## ST. LOUIS BANDITS MAKE BIG HAUL

### WORK WILL BE AGAIN STARTED ON DEEP TEST AT EARLY DATE

Work on the deep test will get well to the south of the city limits to be resumed at once, according to information furnished G. C. Richardson, secretary of the chamber of commerce, by Cyrus H. Drury of Detroit, president of the company which has the operation in charge. Mr. Drury writes that J. K. Gano will be here during this week to again start the work. He explains that all financial arrangements are now completed to carry the well to 4500 feet if necessary. It is now at something like 2000 feet. Mr. Drury explains that he was recently in a serious automobile accident and is only now recovering, and this is one of the reasons for the delay in resuming work on the test.

### ACTING MAYOR ASSESSES FINE

Acting Mayor Frank Walker assessed his first fine this morning when E. H. Stafford was taxed \$1 and costs on a plea of guilty of being drunk. The police department experienced a quiet Sunday, nothing out of the ordinary occurring during the day.

### JUDGE OUTLAW'S MUCH EVIDENCE IN ROAD CASE

EASTLAND, Oct. 10.—Judge E. A. Hill of the eighty-eighth district court ruled this morning in the Fleming-Stitzer case that the plaintiffs who are seeking the annulment of the contract between the county and Fleming-Stitzer could not introduce any evidence in this case which did not directly connect Judge Starnos or the commissioners' court with it. This ruling prevents the plaintiffs from offering evidence in regard to the \$50,000 bond transaction alleged to have taken place between the National City bank of Chicago and the defunct Security State bank of this city. The court allowed a portion of the deposition of John R. Gray of the National City bank of Chicago to be read to the jury. There was also a portion of the deposition of George A. Davison, owner of the Fleming-Stitzer company, read to the jury.

### ALL TAXES ON TRANSPORTATION TO BE WIPED OUT

WASHINGTON, Oct. 10.—Amendments to the tax bill proposing the repeal of all transportation taxes, including those on pipe lines and on parcel post packages, the maximum surtax rate of 50 per cent and increased estate taxes, was approved today by the majority members of the senate finance committee. The report approved not only the recommendations agreed to last week by senate leaders but adopted some on its own account. Chairman Penrose announced the changes insured solid Republican support of the tax bill.

### TEXAS STATE FAIR TODAY IS MECCA FOR PUBLISHERS

DALLAS, Oct. 10.—The Texas state fair was today the mecca of editors and publishers of Texas, the occasion being press day. The executive committee of the Texas Press association is also in session here.

### ONE MAN KILLED WHEN WAGON IS TURNED OVER

BRECKENRIDGE, Oct. 10.—G. W. Tabor, about 45 years old, living in West Breckenridge, was most instantly killed when the wagon in which he and two other men were riding overturned. Heavy oil field machinery pinned Tabor to the ground. The other two men were unhurt. The load was being taken to the northern part of the county, when, in the darkness, the wagon went over an embankment. A city ambulance made the trip out from here, 20 miles, but found Tabor dead. He is survived by his wife and two children, all residing here.

### TO REDUCE COTTON CROP

TERRELL, Oct. 10.—A mass meeting of farmers was held here Saturday afternoon to take definite steps to reduce the cotton acreage next year by planting other fall crops, especially wheat and oats. The present cotton crop is gathered, giving farmers more time than usual for planting fall crops.

### CHURCH ISSUES APPEAL TO AID IN CONFERENCE ON LIMITATIONS

WASHINGTON, Oct. 10.—In a message to 150,000 congregations, the federal council of the Churches of Christ in America has issued a call to the religious elements of the country to seize the "priceless opportunity" offered by the conference on the limitation of armament, and to "cultivate a Christian public opinion so strong that it will make possible the richest results." "We cannot be satisfied with a mild curtailment of our military expenditures," says the call. "Nothing less than a far-reaching reduction of armament on sea and land can suffice." According to the statement, it is not the idea of the churches "to dictate the specific plan by which the longed-for goal may be achieved." "But," it continues, "insist we must, with all the passion of our souls, that rational and pacific methods must now be found for the settlement of international disputes." At the same time the federal council of churches is preparing a special call to go to the churches throughout America. It will contain concrete suggestions for educational meetings and services on behalf of a "real reduction of armament." It will provide for special services in all of the churches and for great public mass meetings in all cities and towns. The program is being worked out by the council's commission on international justice and good will, of which Dr. John H. Finley, formerly commissioner of education of New York state, is the chairman and Dr. Sidney L. Gulick the secretary. The federal council of churches is the official representative and spokesman of 30 communions, comprising 20,000,000 members.

### GOLD MINING AGAIN STARTS

SACRAMENTO, Oct. 10.—A pronounced revival of activity in the gold mining fields of northern California and Nevada, where the '49ers once operated, is being manifested, according to reports reaching this city, and most of it, it is believed, is due to the declining cost of materials used in gold mining operations. Reduced cost of labor is also a factor in the renewal of activity. Within the last two weeks much work has been begun in the mother lode district in Amador and Calaveras counties of California, as well as in the Grass Valley district of this state. Nevada gold and silver mines both are showing signs of awakened interest.

### ASSISTANT CHIEF AT EASTLAND FACES CHARGE OF SHOOTING

EASTLAND, Oct. 10.—Will Simmons was shot and seriously wounded here Saturday night about 11 o'clock. Three bullets from a pistol entered his body. John Henesey, assistant chief of police, is charged with doing the shooting. Simmons is about 45 years old and lives near Carbon.

### MAN SHOT BY OFFICER REPORTED BAD CONDITION

EASTLAND, Texas, Oct. 10.—The condition of W. A. Simmons who was shot three times Saturday night by Policeman Henesey, was reported from the Johnson-Paine sanitarium this afternoon to be serious. A charge of assault on murder has been filed against Officer Henesey. The circumstances of the shooting as related by the officer were that the officer had gone to a buggy to search it for liquor when Simmons came up and drawing a gun on him ordered him to stop searching the buggy. Henesey says he talked Simmons into putting up his gun and then he drew his own gun on Simmons and told him that the buggy was going to be searched. Simmons, he states, tried to wrest his gun from him and at the same time reached for his own gun. During the struggle three shots were fired by the officer. Two of them took effect in Simmons' left side and one in his right arm.

### BCKLEY OFFERED MARKET AND WAREHOUSE PLACE

CLEBURNE, Oct. 10.—M. M. Buckley of this city, who recently was appointed inspector of nurseries under the Hon. George B. Terrell, has been tendered a place in the market and warehouse department by Governor Neff, but could not accept owing to the fact that he had accepted the former offer.

### Fine Glassware Goes Begging in New York Hotels

NEW YORK, Oct. 10.—Thin, glistening wine glasses, hundreds of dozens of them, worth thousands of dollars, are stored away in the big hotels of New York and the stewards don't know what to do about it. Some few have been sold and others given to friends of the hotels who, it was assumed, were able to employ the gay glassware as it was intended it should be used. But prohibition made the glassware useless for the hotels, most stewards feeling it dishonorable to past memories to serve ginger ale and impotent grape juice in the fine old wine glasses. A Fifth Avenue hotel announced it had written off \$109,000 on glassware at its after-prohibition inventory, and others estimated their idle drinking accessories at sums almost as high.

### BLAME DRY LAW FOR MANY CUTS TO BATHERS ON BOSTON BEACH

BOSTON, Oct. 10.—Cuts sustained by bathers are the latest woes to be blamed on prohibition. In an official statement by the city park commission upon the work of its lifeguards at Boston beaches this season is this paragraph: "Ever since prohibition came in the most frequent calls for first aid assistance have come from the numerous bathers who are cut by broken bottles. Alcoholic addicts are prone to go to the shore for clandestine indulgence. They hurl their empty bottles on the beach and seem to take delight in smashing them. "The beneficial milk bottle is a lesser but still serious source of trouble. Many women who picnic along the shore are apt to abandon their empties with such vehemence as to leave them shattered." The statement adds that not a life has been lost this season at any of the beaches in charge of the park department.

