FRIDAY, OCTOBER 4, 1930

NUMBER 10

## Meeting to Consider Cotton Limit Acreage Bill

### Oil Proration Protest Hearing Held Here

A hearing, called by Dr. R. D. Parker, chief supervisor of the oil and gas division of the railroad commission, was held in Cisco Monday afternoon for the purpose of considering various protests which has been made to the commission concerning the recent proration measure. The leading features of the protests were concerning wells making water. This matter was referred to W. H. Dyer, of Graham, who is proration umpire for the West Central Texas District, and who was also present. It was stated that there are rules in this connection to take care of such wells which are making water and which would be ruined if not kept to the maximum of production.

Other protests stated that the purchasing companies were in many cases not taking the allowed maximum of oil under the ruling, and it was shown that in some cases the oil companies were making their pur-

chases on a proration basis made by themselves. The proration officers replied by stating that the commission's powers only covered the enforcing of prorating the oil for the district, and that they could not force the purchasing companies to take more oil than they chose to buy.

About twenty operators and representatives of operators were present at the meeting. R. D. Parker, chief supervisor of the oil and gas division of the railroad commission, Chief Deputy supervisor, Leslie Mc Kay, Deputy Supervisor Omar Burkett, Deputy Supervisor I. J. Killough, and W. H. Dyer, Proration umpire for the West Central Texas District. These gentlemen seemed confident that the proration plan would be worked out very satisfactorily for all concerned. Some of the operators, however, express serious doubts of the success of such a plan.

### IS "OLD RIP" STOLEN OR IS HE JUST "BORROWED"

Press reports have it that "Old Rip," the famous Eastland county horned toad, which it was claimed, lived for thirty years entombed in the corner stone of the old courthouse, died some time after being brought to daylight, and his body placed on display in a beautiful little casket in the courthouse lobby, has been stolen. It was discovered Thursday that someone had removed the top from the display tomb which encased the mummified body of the toad and the mortal remains of "Old Rip" was missing. "Stolen," say news reports. But some very well defined rumors have it that it was known that the body was going to be removed and "borrowed" to be taken to other parts of the country where it would be shown at so much per admission to wonder-awed crowds who had never had the chance

### RISING STAR PIONEER PASSED AWAY SUNDAY

An old pioneer citizen of Rising Star, Texas died Sunday morning at 7:00 o'clock, when M. G. Robertson, 70 years of age, passed away. Mr. Robertson was Commissioner of the Rising Star Precinct for several years, and was well known throughout Eastland County, which place he made his home for the past 40 years. He is survived by his wife, a daughter, Mrs. Burle Heath, and a son, Frank Robertson, of Rising Star.

F. H. Blankenbecker returned Wednesday from a trip to Spur.

to view this noted frog. However that may be, we hope for his speedy and safe return, for "Old Rip" belongs to Eastland county, it appears to us, and he should be kept here in his place in the courthouse lobby.

### Grand Jury Adjourns Hamilton Is No-Billed

Thirty-two felony indictments were returned by the Grand Jury at Eastland, which closed its session Wednesday afternoon.

Johnnie Hamilton, federal prohibition officer, who was charged with murder in connection with the killing of Virgil Day during a raid here on September 17th, was no-billed by the Grand Jury. Day was shot when he got out of his car on the opposite side from an officer when told to halt. He died on September 19. The scene of the shooting was in the 100 block on Twenty-second street.

The prohibition officers, in connection with local officers, had been making some raids in the vicinity of Cisco, and had taken some still equipment. W. L. Zent, acting deputy administrator for the northern district of Texas, came to Cisco to investigate concerning the shooting, and stated that the circumstances attending the affair seemed to indicate that the officer was acting in self defense. In a statement made by Day to one of the officers it is said that he admitted getting out of the car on the opposite side from officer Hamilton.

### Eastland Wins 2nd Prize at Abilene

Eastland County won second place carrying a prize of \$175, in the exhibits shown at the West Texas Fair at Abilene this week. The exhibit was taken there Monday morning by County Agent J. C. Patterson and Home demonstration agent Miss Ruth Ramey. Judges were T. B. Wood, district farm agent, of College Station, and E. A. Miller of the extension department of Texas A. & M. Runnels County took first prize of \$200, scoring 937 points and Eastland County also won \$125 on general club and other special exhibits.

