E. representatives match students with host families by finding common interests and lifestyles through an informal in-home meeting. Prospective host families are able to review student applications

and select the "perfect match". As there are no "typical" host families, P.I.E. can fit a student into just about any situation, whether it be a single parent, a childless couple, a retired couple or a large family.

Families who host for P.I.E. are also eligible to claim a \$50.00 per month charitable contribution deduction on their itemized tax returns for each month they host a sponsored student.

For the upcoming programs, P.I.E. has students from Spain, Germany, Poland, Russia, Italy, Argentina, Brazil, Colombia, Australia, New Zealand, France and many other countries. P.I.E. is a non-profit educational organization that has sponsored more than 18,000 students from 18 countries since its founding in 1975.

Quitaque area families interested in learning more about student exchange or arranging for a meeting may call P.I.E., toll-free, at 1-800-245-6232. The agency also has travel/study program opportunities available for American high school students as well as possibilities for community volunteers to assist and work with area host families, students and schools.

Plainview Holds Musical Jamboree

Plainview Musical Jamboree will be held July 24, 1993 from 7 until 10:30 p.m. at the Ollie Linder Center.

Organization of the month is the Retired Seniors Volunteer Program.

A \$25 door prize will be given. Admission is free. Donations are accepted. The donations are necessary to keep the Jamboree active.

Wynon "Minnie Pearl" Mayes of Canyon will be one of the featured artists. Texas County of Hereford will also perform.

Summer Projects Benefit Kids and Their Families

by Ronda Alexander

Even though summers seem to get shorter and busier every year, time still drags for many school-age children. Parents can help by getting kids started on a summer project to fill their time off.

One project useful to the whole family is a home inventory book. A home inventory is a record of everything you own. It is a valuable aid in case of a fire, theft, or other loss of property. It provides a basis for estimating lost value and establishing insurance claims. In addition, a home inventory can help your family determine the amount of insurance you need to cover your possessions.

For kids, creating a home inventory is helpful for other reasons. It makes them aware of the value of items in their home. It gives them a

chance to find out the history of family heirlooms or antiques that have been passed from generation to generation. And it provides a source of fun and pride through taking pictures and producing a useful product.

Equip your children with camera and film, pens, loose-leaf paper and a notebook binder. On each sheet of paper, your child or children will place a picture of one item in your home and a description of the item. The description should include information such as the manufacturer, model and serial number. For some items, like appliances or electronics, your child may be able to find a current newspaper or magazine advertisement showing a similar item. That ad can be added to the inventory page to represent replacement value of the item.

Review the inventory with the children periodically and discuss the items they have listed. You may be able to add information about when the item was purchased, how much it cost, or how long it has been in the family. Remember to include items stored in the attic, garage, drawers and closets as well as easily overlooked items such as furniture and wall hangings.

As the children conduct the inventory, consider having them engrave an identification number on appliances, electronics, collectibles or other items. Engravers are usually available from local police departments or insurance agencies. Engraved items are less attractive to thieves and aid in matching items with owners when stolen goods are recovered. Use your social security number, driver's license number, or other identification number to mark your items.

Bob Wills Stamp To Be Released In September

Plans are being made for a celebration on Wednesday, September 29th. That is the day the Bob Wills stamp will go on sale. The Postal officials and probably some members of the Wills family will be on hand for the celebration.

Briscoe County Historical Committee Sponsors Project

If you haven't stopped at the north side of the courthouse to see the newest portion of the Briscoe County Historical Committee's current project, you might want to do so.

All of the names that were paid for, are inscribed on beautiful marble "bricks". There is still room for others, so if you are interested in having your family name, school, church, organization business, etc. inscribed, see someone in the County Judge's office or contact a member of the Briscoe County Historical Committee, chaired by Johnnie Morrison, Box 357, Quitaque, Texas 79255.

The bricks sell for \$50.00 each and the inscription may be up to 18 letters (and/or spaces) per line on three lines per brick. You may contract for more than one brick if you wish. There are no age limitations on who may participate in this memorial project.

Letter to Editor

Enclosed is my check for \$14 to renew my subscription. I would like to commend, most highly, Earlyne Jameson for her articles on early radio and other Flomot stories. (July 1, 1993).

I remember listening to most of the radio programs she mentioned and to the famous rematch of Joe Louis against Max Schmeling in 1938, which was over in less than three minutes. "I love a Mystery" was my favorite. Earlyne did not mention the names of the three principal characters, as I recall, they were Jack, Doc and Rechie. And in Jack Armstrong of the All American Boy, there was the fatherly, wise voice of Uncle Jim and I can't remember his sidekick.