### AGED CITIZEN DIES SATURDAY

Thomas LaFayette Kemp, 74, died at 5 o'clock Saturday afternoon at the residence of M. A. Kemp. Mr. Kemp was born in Tennessee and came to Eastland county in 1917. He had been engaged in farming all his life. He is survived by seven children: M. A., T. J. and E. F., and Mesdames Fannie Richardson, Maude Bennett, Nannie Thompson and Hattie Noble. He was a member of the Methodist church. Funeral services will be conducted from the residence of M. A. Kemp at 4 o'clock this afternoon. Burial will be in the Eastland cemetery.

### IRISH IN LONDON READY FOR PEACE MEETING TUESDAY

LONDON, Oct. 10.—More than 6000 London Irish gave the Sinn Fein peace conference a vociferous welcome at Euston station. The conference with the English delegates opens here Tuesday. Irish headquarters were established in Cadogan square. The huge, dimly lighted station had been a few moments before the scene of the return of the king and queen from Manchester, where his majesty had opened the royal exchange. Griffith told Universal Service that the delegates were sworn to secrecy and that there would be no talking. From Griffith's companions, however, it was learned that Ireland believes the conference will go on to a successful conclusion or be broken off within three days. Ulster is still the rock upon which the peace ship may be wrecked. Informants are positive that a dominion home rule without strings will be acceptable to DeValera, but the difficulty of safeguarding Ulster's right is recognized as the most formidable barrier to a conclusive settlement. It is understood in Irish circles today that the Irish leader himself is prepared to come to London in case there is danger of a breakdown, but prefers to remain in the background in the meanwhile. Michael Collins, who was unavoidably prevented leaving Dublin today, will arrive Monday night in time to take his place around the peace table. Griffith's assistants remained indoors tonight and ate an Irish dinner prepared by cooks brought from Dublin.

### CONTINUE CASES.

EASTLAND, Texas, Oct. 10.—All of the criminal cases in the eighty-eighth district court set for this week were continued over and set for the corresponding days next week. This action was taken by the court this morning in order that the Fleming-Stitzer case might be disposed of this week.

### Monument For Mothers of War Is Dedicated

PEEKSKILL, N. Y., Oct. 10.—A monument to the mothers of the Revolution, believed to be the first of its kind in this country, was dedicated at Continental Village, a few miles north of this town, yesterday—the 144th anniversary of the burning of the village by the British. The monument, a 15-ton granite boulder, was presented by Stuyvesant Fish. A bronze tablet sets forth that the village was a military post and depot of supplies in the Revolutionary war and that the monument is dedicated "in memory of the mothers of the Revolution, who watched and prayed while our fathers fought that we might be free." Mr. Fish's grandsons, Peter Stuyvesant Fish and Nicholas Fish, clad in buff and blue imitations of the Continental army uniforms, unveiled the monument in the presence of a large assemblage, made up of townspeople and representatives of patriotic societies. The dedicatory address was delivered by James Sullivan, state historian.

### ICE CREAM IS FAVORITE DISH SINCE SALOONS ARE BANISHED

MINNEAPOLIS, Oct. 10.—Statistics compiled by the National Association of Ice Cream Manufacturers shows the consumption of ice cream in the United States has increased approximately 100,000,000 gallons since prohibition went into effect. Possibility of a return to the 10-cent ice cream sundae and lower prices on other dishes was discussed at today's meeting of the association here.

### BUSINESS MAN SUCCEEDS HERE

Charles Edwin Scott, 42, died Saturday at the residence, 1304 Avenue M, after a lingering illness. Mr. Scott for years was with the Santa Fe railroad in its general offices and later with the Fisk company. He was president of the Grant Motor company of El Paso and Abilene at the time of his death. He is survived by his wife and three children, Mary Ann, 15; Joseph, 12; and Charles, Jr., 10. He was a member of the Episcopal church. Funeral services will be conducted from the residence at 4 o'clock this afternoon. Burial in the city cemetery. Paulbear and Hattie Noble. He was a member of the Methodist church. Funeral services will be conducted from the residence of M. A. Kemp at 4 o'clock this afternoon. Burial will be in the Eastland cemetery.

### BOSTON COLLEGE READY FOR MEET WITH TEXAS SCHOOL

BOSTON, Oct. 10.—Boston College football team had a stiff scrimmage today at the last workout before leaving for Dallas, Texas, for a game with Baylor University. Boston will put virtually her full strength against the Texans.

### MEETINGS

Order of the Eastern Star meets this evening at the Masonic hall for the purpose of initiation.

### WEST TEXAS FAIR SHOWS NET PROFIT OF \$3,326.78

ABILENE, Texas, Oct. 10.—The West Texas Fair at Abilene accomplished the impossible, or the next thing to it. The fair actually made money—\$3,326.78, to be exact. This was made possible by the record-breaking crowds which flocked into the fair park during the six-day exposition. The secretary's report shows receipts were approximately \$22,500, while expenses were \$19,173.22. Secretary W. G. Kinsolving in a statement to the directors reviewing the 1921 fair recommends that an architect be employed at once to map out the fair plant as West Texas wants it to be ten years hence, so that all buildings erected during the intervening time may be built to this plan.

### SEVERAL TESTS NOW PLANNED; MANY ORDERS OUT FOR RIGS

Five rigs were ordered over one telephone in Cisco Sunday, according to the owner of the place where the telephoning occurred. This indicates the extent to which the recent advances in oil are affecting oil operations in this vicinity. Tests are being planned on practically every side of the city. A test started on the J. W. Ray lease, five miles north of Cisco on the Breckenridge canyon road, is down about 400 feet. This is one mile east of the Ward lease, where a well came in 18 months ago making 280 barrels without a shot, and is still making around 35 barrels. The well now drilling is an offset to this well. On the Ward lease the New Domain shot a well about a year ago and got 200 barrels, which is still producing some oil. Two wells have been drilled on this lease, one showing for only a small producer and was plugged, and another being a heavy gasser. The Roberts-Murphy well, four miles west of the city, which was spudded in with a big baroque well before last, is now drilling below 100 feet. The drillers expect to make rapid progress from now on.

### TEXT BOOK BOARD HOLDS MEETING

AUSTIN, Oct. 10.—The state text book commission met here today for the purpose of opening bids and awarding contracts for certain books where contracts expire September 1, 1922. The board will also consider renewing part of the contracts, if expedient.

### YANKS WIN

NEW YORK, Oct. 10.—By a score of 3 to 1 the Yankees took the fifth game of the world's series from the New York Giants today, giving them a one-game lead in the battle for the pennant. Batteries: For the Yankees, Hoyt and Schang; Giants, Neff and Smith.

### HOYT AND NEFF MAY BE HURLERS

NEW YORK, Oct. 10.—On even terms the Yankees and Giants met today in the fifth game of the world's series. Both may elect to try for the edge with the hurlers used in the second contest. Waitie Hoyt for the Americans and Artie Neff for the Nationals. There has been a lot of talk about the Giants' lost and found battering-eyes and now the Yankees are having their say. They assert they will pound Neff or any other man McGraw sends against them. Ruth is expected to play today. Cloudy, misty weather prevailed at 7 o'clock this morning, with an official forecast of rain. Good weather was indicated toward noon for the fifth game of the series. Hoyt, the Brooklyn youth who shut out the Giants in the second meeting of the teams, allowing but two hits, appears to be Huggins' only hope to put the Yanks to the front again.

### FIVE MILLIONS HAVE BEEN SPENT ON ROADS

AUSTIN, Oct. 10.—Road projects totalling 682 miles and costing \$5,812,851.01 have been built in Texas under the supervision of the state highway department, J. D. Faintleroy, United States district engineer, announced. There are under construction 1,631.97 miles of roads, at a probable cost of \$23,485,200.13; and other projects, not yet in an active stage, covering approximately 900 miles, at an estimated cost of \$13,000,000.