### Defunct Bank Money Checks Forthcoming

Word was received this week by local attorneys that the lists of those who participate in the payment of dividends out of the guaranty fund to the depositors in defunct state banks have been completed, and delivered over to the State Treasurer. This news was received from Assistant Attorney General William Wade, advisor to the banking commissioner. More than 800 depositors in the old Commercial State Bank of Cisco will benefit from this payment it is said. Checks to these are expected to be forthcoming within the next few days.

### Old Jupe Brings Us Another Inch

Old Jupe Pluvius has been somewhat neglectful in his visits for some time, but he did pay us another very appreciated call Sunday, and spilled about an inch of good moisture over this territory. It fell slowly, and the ground got the full benefit of it, which will be of great help to some grain crops, and to pasturage. Some who had already sown grains, taking a gamble on receiving rains, will especially benefit by Sunday's rainfall. The rain was pretty general over a large territory.

### Our County Now Has Relief Freight Rates

County Judge Clyde Garrett is in receipt of a telegram from Senator Tom Connally that Eastland county has now been certified to the railroads for reduced drouth freight rates. It was certified to Secretary of Agriculture some time ago as entitled to these rates, but was left off the certification lists made to the railroads, and the matter is just now getting straightened out.

These rates, which are two-thirds the regular rates, apply to feed shipped into the county and to cattle shipped out to other places for pasture, but not on cattle shipped out to market.

A fine daughter was born to Mr. and Mrs. W. W. Donohue last Friday.

A meeting to consider the McDonald bill, which provides for the limitation of cotton acreage by statute, has been called to convene at the 88th District court room at Eastland Saturday evening at 7:30 o'clock. The call is made by State representatives, Victor B. Gilbert, C. F. Chastain, Representative-elect Tom J. Cunningham and Senator Oliver Cunningham. The call announcing this meeting follows:

To the Citizens and Tax-payers of Eastland County:

In view of a contemplated in all of the 41st legislature in extraordinary session for the purpose of considering what is known as the McDonald bill, which measure provides for the limitation of cotton acreage by statute, the control of the boll weevil and pink worm as well as the elimination of root rot in cotton, we your state representatives hereby call a meeting of the Citizens and Tax payers of Eastland County to meet in the 88th district court room at Eastland Saturday night at 7:30, October 4, 1930, for the purpose of discussing this measure and other recommendations in be-

half of drouth relief.

The newspapers are asked to carry this notice as a news item so that every citizen may have an opportunity to be present at the meeting.

O. F. CHASTAIN  
OLIVER CUNNINGHAM  
TOM J. CUNNINGHAM  
VICTOR B. GILBERT

According to reports Governor Moody will be requested to petition the Governors of all the Southern States to convene their Legislatures in special session to consider passage of uniform cotton acreage reduction legislation, it was revealed here Wednesday.

Governor Moody said he had received a letter from a group of farmers and business men, who met Tuesday, requesting an interview with reference to the matter. He said he would grant the audience.

The Governor had been considering a special session of the Texas Legislature to consider cotton acreage reduction legislation and other farm relief measures.

### BOLD ROBBER TAKES \$40 AT EASTLAND TIRE STORE

It was a rather bold robber who Wednesday night entered the Hall Tire Company station at White and North Seaman streets in Eastland, and made away with about \$40 in cash. It was early in the evening and the station was open, and men working there, it was said were busy out in front fixing a tire, when they looked in and saw a well dressed young man, who at first glance they took for the manager, at the cash register. On a second look they perceived, it is said, that it was not the manager at the register, and this smooth young gentleman was doing rapid work, impressing the "paid-out" key, cleaned the machine of its cash, and then hurriedly left the station.

W. L. Holmesly spent Tuesday in Spur on business.

### B. W. PATTERSON MOVES OFFICE TO EASTLAND

B. W. Patterson, who has been a prominent attorney here for many years, this week moved his law offices to Eastland, where he has formed a partnership with Grisham Bros. on the fifth floor of the Texas State Bank Building.

### THE IDEAL OPENS WITH TALKIE EQUIPMENT

Both of Cisco's movie theatres now have talkie equipment. The Ideal opened this week with this improvement completed by manager Greer, who is ever wide awake to any improvement of service for his patrons. The Ideal will show principally Western adventure pictures.

Hot pursuit was made of the robber, it was said, but he vanished into the night.

