Parents and patrons have been invited and encouraged to visit the public schools during the special week. Public School Week is a good time to offer a word of appreciation to the teachers, administrators and trustees who make t possible for our town to have a school system that is a real credit to us all.

It is especially fitting, in our opinion, to say thanks at least once a year to the school trustees. These men are volunteers in civic harness — men who do a lot of work each month in the interest of public progress. And their only reward is the making a valuable contribution to the entire community.

We know that you'll want o join us in an expression of well done to these men as well as to the teachers and the officials.
