Miss Mackenzie Pageant Set In Silverton Oct. 24

The 1987 Miss Mackenzie Pageant is proud to present our area Miss Mackenzie participants on October 24, 1987 at 8:00 p.m. Each girl will have a sponsor which will support her during this event. Beauty, personality, intelligence and poise are all qualities the girls possess and will be judged on. We are planning for community support and celebrity entertainment. We are very excited to have David and Roger Otwell, America's Favorite Singing Twins, as our featured entertainers. Singing Otwell Twins, he was so impressed he wrote immediately to their home town of Tulia, Texas, and invited them to appear on his show. "And by the end of their first appearance," he says, "I knew I had found something special. Their terrific blend ... (Twins have that

sometimes, you know). Well, our audience just fell in love with them! They turned out to be two of the nicest, finest, most talented young men I have ever met, and if they keep on the way they're going, they can't help but go right to the top!"

Roger and David appear to be doing just that. They have not only endeared themselves to the huge Welk audience with their weekly appearance. They have also performed

on the Nashville Now show many, many times. They have performed at Disney World in Florida, Disneyland in California, countless fairs and concerts throughout the United States. The Otwells have completed a new album and video, "One Nation Under God". The Otwells, local boys with Texas Talent ... Proud of their roots and Home in the Panhandle of Texas.

Enroll For EMT Class Now

Out here in our West Texas land, we live and laugh, love and share... and it's great to have neighbors down the road "a ways". This peacefulness is shattered one day when our neighbor calls for help! We run to help our friend and neighbor who's been stricken with sudden life-threatening illness or who's been caught accidentally in a piece of farm machinery! What do we do?! How can we help?! We've never been

taught how to stop massive bleeding or never got around to learning how to do CPR! Way out here in this corner of this farm we're at least 15-20 minutes from an ambulance and at least 30-40 minutes from a hospital! If only... NOW, TODAY, you can change that "if only" to "Thank goodness!". Enroll in the upcoming E.M.T. class being offered for the Quitaque, Flomot, Turkey, Silverton area. Be prepared to help your family, friends, neighbors--

your communities!! If you're 18 years old and up, you qualify. For information or to put your name on the list call in Quitaque and Turkey, David Brunson at 455-1456 or 455-1352; Flomot, Suzie Shannon at 469-5357; Silverton, Janice Hill at 823-2518.

Scoggins made the first TD in the first quarter on a 97 yard run, and received a 49 yard pass from Taylor in the second quarter for another score, before Motley Co. got on the board. A Taylor pass to Scoggins for a conversion added another two points. Motley County also made a touchdown in this quarter. In the third period, Valley scored another touchdown, and Motley County scored two in the fourth quarter to tie up the game. First downs were fairly evenly distributed, with Valley having 17, and Motley County 10.

Two little girls, ages 4 and 5 were overheard singing the "Farmer in the Dell", which is not unusual but two words caught our attention -- heigh ho "my stereo" the farmer in the dell. Guess that made more sense to them than "Heigh Ho, the derry Oh."

This Saturday night we get back that hour we lost last spring, so we can sleep an hour longer.

Two men were playing golf one Sunday morning when they heard a church bell ringing. One of them said, "Oh, I should have gone to church this morning."

To which the other one replied: "Well, I couldn't have gone, anyway, my wife is sick."

Game show host to contestant: "How many successful jumps must a paratrooper make before he graduates?"

Contestant: "All of them."

The outpouring of love, concern and nationwide interest in the plight of little 18-month old Jessica McClure's fall into a 20-foot deep well and the gallant rescue effort of the people directly involved should prove to all of us that by and large, we are still a nation who cares. The news of this event was worldwide, and especially nationwide. It overshadowed every other story in the book, including Wall Street Panic, football strikes, attacks on oil tankers, baseball playoffs, murder and crime in the streets, etc. People remained glued to their TV sets and radios, praying and hoping, until she was finally released from almost certain death. So long as we can maintain this kind of concern, there's not too much to worry about the future of America!