### Important Meeting Held By City Commission

The City Commission met at the City Hall Friday with all members present, and consideration was given to the probable expense of each department for the next fiscal year, in order that they might determine what part of the \$2.50 tax rate should be set aside for interest and sinking fund, and what part for maintenance. An ordinance was passed fixing the tax rate at \$2.50 on the \$100. Also the ordinance set aside \$1.50 of the \$2.50 to take care of interest and sinking fund, and \$1.00 of the \$2.50 was set aside for maintenance. It was pretty generally understood that it would not take all of the \$1.00 on the \$100 for maintenance, as all commissioners favored keeping the expenses

at the lowest.

There was also levied a street tax of \$5.00 on each male person between the ages of 21 and 45, inclusive, with the privilege of paying \$3.00 if paid by February 1st, 1931. Also there was levied by said ordinance a poll tax on persons between the ages of 21 and 60.

There was read and approved for payment various and sundry bills.

Some consideration was given to the selection of a garbage man, but no action was taken on this.

A sewer extension for East Cisco was voted, provided that 26 connections could be obtained. The commission recessed to meet at a later date.

### A HOME-OWNED NEWSPAPER

Subscription Rates: One year—\$1.50  
Outside the First 50 Mile Zone—\$2.00  
Entered as second class matter July 24, 1930, at the Post Office at Cisco, Texas, under the act of March 3, 1879. The Cisco Citizen is an independent Democratic newspaper, supporting what it believes to be right, and opposing what it believes to be wrong. Regardless of party politics, publishing the news fairly and impartially at all times.

### THE HEN NEVER TALKS HARD TIMES

As "the congregation stands and joins in singing" the Hard Times Refrain, the following item which we ran across recently in an exchange, seems to us as something which we might all well stop our "aching" long enough to think over and let its simple lesson soak well into our cloud-befuddled intelligence:

"Did you ever stop to think that hard times mean nothing to a hen? She just keeps on digging worms and laying eggs regardless of what is said about conditions. If the ground is hard, she scratches harder. If dry, she scratches deeper. If she strikes a rock, she scratches around it. But always she digs up worms and turns them into hard shell profits, as well as into tender broilers. Did you ever see a pessimistic hen? Did you ever know of a hen starving to death waiting for worms to dig themselves to the surface? Did you ever hear a hen cackle because times were hard? Not on your life; she saves her breath for digging and her cackle for eggs."

### THE AUTUMN CLASSIC

The most momentous topic today is the world's series. The annual blue ribbon event of the national game is on, and baseball fans are in a happy frame of mind. The opening game was played at Philadelphia Wednesday between Connie Mack's Athletics of the American league and the fighting St. Louis Cardinals who won the most dazzling National league pennant race in years. The Athletics won the world baseball title in 1929, after a lapse of sixteen years, and expectant fans will no doubt be well pleased with the thrills to be furnished by this year's Autumn classic.

Baseball is a clean sport and a great builder of democracy too. There is probably nothing that so quickly levels all barriers of class and creed as good, clean baseball—or football. The radio is an important factor in stimulating interest in this annual "big money show."

May the best team win!

### A ONE DOLLAR BILL

In order to get a line on the life and adventures of a dollar bill, the Waukegan Chicago Chamber of Commerce started out a new bill some time ago with a circular attached, requesting every person handling the bill to make a notation of its use.

Here is the history for 14 days changing hands for service:

- Five times for salary.
- Five times for tobacco.
- Five times for cigarettes.
- Three times for candy.
- Twice for men's furnishings.
- Twice for shaves.
- Once for automobile accessories.
- Once for bacon.
- Once for washing powder.
- Once for garters.

### DR. GHORMLEY GETS PATIENT FROM SANTONE

Any professional or business man who can get folk to come to Cisco to trade from as far away as San Antonio certainly should be considered an asset to Cisco.

We are told that Mrs. John R. Johnson of 210 Devine St., San Antonio, spent four days in Cisco having her eyes treated with lenses, preparatory to having proper glasses fitted by Dr. Ghormley. Evidently someone, other than Dr. Ghormley, benefited commercially by Mrs. Johnson's visit, as she could not live here four days without spending money.