### TEXAS TOWNS RECEIVE GOOD FIRE RECORD CREDIT

AUSTIN, Oct. 10.—Good fire record credit ranging from 3 to 15 per cent has been allowed 214 cities and towns in Texas, the state fire marshal announced. The credit, an announcement said, will show a saving for 1921 on insurance premiums to the citizens of these cities and towns of approximately \$1,599,000.

### FROST KILLS POTATOES.

GRAPEVINE, Tarrant County, Texas, Oct. 10.—A heavy frost formed here Friday night. It was sufficient to kill sweet potato vines and tobacco.

### GRAND JURORS ARE CALLED TO MAKE PROBE OF LORENA TRAGEDY

WACO, Oct. 10.—Judge R. I. Munroe this morning called the McLennan county grand jury to meet Wednesday morning at 10 o'clock to investigate the Lorena tragedy.

### TRIAL DELAYED; SHERIFF IS ILL

WACO, Oct. 10.—Trial of Mrs. Dessie Keyes and W. E. Ayen, charged with the murder of Leslie Keyes, set for today, was re-set for October 31, on account of the inability of Sheriff Buchanan to attend. The sheriff is a material witness in the case.

### PERSHING WONT VISIT LONDON

PARIS, Oct. 10.—American troops held here for a week to act as a guard of honor at Westminster Abbey in London when General Pershing was to lay the congressional medal of honor upon the tomb of a British "unknown soldier," were returned to Coblenz today. General Pershing will not go to London as planned because of the failure of the British war office to fix a date for the ceremony. He will sail for home October 20.

### BALL GAME IS ENDED BY RIOT

LOUISVILLE, Ky., Oct. 10.—The riotous ending of the fourth game between Louisville and Baltimore for the junior world series championship yesterday, when 500 or 600 spectators swarmed on the field pelting umpires with cushions, was today characterized by William Kemblamp, president of the Louisville club, as a disgrace. President Hickey of the American Association held the same view. The fans protested the umpire's decision, forfeiting the game to Baltimore.

### FIRE INSURANCE COMPANIES MUST PAY HUGE AMOUNT

JACKSON, Miss., Oct. 10.—Complete victory was won by the state revenue agent over the 139 fire insurance companies, defendants of the anti-trust suit, in a decision by Chancellor V. J. Striker, who ruled that the Mississippi Inspection and Advisory Rating bureau was merely the old Southeastern Tariff association, barred from the state 15 years ago, in disguise. The decision held the bureau fixed and forced fire insurance rates in Mississippi and the defendant companies were responsible for the bureau. The chancellor, however, asserted the insurance agents were merely "victims of circumstances." Penalties aggregating nearly \$13,000,000 were imposed by the chancellor against the defendant companies. The chancellor imposed the minimum penalty of \$200 per day, provided by the statute that was in effect from 1908 to 1910, and a fine of \$25 per day from 1916 up to the time the companies withdrew from business in this state during the early part of the current year. The legislature in 1910 reduced the minimum penalty to \$20 per day. The anti-trust suit was originally brought against 139 fire insurance companies, but some time since Chancellor Striker dismissed the case as to 55 re-insurance companies, who had been made defendants in the action filed by Stokes V. Robertson, state revenue agent.

### MOUSE SUFFICIENT CAUSE FOR DIVORCE IN CHICAGO

CHICAGO, Oct. 10.—Judge Joseph Sabath indicated he would grant a divorce to Mrs. Gladys May Marsh after she testified her husband, Clyde Marsh, real estate dealer, placed a live mouse in her bed.

### MOTHER AND SON FOUND DEAD; SUICIDE PACT

ST. LOUIS, Oct. 10.—Mrs. Christena Much and her 32-year-old son, Henry, were found dead in their home here. Notes indicating that a suicide pact had been made by the two, inferring that ill health of the mother had prompted them to seek death.

### TAKE MONEY FROM NEGRO MESSENGER; GET \$57,650

ST. LOUIS, Oct. 10.—Two men this morning held up a negro messenger for the Grand Avenue bank and escaped with a satchel containing \$7,650 in cash and more than \$50,000 in negotiable papers.

### STUCKEY RAPS STATEMENTS OF NON-CHRISTIANS

Taking his text last night from Luke, 14th chapter, 18th and 20th verses, Rev. L. N. Stuckey preached to a packed auditorium on "Excuses for not being a Christian." The sermon was based upon the story of the master who sent out his invitations to his servants to attend his great feast, and one answered that he had bought a piece of land and had to go look at it. Another answered that he had bought some oxen and he had to go and plow them to see whether or not they were any good, while the third servant answered that he had just married and therefore could not attend.

The speaker said in part that there were always people making excuses for not being a Christian, but they could not give any reasons; that there was a great deal of difference between a reason and an excuse. Some people say they would like to be Christians, but that they don't feel like it. This excuse was illustrated as being foolish by the story of a young man and woman coming unto the altar to get married, and when the time comes for them to join hands the young man says that he doesn't feel like it. Others make the excuse that there are too many hypocrites in the church, but the man who hides behind something is smaller than the object he hides behind. The speaker declared that he liked a sinner who was in the church better than one out of the church, for it shows that the former at sometime tried to be a Christian, while the latter has never made any effort to live the right kind of life. Other excuses commonly given are as follows: "I am afraid I can't hold out," "I would like to be a Christian, but not tonight," "I am a moral man," and I haven't strength to give up my sins." The speaker characterized these excuses as foolish, and as showing ingratitude to Jesus Christ who came to the world without excuses to suffer and die for men that they might have eternal life. All available space in the church was packed at every service yesterday. There were ten or twelve professions of faith, and nine gave their names for membership at the morning service.

### DUNNAM WILL RESIGN OFFICE; GOING TO WACO

W. V. Dunnam, county attorney of Eastland county, will tender his resignation, effective November 1, and will move to Waco, where he will practice law. This information was verified today by one of Mr. Dunnam's assistants. Dunnam could not be reached. Dunnam is serving his first term as county attorney, taking office last December. He came to this county from Coryell county. He has been generally regarded as an efficient and trustworthy official, zealous in the enforcement of the law. His successor will be named by the commissioners' court.

## FAIR PLAY WILL WIN.

President W. G. Lee, of the brotherhood of railway trainmen, frankly has told his organization that he would be remiss in his duty if he failed to remind them that wages and working conditions developed since 1917 are abnormal—the result of the great war, says the San Antonio Express. Also, that the government reports millions of men out of work; that nearly all classes of labor have been compelled to accept wage reductions of various percentages; that the pay-increases erstwhile granted them were based on the higher cost of living and that government statistics now show a reduction of 16 per cent in such costs.

These facts are as well known to any intelligent person as the law of gravitation—or the law of supply and demand. That they are stressed by the head of a great labor organization, with such publicity, "as a matter of duty," evidences a high sense of official obligation; a courageous sincerity that ignores any consideration of the "popularity" which comes from "telling the crowd what it wants to hear."

More than 90 per cent of the members of Mr. Lee's organization have voted to strike "against" the wage-reductions ordered by the railroad labor board. He opposes execution of the strike "verdict" as wholly inadvisable; as altogether untimely, when millions of men and women cannot find employment even at lesser wages than have been paid since 1917, or earlier.

He wants them to act the part of wisdom. He has instructed the general chairman to lay the strike vote before their grievance committee for approval or disapproval. If approved, he will call the walkout.

There has been, and is, much censure of so-called labor "leaders" who selfishly misled, rather than intelligently direct their organizations or executive bodies; who regard neither the obvious demands of their followers' welfare nor the public's vital interest in economic stability and peace.