In 1941 Carl Rowe, the editor of the Turkey Enterprise at the time, hired me, then a senior in high school, to help fold the papers and carry them to the postoffice for \$2 a week with two cents taken out for social security. After Carl Rowe went into military service the Enterprise was sold to Mr. W.R. Scott of the Quitaque Post, and then eventually it became the Valley Tribune.

Sincerely
 Howard Colvin

MR. AND MRS. MICHAEL KERN
Nee Candy Jones

Candy Jones Weds Michael Kern

Mary Jane (Candy) Jones of Littlefield and Michael Anthony Kern of Dallas were united in marriage on May 22, 1993 at 3 p.m. at the Holy Family Church in Nazareth. Father Neal Dee of Nazareth's Holy Family Church performed the double ring ceremony. They repeated their vows before an altar decorated with spring flowers, greenery and white candles.

Candy is the daughter of Ann and Buck Chadwick of Quitaque and M. C. (Salty) Jones of Flomot.

Michael is the son of Walter and Rita Kern of Nazareth.

The bride was given in marriage by her father, Salty Jones.

She chose a white gown with white lace, pearls and beads. It was fashioned with a V shaped neckline and short sleeves gathered at the shoulders and lined on the side with roses and trimmed in lace. The full skirt was swept into a mid-cathedral length train, which was accented with floral lace that started beneath a bow at the waistline and continued down the length of the gown and was edged with floral lace.

The bride carried a bouquet of white with spring flowers mixed in. The bride kept tradition by wearing something old, her grandmother Jones' wedding ring; something new, a bracelet from her brother, Pepper and her dress; and something borrowed and blue, a blue garter from her sister, Stachia made by Ma McFall.

Stachia Washington, step-sister of the bride, of Quitaque was the matron of honor. Kay Ballard, and Sandra Marberry, both of Lubbock and Shannon Oldfield of Littlefield served as maids of honor.

The bridesmaids wore floral and plaid casual dresses. They carried stems of spring flowers tied with white ribbon.

Serving his brother as best man was Kenny Kern of Dallas. Groomsmen were Bob Kern, Lubbock, brother of the groom; Pepper Jones, Austin, brother of the bride and Kevin Hoelting of Dallas. Ushers were Francis Kern of Memphis, Tennessee; Jimmy Kern, Hugh Wilhelm and Dale Wilhelm, all of Nazareth. Groomsmen and ushers wore black tuxedos with matching plaid bow ties and cummerbunds.

Niece of the groom, Brandy Kern of Nazareth was flower girl while Eric Vo, nephew of the groom from Dallas was ring bearer.

Ann Chadwick, mother of the bride was attired in a short sleeve blue dress accented with two strands of long pearls. The groom's mother, Rita Kern wore a jade green dress trimmed in lace with floral lace sleeves.

Leslie Mashburn of Austin sang, *Ava Marie, Somewhere in the World, Double Good and Through the Eyes of Love*. Mary Lynn Olvera played the organ and Bernita Hoelting lead the choir.

A reception and dance following the ceremony was held in Nazareth Community Hall.

The couple returned to work and moved to Plano before going to Canada for a honeymoon. In June the couple spent ten days in Alberta, Canada visiting Calgary, the Canadian Rockies, Banff National Park, Jasper National Park, and Edmonton. A few sites they saw were Moraine Lake, Lake Louise, Banff, the Columbia Icefields, Johnson Falls, and more. Michael was extremely excited when he saw a large black bear on the side of the road, to add to the previous animals seen, some being, bighorn sheep, elk, deer, a wolf, coyotes and gray owls.

The bride is a member of Alpha Phi Sorority at Texas Tech University where she received a B.S. in Early Childhood Education.

The groom attended Texas Tech University and received a B. S. in Agricultural Engineering.

Things Seen Or Heard

I received quite an interesting phone call last Saturday from Wren and Jo Jean Vineyard of Washburn. Wren had read the item I had written last week about the Dicky Stout Motor Company's TV ad. Wren shared with me that the bull's name is Buster and the rider is Royal Yarbrough, a former Turkey resident.

Royal's father was Glen Yarbrough and his mother was Inetha Hawkins of Quitaque. Wren also said that Inetha was a classmate of his when they both attended school in Quitaque.

The Vineyards both expressed how much they enjoy the Valley Tribune. Really appreciated their call.**