Other out of town patients visiting Dr. Ghormley for professional services the past week are: Mrs. Fred S. Hayes, Eastland; Mrs. Laura B. Funk, of Eastland; Mrs. L. L. Looney, Olden; Mrs. Ora Strausel, Moran; Miss Billie Harris, Eastland; R. T. Sue, Eastland; R. T. Dye, Cisco, Rt. 5; Lloyd Funk, Eastland; W. B. Kuhn, Rising Star; Mrs. A. T. Grace, Putnam; Miss Reba Grace, Putnam; Mrs. G. W. Brunette, Eastland; Mrs. M. L. Jones, Cross Plains; Mrs. J. W. Walker, Rising Star; Mrs. A. L. Spencer, Rising Star.

### 1,000 COTTON PICKERS NEEDED AT LUBBOCK

The following item from the Ft. Worth Star-Telegram should be of interest to some in this section who are in need of employment:

One thousand cotton pickers are needed in the vicinity of Lubbock, it was announced yesterday by the United States Employment Service office after the receipt of a telegram from the West Texas city.

Calls from various other towns seeking workers to aid in gathering the crops also were received. These came from Electra, Vernon, Childress, Shamrock, Memphis, Levelland, Midland and Tahoka.

Five employees of the labor office here were sent to ride the highways yesterday and direct the migration of cotton pickers, C. W. Woodman, in charge of the office, said.

More than 6,000 pickers can be used in Arizona, according to word received by Woodman. The cotton in that state is long staple and picking prices are quoted at \$1.25 per hundred. Pickers must go in families, however, Woodman said.

The Chamber of Commerce here has received several requests for cotton pickers, according to Secretary J. E. Spencer.

Once for tooth paste.  
The dollar bill was spent 27 times, but it never got into a church or theatre, and was not used for amusement in 14 days. It was new when it started out, but when it came back it was soiled, wrinkled and dejected.

### WEST TEXAS UTILITIES CO. DOING NEW CONSTRUCTION WORK

ABILENE, September—Current construction work being carried forward by the West Texas Utilities Company includes the extension of lines to new customers, the rebuilding and improving of city distribution systems, and the installation of street lighting equipment, according to announcement from the general offices of the company here.

Important new lines under construction are: a 6600 volt line from Ovalo to Bradshaw, a distance of approximately eight miles, to form the third phase of the system connecting the two towns; the running of a three phase 11 kv line to the W. D. Swan oil lease in Jones County to supply service to the C. C. Julian Oil Royalty Company for its drilling operations; the extension of a three phase primary line to the new Santa Fe Railroad Terminal north of San Angelo to serve the shops with power for electrical equipment, and the extension of a primary line to a new residential district in McCamey.

In Abilene, 20 street lighting standards will be erected on Sayles Boulevard, from South Ninth Street to South Fourteenth Street. Lighting equipment will also be installed on the Colorado River Bridge at Ballinger.

Distribution systems will be improved in Aspermont and Anson. A new line will be built to serve the new Aspermont high school, and an extension will be run to the city pump station and water wells at Anson.

75 new grounds are being installed on the 17 mile transmission line between Vernon and the town of Harrold.

Anticipating an early recovery from the current depression, the company is extending and improving present equipment in order to be ready for the increased activity which always follows sub-normal conditions in West Texas.

A very damaging fire wiped out the greater part of Santo, Palo Pinto county, Wednesday night last week with a loss of approximately \$14,000. Cause of the blaze was undetermined. It started in the Masonic hall over the Bradford Grocery, and this building was destroyed, with a loss estimated at \$4,000, and \$2,000 on the grocery stock. Two buildings owned by L. E. Beaty were destroyed, with a loss of \$2,000. Another building and a barber shop and cafe were among those suffering serious damage. Fire trucks from Mineral Wells and Gordon went to the scene of the flames, but arrived too late to do much good.

One trouble with these tax relief plans is that they relieve the tax payers very little.

### SHELLFIRE REALISM SEEN IN PHOTOPLAY

20,000 Lbs. of Black Powder and Six Tons of Dynamite Used for "All Quiet"

Explosives enough to demolish a city were used in the greatest battle scenes ever filmed in "All quiet on The Western Front", Universal's picturization of Erich Maria Remarque's masterful book of the war, which will open Sunday, at the Palace Theatre.

More than 20,000 pounds of black powder and six tons of dynamite were used to give the effect of shell fire and mine explosions. Six thousand bombs were planted and exploded on the battlefield covering twenty acres of land on the Irvine ranch, near Los Angeles.