But the wiser heads know that no strike which is not based on right principles—on fair play, all circumstances considered—can succeed. They know, too that this is the worst of all times to strike "for" wage-scales of the pre-"readjustment" period, let alone of the war period. Witness the Lee letter to the Brotherhood of Railway Trainmen.

er than that of Idaho, and many northern Idaho taxpayers are wary of a union with eastern Washington, fearing that the new state's taxes would be high. Some good reasons have been presented for the formation of a new state, especially that the slender strip of Idaho which extends northward between Washington and Montana is isolated geographically and commercially from the main section of the state. But many states have overcome similar difficulties, and northern Idaho is still largely undeveloped. Probably a decade will see railroads and highways in Idaho conforming more closely to state boundaries and contributing more directly to the unionization of the state's interests. It is very unlikely that the boundary lines of any of our states will ever be materially altered.

### Money in Petroleum.

(Wichita Falls Record-News.) A total production of 40,964,000 barrels of oil was recorded for August. Oklahoma led all states with a total of 10,217,000 barrels, an increase of 12,000 barrels. California showed a total production of 10,026,000 barrels, a drop of 221,000 barrels. Texas produced 8,105,000 barrels, an increase of 25,000 barrels. Arkansas produced 1,900,000 barrels, an increase of 500,000 barrels, which is regarded as a remarkable increase. During the month decrease of imports registered more than 4,500,000 barrels and the increase in consumption was 1,250,000 barrels. This resulted in a substantial check to the accumulation of stock that had been in progress for many months. Stocks during August increased only 671,000 barrels. There appears to be money in petroleum.

## FOURTEEN COLORED Y'S ARE BUILT IN LAST EIGHT YEARS

CHICAGO, Oct. 10.—Fourteen colored Y. M. C. A.s have been built in as many cities during the past eight years and efforts are being made to erect several more. L. Wilbur Messer, general secretary of the Chicago Y. M. C. A., reports. Total cost has been \$1,989,000. These buildings were put up with the help of Julius Rosenwald of this city. Under a standing offer of \$25,000 toward each new one, he has contributed a total of \$350,000, and his offer has still a year and a half to run. Paid-up membership in the negro associations numbers 22,000; and they reach many more, Mr. Messer said. That in Chicago, the first and largest, had about 2500 men and boy members last year. It was at Mr. Rosenwald's suggestion and with his help that the plan was tried here and his gifts to other cities continues to be made through the Chicago Y. M. C. A.

George A. Arthur, a slightly built colored man, is in charge of the Chicago colored department. Colored management is the rule through all 14 of these departments. Mr. Arthur had made a success in business before he resolved to pioneer in this field, and Mr. Messer reports he has conducted his department "with success and credit" and that there is "no more loyal Y. M. C. A. in Chicago."

The budget of Mr. Arthur's department this year is \$89,000, and the colored people pay about 87 per cent of it. Adjustment of the rural negro of the south to the industrial north is a more difficult problem than that of the immigrant, according to Mr. Arthur. He adds that the colored Y. M. C. A.s have been the chief factor in their communities in promoting this readjustment, because they were the only institutions that had the necessary equipment methods on leadership already at hand.

Bad gangs of young colored boys have been broken up by the local Y. M. C. A. Mr. Arthur reports, by getting their members interested in swimming and other sports. It works largely on industrial lines, having 11 baseball teams organized this year in nearby packing houses and industrial plants. It also has formed efficiency clubs of colored men within the plants.

Other colored Y. M. C. A.s are located in New York, Brooklyn, Pittsburgh, Philadelphia, Columbus, St. Louis, Indianapolis, Nashville, Cincinnati, Kansas City, Baltimore, Washington and Atlanta.

**FLAG OF FORMER EMPIRE POPULAR YET IN GERMANY**

BERLIN, Oct. 10.—The black, red and gold flag of the German republic is less in evidence than any other of the dozen or more official emblems which wave from houses of every town and city of the country. The most popular banner is the black, white and red of the former empire.

In some provinces and in a number of towns the republican flag has never been flown, is not recognized, and cannot be purchased. Even in Berlin, seat of the government, the flying standards of the empire outnumber those of the republic, which appear generally to be restricted to necessary official use or to popular demonstrations in favor of the new regime.

The red flag of the Communists usually flies side by side with the republican colors during any popular parades or manifestations. In some quarters this situation has caused agitation against monarchical propagandists and here and there has resulted in fights between the police and adherents of the monarchy or between monarchists and republicans, but on the whole it has passed unnoticed.

The only definite effort to prevent the use of the flag of the republic has come from the mercantile interests, which are strenuously seeking authority to retire their old colors—the flag of the empire with the outline of an iron cross in the upper right-hand corner. It is argued this flag was known in nearly

every part of the world before the war and that its abandonment would handicap German shipping, which is seeking with all available means to regain its pre-war prestige.

The government has indicated that a referendum may soon be held to permit the people generally to decide whether the demand of the mercantile interests should be granted.

Each German state holds proudly to its old colors—the black-white of Prussia, the blue-white of Bavaria, the green-white of Saxony, and among the German residents, the yellow-white of Upper Silesia. East Prussia flies the flag of the empire, and declares it will have no other.

Supporters of the republic profess confidence that the great majority of the people would willingly support the republic in an emergency, notwithstanding the widespread attachment to other flags.

## URGES PLANTING OF SHRUBBERY FOR ATTRACTING BIRDS

NEW YORK, Oct. 10.—Trees, shrubs and vines which will attract the birds should be planted by home owners, according to Prof. Alan F. Arnold, of the New York State College of Forestry, who declares that many of our native birds are disappearing because of lack of food and shelter.

Professor Arnold has made public a list of plants attractive to birds, which included many of the most ornamental of plants. This included the native red cedar, which provides the best shelter and nesting sites for birds while they find food in the berries and insects commonly found on the trees.

The native flowering dogwood and the Chinese flowering crabapple are also favorites of the birds. The gray-stemmed dogwood, honeysuckle, American elder and sheepsberry also are serviceable. The Virginia creeper is given as one of the most popular vines, furnishing nesting sites for birds and draws the attention of birds away from grapes, apples and peaches.

"If one has a place where plants of a wilder sort can be introduced," said Professor Arnold, "and wishes to make a special point of attracting birds, there is a great variety of native plants that could not perhaps be used for more finished effects but here would be just the thing. These are mulberry, tupelo and white spruce, such shrubs as the spice bush, choke cherry and swamp rose and bitter-sweet and frost grape vines. The flowering dogwood, mulberry, wild black cherry, bayberry, American elder and high-bush blueberry can be counted on in general to attract the bluebird, cardinal, flicker, kingbird, Baltimore oriole, robin and cedar waxwing.

"The home owner interested in observing birds himself or affording an opportunity for his children; the farmer who desires to protect his fruit crops and the person who wishes to assist in the conservation of our city and our forest trees, as well as our native birds, can perform a great public service by planning his planting with the birds in mind."

## RUSSIAN BOLSHEVISM TRIES DICTATION TO SOCIALISTS IN ITALY

MILAN, Italy, Oct. 10.—The issue whether the interests of Moscow or Italy shall control in the conference of Italian Socialists to be held here October 10 may come up at that meeting. Italian newspapers report the Nikolai Lenin, the soviet premier of Russia, has sent to Italian Socialists a plan for the soviet conquest of Italy; but this is denied by Giovanni Bacci, secretary of the Italian Socialist party.

According to some of the newspapers, Lenin has given instructions as to how party alignments shall be formed in Italy. He is said by them to have directed the right wing of the Italian Socialists, which is outside the pale of Moscow's dictatorship, to accept portfolios which have been tendered to them under the present ministry, headed by Prime Minister Bonomi.

The purpose is stated to be to enable them to use their influence with the Italian government to bring about a recognition of the soviet government of Russia.

It is affirmed by newspapers that Lenin hopes England and France will follow suit if Italy recognizes the government.

The newspapers credit him with planning the expulsion of the Italian Socialists of the right from that party and the formation of a new Italian Socialist party by grouping the Socialist lefts and the Communist right, and giving this party the recognition of the Third Internationale.