Some of this same kind of concern is beginning to surface in the plight of rural America in bringing things back to life in our small communities such as our own, and, if and when we all get behind the effort, such as was displayed in Midland, Texas, we might expect good things to happen. Even with all their delays and disappointments, they never gave up in their efforts. Neither should we -- as in the old adage, "there's always sunshine behind the darkest clouds!"

Understand that there is a new experiment underway in the alphabet which would provide 45-letters instead of 26... the advantages are very obvious... more soup for instance!

The longest obituary ever published in the New York Times was that of Thomas A. Edison on October 18, 1931. It filled 4-1/2 pages of newspaper space!

It is said that you can make more friends in two months by becoming interested in other people than you can in two years

trying to get other people interested in you!

Famous last words... "Do you have a match? I think my gas tank is empty!"... "Nothing to worry about, it isn't loaded!"... "Of course you can make it, the train isn't due for two hours yet!"... "I'll bet this old jalopy won't do more than eighty"..."You mean that ugly old bag is your wife?"... "Darling, these biscuits are hard as a rock!"

The West begins somewhere in the middle of Ohio... that's where the tourist finds the first Motel named El Rancho!

Notice on an electric pylon... "High Voltage... anyone touching cable means instant death..." anyone found doing so will be prosecuted!"

The handwriting isn't on the wall anymore... the taxpayer has been backed up against the wall so long that the handwriting is on his back!

The Russian kids may be ahead of ours in Algebra... but I wonder how they could do against ours in selling peanut brittle, cookies or chocolate mints door-to-door?!

If you don't think advertising pays, listen to this... "There are 25 mountains in Colorado that are higher than Pikes Peak... can you name one?"

Education doesn't teach us everything or else why would we throw coins in the fountain of knowledge and get a drink at the wishing well?! That's -30- for this time, remember, just because things go wrong doesn't mean we have to go with them!

The average American household watches TV for seven hours and two minutes a day according to A.C. Nielson reports.

Capitol Committee Announced Briscoe Co. To Be Represented

The Capitol Committee and the State Preservation Board are pleased to announce that Briscoe County will be represented among those etched on the Great Walk leading to the Texas State Capitol in Austin and want to thank the Briscoe County Commissioners Court for this accomplishment.

The Texas Association of Counties is sponsoring a project to have all 254 Texas counties' names included in a special section of the walk.

Over the past several years, plans have been underway for the restoration of the state Capitol, which will celebrate its 100th anniversary on May 16, 1988. To complete the first phase of the restoration, the Capitol Committee has enlisted the support of all Texans to share in this historic restoration by means of "A Walk in History" project.

Years of continued use and weather have deteriorated the Capitol's walkways. These approaches to the Capitol will be restored using 28 inch concrete diamond-shaped pavers upon which will be etched the name of each contributor.

Completion of the "Walk in History" is scheduled prior to the May 16, 1988 centennial celebration of the Capitol's completion and dedication.

Anyone interested in participating should contact the Capitol Committee, 1507 West 6th, Austin, Texas 78703, 512-477-6499. Pavers are available on the Great Walk and the names of individuals, families, association, clubs and businesses may be inscribed on the pavers.

Why do they do it? According to United Way, the largest voluntary network of health and human-care agencies in the country, people volunteer for many reasons. Volunteering gives them the chance to:

- obtain personal satisfaction by helping others;
- test leadership skills;
- become better known in the community;
- gain valuable experience and contacts, and sharpen skills for future jobs;
- do something different and important; and
- work together with all kinds of people.

During its centennial year, United Way salutes the achievements of all this nation's volunteers—from those in the business world to the arts community; and from volunteers in environmental groups to political and social welfare organizations.

Vandalism Hurts All

Through rain, sleet, snow, or dead of night the U. S. Mail gets delivered to postal customers across the nation. The elements of nature don't stop letter carriers from getting the mail into a customer's mailbox, but sometimes mailbox vandalism does.