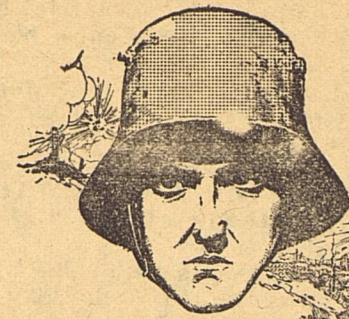

Five hundred shells of various sizes were sent screaming and whistling through the air, actually fired from guns, to give the proper sound effect of shells in flight. These shells of course were fired far over the heads of the soldiers participating in the scenes. The effect of landing and bursting shells was gained by planted bombs exploded by electricity at the proper moment.

One of the terrific war scenes of the picture shows a French village under bombardment. In this scene shells are seen bursting in the air over the village occupied by a thousand or more German soldiers. A building is blown to fragments. Other explosions tear up the streets and shatter the walls. In another scene a church is demolished by three direct shell hits while a company of German soldiers is passing it.

Twelve flame throwers were used in certain scenes. A battery of twenty German Howitzers, captured by the american army and now trophies at various American Legion posts,

### ANNUAL ACCIDENT BILL IN TEXAS IS SAID TO BE NEARLY \$100,000,000

In the neighborhood of \$100,000,000 is the annual accident bill in Texas, according to H. T. Kimbro, member of the State Accident Board, in figures just given out.

The board receives notification of 400 accidents to individuals daily in Texas, totaling 146,000 a year, while the United States casualties in the World War were but 80,000 killed, wounded and missing. Insurance companies pay the accident claims and a conservative estimate of \$200 each runs the bill up to nearly \$30,000,000, but this does not take into consideration the large number of casualties that do not come under compensation insurance nor the financial damage caused by accidents increasing the toll to a figure approximating \$100,000,000.

"The public does not realize how serious the situation is," Kimbro declared. "The average of 400 accidents reported daily to our body seems unbelievable, but it is true. A large number of the accidents is reported by those mechanically employed, but at the same time accidents cover every variety of human endeavor, from airplane crashes to slipping on banana peels."

were used in the bombardment scenes. These guns were loaned to Universal by the Legionaries.

Mrs. A. J. Olson has returned home from Ft. Worth where she went through the Harris Clinic.

Mrs. J. W. Hartman, Mrs. W. A. McCall and Mrs. Ross Cotton were visitors in Ranger Wednesday.

**PRESBYTERIAN WOMAN'S AUXILIARY HAVE PARTY**

The Woman's Auxiliary of the Presbyterian church held a tacky party at the home of Mrs. F. D. Pierce, 304 West 6th St., Wednesday afternoon. Much merriment was caused by the many and varied costumes that were ensembled, the prize for the tackiest being awarded to Mrs. A. Spear.

The refreshments carried out the scheme, dixie cups being served, and paper napkins being used. A very entertaining program was enjoyed by all present.

**MRS. BALWIN ENTERTAINS THE JUST-A-MERE CLUB**

The Just-a-Mere Bridge Club was entertained Wednesday by Mrs. Guy Baldwin at her home, 1200 M avenue. Mrs. Frank Jacobs won high score, Mrs. R. B. Gustafson of Breckenridge, second high, and the cut went to Mrs. I. R. McMillan.

At the close of the games an attractive salad plate was served to: Mesdames F. O. Sibley, Johnnie Bricker, Elsworth Meyer, D. Gordon, H. B. Hackleman, C. M. Nichols, Fannie Pulley, G. L. Wingate, I. R. McMillan, Frank Jacobs, R. B. Gustafson and Kenneth Couch.

**HUMBLE BRIDGE MEETS WITH MRS. HENDERSON**

The home of Mrs. Reggie Henderson was the setting for a very charming party when she was hostess to the Humbletown Bridge Club Wednesday afternoon.

The rooms were decorated with roses and dahlias, carrying out the color scheme of pink and green. These colors also prevailing in the bridge accessories and refreshments. When score was ended Mrs. Roy Stover was awarded high, and Mrs. McGannon low.

Rather unique refreshments consisting of a salad course, with puffles, caramel pie and iced tea were served to Mesdames R. D. Stover, M. L. McGannon, Jake Almond, W. J. Armstrong, W. W. Wallace, F. D. McMahon, O. C. Cope, G. M. Simpson, W. K. Eszen, Ted Mullinix, J. M. Carter, and Miss Mayme Davis.