Moderate Socialists are seeking to compose the differences in the party in an effort to preserve its unity.

PARIS, Oct. 10.—Otokar Bartik, ballet master of the Metropolitan opera company, New York, has arranged with Katharina Schrat, who was for many years the intimate friend of the late Emperor Francis Joseph of Austria, to visit America and deliver lectures, beginning in January or February next.

Frau Schrat, who was regarded as an exceedingly important person in the private life of the late emperor, is now 65 years old. She was an actress of distinction in Vienna when she became the friend of the emperor. Mr. Bartik found her at her little chateau at Hitzling, in the suburbs of Vienna.

She is writing the memoirs of her life in close relation to the court, and these will include some chapters of secret history.

## YOSEMITE PARK IS LEADER IN VISITORS

YOSEMITE, Cal., Oct. 10.—Yosemite National park, California's great playground, this year took first place in the race among the national parks for first place in attendance. The lead was wrested from Yellowstone National park by a margin of approximately 10,000 visitors.

At a telegram from Horace M. Albright, superintendent at Yellowstone, recently announced that 81,347 visited that park during its 1921 season, which closed September 20. On September 19 Yosemite

Manufactured by The American Tobacco Co.

had a record of \$9,157, with heavy travel continuing. Never before has Yellowstone, the oldest of the national parks, been topped from the lead.

As Yosemite is open the year around, the totals for the year will be even higher. Final figures for the government's statistical "travel year," which closes September 30, will bring Yosemite's total for the twelve months ending that date to about 90,000.

Mr. Albright reported that Yellowstone had 15,678 automobiles, carrying 55,771 passengers, this year. Yosemite had 13,495 automobiles, with 63,153 passengers. Railroad travel to Yellowstone decreased by about 4000 passengers, but Yosemite shows an increase in railroad travel, one of the few instances of an increase this year in travel by rail to the national parks, despite higher railroad fares which went into effect late in 1920.

## MANY PETITIONS.

BERLIN, Oct. 10.—The right of initiative accorded by the constitution of the German republic to private citizens has produced a crop of petitions to the reichstag which is threatening to overwhelm the commission charged with their examination.

More than 10,000 petitions and memorials with suggestions for ameliorating the present conditions are awaiting consideration. They run the entire gamut of public affairs, from fiscal reform to the supply of free dental treatment for all.

See our prices on the Bunsen burner heater before you buy. We can save you some money. Cisco Hardware Co. 203

## PROBE SMUGGLING.

PARIS, Oct. 10.—Smuggling by airplane of imitation American goods from Germany into France is being investigated by the French police. Germans are alleged to be smuggling counterfeit safety razor blades and pencil cases into Paris, where street hawkers sell them for one-half the price of the genuine article.

The police have had no difficulty in ascertaining that the goods were made in Germany, but have been unable to locate the airplane, landing field used by the smugglers.

**GETTING GOATS HIGH.**

VANCOUVER, B. C., Oct. 10.—Getting a fellow's goat in British Columbia might cost the getter from \$45 to \$500. That is the range of prices for Toggenberg, Saanen and nubian animals. These are milk goats and British Columbia is the heaviest breeder of milk goats of any province in Canada. Goats in that province number 5,000 according to figures issued by the provincial department of agriculture.

The original foundation stock numbering 200 head, was imported from the United States in 1877. Efforts of breeders have been concentrated upon the Toggenberg, Saanen and Nubian breeds. These are noted for milk production. Official records have frequently run as high as 2,900 pounds to an animal and one goat has a record of 2,941 pounds.

No labor is necessary in raising goats. A snug, comfortable house, free from draughts and rain-proof is all that is required for shelter. The animals pick up their own living, feeding on grass and all kinds of leaves, weeds and branches of young trees.

Royal Hotel rooms are nice, new, clean and modern. Single room, \$3.50 per week; double room, \$5.00 per week.—(Advertisement.) 209

## OTHER EDITORS

**Golf.** (David R. Forgan.) It is a science—the study of a lifetime, in which you may exhaust your self but never your subject.

It is a contest, a duel or a melee, calling for courage, skill, strategy and self control.

It is a test of temper, a trial of honor, a revealer of character.

It affords a chance to play the man, and act the gentleman.

It means going into God's out-of-doors, getting close to nature, fresh air, exercise, a sweeping away of the mental cobwebs, genuine recreation of the tired tissues.

It is a cure for care—an antidote to worry.

It includes companionship with friends, social intercourse, opportunity for courtesy, kindness and generosity to an opponent.

It promotes not only physical health but moral force.

**Blessing in Disguise.** (Marshall News.) The failure of the South's cotton crop has been a blessing in disguise. The reduced acreage planted this year would not alone, in the face of the immense carryover from last year, had enough effect in reducing the world's visible supply to have materially raised the price. But the reduced acreage, and the low yield per acre of the crop that was planted, have together done the trick. What seemed six or eight weeks ago to be a dire misfortune has proved itself to be a blessing. And not only has it been a direct blessing in raising, in doubling the value not only of our this year's crop, but of our holding over from last year, but it has been a wonderful lesson to the southern farmer in proving the advantage of limited production as compared with over production. It will bring home to him, as nothing else would, the advantages of diversification and of going light on cotton.

**State Parks.** (Denton Record-Chronicle) The enthusiasm of the legislative committee named to visit the proposed sites for state parks is evidently strong. The committee is unanimous, for instance, in recommending the establishment of a state park in the Davis Mountains; the only division is whether the park shall comprise 500 square miles or 1,000 square miles. There are several other proposed sites to be inspected, and some of them will arouse equal enthusiasm to that engendered by the West Texas Sierras. It may be considered an extravagance, but we feel that Texas could make no better permanent investment than in taking unto itself and preserving, for

all future generations to enjoy, some of the scenic grandeur and beauty that Texas possesses. A state park in the Davis mountains; another in Paloduro canyon; still another or others in other sections of the state where the sites can be obtained cheaply, would provide enjoyment to Texas citizens for all time to come, and, for the present, it might serve to apprise Texans that within the confines of their state they have scenery and climate and tourists attractiveness that they have been accustomed to going thousands of miles to see. It is a foregone conclusion that the inspecting committees will recommend the feasibility and desirability of establishing one or more state parks; it is our hope that the legislature will accept the recommendation and provide the means for the establishment.

**The Number Seven.** (Columbus Dispatch.) It seems that the number seven has always had some peculiar significance. On the seventh day of the seventh month a holy observance was ordained to the children of Israel, who fasted seven days and remained seven days in tents. The seventh day was supposed to be a Sabbath, or rest for all, and at the end of seven times seven there was to be a jubilee. Jacob served seven years to win Rachel for his wife. Noah had seven days' warning of the flood. Nebuchadnezzar lived seven years as a beast. The savior spoke seven times from the cross on which he hung seven hours. In scripture there are seven resurrections mentioned. In the Lord's prayer there are seven petitions. There were seven mysteries of the apocalypse revealed in the seven churches in Asia. In revelation seven spirits of God, seven golden candlesticks, a book with seven seals, seven angels with seven trumpets, seven players, seven vials of wrath, seven kings, seven thunders, and a dragon with seven heads.

**Idaho and Washington.** (Des Moines Register.) The proposal of residents in parts of Idaho and Washington that a new state be formed from portions of both commonwealths is about to go the way of similar proposals which have preceded it, according to dispatches from the northwest. State Senator R. H. Hutchinson, chief sponsor of the new state plan in Washington, died recently and the proposed meeting of the northern Idaho and eastern Washington interests originally set for early September, has apparently been abandoned, and Idaho supporters of the new state plan have expressed doubt as to the wisdom of pressing the matter at this time. A commission authorized by the last Idaho legislature to take steps toward the formation of a new state has not been appointed, and may never be. The tax rate in Washington is much high-

DEVOTED TO THE INTERESTS OF CISCO HIGH SCHOOL

VOL. III.