Mailbox vandalism comes in a variety of shapes and sizes from the placement of objects inside the mailbox to the actual theft or destruction of the mail receptacle. Letter carriers and customers have reported finding bottles, snakes, snails, food, trash, and even small animals inside their mailboxes. These items are usually easily removed and do not disrupt the delivery of mail. On the other hand, fire-crackers, shotgun pellets, baseball bats, rocks, and even an occasional pickup truck usually do enough damage to cause an interruption in mail service until the box is repaired or replaced. Beyond the damage to the boxes, which costs the postal customer time and money to repair or replace, mailbox vandalism sometimes causes the loss or destruction of valuable and important mail.

U. S. Mail receptacles and the mail inside are protected by Federal law from theft, damage, and destruction. The violations are felonies which carry penalties of between three to five years imprisonment and or fines between \$1,000 and \$2,000.

Through the years it has been discovered that the vast majority of incidents of mailbox vandalism are the result of juveniles playing pranks. Juveniles, those under the age of 18, cannot be prosecuted in Federal court, so frequently, even though vandalism is a Federal offense, the local sheriff or police are called upon to investigate. They can respond quickly and usually have a good idea which individuals are most likely to be involved. In addition, juveniles can be prosecuted for vandalism of mailboxes under the State law concerning criminal mischief.

The best way to prevent the destruction and vandalism of mailboxes is through education. Parents with young children should take a few moments to explain the importance of an individual's mail to them. They should also let their older children know that what may be intended as a harmless prank is actually against the law and that everyone involved loses; the prankster who can end up in jail; the customer who has to pay for the repair or replacement of the damaged mailbox and mail; and the community who pays the local sheriff or police to investigate the incident.

It's your mail - protect it. Any act of vandalism or information

Turkey Lions Meet Oct. 13

Turkey Lions met for a regular meeting on October 13. Lion Winfred Cooper of Amarillo, an ex-Turkey Lion member, showed a film of the dedication of the historical marker that happened on Aug. 30th, 2 1/2 miles south of Quitaque.

Tuesday before the meeting the Lions sold Halloween candy and light bulbs. What few that were left were sold to the Lions present.

Turkey Sr. Citizens Meet

Eudy's Suprised By Visit From Fellow 1934 Turkey Graduate

Lewis and Mozelle Eudy had a pleasant surprise Saturday when one of the members of Lewis' graduation class of Turkey High School 1934 came to visit them. Eunice Browning Perkins of Mesquite, TX and her husband George Perkins, were in Matador visiting her sister, Dan Barton, for the Matador-Valley football game, when nostalgia hit Eunice to see some old classmates. She was reared at Whiteflat and attended school there until she came to Turkey her senior year to graduate. She lived with her uncle and aunt, Ike Joy, Supt. of Turkey schools and his wife Gwen, who taught also. They attend Baptist church in Turkey.

Eunice graduated, attended college in Abilene, was employed in banking in Dallas until retiring recently. She has one son,

living in California. Classmates - Eunice plans to see you 1934 Exes at Bob Wills time next time, and says "Hi" - says she looks at the senior picture and longs to see you. They visited the high school grounds and saw the historical marker and Bob Wills Center from the outside; commenting on how nice it was for all the work being done to preserve such a great heritage. If Eunice missed you, 1934 exes, get in touch with Lewis or Mozelle with addresses of any out of town exes, as soon as possible.

If you've ever found it hard to say no to friends and classmates who want you to try alcohol or other drugs, consider a few facts: There are more reasons not to drink than just that at your age it's illegal. Drinking can make you clumsy, talk funny and have a hard time seeing. It gives you bad breath, can make you fat and makes you sick. What's more, it's expensive. Is that how you want to waste your allowance or odd-job money? Telling your parents, a teacher you trust or an older brother or sister about your trouble can help you learn to say no. If you're over eight, you're old enough to know in your own mind what's right and wrong for you. For a free book about how to be smart and say no to alcohol, write: National Clearinghouse for Alcohol and Drug Information, P.O. Box 2345, Department 5, Rockville, MD 20852.