The club will meet October 16th, with Mrs. McGannon hostess.

R. W. Mancill had business in Moran Thursday.

Mr. and Mrs. A. B. O'Flaherty arrived here Monday night to make their home in Cisco.

Mr. and Mrs. Geo. D. Fee are away this week on a trip through the Rio Grande valley country.

Mart Agnew, who had a tolectomy operation Tuesday, is doing nicely now, and is able to be out again.

Mr. and Mrs. P. B. Glenn are now living at the Jack Pippen home on N avenue. Mr. and Mrs. Pippen are leaving Cisco to make their home in Fort Worth.

Mr. and Mrs. L. E. Vaughn have returned from Missouri, where they have been visiting with her parents and other relatives there.

**MRS. E. L. GRAHAM HOSTESS WEDNESDAY BRIDGE CLUB**

Mrs. E. L. Graham was hostess to the Wednesday Bridge Club this week at her home in Humbletown. A color motif of red and white was carried out in decorations and bridge accessories. Mrs. Alex Spear won high score and Mrs. L. A. Harrison low.

A refreshment course of sandwiches and ice cream pie was served to the following: Members: Mesdames A. Spear, E. P. Crawford, Will St. John, L. A. Harrison, H. S. Drumwright, R. A. Williams, F. D. Wright, and Oscar Cliett.

Orbie D. Jacobs, who was seriously hurt in football scrimmage, is now very much improved, and is at the home of his brother, Frank Jacobs, on 17th street.

**SPORT SPASMS**

By DICK WEST JR.

"The touted Mavericks of Eastland have been met, and they are ours."

The Loboes, playing sluggishly, made thirteen points in the first half on two runs by Johnnie Connell. The second half got under way, and Bobbie Blackburn was at quarter. On the first play the little quarter, on a beautifully executed fake reverse, darted through Cole's tackle for twelve yards. A grin came over Jew Hill's face that made him look like a Greek, because Bobbie was driving. Truly it can be said that Blackburn is the hardest driving back Chapman has; his legs are big and he keeps them close together when he is running, but the most beautiful feature of Blackburn's playing is his catching of punts, especially when he runs back on the oval. He takes it, shifts, and heads those driving legs straight down the field. He will probably take Chambliss' place.

Johnnie Connell, scoring four touchdowns against Eastland took a big jump in the scoring column. Clark still leads, and McCarty is second, but Johnnie will be up there when the next count is taken. If the hustling big back keeps working on his stiff arm, develops his twirl a little more, and keeps his head up, he will be the leading scorer in a few weeks. Clifford Turknott will be a close second, for the little captain is running better this year than I ever saw him.

A word more about Clifford. Many criticisms were heard after the Eastland game concerning the quarterbacking—not enough strategy was pulled. As a refutation, Clifford was the smart boy; scouts were there from everywhere, and after the Loboes were safely ahead, what was the use of pulling anything else. However, the variety of plays were not pulled against Eastland that were thrown at Brady. Delayed passes, laterals, and a few forwards were used against Brady; only one pass was worked successfully against Eastland and it accounted for the second touchdown. The next game maybe a few more will be used.

All the scibes of the Oilbelt are moaning over the fates of their teams—especially the in-

juries. Chapman has had just as bad luck as any of them. Chambliss, hard driving, triple-threater, was lost the first week of training with a wrenched knee. He will be back in a few weeks hence. Jacobs, a promising substitute center, was lost all season, and Bennie, brilliant end, has a bad knee that will keep him out a while. Steen is just recovering from a shoulder hurt. We have a few injuries too.

Chapman's line is improving daily. The weighty men are not driving enough yet, but are tackling harder, Cole has improved more than anyone, and will live up to his expectations as a great tackle. Steen must learn more offense, and so must Massengale. Wagnon and Van Horn are good, but must hustle more.

Brownwood's red Lions are here today. Let's turn out and put another goose egg to their standing.

Mrs. J. J. Butts and daughters Mrs. F. D. Wright and Miss Mary Jane Butts were visitors in Dallas Tuesday.

A. P. Slater, who has been seriously ill for several days at his home on Ave. E, is reported to be better, with a very slight chance for recovery.