CISCO, TEXAS, MONDAY, OCTOBER 10, 1921.

NUMBER 3.

STUDENT OPINION.

Have the Boys Throat Trouble?

It would be interesting to know what the townspeople thought about the high school boys at the Gorman game. Mr. Gaither told the student body last Monday how it looked to see the boys out on the side line, while the girls were doing the yelling. That's a fact. As soon as the game had started the boys streamed out to the side lines, leaving the girls and the yell leader to boost for the team. They yelled for every play and every touchdown and every good play, but the boys didn't have school spirit enough to stay in the grandstand where they belonged, and yell. Let's all follow the yell leader next time there is a game here; let's get in and yell so loud the crowd won't know there are any girls present. Let's show the school and the town that we can yell, too. Don't repeat the shameful scene of the Gorman game. Boost for your team and boost together.

Don't Crowd the Side Lines.

At the Gorman game, an effort was made to keep all spectators in the grandstand. For a while they stayed, but as soon as the game started almost everyone rushed to the side lines. They obstructed the view of those who remained in the grandstand, they interfered with the players and the officials, and above all, they couldn't see the game as well as they could have from the grandstand. There was continual shifting for a better position and many good plays were unseen by the side line spectators.

If everyone would remain in the grandstand there would be much less confusion and greater enjoyment of the game. At the next game here let's make it a point to all sit in the grandstand and avoid the inconvenience and confusion of watching from the side line.

WHEN SHALL WE MEET AGAIN?

The home and school association met last Tuesday with a good attendance. Mr. Wells called the meeting to order and then waited for the members to appear. Half an hour later they appeared. Mr. and Mrs. Olson came first, and Mr. and Mrs. Olson soon followed. The business of the club consisted mainly of the "Punch" prepared by Gilbert Glascock for the debating club. Considering all things, this meeting was a great success. The club tackled the business confronting it with great vim and completed it with evident enjoyment.

CISCO DEFEATS STRAWN.

Gridiron Warriors Hang Another Scalp on Their Belts.
Playing a good brand of football, Cisco defeated Strawn on their own grounds by the score of 7 to 6 Saturday, October 8th. The game was hard fought from start to finish, although Cisco did not play up to form. All the "breaks" of the game went to Strawn, and for this reason Cisco had a hard game. Going through the line and completing for

ward passes, Cisco made thirteen first downs, while their opponents made only nine. The features of the game were the end runs of Ready and the receiving of passes by Grant of Strawn, and for Cisco Tucker was the outstanding star. Tomlinson and Wilson played a stellar game on ends, while Stubblefield played a good game at half, intercepting and breaking up forward passes.

Cisco made her touchdown in the first three minutes of play. Strawn kicked, Cisco received the ball on Strawn's 45-yard line and made two first downs, putting the ball on Strawn's 11-yard line. Tucker carried the ball over the line. Herndon kicked goal, making the score 7-0. In the last few minutes of play Strawn made her touchdown. Ready of Strawn received a punt on his own 20-yard line and ran 98 yards for a touchdown. Strawn failed to kick goal.

Line-Up. CISCO.
Stuart C. Kilborn

P. P. Grant D. E. Martin
Ready, capt. Q. E. Turner, capt.
Whittaker L. H. Tucker
Baller R. H. Stubblefield
Grant F. B. Herndon
Substitutions: Cisco—Gentry for Mancill; Wilson for Martin.
Officials: Nolan (Oklahoma) State, referee; Jordan (Weatherford), umpire; Paine (Oklahoma A. & M.), head linesman.
Timekeepers: Carruthers and Yates.

RECEPTION GIVEN TEAM AT STRAWN.

Strawn gave a reception for the Cisco football boys after the game Saturday evening, at the home of Mr. and Mrs. George Watson. This was a very fine entertainment and the boys enjoyed it very much. The boys and the girls drew to see who would be partners, but some of the boys did not get any girls, as there were not enough to go around. The refreshments were hot chocolate and cake. This is the best reception the football boys have had on a trip this year. Glenn Tucker fell in love with Miss Halifax, but do not worry, Helen, she

was a boy dressed up as a girl. Joe Kilborn fell down on the hardwood floors as he was not used to them. Aaron Robinson was the real heart-breaker. He was so lucky he got to eat supper with a good-looking girl who owned a fine car. The boys want to play Strawn again if possible.

RANGER NEXT.

Cisco plays Ranger next Saturday at Ranger. Ranger has a much better team this year than last. So far they have won from Eastland, 13 to 0, and Comanche defeated them only 13 to 0. Cisco had better watch out if they do not want to get beat. We have not been keeping up practice enough. We do not want to get beaten by a team we have always beaten. We will beat Ranger if the team gets in better shape, but if they do not we will not win. So far we have not lost a game and we want to keep the record clean, because we have one of the best teams in West Texas.

BASKETBALL.

Basketball practice has started, but we need more men who are not playing football to come out for practice. Coach Hilgenburg says that he wants the track men to play basketball to get in condition to get on the track team. The coaches for the boys are Mr. Herndon and Mr. Hilgenburg, and for the girls are Mr. LaRoque and another teacher. The boys started last week and the girls are going to start soon. Both of the courts are in good condition, but we need players.

CHIPS.

The following chips were cut by the 2-1 class.
If a shingle is a shingle, what is a board?
Earl: "Mr. Herndon, why do you want us to put windows in a floor plan?"
The manual training department with all its boards is a good place for bad boys.
When the fire alarm sounded Wednesday, all rushed out. Cecil McCord went back to get his pencil, and when asked why he did it, he said he had to save himself first.
Mr. Herndon has cleaned out the monkey cage and is now ready for business.
The manual training class is learning its A. B. C's. They have started work in lettering.

CLEAN SPEECH.

Timely Talk Made by Mr. Godbey to the Student Body.
Mr. Godbey made a fine talk to the student body Tuesday morning. His remarks centered about clean speech in athletics and elsewhere. He said in substance: "A Cisco man told me he heard three Cisco football players use profane language during the Gorman game. It is against the rules to use foul speech

during a game, and a player can be penalized for it, and the team will suffer. Cursing is a sin for which, I believe, there is no excuse whatever.
"A man may steal in order to live and a man may commit murder because he has been greatly wronged. There is conceivably an excuse for his so doing; but there is no excuse for profanity. You may think that it will relieve your anger, but it only makes you more angry. Then it is not gentlemanly to curse. No man who is a gentleman will deliberately use profanity.
"The psychological side is bad. Many men get in the habit of swearing and do it unconsciously. Anyone who hears a man like this naturally puts him down as a roughneck.
"It is not a sign of manhood to stand up and curse like a sailor, but it is a sign of manhood to have the will power to refrain from profane language under conditions that would make a preacher curse.
"Cisco must not acquire a reputation through its athletic team of being a profane town."
This was quite a timely talk and one that strikes home. Mr. Godbey told the facts in plain English. If Cisco teams use profane language, they will lower the reputation of the town in which we live and hurt our athletic standing beyond repair.

SUSAN SMARTWEID SAYS:

Three cheers for Mr. Gaither. Give those boy slackers a lot more just like you gave them Tuesday morning—for not yelling at the games.
The pupils in the study hall—
Do love flattery; one and all—
But along with the flattery comes the gall.
Some teachers scold; some teachers praise.
And some do lecture for days and days;
But no telling what a racket we'd raise.
And no telling just how bad we'd be
If we weren't afraid of that "23."
Mr. Wells thinks he knows who took the magnesium ribbon from the laboratory, but won't say for fear somebody will poison his cow.
Answer to last week's criticism: Yes boys, we need that special place in which to powder our noses. If we flourished our powder puffs in the halls and classrooms the thick haze would be injurious to your eyes.
Mr. Godbey, who has been suspicious of everyone since he lost track of his last winter's hat, was greatly relieved to find it today while cutting some tall weeds at the rear of his home.
"I passed you three times this morning marching to classes and you never looked up either time," was a relieved remark made by Forest to his favorite girl.

HOW MUCH DO YOU EXPECT TO EARN?

The beginner in the business world must expect to "begin at the bottom and come up." Too many business schools lead the prospective students to believe that the business world is made of "green cheese," and that the wheels of progress have practically ceased to turn pending the graduation of said student.

ROMANCE.

My love has flew;
He done me dirt;
I didn't see;
He were a flirt.
To them that's schooled,
Oh, let me hid,
To be not fooled
Like I was did.
—Selected.

MEDITATIONS OF MONTY.

After much reflection we have decided that the reason most girls hob their hair is so that it won't be noticeable when they forget to comb it.
There is a secret movement on among the students to Ku Klux the teachers who spend a whole period outting examination questions on the board and expect us to have answered them all by the time the bell rings.

As a matter of fact, the business world would continue to make its regular revolutions if these students failed in their exams.

What you would earn in your initial job as a stenographer or a bookkeeper depends on the training you get before you apply for the job. Some students will be lucky enough to find a job that will pay enough to pay for their neckwear, while others will get a living salary.
After all, it isn't so much what you start on as what you finish on that counts.
—From the Commercial Dept.

TALENTS.

Some days I like to go to school,
But not so very many;
If it were not for the cooking class
I fear there'd not be any.
Algebra is hard to learn,
And geometry is no better;
At Latin work I go to sleep,
And cannot write a letter.
But father laughs and says we need
I'm always wide awake.
On Saturdays I show at home
What good things I can make.

PUNISHMENT.

If the seniors in the cafeteria knew how many of us hurried to school without our breakfasts, they would put a stop to the frying of ham down there the fourth period.
Dear Monty: I see you are wiser than the usual run. Will you please tell me how to make my complexion beautiful—Worried Senior.
Answer: Don't worry about it. About three coats of pink Jap-a-Lac will make you as beautiful as could be expected.
If noise can't travel through a vacuum why is it teachers accuse us of letting everything go in one ear and out at the other?

THINGS WE COULD GET ALONG WITHOUT.

1. Animated faculty conversations at chapel.
2. Book-reports.

GOOD PROSPECTS IN CAFETERIA.

It is not yet known how much can be expected from the lunch room this year. So far, trade has not been large, but it has cleared an average of two dollars a day. This is not exact, as a credit basis is being used.
The cold months of winter will bring more trade, as many will not wish to walk home. The menu will then consist of soup, chocolate, etc., besides the sandwiches that are now being sold.
There has not been very good co-operation lately. A few seniors have been down almost every day instead of having to work only once a week, as was planned. It is hoped that there will be a change for the better after Mr. Wells' talk on October 5th.

A DISTINGUISHED GUEST.

Mr. Rogers, state high school supervisor, visited the Cisco high school last Wednesday. While he was here he inspected the different classes in the school. He spoke very favorably of the attitude the students took towards their work, and congratulated us on the work we were doing.
Some of us were greatly surprised to have him with us so early in the term, but we are always glad to have state officials visit us, to see the work our school is doing.

EAST WARD ECHOES.

The "Triple L" Literary society was organized again this term by the pupils of the sixth and seventh grades. The officers are as follows:
President—Delbert Hubbard.
Vice-President—Glen Bomb.
Secretary—Lloyd Ayers.
Treasurer—Marvin Spoon.
Sergeant-at-Arms—William Waddell.
Program Committee—Lee, Osborn, Muriel Ramsey, Annie Latch, Mrs. Ball and Mrs. Curston.
James Farley, who fell from the swing about a week ago, is back at school.

VALUABLE ADDITION TO LIBRARY.

The library has eight new sets of classics for English, besides those used last year. Some of these new sets are works of Dickens, Scott, Shakespeare, Hardy, and Wallace. We also have a new Encyclopedia Britannica. The class of '21 made a valuable addition to the fiction section. The Dramatic club also made a gift to the library.
Miss Ramsey, the librarian, has requested that all students look at home to see if they have any books belonging to the school library.

NEW REPUBLIC IS BORN OF FEDERATION OF THREE STATES WITH POPULATION OF 4,000,000

TEGUCIGALPA, Honduras, Oct. 10.—A new nation having an approximate area of 100,000 miles and a population of 4,000,000 will come into existence today when the governments of Honduras, Guatemala and Salvador will cease to function and the provisional federal council of the Central American federation, composed of those countries, will take charge.
The new republic lies between Mexico and Nicaragua, with Tegucigalpa as its capital.
The pact of the union was signed early in January of this year at San Jose, Costa Rica, by the three mentioned states and Costa Rica, whose national assembly rejected it later by a vote of 19 to 20.
Nicaragua refused to sign the pact on account of differences with its neighboring states about the interpretation of the Bryan-Chamorro treaty, which gave to the United States special right for the construction of a new interoceanic canal through its territory.
Similar considerations apparently prevailed in Costa Rica, but in both countries the public opinion is divided and a Unionist party is endeavoring to bring about, some time, the union of Nicaragua and Costa Rica to the federation.
If this comes to a fulfillment, the population of the new nation would be increased by 1,000,000 inhabitants and would extend its boundary down to Panama.
The union of these sister republics has been a national aspiration since 80 years ago, when political troubles destroyed the federal republic of Central America which, as a whole, liberated itself from the Spanish power in 1821. They maintained its unity until the '40s. They speak the same language, Spanish, have the same religion, Roman Catholicism, and are of the same race, predominantly Indian, except in Costa Rica, where the white race prevails. Since the Spanish conquest they have had identical legislation and the same culture.
The text of a government modeled on the lines of the constitution of the United States, with three separated branches, the executive, legislative and judicial, although the executive is modeled more on the Swiss system. A constitution

steam electric generating plant has been put into operation within 2000 feet of the mine that supplies them with coal. It is located near Kincaid in Christian county and is run by the Central Illinois Public Service company.

Its electricity goes to the agricultural section of West Central Illinois, to 63 communities, to a number of neighboring coal mines and to various pumping stations draining about 60,000 acres of farming land.

Coal for this plant comes from the ground in electric elevators, is raised into a trolley and drops into cars which by force of gravity are carried into the plant. There the cars automatically dump into a hopper and from it the coal is fed by automatic stokers into the furnaces.

Labor costs are sharply curtailed and coal freight rates are eliminated. The big problem is to obtain sufficient water for condensing purposes.

When sufficient water supply is available the establishment of such plants is practicable, according to C. R. Richards, dean of the college of engineering and director of the engineering experiment station at the University of Illinois. "But," he said, "water supply is imperative and must be abundant in sufficient quantities to provide for the condensing process or else a plant can not be economically run.
"It is conceivable, provided the necessary water be had," Dean Richards added, "that this whole central western country may be linked up in one great system by the development of a 'super-power line' similar to that found in the New England states."

LINDSEY IS AFTER THOSE HIGHER UP IN LIQUOR RING

DENVER, Colo., Oct. 10.—Declaring that it would be unjust to punish a lesser offender against the bootleg laws while wealthy social leaders of Capital Hill are allowed to have their wine cellars without fear of molestation, Judge Ben B. Lindsey of the Juvenile court freed Chester Laster

and Cleo Hinton, accused of giving young girls liquor to drink. In a statement read in open court Judge Lindsey charged that a conspiracy exists among the rich to have the laws enforced only against the poor.
"If we are to have all jail sentences," said judge Lindsey, "I would recommend that the prominent men involved in the delivery of thousands of dollars worth of first-class booze—free of the poisons that are in the booze of the poor and are punishment enough—be followed, prosecuted and sent to jail.
"I would recommend that the society leaders and women of prominence who are interested in getting these laws enforced send their investigators into the homes of the rich with search warrants to inspect their cellars and then have the courage to go after them.
"I would recommend that they call one of their leading business men and social lights before their boards and committees and if possible make him tell what he had to do with thousands of dollars' worth of first class booze found in his garage this week.
"Then the uplifters and the up-heavers will do a little more work of this kind it will do more to encourage the courts to enforce the laws than sentencing the poor devils to the jails and the penitentiaries."

TWO NEGROES ARRESTED IN RAID ON LIQUOR STILL.

MARSHALL, Texas, Oct. 10.—Deputy Sheriffs Johnson and Swinney arrested Horace Helton and his wife, negroes, on the Hynson Springs road and brought them to town on the charge of illicit distilling. The offi-

Yours for quality merchandise and low prices.

## The Time DRY GOODS CO.

Cisco Shopping Center  
Phone 468. 715-717 Main Street.

Mrs. C. W. BUCHANAN, Phone 535.

#### Social Calendar.

October 10.—Call meeting of Eastern Star.

October 12.—First Bridge club will meet with Mrs. John Neel.

October 13.—1920 Bridge club meets with Mrs. E. C. Smith.

October 14.—The Rosewell Heights club meets with Mrs. B. E. Morehart.

Mrs. Dean Sherry entertains with a Dutch party for Miss Patterson.

Five Hundred Club.

Mrs. John McMeans entertained the Humboldt "500" club on last Wednesday afternoon.

Beautiful tea roses were used to decorate the rooms. In the games, Mrs. Frank Ackman made high score. After the games, Mrs. McMeans, assisted by her sister, Miss Louise Cowan, served apricot ice and cake to the following ladies: Mesdames Harry Edwards, W. J. Armstrong, Frank Ackman, Frank Yoder, Hiram Thompson, Howard De France, Pete O'Conner, George Simpson, Jake Martin, Misses Mamie Davis and Marnie Lee Hayden.

#### First Birthday Party.

Little Miss Betty Lou Yates, daughter of Mr. and Mrs. Vern Yates, of 200 West Fifth street, celebrated her first birthday with a party Saturday afternoon from four to six o'clock. The little lady received many presents. Refreshments were served to Lucille McCall, Hartman McCall and Howard Kemper.

#### Compliments Sister.

Mrs. Eugene Lankford complimented her sister, Mrs. J. D. Jones, of Philadelphia, Pa., Saturday afternoon. The Hal-

lowe'n idea was carried out in the decorations, score cards and napkins. The afternoon was pleasantly spent in playing "42," and at the conclusion of the games, Mrs. Lankford and Mrs. Baby Miller served apricot ice and chocolate cake. The guests included Mrs. Jones, Mesdames Leon Smith, Charles McBride, Edgar Noel, R. E. Grantham, J. Scott, Baby Miller, C. V. Rominger, Bert Morehart, Vickers, Hittson, Morehart, J. W. Shepherd, R. Q. Lee, C. G. Howard, Leon Maner, Dick Starr, J. C. Stafford, O. W. Shepherd, W. C. Shelton, L. W. Hilgenberg and R. L. Bettis.

### PERSONAL MENTION

Mrs. J. A. Nelth and Mrs. Tom Hanrehan attended the style show in Ranger Wednesday and Thursday of last week.

### FREIGHTER ON GREAT LAKES MAKES RECORD FOR UNLOADING ORE

CLEVELAND, O., Oct. 10.—The great lakes steel freighter, D. G. Kerr, one of the crack 600 foot long, 60 feet wide, steamers of the Pittsburgh Steamship company, a subsidiary of the U. S. Steel corporation, has broken the world's record in loading and unloading iron ore. The Kerr, commanded by Captain W. P. ("Speed") McElroy, is one of the fleet of 100 vessels of the company controlling the largest fleet of steamboats in the world and is one of the third largest boats on the great lakes.

On Wednesday, September 7th, last, at the Two Harbors, Minn., docks of the Duluth & Iron Range railroad, the Kerr loaded 12,382 gross tons of iron ore in 16½ minutes, or at the rate of 1000 tons per 1.3 minutes, breaking the former record, which stood for ten years, made by the steamer Corey, 9362 gross tons in 25 minutes, at the rate of 1000 tons per 2.7 minutes.

The Kerr docked at 5:42 p. m.; started to load at 5:43 p. m.; finished loading at 5:59½ p. m., and left the dock at 6:01 p. m. on her voyage down the lake. She was at the dock only 19 minutes.

The ore cargo was poured into the Kerr through 35 hatches, all hatches being in operation two minutes after the signal was given to start loading. No time was lost in trimming, or balancing the cargo, the boat's hatches being battened down immediately after the lines were cast off, the automatic "tell-tale" registering exactly at zero, indicating the vessel was showing no list to either side. The draft of the steamer when loaded was 19 feet 11 inches forward and 20 feet 5 inches aft.

The loading was under the supervision of Captain McElroy, Dock Agent George Watt and Mate C. A. Wallace. A newspaperman on board the Kerr was the official timekeeper.

When the cargo reached the company docks at Conneaut, O., on September 12, another record was broken in unloading, the 12,382 gross tons being unloaded in three hours and five minutes, at the rate of 1000 tons every 14.9 minutes, against the previous record of the steamer McCosgle, made in 1919, of 14,299 tons in 12 hours, 25 minutes, at the rate of 1000 tons every 52.2 minutes, and the steamer P. A. B. Widener, made in 1912, when 10,636 tons of ore was discharged in 2 hours and 50 minutes, at the rate of 1000 tons every 16 minutes. The McCosgle and Widener also unloaded at Conneaut.

## Our New and Remarkable Premium Offer

This Magnificent \$6.50 "Sweet Home" Rocker Given Free to Our Customers. COME IN AND GET YOURS.

By a fortunate deal we have secured from the American Chair Company of St. Louis, Mo., the exclusive agency for this locality for their Celebrated "SWEET HOME" Arts and Crafts Rocking Chairs, like illustration, and we want to place one in your home. You can get one for every room if you wish.

No home ever had enough comfortable Rocking Chairs; that's why we have arranged to give these Fine Rockers as premiums to our customers. This is a present you will be proud of.

This handsome Arts and Crafts Rocker is a substantial piece of furniture and the entire construction represents beauty, strength, comfort and durability. They are appropriate for all rooms.

They are made of SOLID OAK, thoroughly seasoned, Fumed Mission Wax Finish, which is a rich brown or golden color that will not scratch or mar easily and does not become dull by change of temperature. Every part is high grade and the workmanship is first class.

The seats are large and roomy, nicely and substantially padded and covered with a good quality of "Imperial" Spanish leather, which is a splendid substitute for genuine leather and has durable wearing qualities. Size of seat, 19x19 inches; height of back from seat, 22 inches. Entire height, 35 3-4

inches. These lustrous Rockers sell regularly for \$6.50. Pasted underneath the seat of every chair made by the American Chair Company you will find their trade mark, as shown in the illustration, which is your safeguard against imitations and inferior goods. This trade-mark is a sign you are getting the best Furniture made. Look for it.

We make this liberal offer to secure new customers and to increase our trade with old customers.

#### HERE IS THE OFFER.

With every \$50.00 worth of goods you buy from us for cash, whether bought at one time or different times, we will give you one of these Rockers for \$1.75. Get as many Rockers as you wish, one Rocker for \$1.75 with every \$50.00 you trade.

#### HOW TO GET A' ROCKER ABSOLUTELY FREE.

If your cash purchases from us amount to \$100. during a period of twelve months, that is \$50.00 additional, we will refund the \$1.75 you have paid for the Rocker, thus giving you the Rocker absolutely FREE. Remember that a Rocker will be delivered to you for the small sum of \$1.75 just as soon as you have purchased \$50.00 worth of goods for cash, and it will be optional with you whether you trade the additional \$50.00 and get the Rocker FREE.

The Rockers are now on exhibition at our store. You are invited to call and see them and get a punch card. Have all of your purchases punched on your card. Do all of your trading with us and you will soon have a Rocker for every room.

You will always find a choice selection of dependable Merchandise at our store, and our prices mean a saving to you.
